The results of the past week were: KS drubbing of TEΩ 46-28, McLam of KS had eleven points and Goldman of TEP hit for ten digits. DP led by Bradford and Towne with 16 points apiece downed PDT 51-40, the loser's Walgreen scored 14 points. SN tripped SPE 26-25, Bemis of the losers was high man with 10 points. DP downed TEΩ 38-33. The winners were paced by Arrighi's 12 points and the losers Konigsburg and Goldman had ten points apiece. SAE led by Grace's 14 points beat PDT 41-35. KS with Beck scoring 14 points smashed PSD who was led by Reishe's 10 digits. TEΩ dropped SN 39-33. Goldman of TEΩ scored 15 points and Sharkey hit for ten. KS beat PDT 31-25, and PSD won by forfeit over SN.

The bowling activities of the week were restricted to determining the fourth qualifier for the final to be held next week, AEP captured the fourth position by outscoring SN and SP. The final four teams are SAE, SPE, TEΩ, and AEP.

Basketball standing:

KS	3-0
SAE	3-0
TEΩ	2-2
DP	2-2
SN	2-3
SPE	1-2
PDT	1-3
PSD	1-3

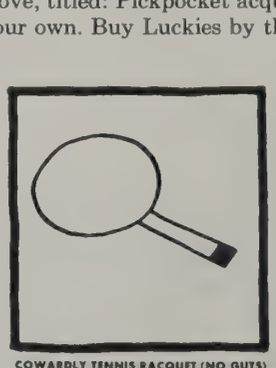
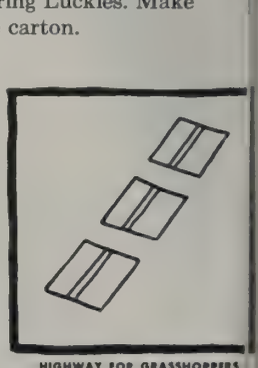
WHAT'S THIS?
For solution see paragraph below.



THEY'RE CLAMORING FOR THEM! Who? Students. What? Luckies. Coast to coast, dormitory to dormitory, college smokers prefer Luckies to all other brands, according to the greatest up-to-datest college survey. Again, the No. 1 reason for Luckies' wide lead: Luckies taste better. They taste better, first of all, because Lucky Strike means fine tobacco. Then, that tobacco is *toasted* to taste better. "*It's Toasted*"—the famous Lucky Strike process—tones up Luckies' mild, good-tasting tobacco to make it taste even better. So enjoy the better-tasting cigarette . . . Lucky Strike. But don't be like the man in the Droodle above, titled: Pickpocket acquiring Luckies. Make sure *you* have plenty of your own. Buy Luckies by the carton.



STUDENTS! **EARN $25!**

Lucky Droodles* are pouring in! Where are yours? We pay $25 for all we use, and for many we don't use. So send every original Droodle in your noodle, with its descriptive title, to Lucky Droodle, P. O. Box 67, New York 46, N. Y.

and push." Nat broke the all-time Vermont scoring record last year, (which was broken this season by Keith Jampolis) Nat split the nets for 855 points. 14 per game for 3 years. Nat is now with Firestone in Los Angeles, California, and playing some ball for the firm team.

"That's the individual team I'd put together if I had to, but there are others who had trouble drawing the line on," said Fuzzy. "I'd like to mention just two more individuals for special purposes," commented the good - natured Coach. Al Malinverni, '53, was the best contributor to the success of his team, and Marv Wolff, '53, was the most improved ballplayer from beginning to end.

We then, asked Evans a question the answer of which we knew would not be as difficult as the first one. "Coach, which team would you like to have every year if you could." "I'd take my '46-'47 club. I had Killick, Jake, Katlareyzk, Livingstein, Nieman, and Durkin all in one bundle. We had an 18-3 record that year. Our wins included those over Yale, a clean sweep of the State teams, and the big one over Manhattan. We lost a tough one to Cornell." Incidentally UVM beat Manhattan by 7, the day after Holy Cross (the Nation's top team that year) defeated the New Yorkers by the same margin. If we hadn't been upset by Clarkson toward the end of the season, we would have played Holy Cross for the N.C.A.A. district championship.

" Well, those are the breaks of a Coaches life," said Fuzzy." " Right now we've got to build for the future. A coaches aim is to 'mesh personalities-' and to get the best from what you've got and put it all together." And as the record stands, our coach has done a fine job of putting things together.

ROTC Rifle Unit In Nationals

by Ron Smith

The UVM rifle team has been busy in the past week as activity resumed after semester recess. The ROTC team is busy firing for the National ROTC Intercollegiate Rifle trophy. Last year the team placed 46 out of better than 5000 units across the country. This shooting match consists of four phases: prone and sitting, prone and kneeling, prone and standing, and kneeling and standing. The first two phases have been completed at the time of this writing and the first two scores show that the team has a very good chance to place.

A recent press release from the office of the New England College Rifle League is eighth with a 282.8 average; the high average is 289.9 Norcross of Vermont is 19th with a 280 average. At present, the team is 2 and 3 in the NECRL standing, with three matches left to shoot. The overall varsity average is 7-4, which is about the same as last year.

Army Rifles Score

The Army ROTC team has come along fast in the last month and shows a 9-3 record to date. Hibbard and Hicks have the two top averages on the ROTC team with 377.7 and 374.5 respectively. Because Hicks is a freshman he is only elegible to shoot for the ROTC team. No report has been received on the Hearst shootings in which the team sent in scores of 905, 889, and 822. These scores are a little lower than in past years but the present shooting is now improved over the past.

Air Force Wins Two

The Air Force rifle team scored two wins in three matches this past week. The team topped Yale and Cornell but they lost to Brigham Young. Sgt. Stockard reports that the team will be firing shoulder to shoulder with St. Michaels and Dartmouth Air Posts in the near future. Shooting for the Secretary's trophy will start soon and that is the high point for the Air team. The Varsity team will have a dual meet with Norwich and will also fire a sectional match at UNH on March 5. The Norwich match will take place on Feb. 26 at Northfield.

Dave Michael Wins USEASA Ski Meet

Dave Michael, UVM Frosh Ski man, won the Class B New Hampshire State and USEASA Jumping Championship in competition held at Lebanon, N.H. last weekend.

Dave is the son of Dartmouth's Swimming Coach and is the man to watch on UVM's Ski Team in the next few years.

DWIGHT AND LIZ REIGN

The curtains of the Memorial Auditorium stage opened dramatically last night to reveal Liz Semans and Dwight Kahlo as Queen and King of the University of Vermont's 58th annual Kake Walk.

Miss Semans was the candidate of Pi Beta Phi sorority. A stately dark-haired Junior, Liz hails from Dorchester, Mass.

Kahlo, a member of Sigma Nu Fraternity, is a six-foot blond-haired resident of Brookfield, Conn. He is a senior.

The regal pair were ushered amid the cheering of students by attendants of their respective organizations from the stage to the royal throne at the side of the dance floor.

Other candidates were Clem Forte, Ed Memer, Joe Wark, for King. Queen candidates were Phyllis Bracey, Barbara O'Hara, Elaine

Open Two More Lectures To All UVM Students

UVM students are invited to take advantage of two more open lectures as a result of the Curriculum Committee's request to faculty members to open selected lectures to any and all interested students.

On Tuesday, March 1, Adam Skapski of the Physics Department will have 80 available seats in Room 104 of Williams Science Hall for his lecture entitled "Leojardo Da Vinci, the Man Behind the Myth." This is a 10 a.m. lecture.

On Thursday, March 3, Morris Simon of the Political Science Department, will have a number of seats available for his lecture entitled "U.S. National Executive." This is the first of a series of open lectures in the department's intra departmental seminar on Popular Government. On March 10, W. Ross Yates will give an open lecture on "French Executive."

Each of the lectures in this series will be at 4 P.M. in Room 117 of the Old Mill. Editor Note: Two previous lectures which had been announced, but which somehow were lost in the shuffle, were "How America Lives," by Esther Knowles of Home Economics and "Communications Theory," by Sally Maybury of Commerce and Economics.

Marsha Pearl Appointed To Mademoiselle

New York, N.Y. - The University of Vermont will be represented this year on MADEMOISELLE'S national College Board by Marsha Pearl, '55. She is one of the 700 students who competed with applicants from colleges all over the country to win a place on the Board, according to MADEMOISELLE.

As a College Board member, she will represent her campus and report to MADEMOISELLE on college life and the college scene. She will complete three assignments that will help her explore her interests and abilities in writing, editing, fashion, advertising or art, in competition for one of twenty Guest Editorships to be awarded by the magazine at the end of May.

The Guest Editors will be brought to New York for four weeks next June to help write, edit and illustrate MADEMOISELLE'S 1955 August College Issue. Their transportation will be paid to and from New York and they will receive a regular salary for their work.

In addition to their work on the Magazine, Guest Editors will interview outstanding men and women in their chosen fields to help clarify their career aims.

Trustees Vote To Ban "Greeks" That Keep Restrictive Clauses

By Max G. Ansbacher

Restrictive membership clauses will have to be abolished in all campus organizations within seven years, as a result of a motion passed by the University Board of Trustees this Saturday.

The effect of this regulation will be felt most strongly by the six fraternities which have such clauses in their national charters; Theta Chi, Alpha Tau Omega, Kappa Sigma, Sigma Nu, Sigma Phi Epsilon, Phi Delta Theta. The action of the Board came after the bill had passed the University Faculty Senate, and been favorably commented on by an opinion poll of UVM students.

Opinion Poll

The opinion poll which was conducted at registration was answered by 2,342 students of which 46% felt that the University should take the action which it did. Almost a third of the students agreed with the principle of the bill but felt that the University should not ban an existing fraternity from the campus if the national would not remove the restrictive clauses.

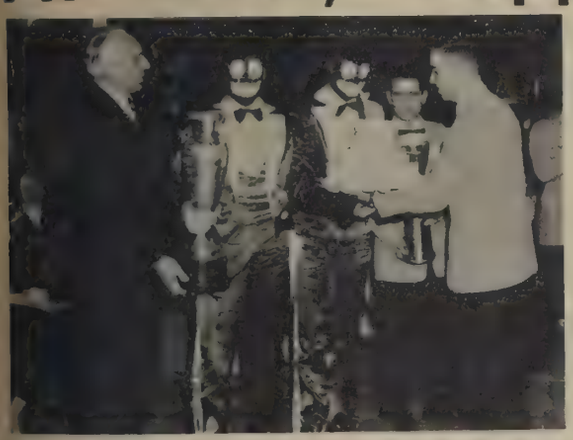
Only 14% of the total students responding to the poll felt that a national " should have the right to place such restrictions on memberships as it chooses. " However, 20% of the fraternity men felt that this was the correct view-point.

Nationals Opposed

The fraternities which will have the hardest time obeying the regulation are those which have strong Southern chapters which are violently opposed to dissolving the discriminatory clauses.

As ATO president Robert Mallozzi expressed it, "We're all fighting as hard as we can to have the clauses removed, but the Southern chapters are powerful and determined to retain them. Unless something drastic happens, there is only a slim chance that we will be around in seven years. "

Under the new regulation, fraternities which do not remove the clauses will either have to disintegrate or else become local. Sigma Nu president Ed Hebb stated that, "We don't know definitely at the present what the chances of removing the clauses are, but it will certainly be brought up at the next convention, and will probably highlight the discussion. "



Change Unlikely

Sigma Phi Epsilon President Gary Fay pointed out that out of 138 chapters in their national almost 100 were in the South. Gary went on to say that, "The regulation puts us in a tough spot. Although anything can theoretically happen in seven years, it doesn't seem too likely that we will be able to change anything. "

Administration Backing

The regulation had the general backing of the administration. In a CYNIC article which appeared recently, President Carl W. Borgmann said that the purpose of the bill was not to force fraternities to change their admittance policies, because he didn t feel that this type of procedure could be changed by legislation. The purpose was rather to allow the locals the freedom of picking the men they wanted.

Phi Delts, Kappa Sigs Split Walking

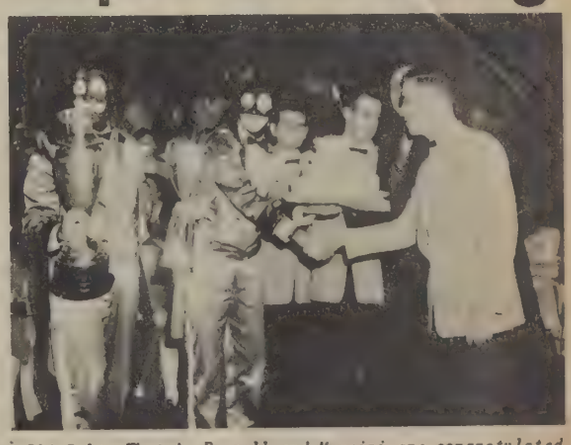
Kappa Sigma's McLam and Dacey receive cake and cup from George Plender, Stan Stein, and Kappa Sig Governor Joseph Johnson. *Photo - Haviland, SPS*

A pretty quartet is formed by King Dwight and Queen Liz, and their attendents Midge Haflinger and Jane Stickney.

Phi Sigma Delta Wins Skit Honors Both Evenings

Phi Delta Theta Eats Most Cake

The place to be last weekend, if you like cake, was the Phi Delta Theta fraternity house.



With "firsts " in walking and snow sculpture, and three "seconds " in walking and skits, the Phi Delts picked up five cakes for their efforts during the Kake Walk carnival.

First place in the walking Friday night went to Phi Delta Theta's Frank Maccini and Bill Farwell. Kappa Sigma's Bud Dacey and Al McLam took a "second " while third and fourth went to the Ireland brothers of Sigma Nu, and Lambda Iota's Bob Bdnoit and John Geisler.

SKIT WINNERS BOTH NIGHTS

Phi Sigma Delta took top honors both nights in the skit competition with their production of "Grime Doesn't Pay." It was the first time in four years that the double win in skits was accomplished. Phi Delta Theta's "Return to Nature " placed second both evenings.

(Continued on page 4)

President Announces Grants To School Totaling $32,000

The University of Vermont last week announced receipt of gifts and grants totaling over $32,000. Announcement was made by President Carl W. Borgmann following the meeting of the Board of Trustees.

Heading the list was a $17,500 grant from the National Science Foundation for the continuance of research by Dr. Richard G. Inskeep of the University's department of chemistry. Dr. Inskeep also received a $1,000 grant from the Research Corporation as a continuation of the Frederick Cottrell Gardner grant under which his research was begun.

Museum and Debate

The Fleming Museum received gifts valued at $1300. C. Ruxton Love, Jr., of New York City, gave an Italian 17th century group in wood of Samson and the Lion; Allan Gerdau, also of New York City gave a Chinese ceramic of the Sung period of about the 12th century A.D.; and Mr. and Mrs. Harold Kaye of New York City gave three lead plaques of the Romanesque period representing St. Bartholomew, St. John, and a Bishop; a late 16th or early 17th century wooden armchair from France, and a square yard of green velvet dating about 1600.

Edwin H. Lawrence of Rutland gave stock valued at approximately $3,000 to the E. W. Lawrence Fund in support of the Lawrence Debate Club at UVM.

G. E. P. Smith, irrigation engineer at the University of Arizona and a former student at Lyndon Institute and a graduate of UVM, gave securities worth approximately $1200 to an endowment fund which he established at UVM in 1932 for Lyndon Institute graduates.

Miscellany

George W. Merck gave securities worth approximately $2500 for the "free funds" of the College of Agriculture, and the Howard National Bank of Burlington gave $1200 and the Sprague Electric Company gave $250 both to the unrestricted funds of UVM.

The department of commerce and economics received $1,000 from Salomon Brothers and Hutzler, and also a gift of $200 in support of the Wall Street course held during the Summer Session.

Two gifts totaling $600 were received for the Centennial Field Field House, and a $50 gift was received for the Medical Student Loan Fund.

In addition, Dr. Elizabeth D. Proctor gave $500 for the Elizabeth D. Proctor and Clifford R. Proctor Loan Fund for Medical Students.

US Industry Adopts New Attitude Toward American College System

Recognizing that the future of the nation may well be in the hands of institutions of higher learning, U.S. industry has adopted a whole new attitude towards higher education in the past few years and set up a series of plans to help colleges and universities.

With the announcement last month of a $2,000,000-a-year gift program by General Motors, TIME says in the Jan. 24 issue, "one thing had become clear: U.S. industry was well started on a program to give help to U.S. colleges and universities--and therefore to help itself.... Though U.S. corporations are far from using up the 5% tax exemption allowed (they use less than 1% for all types of philanthropy), they have obviously adopted a whole new attitude...as practical and down-to-earth as a balance sheet."

Mutual Help

Nearly half the nation's private colleges are running in the red. U.S. campuses will need at least $3,570,000 before 1960 for plant construction alone and it will take $5,500,000 merely to house the estimated jump in enrollments by 1970.

Until the crisis became so acute, TIME says in its report on industry aid to education, most companies were satisfied to finance a few scholarships and professorships or research projects related to their own work. Some worried about stockholder objections and legal rights. But gradually, "under the prodding of such men as Alfred P. Sloan, Jr., Irving S. Olds, Laird Bell and Frank Abrams, U.S. businessmen began to realize that 1) higher education is industry's best hope for talent, and 2) industry is education's best hope for funds."

What Companies Are Doing

Of all the plans in effect so far, TIME says, none is more comprehensive or generous than General Motors', which adds $2,000,000 to the $2,500,000 already being spent annually on special training, fellowships and research. Other programs:

Ford Motor Co. finances about 70 scholarships a year for the sons and daughters of employees and also gives $500 annually to each private college or university the students happen to choose.

The Gulf, Mobile & Ohio Railroad has given more than $185,000 since 1951 to private colleges along its route.

DuPont now pours $2,500 grants into the chemistry departments of 50 different campuses, expects to give in various ways $800,000 this year.

The Radio Corp. of America will pay for 26 scholarships (at $800) this year.

Standard Oil Co. (N.J.) spread $450,000 over 138 campuses plus $50,000 for the National Fund for Medical Education last year.

Union Carbide's plan: $50,000 for 400 scholarships to more than 30 colleges.

Standard Oil Co. (Ind.) gave more than $350,000 in 1954, matches its scholarships with equal gifts to each campus.

U.S. Steel last year gave $700,000 in unrestricted gifts.

Bethlehem Steel since 1953 has given $321,000 to the colleges -- if privately endowed -- of young employees completing its collegiate training program.

A Campus-to-Career Case History

Manager Ray New explains the importance of good service to one of his assistants

His "individual training" paid off

When Ray New—Business Administration, Buffalo, '51—started with New York Telephone Company, he never suspected his work would face him with problems of this sort—

"My job as business office manager is to see that the customer gets the best possible service. One of my assignments took me into a section of Manhattan that had a large Puerto Rican population.

"Frequently our people would get somebody on the line who couldn't speak a word of English. So I saw to it that each of my representatives learned a few standard Spanish phrases—enough to get somebody to the telephone who could speak English.

"There are no two days alike in this work, with new problems coming up all the time. The best part of it is that the training program here is tailor-made to the job. First you get a general background in the business, then you go into what I call 'individual training.' That's where your own special abilities are developed and you're encouraged to think out new ways to solve everyday problems—like the one I just described.

"Right now I'm Business Manager in charge of an office doing $250,000 worth of business a month."

You'll find these things true of college men, like Ray New, who go into telephone work. They've been well trained, they enjoy their present jobs, and they're headed for responsibilities and greater rewards. If you'd be interested in a similar opportunity with a Bell telephone operating company, or with Sandia Corporation, Bell Telephone Laboratories or Western Electric, see your Placement Officer for full details.

Friends Service Worker Tells Of Lack Of Student Relevance

Jean Fairfax, New England representative of the American Friends Service Committee, was the speaker in the Ira Allen Chapel last Wednesday morning.

Miss Fairfax said "We hear a lot today about the apathy of students, but I do not think students are apathetic." The dictionary defines apathy as lack of passion and emotion, and as lack of the capacity for excitement, Miss Fairfax said, noting that the signs of Kake Walk on the UVM campus would hardly lead to the conclusion that UVM's students lack the capacity for excitement.

" It is not apathy," she said, but "irrelevance, which characterizes as students today. Students are aware of what is going on in the world, but feel it is impossible for them, as individuals, to do anything.

" Students know the facts," she said. " They know of destruction, of hunger in the world, of refugees, child labor, race discrimination; and they know that these things should not be in God's world. But they are unable to relate themselves to the facts.

"It has been the Quaker experience," Miss Fairfax continued, " that meaning for life comes from the effort to make the living God active in the individual's life."

"The student, too, can help," she said. " He can make his life relevant to the stream of human events. Indeed," she concluded, "It is our religious conviction that the individual has not only the ability but the obligation to make his life relevant to the stream of events."

President Appoints Three New Staff Members This Semester

The Board of Trustees of the University approved the appointment of three new faculty members at their meeting last week, President Carl W. Borgmann has announced.

The three appointments are in the College of Arts and Sciences. All are effective February, 1955. They follow.

Samuel Krislov was appointed as an instructor in the department of political science. He received the BA degree cum laude from New York University where he was initiated into Phi Beta Kappa, and also holds the MA from NYU. He is a candidate for the Ph. D. degree from Princeton University, and has served as Hillel Counselor for New Jersey State Teachers College and for Rider College.

Raphael Zariski was appointed as an instructor in the department of political science. He received the AB degree magna cum laude from Harvard University, and also holds the AM and Ph. D. degrees from Harvard. He has served as a teaching fellow at Harvard and as Eastern Field Director for the United World Federalists.

David Romey was appointed as an instructor in the department of romance languages. He holds the BA and MA degrees from the University of Washington, and is a candidate for the Ph. D. degree from Columbia University. He has served as a teaching fellow at the University of Washington.

Pinson Highlights Week Celebrating Tercentenary Of Jewry In America

Dr. Koppel S. Pinson will highlight this week s celebration of the American Jewish Tercentenary by speaking on "Jewish Life in America- Its History and Prospects ", He will speak this Saturday at 8:00 PM in the Ohavi Zedek Auditorium. The entire University family has been invited to attend this as well as the rest of the week's events which commemorate the first American Jewish settlement in 1654.

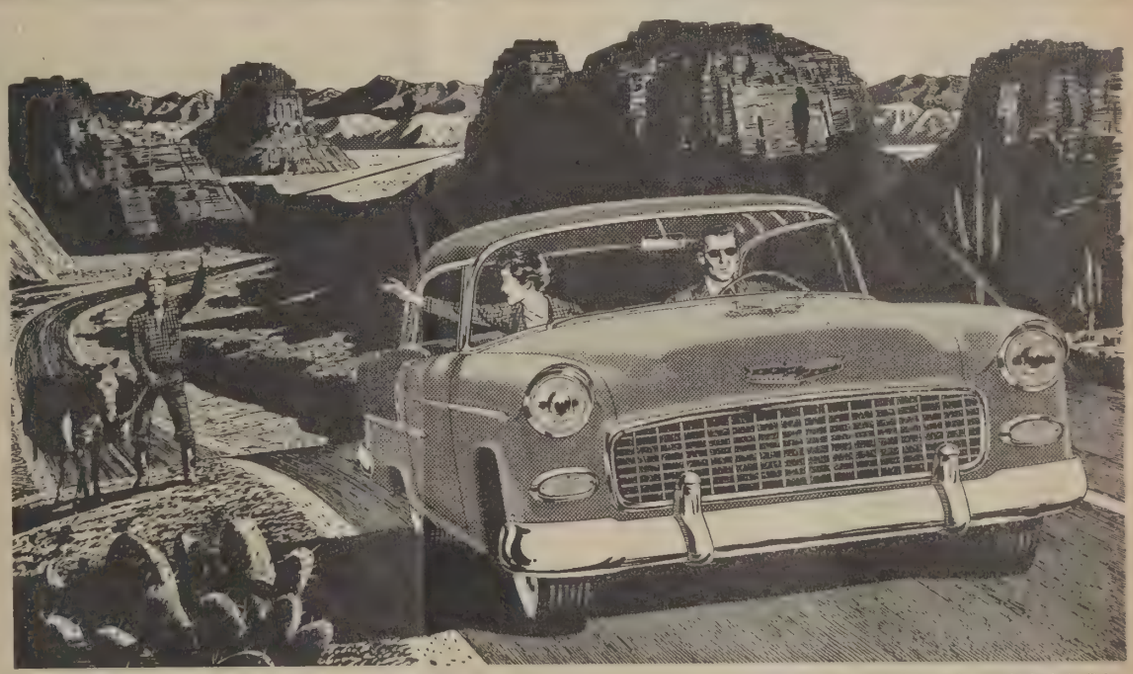
Week's Program

The entire week's program is free and open to the community as a whole. It includes a special Friday evening service to be held in the Ohavi Zedek Synagogue at 8:00 PM, after which refreshments will be served and an address given by Rabbi Max Wall.

Saturday Night

On Saturday night, Professor Paul Evans, Dep't of History, UVM, will introduce the evening's events including the University Choir's performance of "I Hear America Singing ". The poetry of Walt Whitman inspired George Kleinsinger to write this moving cantata which is to be led by Professor H. G. Bennett. The soloist is Nicholas Brown, a member of the Class of 1956.

Carl W. Borgmann, president of UVM will extend greetings to the community-wide audience and then Dr. Koppel S. Pinson is to give his address on the aforementioned topic.



Pinson's Background

As Professor of History and Chairman of the Division of Social Sciences at Queens College, he has taken an active part in socio-historical education and scholarship. Among Pinson's more recent publications are *Freedom and Reason* and *Modern Germany: Its History and Civilization*. He has also written an article which appears in the Encyclopaedia Britannica. After World War II, Dr. Pinson went overseas as Educational Director for Jewish DP's liberated from concentration camps.

Sunday Morning, Eve

Professor David Romey's discussion of the Sephardic or Spanish Jew will be the main feature of Hillel's free Sunday brunch at 9:30 A.M. Professor Romey is a member of the UVM Dep't of Romance Languages. Concluding the week, there will be a free dance Sunday evening featuring a fourteen-man band. The week's celebration is jointly sponsored by the UVM Hillel Foundation and the congregation of the Ohavi Zedek Synagogue. It is hoped by both of them that the UVM family will take advantage of this cultural opportunity.

NOTE - All CYNIC staff members! Check CYNIC bulletin board for notification of Senior Staff Elections - Date, Qualifications, and Positions available.

The beautiful Bel Air Sport Coupe with Body by Fisher

It's highway robbery!

For sheer fun out on the road, Chevrolet's stealing the thunder from the high-priced cars!

Up to this year, maybe there were reasons for wanting one of the higher-priced cars. If you demanded something really special in the way of driving fun, you simply had to pay a premium to get it.

Not any more! The Motoramic Chevrolet has changed all that. Who could wish for more excitement than the new 162-h.p. "Turbo-Fire V8" delivers? (For those who do, 180-h.p. is optional at extra cost in *all* V8 models.) Chevrolet also offers the two highest powered sixes in its field.

Come in and see how the Motoramic Chevrolet is stealing the thunder from the high-priced cars!

A Question Of Morality

And then there was Miss Jean Fairfax.....Jean is the New England field representative for the American Friends Service, a Quaker organization.... She is Negro.

Miss Fairfax has visited this campus annually for the past few years and has been keeping abreast of the "black-face" question. She read last year's editorials and "letters to the editor." She had also read this year's editorials and this year's letters of opposition. When she approached us the other day with a puzzled look on her face. (This would probably be considered another "button hole" job by George Lucchina, our everpresent Student Association President.)

"I can't understand it," she said. "The students who disagree with you are obviously missing your entire point. It doesn't matter who is proposing this change, or their motives. The main reason for its ("black-face") removal is that there are Negroes who object to its use or who feel uncomfortable in its presence."

Thank you, Miss Fairfax! That, good students, has been the stand of the Senior Staff of this newspaper for the past two years. Why the Negro objects, or to what aspects of the make-up he objects, are minor questions which have been forced into the discussion by those who wish to side-track the primary issue.

There ARE Negroes who feel hurt by the make-up in question. Can we morally continue to use this make-up knowing that there are individuals who are being hurt by it?

We were in a Restoration English class the other day, when the professor remarked that good satire does not play up a feature of an individual over which said individual has no control, i.e.-Drydan's reference to Thomas Chadwell as a cripple.

We do not mean to equate the use of the make-up with a satire of the Negro race, but we do wish to point to the similarity of the remainder of the sentence after the word "Satire", with our stand.

We do not feel it is just to offend in this way.

If there are any further letters in opposition to the CYNIC stand, we wish the authors would stop wasting our space by challenging the intent of the CYNIC and cease derending "black-face" as a tradition. Those arguments are just so much hog-wash, and you know it. When you can show us how to justify your hurting other individuals, then and only then will we grant that you are right and we are wrong.

New Horizon

Just a word of comment on the recent action of The Curriculum Committee whereby Professors have been asked to open to all students and announce in the CYNIC those lectures which are considered of universal interest. Congratulations on a fine move. We hope that the people directly involved will realize what a fine opportunity this is, and will take full advantage of the wares being spread before them.

in defense of derangement

By Gary Wright

The best solution to winter driving is to leave the car at home and walk. However, in the case of persons who live more than ten miles from their work, this is not too practical.

For the most part, winter driving differs little from driving at any other time. The general idea remains the same. Keep the vehicle between the boundaries set by state law, and, in doing so, avoid other drivers who are employing the same technique. This idea, radical as it may appear to some, has been proved over many years. Of course, it requires a certain amount of alertness and observation on the part of the operator.

For example:

If, while driving, you should observe a ditch and guard rail on one side of the car and nothing of the sort on the other side; it is a safe assumption that you are not on the road. This is especially true if you have not met much traffic in the last few miles.

But let us return to the specific problem.

The first job, then, is to start the vehicle. Since very few cars rack up milage without being started, we can label this a major point. When you first try the starter, observe what soul-rending cries a car is capable of making. This does little in the way of starting the engine, but it is interesting. In all cases, don't lose your temper. It is much too early for that.

Various methods of applying heat to the engine have been tried. They range from war-surplus flame throwers to Chinese charcoal burners. However, to a large extent these are detrimental to the life of the engine and should be used only in the hands of an expert. There are very few experts, though, that will allow their hands to be put to such use.

A small handbook entitled, Selected Epithets for The Winter Driver, is invaluable.

Let us suppose that the car started on the first oath, (they always sound fatal for the first two minutes) the ice and snow has been blasted from the windshield, and neighbors pleas ignored; we are faced with the task of conducting the vehicle down an icy street in an orderly manner. Or up the street, as the case may be.

This brings us to the subtopic of climbing hills, and subsequently, descending them. This is another Major Point, and must be treated much more thoroughly than than space allows. Stay tuned, then, for the next exciting episode.

Letter to editor

Editor, Vermont Cynic:

I was appalled at the literature that Mr. Lucchina had the audacity to print in his open letter in the Vermont Cynic. Some stroke of madness has led this poor soul to believe that he can write absolute tripe, and expect the young intelligentsia of this college to swallow his nonsense whole!

Rather than put a nonsensical statement such as, "You can't legislate ideas" in a nut-shell, I would much rather see Mr. Lucchina put there where he will do no harm!

Perhaps the idea of non-segregation in our school system should not have been brought before the legislature: in that way we could delay this form of democracy another hundred years. Mr. Lucchina's double talking on this point was so obviously ludicrous, that momentarily I was led to believe his whole open letter was a joke. It is this complete apathy toward needed social reform that has supported such undemocratic ideas as "clauses" in fraternity constitutions. Indeed this is an awful word Mr. Lucchina...the most vile word against democracy on this campus.

I am sorry that the president's chair of the UVM Student Association is filled by a person whose lethargic mentality is incapable of handling decisive opinions of this nature.

Harold S. Kramer 195

Former Dean Mary Jean Simpson awards cup named in her honor to Tri Delt's Kathy Orin for first place in sorority ice sculpture competition.

Other skits contending were those of Sigma Alpha Epsilon and Tau Epsilon Phi.

The second night of competition found the Kappa Sigma duo switching places with Phi Delta Theta for the top spot. Kappa Sig's "first" was followed by Phi Delt, and once again by the Sig Nu Team, which maintained its same position as the previous night. Sigma Alpha Epsilon's veteran team moved into the fourth slot. Their walkers were the seasoned duo Bob Foster and David O'Brien.

Phi Sigma Delta Walkers walked without the traditional "black-face" make-up for the second year.

SNOW SCULPTURE

Ice sculpture awards went to Phi Delt Theta fraternity and Delta Delta Delta sorority for their first place efforts. Second place fraternity was Sigma Phi; "third" went to Acacia.

In the sororities Kappa Alpha Theta and Gamma Phi Beta placed behind the Tridelts.

First place awards went to Chittenden Hall and Allen House in the men's and women's living units, respectively.

Nancy Collins of Alpha Chi Omega sorority was awarded a cup for her winning entry in the Kake Walk poster contest. Her entry was the official poster distributed for advertising purposes.

The two final awards went to the King and Queen, Dwight Kahlo of Sigma Nu, and Liz Semans of Pi Beta Phi.

Miss Semans is the daughter of former UVM football great Semans Ki, who passed away in 1952, the same year that Liz entered UVM to carry on a fine family tradition. She is the sister of Phil and Mike Semans, also Vermont students. Mike was the star quarter back of this year's UVM Catamount football team.

Two other notes of nostalgia were struck during Saturday night's awards as Kappa Sigma alumnus, Governor Joseph Johnson, awarded the first place walking cup to his fraternity.

Former Dean of Women Mary Jean Simpson awarded the Dean Simpson trophy for ice sculpture to the winning sorority.

Bridge Tourney Meeting Tonight InStudentLounge

All student bridge players are invited to a meeting tonight at 7:30 in the Student Lounge to discuss the coming tournament. The bridge-tournament will probably be held on the 17th of March if this date is acceptable to those at tonight's meeting.

Professor Randolp S. Towne of the Romance Languages department, who is managing the tounrament here, said that, "We would like to see anyone who is interested in the tournament tonight, and naturally we expect to see those who have already signed up for it."

UVM has not participated in the tournament for the past two years because the dates for the playing always fell on Kake Walk weekend. However the University participated in the event for a number of previous years.

A fee of fifty cents will be collected from every entrant at tonights meeting. Professor Towne said that it was necessary to collect this fee in advance.

Grants - In - Aid Go To Five UVM Staff Members

Five UVM faculty members have been granted Faculty Summer Research Grants-in-Aid, it was announced today by President Carl W. Borgmann following the meeting of the Board of Trustees here.

The five had been recommended for the grants by the Committee on Awards for Faculty Summer Research Grants-in-Aid. Each grant is for $600. Recipients and the titles of their projected summer research follow.

Prof. Douglas G. Anger of the department of psychology "The Effect of Frequency of Reinforcement on Responding."

Prof. Greg A. Falls, department of speech, "A Study of Shakespearean Festivals in North America."

Prof. George T. Little department of political science, "The Role of Working Papers in International Agreements."

Prof. Bennett B. Murdock Jr., department of psychology, "The Role of Feedback in Learning."

Prof. Florence M. Woodard department of commerce and economics, "The People of Vermont. Quantitative and Qualitative Changes in the state of Vermont's Population during the Decade 1940-50."

BARBERSHOPPERS ANNOUNCE

The International Student Exchange of the American Field Service will benefit from an April 2nd Barbershop parade to be sponsored by the Burlington Chapter.

The Parade will feature four quartets and octets from New York, Rhode Island and Vermont. Included will be the Candy Canes, in what may be their farewell performance; and the popular dissipated Eight from Middlebury College.

The American Field Service plan, which brought Kaija Koponen of Sweden to Burlington for the school year while Vicki Lane of Burlington was selected to go abroad for a three-month's summer visit to Germany last year, was introduced to the barbershoppers by President Ed Mrs. Borgmann, and Mrs. Borgmann is heading up the High School Organization committee for the April Parade. Ray Foulds is chairman of Ticket Sales, Hugh Riddell represents the sponsoring Rotary Club, and Robert Huber is Chorus Director for the Burlington group which recently won the right to compete at Boston on March 12.

UVM faculty, staff and students who enjoy singing are invited to visit Barber-shop rehearsals which are held every Tuesday evening beginning at 8:15 in either the Apple Orchard Room or the Roof Garden of the Hotel Vermont.

HILLEL EVENTS

The Hillel Foundation at the University and the Ohavi Zedek Synagogue are currently marking the Tercentenary Celebration of 300 years of Jewish Life in the United States, and a number of events have been scheduled in which faculty, staff and students are cordially invited to participate.

On Saturday evening, Feb. 26, there will be a commemorating program at the Synagogue Center beginning at 8 p.m. Paul Evans will make the introductory remarks and Marvin Nierenberg will read the Tercentenary Proclamation. President Borgmann will bring greetings from the University and the University Choir will sing. Prof. Koppel S. Pinson, chairman of the division of Social Science at Queens College, will speak on "Jewish Life in America - its History and Prospects. "

On Sunday there will be a 9:30 brunch and a Sunday evening dance at the Synagogue Center.

A complete listing of events for March is included in the Clippings calendar for March.

• • • • •

TAX HELP

The Treasurer's Office will help employees with their income tax forms on March 3, 4, 7 and 8 in Room 364 of the Waterman Building. Sessions will be from 8:30-5 each day except for March 8, when the hours will be from 8:30-3.

• • • • •

WANT ADS

WANTED - If anyone would like to dispose of a DICTAPHONE dictating machine on which cylinders are used, please contact Mrs. Brodie in the Purchasing Department, 146 Waterman, Ext. 324.

FOR RENT -- Quiet furnished rooms available on campus at 239 South Prospect St.; single and double. Call 4-7692.

• • • • •

Items intended for use in Clippings must be received by the Public Relations Office, 111 Waterman, on the Wednesday of the week before the issue of CYNIC for which they are intended. Shorter items may be phoned in to Ext. 342.

Faculty Notes

Betty Bandel has an article on " The English Chroniclers' Attitude Toward Women " in the January issue of the Journal of the History of Ideas.

• • • • •

Benjamin Miller will have an article on "A Minority Report on Religion " published in the Spring issue of The Personalist, a journal of philosophy, religion and literature published quarterly by the University of Southern California.

• • • • •

Robert Searles will serve as referee for the second annual NCAA National Championship Ski Meet to be held at Norwich University, March 4-6.

• • • • •

MEETINGS

The next open meeting of the Senate Curriculum Committee will be on Monday, Feb. 28, when Ernest Braun, Philipp Lohman and Fred Gallagher will discuss their respective curricula.

• • • • •

The University Club will meet Thursday, March 3, at 8 p.m., in the Faculty Lounge of the Waterman Building. Dr. Arthur Wallace Peach, well-known Vermont poet, writer and historian, will speak on "Vermontiana. "

• • • • •

The A.A.U.P. will hold its monthly meeting on Saturday, March 5, at 1 p.m. in the Faculty Lounge.

• • • • •

THE MAIL BAG

If the spirit should ever move you to write me a letter—and it's always a pleasure to hear from you—take pen and paper and address me c/o Philip Morris, 100 Park Ave., New York 17, N. Y. Or if you don't have any paper, snap open your Snap-Open pack of Philip Morris, remove the fine vintage cigarettes, turn the neat brown wrapper inside out and use it for stationery. The regular size Philip Morris pack is perfect for short notes. For longer letters use the king size pack. For chain letters and petitions, glue several packs together.

This week's column is devoted to a few of the many interesting letters that have been coming in:

SIR:

Maybe you can help me. I came up to college eight years ago. On my very first day I got into a bridge game at the Students Union. I am still in the same bridge game. I have never gone to a class, cracked a book, or paid any tuition. All I do is play bridge.

To explain my long absence and keep the money coming from home, I told a harmless little lie. I said I was in medical school. This made Dad (my father) very proud. It also enabled me to keep playing bridge. We were both terribly happy.

But all good things must come to an end. Mine ended last week when I was home for spring vacation. I arrived to find that Sister (my sister) was in the hospital with an ingrown spleen. Dr. Norbert Sigafoos, the eminent ingrown spleen surgeon, was scheduled to operate, but unfortunately he was run over by a hot-food cart on the way to the scrubbing room.

"Oh, never mind," chuckled Dad (my father). "Harlow (me) will fix Sister (my sister)."

Well sir, what could I do? If I told the truth I would make a laughingstock out of Dad (my father) who had been bragging about me all over town. Also I would get yanked out of school which would be a dirty shame just when I am getting to understand the weak club bid.

There was nothing for it but to brazen it out. I got Sister (my sister) apart all right, but I must confess myself completely at a loss as to how to put her back together again. Can you suggest anything? They're getting pretty surly around here.

Harlow Protein

Dear Harlow,

Indeed I do have a solution for you—the solution that has never failed me whenever things close in: Light up a Philip Morris! Knots untie as you puff that rich vintage tobacco. Shade becomes light as you taste that mild fragrant flavor . . . And as you watch the pure white smoke drift lazily upward, you will know that nothing is as bad as it seems, that it is always darkest before the dawn, and that the man worthwhile is the man who can smile!

SIR:

Do you think a girl should kiss a fellow on their first date?

Blanche Carbohydrate

Dear Blanche,

Not unless he is her escort.

SIR:

Here is a rather amusing coincidence that may amuse your readers.

Just off the campus where I go to school there is a lake called Lake Widgiwagan where students from time immemorial have gone fishing. Thirty years ago when my father was an undergraduate here he went fishing one day at Widgiwagan and dropped his Deke pin into the water. Though he dived for it for many weeks, he never recovered it.

Just yesterday—thirty years later, mind you—I went fishing at Widgiwagan. I caught a four pound bass. When I got the fish home and opened it up, what do you think I found inside of it?

You guessed it! Two tickets to the Dempsey-Firpo fight.

Fleance Fat

Dear Fleance,

It certainly is a small world.

© Max Shulman, 1955

This column is brought to you by the makers of PHILIP MORRIS Cigarettes, who suggest that if your mail has recently been blessed with some money from home, invest a little of it in the best smoke that money can buy . . . PHILIP MORRIS, of course.

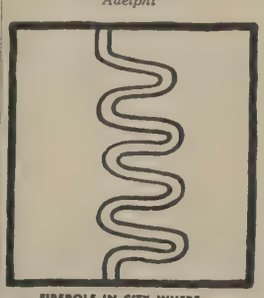
TryoutsForChorus In "Oklahoma" ToBeHeldFeb.25



Tryouts for the chorus in "Oklahoma" will be held in the Music Building, 70 Williams St., Friday, February 25 from 3:30 to 5 p.m. Tryouts are open to all students of the University. Candidates will be tried out singly and in combination, so that it is desirable that every one be present for the entire period if needed. The following pieces will be used: "Oklahoma" (mixed voices, 7 parts), "Many a New Day " and " Out of My Dreams " (women's voices, 3 parts), and " It's a Scandal" (men's voices , unison — last 16 measures only). These pieces will be rehearsed at the close of choir rehearsal Thursday, February 24 at 8:15 p.m. in the Chapel, and all interested students are welcome to attend. Copies of the music may also be borrowed and used in the Music Building.

ALL NEW! LUCKY DROODLES!

WHAT'S THIS? For solution see paragraph below.

A STUDENT'S BEST FRIEND is Lucky Strike. At any rate, the greatest, up-to-datest college survey shows that college smokers prefer Luckies to all other brands—and by a wide margin. Once again, the No. 1 reason: Luckies taste better. They taste better, first of all, because Lucky Strike means fine tobacco. Then, that tobacco is *toasted* to taste better. "*It's Toasted*"—the famous Lucky Strike process—tones up Luckies' light, good-tasting tobacco to make it taste even better. Luckies taste better anywhere, any time, as illustrated in the Droodle above, titled: Skier enjoying Lucky while whooshing under bridge. Next time you *make tracks* to a cigarette counter, Be Happy —Go Lucky. Enjoy the better-tasting cigarette ... Lucky Strike.

Lucky Droodles* are pouring in! Where are yours? We pay $25 for all we use, and for many we don't use. So send every original Droodle in your noodle, with its descriptive title, to Lucky Droodle, P. O. Box 67, New York 46, N. Y.

Fleming Museum Offers New Art Rental Service

The Fleming Museum of the University of Vermont has inaugurated a new painting-rental service, Dr. Alan Gowans, director, has announced.

This new service of the Museum, begun in January, offers to members and non-members the opportunity to rent for four months' periods, a variety of paintings which are framed, glassed and ready to be hung.

French Impressionists

The begin the service, the Museum has made available a number of reproductions by French impressionists including Van Gogh, Degas, Cezanne, and Renoir. Most of the paintings are fairly large, from two to three feet; a few are smaller. All are available at a slight charge to cover administrative expenses in maintaining the service. Members may rent one or more of the paintings for a 50-cent fee for terms running from January to May, May to September, and September to December. Non-members may rent the paintings for $1.

May Rent Originals

To date, a number of the paintings have been rented by members and non-members of the Fleming Museum Association. Several have been taken by students at UVM.

Response to the service has been "fairly brisk," the Museum director reports, but he adds that several of the reproductions are still available for those who would like to rent them through the remainder of this first rental term. Rentals may be renewed in May.

Fleming Museum's new painting rental service offers reproductions such as the impressionistic masterpieces shown above. Rental is made on a four-month basis at very nominal rates.

Started as an experiment, Dr. Gowans states the response has been so satisfactory that he hopes to be able to offer originals by contemporary artists in the rental series, possibly beginning with the May rental term.

Graduate Study Open Next Year In Netherlands

Three fellowships for graduate study in the Netherlands during 1955-56 are available to Americans, it was announced yesterday by the Institute of International Education, 1 East 67th Street, New York City.

The awards, offered by the Netherlands Government, are named the "Hendrik Willem van Loon," "Edward W. Bok," and "Hendrik Anton Coenen Torchiana" fellowships. Each award carries a cash stipend of 2,000 guilders, enough to cover room and board expenses for the academic year. Tuition fees are waived. Since the number of supplementary travel grants is limited, there can be no assurance of such aid to recipients of the above-described awards. Grantees should have funds, therefore, to pay their own travel and incidental expenses.

Closing date for application is March 1, 1955.

Qualifications

The fellowships are open to men and women, preferably under 28 years of age. Eligibility requirements are: United States citizenship; a bachelor's degree by the time of departure; good academic standing and capacity for independent study; good moral character, personality and adaptability; and good health. Some knowledge of the Dutch language is desirable but is not a prerequisite for these awards.

Fields of study open to American students in the Netherlands include Dutch language and linguistics, Dutch history, Sinology, history of art, archeology, technical and natural sciences, economics, business administration, and agriculture. Other fields, such as international law, may be open to students who have an adequate knowledge of the Dutch language.

Institutions at which successful candidates may study include the Universities of Amsterdam, Leyden, Groningen, Utrecht; Free (Calvinist) University, Amsterdam; Roman Catholic University of Nijmegen; Institute of Agriculture, Wageningen; Institute of Technology, Delft; Institute of Commerce and Economics, Rotterdam; Roman Catholic Institute of Commerce and Economics, Tilburg.

Applications may be obtained from the United States Student Department of the Institute of International Education.

Oslo University Announces Its Summer Session

The University of Oslo, Norway, announces its summer session July 2 - Aug. 13.

Courses are offered in the fields of humanities, social studies and education system of Norway. Three graduate seminars in Norwegian education, literature, social and political problems are also offered. Two new courses in Physical Education in Scandinavia (special emphasis on Norway) will be featured.

Housing and transportation are guaranteed.

Six semester credits may be earned in the six weeks course.

The program is approved for veterans under P.L. 346 and P.L. 550 by the U.S. Veterans Administration.

A limited number of scholarships are available for students.

Applications should be filed by MARCH 15.

Information about the program may be secured by writing to:

WINSTON tastes good— like a cigarette should!

■ Now there's a filter cigarette college smokers will really enjoy! It's new Winston and it brings *flavor* back to filter smoking!

You'll really enjoy Winston's full, rich, tobacco flavor. And you will really appreciate Winston's finer filter. It's unique, it's different, it filters *so* effectively! Winstons are easy-drawing, too, for *full* flavor enjoyment.

Try a pack of Winstons! They taste good — like a cigarette should!

Smoke **WINSTON** the easy-drawing filter cigarette!

R. J. Reynolds Tobacco Co., Winston-Salem, N. C.

Steinman Close To All-Time Season Scoring Crown; Vermont Fourth At Midd. Qualifies For N.C.A.A. Berth

Earl Steinman, UVM set hot ace, is approaching he individual season total coring mark, set by Nat ampana in the 1952-53 eason. Nat scored 320 oints in 21 games for a 5.2 per game average. teinman now has 273 points n 16 games for a 17.1 verage. Earl has five games including last night's) to core 47 points, which means hat he would have to score bout 9 digits each showing. he chances of breaking the ecord are positive, and it ill be interesting to watch he developments. The record older, before Campana, was arry Killick who totaled 09 points in '46-47. In hat same year, Jake hit or 304. But at the moment, eith Jampolis is second to mpana with 310 points.

Earl will probably break he points per game average f 15.2 set by Campana in 952-53. This is a season's verage per game, and Earl's 7.1, with so few games emaining, substantial for ositive prediction.

Earl can also set a life-ime game scoring mark. Nat ampana had a 14 point average or three years of compe-ition. Steinman has a 14 oint average for 3½ years nd if he continues at his resent clip, he'll pass Nat ere, too.

Earl, well known as the 'Duck '', is already es-ablished as Vermont's second igh all time scorer, having n 869 total, second only to eith Jampolis who totals 56 points. Jampolis, of ourse, has played 1/2 more ear than Steinman.

Steinman came to UVM four ears ago, fresh from New ritain High School in Con-ecticut. He is an economics ajor, and a member of Phi igma Delta.

Earl Steinman approaching record.

UVM Nordic combined team of (Top) Thompson, Purcell, (Bottom) Damon, Boul.

Vermont's Hoopsters travel to N.Y. State this weekend to face Clarkson and St. Lawrence.

Cats Win 83-75 After Slow Start Steinman Hits 20

A quick switch to the fast break, enabled the UVM Catamounts to come from behind to win Saturday's Kake Walk contest against Trinity 83-75. It was Vermont's fifth victory of the season, and this win continues a fabulous string of Kake Walk game victories.

The halftime score was 38-36 in favor of Trinity, but Steinman's hot pace in the last half proved too potent for the visitors. Earl hit for 20 points. He was followed by Jampolis with 17 and Burkhardt and Lovejoy, both with 15 digits.

Tomorrow Vermont goes to Clarkson, and Saturday to St. Lawrence in two New York state games.

Nationals Set For Northfield In Two Weeks

Vermont placed fourth at the Middlebury Ski Carnival, thus qualifying for the N.C.A.A. National Championship meet at Norwich University, March 5-6. The first five teams qualified. They were: Middlebury, 570.21; Dartmouth 545.40; UNH 545.37; Vermont 531.26; Williams 503.03.

Larry Damon placed first in Cross Country and second in Cross Country Jumping. Jim Purcell was sixth in Cross Country, with Thompson ninth and Duval thirteenth, thus continuing Vermont's domination of C.C. events. Evans placed ninth in the slalom.

Coach Traverse's boys are up, ready and in full force for the Nationals.

THE SUMMARIES

1—Lee Streeter, Middlebury	1:39.4
2—Egil Stigum, Dartmouth	2:01.5
3—Tom Burns, Middlebury	2:06.8
4—Tom Lamson, Middlebury	2:06.0
5—Tedmond Wilcox, Norwich	2:07.5
6—Tom Lefebvre, St. Lawrence	2:08.9
7—Pete Kirby, Dartmouth	2:09.4
8—Bill Prim, Williams	2:13.7
9—Frank Evans, Vermont	2:14.9
10—Sandy Whitlaw, Harvard	2:14.2
11—Roger Brown, Dartmouth	2:14.4
12—Dick Osgood, New Hampshire	2:16.4
13—Pete Webber, Middlebury	2:11.7
14—Dean Campbell, Norwich	2:17.2
15—Terye Backe, M. I. T.	2:17.2
16—Chas. Goodrich, Norwich	2:17.6
17—Bill Gilbert, St. Lawrence	2:18.6
18—Sherman Hoyt, Williams	2:20.9
19—Peter Clark, Williams	2:22.0
20—Noel Chauvin St. Lawrence	2 [illegible]
21—Robert Gebhardt, Dartmouth	2:26.6
22—Pete Churchill, Harvard	2:27.4
23—Larry Damon, Vermont	2:28.1
24—Hugh Clark, Williams	2:28.6
25—Bob Collins, New Hampshire	2:31.3
26—Bernie Brown, New Hampshire	2:33.1
27—Art Thorner, Cornell	2:34.6
28—Pete Wilden, St. Lawrence	2:38.1
29—Sigurd Meyer, M. I. T.	2:38.7
30—Alex Zoesch, Norwich	2:39.0
31—Bill Battles, Vermont	2:39.0
32—Ebbe Dane, Harvard	2:44.9
33—Dick Field, New Hampshire	2:45.0
34—Andre Lamothe, New Hampshire	2:47.6
35—Stem Lium, Harvard	2:50.7
36—Dick Ferrick, Cornell	2:57.9
37—Chris Ingraham, Harvard	3:03.7
38—Bill Glover, Cornell	3:05.1
39—Henri Moreault, St. Lawrence	3:16.3
40—Bill Clinton, M. I. T.	3:52.8

Most Valuable Player Award Voting Tomorrow

Jerry Samuels, last year's MVP award winner! Over 1000 students voted in last year's poll. Jerry graduated last June.

Fill in the face tomorrow at Waterman. Voting will be held all day for faculty and students.

Woods Trophy Award Winner To Be Decided

Here's your chance to do two things. The students, and faculty can elect the outstanding basketball player on UVM's 1954-55 court squad. By doing so they can acknowledge to teams most valuable player with the "woods" trophy, donated by Woods Sporting Goods Store. This award is sponsored by the CYNIC, and was instituted last year with Jerry Samuels being the recipient.

This is how it works! This Friday (tomorrow) a voting booth will be set up in Waterman. All students and faculty members are eligible to vote.

The basketballer with the most votes will be awarded the trophy at the last home contest, March 2nd against Brandeis.

This is your chance to choose the player whom you think has contributed most to UVM's team play this season.

Women Skiers To Play Host

The University of Vermont women's ski team plays host to five other schools this weekend at Mount Mansfield and Spruce Peak, in Downhill and Slalom competition sponsored by the UVM Women's Physical Education Department through the cooperation of the Mt. Mansfield Company.

Five girls will represent UVM in the meet, which will see teams from Middlebury, McGill, New Hampshire, Colby Junior College, and Skidmore competing.

The Downhill action will take place on Mt. Mansfield at 10:00 a.m. Friday morning, while the Slalom competition will shift to Spruce Peak at 2:00 p.m. Friday afternoon.

The five Vermont co-eds on the team are Jane Anderson (MONTPELIER, VT.), Janice Bailey (HANOVER, N.H.), Mary Cox (PORT LEYDEN, N.Y.), Diane Eastman (WOODSVILLE, N.H.), and Helen Wichowsky (VAN HORNESVILLE, N.Y.).

In their only meet so far at the Middlebury Carnival, the UVM women placed second among six colleges, with outstanding performances turned in by Janice Bailey in the Downhill and Helen Wichowsky in the Slalom.

Miss Bailey has been competing successfully this year against the leading women skiers in the East, and has won a Class A, USEASA rating. Included in her season's record is a fine first place in the Fish Trophy race, a fourth at the New York State Slalom Championships, and a seventh in a strong field at the Brad Mead Memorial Slalom held at Pico Peak last Sunday.

Next weekend, March 4-5 the UVM Women's "B" team is scheduled to compete in the Colby Junior College Ski Meet at New London, New Hampshire.

UNIVERSITY OF VERMONT AND STATE AGRICULTURAL COLLEGE

VOL. 72 BURLINGTON, VERMONT MARCH 3, 1955 NO. 1

Murdock Proposes Required Reading Syllabus For Students

Would Select 42 Liberal Arts Books

By Marvin Nierenberg

Every student in the College of Arts and Sciences would be required to read a total of forty-two specified books by the beginning of his senior year, according to a proposal presented to The College's Curriculum Committee by Professor B.B. Murdock, Assistant Professor of Psychology.

In a special CYNIC interview, Professor Murdock explained that his proposal, "An Arts College Reading Program," includes a suggestion that the books be chosen by the fourteen various departments of the Arts college. Each department will submit three titles which are to be of general interest and value to all students, especially those who are not majoring in that field of study.

Test In Senior Year

The professor pointed out that the specifics of his proposal are merely suggestions and are open to modification. As it stands, the student would read the works on the list at his convenience and at the beginning of his senior year would be tested on his knowledge of the assigned material. The senior will receive either a "passing" or "failing" grade of his exam. Students are to repeat the examination until they pass it. The exact nature of this test has not been specified, but it might be either an oral examination by a member of the faculty or a uniform written test.

Aimed At Defects In American Education

In stating his reasons for bringing his idea forth, Murdock said that he hopes that "this reading program may answer some of the valid criticism which has been aimed at present-day education, namely, the lack of integration of knowledge, over-specialization, and ignorance in many areas of knowledge. The more obvious advantages of my proposal are that it would enlarge upon and broaden the students' interests and knowledge. In addition, It would provide a common core of information around which instructors could relate classroom material.

"For instance, "Murdock

Bandel To Speak On Hypocrisy In Education Sat.

"Are We Educating Towards Hypocrisy" is the subject of the discussion which Professor Betty Bandel of the English Department, will lead this Saturday, at the Round Table Meeting.

The meeting will begin with a dinner at six o'clock in the Klifa Club at 342 Pearl Street. In announcing the choice of topic, Max Ansbacher, president of the club said, "There has been a recent increase in the question of what type of education UVM has to offer. Perhaps the topic of discussion will be related to this question.

All Invited

The Round Table is a student-faculty organization which holds meetings for the purpose of discussing topics of interest to all members of the University family. All students are invited to attend. In order to ensure a reservation for the dinner, students should leave written requests in the Round Table box in the Waterman information office. The cost of the dinner is one dollar.

Ten Year Development Program Now In Operation At University

Experts Here To Lay Groundwork

A ten-year financial development plan for the University of Vermont has been set in motion by the American City Bureau, the CYNIC learned earlier this week.

According to O.T. Anderson, University of Vermont field representative of the Bureau, the development plan is a self-help enterprise aimed at supplementing present and future sources of UVM funds.

"Because of an unprecedented incidence of large masses of students entering the state universities today, all of America's state universities must at present and shall in the future, turn to private sources to obtain the large amounts of money necessary to meet the increase in students," Mr. Anderson predicted. "This is not unique to UVM."

The American City Bureau, a New York and Chicago firm, functions as counsel for university fund raising programs. The most immediate plan of the group, which has established its office in Waterman Building, is to sample the opinion and desires of faculty, student, alumni, and state circles as regards University needs.

Establish Priority

"We are attempting, through the use of a questionaire, to set up a priority system for the channeling of our efforts," Mr. Anderson stated. The results will help to formulate an improvement program for physical plant and educational offerings.

Priority divisions are those of Physical Plant, Basic Instruction and Special Endowments.

It is a recognized fact that physical improvements and changes are needed in the areas of gymnasium, auditorium, Medical College, Library, and Old Mill it was stated.

According to Lawrence W. Killick, Assistant to the President for University Development, "We recognize the need for additional endowments - both permanent and expendable. Scholarship aid for children of alumni is also a necessity. A number of endowed chairs would also be most desirable," he said.

Both Academic, Physical

"Through our program," Mr. Alexander said, "funds which heretofore were not forthcoming, will become available for academic, as well as physical needs."

"Although it is generally accepted that a Gymnasium - Auditorium is a necessity at Vermont, it does not necessarily follow that this will be the most popular opinion expressed in the questionaire results," Alexander explained.

"At Villanova, everyone expected a football stadium to be the top choice for immediate priority. The final results, however, showed the law school receiving top priority. The stadium was very much lower on the list."

Both Academic And Physical

"Very Serious" - Killick

The American City representative will remain with the University until the program is well under way. It is planned that all the University's present fund-raising movements will be included in the new program. This would include the Alumni Fund, Corporation Support, Wills and Bequests and all other aspects of the recently conceived University Development Program as outlined last year by Mr. Killick.

"This is a very serious program," Killick stated, "and we are approaching it in a very serious vein. We are not only working with the American City Bureau. Specialists in the library field have already set to work on UVM Library Improvement; likewise, the Hamilton Corporation has undertaken the planning of UVM Medical School Improvement.

"We are being very cautious, very careful. We are employing the best minds available in our attempt to bring the University to the position in which it can most effectively serve its mission as an institution of higher learning."

Religion And Life Weekend Begins Tomorrow Evening

By Robert W. Smith

One speaker from each of the three major faith groups will be on campus this weekend to participate in UVM's annual Religion and Life Week-End.

Rabbi Irving M. Levey, Director of the Hillel Foundation at Princeton University will open the week-end with a Sabbath Service on Friday at 8:30 PM at the Synagogue. His subject for the evening will be "A Religious Guide to the Perplexed."

An informal meeting with Dr. Levey will be held at the Alpha Epsilon Phi house, Saturday evening. Sunday morning, at a 10:30 brunch at the Synagogue, the subject will be "Impact of the State of Israel on Jewish and Christian Thought."

Newman Club

The Newman Club is sponsoring a Mass and Conference beginning at 7:00 PM on Friday in the Bishop de-Goesbriand Chapel; two Masses on Saturday at 6:30 AM and 7:30 AM; a Bendiction and Conference at 7:00 PM on Saturday, and a Mission Mass at 10:00 AM on Sunday. Rev. John A. Lynch, Principal of Mt. St. Joseph's Academy of Rutland, Vermont, will be the Newman Club's spiritual leader.

SCA

The Student Christian Association meeting on Saturday evening at 8:00 PM in the Student Lounge will be addressed by Dr. Marion Shows. Dr. Shows is Assistant Professor of Religion at Middlebury College. His topic will be, "Today's Challenge to Protestantism." A discussion will follow, and there will be a closing worship service.

Tri-Faith Panel

On Sunday evening at 8:00 o'clock in the Student Lounge the week-end will conclude with a tri-faith panel.

UVM Education Geared Down To Provincial Vt. Needs--- Aldridge

By Carol L. Chase

"Vermont as a state does not, as yet, need the truly educated man; it needs the practical, technological man, so that is what the University of Vermont provides," stated Professor John Aldridge at last week's John Dewey Club lecture.

Aldridge told an audience of approximately 150 students and faculty that UVM did not measure up to what we considered a "true" University.

The "most pressing practical problem", stated Aldridge, "is the university's lack of money. Without money it cannot have adequate library. Billings library is a mockery of a University library. It needs money for books and a larger and better equipped physical plant. It is hopelessly inadequate" he said, and it is hard to imagine how any faculty member or graduate student could carry on fruitful research there."

"It appears that the money will not materialize until the state realizes that a library is essential to successful higher education."

Aldridge deplored the fact that there are not sufficient funds for lecture programs, and that the University cannot afford to bring outstanding scholars to the campus as guest lecturers.

Maintain Virginity

Aldridge stated that UVM fails to provide intellectual life for the students and that few have mastered the fundamental skills of higher learning.

"Students never seem to lose their intellectual virginity; they never learn discipline of the critical method."

"I believe it is obvious Vermont is a provincial state, that the state legislature is governed in the main by provincial interests and that the university itself believes its first duty is to serve those provincial interests," Aldridge advanced, as a possible reason for the situation described above.

He broke those interests down into agriculture, medicine and secondary teacher education.

"These are the interests which the state demands be most immediately and urgently served, for they

(continued on page nine)

Chaplin Proposes That Kake Walk Be Eliminated

Professor James Chaplin, Chairman of the Department of Psychology, last week proposed that UVM's Kake Walk festival be stricken from the University calendar.

The proposal came as a surprise move at the recent University Senate meeting but action on the proposal was tabled to the next meeting.

The professor cited excess student involvement in the carnival as one of his reasons for asking the discontinuation. He felt that a health problem was involved because of the types of pre-Kake Walk activity attached to the week-end.

Chaplin also felt that the carnival offered no positive value to the University family. At the same time, it interrupts the academic calendar and interferes with studying, class attendance, and hour examinations.

He pointed to the "tree-guarding" incident this year, in which some fraternities guarded trees for five successive days and nights.

Skapski Criticizes Aldridge Address

Prefers To Take Optimistic Attitude; Perceives Progress, Not Hopelessness

To the Editor of the Vermont CYNIC:

ABOUT COWS, SURGEONS' KNIVES AND OTHER, LESS IMPORTANT, THINGS.

It happened again. And just about the same time as it did last year, when my dander was up because of our coeds' mixing up the functional roles of a drawing room, a kitchen, and a bedroom.

Only this time it isn't the coeds. It is the big black period, which my talented colleague, Prof. John Aldridge put at the end of his criticism of the UVM, right after the word: HOPELESS. And, in the same breath, announced that he was packing and going to France. He had to get away from the dullness of the provincial Burlington, Vermont. And from "the cows whose bellowing has been annoying him on the campus. "

There are more than sixteen million cows in France, so he may have some difficulty in getting away from them. There are also hogs, sheep and goats there, twenty million of them altogether. They, too, make all kinds of noises. And they smell even worse. As for the dullness, I happen to know the cultural atmosphere of French towns about the size of Burlington. I am afraid Prof. Aldridge may be jumping out of the frying pan into the fire. But, of course, he might settle down in a castle, and stay with the elite, away from common people. Or live in Paris.

Frightened Respectability?

Now, all this is purely Prof. Aldridge's business, and I shouldn't even have mentioned it, let alone spoken about it in such a tone. But the tone has been set by Prof. Aldridge himself. A man of my own inexperience with the pen, cannot help being influenced by a renowned writer's style. Anyway, mille pardons.

So out of the boat goes my lucky colleague and what does he care? Apres moi le deluge! And this deluge he pictures thus: "empty repetition of the status quo, an increase in dullness and frightened respectability, and a final closing down in the state (of Vermont) of the factories of the human mind and spirit."

As for the faculty members, I have too high an opinion of them to be worried about their reaction. They can tell the chaff from the grain. They know the reality of the Campus, simply because they make it live. They have a conception of UVM aims, and it is far from being as restricted as Prof. Aldridge alleges.

Students Dazzled

But with the thousands of our kids it's a different story. Dazzled by Prof. Aldridge's fire-words (sic!) they might be overawed by his vision of UVM. A vision?! Why, it's a sight!

That's why I decided to write this letter.

Before I get to the point, let me make it crystal clear that I passionately approve of the necessity of having free criticism on the campus. It stirs up the place, whether it is right or wrong. In this respect Prof. Aldridge has rendered us a service. But criticism must never be based on part of the truth only. Part of the truth can lead to distortion. I am afraid Prof. Aldridge's criticism does just that.

And now let's get back to the cows. The cows are important. Why, you will see a little later.

More Concise Than Hugo

Prof. Aldridge is an excellent writer. I say this in all seriousness. Just look at a sample of his style: "the bellowing of the cows and the clickety-click of the knives of apprentice surgeons."

Now I don't see why Prof. Aldridge should feel like explaining away his having used such a phrase. This is a masterly way of putting the audience into the mood. And a very modern way. Poor, talkative Victor Hugo would have needed three chapters to achieve the effect John Aldridge gets across in one line. He carries you away. You hear the cows and the knives. Even though, as a matter of sober fact, neither can be heard on the Campus.

And that's point one in my argument. I like John Aldridge's art. But the UVM situation is reality, not art. And so are the three thousand boys and girls listening to the prophecy of doom, clothed in Prof. Aldridge's ringing phrase. The clothing is so artful that they may mistake it for full truth.

Let's Look At The Past

Now, part of the full truth is the present trend at UVM. Had Prof. Aldridge acknowledged this trend in accordance with the facts, I would have argued with him only because of his exaggerations. As it is, I have more points to quarrel about. And my argument goes like this.

Any present situation can be judged rightly only in context with the past and the future. So let's have a look at both.

The past means tradition. A University's tradition is a capital from which inspiration can be drawn. And should be drawn. It has its own voice. Prof. Aldridge does not seem to hear it properly. The cows don't let him, maybe. Or maybe the clickety-click. But UVM tradition proves that its alumni did not serve the 'restricted interests' of Vermont alone. They served the national and the international causes. The very name of the John Dewey Club, which - of all places - Prof. Aldridge used to deliver his blast against provincialism, speaks against him.

Future Not Hopeless

But how about the future? It can be estimated from the present trend. According to Prof. Aldridge, its arrow points down to the valley of death. According to me, it points way up. Let the facts decide which one of us is right.

The Billings Library is spending this year for books 250% as much as in 1946-57 --- and this does not include medical books. For periodicals 350%. It has, using brains rather than money, increased its usable space by 50%. It has enlarged its staff.

It is still inadequate, I am the first to agree. But it is neither a mockery, nor is it impossible to carry on fruitful research with its help, as Prof. Aldridge contends. A proof? I can give one, from my own experience.

In the past two years I have been able to obtain from, or through the services of, the Billings Library any book and any periodical from any place in the nation -- and I needed a lot of them, and some rare ones. I have used them in writing the two papers I am just sending off to be printed (on invitation) in an internationally circulated scientific journal. I have found the service at Billings at least as good as in the University of Chicago where -- even though it was Chicago and not provincial Burlington -- there weren't enough books and periodicals on the stacks, and we had to get them from other libraries. It may be quite an inconvenience, but inconvenience is not hopelessness. One has to bestir oneself a little, that's all.

Humanities Not Slighted

Neither do I agree that our University has the tendency of slighting the liberal arts and the humanities. Whatever the state of affair is -- and again I don't think it presents such an appalling picture -- the tendency is just the opposite.

One would think that it surely must be the professors of science and of engineering who oppose the liberal arts. Let's reach for an example of the present trend there.

In Physics, we have intro-

Aldridge Defends Views He Expressed

Claims Press Misquoted, Sensationalized; Stands Fast On Cirticisms Of University

Editor, Vermont Cynic:

Now that my views have been reported, distorted, cheapened, and sensationalized in various newspapers throughout the United States, I should like at this time to make public the true facts behind my position.

Some weeks ago the student president of the John Dewey Club of UVM invited me to speak to the club on a topic previously chosen by the club members, "Education at UVM: Four Years of What?" I accepted the invitation with the understanding that I would be giving simply such impressions of the subject as I have gathered during my six years of teaching at UVM, and that I could not be expected to comment scientifically or formally on the whole of the subject since I did not possess sufficient information. On the night of February 23 the address was made, and it was out of the text of the address that the present extravagent controversy evolved.

What I want to emphasize here is that it was an address made before a student club and not a public statement delivered by me to the newspapers that started the controversy. I regret to say that nearly all the sweeping generalizations and foolish criticisms of UVM and the state of Vermont attributed to me in the press represent either the products of reporters' inflamed imaginations or out-of-context observations made by me for the sole purpose of introducing a little humor into a serious and rather dry address.

At the beginning of my address I remarked that "a little over forty-eight hours ago I submitted to President Borgmann my resignation as an English Professor at UVM, to become effective at the close of the current academic year." I then went on to say that "this would seem to give me a large measure of freedom tonight to speak as a private citizen...I might even seem to have a nearly unparalleled opportunity to launch a critical attack, to air my personal grievances--but I am going to disappoint you. I do not intend to take advantage of any immunity I may have gained (through my resignation). What grievances I might have--if I have any--I would first, in all fairness, lay before the President and the faculty. Second, I do not believe that any man who makes his living off the income from an institution should gratuitously and unfairly criticize that institution in public, especially in the presence of those who cannot help but be on the outside and who might, therefore, be in a position to use his criticism in a thoughtless, cynical, or nihilistic way."

I put this into the record to make it clear that I was not using my resignation as an opportunity for irresponsible attack or expose. My intention to resign was, in fact, made known informally to President Borgmann several months ago. The fact that my formal letter of resignation was sent to him just before I made the John Dewey Club address was pure, if unfortunate, coincidence. In that letter I stated my reasons for resigning, and the President is free to make them public if he so desires. Those reasons, however, have very little to do with the evaluations I made of education at UVM. As to the nature of those evaluations, I believe the record now speaks for itself.

But since some of the objections made to them have been based on the premise that as an outsider without roots in Vermont I could not be expected to have its best interests at heart, I would like to say that my material forbears helped to settle the state, that at least one of my ancestors, now burred in the Old Bennington cemetery, fought with Ethan Allen's army and that my late aunt on my paternal side, Annabelle Aldridge Van Tassell, was the first woman minister to have a church in Vermont.

I might suggest, though, that my approach to the problems of the university is in the strictest keeping with the revolutionary spirit and tradition which made possible the founding of Vermont, and that it is regrettable that an outsider should have to remind Vermonters of this fact.

In addition to working as a teacher of literature, I work regularly as a writer. The University of Vermont is, in fact, one of the few universities in the country in which I might have enjoyed the privilege of working in both capacities. If a writer does not accept the evidence which his senses give him as to the nature of the environment in which he lives, then he cannot

(continued on page five)

Prof. Brownfield Takes Issue with Skapski

Dr. Skapski, in his criticism of Prof. Aldridge's speech concerning conditions at the University of Vermont, (ref. The Free Press, p. 11, Saturday, February 26) has, it seems to me, missed the essence of Prof. Aldridge's meaning. Dr. Skapski, in his defense of UVM against Prof. Aldridge's criticism, seems to have retained his reaction to a few random points.

The most regrettable thing about a sincere and considered criticism such as Prof. Aldridge presented last Wednesday is that there aren't more like it. Prof. Aldridge was not proclaiming UVM to be hopelessly alone in its acquiescence to the specialization and short-sighted "practicality" that seem to characterize our age and country. He was merely pointing out what is obvious to every educator today: that the milk pail, the sewing machine and the monkey wrench are replacing ideas and values as the bulwark of our educational system.

That he should have leveled his criticism at UVM is not particularly astounding since it was here that he has taught for six years, and since it was to members of the UVM faculty and student body that he was addressing his remarks. He might just as easily have turned his criticism on almost any of the hundreds of colleges and universities throughout the country.

Nor does it appear to me that Dr. Skapski's remarks do much to refute Prof. Aldridge's arguments. His pointing to John Dewey as an example of UVM's concern with the liberal arts and the humanities is somewhat irrelevant, since John Dewey had made his home in thoughts quite a few years before agriculture and home economics took up their residence in the newest and best equipped buildings on this, as well as on many other campuses.

Nor do the statistics Dr. Skapski quotes on Billings library affect me as revealing the whole truth. Certainly two or three times as much is being spent on books and periodicals as in 1946, but this means very little unless measured against the 1946 enrollment, the inadequacy of the library in 1946, the comparative cost of books now and then, etc.

It is also true that considerably less is still being spent in Billings than is necessary for an adequate library in a college the size of UVM, and that the pressing problem of space shortage is not being met. And a rosy look into the future is a poor substitute for a penetrating inspection of the present, especially when UVM's current attitudes and achievements, in terms of thoughtful, informed and productive graduates, do not stand up too favorably in the light of her attitudes and achievements in the past.

Also, when one thinks of the number of students at the UVM of fifty years ago and then looks at the number of students who trudge the campus paths today, one can't help but wonder where the John Deweys, Henry J. Raymonds and Henry Spauldings are keeping themselves after graduation. While we look hopefully toward the future, how many potential John Deweys currently pass across the campus and disappear apathetic into obscurity?

No, UVM, like every other institution, past, present or future, needs its critics and, what is more important, the unsentimental, undefensive honesty to accept criticism, and admit that no man criticizes in the name of hopelessness. The man who did not wish UVM to be better than it is would not bother to criticize. And, by the same token, the man who does not bother to criticize can hardly be congratulated for his indifferent silence.

When you've only had time to cram for part of the course...

and that's the part they ask you on the final exam...

M-m-man, that's PURE PLEASURE!

For more pure pleasure... **SMOKE CAMELS!**

No other cigarette is so rich-tasting, yet so mild!

P.S. No other brand has ever been able to match the **pure pleasure** in Camel's exclusive blend of costly tobaccos! That's why Camels are America's most popular cigarette!

R. J. Reynolds Tobacco Co., Winston-Salem, N. C.

Editorial: Aldridge---A Misunderstanding

While the faculty debate the pro and con of the recent speech delivered by one John Aldridge, perhaps they'll take time out to hear a student view.

First, let us state that we believe a great deal of misunderstanding exists on the part of BOTH those who have leapt to the defense of Professor Aldridge's stand and those who were quick to repudiate the man. This misunderstanding stems from two sources. The primary source is the horribly mascerated account of Mr. Aldridge's text in the Burlington Free Press; the second, is the fact that so few faculty members attended the now controversial lecture in the first place.

For, in actuality, Prof. Aldridge admitted at the lecture:

1) A student who really wants to, can get as good an education here as anywhere else.

2) He would leave room in the "work-shop" and laboratories of his "true" university for the technological specialities.

3) That the really good students at UVM were just as good as the really good students anywhere else.

4) That he was speaking in generalities.

5) Moreover Aldridge, when questioned in an open discussion following the address, defined provincialism as, the attitude of one who is primarily dedicated to the interests of one's local area. He did not define it as, rustic, illiberal, narrow-minded or biased.

So, where does that leave us? Obviously, someplace else than where we were perhaps five minutes ago. The pro and con seem to rest on very similar arguments, complementing, rather than opposing each other.

There is no doubt that much of Aldridge's attack lies in the personal situation which exists, we believe, between him and the University.

But when we come down to basic points, we must admit that there is room for improvement at Billings Library, a need for (we said this before) a lecture series of prominent guest scholars, a "museumy" museum and art center (orchids to Alan Gowans for the effort he is putting in to bring this about), and something other than Memorial Auditorium for concerts, ballet, et al. This again, we admit, "provincial" Burlington lacks.

In the vague sphere of admission requirements, there no doubt is some room for improvement. When Aldridge claims that he doesn't believe that every Vermont resident deserves admission in and of the fact that he is a Vermonter, we must agree with him.

And still, there was something more that we perceived in his speech last week. It's that undefinable something which we leave ourselves wide open on in mentioning it.. atmosphere. Don't pin us down for a specific example, but when we visited Harvard we felt it. It had stature and majesty... it permeated the air. Perhaps it was the wall around the school, sort of shutting it into a bastion of education which was filled to overflowing with knowledge, so much so that it all seemed to press down around us...but it was there.

And maybe that is what so many of us miss. Maybe it isn't actually important to the process of education at all, but it's nice to have around.

As for philosophies of education and an "ideal university," now it's our turn. Yes, we'd leave room for the Agricultural College, and the Education college on the Undergraduate level. But they would be departments, and not Colleges. We wouldn't de-emphasize the liberal arts curriculum. That comes first. That would be the strong point, the base upon which everything else built. Further specialization in Agriculture, etc.. would be on the graduate level.

We throw the Bogorads and the Aldridges and the Evanses and the Skapskies, and the Feuers and the Dykhuizens and the Chaplins and the Trevithicks at the Freshmen in general background courses right from the beginning. We'd create such an atmosphere that they'd come to love education for the sake of education alone...we'd develop that "critical mind." And then in the junior year we'd allow specialization to begin along major fields (as is the present UVM system). But it's that beginning, the indoctrination to the love of knowledge that counts, and which is sorely lacking at UVM. Face it, there is too much mechanism in the education system today.

We aren't extremists; we don't allow only for the Aristocratic classical system of education, but let's approach it a little more. We hope, as Aldridge does, that the state legislature matures to the point that it can appreciate education for the sake of education. If left to its scholarly task UVM can then take the position that it deserves. If continually hampered by the likes of F. Elliot Barber, we too, "can see ahead a continuation of the status quo, a consequent increase of dullness and frightened respectability and the final closing down in this state of the factories of the human mind and spirit."

Letters to the editor

To the Editor of the CYNIC:

I was a bit surprised at and upset by the recent open letter written by George Lucchina, particularly that part which relates to "black-face."

The President of Student Association started off with a character assassination upon those arguing for the removal of the stereotyped features from the walkers' make-up.

The President of Student Association, the leader of the student body, then states that he might even lead some "booing" on the night of the walking. Why not throw rotten tomatoes, George, and enhance the "orange" color?

The President of Student Association writes that the "whole problem exists in the minds of a few and I refuse to believe that the make-up used by the walker has ever carried any such connotation against the race, as is implied by the banner wavers." In my mind, the term "banner wavers" is ambiguous. Does Mr. Lucchina mean the N.A.A.C.P. which has come out against the use of make-up such as the walkers use at Vermont and the minstrel shows at Connecticut or does he mean those people on campus who believe that the use of the stereotyped make-up is in poor taste. If he means the former, does he advocate that minority groups shouldn't have the right to defend themselves against something which they feel creates a bad impression of them? I doubt if he really does advocate that, but it would be nice if he'd explain himself.

The President of Student Association stated that the problem of "black-face" was created just for "kicks". Was this a pun or does he sincerely believe that the N.A.A.C.P. and others would complain against black-face just because they have nothing better to do.

The President of Student Association then inferred that the reason two of the Negro students were against black-face make-up was that they were in the same fraternity as the "principle agitator." It would be just as false for me to say that a number of houses on campus use black-face make-up because they have restrictive clauses in their charters.

The President of Student Association states that Dr. Thurman's comments should be discounted. Mr. Lucchina asserts that Dr. Thurman was buttonholed and questioned unfairly. As proof of this he offers...nothing. He does not say whether or not he was present at the time or what his source of information was.

The President of Student Association finishes up his statements about black-face by saying "When anyone tries to destroy the ability of a people to laugh at themselves they are, unwittingly perhaps, undermining an important phase of the American way of life." Are these words of wisdom widely accepted as fact of principle, or are they the original words of George Lucchina, authority on the "American Way of Life." I think the latter is true.

Mr. Lucchina should realize that as President of the UVM Student Association he has certain responsibilities of fair play to uphold. He is supposed to be one of the major student leaders on campus. However, the letter he wrote to the students of Vermont falls short of fulfilling his obligations as president. His letter was vague and ambiguous. It contains assertions and inferences totally lacking in proof. As his concluding idea he infers that those against black-face are undermining an important phase of an undefined phrase, a glittering generality, a politician's term, "The American way of life." Unfortunately, Mr. Lucchina should have rewritten his letter before presenting it for publication. I defend his right to his opinion about black-face, but I condemn his method of presentation.

Robert Krauser, '58

intercollegiate roundup

Through the years colleges have been doing about the same things, and the same things interested students. This column has been going on for many years, though often under a different heading. In the December 23, 1909 issue this section was called "The College World", and listed below are the items that caught the collegiate fancy in those times. They're not really so different are they?

1. A 79 year old woman matriculated at Ohio State University.

2. The fraternities in the University of Kansas and the University of Missouri have been put on probation.

3. Two years of college work are required for admissions to the Yale Law and Medical Schools after this year.

4. Norbert Weiner, a lad of 14, with a A.B. degree from Tufts College is said to be the youngest college graduate in the United States.
Note: Mr. Weiner is now world renowned for his work with Cybernetics and "thinking machines." He has recently published several books on the subject.

5. The University of Kansas has refused to admit a man who was expelled from another university for hazing.

And so it went, each short statement revealing the hopes and dreams of a student or group of students. These people, for the most part, are long forgotten, but each week more students take their places and have their quirks exposed to the rest of the collegiate world, and then they too, fade into obscurity.

Vermont halfback Eddie Beck, Waltham, Mass., gained 936 yards rushing, passing and pass-receiving this season, to give him an average of 133 yards gained in UVM's seven games. Beck was New England's leading scorer in '54 with 72 points.

TIMETABLE

Aldridge Speech Reactions

Professor John Aldridge's speech last week before the John Dewey Club, in which he criticized the educational policy of the University of Vermont and labeled the city of Burlington a provincial unit of frightened respectability with spiritual " do not disturb " signs hanging on their doors, brought a variety of critical reactions.

We outline below the events which followed his speech entitled " Education At UVM — Four Years of What? "

• • • • • •

1. Wednesday Night: Speech by Aldridge

2. Thursday Morning: A distorted account in the *Burlington Free Press*

3. Thursday Afternoon: Reaction against arguments proposed by Prof. Adam Skapski at University Senate Meeting.

4. Friday Morning: Acorrected account of selected passages of the address - *Burlington Free Press*

5. Friday Afternoon: A farcical presentation in the *Winooski Daily News* of those parts of the speech which Aldridge had inserted as humor, rather than actual fact.

6. Saturday Morning: A watered-down version of Prof. Adam Skapski's statement which was meant to counteract Aldridge's address - *Free Press.*

7. Sunday Morning: A Vermont Development Commission spokesman defended the state against the "provincial label" by citing Stowe's transition from an Agricultural to a Ski area, and the influx of tourist trade.

8. Sunday: Garbled accounts of Aldridge's address in the *N.Y. Times* and *Boston Globe*, among others, which were based on *Daily News* story.

9. Monday Morning: Lt. Governor Consuelo N. Bailey challenges Aldridge to a debate on the merits of the state; *Free Press* prints another watered-down account, this time of an Aldridge statement of explanation and clarification.

10. Thursday Afternoon: CYNIC "Tells All "

Spiro, English Had Top Record At NE Tourney Last Weekend

By Michael Abramson

Herzl Spiro and Edwin English won the singles team match at the Dartmouth Annual Debate Tournament this weekend. Spiro was judged the outstanding extemporaneous speaker and also was chosen one of the outstanding debaters of New England.

The Debate Club sent two teams to Dartmouth this past weekend. Each team debated six times during the tournament. Spiro and English copped the singles team match by winning all of their debates.

The second team composed of John Burgess and Leonard Kronman lost five of their debates and won one, but the scores by which this team lost were very narrow.

Took Both Sides

This debate was unique in that both teams argued the two sides of the question. Usually when two teams go to a tournament, one debates the affirmative while the other the negative.

The tournament was won by Harvard with Dartmouth second and UVM fifth.

Dr. Robert Huber accompanied the UVM team.

Next week four novice debaters will compete, in a tournament for beginners, at St. Michael's College. Debating the affirmative will be Ada Pratt and Louis Kiefer; the negative, Donald Karp and John Gay.

Aldridge

(continued from page three)

function effectively either as a writer or as a human being. He will either die creatively, or he will begin to write lies. Those who are not writers do not need to face the facts of their environment. It may be better for their security and happiness if they exert every effort to avoid facing those facts, for their first obligation is to live and work successfully whatever they happen to be, wherever circumstances force them to reside.

But a writer has a different obligation. He is required by his conscience always to speak the truth as he sees it, no matter how disagreeable or discomfiting the truth may sometimes be. I will never knbwingly shirk that obligation.

John W. Aldridge

Did You Know That

Clifton Durant Howe, A.B. 1896 and A.M. 1901 from UVM (Ph.D. University of Chicago 1904) was director of the New York Botanical Gardens? He was also instructor in biology at UVM 1899-1901; instructor in biology at University of Michigan early in the present century; and a member of the Faculty of Forestry at the University of Toronto in Canada before assuming his position with the Botanical Gardens.

U. V. M. CLIPPINGS

REGIONAL COOPERATION

The first financial transaction in New England's program for Regional Cooperation in higher education was marked on Thursday, Feb. 24, when George H. Amidon, Vermont state treasurer, received a check for $8,000 signed by the Treasurer of the State of New Hampshire.

The check covers $2,000 for each of four New Hampshire students presently enrolled in the College of Medicine. Making the presentation was Charles H. Brown, UVM Trustee and member of the House of Representatives from Brandon.

This money is the first to be received under the provisions of Section 3 of No. 102 of the Acts of 1953, which sets up the program through which four New Hampshire students may enroll in UVM's College of Medicine at resident tuition.

The act provides that money received under this arrangement shall be paid to the State Treasurer for use of the General Fund.

This is the first higher education contract agreement entered into by Vermont with another New England state. A bill already submitted to the Legislature would set up machinery and give impetus to speed up the process of cooperation among all the other New England states.

• • • • •

BASKETBALL CLINIC

The Department of Physical Education for Women will hold its second women's basketball rating clinic of the year on Saturday, March 5, at Southwick.

The clinic will be held in conjunction with a basketball sports day being sponsored by the Women's Recreation Association. Interested women's basketball officials will have the opportunity to obtain a national, local, associate or intramural officiating certificate.

• • • • •

SUGAR ON SNOW

The Newcomers Club held a Sugar on Snow party at Southwick on Saturday evening, Feb. 26. Raymond Foulds and Ed Root lent their special assistance to the Newcomers Club committee in charge of the event. An outdoor version of the sugar party will be coming up soon when the annual Dean Hills Sugar Party will be held at Underhill on March 12.

Meetings

The A.A.U.P. will meet in the Faculty Lounge at 1 p.m. on Saturday, March 5.

• • • • •

Paul Evans will be the speaker at an 8 p.m. meeting of the Research Club on March 15 in the Home Economics Auditorium. Mr. Evans will speak on "Some Aspects of the Renaissance. "

• • • • •

Dean George Wolf will speak on the College of Medicine at the next open meeting of the Senate Curriculum Committee set for 7:30 p.m. on March 14 in Room 210 of the Waterman Building.

Faculty Notes

Charles Helgesen served as moderator for a mayoralty debate held in the Burlington City Hall Friday evening, Feb. 25, under the sponsorship of the League of Women Voters. Mayor J. Edward Moran and Morris R. Wilcox were debaters. Mr. Wilcox, Republican candidate for Burlington mayor, is a UVM graduate, Class of ' .

• • • • •

Wilhelm Raab has an article in the January issue of Modern Medicine. Dr. Raab's article is on "Hormonal Factors in Heart Disease. "

• • • • •

President Borgmann will be the speaker at the regular Wednesday morning chapel session in the Ira Allen Chapel at 10 Wednesday, March 9.

• • • • •

Dean Thomas King, H. Dean Pearl, and Nelle Adams are serving on the executive committee for the March Conference for Teachers which is sponsored jointly by the Champlain Valley Teachers' Association and the University.

The Conference, set for the Burlington High School Auditorium on Friday, March 11, will feature August Heckscher, chief editorial writer for the New York Herald Tribune, as the principal speaker.

President Borgmann will also address the conference.

THE BULL SESSION

I wonder if they still make bull sessions the way they used to. Well do I remember the bull sessions of my own undergraduate days. How cogent they were! How informative! How the good talk crackled and our young hearts leaped and the hours sped by as swiftly as minutes!

Our discussions were always led by Jack Femur. (Good old Jack! I hear he's in the extruded aluminum game now.) We would sit cross-legged in a circle around Jack and he would fill his pipe with his own private blend — burley, latakia, and shredded coconut. The rest of us preferred tobacco, so we would light up Philip Morris. This is a procedure I recommend without qualification to everyone who prefers tobacco because Philip Morris has the tobacco that tobacco-preferers prefer the most — mild vintage leaf with a clean, cool flavor that soothes and steadies, that gladdens and enlivens and refreshes.

Jack would puff on his pipe and we would puff on our Philip Morris and the bull-session would begin its meandering journey. The talk would touch on every subject known to man, on every conceivable thing beneath the sun, but no matter how far the conversation wandered, it would always return to "Topic A." I refer, of course, to gardening.

But, as I say, the discussion would cover many subjects before it came to the inevitable gardening. Jack would open each session with a provocative question of a general nature, like: "What's the most important thing a man can get out of college?"

"Girls," Harold Clavicle would reply promptly. (Good old Harold! I hear he's in the frozen lobster tail game now.)

"No, I don't think so," Ben Fibula would say. "I think education is the most important thing you get out of college." (Good old Ben! He's still in school.)

"Listen, guys, I've got a question," Clyde Ilium would say. "If you could spend a week either with Ava Gardner or with Albert Einstein, which would you choose?" (Good old Clyde! I hear he's in the unclaimed freight game now.)

"Albert Einstein, of course," Will Mandible would say. (Good old Will! I hear he's in the jack handle game now.)

"What?" Cleanth Patella would cry, astonished. "You would rather spend a week with Albert Einstein than with Ava Gardner?" (Good old Cleanth! I hear he's in the unclaimed freight game with Clyde Ilium.)

"Natch!" Will Mandible would answer.

"But why?" Sol Sacrum would ask. (Good old Sol! I hear he's a parking meter in Deal, New Jersey.)

"Because," Will Mandible would cry, "if I spent a week with Albert Einstein, maybe I would get so smart that I would be able to figure out a way to spend *more* than a week with Ava Gardner!"

Well sir, we laughed until our little uvulas were sore and then we went on to a host of other topics. "Do you think it's important to join a fraternity?" Murray Tarsus would ask. (Good old Murray! I hear he's in the mica game now.)

"Only if you are a boy," Bob Turbinate would answer. (Good old Bob! I hear he's in the sheared raccoon game now. The raccoon, incidentally, was invented by Milton Raccoon, whose career should be a source of guidance and inspiration to us all. Mr. Raccoon arrived in this country in 1907, penniless and not speaking a word of English. Today he is the Mayor of four of our principal cities.)

But to get back to the bull session — "What's the best thing to do when the girl you are dancing with insists on leading?" Eric Ulna would ask. (Good old Eric! I hear he's in the flutter valve game now.)

"Hit her with a folded newspaper," George Vertebra would answer. "Never hit a girl with your hand. They learn to associate the hand with food, and you must not confuse them." (Good old George! I hear he's in the folded newspaper game now.)

And so it went — the talk ranging the worlds of the arts and the sciences and the social graces, until we would climb, spent but happy, into our little hammocks . . . I wonder if they still make bull sessions the way they used to.

© Max Shulman, 1955

This column is brought to you by the makers of PHILIP MORRIS, who have been in the tobacco game for many long years and who tell you now proudly that their product is better than ever.

UVM Is One Of First Schools To Lift Curtain On "Oklahoma"

By Stan Sakowitz

The University of Vermont will be one of the first universities in the country to produce "Oklahoma," The CYNIC learned today. Rogers and Hammerstein had never released this musican comedy to non-professional groups until this fall. This is also the first time a musical comedy of this sort has been produced on the UVM campus.

"Oklahoma" will be presented April 15, at Memorial Auditorium exactly as it appeared when it was a smash hit on Broadway. It will contain all the songs, dialogue, dance sequences, and orchestration as that of the original production.

The plot of this musical comedy was based on the play, "Green Grow the Lilacs." It is interesting to note that "Oklahoma" was one of the first musical comedies to have a strong story and characterization. More unusual is the fact that it was the first musical to give dancing a major role. The second act Curtain, which is an important part of any play, consists of the 10 minute dance routine, called Dream Sequence.

The general Director of "Oklahoma" is Greg Falls; Musical Director, Professor Howard Bennett; Orchestra Conductor, Ippocrates Pappoutsakis; Choreography, Martha Howe; Voice Director, F.A. Weinrich Stage Manager, Tom Marx; Assistant Stage Manager, Sally Weinstock; Business Manager, Lee Barker; UniversityePlayers Technicians, Dick Adams. The production is being produced by the University Players.

The plot is set in Oklahoma while the latter is still a territory. It is the story of two couples; Laurey and Curly and to complete the love triangle, Jud, the villain, and Ado Annie and Will Parker with Ali Hakim creating some trouble in this affair. It is also the story of the conflict between the cattlemen and farmers.

Approximately 40-50 people auditioned for the main roles, but only seven parts had to be filled. The people who received them and their parts were; Roger Wakefield, Curly; Betsey Brazil, Laurey; Joyce Morchauer, Ado Annie; Hal Greenfader, Will; Stephen Pearl, Jud; Alayne Tomilinson, Aunt Ellen; and Wally Siegel, Ali Hakim.

The dancers are: Judy Arnstein, Rusty Clarke, Claire Dyer, Wanda Golden, Gail Henion, Pat Lovell, Judy Newton, Syd Pasner, Mickey Rotanelli, Sandy Phippen, Sue Wakefield, Lenny Weinstein, Bob Krauser, Art Krauser, Harry Colbe, Bob Barth, Neil O'Connell, Bruce Evans, Everett Fiefield, Roy Kelley.

"Oklahoma" is to be presented in a new manner of staging called a "musical circus in the round." Many theaters of this type have sprung up all over the country. The more noted of this are the Lambertsville Musical Circus in New Jersey and the Wallingford Theater in Connecticut. The production will be given on the floor of Memorial Auditorium with bleachers on three sides and also on the stage. Seats will also be available in the balconies.

John Manning Is New President Of Newman Club

By Shirley O'Neill

John Manning, '56, was chosen the new president of the Newman Club at an election held last month. Other new officers of the club include: Ralph Deslaurier, '57, Vice-President; Maurice Chevalier, '57, Treasurer; Mary Bohmer, '58, Recording Secretary; and Mary Lou Agnew, '58, Corresponding Secretary.

Cardinal Newman Sunday

The new officers began their duties last week as the Catholic students on campus celebrated Cardinal Newman Sunday. A high Mass in the morning and benediction in the evening highlighted the celebration. All the members of the Newman Club were then welcomed at a formal reception held at the Bishop de Goesbrian Hospital.

Lenten Worship

The Club's annual mission will take place this weekend on March 4, 5, and 6. Special services in honor of the season of Lent are also being held, with Mass being celebrated at 6:30 A.M. daily. There will be a Mass at 7 P.M. each Friday evening, and stations of the Cross on Wednesday evenings at 7:30 P.M.

The illness of Rev. Edward Foster has necessitated a slight modification in the schedule of religion classes. The Ethics and Philosophy classes, formerly separate, have been combined into one class, which is being taught by Rev. Edward Fitzsimmons of Trinity College on Wednesday at 4:30 P.M. in Room 208 of the Waterman Building. The Thursday class in Theology, conducted by Rev. William Mulligan, is being held as before.

March Twelfth Is Date Set For 'Sugar Party'

Literally gobs of refreshments, (sugar on snow) walks in the woods and a look at maple sugaring operations are the enticements offered by the twenty-second annual Dean Hills Sugar Party on March twelfth. Free transportation will be provided to the University Research Farm at 1:00 P.M. at the Dairy Building.

"All you can eat for seventy-five cents" is the offer for the party which has been one of UVM's gayest events since 1933.

Herald Tribune Editor to Speak

August Heckscher, chief editorial writer for the New York Herald Tribune, will be the principal speaker at the 48th annual March Conference for Teachers which will be held in Burlington on Friday, March 11. The Conference is sponsored jointly by the Champlain Valley Teachers' Association and the University of Vermont.

General sessions of the Conference will be held in the Burlington High School Auditorium where Heckscher will speak at 10:50 a.m. Friday on "Today's America- as an Editor Sees It."

The author of "A Pattern of Politics," Heckscher has made frequent television appearances. He is a graduate of Yale University and, following graduate work at Harvard, returned to Yale to teach government. During the war he served in this country and overseas in the Office of Strategic Services.

All-University OpenDanceNext Saturday Eve

An All-University open house-dance will be held next Saturday by the Freshman Class in the "Caravan Club Night Club." This night club will be located in the lower level of Waterman, on March 12th only.

Music will be supplied by the Arabian Nights, and members of the faculty will provide the entertainment. Door prizes and refreshments will be added attractions to the evening's fun.

Books

(continued from page one)

continued, "those teaching junior and senior courses could safely assume that references to works included on the reading list would be understood.

A Practical Problem

"Of the many practical problems that will arise, the matter of where and how to obtain the necessary number of books seems to be most important." Professor Murdock went on to say "I imagine that many of the books would be available in paper-cover editions which would reduce their cost. Perhaps each of the fourteen departments involved will appropriate part of their library funds to the purchase of several copies of several copies of "their" books Also, since some of the readings will undoubtedly be done over the summers, students' home libraries will supply them."

If Professor Murdock's proposal passes the College of Arts and Sciences Curriculum Committee, it will be referred to the College's faculty for its approval. Then it must receive the nod of President Borgmann and the University Board of Trustees.

IT'S EASY TO SEE that the Droodle above is titled: Tired anthropologist relaxing with better-tasting Lucky behind freshly dug-up fossil. No *bones* about it, Luckies taste better to all sorts of people. College smokers, for instance, prefer Luckies to all other brands, according to the latest, greatest coast-to-coastest college survey. Again, the No. 1 reason for Luckies' wide lead: Luckies taste better. They taste better, first of all, because Lucky Strike means fine tobacco. Then, that tobacco is *toasted* to taste better. "*It's Toasted*"—the famous Lucky Strike process—tones up Luckies' light, good-tasting tobacco to make it taste even better... cleaner, fresher, smoother. So, enjoy the better-tasting cigarette . . . Lucky Strike.

Offer Group, Single Tour Of Europe; Study, Play

How about going to Europe this summer? It sounds exciting, doesn't it? How will you go and will it be very expensive?

The first decision that you have to make is if you want to travel alone or with a group. Most students enjoy traveling with a group. Different group programs offer a variety of experiences that are interesting and rewarding. When you go with such a group, you meet European students, visit European families, and discuss some of the European problems in government, business, etc. If you have been to Europe before, you will probably want to spend time with your friends. However, if you're taking your first trip abroad, and if you can't speak a foreign language, your best bet is to enroll in a group.

Study At Same Time

The opportunities for group travel to Europe are numerous. You may want to take a general tour and visit seven or more countries with brief stops for sightseeing, or you may want to go on a study tour. These study tours may study one section of Europe or one aspect of European culture. You visit the well-known institutions and attend lectures and discussions.

Among the subjects are Art, Music, Religious Developments, Government, or International Relations. It is not "all work and no play" because there is also time for sight-seeing.

Are you looking for work away from home? Several organizations sponsor camps where students live together, work together on some manual labor project and carry on a program of discussion. Are you complaining because you have to go to summer school? Yes, there are even summer schools abroad that are designed especially for American students.

If you are worried about your budget and if you are an energetic student, see Europe from a bike. These hostels provide a good opportunity to observe life in rural sections and small towns of three or four countries. The price of a summer tour to Europe is between $500 and $1500. One has to consider the type of transportation, the group that he wishes to travel with, overnight accommodations, meals, and baggage.

A bike, canoe, or airplane will take you through Europe where you can see the sights, study, or just visit friends and relatives. Europe is definitely the place to spend your summer. Who knows---maybe you'll find a fellow Vermonter there. For further information concerning your vacation in Europe contact COSA Don Hardy in Room 40 Waterman Building.

Oklahoma Chorus Tryouts

Additional tryouts for the chorus of "Oklahoma" will be held in the Music Building, 70 Williams Street, tomorrow March 4, from 3:45 to 5 P.M. All women who were asked to remain and all the men are requested to try out again; also new candidates who have not been heard -- 1st sopranos, tenors, and basses are especially desired. Since candidates will be tried out in combination, it is important that everyone be present throughout the whole period if needed. The tryouts will be based chiefly on "Oklahoma" and "Many a New Day." The music may be borrowed and used in the music building.

Vermont Art Work Exhibition Now At Fleming Museum

By Mary Davidson

The Northern Vermont Artists 25th Annual Show, the biggest event of the year at the Fleming Museum, opens March tomorrow, Dr. Allan Gowans, director of the Museum, announced. Approximately 45 recent original works have been submitted.

Judges of this show will be Dr. Gowans, Professor John Packard, head of the art department at Dartmouth College, and Paul Sample, who recently had a one-man show at the museum and who is well known for his oils and water colors of American scenes. Also on display is the premiere Vermont showing of the traveling exhibit from the 18th Ceramic National, which was first held at the Syracuse Museum of Fine Arts. This exhibit consists of 150 to 200 pieces of pottery, ceramic sculpture, and enamels, including the prize winning and honorably mentioned pieces from the initial showing in Syracuse. The pieces being shown are examples of the finest quality of contemporary American ceramics.

Also on display now is the 14th annual all-Vermont Camera Club show, sponsored by the Burlington Camera Club. This exhibit includes one gallery of black and white prints and another of color prints and special pieces. Judged outstanding in the show is John Quinn's print called "Autumn Harvest."

Wife Of ROTC Instructor Is Student Here

The wife of a young Air Force lieutenant assigned as an assistant professor of air science at the University of Vermont has gone back to school as a freshman in UVM's College of Education, and finds that she likes it fine even if it does make it harder to keep up with her housework.

Margaret Aldrich is the UVM coed in the family while her husband, Lt. Frederick Aldrich, is on the teaching staff in the department of Air Science at UVM. They are the parents of two boys, five and seven years old. Both are natives of Lebanon, N.H., and both graduated from Lebanon High School. Lt. Aldrich graduated from Keene State Teachers College in 1949, and now Mrs. Aldrich is hoping to catch up.

MORNING CLASSES

"It's a job," she admits, "I have to get my housework done in the afternoons when my classes are over." Her class schedule is arranged so that she has morning classes Monday through Saturday.

"She has a girl come in, in the mornings from 7:30-9 to help get the boys off to school, and again during lunch hour," her husband, Lt. Aldrich, reports, "but outside of that she does it alone."

"But my husband is very good about helping me," the UVM coed notes, adding "on weekends we both clean house."

"We clean the house, the yard, the car...everything," Lt. Aldrich related.

STRANGE FEELING

Helping each other through school is nothing new to the Aldriches, since Mrs. Aldrich worked while Lt. Aldrich attended Keene State Teachers College, Keene, N.H.

Mrs. Aldrich feels only "a little out of place" as a member of the Class of '58. "My teachers are all very kind," she says, and adds that she is not the only wife and mother attending UVM. "Our next door neighbor, who has two children, is a senior," she says.

Her attendance at UVM is part of a long-range family plan, according to Lt. Aldrich, who is a combat veteran of World War II.

FOOD AND RENT

He states that he taught for two years following his graduation from Keene until the time he was recalled by the Air Force in 1951, and he plans to go back to teaching when he leaves the service. "But," he says "we thought if Margaret had her certificate and could teach, maybe we could afford to pay the rent and the grocery bills too instead of just the rent, which was about all we could afford before on one teaching salary."

In connection with this aim, Lt. Aldrich has enrolled in UVM's Graduate College and plans to work toward his masters degree in education.

These planes are some of America's newest, biggest, best — setting new standards for speed, maneuverability, reliability.

Widely separated airframe engineering groups developed these record makers. Yet each plane has one vital feature in common —

the engines are Pratt & Whitney Aircraft's J-57 turbojets — the most powerful production aircraft engines in the world!

Is it any wonder that so many young engineering graduates want to work for the world's foremost designer of aircraft engines?

Aldridge

(continued from page one)

are vital to the function of the state as a commercial and humanitarian organism.

"If this is true, then we can see right off that the state cannot, at this time, afford the luxury of higher education, in the sense that I have used that term up to now.

Humanities Suffer

"Education in the critical method, in the discipline of language, in the culture of the world, must be considered as secondary to the immediate practical obligations of education in a provincial society.

Because of these interests UVM's obligations to the humanities has suffered. "The humanity departments are merely appendages of the agricultural, and medical, and education departments.

In his talk Aldridge proceeded to outline the main functions and responsibilities of a university--not the ideal university but what he considered a true university. To build this University, money is necessary--money, to buy a good faculty, to attract the students it wants. The theory states that the best students come to a university with the best faculty.

In addition, Mr. Aldridge stated that a true university has access to a fine library and a conservatory of music a fine art gallery, and fine laboratories in physical and social sciences. Schools such as Princeton, Yale, Harvard and Columbia are "sterling" examples. They have no difficulty in getting the best students; their problem is in taking the very best from the best.

What can this true university teach? He summarized it under one heading -The "Discipline of Language."

"The mind cannot think except in units of language" therefore there should be courses in the science of language. The survey courses prevalent in American education and courses in composition and writing should be abolished completly, he felt.

Need Joint Effort

UVM feels that it has to meet its obligations to the state first, and state funds are provided the university for this purpose.

Because the character of the obligations which the university are required to meet are practical and technological, many of its other obligations as an institution of higher learning are met only partially or are not met at all, he suggested.

"Until the University of Vermont and the State of Vermont gather the courage to join forces and face together the challenge of making the University of Vermont a real university right here on these premises," Aldridge concluded, "the only prospect I can see ahead is a continuation of the status quo, a consequent increase of dullness and frightened respectability and the final closing down in this state of the factories of the human mind and spirit."

Just 48 hours before his talk Mr. Aldridge tendered his resignation to President Carl W. Borgmann, it will become effective at the end of the academic year. Mr. Aldridge joined the UVM English faculty as a lecturer in Literary Criticism six years ago and since has lectured at Princeton, Columbia, the City College of New York, Boston University, the University of Wyoming, Oberlin and Skidmore Colleges. He has contributed essays and reviews to the New Republic, Partisaan Review, the New York Times Book Review, Saturday Review of Literature and Harper's Magazine. He is the author of "After The Lost Generation" and edited "Critiques and Essays on Modern Fiction."

Prexy Explains Charter Change, Effect On UVM

In a special CYNIC interview, President Carl W. Borgmann explained how the proposed charter amendments will effect UVM's future.

"In effect, the Charter bill clarifies the University's situation both as to internal administration and as to UVM's relation to the state. Secondly, the bill reconfirms the historic relationship of the University as the state university, founded by legislative action, and perpetuated by continued interest of each successive Vermont Legislature.

"The charter ammendments are designed to keep and make possible improvements of the high quality standards which UVM has always maintained."

Vermont Youth Benefit

"Foremost, however, the charter ammendments are aimed at making available a better educational opportunity for Vermont youth. Every other state in our nation provides at least one institution which, because it receives state support, can offer its own youth a chance for a low-cost, high quality education. Until now, Vermont youth have had no such opportunity. The charter ammendments clear the way for such an opportunity to be made a reality."

Kroepsch, SA, IFC

Dean Robert Kroepsch felt that the charter change, "would be an advantage not only to the young people themselves but also to the state, since it is from among today's young people that tomorrow's leaders must be found. To deny higher education to a qualified student of a financial basis is wasteful, especially in an era when more highly educated leaders are necessary to deal with the increasingly complex problems which confront our cities and towns, our state, our nation and the world."

George Lucchina, President of Student Association, feels that the charter change will, "alter the nature of the University from a "little Ivy League" to a state University similar to those of the other New England states." However, George said that any changes which might occur will evolve over a period of years rather than immediately.

Stan Stein, president of Boulder Society and I.F.C., felt that the charter change would raise admissions requirements for out-of-staters and thus, also raise the academic rating of University students.

Skapski

(continued from page two)

duced a new course: The Development of Science. It stresses the cultural background of the times during which Science was pushing her way ahead, up to the present day. Philosophy, art, literature, historical trends are discussed in sketching this background. Old music is played, the better to get across the spirit of a given period. We get willing and valuable help from the Director of the Fleming Museum, from the Heads of the Departments of Art, of Music, of Audio-Visual Aids, whenever we ask for it. We hope to expand this kindof teaching -- an experiment which is rather unique, as far as we know. By the way, half of the students in the course are engineers. And always have auditors, besides the enrolled students.

Aldridge Uninformed

Again on the margin: any cogs in the complicated machinery of the campus life, who feel their spirit crushed, are cordially welcome to audit the course. Unless, of course, Prof. Aldridge has created other cultural nuclei for them. We wouldn't like to compete.

Of course, Prof. Aldridge might not have known about what we are doing. But he should have. Critical conclusions, to be valid, must be based on all data. That's what science requires of criticism. The trouble is that Prof. Aldridge is, au fond, an artist -- as he should be, in his profession. And so the bellowing of the cows irritates him to the point that he begins to lose sight of things which are going on under his nose.

Poor cows... The Greeks thought cows' eyes were beautiful, "O, boopis..." "o, cow-eyed one...", whispered a Greek ephebus into his sweetheart's rosy ear. Dear colleague Aldridge, the classics are against you!

But let us end on a serious note and sum up the conclusions.

Unjust, Exaggerated

Prof. Aldridge's criticism is masterful in form, but unjustified in content. -- He exaggerates the present state and misplaces the arrow on the present trend. It is not constructive -- no criticism based on the leitmotif of hopelessness and written in a minor key can be constructive. It depresses more than it helps. It smacks of the: go-and-hang-yourself - all-is-lost sort of advice.

Well, I am not going to hang myself. I love Vermont. Cows don't annoy me. The clickety-click of the surgeons' knives may help to save my child's life, some day, so I'll put up with it, I guess. There are many faculty members -- and many among them with better scholarly records than mine -- who are thinking along the same lines.

Without closing our eyes to any inadequacies and without shutting up our ears to sound criticism, we shall go on working for the ever better UVM.

Personally, I would like to see Prof. Aldridge in our group. He is a very talented man, and he could help a lot. Unfortunately he doesn't like cows. Well, chacun a son gout. And so I must end with a: bon voyage!

SA Council Allocates Funds

The Student Association Council voted last week to give the Debate Club a total appropriation of $1,000 for the remainder of this year, and increase over the amount which had been placed on reserve for the club last spring.

At the same time the Centaur was appropriated $475 to put out an issue of the campus literary magazine. The Centaur had originally asked for $495, but the Student Council felt that the staff would be able to obtain the twenty dollars difference through advertising.

A large part of last week's meeting was spent discussing a report by SA Vice-President David O'Brien which recommended that the bill for certain damages done to the Student Association Station Wagon by the Editor of the CYNIC by paid for be him personally rather than out of CYNIC Funds. The recommendation was actually superfluous because the senior staff of the CYNIC had already voted to have the editor pay for the damages.

Discussion upon the report was mainly over whether the Student Council, which is a legislative body, or the Student Court, which is the judicial body, had the authority to act upon the report

Other recent action of the Student Association Council has been to raise the rental rate of the SA Wagon from 6 to 8 cents a mile, effective with the new fiscal year. The council also raised the amount which campus organizations are authorized to pay for use of private cars from 5 to 7 cents a mile. This action came as a result of the discuss on transportation for the debate Club, in which it was pointed out that the club has to charge itself budget for 7 cents a mile in order to maintain the Debate car. O'Brien pointed that it is against the SA policy to authorize that amount for car rental, and so it came about that the rate was raised.

The Religious Activities Committee was appropriated $104 for the Religion and Life Weekend.

Old, New Merge In Audio-Visual Center

Eldred Heads New Branch

The relatively old and the comparatively new have been merged into a new administrative division here at the University where the new Division of Audio-Visual Services has been established in the southern wing of the Old Mill, the oldest building on the UVM campus.

The contrast of old and new would be graphically illustrated if General Lafayette were to lay the cornerstone of the Old Mill today as he actually did back in 1826. Whereas in 1826 there would have been no division of audio visual service at any college in the land, today General Lafayette's visit to UVM would be elaborately recorded by UVM's Audio Visual Service staff, and Vermont and national newspapers and television stations would, in a matter of hours, probably carry appropriate photos of General Lafayette with a trowel and mortar, getting the Old Mill off to a historic start.

"Settled"

UVM's Division of Audio-Visual Services, created in July of this year, is headed by Horace B. Eldred, former director of the Fleming Museum. "We moved into our new quarters here in August of 1954," he states, "and are now pretty much settled."

The Division has turned its wing of the Old Mill into facilities which include two projection rooms, a double photographic dark room, the Vermont Film Library, the librarian's office, the Director's office, and a store room. All but one projection room, which seats 55 persons, are on the ground floor of the Old Mill. The large projection room is on the second floor of the building, and is equipped for the showing of moving pictures, slides, film strips, and the playing of recordings.

Open For Use

The room may be used by any department of the University for classes or meetings, as well as by groups and individuals outside the University. Those making use of the facilities may bring their own films or slides for showing, or may call on the resources of the Vermont Film Library which is jointly sponsored by UVM and by the Vermont State Department of Education. Over 1,000 films are currently available, according to Eldred.

The division's second projection room is on the ground floor and is used primarily as a "preview room," since it seats only about 20.

Films In Class

A feature of the Division's "visual" service is the providing of equipment and personnel to show film material in other buildings on the UVM campus and off the campus. Any department or group may take advantage of this service, Eldred relates, adding that "frequently lecturers are able to make use of film material in rooms where their classes are regularly scheduled, and we're happy to make this service available wherever classrooms are suitable for the showing of film material."

P.C. Glidden, film technician at Audio-Visual center in Old Mill, prepares film strip for use by University family. All photographs - Levine, SPS

It's tedious work for Film Librarian, Mrs. Marilyn Sharp. Over 1000 films are on hand.

Phil Eldred, son of Director Horace Eldred, lends a hand with projection.

Part of the service extended involves rental of films to state organizations and private institutions. Glidden prepares a film for mailing.

To staff the service, the Division has a part-time projectionist and eight student projectionists.

Handling administrative details are a full-time Film Librarian and a part-time secretary. A full-time film technician rounds out the staff which Eldred directs.

Related Services

While the new Division is well equipped to show or lend films, it is also equipped to provide such services as making lantern and color slides and taking photographs, and the UVM Public Relations Office now makes use of the Photographic Department of the Division of Audio Visual Services for most of the photographs sent out with news releases or used in brochures and booklets published by the University.

Equipment of the Division includes four 16 millimeter projectors, four slide and strip projectors, a recorder three transcription players, three still cameras and a 16 millimeter movie camera, a variety of screens, stereoscopes and microphones, plus a varied collection of lantern slides.

"Right now," says Eldred, "we feel we're fairly well equipped to meet the needs of most departments, but, from time to time, we get a request which requires facilities or equipment we don't have.

"Any expansion of our facilities and equipment," he concludes, "will be along lines designed to meet the demands made upon our service."

SALES

Steinman Annexes Most Valuable Player Award; Captain Keith Jampolis Scores Point Number 1000; Steinman Shatters Season's Point Scoring Mark

Senior Scores Win In Close Ballot Count

Earl Steinman, a senior, was elected the Most Valuable UVM Player by the student body last Friday. The vote was sponsored by the CYNIC to determine the recipient of the WOODS Trophy, donated by Woods Sporting Goods Store.

Award Presented Last Night

The award was presented to Steinman by CYNIC Sports Editor, Gerald Goldman, at last night's contest against Brandeis. It was Steinman's last appearance at UVM's home court. Tomorrow, he ends his four year college hoop career against the Panthers at Middlebury.

Earl won the award, (which saw close to 1000 student and faculty voting) by a very close margin. Other members of the starting five who gained a considerable amount of votes were Bob Lovejoy, Keith Kampolis, and Skippy Burkhardt.

This is the second year the honor has been given. Last year Jerry Samuels, who has since graduated, won the award.

George Plender pitched 562/3 straight scoreless innings for the Catamount nine last season. He is now a senior, and will attempt to continue his record string

Nimrods Beat Last Years Nat'l Mark

by Ron Smith

The UVM-ROTC Rifle Team should be in for some honors in the near future according to the records. In the National Army ROTC Rifle competition, the local post sent in a 7362 total score for the four phases. L. Hibbard was high man with his total of 763. Following along in order for the top five are: Hicks, 752; Long, 746; Sosnick, 738; and Young, 734.

Sgt. Whitehead, coach of the varsity and ROTC teams stated that, "this year's score is more than 150 points better than the score we ended up with last year when we were fourth in the first Army and 46th, nationally."

During the past week, the ROTC team picked up two wins over Wisconsin and Pennsylvania U's while dropping none to give them a 11-3 mark for the season to date. The varsity has not been as sharp as the ROTC Team but they picked up a New England College League win over Bowdoin this week.

NHU In Shoulder Match

Saturday, the varsity travels to the University of New Hampshire to fire a shoulder to shoulder match with the White Mountain boys. This should be a close match as both teams have been firing at about the same score all season. UVM will be at a big disadvantage because it will only shoot 7 men out of a possible ten. Only 7 men are on the varsity at the time.

Last Saturday at Northfield, the Norwich Cadets took the measure of the local varsity by a decisive 1402 to 1334 score. Norwich is one of the top teams in the East this year.

Bright Future

The Frosh fired a match against the US Naval Academy Team and the Kittens filed a 1355 score. This score is a little below the varsity total on the average but the Frosh are improving all the time, according to Sgt. Whitehead. The Sgt. plans to fire the Frosh against the varsity at the end of the season and he hopes that it comes out as close to a tie as possible. None of the present varsity will be lost because of graduation this year so next year, the varsity and ROTC teams will be hard to beat.

SeniorHoopAces Notch Places In Record Book

With the 1954-55 basketball season rapidly drawing to a close, the UVM individual scoring record book has been all but re-written by a couple of guys called Jampolis and Steinman.

In almost four years of varsity competition captain Jampolis has totaled up to 1009 points, (up to last night's game) an all time at Vermont. He broke Nat Campana's old record of 855 points (for three years of play) about half way through the season. "Jamp" went over the 1000 mark last Saturday against Clarkson by scoring 18 points in a 100-97 victory. Keith, a senior from Erasmus Hall High School in Brooklyn, has an average of 12.8 points per ball game over four years and a 14.5 mark for this season's play with 276 markers in 19 contests.

Steinman's Rating

Earl Steinman, a senior, of New Britain, Conn., affectionately known as the "Duck", has played three full seasons for "Fuzzy" Evans. Earl did not play part of last year because of illness. With all due credit to Jampolis, Earl probably would have overtaken Keith in the race for total points during a career, had he played last year.

In any case, Mr. Steinman holds his share of records. Earl has scored 347 points thus far this season, a new UVM high for a year's play. The previous record of 320 points was accomplished in 1952-53 by Nat Campana. Earl has an average of better than 14 points per contest for three and one half years. This is also a new high. His 18 point average this season is another one of his accounts receivable. Throw in the fact that he is Vermont's second all time scoring king with 943 points (to date) and you find that his assets are well counted.

Keith, Earl Throw Book Away

Together, Keith and Earl have led UVM to a four year overhauling of the record books, something that won't be done for a long while to come.

Frosh Hoosters Upset Dartmouth; Post 6-4 Showing

by Ron Smith

The Frosh Basketball Team came to life last week as they took three out of four games, including an upset win over the Dartmouth Frosh. The Dartmouth 5 was on a short end of a 76-58 score as compared to a larger margin in favor of the invaders when the teams met before.

Tomorrow night the Frosh end their season when they travel to play a prelim to the Varsity encounter. The last time that the two frosh teams met, the local boys were on the long end of a 76-62 score. Since that meeting, the Kittens have improved greatly under the eye of coach Ralph Lapointe.

Bouchard High Man

Ron Bouchard has been leading the team in the scoring dept. with 83 points in the last five games. Following close behind in the scoring parade are Bob Lovell and Fred True with 61 and 53 points.

Other wins include Norwich and Lyndon STC. St. Mike's Frosh is the only team to hold double wins over the Frosh this year. Both of the victories for the Winooski lads were by big margins. Lyndon fell by a 94-71 count while the Norwich Team lost by 3. The team now posts a 6-4 record.

Purple Knights Lance Cats In Close Duel

After notching up their fifth win of the season against Trinity College at the 58th annual Kake Walk game, the Cats dropped a state game with St. Michaels 73-66.

The Purple Knights were the host this time at Memorial Auditorium; but not even the changing of benches could bring Vermont their first state victory. The first half saw both teams fast breaking and taking advantage of all scoring opportunities. It was mostly an uphill climb for the Cats but they stayed with the Knights and left the floor at halftime down by a slim four points.

Evans Pulls Zone

For the first ten minutes of the second half the story remained similar to the preceeding half. But the Cats had still failed to catch St. Mikes and trailed 55- 50. With seven minutes to go in the game Coach Evans went into a zone defense. The purpose of this, as explained by Coach Evans, was that two of his starting five, Lovejoy and Steinman, both had four fouls apiece. Also, Fuzzy felt that with the 3 minute rule coming into effect, he would have little chance to get the ball. As it turned out, the Purple Knights capitalized on our zone and spread their lead to 14 points.

By appointment purveyors of soap to the late King George VI, Yardley & Co., Ltd., London

Yardley brings you good grooming in a bottle— London style

From London, the world's center of fashions for men, comes Yardley After Shaving Lotion. It softens and braces the skin in wondrous style. It helps to heal inadvertent nicks. It counteracts skin dryness caused by hard water shaving. It was created for those who value good grooming. At your campus store, $1.10 and $1.50 plus tax. Makers and distributors for U. S. A., Yardley of London, Inc., New York.

Cats Hit Century Mark In Win Over Clarkson; NCAA Ski Championships On The Line This Weekend

100 - 97 Victory Marks First Time; Steinman Sets 36

Holding a 5-12 record, the Catamounts left for a road trip last weekend against St. Lawrence and Clarkson. Both games were afternoon encounters, one of which was played before a Winter- Carnival crowd at St. Lawrence.

The UVM hoopsters defeated Clarkson University at Clarkson last Saturday, 100- 97 in a double over-time. It was the first time in Vermont history that a varsity hit the century mark.

Clarkson came from behind both times in the first and second overtime but it wasn't enough as the Evansmen traveled back to Burlington feeling a lot better than the day before, when they dropped the St. Lawrence contest. Earl Steinman set the pace with an amazing 36 points. Right behind Earl was sophomore sensation Skip Burkhardt who scored a very impressive 32 points.

Evansmen Lose To St. Lawrence In Tough Fray

by Mark Bernstein

The first game was played against the Larries from St. Lawrence who were out to avenge last year's 72-62 loss to Evansmen and also make a good showing before a winter-carnival audience. This encounter was a nip and tuck affair with the lead changing hands time and time again. The Larries held a one point margin at halftime but broke away in the second half to chalk up a 103- 94 win over the Cats. Earl Steinman was high with 23 and right behind him was Jampolis with 18. At the end of this game Captain Jampolis had needed only nine points in the Clarkson game to break the 1000 mark.

Watch for 1955 baseball preview.

Vermont Ski Team which is confident of gaining National Collegiate Athletic Association ski awards this weekend at host Norwich University. Vermont is placed with top five New England colleges.

Norwich Scene Of National Ski Meet This Year

by Dick Lewis

The University of Vermont Ski Team moves to Norwich University this weekend for the NCAA Ski Championships. The Catamount Skiers will face competitors from Middlebury, Dartmouth, University of New Hampshire and Williams as well as individuals from other schools who placed high in the tryouts at Middlebury two weeks ago.

Strength In Nordic

With one of the strongest Nordic Teams that UVM has ever had, the UVM Skiers will be paced by co-captain Larry Damon who has compiled an impressive record this season of two first places in carnival competition as well as a third place in the Nordic Combined at the United States Eastern Championships at Rumford, Maine. Entered with Damon in the cross-country are Bill Purcell who placed 4th in the Class B Nordic Combined at Rumford last week, Al Duval who is showing tremendous improvement and Clint Thompson who is also expected to do well. The other side of the Nordic events sees Jerry Baril and Bill White jumping with Damon and Purcell on Sunday afternoon.

The Alpine Squad faces a rugged 2 mile course on Thursday afternoon at Mad River Glen as they point their skis down the Catamount and Grand Canyon Trails. With the icy conditions that now exist there will undoubtedly be many spills. The Alpine men are led by Frank Evans who has proved to be the mainstay of the team, along with Larry Damon, Bill White and Bill Battles. Larry Williams is the alternate for the team. These same men will compete in the slalom at Northfield on Saturday morning.

This is a big meet for the UVM Skiers since it will bring them into competition with the top skiers in the country. Many of the schools that they will face are those which have proved difficult to beat in the past.

Skis And Poles

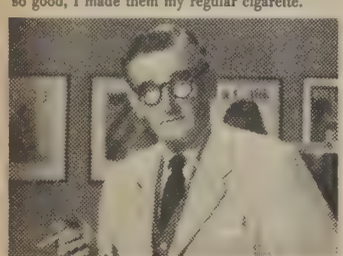
Charlie Gee and Bill White of the UVM Ski Team placed 6th and 7th, respectively, in the MacKenzie Trophy Race last weekend at Lake Placid, New York.

Dave Michael, one of UVM's most promising jumpers, placed 2nd in the Class B competition at Rumford, Maine. He was fourth in the Nordic Combined for the same meet.

Femmes Take Meet; Wickowski High

The University of Vermont women's ski team won its own ski meet last Friday, atop Spruce Peak. It won the five team contest by posting a 98.00 score total. The other colleges and their scores were, 2nd Middlebury 94.26; 3rd. Colby Junior College 72.90, 4th University of New Hampshire, 57.00 and 5th McGill University, 55.69.

The high individuals in the only contest of the meet, a giant slalom and their times (in seconds) for two runs were; 1st. Helen Wickowsky, UVM 72:20; 2nd, Sally Dickerson, Middlebury; 74:35; 3rd, Janice Bailey, UVM 76:80; and 4th, Lucille Withington, Middlebury, 77:40.



L&M's Got *Everything!*

MIRACLE TIP

Janet Blair, Actress: "I have the fullest confidence in L&M's Miracle Tip . . . and L&Ms taste so good, I made them my regular cigarette."

John Robert Powers, Creator of the Powers Girls: "I think L&M's filter is far superior to the others. Great smoke . . . wonderful flavor."

Patricia Morison, Musical Comedy Star: "I love L&M Filters. Never dreamed a filter cigarette could filter so thoroughly, yet taste so good!"

Stands Out FROM ALL THE REST!

STANDS OUT FOR FLAVOR. The pure, white Miracle Tip draws easy, lets you enjoy all the taste.

STANDS OUT FOR EFFECTIVE FILTRATION. No filter compares with L&M's Miracle Tip for quality or effectiveness.

STANDS OUT FOR HIGHEST QUALITY TOBACCOS, low nicotine tobaccos, L&M tobaccos... Light and Mild.

MUCH MORE FLAVOR — MUCH LESS NICOTINE

America's *Best* Filter Cigarette!

VOL. 72 | BURLINGTON, VERMONT MARCH 10, 1955 | NO. 24

va Kitchell; Dance Satirist, At Memorial Friday Evening

Program Series Curtain At 8:15

Iva Kitchell, world famous ance satirist, will be eatured here tomorrow night, arch 11th, under the au- pices of the UVM Program eries.

The tiny comedienne, some- imes known as "Impish va," has earned an extra- rdinary reputation not only s a brilliant dancer, but lso as "a skillful and lever caricaturist and ommentator who chooses to 'say it in dance."

Miss Kitchell can dance n many dialects-ballet, odern, character, or folk- ith perfect accent and harming nuance. Having many enetrating and witty things o say, she says them with unch, making her popular ith all of the six hundred oncert audiences in the nited States and Canada and lso the audiences in South merica who have seen her.

Lightning Changes

One remarkable feature of iss Kitchell's performance s her astonishing gift for ivid mimicry and imperson-

Overriding five proposals of amendment, the Vermont State Senate Tuesday gave unanimous approval to pro- posed changes in the charter of the University which would make UVM an "instru- mentality of the state". Final Senate approval was received yesterday. After signature of the bill by Governor Johnson, the Board of Trustees of the University is expected to accept the Senate action.

ations. She can toss off one character and appear as an- other very lightly; her style and personality under- going lightning changes with each number. She impersonates all sorts of people seen at parties, in shops or on trains, as well as star figures of the theatre and the concert stage.

This Generation Becoming Conformist, Says Bandel

"The present generation f Americans may be turning nto an undesirable group of utomatic conformists," rofessor Betty Bandel told he members of the Round able last Saturday. The ound Table meeting was ttended by about fifty eople to discuss the topic, "Are We Educating Towards ypocrisy?"

Professor Bandel explained er point by citing the xample of a girl student ho subconsciously adopted he style of her English hemes to fit the desires of he teacher. Professor Bandel elt that this submergence f the individual, without ts realization, could stifle ny real creativeness.

An excerpt from David iesman and others' *The onely Crowd* which was read y Professor Bandel stated hat young people felt their reatest ability often was he knack of getting along ell with others.

ow Desires

The excerpt continued, "The popular song, 'I don't ant to set the world on ire,' expresses a typical heme. The other-directed erson prefers 'love' to 'glory'. As Tocqueville aw, or foresaw: "He willingly akes up with low desires ithout daring to embark on ofty enterprises, of which e scarcely dreams.'"

Although most of the par- icipants in the discussion greed that this type of onformity was not good, some defended its practice upon the grounds that it was the easiest and most practical way of gaining success in

(continued on page eight)

Open Lectures Feature Zariski, Yates, Gregg

Three more open lectures have been announced by the Curriculum Committee.

The first is this after- noon, (Thursday, March 10), at 4 P.M. W. Ross Yates will lec ture on "French Ex- ecutive." This lecture in Room 117 of the Old Mill is the second open lecture in the intra-departmental semi- nar on popular government.

The third lecture in this series will be by Raymond Zariski, on "Italian Ex- ecutive", and will also be at 4 p.m. in Room 117, Old Mill.

Gregg Lectures

Also set for March 17 will be the first in a series of open lectures by the chem- istry department. Donald Gregg will lecture on "Pure Chemicals from the Sea" at 8, and again at 11 A.M. in Room 208 of the Williams Science Hall. About 25 seats are available for the morning class, 44 for the 11 A.M. session.

Each of the above lectures is open to any interested student.

Colleges Announce Deans' Lists; 195 Students Received Honor

College Of Arts And Sciences

A total of 98 students have been named to the Dean's List for the College of Arts and Sciences at the Uni- versity of Vermont.

At the top of the list in the 93-95 group are Carol Crossman, New York City; Peter Laibson, Brooklyn, N.Y.; Paul Kalis, Newton Center, Mass.; Edward Kupic, Burlington; Gilbert Miller, West New York, N.J.; Henri- etta Donnally, West Newbury; and John Lounsbury, Ver- gennes.

90-92 GROUP

In the 90-92 grouping are Robert Crawford, Evanston, Ill,; Lewis Dan, High View, N.Y.; Donald Henderson, Bur- lington; Dorothy Myer, West- port, Conn.; Barbara Parker, Cuttingsville; Doris Pearl, Ticonderoga, N.Y.; Marjorie Rowell, Burlington; Jay Selcow, Bayonne, N.J.; Marion Weisbard, Brooklyn, N.Y.

Also Leone Bernstein, New Britain, Conn.; Marilyn Boardman, St. Johnsbury; Patricia Kolk, Eggertsville, N.Y.; Ray Merrihew, South Burlington; Shirley O'Neill, Rutland; John Quinn, Bur- lington; Frances Raphael, Hewlett, N.Y.; Herzl Spiro, Burlington; Melvyn Wolk, Waterbury, Conn.; Nancy Catlin, St. Albans; Marvin Nierenberg, Jamaica, N.Y.; Roger Baker, Burlington; Lillamaris Ross, West New- ton, Mass; Carol - Schoppe. Ludlow; Terry Scribner, Island Pond; and Brian Riggie, Essex Junction.

85-89 GROUP

In the 85-89 group are Martin Carr, Brooklyn, N.Y.; George Ewins, West Berkshire; Michael Golding and I. Bradley Gordon, both Brook- lyn, N.Y.; Jacquelyn Joyce, Ludlow; Frank Lucarelli, Schenectady, N.Y.; Carolyn Merritt, West Hartford, Conn.; Janet Parent, Hines- burg; Robert Parker, Morris- ville; Judith Patten, Cuttingsville; Rhea Salis- burg, Hartford, Conn; Stanley Stein, Brooklyn, N.Y.; Patricia Sweeney, Croton, N.Y.; Philip Whitney, West Lebanon, N.H.

Also Charles Barrows, Barton; Joel Berke, Brook- lyn, N.Y.; Eleanor Bigelow, Waterbury; Robert Brown, Enosburg Falls; Bruce Chaffee, Burlington; Carol Coen, Clifton, N.J.; Joan Dorgman, Brooklyn, N.Y.; Jean Falls, Burlington; Anne Hayden, St. Johnsbury; Gerald Jacobs, Wilmington; Lawrence Klein and Jerome Kobre, both Brooklyn, N.Y.; Alice Millis, Cleveland Heights, O.; Judith O'Connor, Vergennes; Artemas Packard, Burlington; Mary Rothenberg, New York City; Henry Schriever, Nanuet, N.Y.; Glenn Seager, Burlington; Elizabeth Semans, Dorchester, Mass.; Joseph Siegel, Hill- side, N.J.; Perry Siegel, Bronx, N.Y.; Judith Silon, Teaneck, N.J.; Herbert Simons and Alan Yagoda, both Brook- lyn, N.Y.

Also Max Ansbacher, Bur- lington; John Burgess, Bennington; Stephen Dampsey, Yonkers, N.Y.; William Doo- little, Burlington; Donald Evans, Rutland; Catherine Evanson, Swanton; Rosalind Faber, West Englewood, N.J.; Valerie Gluskin, Beverly Hills, Calif.; Louise Hooker, Fayetteville, N.Y.; W. Eugene Johnson, Burlington; Rudolph Keimowitz, Middle- town, N.Y.; Charles Moisan, Jr., Burlington; Katharine Newton, Durham, Conn.; Peter Perkins, Rutland; Jules Perley, Brooklyn, N.Y.

Also Frances Russell, Windsor; Stanley Sakowitz, Bridgeport, Conn.; Sally Stalker, Winooski; Susan Wakefield, Burlington; Joyce Zuckerman, Hillside, N.J.; Rose-Marie Brit, New York City; David Chase, Lancaster, N.H.; Nancy Davis, Greensboro Bend; Mrs. Elizabeth Fields, Water- bury; Margaret Renald, Wil- ton, Conn.; Lewis Slater, Flushing, N.Y.; Lenore Wein- stein, Jamaica, N.H.

College Of Technology

Fifty-seven students in UVM's College of Technology have been named to the Dean's List for that College.

Heading the honors list with averages between 92.5 and 95.4 are Melton Miller, Jr., of Burlington, Robert Weber of South Burlington, and Ronald Hill of Burling- ton.

In the 89.5-92.4 group are Daniel Burack, Brooklyn, N.Y.; Francis Burroughs, Vergennes; Robert J. Craw- ford, Oradell, N.J.; Glenn Dewey, Wardsboro; Lawrence Dunn, Springfield; Edwin S. English, St. Albans; Gerald Gould, Burlington; Philip Grover, Greenlawn, N.Y.; Toomas Laaspere, Burling- ton; Arthur Rosenberg, Teaneck, N.J.; Bruce Spaulding Nashua, N.H.; and Bruce Somers, St. Johnsbury.

85 - 89 GROUP

In the 85-89.4 group are Willard Breen, Winooski; Howard Bouchard, Burlington; Norbert Charbonneau, Ver- gennes; Judith Clark, Rut- land; Richard Davis, Essex Junction; Robert Dawson, Burlington; Vernon Currier, Island Pond; Dennis de- Montigny, St. Albans; Rollin Dye, Post Mills; Mario Ellero, Williamstown; Janis Erla, Burlington; Robert Feitelson, Yonkers, N.Y.; Myrna Feldman, Teaneck, N.J.; Dale Gardner, Catonsville, Md.; John Gay, Burlington; Morton Gerwitz, Brooklyn, N.Y.; Ernest Granger, Wi- nooski; Cyril Greene, Jr., Montpelier; Wayland Hall, Burlington; Norman Hayes, East Chatham, N.Y.

Also William Hicks, Jr., Norwich; Gordon Hoxie, Dan- ville; Diane Isham, Morris- ville; Anthony Jannicky, Arlington; Francis Kernoff, Nutley, N.J.; Anne Knopf, Paterson, N.J.; Bernard Levy, Roslyn Heights, N.Y.; Clyde Lewis, Jr., Brattleboro; Paul Low, South Hero; William McLellan, West Paw- let; Peggy Mullen, Richford; Robert Ouellette, West Hali- fax; Raymond Plankey, Ver- gennes; Stephen Plumb, Brattleboro; Allan Remick, Burlington; Robert Saunders, St. Albans; Earl Schiring, Burlington; Martin Siegel, Brooklyn, N.Y.; Fred G. Smith, Rutland; Nelson Stiles, Burlington; Francis Trepanier, West Rutland; and John Van Blarcom, West Paw- let.

College Of Agriculture

Forty students have been named to the Dean's List for the UVM College of Agri- culture.

John Bonnlander of Chester heads the list with an average of 94.2. In the 89.5-92.4 group are Frank Barker, Burlington; Arthur Bickford, Newport; Dean Elliott, Barton; Carol Hill, Fanwood, N.J.; Elinor Jamie- son, Burlington; Harold McDonald, South Shaftsbury; and Donna Trombly, Brandon.

85 - 89%

In the 85-89.4 group are Stuart Alexander, Burling- ton; Sidney Bernard, Ver- gennes; Claire Battles, West Rutland; Willard Bickford, West Glover; Paul Bohne, Burlington; Nancy Brown, Brandon; Marcius Butter- field, Jacksonville; Margaret Carleton, West Newbury; T. Wayne Clarke, Montpelier; Patricia Clements, West Orange, N.J.; Philip Cook, Underhill; Julie Engelhardt, Hartsdale, N.Y.; Laura Fraser, Rye, N.Y.; Roena Hardy, Waitsfield,

Also Lois Holcombe, Milton, Lois Jones, Waitsfield; Elizabeth Kidder, Burling- ton; Joseph Kivlin, Shore- ham; Lewis Mowry, Englewood, N.J.; Donna Newhall, Bur- lington; Nancy Nott, White River Junction; Robert Oatley, Bellerose, N.Y.; Arlyn Parker, Morgisville; David Perrin, Berlin; Clay- ton Plumb, Springfield; Hollis Rowell, South Albany; David Safford, Burlington; Ruth Sherlock, South Royal- ton; Sally Tobin, Underhill; Shirley Vanderpool, Brattle- boro; Myra Van Deusen, South Royalton; Richard Wood, Brandon.

Ed Hebb, Sig Nu, Heads IFC

Jane Stickney Leads WSGA

Edwin G. Hebb, a member of Sigma Nu fraternity, was elected to the presidency of UVM's Interfraternity Council earlier this week.

Hebb, a junior from Bellow Falls, was president of his fraternity this year and served as an Assistant Kake Walk Director. He was Sigma Nu's representative to the Council and was president of the French Club.

ATO Lands " Veep "

The Council chose ATO's John Manning as its new Vice-president.

Manning was president of Newman Club, served on Freshman Orientation, and was his fraternity's representative to IFC.

The secretary-treasurer position was landed by David O'Brien of Sigma Alpha Epsilon. O'Brien is vice-president of Student Association this year.

The three new officers will be installed next week. They replace President Stanley Stein, Vice-president Robert Hylton, and Secretary-Treasurer Donald Forsythe, this past year's IFC officers.

Jane Stickney was elected president of the Women's Student Government Association Council at the elections held last week. A junior from Bellows Falls, Vt., Jane was secretary of the WSGA this year, is a member of the Staff and Sandel, Pan Hellenic Council and the Kake Walk Committee.

Frances Rapnael, '56, of Hawlett, N.Y., was elected first vice-president, and Sally Smith, '56, of Burlington is the second vice-president. Lila Hart was elected Chief Justice. Lila comes from Stratford, Conn., and is also a junior.

Other officers elected were; Kathleen Keresey, House Chairman; Judy Lamson, assistant house chairman; Lynn Eger, secretary; Roberta Baker, treasurer; Lorna Dean, town representative; Ann Harriman, scholarship chairman; Phyllis Bracey, assistant scholarship chairman; Donna Newhall, social chairman; and Elizabeth Kidder, assistant social chairman.

Dean Hill Sugar Party To Be Held This Saturday PM

"Everyone is welcome to the 22nd Annual Dean Hills' Sugar Party this Saturday afternoon, March 12, to be held at the Proctor Maple Research Farm in Underhill," said Don Josselyn, member of the publicity committee for the sugar party. Free transportation will leave for Underhill from the Dairy Building at one o'clock.

For seventy-five cents you can eat all the maple sugar on snow, raised doughnuts, coffee, and pickles you wish. You will be able to observe an actual sugar house in operation and see the boiling-off of the maple sugar sap which turns to candy when later put on snow.

Tradition

The sugar party is an annual affair held at the Proctor Maple Research Farm in Underhill in honor of Dean Emeritus Joseph L. Hills, former Dean of the College of Agriculture. The first sugar party was started by the students of the Class of 1933, who named it after the late Dean Hill as a living tribute to him.

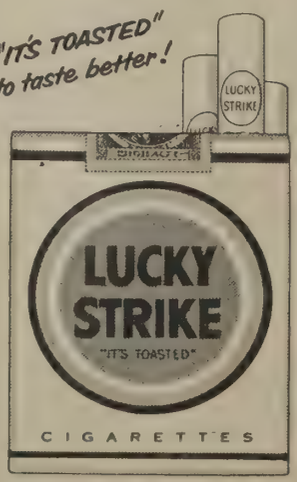
IN THE DARK about which cigarette to smoke? Take a hint from the Droodle above, titled: Two searchlight crews, one asleep, one enjoying better-tasting Luckies. Your *search* is over when you *light up* a Lucky. You'll find out why college smokers prefer Luckies to all other brands, as shown by the latest, greatest college survey. Once again, the No. 1 reason: Luckies taste better. They taste better, first of all, because Lucky Strike means fine tobacco. Then, that tobacco is *toasted* to taste better. "*It's Toasted*"—the famous Lucky Strike process—tones up Luckies' light, good-tasting tobacco to make it taste even better . . . cleaner, fresher, smoother. So, enjoy the better-tasting cigarette . . . Lucky Strike.



STUDENTS! EARN $25!

Lucky Droodles* are pouring in! Where are yours? We pay $25 for all we use, and for many we don't use. So send every original Droodle in your noodle, with its descriptive title, to Lucky Droodle, P. O. Box 67, New York 46, N. Y.

Tri-Faith Panel Finds Unity Answer To Present Crisis

Religion and Life Week concluded on Sunday Evening with a tri-faith forum on "Religion's Answer to Present Crisis." Members of the three western faiths brought the discussion around to a question of finding unity in the world today.

"Unify Man"

Rabbi Irving M. Levey of Princeton, the first speaker, declared that the major crisis was not one of physical destruction by the nuclear bombs, but rather the destruction of society on a higher level; namely that of thought. He concluded that the challenge of religion was "to unify man against specialization."

Face Differences"

Father John Lynch of Rutland agreed that our main challenge was one of unification, but he did not feel that it was primarily the job of religion to answer the question. Father Lynch felt that the duty of religion was to teach that paradise can never be achieved on earth, and that man must learn to face the disunifying factors, and respect these differences.

"Use God's Perspective "

Professor Marion Shows of Middlebury never expects the world to achieve complete harmony. However, courage, freedom and criticism could bring about a peaceful co-existance, if man will see earthly affairs with the outside, impartial perspective which he can get only through God.

When the panel was asked what could be done to bring about unity in the present split world, there was no clear unanimous answer. Professor Shows said that he was pessimistic, but that perhaps communism would wither as ---- has in a comparable situation.

Common Morality

Father Lynch replied that man was already unified, and that the job of religion was to point this fact out to him. That is, that was all have common laws of morality. Rabbi Levy felt that a revaluation of our educational institutions would help the situation, but he too was pessimistic about the final outcome. "It may not be for us to finish the job, but it is also not for us to desist from starting it."

Weekend Events

The panel was held in the student lounge, and perhaps partly due to the weather, was attended by only a far from capacity audiencd. The Religion and Life Weekend started on Friday evening with a service by the Newman Club in the hospital chapel, and by the Hillel Foundation with a service in the synagogue.

On Saturday afternoon there was an open house at the A.E. Phi house for the Hillel Foundation. That evening the Newman Club Mission had Father Lynch for the leader of a meeting in the hospital chapel, while Professor Shows lead a meeting for the Student Christian Association in the Student Lounge.

Prof. Chaplin Finds Girls "Less Imaginitive" In Dark Room Study

A University of Vermont professor of psychology has completed research that tends to show that men are more imaginative than women.

Professor James P. Chaplin, chairman of the UVM department of psychology, conducted the research under a UVM Summer Grant-in-Aid, testing 52 men and 51 women undergraduate students of the University. The results of his study have been published in The Journal of General Psychology under the title "Sex Differences in the Perception of Autokinetic Movement."

Prof. Chaplin states that the method of his experiment was to lead the subjects individually into a dark room where they were seated and instructed to describe the behavior of a pinpoint of light. The light was actually stationary, but to most people appears to move about in an irregular manner sometimes as much as three feet.

The results showed that "statistically or mathematically significant differences were found between men and women students," according to Prof. Chaplin.

Women saw less movement and even when they saw it, it was slow in appearing. In eight out of ten cases the women realized that it was an illusion.

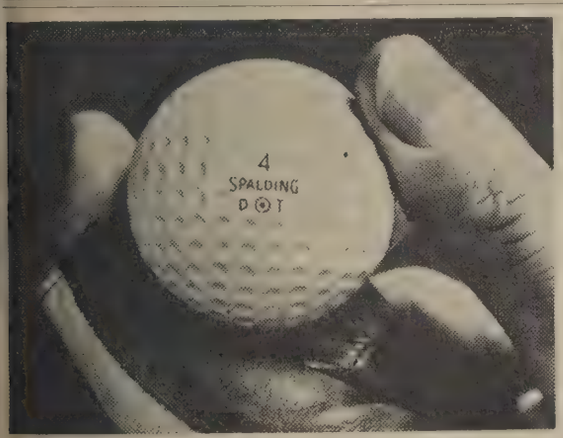
Men Saw Movement

Men, on the other hand, saw a great deal of movement saw it almost at once, and very few realized it was an illusion. "Two male engineering students were especially difficult to convince that the movement was an illusion," Prof. Chaplin states.

The UVM psychologist interprets his findings as follows.

"To be able to see a light move which is actually stationary may be related to a free play of imagination. If this is so, it suggests that women are less imaginative than men. Several other lines of evidence do suggest that women have less imaginative or abstract ability than males.

Women Low In Interest



"On interest tests women are far below men in theoretical interests. On intelligence tests, women fall below men on spatial and number tests that require a high level of abstract ability. They are, however, superior to men on verbal tests," Prof. Chaplin, who is married, adds.

"The students used in this experiment who saw the greatest amount of illusory movement were high in scientific and musical interest, both areas requiring a great deal of imagination.

"It is the writer's hypothesis that one reason why women have never been as successf l as men in artistic endeavor, even in these fields where they have had equal opportunity such as music and literature, is due to a lack of creative imagination."

Where the Elite Meet

DeGoesbriand Snack Bar

The best ball for your game has the exclusive

DURA-THIN COVER

Here's amazing new durability in a high-compression ball. The DURA-THIN* cover provides this great new Spalding DOT® with *real* scuff resistance . . . keeps the DOT uniform and true, even on rugged high-iron shots. The new DOT has a greater compactness for truer, more uniform flight. It's actually an *economical* ball for you to play.

And, with all this new durability, new DOTs still offer the long, long carry every hard-hitter wants.

At school, or on your home course, make your next round a *better* one with this greatest of all golf balls, Spalding DURA-THIN DOTs.

SPALDING sets the pace in sports

A Campus-to-Career Case History

He figures for the future

It's James Kirchhoff's job to look ahead. As a Plant Engineer with Illinois Bell Telephone Company, he helps estimate telephone equipment needs years in advance.

For example . . . when a new real estate development is in the planning stage, Jim figures how much telephone equipment it will need when it reaches its full growth. His estimate is based on his knowledge of the equipment's potential plus forecasts provided him of the area's rate of development. He then makes a complete report that becomes the basis of plans for the future.

Jim can take a look at his own future, too. In telephone engineering he can see a great many opportunities opening up in the next five years . . . ten years. He can pick the one he wants and start working toward it.

Jim graduated from Northwestern University as an E.E., class of 1952. His progress since then is typical of college men who have chosen telephone careers. If you'd be interested in a similar opportunity, see your Placement Officer for full details. There are also openings with other Bell telephone companies, with Bell Telephone Laboratories, or Western Electric and the Sandia Corporation.

BELL TELEPHONE SYSTEM

Thoughts And Afterthought

When I was a sophomore, I wrote my first editorial for this paper. At that time, Nancy Beals was Editor, Don Forst was Managing Editor, and I was Sports Editor.

My first effort was entitled "Everybody Asked Us, So...". It was modeled after Jimmy Cannon's" Nobody Asked Me, But" column in the New York Post.

It dealt with a wide variety of subjects ranging from "short men in repo ties..." to "all blondes look good from the back, but...".

As this was supposed to be a sports column, many people began to wonder just what I was trying to do or say. That hasn't changed. Most students at UVM still haven't figured out what I've been trying to do or say.

And so, I deem it fitting at this time (I will no longer be Editor by the time many of you read this) to return to the style of that first editorial....but this time we'd better call it

"Nobody Asked Me, BUT"

Didn't most Vermonters react extremely provincially to Professor Aldridge's criticisms (and this time we mean countrified," small-townish," and narrow-minded)?

When will Student Association wake up to the fact that they are college students and take an enlightened view of themselves? Haven't they become bogged down in the routine and minutiae of their financial function? Didn't they miss the boat on the question of Academic Freedom, Loyalty, etc. Most other educational organizations formulated a statement of policy, even National Student Association.

And couldn't Interfraternity Council be accused of the same stagnation of leadership and personnel as the SA Council?

Isn't it quite possible that UVM can come out on the short end even if they become a State University? Will the legislature be willing to allocate the necessary amounts of money and at the same time keep a "hands-off" policy? Noticed the other day that Ford Foundation is spreading $57 million around to private colleges.

Those of us and those of you who believe that "blackface" is basically wrong and unjust, should keep on fighting for a change in the present Kake Walk make-up.

We haven't heard of anyone capable of talented and creative leadership running for St. Association President.

Weren't more than half of the Dean's List students in the Arts college from out-of-state. Can the state Can the state of Vermont replace that many "85 plus" students when this becomes a State U.?

Wasn't the 1955 Ariel in bad taste on some points?

And isn't it still true, three years later, that blondes always, always look good in tight black sweaters and a string of pearls?

Letters To The Editor

a voice from Holy Cross

To the Editor of the CYNIC:

I hope that a few very belated remarks on your Kake Walk controversy will not be toomuch out of place at this time. Since the Interracial Justice Club of this college has discussed the question of minstrels, the letters to the editor were particularly interesting to me in the way they attacked the problem, and it is a problem regardless of one's particular point of view.

The heart of this dispute seems to lie in the question of whether the necessary result of this Kake Walk would be objectively harmful. Contrary to the opinion expressed in many letters and the open letter from the President of the Student Association, the criterion of right and wrong does not lie in the question, of how many people feel that it is a problem, how many are for or against the Kake Walk, or whose fraternity brother is who. Any real analysis must go directly to the issue, disregarding motives on either side. From the tone of the letters, it seems that the Kake Walk portrays the Negroes as "happy-go-lucky children of nature who get a big kick out of life which white people are too civilized to get." This harm is most likely not calculated by the sponsors, but calculated or not, the harm is still there if an unfair stereotype is continued at the poor price of tradition. Now whether the onlooker explicitly considers the fact or (as most do) he merely implicitly affirms it, the Negro is shown to be in some way inferior *as a man* to the white. A false picture slowly and unconsciously becomes a part of the unwary person's thinking, and manifests itself in our attitude toward the Negro. This rarely takes the form of conscious explicit hostility, but rather as a very "civilized", aloof, tolerate-until-they-come-too-close attitude which will not help what is admitted by all to be a problem in this country.

The solution of the problem does not lie, I feel in the fiery demonstrations against the Kake Walk by trouble-makers and rabble-rousers, for this only aggravates the problem and focuses an undue attention to the problems between Negro and white. It does seem, however, that some representative group, perhaps the Student Association, could sanely take up the question and come to some conclusion about next year's Kake Walk. Considering the fact that it would relieve pressure on what is a sore spot in this country by removing one more instance of the unfair stereotype of the Negro as a shiftless, happy-go-lucky, rhythm-obsessed excused for a human being, I feel certain that Vermont will find that it's time for a change.

Respectfully,
John A. McGuinn, '56
Holy Cross College
Worcester, Mass.

"How exams are coming up, ya know!"

Aldridge

To the Editor of the CYNIC:

The recent speech of Professor Aldridge has thrown the question of education at UVM into the "ring" of debate. To have been so misquoted and an object of vilification is, of course, an injustice to the Professor who perhaps too candidly reflected the views of many students and teachers at the University.

The factors limiting education at UVM are, and have been, clearly observed, but never have they been publicly exposed in such an explosive fashion. The first reactions to this deed were sensationalist newspaper articles and such childish nonsense as the Lt. Governor challenging Professor Aldridge to a debate on the merits of the state.

Has any good come of this issue? Will admission requirements be raised? Will the school be the recipient of substantial sums of money from the legislature? Will an intellectual atmosphere flourish here? Only the future will tell. Returning to the present, I feel that the most important immediate consequence is a heightening of student interest, usually notoriously lacking, in their University. Never before have I seen students so voraciously read the CYNIC on any other topic; student sentiment has been aroused. Faculty sentiment has also broken through its lethargy and attacked the question with gusto which brings me to the main point of this letter, the article written by Professor Skapski. I must frankly admit that Professor Brownfield did a masterful job of criticizing this article, but in so doing missed the entire spirit of Professor Skapski's letter. I had the feeling that he was not attempting to degrade or nullify Prof. Aldridge's speech, but just mollifying the sting, the magnified short-comings. Here is a well educated man who does not bitterly complain about a bad situation butimmediately tries to rectify the situation in some concrete manner as evidenced by his relatively new course. The Development of Science, which gives the student a taste of many new fields. For this I shout, bravo. Damning without action is mere noise. Yes, Skapski's letter did employ a few random points as evidence, which is never a strong argument, but it was the spirit in which the letter was written that matters in this case. A spirit of enthusiasm and hope which Skapski continually emanates is certainly more rewarding than one of skepticism and defeatism.

Paul J. Kalis
Class of 1956

Ariel Criticism

To the Editor of the CYNIC:

This letter is directed to Mr. Anthony Rockhill, the editor of the 1955 Ariel.

We do not wish to discredit the job which he has done on this yearbook, although serious considerations could be advanced about the liberties which he assumed on this book which is supposed to represent our university and its students. The point about which we are concerned is his use of cartoons to caricature the fraternities.

In particular, he included on every fraternity page drawings of cats which we can only suppose were meant to be characteristic of these fraternities. We are particularly resentful toward his choice for our fraternity --- the shabby clothes and jug of liquor. This is not a true, accurate, or fair representation and feel it to be insulting both in and of itself and in the light of this one last point.

That he represented the "cats" for Tau Epsilon Phi and Phi Sigma Delta in almost identical poses and both carrying flags that said, 'I HATE - - -" can only mean to us that he meant to place the two groups on a comparison basis. However, the light in which our fraternity was presented was insulting and derogatory. We feel that an apology is in order.

As for those mottoes themselves, we can only say that as a group we neither believe in such principles nor do we wish the university family to feel that we do. Fraternity rivalry has always been present and will continue to add to the spirit of sportsmanship that has permeated the activities of not only the TEP's but of every fraternity at U. V. M. This Ariel has done harm to a situation that need moderation at every step, and not aggravation.

We feel certain the Tony made an honest mistake and expect that his apology will be forthcoming.

Sincerely yours,

The Brothers and Pledges of
Tau Epsilon Phi

Free Speech

To the Editor of the CYNIC:

According to Professor Aldridge "a writer has an obligation. He is required by his conscience to speak the truth..." Having a conscience but not being a writer I will endeavor to speak the truth and preserve my anoymous identity.

My remarks will not be directed to cows, surgeon's knives and other less important things, but to the distorting and misconstruing of free speech by certain well-known professors.

Mr. Skapski prefers to take the optimistic attitude and can perceive progress for UVM. Then why not say that?

(continued from page eight)

U. V. M. CLIPPINGS

DANCE SATIRIST HERE

The UVM Program Series will present Iva Kitchell, an artist in the field of dance satire, at 8:15 Friday, March 11, in the Memorial Auditorium.

ALL-UNIVERSITY PARTY

The Class of '58 is sponsoring an All-University Party Saturday evening, March 12, from 8-12 in the Waterman Cafeteria and Lounge. An admission charge of 50 cents per person will be made.

The sponsoring frosh have dubbed the affair the "Caravan Cabaret," and based the evening's entertainment on a night club theme. Social chairman Ce-Ce Meloney reports that faculty members have been lined up as entertainers, and that the Arabian Knights will make music. Refreshments will be served and a door prize is to be given. J.R. Brownfield is class advisor.

All are welcome.

BASKETBALL SPORTS DAY

Women's basketball teams from Middlebury, McGill, Plattsburg State Teachers College, Vermont Junior College, Green Mountain Junior College and UVM participated in a Basketball Sports Day at Southwick on Saturday, March 5, under the sponsorship of the Women's Recreation Association.

The Sports Day was a feature of a Basketball Rating Clinic sponsored by the Department of Physical Education for Women.

VISUAL AIDS LECTURE

Elmo White, chief of the Art and Graphics Division of the U.S. Department of Agriculture, will give a lecture-demonstration on "Effective Use of Visual Aids" on Friday, March 25, at 2 p.m. in Room 010 of Morrill Hall.

Jack Spaven reports that "whether your interest is teaching, research, or extension, I'm sure that you will find this event helpful to you in your work. We hope that your schedule will permit you to attend."

SUMMER OPPORTUNITY

The Andover Summer Session of Phillips Academy of Andover, Mass., reports "an opportunity for able boys of limited means to spend a profitable summer," through an $8,000 scholarship program for the coming summer for boys in the 9th-12th grades. Further information is available in the Public Relations Office. 111 Waterman.

OPEN LECTURES

Faculty members who wish to open any of their lectures to all interested students are invited to submit the title, time and place of their open lecture to the Public Relations Office for use in the CYNIC of the week before the intended lecture.

• • • • •

Meetings

Dean George Wolf will speak for the College of Medicine at the next open meeting of the Senate Curriculum Committee on March 14.

Paul Evans will speak on "Some Aspects of the Renaissance" at the next meeting of the Research Club at 8 P.M. on March 15 in the Home Economics Auditorium.

Faculty Notes

Clinton Cook and Richard Inskeep are authors of papers to be published in two professional journals. Mr. Cook is co-author with Bruce Somers, UVM '55, of a paper to be published in March by the Journal of Chemical Education. Mr. Cook and Mr. Inskeep are authors with Arthur Rosenberg, UVM '55, of a paper to be published in the March 20 edition of the Journal of the American Chemical Society.

The students' work on the papers was accomplished during their junior years at UVM, and Mr. Cook and Mr. Inskeep report that it is "pretty rare" for undergraduates to have work published in professional journals.

• • • • •

William Kimball will have an article on the "History of the Brachistochrone" published in the spring issue of the Pi Mu Epsilon Journal, offical publication of this honorary mathematical fraternity.

Mr. Kimball's article makes a new contribution to the history in that he gives for the first time the equations of the locus or curves of equal time on which all the points will be reached from the upper distant starting point in the same time.

• • • • •

J. Bishop McGill attended the meetings of the American College of Surgeons held in Providence, R.I., March 3-5.

• • • • •

UVM will be well represented at the 48th Annual March Conference of the Schools of Vermont which will be held at Burlington High School on Friday, March 11.

President Borgmann will bring greetings from UVM in the morning and Dean Mary Jean Simpson, Robert McKay and Mrs. Carl Borgmann will all serve on afternoon discussion groups.

Dean Simpson will serve as leader for a discussion of "Vermont School Problems and Current School Legislation;" Dr. McKay and Mrs. Borgmann will serve as members for a discussion of "Behavior Problems - the Overly-Agressive Child at Home and at School."

• • • • •

ALUMNI NOTES

Jerome Kelley, son of Levi Kelley, has been made production editor of Aviation Week magazine. At UVM, Kelley served as editor of *Windfall*.

• • • • •

Two UVMers, Robert J. Healey and Myron S. Kops, have been graduated from the Officers Basic Course at the Marine Corps School, Quantico, Va. Both are second lieutenants in the Marines.

Engineers Hold Smoker March 18 In Student Lounge

An "All Engineering Smoker" sponsored by Nu Beta Pi, the engineering honorary, will be one of the highlights on this week's social calendar at UVM. The smoker, to be held on Friday evening, March 18, at 7:30, is being given in co-operation with the various engineering associations on campus.

Entertainment Planned

Master of Ceremonies for the evening will be Lawrence Sullivan, chairman of the planning committee; and featured in the entertainment will be the presentation of six skits by the members of the engineering groups represented. The planning committee, other members of which include Professors Duchacete, Knight, and Mosher, has also arranged for the appearance of a professional magician as a final touch in rounding out the festivities which will take place in the student lounge.

On Campus with Max Shulman

(Author of "Barefoot Boy With Cheek," etc.)

THE CARE AND FEEDING OF BOOKS

You busy college people — you with your classes and your studying and your social activities and your three-legged races — it is no wonder that you have so little time for reading. I mean reading for the pure pleasure of it, not to cram for exams. It is a sad omission, and my heart goes out to you. I do, however, take comfort from the fact that the graduation season approaches. Many of you will soon leave the hurly-burly of college for the tranquility of the outside world. Oh, you'll love it on the outside! It is a quiet life, a gracious and contemplative life, a life of ease and relaxation, of plenty of time to enjoy the treasures of literature.

It is with you in mind that I sit now in my cane-bottomed rocker and close my kindly gray eyes and smoke a mellow Philip Morris cigarette and remember books that made me laugh and books that made me cry and, remembering, laugh and cry again. It is, I say, with you in mind that I sit thus and rock thus and close my kindly gray eyes thus and smoke a Philip Morris thus and laugh and cry thus, for I wish to recommend these lovely and affecting books to you so that you too may someday sit in your cane-bottomed rockers and close your kindly gray eyes and smoke a mellow Philip Morris and remember books that made you laugh and books that made you cry and, remembering, laugh and cry again.

Sitting and rocking, my limpid brown eyes closed in reverie, a plume of white smoke curling lazily upward from my excellent Philip Morris cigarette, I remember a lovely and affecting book called *Blood on the Grits* by that most talented young Southerner, Richard Membrane Haw. It is a tender and poignant story of a sensitive Alabama boy who passes safely through puberty only to be devoured by boll weevils . . . A lovely and affecting book.

I puff my splendid Philip Morris cigarette and close my dancing blue eyes and recall another book, a thrilling true adventure, lovely and affecting, called *I Climbed Everest the Hard Way* by Cliff Sherpa. Mr. Sherpa, as everyone knows, was the first man to reach the peak of Mt. Everest by tunneling from below. In his book he gives a lovely and affecting account of his trip, which was not as easy as it sounds, you may be sure.

I light another merry Philip Morris cigarette and close my lambent hazel eyes and recollect another book — *Life on the Farm* by Dick Woolly. This is a short book — only 55 words — and rather a dull one. It would not be worth mentioning here were it not for the fact that the author is a sheep.

I exhale a cloud of snowy white smoke from my bracing Philip Morris cigarette and shut my laughing green eyes and think of the vast, vast array of historical novels that have given me pleasure.

There is *Blood on the Visor* by Richard Membrane Haw (he who wrote the lovely and affecting *Blood on the Grits*). There is *Cold Steel and Hot Flashes* by Emmaline Prentiss Moulting. There is *The Black Shield of Sigafoos* by Wruth Wright. There is *Four Quarts in a Galleon* by William Makepiece Clambroth. There are many, many others, all lovely, all affecting.

But sitting here, drawing on my matchless Philip Morris cigarette, my saucy amber eyes closed tightly, I am thinking that the loveliest, most affecting of all historical novels is May Fuster's classic, *I Was a Serf for the F.B.I.* Mrs. Fuster, justly famed for her rich historical tapestries, has outdone herself in this tempestuous romance of Angela Bodice, fiery daughter of an entailed fief, who after a great struggle rises to the lofty position of head-linesman to the Emperor of Bosnia and then throws it all away to lead the downtrodden peasants in a revolt against the mackerel tax. She later becomes Ferdinand Magellan.

But the list of fine books is endless, as you will soon discover who are about to leave the turmoil of the campus and enter into the serene world outside, where a man has time to read and rock and close his rakish taupe eyes and smoke good Philip Morris cigarettes.

©Max Shulman, 1955

The makers of Philip Morris, who bring you this column, tell you that in our book, PHILIP MORRIS is the mildest, tastiest cigarette anybody ever made.

Around The Green. . .

By Joan Broslin

A scene from Greenwich Village was the theme of a party held last Saturday night at the Owl House. The highlight of the evening was a skit with the cast including Dick Turrone '58 (Bergenfield, N.J.) and Tom Milo '58 (Montpelier) as dancers; Dick Young '58, Burlington, as a singer and John Whalen '56 (Burlington) as an actor.

The Owls wish their best to Irv Morton '55 (Newport) who pinned Anna Massey of Greensboro.

An exchange dinner with the Gamma Phis' proved to be very successful, so say both participating houses, last Wednesday evening. The social chairman heading the Owls side of things was Dick Young, '58 of Burlington.

An Owl alumnus, Clem Nadeau, '54 of Highgate, Vermont, recently married Pat McIntyre of Barre. The wedding was held at Stowe and the reception took place at the Owl House. About 75 guests attended.

Plans for a theme party are being formulated; the date will soon be announced.

LYMAN HALL

Nancy Catlin, '57 from St. Albans, Vermont became engaged last Saturday night, to George Ewins, Theta Chi, of East Berkshire, Vermont '55. A summer wedding is planned.

DELTA PSI

With many apologies to the Delt House for delaying this list so long because of the lack of other campus news, we print it now, belated or not. Many Alumni returned to the Delt House during Kake Walk activities who were the following: Stanley Nickols, '39, Stowe, Vermont; Jack Viets '54 of Hyde Park,; Jim Wallace of Bennington '54,; Ralph Kehoe '51 of Rutland,; Bill Riddell '52 of Burlington; Cirt Mosher '51, Massachusetts; Paul Sherlock '54 of Royalton; John Kubin '52 of Essex; Dave Partridge '51 of Burlington; Peter Kao '53 of Shang-Hai China; Tom Fagan '54 of Rutland; Hugh Brooks '51; Bob Herriot '50... and then they lost count...Frank Peabody; Pete Huntsman; Bill Worthen; Doc Eddy; Fox Borgman; Bob Clifford.

Pinned: Harry Sawyer, Newton Mass. '56 to Jane Newton, Alpha Delta Pi, '56 of Worcester, Mass.

KAPPA SIGMA

Officers recently elected by the Kappa Sigs were: President: Bruce McAllister, Vice-Pres. John Fitzpatrick, Treas. John Glacione, Guards: John Shephard and Bill Jay, Grand Master-of-ceremonies; Dick Janoni, and House Manager: Stan Talbert.

The Main Streeters wish to congratulate Bill Soule and Helen O'Connor, Tony Rockhill and Sandy Harrop, on their recent pinnings. Also John Hubbard on his to Frances Hammond of Muskingum Phys. Ed. College of Franklin, Vt.

SIGMA ALPHA EPSILON

A Bermuda short party highlighted the social calander of SAE's Spring semester. The social chairman, Ralph De Laurier headed up the committees in charge of what turned out to be in most everybody's opinion a really good party. Zoe Steinmetz's parents attended and added to the festivities.

The new slate of officers for the SAE's is in and the results are as follows: Pres. Bob Parks; Vice-Pres. Dave O'Brien; Treas. Tom Dolan; Recorder, Joe Heald; and Warden, Pete Gibson.

TAU EPSILON PHI

The recent pinnings in the TEP House are: Ralph Winer '56 to Marilyn Karp of Peabody, Mass. Ted Zeitlin '56 to Bunny Grossman '58, and Joel Berke '56 to Stephanie Grolnick '58.

All the local gangsters and hoodlums would have felt right at home at the TEP's colorful Hoddie party last Saturday night. The theme of it was Shake-rattle-and roll and from the stories about the unusual skits staged we'd say it was carried out to the letter. The spot of hilarity which came about the middle of the evening was the entrance of 7 polo-coated, Blue-oxford buttoned down Sigma Nus during the pledge party.

The TEP House announces two transfers: Harry Maurinos to Bentany College in West Virginia, and Harry Rosenberg to N.Y.U. and a part-time job as a sports reporter for a Long Island paper.

Alpha Delta Pi

(In order to avoid confusion their new name is Alpha Delts.)

Alpha Delta Pi pledged: Anne Lockwood, '57, of Larchmont, New York, and Janice Frazier, '57, of Meriden, Conn.

Gamma Tau's Province President, Mrs. Rex Van Akin of Wellesley, Mass., spent Kake Walk week at the Alpha Delt house. Her husband arrived in time to attend the walking performance.

A D Pi has some new pinnings to announce. Those of: Rusty Clarke, '56, of Ho-ho-Kus, New Jersey, to Sig Ep, George Kolbe, '57, of New York City. Joan La Viness, '55, of Larchmont, New York, to Chuck Szendrey, '56, of Garfield, New Jersey, a Phi Delt; and Mickey Rotanelli, '57, of Pelham, New York to Paul Daronco, attending RPI also of Pelham.

Cupid's Capers, an informal dance was given in honor of the Valentine season, by the pledge class for the fraternity and sorority pledges of all the other houses. There was a wonderful response, the Alpha Delts tell us, to the campus invitation. Refreshments were served and many gathered around the piano later, while Bob Smith of SAE entertained. Mr. and Mrs. J.R. Brownfield, Mr. and Mrs. J.H. Whittemore, and Miss Catherine Wilcox were the chaperones of this gals occasion. The dance committees were headed by Katherine Warren. The assisting committee chairmen were Jean Johnson, Dolores Cray and Janet Schmidt.

Alpha Epsilon Phi

The A E Phis are having a Card and Game party the evening of March 19, Saturday, from 8-10:30 p.m. Home-cooked refreshments will be served and many lovely door prizes will be in store for all those who walk over 371 Main Street's threshold. The admission is 50¢ for students and $1.00 for adults. Everyone, student, faculty and friend, is welcome.

More Alpha Delta Pi news

An Open House was given by the Alpha Delts from 3 to 5 p.m. last Sunday. Many of the alums and faculty attended this gathering which was chaperoned by Mr. and Mrs. I Pappoutsakis.

...Jeanette Cote was the head chairman assisted by Beth Elrick, Judy Patten, Bobbie Bonnel and Mickey Rotanelli.

The Alpha Delts want to congratulate the pinning of Jane Newton '56 to Harry Sawyer, '56, a Delta Psi

Officers recently elected for the Alpha Delts are: Pres.-Penelope Collins, '56, of St. Albans; Vice-pres.-Mickey Rotanelli, '57, of Pelham, N.Y.; Treasurer-Eleanor May '57, Winchendon, Mass; Recording Secretary-Sally Sherman '56, of Schenectady, N.Y., Corresponding Secretary-Dorothy Rothman '57, of Chatham, Reporter-historian.-Carol Wicks '57, of Canton, N.Y.; Guard Bobbie Bonnel '56, of Caldwell, N.J.; Registrar, Ann Terry, '56, of Troy, N.Y.; Chaplain Frances Pedussey, '56, of Worcester, Mass. Pan-Hellenic Representative Jane Van Dusen '57 of Glens Falls, N.Y.; Scholarship Chairman, Arleen Mayer '57, of Rutland; Social Chairman Mary Tierney '55, of Waterbury; Rush Chairman, Jean Trudell '56 of Pittsfield, Mass.

Phelps House

Lynne Jannicky '57, a Theta, of Arlington was (and I can't say recently.. sorry Lynn) pinned to Dave Durfee of Brown University '57, a Beta Theta Pi.

Kappa Alpha Theta

Kappa Alpha Theta has elected officers for the following year. They are as follows:

President .... Lee Hoilman, Burlington, Vt.
Vice-President . Alice Millis, Cleveland, Ohio
Corresponding Sec'y . Marie Beekman, Verona, N.J.
Pan Hellenic Rep. Joan Holmgren, Tenafly, N.J.
Deputy Pan Hellenic . . Joan Keinast, River Edge, N.J.
Treasurer . . . Janice Fayen, Granville, N.Y.
Deputy Treasurer . Kay Fernald Verona, N.J.
Social Chairman . Jane Engel, Staten Island, N.Y.
Assist. Soc. Chairman . Judy Corcoran, Rutland, Vt.
Chaplain . . . . .Bev Jones, New Rochelle, N.Y.
House Pres. . Leonie Strachan, Burlington, Vt.
Archivist & Historian . .Pat Clements, West Orange, N.J.
Recording Sec'y . . . Claudia Marcou, Manchester, N.H.
Marshal . . . . .Nancy Moul, Buffalo, N.Y.
Assist. Marshal. Carol Harris, Garden City, N.Y.
Assist. Marshal Nancy Hawkins, New Rochelle, N.Y.
Alumnae Relations Chair. ... Jane Reynolds, Glen Ridge,
Art Chairman . Pat Clements, West Orange, N.J.
Songleader . Claudia Marcou, Manchester, N.H.
Public Relations Chair. . . Gail Angotti, South Orange,
Activities Chairmen - Lorna Dean & Connie Suhr

University Store Does Huge Business At Semester Start

By Barbara Zack

It may seem strange to think of that invaluable little place where you dash in for a greeting card, ink or latest book, as a department of the university, but that is what the University Store is. Its manager, Miss Annis Barney, is chairman of the department, which has been in existence since the Waterman Building was erected in 1941.

As may be expected, the busiest time for the store is at the beginning of each semester, with the purchasing of new books. Just how busy these days can be is shown by the figure $22,000 -- the amount spent in one day during last year's fall semester. From now until June, sales will probably dwindle from $500 to $300 per day, in comparison to the eight or nine thousand dollars spent per day at the start of this term.

Budget

Since the store is considered to be basically like any other department, a budget is submitted by Miss Barney to the Board of Trustees for approval. Any profit is turned over to the University Treasury, which pays all bills. To further explain this, let's look at last year's income -- $196,735.74. Three-quarters of these sales are from the purchase of books, fifteen percent from supplies, ten percent from novelties (banners, stationery, animals). The expenses of the store are numerous, expecially wages and salaries of a staff of twelve, who receive straight salaries with no bonuses. Operating expenses, cost of space used, and administrative costs included, the total last year reached $195,895.48. Therefore, $840.46 went to the University as profit from the text book and university store.

Trade Books

Trade books, or those not classified as texts, are being promoted this year with great response on the part of the students. The College Book Store Association is partly responsible for this, as it gauges the popularity of books and advises purchases. The University Store is a charter member of this association, being provided with an insurance policy covering all insurance on mailing, thus saving seventy-five percent of mailing on parcel post.

Next time you're browsing around the store, try to remember what a full-time job it is running the store for you.

Arena Theatre Fund Goal Set At $15,000

By Joan L. Ross

During the Spring of 1954 the University Players started a fund for an Arena Theater which they hope to build on our campus. Since last year $1400 has been raised for the theatre.

The Vending Machine Committee has appropriated most of the $1400. However, the receipts from this year's presentation of "Spring Frolics" will be placed in the fund. Since no organized soliciting has been done for the Arena Fund the Players are petitioning for money to the Kake Walk Disposition Committee with hopes of adding more money to the fund.

A $15,000 goal has been set for the Theatre, but as yet no definite plans have been made for construction.

Plans for the presentation of "The Three Bears" have been put aside. The presentation required eight characters to fill roles. Unfortunately less than eight people tried out for parts. If "Spring Frolics" is to be presented there will have to be more active interest and participation on the part of the student body. Various acts and individual talent will be needed for the presentation which will be in the early part of May.

NSA To Survey Student Role In Policy - Making

The U.S. National Student Association has announced plans to conduct a nationwide survey of student participation in college policy-making.

Supported by a grant of $29,400 from the Ford Foundation, the survey will send questionnaires to deans of students and students leaders at about 800 colleges and universities throughout the United States.

Believed to be the most exhaustive study of its kind, the survey will seek to determine the formal and informal powers accorded students, faculty, administration, trustees and alumni in the operation of colleges and universities. Major emphasis will be placed on the position of student government organization on campus.

Systematic information obtained from the survey will be supplemented by materials abstracted from college statutes, by-laws, and other official documents. In addition, intensive study of 10-15 prominent schools will be undertaken by a field representative of the research project.

Two Seniors Publish Papers; "Pretty Rare," Say Professors

Two University of Vermont senior chemistry students will have papers on scientific work published in professional journals, and faculty members of UVM's department of chemistry report that this accomplishment is "pretty rare," particularly since the work being published was done by the two students during their junior year at UVM.

The two students are Bruce Somers of St. Johnsbury and Arthur Rosenberg of Teaneck, N.J., both seniors majoring in chemistry. Both are authors, with faculty members in UVM's department of chemistry, of papers accepted for publication.

FORTHCOMING PUBLICATION

Somers is co-author with Dr. Clinton Cook, assistant professor of chemistry at UVM, of a paper which will be published in March by the Journal of Chemical Education. Rosenberg is the author with Dr. Cook and Dr. Richard G. Inskeep, assistant professor of chemistry at UVM, and Earle Curtis of White River Junction, UVM '54, of a paper scheduled for publication in the March 20 edition of the Journal of the American Chemical Society.

Both papers are reports of research into problems arising out of studies of compounds which can be used to prevent spoilage of fats and oils. Dr. Cook's research, supported by a grant from the Research Corporation, has been to discover why the compounds have this effect. This research has made use of equipment purchased through another Research Corporation grant to Dr. Inskeep. This equipment was used by Dr. Inskeep to establish the structure of the "rather complicated compounds" studied by Dr. Cook.

Somers, Rosenburg and Curtis worked with Dr. Cook and Dr. Inskeep in their research, and the papers to be published are the reports of their findings.

Somers and Rosenberg plan to continue their studies in chemistry on the graduate level. Curtis, who graduated from UVM last June, is presently working for his masters degree at the University of Minnesota.

Pep Committee Seeks New Alma Mater For School

A new alma mater is being sought after in a contest sponsored by the pep committee.

Any organization, person, or group of students who have written a song are urged to give their names to the pep committee, which will then contact them.

In addition to having the honor of being the composer of the new official school song, the contest winner will be presented with an award and a cup. A plaque commemorating the song will also be placed in the Memorial Lounge.

Closes April 11th.

The contest will close on April 11th, and so Bob Corshen, pep committee member in charge of the contest, is urging everyone who might be interested to start working on their song right away. The melody need not be original, but it should not be one which is the tune for the alma mater of some other well known college.

COLLEGE TO COLLEGE, COAST TO COAST—

WINSTON is really going to town!

R. J. Reynolds Tobacco Co., Winston-Salem, N. C.

WINSTON tastes good—like a cigarette should!

■ No wonder so many college men and women are getting together on Winston! It's the filter cigarette with real flavor—full, rich, tobacco flavor! And Winston also brings you a finer filter. It works *so* effectively, yet doesn't "thin" the taste. Winstons are easy-drawing, too—there's no effort to puff!

Smoke WINSTON the easy-drawing filter cigarette!

Letters

(continued from page four)

Instead he chose to make further nonsense out of Professor Aldridge's remarks "The bellowing of the cows and the clickety-clack of the knives of apprentice surgeons", which were spoken in the first place for the purpose of injecting humor into what Aldridge terms a dull speech.

Professor Skapski, you are concerned over the impact of Mr. Aldridge's fire-words on the UVM populus. You term us kids, we are students. You are afraid we are dazzled and overawed by his vision (or sight) of UVM. Part of us, I am sure, are intellectuals concerned with building our critical minds. We did not depart from the meeting of the John Dewey Club with the picture of mooing cows stamped in our minds, but with the idea of improving not only our own intellectual scope but the "intellectualism" of our university. We must grow up eventually and shake off the dewy drops of what I term provincialism and unprogressiveness and you call attitude, and face the facts. We must realize our Billings Library is inadequate, our Humanities department is not superior, and we do not actively foster music and the arts on campus.

The cows are not the issue in my discussion but the university. When our professors start looking back to tradition rather than keeping a critical mind open to the future, it is no wonder the words of suggestion of Professor Aldridge have been misconstrued.

The minute we pat ourselves on our backs we lose sight of our goals. The first step to maturity is recognizing our deficiencies and then going about correcting them.

It Professor Aldridge had colored us "red" I could understand Professor Skapski's meaningless rebuttal in last week's CYNIC. We might then label his writing McCarthy tactics.

No, Mr. Skapski you have erred. You have hastily judged the minds of young people. The facts will not be distorted in our thinking as they have been in writing. If the University of Vermont is worthy of our loyalty and respect then we, the student body, will continue to be loyal despite having an open ear and a critical mind ready to listen to constructive criticism and search for improvement.

Cheering

To the Editor of the CYNIC:

Now that our regular basketball season is over, I, as captain of the University's cheerleading squad, would like to make a few comments. If you would all please spare me a few minutes of your reading time, there is something of grave importance that I would like to speak to you about.

For many months now the Pep Committee has been hounding the student body about school spirit, or rather, the lack of it. To coin an old phrase, it was "like hitting one's head against a stone wall." Before I go any further, though, I must congratulate you all for the rise in school spirit during the football season. (It is said that flattery helps now and then.) However, the spirit at the basketball games was appalling! I, in conjunction with the rest of the cheerleaders and the Pep Committee, decided to try a little experiment. We suddenly stopped cheerleading, and went to the games as potential *cheerers*. We wished to see what type of reaction it would cause. I found out soon enough! I overheard comments such as "I think it's terrible that the cheerleaders aren't cheerleading. Where's all the school spirit they are supposed to have?" May I remind you that we are cheer LEADERS, not the one and only cheering section! So come on all, let's make a fresh start next season and really give our teams some suport!

Round Table

(continued from page one)

the world. Professor Bandel countered that a person would have a greater sense of satisfaction if they developed their own way of doing things, while still conforming to the unimportant conventions of society.

Aroused Interest

Commenting on the meeting, Max Ansbacher, Round Table president said, "In terms of starting people to think about a basic idea which is of fundamental importance to our society, I feel that this meeting was one of our most successful. I think that the many small discussions held afterwards clearly indicate the interest which the evening aroused."

A student mentioned that a certain boy who did not conform had a difficult time in society, as exemplified by this boy's difficulty in getting into a fraternity, and winning acceptance there.

Non-Conformist Happy

Another student, who considered herself a nonconformist, said that ever since she discovered that she could do things in a manner different from others, she had lead a much happier life. Professor Bandel added that the extent to which a person can do this and be happy would depend mainly upon the creative ability of that person.

Several people made the comment that as our world grows more crowded, and people are forced to come into closer contact with one another, it becomes imperative that we be able to adjust easily to the needs and emotions of others. These people therefore felt that conformity was a necessity in our present age.

The next regular Round Table meeting will be Saturday, March 9th, at the Klifa Club at 342 Pearl Street. The topic will be announced.

Canterbury Club Has Lent Program

During Lent the Canterbury Club will have communion and breakfast at St. Paul's Church every Wednesday morning at 7:00 AM. You will have plenty of time to reach your 8:00 AM classes because transportation will be available if you contact Bill Solemene at 4-9763. Canterbury will also be planning for our meetings of the future and we need your help and suggestions.

Plan to attend the communion service and have breakfast with your fellow Canterburians every Wednesday morning, with transportation to and *from* church. We'll see you there.

CALLING ALL BOWLERS

The first annual UVM mixed doubles tournament for students will be held soon!

You'll roll three lines - -
When . . . . Saturday, Mar. 19
Where. .Waterman Bowling Alleys
Time . . . . . 2 to 6 PM

Prizes and fun galore to be had. Get your partners of the opposite sex now!

Sign-up sheets are in the COSA office and the Bowling Alley.

Deadline for entries is Thursday March 17.

Entry fee $1.00 per person

KAKE WALK PICTURES

Kake Walk picture orders have been completed. Please pick up your orders at the Student Photography Staff Darkroom in Room 54, Waterman Building.

• • • • •

Anyone who has not ordered pictures still has a chance to order before the complete display is taken down. Deadline will be Saturday, March 19.

Wonderful things happen when you wear it!

The inevitable choice for the special occasion—because a fragrance is as memorable as the gown you wear. Perfume from $3; de luxe toilet water and dusting powder, each $1.75 (all plus tax). Created in England, made in U.S.A. Yardley of London, Inc., 620 Fifth Avenue, N.Y.C.

Representatives of

HAMILTON STANDARD

Division of United Aircraft Corporation
will be here for

INTERVIEWS

MARCH 21

For 35 years the name Hamilton Standard has symbolized the world's finest aircraft propellers for both piston and turbine engines. Now it stands, too, for the finest in a growing line of jet aircraft equipment such as:

- JET FUEL CONTROLS (electronic and hydro-mechanical)
- JET TURBINE STARTERS (pneumatic and combustion)
- HYDRAULIC PUMPS (variable displacement)
- AIRCRAFT AIR CONDITIONING SYSTEMS

Many Hamilton Standard engineers have won international recognition for their contributions to aeronautical science. The same opportunities await young engineers who join our growing organization today. After a brief training and orientation program at high starting salary, *you can advance steadily in one of our many fields of engineering activity—the one most suited to your desires and talents.*

Our modern plant is ideally located at Bradley Field, the main air terminal, only 15 miles from both Hartford, Conn. and Springfield, Mass.

Kapp Sig Defeats DU of Midd. For Extra Mural Crown

BringHome57-38 Win In First Game Of Series

Kappa Sigma of Vermont defeated Delta Upsilon of Middlebury in the first annual extramural basketball Championship game. The final score, 57-38.

The Vermonters lead throughout the contest without too much trouble. The halftime score stood 24-17. John Glascione led the winners with 18 points. Ed Beck followed with eleven. Other members of the "Green Mountain Dream Team" are Al McLam, Al Steven, Bud Dacey, Rex, White, Burke, Mauro, and Braithwane.

At Middlebury

The game which was played at the Middlebury fieldhouse this year (as a preliminary to the Catamount Panther Frosh and Varsity games) was an idea formulated by CYNIC Sports Editor Gerry Goldman. Plans and approvement were made by Phys. Ed. Director Archie Post. This game will be an annual affair due to its success and it is hoped that in the future this idea may be instituted into other sport areas.

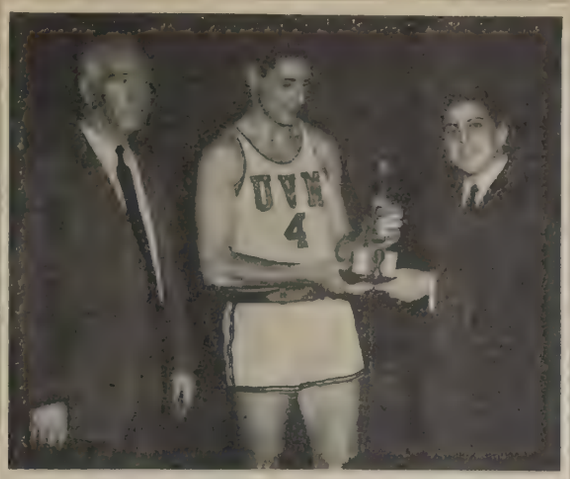
Kappa Sig represented Vermont on the light of its intra mural championship win over SAE and its campus crown gained in the victory over Chittenden 3-4. This is the third straight seasons crown for the Kappa Sigs.

Panthers,Cats Claw In Close Season Play

by Mark Bernstein

The UVM Catamounts traveled last Friday to Middlebury College for their last encounter of the 1954-55 season. It was Vermont's 18th State game and also Vermont's 13th State loss. Final score 77-67.

This game had more to it than meets the eye as the Cats played one of their better games of the year. For those who saw Middlebury at Memorial Auditorium they will remember that it was one Tom Hart who scored over thirty points in the Panthers initial victory over the Cats. This time Vermont not only faced Hart but also his co-star, Al "Sonny" Dennis, who didn't make the trip to Burlington last time because of academic difficulties.



Vermont Trails By Three

It was a nip and tuck affair from the opening whistle until the last five minutes of play, when Middlebury finally jumped to a substantial lead. Vermont left the floor at half time only trailing by a slim three points.

A bright spot in this last game was the shooting of Bob Lovejoy who shared top scoring honors with Earl Steinman, 15 points. Over the stretch the Panthers slowly widened the lead after the Cats cut it to six points on Lovejoy's long set, 70-64. Then with Dennis leading the way they pulled the lead up to the 10 points. In the final five minutes Dennis dropped five of Middlebury's last seven points.

Steinman, Jampolis Bow Out

This final game saw the finish of two of Vermont's finest collegiate basketball players, Earl Steinman and Captain Keith Jampolis. Earl averages better than 18 points a game and Keith averaged 14 while also breaking the All Time High Scoring record. Jasons record ended with 6 victories and 15 defeats.

Pictured above are (l to r) Basketball Coach Fuzzy Evans, Hoop Artist Earl Steinman, and CYNIC Sports Editor Gerry Goldman. Goldman presented the Most Valuable Basketball Player Trophy to Steinman at last week's closing home game with Brandeis. It was Steinman's last appearance before a home crowd which had witnessed a brilliant four year hoop career.

Tennis Team practice started Tuesday, March 9 in the gym, under the coaching of Prof. F. D. Carpenter. Anyone interested in tennis tryouts sign up with Professor Carpenter in the gym between 7 & 9 PM. Tennis workouts will be conducted in the gym until weather permits outdoor practice.

'Mural Mirror

During the past week both the basketball and bowling league were completed. As was expected, the Kappa Sigs cornered both the inter-fraternity championship, and also defeated Chittenden 3 and 4 42-24 for the all campus crown. SAE, the perennial bowling champions defeated AEP to retain their lease on first place. For the Kappa Sigs, it was their third straight campus championship.

Goldman - Small Win Doubles

In Intra-mural handball the winners with Hoffman and Simons the runners up. In singles, Goldman and Small have to meet each other to decide the championship.

HEXATHLON CHAMPIONSHIP

The hexathlon will be held on March 23 and 24. This contest is composed of six events; they are the shotput, one mile run, running broad jump, rope climb, high jump, and the hundred and ten yard dash. Each event has a par rating, if this is attained, the contestant is awarded 1000 points. For anything above or below par, a certain amount is either added or subtracted. The contestant with the most points wins the tourney. Last year's winner was Ron Hill, who was only a freshman when he won, is again competing this year. This contest started in 1933 and was initially won by J.J. Jezukawicz. The highest point total recorded was by W. J. McIntyre in 1949, he scored 6863.718 points.

Track Meet

The track meet for all the fraternities will commence on March 16 with the relays; the relays will also be run on the 21 and 23. The actual meet will be on the 18 and 19. All participants must have at least six recorded work outs to be eligible to compete.

Physical Education Director Archie Post announced that a Badminton Singles Tournament will be held this month. An Intramural medal will be awarded to the victor. All those interested can sign up in the gym with Mr. Post.

The best research facilities are behind Boeing engineers

The Boeing-designed electronic computers shown above solve in seconds problems that once required weeks—typical of the advanced "tools" that help Boeing engineers stay at the head of their field.

Boeing engineers enjoy such other advantages as the world's fastest, most versatile privately owned wind tunnel, and the new Flight Test Center—the largest installation of its kind in the country. This new Boeing Center includes the latest electronic data reduction equipment, instrumentation laboratories, and a chamber that simulates altitudes up to 100,000 feet. Structural and metallurgical research at Boeing deals with the heat and strain problems of supersonic flight. Boeing electrical and electronics laboratories are engaged in the development of automatic control systems for both manned and pilotless aircraft. Other facilities include hydraulic, mechanical, radiation, acoustics, and rocket and ramjet power laboratories.

Out of this exceptional research background engineers have developed such trend-setting aircraft as America's first jet transport, and the jet age's outstanding bombers, the B-47 and B-52. Research means growth—and career progress. Today Boeing employs more engineers than even at the peak of World War II. As the chart shows, 46% of them have been here 5 or more years; 25% for 10, and 6% for 15.

Boeing promotes from within and holds regular merit reviews to assure individual recognition. Engineers are

encouraged to take graduate studies while working and are reimbursed for all tuition expense.

There are openings at Boeing for virtually all types of engineers—electrical, civil, mechanical, aeronautical and related fields, as well as for applied physicists and mathematicians with advanced degrees.

For further Boeing career information consult your Placement Office, or write:

Larry Damon Cops National Cross Country Crown; Ski Team Places Sixth In Nation's NCAA Ski Circle

Evans Eleventh In Alpine Event; Others Show Well

by Dick Lewis

Facing competition from nine of the top collegiate ski teams in the country, the UVM Ski Team compiled a total of 530.284 points in the combined results to place sixth in the NCAA Ski Championships at Norwich last weekend.

The University of New Hampshire edged the Cataskiers out of a fifth place in jumping with Middlebury winning the event, paced by Captain Les Streeter. In the downhill, Frank Evans, who is getting a tryout for the Olympics this weekend at Franconia and who will compete in the International Championships at Stowe on the following weekend, placed 14th in the nation. Evans' 11th position in the slalom gave him an 11th place in the combined totals for the Alpine events.

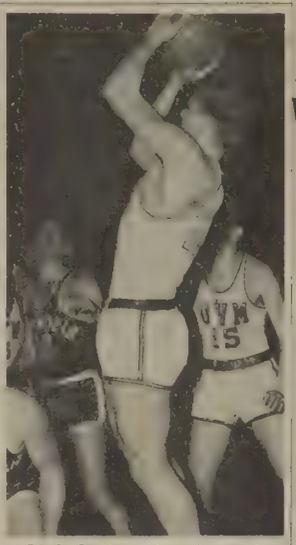
The big star for UVM was Co-captain Larry Damon who won the cross-country race on Saturday against the country's top skiers. For details on Damon and his NCAA Championship be sure to see the accompanying story.

Other members of the UVM Ski Team made a good showing at the NCAA Championships. Bill Purcell placed 16th in the cross-country, closely followed by Al Duval and Clint Thompson in 19th and 20th positions, respectively. Jerry Baril and Bill White also competed in the jumping along with Damon and Purcell.

Judges Win Case 103-62; Steinman Gets MVP Trophy

by Mark Bernstein

After splitting a two game road trip, the UVM Catamounts came home to play their last game of the season at Memorial Auditorium, against the Brandeis Judges, who romped over a highly outclassed UVM team, 103-62.



Playing before a sparse crowd at the Auditorium the Cats didn't have the steam to catch Brandeis.

A 17 year old freshman from New Jersey provided most of the scoring punch for the Judges. Rudy "RED" Finderson melted the Cat defense. Time and time again he scored from the pivot and then from the outside. High scoring Earl Steinman did his best to keep Vermont in the game but no help was in sight as the Catamounts just didn't have it.

Steinman Gets Woods Trophy

At half time the annual Wood's Trophy was given out to Earl Steinman, voted the Most Valuable Player of the 1954-55 season. The Evansmen in the second half fell further behind as the speed and depth of the Brandeis bench began to take effect on the tiring Cats. With six minutes to go in the game Coach Evans cleared the bench as did Coach Stein of the Judges. The final score read 103-62 as Brandeis broke the century mark.

Watch for Baseball Preview by Ralph LaPointe. Get inside on this year's southern trip.

Dick Stein takes last shot in last home game of season against Brandeis at Memorial last Wednesday night. Vermont lost 103-62.

Olympic Berth Assured After Wrong Wax Win

by Dick Lewis

Larry Damon, UVM senior a a native of Burlington, won t National Intercollegiate Cros Country Race at Norwich Univ sity this past weekend. Damo who is aiming for a berth on t 1956 Olympic Squad, seem assured of a place as a result this race. He beat the top cros country men in the country, practically assure himself of su a position.

Uses Wrong Wax

The UVM cross-country ac who previously had won the eve at the Dartmouth Carnival and t EISA meet at Middlebury, ran cool, calculated nine miles in good time of 54 minutes 10.2 s onds to nose out Dave Shaw Denver University. Damon w behind Shaw at the half way po but picked up speed over the l few miles. The course was sl and Damon said that he used t wrong wax. When he crossed t finish line in frosty presperati his left ski was worn clear of w

Outshines Westerners

Damon faced the top cross-cou ry racers in winning the title Norwich. Besides the two Ea erners with whom he has be dueling all winter, New Ham shire's Dick Osgood and Rilsna he had to face the cream of t West, famed runners such as D ver's Western champion D Shaw and teammate Paul Wegem Dick Mize of Western State Idaho's Erik Berggren.

According to Coach Cha Traverse, Damon is the f Intercollegiate Titlist to repres the University of Vermont.

UNIVERSITY OF VERMONT AND STATE AGRICULTURAL COLLEGE

VOL. 73 BURLINGTON, VERMONT MARCH 17, 1955 NO. 1

Spector Named New Editor, "Cynic" Elections Reveal

David A. Spector was elected the new CYNIC editor in-chief at the annual elections held last week. A junior from The Bronx, David is a liberal arts student concentrating in economics. Announcing his plans for the coming year, Spector said, "I will try to carry on the high quality of journalism which has characterized the last years of the CYNIC."

Spector has been on the CYNIC for three years, starting as a reporter for three years, starting as a reporter for the feature staff, then becoming feature editor. Last year he was one of the co-managing editors. Spector is also president of the Young Democratic Club. He is not connected with any fraternity.

Max Ansbacher '57, and Nancy McCone '56, were elected managing editors. The news editor is Shirley O'Neill, and Barbara Zack will be feature editor. The sports department will be headed by Ed Willard '56.

Dru Weiland is the production manager. Mary-Sue Rothenberg is the business manager, and Dave Lappin is in charge of circulation. Re-write staff is headed by Ann Dove.

Ansbacher is managing editor for the editorial part of the paper. He is a member of the Lawrence Debate Club and president of the Round Table. Nancy McCone is managing editor in charge of production. Nancy is also women's sports editor for the Ariel.

At the time the paper went to print, the position of society editor had not been filled.

David A. Spector

We Made It!

By Susan Wakefield

The UVM charter amendment was virtually made a law when Governor Johnson signed the bill at two o'clock yesterday afternoon. The trustees will approve the bill on April 2, completing the final step in its ratification.

The long struggle for passage of the proposals was ended in the Senate by a unanimous voice vote on Wednesday, March 9. Five proposed amendments were defeated during the three hours of debate after the bill was favorably reported by the education committee and the judiciary committee.

State Control

The bill would insure state control of the UVM board of trustees by representing the state with twelve trustees, three more than the private representation. The legislature could amend the University charter to "provide for the more perfect and effective accomplishment of its objects."

Senator Springer, R., Hartland, offered three amendments based on the contentions that the bill was unconstitutional; that the university stood to lose the $1.5 million Wilbur Fund; that the bill did not make the university a public institution as had been publicized.

Buckley

Senator Thomas G. Buckley, R., Bennington, proposed striking out the section of the university's charter which prohibited "a preponderance" of members of any one religion from being on the board of trustees. He claimed that in attempting to be non-discriminatory, the charter had, by that section, become discriminatory.

Buckley's second ammendment would have put UVM's finances directly under the state auditor's office.

Sidney Smith To Take New Library Post At LSU July

Dr. Sidney B. Smith, director of libraries at the University of Vermont, has been named to the position of director of libraries at Louisiana State University effective July 1.

UVM president Carl W. Borgmann announced that a committee headed by Prof. Paul Evans of the history department has been appointed to seek Dr. Smith's successor.

Dr. Smith succeeds Guy R. Lyle, who resigned from LSU recently to accept the post of director of libraries at Emory College. He was chosen by LSU from among 39 persons considered by a special committee. The committee sought suggestions from leading library administrators and reports that John S. Millis, president of Western Reserve University and former president of the University of Vermont, described Dr. Smith as "one of the top young university librarians in the country."

President Borgmann, in commenting on the appointment, said that the University's plans for increasing library space and facilities have progressed under Dr. Smith's direction. The UVM president said that, in considering Dr. Smith's successor, the University would be guided by the fact that the position of Director of Libraries is considered one of the most important on the campus.

A native of Boston, Mass., Dr. Smith received the BA from Williams College, the BS from the Columbia University School of Library Service, and the Ph.D. from the Graduate Library School of the University of Chicago.

He has held library posts at George Washington University, at Bard College where he served as assistant librarian, and at Union College, serving as reference librarian. He joined the staff of the University of Vermont in 1947.

Dr. Smith is a member of the American Association of University Professors, the American Library Association, and Phi Delta Theta. He served as president of the New England Library Association in 1953-54, is on the council and the committee on equipment of the American Library Association, and has written a number of articles and book reviews for library and education periodicals.

At UVM he served as president of the University Club in 1950-51, and has for the past several years served as faculty adviser to Kake Walk. He is president of the Burlington chapter of the Vermont State Symphony Orchestra.

Debaters "Wonder Team"

UVM debaters were "surprise team" of the tourney as four first year orators, John Gay, Don Karp, Lew Kieffer, Ada Pratt placed second in tournament

A first-year debate team from UVM was the "surprise team of the tournament" at Brooklyn College last weekend, Professor Charles Helgesen, debate coach, told the CYNIC.

The team, consisting of two freshmen and two sophomores, placed second only to Harvard at the Eighth Annual Brooklyn College Tournament.

Representing the University of Vermont were John Gay and Don Karp, soph and frosh, respectively; and Lou Kiefer and Ada Pratt, a frosh and soph, respectively.

Gay, Karp Undefeated

The team amassed nine wins against one loss. Harvard was undefeated, going ten for ten. Gay and Karp, debating the negative side of "Recognition of Communist China," were undefeated in five matches.

"The high placement was especially significant," said Professors Helgesen and Huber, "when you consider the fact that the other competing teams had their top-flight varsity debaters at the Brooklyn Tournament.

Even Beginners Win

All four UVM students at Brooklyn were first year debaters.

"It feels good to be able to send beginners into a tourney as tough as this and still come out on top," Helgesen stated.

Tying with Vermont for second was George Washington University. In third place were M.I.T. and Notre Dame, with 8-2 records.

Little Receives Grant From AEC For Research

Jack E. Little, Professor of agricultural biochemistry at the University of Vermont and State Agricultural College, has received a $33,000 grant from the Atomic Energy Commission for research with radioisotopes into the use of antibiotics in plant growth control.

3 year Grant

The grant is to run for a three year period with $11,270 to be received each year. Prof. Little states that "we are primarily interested in using the grant to finance research fellowships for students working for their masters degrees, and $1500 for each year's grant will be used for this purpose."

"It wasn't so many years ago," he points out, "that graduate students considered themselves lucky if they could find the means to finance their advanced work, but now, because the government and private agencies are interested in maintaining and advancing high levels of research activity, the qualified student, particularly in the sciences, usually finds that he can obtain financial assistance to complete his studies."

In addition to providing fellowships, the UVM grant from the Atomic Energy Commission will also be used to purchase equipment and materials, particularly radioactive isotopes, and to pay the salaries of technicians engaged in the research work.

Prof. Little explains that his present research is a continuation of work with antibiotics. But while his original research dealt with the isolation of antibiotics, the current work is a study of the mode of action of antibiotics in plant cells.

Antibiotics

"We know, for example," he relates, "that antibiotics can inhibit growth in plants, but we also know that, by decreasing the concentration of antibiotic solutions below the levels which will inhibit plant growth, we can stimulate such growth.

"The present grant has been given for the study of the growth process using radioactive isotopes as tools."

"Our work has a practical aim," Prof. Little states, "in that it is an effort to better understand the growth process of plants with the expectation that we can better control plant growth.

"We happen to be working with plants, but the growth processes in plants and animals are similar and the results of our study may prove to be applicable to animal growth," he adds.

Working with Prof. Little in the research project are Murray W. Foote, assistant professor of agricultural biochemistry at UVM; and Donald B. Johnstone, associate professor of microbiology in UVM's College of Agriculture.

Adam Skapski Speaks Tonight On Education

The John Dewey Club will present Prof. Adam Skapski in a talk and discussion tonight at 8:15 in the Fleming Museum Auditorium. His topic is "Education Elsewhere; the Philosophy of Education at European and American Universities."

Prof. Skapski has been relatively deeply involved in the recent stir aroused by Prof. John Aldridge of the English Department.

All Treasurers Must Attend SA MeetingMonday

George Lucchina announced that treasurers of all groups petitioning for SA funds must attend an orientation meeting on Monday, March 21, at 4:00 p.m. in the SA Council Room. The treasurer must attend if his budget is to be considered this year.

Dean's List For E & N Names 38 Vermonters

A total of 38 UVM students have been named to the Dean's List for the College of Education and Nursing. The number includes 38 Vermonters.

Students with 89-92.4 averages are Ruth Atkinson, Brattleboro, Ruel Barrett, Fairless; William Davis, Jericho; Joan Gilmore, Burlington; Linda Howlett, Bridport; Robert Hutchinson, Essex Junction; Peter Idleman, Wayne, Pa.; Priscilla Libby, Mt. Vernon, N.Y.; Carolyn Silsby, St. Johnsbury; and Elizabeth Wallace and Rita Wincukiewicz, both Springfield.

Students in the 85-88.9 group are Sigrid Albrecht, Springfield, Pa.; Margaret Aldrich, Burlington; Mary Jane Anderson, Washington Depot, Conn.; Jane Aronson, Proctor; Lorna Belville, Barre; Lorraine Benedict, St. Johnsbury; Barbara Bennett, Burlington; Judith Black, Hyde Park; Marilyn Bolton, Cabot; Carol Brumbaugh and Carolyn Brumbaugh, both Claysburg, Pa.

Also Patricia Cheney, Rutland; Constance Cox, Bristol; Roberta Cushman, Tunbridge; Louise Demers, St. Johnsbury; Anne Dove, Rye, N.Y.; Jean Dunbar, Swanton; Lynn Eger, Cynwyd, Pa.; Beth Elrick, South Royalton; Nancy Fairbanks, Concord, Mass.; Rebecca French, Amherst, Mass.; Gail Greenslet, Ardmore, Pa.; Linda Hadley, Burlington; Carol Hall, Windsor; Lila Hart, Stratford, Conn.

Also Elizabeth Johnson, Hartford, Conn.; Rita Johnson, Proctor; Betty Kidder, Rochester, Caroline Kong, Burlington; Elaine Knapp, Stowe; Margaret Ladue, Essex Junction; Lois Mansur, Weston; Anne McColl, Delmar, N.Y.; Margaret McGowan, Trenton, N.J.; Margaret Purinton, Burlington; Donald Quinlan, Williston.

Also Virginia Rosse, Waltham, Mass.; Audrey Rubin, West Orange, N.J.; Richard Russell, Waterbury; Marilyn Skinner, St. Johnsbury; Nancy Storm, Baldwinsville, N.Y.; Elsie Story, East Fairfield; Matthew Tirrell, Waterford, Conn.; Sandra Waugh, Scotia, N.Y.; Harriet Wilson, Greensboro; Barbara Whitney, Williamstown; and Susan Young, Perkinsville.

Open Lecture By Zariski Today At 4:00

There will be an open lecture by Raymond Zariski of the department of political science, this afternoon, Thursday, at 4 p.m. in Room 117 of the Old Mill. Mr. Zariski's lecture, on the topic "The Italian Executive," is one of a series in the intra-departmental seminar on Popular Government. A number of seats are available.

Future open lectures will be announced in the CYNIC from time to time. Students are urged by the Curriculum Committee to take advantage of this opportunity to become acquainted with course materials as well as lecturers and students outside their own courses.

Honor Society Initiate Five To Med School

Five students of the University of Vermont College of Medicine have been initiated into the National Medical Honor Society in ceremonies conducted recently. Four senior medical students and one junior medical student were initiated, and an alumnus of the College was elected to honorary membership. Dr. George Wolf, dean of the College of Medicine, made the awards of memberships.

Those honored were Richard Baily of Claremont, N.H., Raymond De Jesus of the Philippine Islands, Herbert Gershowitz, Providence, R.I., and Stanley Walzer, Forest Hills, N.Y., all seniors; and Herbert Goldberg, also Forest Hills, N.Y., a junior.

This year Dr. David M. Bosworth of Englewood, N.J., a graduate of the UVM Medical College in 1921, was elected to honorary membership for his "outstanding contributions in the field of orthopedic surgery." Following the awards, Dr. Bosworth gave an informal talk.

Student election to the honor society is on the basis of scholarship, demonstration of clinical ability, and promise of contribution to the medical profession.

Society members who attended the ceremonies included Dr. E.L. Amidon, Dr. A.B. Soule, Dr. George A. Schumacher, Dr. John P. Cummins, Dr. Durwood J. Smith, Dr. John F. Daly, Dr. Harry Howe, and Stanley L. Burns and A. Sigmund Weissbein.

Trustees To Consider Actic In Excess $92,000 Legal Fee

The Board of Trustees of the University of Vermont and State Agricultural College at a meeting on Saturday adopted a statement of their findings in the matter of the $92,000 legal fee paid for the settlement of the Wilks estate.

The Board listed four points in their statement:

1. That the $92,000 was, and is, an excessive legal fee.
2. That the approval of such a fee was brought about by lack of information of the exact nature and extent of the work done by attornies representing the University.
3. That the Trustees of 1952, which approved the fee payment, acted in good faith, and with proper propriety because they did not have information that is available to the present Board.
4. That the Trustees placed full reliance and confidence in their legal advisors in approving the size of the fee.

Also, it was voted not to make public the report submitted by Attorney Henry Black at the request of the Trustees because it was a confidential analysis between lawyer and client. The Board announced, however, that the report was a summary of Black's investigation, and did not contain any recommendations for future action.

A committee of three was elected by the Trustees to retain legal counsel and to consider future action in the light of the Board's findings. The members elected were Olin Gay, Cavendish, Vermont; Curtis Mower, Braintree, Massachusetts; and Robert Holden, Bennington, Vermont.

Bach's Saint John Passion In Lenten Program Sunday

By Stan Sakowitz

The Saint John Passion by Bach, a composition concerning the last weeks of Christ's life, will be presented as the Lenten Program of the Music Department this year.

The program will be given Sunday afternoon at 4:00, in the Chapel. It will be preceded by a carillon recital by Professor F.A. Weinrich.

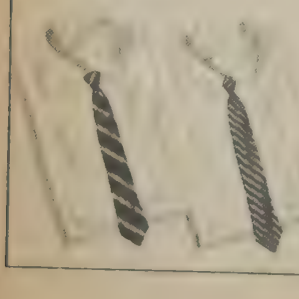
Solos

The Evangelist, who sings the story, will be portrayed by George Merritt, who sang the role in the performance five years ago. The other soloists will be: Barbara Weinrich and Helen Chicoine, soprano. Carolyn Brumbaugh, alto; Francis Weinrich and Stephen Pearl, bass.

The strings and flutes of the orchestra will accompany the choir, directed by Professor Howard Bennett. Sadah Start will play a violin obbligato, Flora Kinsey, a cello obbligato, and Carolyn Brumbaugh, a flute obbligato, Lorraine Benedict will accompany the chorus on the piano, and Miriam Natilie Marston will play the organ.

Church Choirs Assist

The UVM Choir will be assisted in the chorales and the first chorus by the choirs of the Baptist, College Street Congregational, Methodist, First Congregational, Saint Paul, and Unitarian Churches. However, the other choruses will be sung solely by the UVM group. The choir and soloists represent the mob and characters in the story.



All Staff CYNIC meeting Saturday afternoon, 1:00 p.m. Room 239 Waterman. Please attend.

ARROW BUTTON-DOWN SHIRTS . . .
JUST THE TICKET FOR ANY OCCASION!

It's the one collar that says: "Right you are," from morning coffee to midnight oil.

You get *variety of style*, too, with Arrow button-downs. In round collars, spread collars, collars with a soft roll. They're precisely tailored to give you the button-down you like best. See your Arrow dealer. He has button-downs in a variety of colors, just right for *you* . . . (and your budget, too). $3.95 up.

ARROW
SHIRTS & TIES
CASUAL WEAR
UNDERWEAR
HANDKERCHIEFS

Our Arrow Button-downs are seen most, liked best on campus

College men just naturally go for a button-down shirt. It's a standard because it's correct, yet comfortable and casual, too.

For the man who likes his *variety* as well as his comfort, Arrow button-downs are the answer.

We have superbly tailored Arrow button-downs in *round* and *spread* styles, as well as the classic Gordon Dover. See us for button-downs that are *different* and *decidedly* smart. They start at a comfortable $3.95 in broadcloth . . . $5.00 in oxford. Prices that make *any* budget look bigger.

MEETINGS

SIGMA XI TO MEET

James Marvin will be the speaker for the next meeting of The Sigma Xi on Tuesday evening, March 22 at 8 p.m., in the Auditorium of the Home Economics Building.

Mr. Marvin will speak on the subject of " The Relationship of Temperature to Sap Flow in the Sugar Maple. " The analysis of data collected over a period several years has demonstrated a quantitative relationship between the enviromental temperature and volume of sap flow.

Refreshments will be served in the Vermont Room following the lecture which is open to the public.

• • • • •

EASTER CONCERT

The annual Easter Concert will be held Sunday, March 20, at 2 p.m. in the Ira Allen Chapel.

• • • • •

SENATE MEETING

The University Senate will meet Thursday, March 24, at 4:30 p.m. in the Auditorium of the Hills Building.

• • • • •

CURRICULUM COMMITTEE

Dean John Kent will discuss the Graduate College at the next open meeting of the Senate Curriculum Committee Monday, March 21.

• • • • •

CINEMA ART CLUB

The Cinema-Art Club of Burlington will offer a preview showing at its next meeting on Saturday, March 19, 8 p.m. at 75 Bilodeau Ct. The group will also meet Sunday evening, March 20, at 8 p.m.

The program follows:

" Images from Debussy," an 18-minute film featuring four compositions by Debussy illustrated by visual images. "En Bateau " is photographed from a slowly moving rowboat, showing shore, trees and sky patterns. "Arabesque en Mi " and "Reflets dans l'Eau " show changing reflections in water among reeds and lilies. "Arabesque en Sol " shows an almost abstract dance of light through extremely close photography of sea water with occasional negative printing.

"The Moor's Pavanne " a 16-minute color film of the story of Othello told completely in terms of movement. The four characters (Othello - Jose Limon, Desdemona - Betty Jones, Jago - Lucas Hoving, and Emilia - Pauline Koner,) adhere to the stately dance formation of a court dance except when their individual emotions compel them to break away from the pattern, suggesting the formal routines of society which are disturbed at times by the crisis of individuals. Music for string ensemble was arranged by Simon Sadoff from Henry Purcell. This is considered one of the best modern dance films.

A tape recorded radio interview with Jose Limon concerning his performance of "The Moor's Pavanne, " will follow the film. At this time the films on dance to be selected for showing next season will be voted on.

"The Last Lesson, " a 10-minute film dramatization of the short story by Alphonse Daudet. Short story and full length feature films to be selected for showing during the next season will be voted on.

"Over-dependency, " a 32-minute psychological film about a young man whose life is crippled by behavior patterns carried over from a too-dependent childhood. The film was produced by the National Film Board of Canada and is being shown through the cooperation of the Vermont State Department of Health. Dr. William Young will comment on the film. Psychological films to be selected for showing during the next season will be voted on.

TOWN CONFERENCES

Andrew Nuquist reports that the Government Clearing House plans for the 10th annual Town Officers Educational Conferences are well underway.

Mr. Nuquist reports that Governor Joseph B. Johnson spoke at one conference in New Haven on Wednesday, March 16, and that he will also address the March 31 conference in Montpelier.

Conferences have been held in Swanton and New Haven and are set for Manchester, today; Springfield, March 29; Orleans, March 30 - and Montpelier.

For the first time there will be copies of an actual town report for use in discussion of Better Town Reporting. The Charlotte Town Report has been reproduced to serve as a "basis for argument and discussion. "

All town officers and interested citizens are invited to attend any of the sessions.

• • • • •

AUDIO-VISUAL OPEN HOUSE

The Division of Audio-Visual Services held open house for teachers attending the 48th annual March Conference in Burlington on Friday, March 11. Horace Eldred reports that personnel were on hand to welcome visitors and show them through the Division's Old Mill facilities.

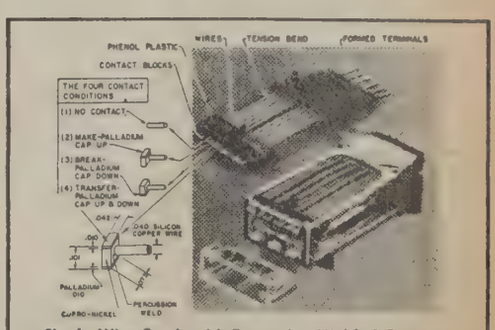
AUTOMATION at work

A new design becomes a production reality

One of Western Electric's automatic production lines used in making the revolutionary new wire spring relay.

1. SUPPLY MAGAZINE
2. CLIP WIRE ENDS
3. CONTACT TAPE SUPPLY
4. WELD CONTACTS
5. CONTACT TAPE SUPPLY
6. DRIVE UNIT
7. SIZE CONTACTS
8. SCRATCH BRUSH TERMINALS
9. FORM TERMINALS
10. TENSION BEND
11. FLUX & TIN TERMINALS
12. FINISHED PARTS

So great was the departure in design of the new Bell System wire spring relay as compared with conventional relays that it posed a major undertaking for development engineers at Western Electric, the manufacturing and supply unit of the Bell System. Indeed, it was an undertaking that called for new machines and new methods because none was available to do the job.



Longer life, higher operating speed, lower power consumption, and lower manufacturing cost were some of the advantages promised by the new relay design. Engineers reasoned that a lower manufacturing cost could be achieved through greater precision in manufacture (which would cut adjustments) and through extensive use of automatic processes.

One of the products of this reasoning is pictured at the top of this page. This battery of equipment, developed by Western Electric product engineers, constitutes one phase of wire spring relay manufacture, which automatically performs several separate operations. Its function begins after one of the fundamental elements of the new relay has been fabricated. This element, known as a "comb," consists of a multiplicity of small diameter wires in parallel array imbedded for part of their length in molded phenol plastic.

These molded elements, of which there are two types used in the new relay, are delivered to this line of machine units in magazines. By fully automatic means they are removed from the magazine, carried by a reciprocating conveyor through each of the several processes and, when completed, placed into another magazine to await further assembly.

Between the first and final magazine the automatic battery of equipment does the following operations: clips wire ends, attaches palladium contacts to wire ends by means of percussion welding, sizes contacts, forms terminal, tension bends wires, fluxes and tins terminals.

Most remarkable of all is the fact that this is a *precision* operation throughout. For example, the small block contacts, which are percussion welded to the tips of wires of one type of "comb," must be located on the same plane across the twelve contact positions to within a tolerance of ± .002".

Single Wire Comb with Percussion Welded Contacts, Wire Spring Relay Designed by Bell Telephone Laboratories

One type of "comb" element is shown at top while a completed wire spring relay is below. The small blocks of metal on the ends of the wires are cut from a composite tape during the automatic multiple percussion welding operation. "Contact conditions" are determined by the code of relay being manufactured and may vary greatly.

EDITORIAL

Scrape Scrape

goes the knife. The old name on the CYNIC office door gets scraped off and another one takes its place. A new Senior Staff takes over to pilot the CYNIC for the next year, but underneath it all the CYNIC carries on as before. The same functions are performed, stories are written, rewritten, and set in place for the coming issues. The reporters still go out for the stories and the production staff still composes the paper. The editorial policy will also carry on.

I envision the duty of an editorial to try to mirror the views of the student body, not in a general sense of appeasment and compromise, but in a forward moving search for knowledge and progress. The paper and the student body should, together, work as a team. Our goals should be the same—a better University. Any school newspaper should try to be the focal point for the students to rally around. The management of the paper should not attempt to set itself aside from the students, but should, rather, work with them to achieve whatever the goal may be.

The editor should reserve the right to spark any movement in which he sincerely believes, and which he feels is of true benefit to the school. Antagonisms should be avoided whenever possible. It is not for the editor to decide student opinion; he should serve as a guide.

The CYNIC is a student newspaper. It represents the work and output of your fellow students. We are not professional newspaper people. We have to divide our time between class and extra-curricular activities. Therefore, mistakes are inevitable, we will probably make many. As a student newspaper remember we represent the students.

Our letters to the editor column is open to any member of the University Family. If you have anything to say, why not avail yourself of the opportunity. The Newspaper is for you-use it.

Click Click

went the flying feet of Iva Kitchel. Her performance as a dance satirist was interesting, but what was more interesting was the composition of the audience in the well-filled auditorium. There were quite a few townspeople, many members of the administration and faculty, as well as a few students present. The Program Series, sponsored by Student Association, is really a fine idea. It makes possible the introduction of many noted artists to the Burlington scene. While trying to avoid the use, or concept, of the term "provincialism" it still is not often that fine performers come to town. Still the impact of sales for the Program Series comes about through the demand for the one big show a year. The average student did not buy his ticket with the idea of seeing Miss Kitchel; it was to see "The Caine Mutiny Court Martial." All the other attractions on the schedule are just so much extra gravy. This is similar to the situation that faces Community Concerts when they sponsor one symphony orchestra and then three soloists.

Through the generosity of Mrs. George Bishop Lane this situation is being rectified. Her gift will permit a whole series of top-notch performers to entertain in Burlington.

This brings us to the problem of the seating capacity of Memorial Auditorium. There are not enough seats to go around for one of these main attractions. The Student Association is sensibly attacking this problem. A proposal is now under study that would first supply all interested students with tickets, and then sell the remainder to the townspeople at a higher price. Through the adoption of such a plan the students would be served, a profit could be shown, and higher quality entertainment could be attained.

Letter to the editor

To the Editor of the CYNIC:

It is rather unfortunate that the outgoing editor of the CYNIC had so little good to say of his school in his last editorial. One would think that a positive, rather than a negative remembrance would have been better, with possibly suggestions for improvement of UVM. This may be second guessing, but I actually do not believe that Mr. Gordon saw any improvement in any facet of life at UVM this year. This from a man who had every opportunity as editor-in-chief of the only official campus newspaper to present constructive criticisms and suggest methods of improvement. This, I think, does not speak well for him as he leaves all his criticisms for his successor to bear.

A small point, but a rather important one in this instance, is the use of the editorial "we". As a regular contributor as a news reporter on the CYNIC for a year or more. I have had many opportunities to observe the workings of the paper from the inside, and I have discovered that there are those in various departments and positions who have had to answer to frequent inquiries that the editorial policy of the CYNIC was not necessarily the policy of its staff. It would have been wiser perhaps for Mr. Gordon to have used the personal "I" in this particular editorial, even if there are those several others on the paper who agree with him.

Let it not be misunderstood that I disagree with everything Mr. Gordon has said. One thing I might comment on though is his near-sightedness. Blondes, especially many of those at UVM who are quite aware of their inability to look good in any kind of sweater, with or without a string of any kind of beads, do not "always, always look good in tight black sweaters and a string of pearls." If this is the only favorable (?) comment that Mr. Gordon can make, I think it is evident that he is incapable of astute observation. Maybe if he walked a different route than the lower hall of Waterman he would get a better perspective of the campus at large.

Yes, the 1955 Ariel was in bad taste on some points. But it little behooves a person who has been in bad taste on several occasions in his own publication to criticize another. In my humble opinion the 1955 Ariel was not up to standard and does not justify the amount of student funds expended on it.

There has been enough agitation over the blackface issue, and since I, personally, do not agree with Mr. Gordon, personally, I will not attempt to create another argument. In all fairness I will say that if Mr. Gordon has finally sowed the seeds of a rebellion, and enough pressure is brought on the student body and the administration so as to forever eliminate blackface stereotyping, he has done a service to mankind by his fight this year. If he has not convinced his readers, then he has wasted time, energy, and print in a cause that should fall into oblivion.

Mr. Gordon's remark about the IFC was a bit premature. A look at the newly elected officers of that organization should prove to even the uninitiated that new elements of leadership have finally taken over. It is my hope that the IFC will attempt to work more closely with the COSA and SA and the Administration than they have been, and from the looks of the new slate, I feel that this is possible and probable.

As a councilman on the SA Council for all but two months of my stay at UVM, I was not too surprised by Mr. Gordon's comments concerning the council. Mr. Gordon has not been on good terms with the council. and only recently has had several instances whereby his thinking could be warped. In fact, he will probably be answering for some things until he leaves UVM.

The SA Council is a group of people elected by the students who invest those on the council with the power of representing the entire student body, i.e. to think for them. This is a difficult task, and even though they make mistakes, most generally each topic is given deep consideration and thought evincing finally the vote that the majority desire.

It is difficult for those on the council to discuss intelligently all matters that come before them, since they are only part-time administrators and are not fully indoctrinated to the task before they come on the council. This will be alleviated to a great extent on future councils when the proposed leadership training plan is put into practice. With all its minor faults, I am proud to say that I have been a member of the council, and am of the opinion that the student body should feel confident that their affairs are in good hands.

The leadership of the council is another matter for consideration. In the year 1953-1954, my freshman year, the SA president was merely a figurehead. He was evidently well-liked and made an excellent appearance representing the school. It was fortunate for the council that the vice-president was so competent, because without the wisdom, ability, and help of the vice-president the council might well have floundered.

This year George Lucchina has been carrying the ball himself. The vice-president this year is not of the same temperament as the former one, and although competent at his assigned duties, he does not attempt to usurp his powers. Mr. Lucchina has done a pretty fair job with his handicap of having to carry on a full program at the medical school. He has made mistakes, but they have been honest ones, and he has proven himself worthy of the job entrusted to him by his fellow students.

It is quite possible that Mr. Gordon has not heard of "anyone capable of talented and creative leadership running for SA President." Neither has anyone else, since noone is running as yet. I know of three people who are interested in the position and all three have qualities which will contribute to it. It will be most interesting to watch the campaigning and election when the time comes. I have confidence in the UVM students that they will find the right person for the job.

It has taken me so much space to attempt to correct any false impressions Mr. Gordon might have left with his readers, that I have not room left to enumerate the better things that have transpired at UVM this year. Perhaps in a later letter I shall attempt to do just that.

Sincerely,
Robert W. Smith

Did You Know?

That between 1804 and 1825 UVM graduated 142 boys, sending 121 of them into learned professions (law, clergy, education, medicine), 6 into business, 1 to farming, 4 into the army and navy, and 1 into "other work." Nine died early. From 1826 to 1850 the score was: Total—355, learned professions, 287; business, 27; engineering, 9; farming, 2; miscellaneous, 9; died early, 21. From 1851 to 1869: total—303; learned professions, 214; business, 32; engineering, 4; farming, 1; army and navy, 5; miscellaneous, 15; died early, 22. Beginning in 1869 the University, under the new diversified program encouraged by Senator Justin Morrill's land-grant college idea, gradually added to its historic B.A. degree the degrees of bachelor of science, civil engineer, and bachelor of philosophy. The PH.B. degree could be earned without taking Greek.

Poinjg's Postscript

"Day in and day out I hear the thump-thump-thump of my one legged monster. It is maddening to hear its strange noise continually. At first I thought it was a dream or perhaps only from something I had read by Poe. But no, this was real!

"The never-ending thump and the sound of a dragging, crippled limb kept after me. Everywhere I went I became inflicted with the driving sensation of insanity. Now, yes now, I too have fallen, a victim of this dreadful malady. I was not always as I am now. Once I was free and able to do what I wished. No longer am I able to be as others, but now I must be content to lie on my back and daily exercise my hard-cast bones.

Provincial

"Before this all happened, I was similar to most of the provincial people in this provincial town in this provincial state of Vermont. But, before I resign...myself to social ourcastism and leave this land for new provincialism abroad, hear by story.

"The day was a glorious one when I decided to depart on my adventure which led me to this fate. As I am now, I was alone driving faster and faster to reach my goal in those omnipresent mountains. Once there however, I was no longer alone. To the contrary, I was surrounded with many comrades all pledged to the same cause.

"I did not hesitate long before I was adorned in my combat clothes and ready to meet the challenge. I must have been quite dashing to look at dressed in my navy blue uniform. The wind was howling, but I could neither hear nor feel it. I was numb all over and hardly had I pointed my long wooden weapons inmy foe's direction when the attack was on.

"Slowly at first, then faster...faster I charged my powerful opponent. He was straight and tall; I was but mere flesh and bones, too weak to withstand his oaken grip. As quickly as I had charged, I went faster to the ground. Before I passed out, I felt as if I was laying on a soft white cloud.

"Then I awoke, alive again! Alive only to join my bretheren in that ceaseless thumping fraternity. I too must thump and carry my twisted body for a short moment in time. I will use these precious minutes to think...to think...Yes, I will think before I go to Stowe again."

Representatives of

HAMILTON STANDARD

Division of United Aircraft Corporation will be here for

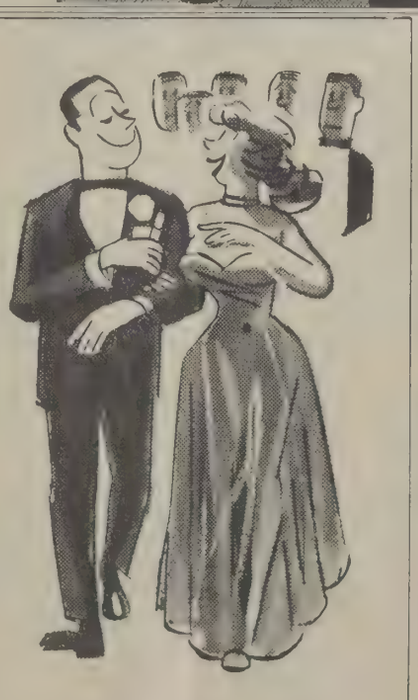
INTERVIEWS

MARCH 21

For 35 years the name Hamilton Standard has symbolized the world's finest aircraft propellers for both piston and turbine engines. Now it stands, too, for the finest in a growing line of jet aircraft equipment such as:

- JET FUEL CONTROLS (electronic and hydro-mechanical)
- JET TURBINE STARTERS (pneumatic and combustion)
- HYDRAULIC PUMPS (variable displacement)
- AIRCRAFT AIR CONDITIONING SYSTEMS

Many Hamilton Standard engineers have won international recognition for their contributions to aeronautical science. The same opportunities await young engineers who join our growing organization today. After a brief training and orientation program at high starting salary, *you can advance steadily in one of our many fields of engineering activity—the one most suited to your desires and talents.*



Our modern plant is ideally located at Bradley Field, the main air terminal, only 15 miles from both Hartford, Conn. and Springfield, Mass.

Sports Nameless
by Ed Willard

A new sports editor comes into office for the venerable Vermont Cynic. The first thought that pops into his mind is what to write. He wants to make a big splash in his first- but wait! - he hasn't even named his column yet. A sports-writer has to have a fancy name for his column. This one's at a loss for one. He likes the idea of "With Malice Toward None" but that's the title used by Bill Lee of the "Hartford Courant" so for now, it's "Sports Nameless." No name for his column but maybe he can make the big splash afore mentioned. It's precisely this; The Cynic's new sport's editor is PROUD OF THE EXCELLENT SPORTS RECORD OF THE UNIVERSITY OF VERMONT'S ATHLETIC TEAMS. Vermont athletes have in the past years suffered many defeats; This year's basketball team won only five out of twenty-one basketball games. Regardless of what the next year has in store for us, be it victory or defeat, we have a right to be proud of our athletic teams. If anyone can tell this writer of a school anywhere with an athletic program as unsubsidized as ours at UVM, would they let me know about it?

That's enough! - At least for the present. Our baseball club looks good. It's always tough to start playing on the Southern Trip without much practice but if we weather that well, look for a great season, maybe even the NCAA playoffs. We almost made it last year. The track team seems to be pretty well rounded with several good weight men for a change. Then, we have golf, tennis and sailing. It's going to be a busy spring for our boys who "play without pay." Our victories may be fewer than we'd like but, there's nothing sweeter than the kind we do win and we'll have our share of those.

Cat Baseball Prospects Good

Success Depends On Moundsmen

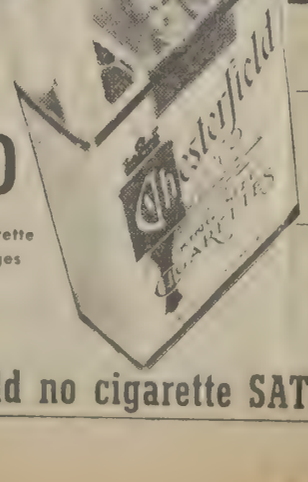
by John Lounsbury

It's the middle of March and as usual, the UVM cage is busy with baseball as from the cage the crack of bat on ball or ball hitting glove fills the air. This annual "herald" of spring has an even more authoritive ring than usual this year as Vermont as coach Ralph Lapointe has a solid nucleus of veterans around which to build this year's Vermont Baseball team. With three of last year's infield, two starting outfielders and the three man core of last year's mound staff returning, the future looks bright for the Lapointe charges.

" Baseball in the Air "

Three Starters Lost

Lost from last year's squad, which won ten of seventeen games, seven of eight in District One competition of the N.C.A.A. are Captain Ed. Rynn behind the plate, Right fielder Jerry Samuals, long ball hitting Jim Montgomery, reserve infielder Keith Spaulding, reliefer Jim Hoag and outfielder Don Maynard who transferred.



Returning to the baseball wars for the Green and Gold are slugging first baseman Joe Wark, second baseman Al McLam who led the 1954 Cats with a lusty .369 batting average, third sacker Vern Currier and two fleet, hard hitting outfielders in George Gilbert and Ed Beck. On the mound are veterans, Captain George Plender, Ronny Larrow and Lew Deitsch.

"We'll be real hard to bea this year," was coach Lapointe's first observation when approached about the coming season. "A lot depends," he observed" on how Larrow and Deitch come through. "We know what Plende can do" he went on referring t George's record of 572/3 consecutive scoreless innings which is still in process as it extends into this season. "I've got good outfield, a good infield some good pitching and sophomor catcher John Galascione behin the plate. The competition i also keen for the other unfille spots on the team's starting line up. The balance of the squa will be covered next week

For the time being, it's practic and more practice for the Cat as they prepare for the 44t annual Southern Trip during sprin vacation.

UVM Marksmen Score 1901 Pts. To Break Record

The Army ROTC rifle tean broke all previous records las week as they scored the firs 1901 in over five years agains the University of Washingto "Cookie" Soschnick, captain o the rifle team was high man wit a 384. Behind Soschnick wer Long, 380, Hicks, 380, LeBlan 379, and Hibbard, 378.

With the effort shown this pas week, Sgt. Whitehead is ver optomistic about next week' sectional match at Norwich. Dartmouth, Norwich, and UN pose as the teams to beat. Las week the local varsity lost b 20 points to UNH but the scor this week more than makes u for the difference.

16 And 3 Record

The 1901 was fired for thre postal matches against th Universities of Virginia, Temple and Idaho. Without a doubt thi gives three more wins to th ROTC team which will give the a 16-3 record. If the team continues at the present rate, it i expected by Sgt. Whitenead tha they will win the remainin matches that it has listed for th year.

The varsity also had a goo week as four of the five on th ROTC team are on the varsity Allen with a 379 score gave th varsity a 1900 score. This mar is also a record for the varsity Results of the NECRL show that UVM placed fourth with a 4- record. This is a slight improve ment over last year but with t seniors on the team, the positio will be improved.

L. Hibbard is number 10 i the NECRL standings for th year. He led the UVM team i most of their matches this yea with a very consistant 3' average.

FOR RENT - Single room available in home of private family near College campus on 239 South Prospect St.

Sophs Sponsor Hay Hop Dance Tomorrow Night

By Max G. Ansbacher

A round and square dance will be presented tomorrow night in the gym by the Sophomore Class. Named the Hay Hop, the dance will have music by the Green Mountain Boys.

Bill Solemene, co-chairman of the dance, called the Green Mountain group "one of the best square dance bands in Vermont." Muffin Knapp and Bill Nicholas will entertain the dancers with guitar playing and singing.

Broadcast From Gym

According to Solemene, the band is so good that it will be heard on the radio over WDOT directly from the gym. Knapp and Nicholas appeared on WMVT television a few days ago to advertise the affair.

Herb Russell is the other co-chairman of the dance. The doors will open at 8:00 and the admission price is 60 cents per person.

Freshman Dance Held; Called Great Success

"The lack of support by the Freshman Class as well as by the Upperclassmen did not hinder the success of the dance since a good time was had by all who attended," stated Alan Fields, Entertainment Chairman, when asked about the succees of "Caravan Cabaret" held last Saturday night in the Waterman Cafeteria.

Each year the Freshman Class has a chance to sponsor an All-University function. This year under the guidance of Mr. Brownfield, instructor of English, the students decided to hold a dance.

Entertainment was provided by members from the faculty and student body. Professor Eleanor Luse, of the Speech Department, gave a twelve-minute monologue entitled, "John and I," or, "How I Almost Lost My Husband." Mrs. Sadah Start, Assistant Professor of Music, played a violin solo by Manuel de Falla called "Jota." Steven Solomon, Class of '58, accompanied by Fields, sang "Someone to Watch Over Me," "Heather On The Hill." The band for the evening, The Arabian Knights, from St. Michael's College, entertained with a jazz concert.

SCIENCE MADE SIMPLE: NO. 2

Though this column is intended solely as a vehicle for well-tempered drollery, the makers of Philip Morris have agreed to let me use this space from time to time for a short lesson in science. They are the most decent and obliging of men, the makers of Philip Morris, as one would guess from sampling their product. Only from bounteous hearts could come such a pleasurable cigarette—so felicitously blended, so gratifying to the taste, so soothing to the psyche. And, as though bringing you the most agreeable cigarette on the market were not enough, the makers of Philip Morris have enclosed their wares in the Snap-Open Pack, an ingeniously contrived wrapping that yields up its treasure without loss of time or cuticle. And, finally, this paragon of cigarettes, wrapped in the paragon of packages, can be had in king-size or regular, as your taste dictates. Who can resist such a winning combination? Not I.

A few weeks ago in this column we had a brief lesson in chemistry. Today we take up another attractive science—medicine.

Medicine was invented in 1066 by a Greek named Hippocrates. He soon attracted around him a group of devoted disciples whom he called "doctors". The reason he called them "doctors" was that they sat around a dock all day. Some fished, some just dozed in the noonday sun. In truth, there was little else for them to do, because disease was not invented until 1492.

After that doctors became very busy, but, it must be reported, their knowledge of medicine was lamentably meagre. They knew only one treatment—a change of climate. For example, a French doctor would send all his patients to Switzerland; a Swiss doctor, on the other hand, would send all his patients to France. By 1789 the entire population of France was living in Switzerland, and vice versa. This later became known as the Black Tom Explosion.

Not until 1924 did medicine, as we know it, come into being. In that year in the little Bavarian village of Pago-Pago an elderly physician named Winko Sigafoos discovered the hot water bottle. He was, of course, burned as a witch, but his son Lydia, disguised as a linotype, smuggled the hot water bottle out of the country. He called on Florence Nightingale in London but was told by her housekeeper, with some asperity, that Miss Nightingale had died in 1910. Lydia muttered something and, disguised as a feather boa, made his way to America, where he invented the blood stream.

Medicine, as it is taught at your very own college, can be divided roughly into two classifications. There is internal medicine, which is the treatment of internes, and external medicine, which is the treatment of externes.

Diseases also fall into two broad categories—chronic and acute. Chronic disease, is of course, inflammation of the chron, which can be mighty painful, believe you me! Last summer my cousin Haskell was stricken with a chron attack while out picking up tinfoil, and it was months before the wretched boy could straighten up. In fact, even after he was cured, Haskell continued to walk around bent over double. This went on for some weeks before Dr. Caligari, the lovable old country practitioner who treats Haskell, discovered that Haskell had his pants buttoned to his vest.

Two years ago Haskell had Addison's disease. (Addison, curiously enough, had Haskell's.) Poor Haskell catches everything that comes along. Lovable old Dr. Caligari once said to him, "Son, I guess you are what they call a natural born catcher."

"The joke is on you, Doc," replied Haskell. "I am a third baseman." He thereupon fell into such a fit of giggling that the doctor had to put him under sedation, where he is to this day.

But I digress. We were discussing medicine. I have now told you all I can; the rest is up to you. Go over to your medical school and poke around. Bring popcorn and watch an operation. Fiddle with the X-ray machines. Contribute to the bone bank ... And, remember, medicine can be fun!

Borgman Sees 'GoldenRule' As GuidingPrinciple

President Carl W. Borgmann, speaking in the Ira Allen Chapel last week, told students that he saw "one great hope for mankind - that idealists everywhere proclaim basically the same ideals."

Cites Confucius

Saying that "to me the guiding principle of Christianity boils down fairly largely to the Golden Rule," Dr. Borgmann cited the same concept as the basis for Judaism, and said that Confucius preached the remarkably similar idea in his "do not do unto others what you should not want others to do unto you."

The same basic principle is found also in Buddhism's "from good must come good and from evil must come evil," and the UVM president said that from all the great religions man could find a common background for living.

"When the means to an end are considered just as important as the end itself," Dr. Borgmann concluded, "and when each of us is trying to live his ideals, then there will be real chance for the brotherhood of man to become a reality."

Students enjoying themselves at the annual Dean Hill's Sugar Party last Saturday afternoon at Underhill. Sugar on snow, doughnuts and coffee were served.

$4500 Available To Organizations

The VendingMachine Committee announced today that a total of over $4500 will be distributed to organizations on campus which apply and show sufficient need for aid.

The Vending Machine Fund includes all profits from machines operated in the dormitories and campus buildings. Last year the Committee distributed funds to start a Student Union Fund for a proposed student organization building.

April 11 Deadline

A faculty-student joint committee, the Vending Machine group will meet after the deadline of April 11, when all applying groups must have their applications in to the Student Association Vice-President.

There is no rule concerning who may or may not apply for funds, and the Committee decides among themselves who shows the greatest need.

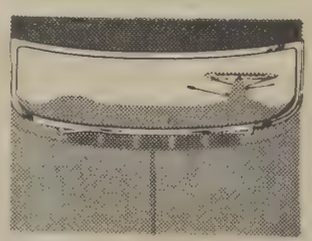
Applications may be deposited in the Student Association box in the Information Office, Waterman Building, but no entries will be accepted after Monday, April 11.

Law School Applicants; Note Bene

Three weeks remain for prospective law school applicants who plan to take the Apr. 23 Law School Admission Test at the University of Vermont to file their completed applications with the Educational Testing Service, 20 Nassau St., Princeton, N.J., according to Michael A. Conn, UVM psychometrist.

Applications must be forwarded so as to reach the Princeton office by Apr. 13.

Applications for the test together with a bulletin of information containing sample test questions may be obtained from the UVM Student Personnel Office in the Waterman Building, or directly from the Law School Admission Test at the Princeton office.

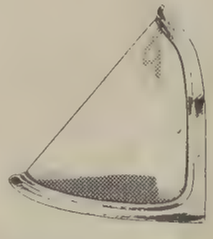


Classical Club FeaturesMar.24 Dr.Ephraim Woll

The Goodrich Classical Club will feature Dr. Ephraim Woll, Assistant Professor of Pathology at the University of Vermont Medical School and practicioner at the Mary Fletcher Hospital, as speaker at its next meeting which will be held on March 24, at 7:00 p.m. in the Vermont Lounge of the Home Economics Building. Dr. Woll will speak on the ancient history of Medicine. The meeting is open to the public

There's even more to Chevrolet styling than meets the eye!

1 *Visored headlights*



2 *Louvered High-Level air intake*

This is beauty with a bonus . . . for Chevrolet styling is designed to add safety and comfort while you drive, and to return greater value when you trade.

Truly modern lines are shaped by *usefulness*. You can see what we mean in the deep crystal curve of Chevrolet's Sweep-Sight windshield . . . a dramatic style note, certainly, but one that stems from the need for wider, safer vision. Or take high-set taillights—they add to the impressive length of line . . . but they are up where they can be *seen* for safety's sake.

The smart louvers across the hood aren't just decoration . . . they mark the intake for the High-Level ventilation system for cleaner, fresher air. And the whole shape of the body—its lowness, the dipped belt line—is merely a reflection of a lowered center of gravity, the added stability.

This is truly functional styling that serves you better every mile, and preserves its value against the distant day when you trade. This is Body by Fisher—another Chevrolet exclusive in the low-price field. Come in and let us demonstrate that this new Chevrolet is just as exciting to drive as to look at!

3 *Sweep-Sight windshield*

4 *Distinctive dip in belt line*

Frightened Femmes Flee Flash Fire!

Co-ed Records Fire Scene

By Co-Co Maloney

The alarm went off shortly after the Chapel clock had struck three. Just minutes before all had been stillness. Then, suddenly, a policeman began to blow his whistle, and loud knocking could be heard on the back door. Standing near the UVM Boulder, undergraduate men, who had been passing by, were shouting up to the windows hoping to awaken someone.

Inside, girls woke up slowly, surprised at having a fire drill early on a Sunday morning. Several rolled over in their beds and tried to get back to sleep. They stumbled around, turned on lights, grabbed housecoats, and slipped into the nearest pair of slippers. One, certain that there would be an inspection, ran to wet her washcloth.

Most of the girls within the dormitory were totally unaware that it was not an ordinary fird drill. Not bothering to find warm coats or proper shoes, they little realized that the next two hours would be spent outside in the cold.

It was a long while before people started coming out of the building. The house mother, Mrs. Moore, was standing on the lawn in front of Old Mill in her fur coat and boots. Girls stumbled out the front door in little else than short nightgowns and cotton pajamas, with slickers or light coats thrown over their shoulders. One had a dirty white sneaker on the right foot, and a loafer on the left.

A fireman ran up to the third floor to get the one girl that was left in the building. He woke her up explained the situation, and then saw her roll over and fall back to sleep. A second time he tried, but

(continued on page six)

By Marvin Mierenberg

Thirty-four UVM co-eds were forced to flee the Old Mill dormitory section early Sunday morning because of a two alarm fire. "Given another ten minutes before detection the fire could have caused complete destruction of the building," stated Captain Arthur Muir of the Burlington Fire Department.

The fire, which centered in the tower of the eighty-year-old structure, was detected by patrolman Ray C. McGee, who was passing by at about 3:00 A.M. Although the cause of the near-disaster has not been determined, the electrical laboratory technicians of the Fire Department have suggested that the heater housed in the tower could have started it. A full investigation is to take place.

The tower, which is used as a Ground Observer Corps observation post, had been abandoned several hours before the fire broke out.

Arrow indicates point of origin of Old Mill Fire.
- Photo by Haviland.

Scantily-clad coeds

The girls who were roused out of their beds by the fire alarm bells didn't leave the building, at first thinking that this was a surprise fire drill. For about an hour, while five fire department vehicles subdued the flames, the girls huddled at a safe distance clad only in their pajamas and slickers.

"The fire department did surprisingly little water damage to the building, considering that they were completely unaware of the Old Mill's layout," said State Fire Marshal Chester Kirby. The Fire Marshal will issue an order in the near future that some method of escape be constructed from the Ground Observer post to the ground in case of a repetition of Sunday's incident.

Fire Captain Muir stated in a special CYNIC interview that the Old Mill " is not a safe building for people to live in. The interior is composed largely of old dry wood which would have gone up like tinder if it had had a chance to." The State Fire Marshal has said that he may order repairs or vacating of the building.

Frank Thurston Voted SCA Head

By Shirley O'Neill

Frank Thurston, '56, was chosen president of the Student Christian Association in a recent election. The newly-elected officers also include: George Hall, '56, who was reelected vice-president; Eleanor May, '57, secretary; and Glenn Dewey, '57, treasurer. All took up their duties immediately.

Appointments of the three main commission heads have already been made by President Thurstan. They include: Suzanne Irons, '57, head of the Faith and Worship Commission; Marilyn Bolton, '57, Chairman of the Social Action Commission; and Janet Pearlstein, '57, head of Campus Affairs.

Lilla Ross '58, has been appointed Chairman of the Deputations Committee. Appointments of other committee heads will be made in the near future.

Texts For Vietnam

Approximately 200 textbooks and reference books were recently collected by the Student Christian Association for University students in Vietnam. The drive was staged as a part of Way Books for Vietnam ", a national campaign sponsored by the Young Adult Council to establish a University library for refugee students from the University of Hanoi, now located in Saigon, South Vietnam.

Tighter Finance Policy Outlined By S.A. Treasurer

The new and stricter financial policy adopted by Student Association last week was presented by SA treasurer Carl Brown to the treasurers of all campus organization at a meeting Monday.

The former procedure whereby the Student Association Council appropriated funds for campus organizations upon the recommendation of the Finance Committee has been somewhat altered. For example, student publications will now submit their budgets to the Joint Publications Board, and religious organizations will submit theirs to the Religious Activities Committee. The budgets will be thrashed out in these larger committees, and the final drafts will then be submitted to the SA Council for approval. In this way, the Council can devote its time to other affairs, although it still possesses the final word on all financial matters.

In addition, bi-monthly financial reports will be published in the CYNIC, a practice required by the constitution of Student Association, but which has not been followed in recent years.

Organization treasurers were reminded that April 15 is the final date for the submission of budgets; none will be accepted after that time.

Kake Walk Fund Requests To Be In By April 22

The Kake Walk Disposition Committee for 1955 announces that it is ready to receive requests from student groups for Kake Walk funds. Any student group or organization is eligible to petition for funds. All requests should be written with the desired amounts included. These requests are to be sent to John Manning, Chairman of the Kake Walk Disposition Committee. The deadline is April 22.

Skapski Tells Dewey Club "Must Understand In Depth"

"In general, European Universities separate the humanities from technology. On the other hand, the American institutions combine them. Personally, I prefer the latter," Professor Adam Skapski told a John Dewey Club audience last week.

The Polish-born and educated UVM professor of physics spoke before one hundred students and faculty on "Education Elsewhere; Philosophies of Education in European and American Higher Education."

A university must create the possibility "for men to understand that no special range of human activity is more basic than any other," Skapski stated. He told the group that specialization is needed in this day and age. "The time of the encyclopedia is over. We must understand in depth a given field. But at the same time we must give the specialist a general education."

Should Rub Shoulders

Professor Skapski preferred the system which combines the technological and humanitarian aspects. "Perhaps this is because I am half, or more than half, a humanist. But it should not only be the sciences which mix with the humanities. The humanities should rub shoulders with the sciences," he explained.

In sketching the historical background of European Universities, Skapski suggested that all institutions have had their "ups and downs."

" Perhaps, being a scientist, my view is biased," the physics professor advanced," but they seem to have doen better when they were devoted to science."

All Power In Faculty

The European institutions have maintained many of their medieval characteristics. The president, or rectors, are figureheads; all their powers are derived from the Senate, which is composed of the deans of the faculties. In turn, the deans derive their powers solely from the professors of the faculty. The faculty elect the deans, and therefore they have no powers except these derived specifically from the faculty.

For Scholars or People?

In contrasting European and American systems, Skapski explained the difference in the conferring of degrees. The European degree is granted by the faculty. In America, the Board of Trustees confer the degrees.

"We see a contrast between a university by the scholars, for thd scholars and universities by the people, for the people."

The Vermont professor also explained the preparation of European students for college. The last two years of high school (gymnasium) are roughly equivalent to the first two in American Colleges. In actuality, the European University is equivalent to American graduate education.

The Walls of Harvard

However, even with the superior preparation of the European student, the professors considered his preparation inadequate. "It

(continued on page six)

Student Court Sentences Two For Cheating

The University of Vermont Student Court last week found two students guilty of one count and not guilty on a second in a court room jam-packed with students interested in the outcome.

The trial involved two UVM seniors accused of cheating in an examination administered by the Army ROTC Military Department.

The two defendants pleaded "guilty " to a charge of communicating during the examination, but "not guilty" to a charge of giving and receiving assistance.

The Student Court found the pair "not guilty " to the second charge. A zero in the quiz concerned, plus a court warning, were the penalties imposed for the illegal communication.

Fred Hackett was the prosecuting attorney for the court. Herzl Spiro served as defense attorney.

Colonel W.E. Cox, chairman of the Military Department, informed the CYNIC that the two Students have, by their actions, disqualified themselves from commission. "They are no longer attending classes ", he said.

USNSA Announces Opening Of Contest For IR Seminar

Students will use the facilities of the Harvard University Summer School for all living accomodations and do research in the Harvard Libraries and in the files of the USNSA International Commission.

The last two weeks of the program will be spent at the Eighth National Student Congress of USNSA, to be held August 21-31 at the University of Minnesota. Participants will meet over fifty representatives of foreign student organizations and eight hundred American student delegates at the Congress.

Application forms and posters announcing the program have been sent to deans, student government presidents, and the chairmen of the government departments at member colleges. Applicants should be able to demonstrate interest in international relations and in student activities, as well as personal qualifications which will make them good representatives of American students at international student meetings. Previous experience in USNSA is not necessary but knowledge of one particular geographical area or of one or more foreign languages will weigh in the applicant's favor.

Deadline for applications and supporting materials is May 1, 1955. The selection committee, headed by Kenneth Holland, president of the Institute of International Education, will announce its decisions on May 20, 1955.

The International Commission of the United States National Student Association announces the opening of competition for the third International Student Relations Seminar to be held in Cambridge, Mass., and Minneapolis, Minn., from July 11 to August 31, 1955.

The program, initiated in the summer of 1953, is designed to provide students with specialized knowledge of the field of international relations as it affects student life. It aims to train a cadre of individuals capable of representing the Association overseas, and of conducting USNSA's international program on the member campuses.

All students at USNSA member schools are eligible to compete. Those selected will receive scholarships covering all expenses, including room, board, tuition, and transportation.

The first part of the program, at the International Office of USNSA in Cambridge, Mass., consists of five weeks of seminars and lectures by leaders in the academic and student worlds, with special attention to policy and programming problems currently facing the U.S. National Student Association in its relations with other student organizations in other countries, and with international student movements. Speakers at past Seminars have included prominent professors from Harvard, Yale, Princeton, and Howard Universities, and leaders from the world of labor, youth and the daily and periodical press.

Look for the Centaur!
Out Friday!

Vt. Conference Announced

The topic of the annual Vermont Conference, which will convene this year in the Ira Allen Chapel on Thursday, April 21st is, "The University Student--Educated for What?"

This topic will be discussed by the leading personalities of the country in the fields of industry, education, government, and politics.

Stowe, volunteered to speak at UVM without charge, suggesting that a small admission might be made with proceeds to benefit some worthy fund.

Lowell Thomas Speaks Tonight

Lowell Thomas, internationally known traveler, author, lecturer and radio commentator, will speak in the Ira Allen Chapel at the University of Vermont tonight at 8:30 with proceeds to benefit the United States Olympic fund.

Thomas, who is currently visiting at Stowe, with his evening national newscast broadcast emanating from

His talk here will be sponsored by the local chapter of Kappa Sigma fraternity. Tickets will be available at the door.

Contest For New Alma Mater Will Be Held By Pep Comm.

By Mickey & Monk

Don't you think that UVM needs a new Alma Mater? Our present one praises "lovely Lake Champlain," but it says not one word about the University of Vermont, of which it is supposed to be the melodious symbol. The Pep Committee has discussed this problem all year, and they have finally decided to hold an Alma Mater Contest. The campaign for this contest began in the March 10th issue of the CYNIC.

Rules And Awards

The rules are very simple and few in number. New lyrics to the present Alma Mater are acceptable, or lyrics to another tune could also be submitted. There is also an opportunity for future musical geniuses to write new music and lyrics. Each entry should be placed in the Pep Committee box in the Information Office by April 11, when the contest closes. On April 18, all entries will be judged by two music professors and two music students. The award, consisting of a trophy and a plaque in the Memorial Lounge, will be presented at the IFC Sing on April 23, when the band will play the new Alma Mater.

This contest could be a great success, but not without your help. Let's all get to work over Spring Vacation and turn in entries for the contest.

Mrs. Lane Dies Gave Grant For Artist Series

Mrs. Nellie S. Lane of Minneapolis, Minnesota, who last year gave the University of Vermont a gift of over $300,000 to establish the George Bishop Lane Artists Series, died last week in Minneapolis. She was 92 years of age.

Mrs. Lane's gift to the

A Campus-to-Career Case History

"This is what I did yesterday"

"I like a job that keeps me jumping," says Bill Jermain, C.E. from Marquette, '52. "And my first management assignment with Wisconsin Telephone Company does just that. I'm Service Foreman at Sheboygan, with nine installers, and that means variety of responsibility. But judge for yourself. Here's a quick run-down of what I did yesterday, on a typical day—

8:10—"Checked day's work schedule: One of my new men was putting in a buried service wire, and I went over the job specs with him to be sure he had things straight.

8:30—"Answered mail while my clerk checked time sheets from previous day.

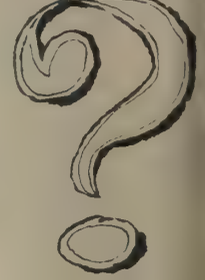
9:30—"Out to supervise installation of the first aluminum Outdoor Telephone Booth in my exchange. Reviewed the assembly instructions with the installers, then arranged for special tools and bolts to be delivered to the job.

11:30—"Drove across town. Made a complete 'quality inspection' on a telephone we installed last week. Everything checked O.K.

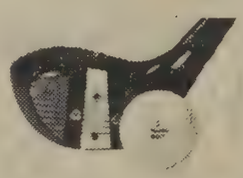
12:00—"Lunch.

1:00—"Picked up film for next day's safety meeting. Watched the film, made notes for discussion.

2:00—"Met with moving company manager to estimate cost of telephone cable lifting for a house moving job. Drove the route he had planned and worked out schedule for construction crews.



3:30—"Returned to aluminum booth installation. Went over wiring specs with the electrician.



4:00—"Stopped at Central Office to pick up next day's orders. Met installers at garage as they checked in and assigned next day's work."

Bill has been in his present job about a year, and is looking forward to new responsibilities as his experience increases . . . as are the many young college men who have chosen telephone careers. If you'd be interested in a similar opportunity with a Bell telephone company . . . or with Bell Telephone Laboratories, Western Electric or Sandia Corporation . . . see your Placement Officer for full details.

BELL TELEPHONE SYSTEM

WHO ARE THE "TOP-FLITE" GOLFERS ON YOUR CAMPUS?

If you've watched them on the course, you've probably thought: "Boy, if I could just get my game down like *that!*"

Constant practice is the answer, of course, but getting the best from your equipment is just as important, too.

That's where Spalding TOP-FLITE' clubs have the edge. They have *more to offer* in precision balance that gives an *absolutely uniform swing-feel* with every club in the matched set.

That's the secret of Spalding SYNCHRO-DYNED® clubs. And, it will pay off for you from the first round. You'll make the same shots with new uniformity. The perfect balance of these clubs lets you swing *through* the ball with confidence. *Without* "choking-up" or "compensating." You get the ball away cleaner, longer, and with more shot control.

These are the clubs that have *lowered handicaps by as much as* ½: Spalding SYNCHRO-DYNED TOP-FLITE clubs. Your Golf pro has them now. And, now's the time for *you* to start playing better golf.

UVM Senior ROTC Students Appointed To Various Posts In Armed Services

Army

By Shirley O'Neill

Forty-two senior ROTC students at the University of Vermont have been appointed by the Department of the Army to serve in seven different branches of the Army. A new plan has been inaugurated which permits the students to list the five branches of the Army in which they prefer to serve.

The Army Department decision places thirteen seniors in Artillery, eight in Infantry, seven in Armor, eight in the Signal Corps, three in the Corps of Engineers, two in the Quartermaster Corps, and one in Military Intelligence.

Commissioned Students

Students who will be commissioned second lieutenants in June include:

Armor: Robert J. Crawford, Evanston, Ill.; John E. Hubbard, Franklin; Peter B. Kenyon, Rochester, N.Y.; Peter D. Louderback, Bay Shore, N.Y.; Jerome H. Meyers, Bronx, N.Y.

Artillery: Benjamin G. Aibel, New York City; Lewis J. Blair, Brooklyn, N.Y.; William E. Balfrey, Grosse Pointe, Mich.; Carleton M. Brown, West Wardsboro; George D. Ewins, West Berkshire; Peter J. Idleman, Wayne, Pa.; Bernard Roth, New York City; Paul S. Vogel, Flushing, N.Y.

Infantry: William S. Battles, Rutland; Harmon S. Graves, Burlington; Robert J. Katz, Nyack, N.Y.; Christian J. Zwirner, Briarcliff Manor, N.Y.

Signal Corps: Gareth M. Fay, Proctor; Hal Greenlaer, Flushing, N.Y.; Donald K. Josselyn, South Burlington; Francis L. Maccini, Wellesley, Mass.; Warren W. Ullrich, Tenafly, N.J.; Anthony L. Vydra, Rockville, Md.; Ronald P. Ward, Burlington.

Also Fred G. Smith, Rutland, and Robert C. Stetson, Springfield, Mass., both Quartermaster Corps; Frederick T. Cioffi, Rochester, N.Y., Military Intelligence; and Ernest J. Tesconi, Rutland, Corps of Engineers.

Students who will be commissioned following completion of further ROTC training include:

Armor: John A. McLennan, Belmont, Mass.; Albert F. Stevens, Essex Junction.

Artillery: Robert B. Abell, Burlington; Lambert J. Aske, Shelburne; William A. Frappier, Rutland; Curtis Raymond, Delmar, N.Y.; Joseph F. Weedel, Midland Park, N.J.

Infantry: James F. Cronin, Brant Lake, N.Y.; Clement A. Forte, Fair Haven; Richard M. Hooker, Burlington; Roger O. Wells, Proctorsville.

Also Richard W. Cowles, Bloomfield, Conn., and Walter P. Tokarz, Jefferson, Mass., both Corps of Engineers; and Rocco V. Scotese, Montclair, N.J., Signal Corps.

Air Force

Twenty-six senior advanced Air Force ROTC cadets at UVM have been accepted for flying training school and have been awarded the Flight Training Badge, a silver-half-wing sprouting from a silver star. The badge is worn over the left breast pocket of the cadet uniform.

The 26 students will begin flight training upon graduation from UVM this June when they will be commissioned in the Air Force.

The students are Edward Nemer, Lewiston, N.Y.; Robert Hylton, Manhasset, N.Y.; George Bardis, Brattleboro; Gerald Olson, Ossining, N.Y.; George Plender, Tenafly, N.J.; Lowell Carpenter, Peru, N.Y.; and Richard Russell, Waterbury; all cadet lieutenant colonels.

Also Richard Wood, Brandon; Vernon Currier, Island Pond; Sam Cutting, Nichols, Conn.; Ronald Doornbosch, Rochelle Park, N.J.; Keith Jampolis, Brooklyn, N.Y.; Karl Haviland, Red Bank, N.J.; Bernard Levy, New York City; all cadet majors.

Also James Johnson, Portland, Me.; Marshall Kroot, Portland, Me.; Thomas Leonard, Greenwich, Conn.; Clinton Thompson, Cleveland, O.; Willard Tresler, South Hero; all cadet captains.

Also Robert J. Hamilton, Wyckoff, N.J.; Ronald Larrow, South Hero; John Lear, Orange, N.J.; Henry Schwartz, Hollis-wood, N.Y.; and Michael Semans, Dorchester, Mass.; all cadet first lieutenants; and Lawrence Epstein, Mt. Vernon, N.Y.; and William Steadman, Lincoln; both cadet second lieutenants.

Ten Minutes To Tradgedy

What almost developed into a major tragedy last Sunday morning could have been avoided by the construction of the proposed new modern living facilities. What is holding up this program? At the present moment a bill, introduced by Rep. Davis, of Newport, would guarantee the State bonding a University loan. This would permit the lending bank to feel more secure, and therefore lend with a lower interest rate. This is important, for the lower the rate, the lower the cost of room rent to the residing student.

What is important is speed. We sincerely hope that the Legislature realizes the importance of this matter, and will take rapid action. After all, the bill will not cost the state one penny. All they are doing is guaranteeing that the loan will be paid back. They are merely acting as bonding agents.

The money in question is $1,800,000. This will go to a general building program in which top priority will go to closing East Hall and turning the whole of the Old Mill over to classrooms A new 400 person dorm is planned for Redstone Campus, and it would be adequate for the women students who are now residing in scattered places on the campus and in town.

Converse Hall could, for example, then be turned over to men students, and to some married faculty members.

President Borgmann has called the bonding question "the key to our whole building program." It cannot be overemphasized how urgent the need is.

True we need a new library, a new gym, and even a student union building. But all this must be secondary when the lives and welfare of our students is at stake.

Therefore, we earnestly urge that the bill will be speedily passed so construction work can start on this vital project as soon as possible.

Civil Liberties

Last Sunday it was our priviledge to hear Prof. Lyman J. Gould, of the Political Science Department, speak on the topic of Civil Liberties, Speaking as guest of honor at the Hillel Brunch, Prof. Gould took that opportunity to expound his beliefs on the subject of freedom of expression. In these times all students could have gained by the import of his message.

As we listened to Prof. Gould declare that we should respect even the most noxious doctrine if we are to become true civil libertarians, we looked around at our campus life and noted how ready we are to condemn the other fellow without letting him expound his own beliefs.

What Mr. Gould stated was meant for the National Level. But it can easily be applied to fit our local school conditions. He felt that the best way to fight an idea is to tb counter with another plan. If you surpress a man's ideas he will never agree with you; if you hold an open discussion, the best plan will win out.

We heard Mr. Gould state that "academic freedom should permit any statement without fear of punishment or discipline."

This had recently been demonstrated in the Aldridge dispute. Some heat was generated but all parties were able to express their true beliefs and their true feelings. All were able to speak freely through the CYNIC; and elsewhere none of the views were slanted to give any particular interpretation.

The student body freely engaged in the controversy, and expressed its opinions in a lively and intelligent manner.

What Prof. Aldridge said may have been a "noxious doctrine" to some, but what is important to us is not what he said, but that he was able and willing to say it in the open.

It is through just such a freedom and interplay of ideas that Prof. Gould's concepts of civil liberties will be strengthened and passed along.

Letter to the editor

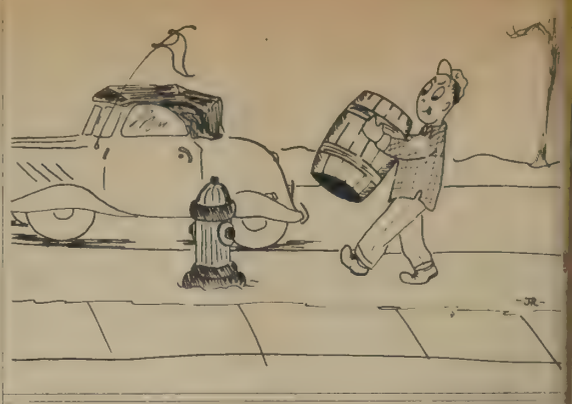
To the Editor of the CYNIC: -

After almost four semesters of survey and poll taking, we have finally finished our work and are ready to make known our findings. We, a committee of two, have discovered why discriminating UVM & SAC students prefer such places as The Mill, Sugar House, The Pump Room of the Huntington, and other local night spots. The reason we have found to be most true is that they are the only logical places nearby which are open after 10:45 p.m. and suitable for for study.

On campus, the students of this institution have but three places to study nightly discounting their own rooms. We further find that (1) Hills Hall closes at 10 P.M. (2) the library at 10 P.M. (3) Waterman at 10:45 P.M. and(4) The Mill at midnight.

If the administration is aware of these facts, as they are aware of other study habits, perhaps they are flattering the students by believing them to be finished with their work at such an early hour? Perhaps they are just overlooking the whole situation? It has been called to our attention that various schools of higher knowledge keep their libraries and study rooms open to eleven and twelve o'clock nightly. What about UVM (& SAC)?

Until a solution is found, we pollisters, along with the other discriminating members of the student body, will just be forced to take our books and study at such places as mentioned above.



Bob Wolfe
"Alfy Poining"

Vt. Legislature Visited Monday By Students

A delegation of foreign students studying at UVM attended a meeting of the Vermong Legislature on Monday evening from 8 to 10.

"The trip was designed to help the student guests from abroad become better acquainted with the Vermont form of government" said Donald Hardy, advisor to foreign students, who with Mrs. Martha Buttrick of the Burlington YWCA, led the visiting delegation.

After attending the evening session, the students met briefly with Legislative leaders.

In defense of derangement

By Gary Wright

In my business, one has to be careful. Two have to be twice as careful, but that is immaterial. I'm a private ear. My father was an eye, ear, nose, and throat man, but I specialized. One has to.

February eighth; Malenkov resigned, and no lights in Waterman. I was called in. Actually, I only came in to get warm, but that's the way it goes. Was it a revolution? Walpagus Day? They didn't pay their light bill? I thought I had the answer. Heat wave.

At eight-thirty that morning, I found Waterman right where it has always been. A curious fact when you consider that Billings has moved nearly six-tenths of an inch in the last fifty years. Upon entering, I found my first clue (or, for those who prefer it; clew). This was a wet footprint. Someone had been there before me. There were no prints leading out. I had him trapped.

At this point, one has to be careful. I checked my repeating pencil. It was loaded. Drawing up my collar, I started down the stairs. It was dark. (in my business, one has to be observant). I turned around and came back. One has to be careful, too. The building was deathly quiet. Perhaps I was too early.

I gathered my courage and hoisted it down the stairs before me. It was darker than the inside of an unopened beer can. This was it. This was the lower hall. My courage bolted back up the stairs.

"Coward," I sneered.

Flattening myself against the cigarette machine, I moved steathly to one sid Two figures and a cand appeared at the far end the hall.

"You jest," exclaim one, recoiling a few pace "But let us proceed the Amontillado."

"Be it so," said th other.

They turned into what believed to be the co room. The light faded. Som thing strange was in th air. Fresh coffee, that w it. I made my way careful in the direction of th cafeteria. After falli gently down the steps, was more careful. There we dim lights in the distan and I started toward the my pencil in readiness.

Then, a scream;

"For the love of Goo 'ontresor!"

Someone was in trouble a trouble is my business. (o has to be careful wit trouble) I raced in the d rection of the coat roo heedless of the darkness It was quiet when I arrive Too quiet. Dark, too

"Fortunato," I called.

No answer.

I crouched, dashed i side, and huddled by th wall. There was a nois close by. I stood up and bomb went off behind m eyes. I had smashed my sku on a shelf. A groan sound and I touched somethi warm. Striking a match, offered it a light. A m was hanging from a nail h his coat. That was all needed. I passed out.

Someone had simply hu up the wrong coat. Nev could figure out what th pile of bones was for thoug Probably someone left ov from enrollment. In pa requiescat!

Grants Given To Bond An Torch For Zoo. Researc

Grants were recently allocated to two members of the Zoology Department for study and research.

Assistant Professor Charles Bond will take a leave of absence for one year in order to complete his Ph. D. requirements at Cornell University. Under the terms of his Danforth Foundation award, he will receive full salary, tuition, and fees in graduate school. He is one of fifty-one recipients in this newly inaugurated series of grants which are being awarded to younger faculty members of accredited colleges across the country. His research will deal with the physiology of reproduction. Preceding the year of research, Mr. and Mrs. Bond will spend a week at a summer camp in Michigan where he and the other Ph.D candidates will discuss the moral and the spiritual values of education in and out of the classroom.

Grant to Torch

The National Cancer Inst tute of the Public Heal Service has awarded a r search grant of $7,145.00 Dr. Reuben Torch, instruct in zoology. Dr. Torch wi attempt to establish ba teria-free cultures of t giant amoeba and to isola pure fractions of the cel by subjecting them to centr fugal forces. He then pla to inject the pure fractio into amoeba that have be subjected to lethal doses x-irradiation. Previou experimentation indicat that cytiplasm, when inject into the treated organism will effect their comple recovery. The purpose Dr. Torch's research is try to find the cell fracti most responsible for th recovery.

Pres. Borgmann Announces Recent Award Of Degrees

By Shirley O'Neill

Seventeen bachelors degrees and three master degrees have been awarded to University of Vermont students, according to a recent announcement made by President Carl W. Borgmann.

In the College of Arts and Sciences, eight students were awarded Bachelor of Arts degrees: Michael C. Duban, Jamaica, N.Y.; Joanne Haigis, Burlington; Donald C. Henderson, Burlington; Frank Lucarelli, Schenectady, N.Y.; William A. Olden, New Bedford, Mass.; Daniel C. Pease, Jr., Meriden, Conn.; Joseph H. Plante, Massena, N.Y.; and William Y. Wong, Montpelier.

Agriculture

Three students received a Bachelor of Science in agriculture from the College of Agriculture. They were Paul W. Bohne, Burlington; Clement P. Nadeau, Highgate Center; and Richard A. Neis, Kirkville, N.Y.

Awarded the Bachelor of Science in commerce and economics from the College of Technology were Harold C. Avery, Jr., Burlington; Wilfred E. Dewey, Reading, Mass.; Cyril F. Greene, Jr., Montpelier; and Norman M. Hayes, East Chatham, N.Y. A Bachelor of Science degree in medical technology was awarded to James M. Perkins, Burlington.

Barbara A. Erickson of Pembroke, Mass., received a Bachelor of Science in education from the College of Education and Nursing.

Masters

In addition, three Masters degrees have been awarded. Burton A. Sisco of Burlington, received a Master of Arts in teaching. Robert C. Allen, also of Burlington, was awarded a Master of Science in bacteriology. His thesis was entitled: "A Study of Interference Between Animal Viruses". Awarded a Master of Science in biochemistry was Christina E. Schweiker, Schenectady, N.Y. Her thesis was entitled: "Effects of Prolonged Massive Administration of Ascorbic Acid to the Guinea Pig."

Nu Beta Pi Held Smoker Friday

Nu Beta Pi, the engineering fraternity held a smoker in the Waterman coffee shop last Friday night. It was attended by over 100 engineering students.

The president of the fraternity, Nelson Stiles, presented the award for top engineering scholarship in the freshman class to Glen Dewey, enrolled in Mechanical Engineering.

New initiates, elected for outstanding scholastic and character achievement, included Roland Dye and Paul Low.

Engineering professors presented a short program which was thoroughly enjoyed by those attending. Also presented skits were the various engineering departments, including: Chemical Engineering, Mechanical Engineering, and Agricultural Engineering. The program was concluded by entertainment by a magician.

Dave Brubeck Attracted Many St Patrick's Day

The sweet strains of the Dave Brubeck Quartet were enough to attract over twenty-five UVM students across the lake to Plattsburg, last Thursday. UVM's jazz enthusiasts were "carried away" via Rousses's Point, a trip of more than eighty-five miles, to hear the renowned foursome play a few cool tunes.

A roar went up from the Burlington nomads when Brubeck slid into a few bars of "Moonlight In Vermont."

Cats Attending

Crazy Catamounts attending the jazz concert at the Plattsburg State Teachers' College Auditorium were: Lew Lubar, Roy Williams, Lou Reiche, Dick Lewis, Steve Smith, Steve Taub, Mike Princer, Marty Cohen, Mark Bernstein, Jim Kantor, Dick Rosen, Jerry Cutler, Dick Albert, Phil Snyder, Al Block, Dick Bregstein, George Rood, Jim Lancaster, "Rocky" Bianca, Ed Crane, Bernie Sussman, Lee Freeman, Al Resnick, Steve Ifshin, and Dave Klein. UVM transfer, Tiny Brown, was also seen in the audience.

"Smith" Movie Presented Sat. At Fleming

Two showings of "Mr. Smith Goes to Washington", a motion picture sponsored by the Kake Walk Disposition Committee, were presented on Saturday, March 19, at the Fleming Museum.

The theme of the picture concerned a newly-elected young idealist who went to Washington to assume the post of United States Senator. Upon contact with a corrupt political machine, Mr. Smith went through a period of disillusionment. With the help of his secretary, he succeeded both in dislodging the machine and in bringing to his post a newly-found experience and maturity.

Near-capacity audiences at both showings applauded the acting of a top-flight cast which included: James Stewart, Jean Arthur, Edward Arnold, Claude Raines, and Thomas Mitchell.

On Campus with Max Shulman
(Author of "Barefoot Boy With Cheek," etc.)

I'VE GOT NEWS FOR YOU

It is my earnest hope that an occasional column of mine has pleased you enough to make you want to clip it out and keep it. But I'm sure that being preoccupied with more important things—like getting down to breakfast before your room-mate eats all the marmalade—the impulse has passed and been forgotten.

So I am pleased now to report that the makers of Philip Morris Cigarettes, bless their corporate hearts, have published a booklet called **MAX SHULMAN REVISITED,** which contains six of my favorite columns, along with some brand new material, all of this profusely illustrated—all of this available to you gratis when you buy a couple of packs of Philip Morris at your favorite tobacco counter on or near your campus.

But this is not the only news I've got for you today. Following you will find a roundup of news highlights from campuses the country over.

Southern Reserve University

Dr. Willard Hale Sigafoos, head of the department of anthropology at Southern Reserve University and internationally known as an authority on primitive peoples, returned yesterday from a four year scientific expedition to the headwaters of the Amazon River. Among the many interesting mementos of his journey is his own head, shrunk to the size of a kumquat. He refused to reveal how his head shrinking was accomplished. "That's for me to know and you to find out," he said with a tiny, but saucy grin.

Northern Reserve University

Dr. Mandrill Gibbon, head of the department of zoology at Northern Reserve University and known to young and old for his work on primates, announced yesterday that he had received a grant of $80,000,000 for a twelve year study to determine precisely how much fun there is in a barrel of monkeys.

Whatever the results of Dr. Gibbon's researches, this much is already known: what's *more* fun that a barrel of monkeys is a pack of Philip Morris. There's zest and cheer in every puff, delight in every draw, content and well-being in every fleecy, flavorful cloudlet. And, what's more, this merriest of cigarettes, king-size and regular, comes in the exclusive Philip Morris Snap-Open pack. A gentle tug on the tab and the package pops obligingly open. A gentle push on the open pack and it silently folds itself back, sealing in the savory vintage tobacco until you are ready to smoke again.

Eastern Reserve University

The annual meeting of the American Philological Institute, held last week at Eastern Reserve University, was enlivened by the reading of two divergent monographs concerning the origins of early Gothic "runes," as letters of primitive alphabets are called.

Dr. Tristram Lathrop Spleen, famed far and wide as the discoverer of the High German Consonant Shift, read a paper in which he traced the origins of the Old Wendish rune "pt" (pronounced "krahtz") to the middle Lettic rune "gr" (pronounced "albert"). On the other hand, Dr. Richard Cummerbund Twonkey, who, as the whole world knows, translated *The Pajama Game* into Middle High Bactrian, contended in his paper that the Old Wendish rune "pt" derives from the Low Erse rune "mf" (pronounced "gr").

Well, sir, the discussion grew so heated that Dr. Twonkey finally asked Dr. Spleen if he would like to step into the gymnasium and put on the gloves. Dr. Spleen accepted the challenge promptly, but the contest was never held because there were no gloves in the gymnasium that would fit Dr. Twonkey.

(The reader is doubtless finding this hard to believe as Eastern Reserve University is celebrated the length and breadth of the land for the size of its glove collection. However, the reader is asked to remember that Dr. Twonkey has extraordinarily small hands and arms. In fact, he spent the last war working in a small arms plant, where he received two Navy "E" Awards and was widely hailed as a "manly little chap.")

© Max Shulman, 1955

The makers of PHILIP MORRIS, sponsors of this column, urge you to get to your tobacco store soon for your copy of MAX SHULMAN REVISITED. The supply is limited.

Gregg & Little Offer Lectures After Recess

Two additional open lectures will be offered after the recess, the Senate Curriculum Committee has announced one in political science and one in chemistry.

The first is scheduled for April 5 in Room 117 of the Old Mill where, at 4 p.m., George Little will discuss the "International Secretariat". This is the fourth lecture in an intra-departmental seminar on Popular Government.

The second open lecture will be on April 14 by D.C. Gregg concerning "The Role of Light in Certain Chemical Transformations". Students may attend either the 8 a.m. or 11 a.m. lecture in Room 208 of the Williams Science Hall.

As these opportunities will transpire so soon after spring recess, it is suggested that particular note be made of the dates.

WCAX To Record Concert Series By UVM Band

The University of Vermont band will broadcast a half-hour recorded concert series over radio station WCAX every two weeks this spring.

Under the direction of Dr. Joseph Lechnyr, the band has already taped two recordings. The first, taped on March 10, includes a speech by President Carl W. Borgmann and a rendition of the program's theme song, "Vermont Victorious." The program also includes such offerings as "Turkey in the Straw", "Siboney", "Joshua Fit de Battle of Jericho", and Wagner's "Under the Double Eagle."

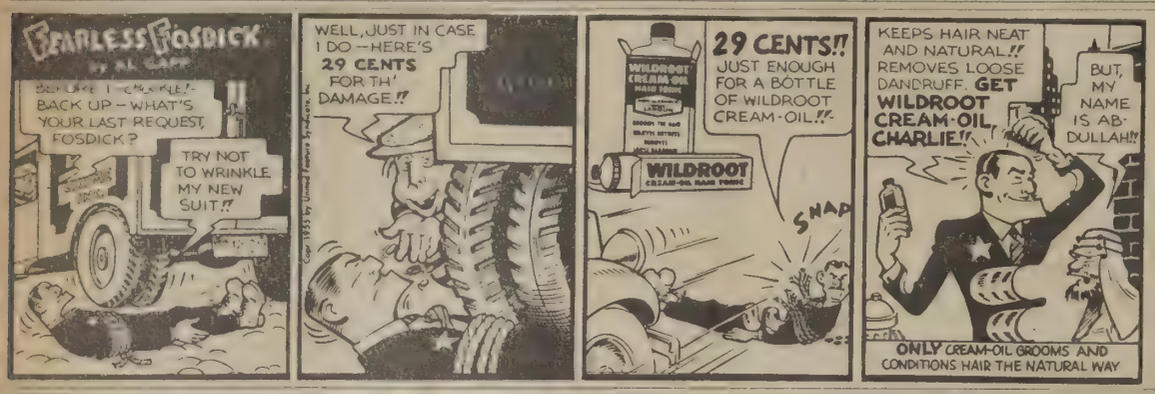
The actual broadcast dates have not been released.

Old Mill

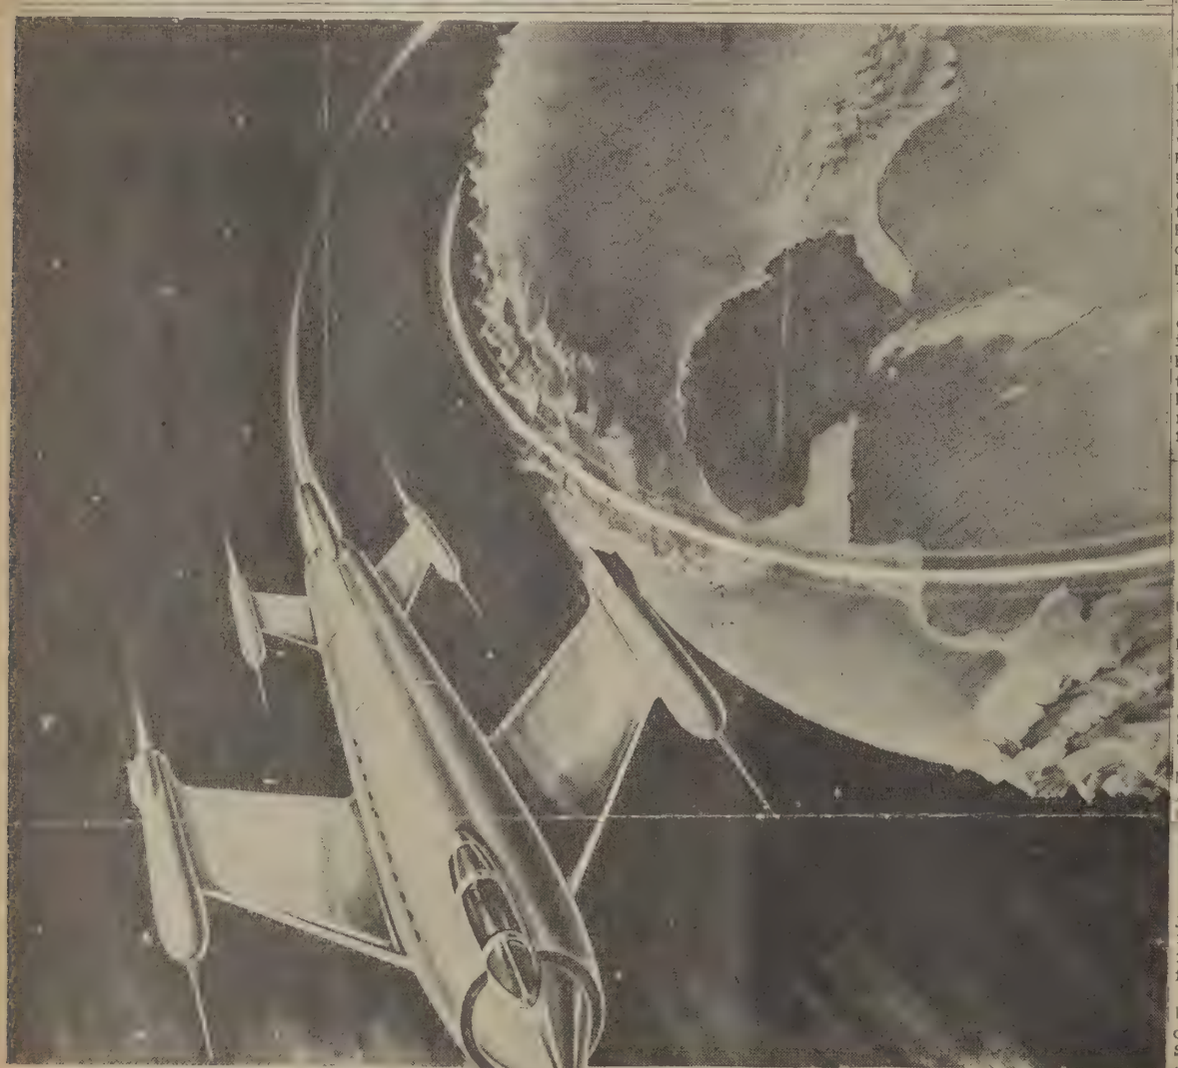
(continued from page one)

only got a mumble out of her. Finally, after an unbelieving stare, she threw on a coat and dashed down-

on a coat and dashed down-



stairs.



One policeman, who had gone inside to make sure that everyone was out of the building, came back looking baffled and utterly confounded. He walked up to one of the girls. "I went into one compartment, then into another compartment, and I couldn't even find my way out of the darn place."

For over two hours and thirty five minutes people stood out on the front lawn of Old Mill, wondering whether or not the place was going to burn down. The girls took shifts sitting in the police cars to keep warm. On the sidewalk a couple of fellows took turns putting their arms around girls to keep them warm. It was a peculiar, yet a funny sight. Women at one of the rare moments in life when they find themselves without makeup, towels thrown around their pin-curled hair, their hands getting chapped from the cold-pinning all their fear to one small tower which looms above the Old Mill.

There was a mixture of feelings in the minds of these individual.. Some thought of all the things they owned that were still in the building...Others thought of the effects this would have on President Borgmann's new building program. No doubt some didn't care if by morning the building wasn't there. But everyone was thinking of the importance of those people who first noticed the fire.

One, sitting in a police car had no particular feeling on the subject for she had all she needed with her: two small jeweled pins on her nightgown; one a sorority pin, the other a fraternity pin...

Atomic Globe Circling

. . . will become a reality during your engineering career.

When that day comes, you may be certain our engineers will have played a major role in developing the nuclear engines that will make such flights possible.

Solving tough problems like this has made Pratt & Whitney Aircraft the world's foremost designer and builder of aircraft engines. This is the reason why it is first-choice of so many forward-looking technical graduates.

PRATT & WHITNEY AIRCRAFT
DIVISION OF UNITED AIRCRAFT CORPORATION
EAST HARTFORD 8, CONNECTICUT

Lane

(continued from page two)

University was in memory of her late husband, George Bishop Lane, who graduated from UVM in 1883.

Mrs. Lane was the foster daughter of Dean and Mrs. V.G. Barbour of Burlington. She is survived by a foster son, Lewis W. Barbour of Minneapolis, three grandsons, and two great grandsons.

Skapski

(continued from page one)

just goes to show," Skapski interjected, "that professors can never be satisfied."

American students seem to be impressed by the walls of such schools as Harvard, Skapski suggested, "but I was impressed by the powerful cathedrals of Rome, I was also inspired by the home-made shrines of the peasants."

"We at UVM always say how bad we are; why don't we say how good we are. Let us abolish our feelings of inferiority."

Clippings

Evans Talk Postponed — A talk by Prof. Paul Evans of UVM on the American sculptor, John Rogers, in the Fleming Museum, has been postponed from March 24 to April 7 at 8 p.m.

U. V. M. CLIPPINGS

MUSEUM NOTES

The fourth in a series of gallery talks on museum accessions will be given Thursday, March 24, at 8 p.m., in Gallery B at the Fleming Museum.

Dr. Paul Evans will introduce a collection he recently presented to the museum. The collection of 27 pieces by the 19th century American sculptor, John Rogers, will be named the "Marthe Malot Evans collection of Rogers groups "; in honor of Mr. Evans' late wife.

The Rogers groups offer a transcript of the manners, social customs, amusements, sports, domestic interests, costumes, and even furnishings of the middle and late 19th century. They portray life anecodotally, always with sentiment, often with humor, sometimes with pathos, and represent rural as well as urban life. It is these qualities which give them today the air of quaintness that intensifies their more substantial appeal as an historical record.

A coffee hour will follow in the Marble Court, and visitors will have an opportunity to examine the Rogers groups on display in the Fleming Room and in the Marble Court. All interested persons are invited to attend.

• • • • •

ENGINEERING SMOKER

Raymond Mosher, Howard Duchacek and Stephen Knight served on the committee which planned the All Engineering Smoker held last week by Nu Beta Pi. The various engineering associations on campus participate.

• • • • •

MEETINGS

AAUP

There will be a meeting of the American Association of University Professors on Tuesday, April 12, at 7:30 p.m. in the Fleming Museum.

• • • • •

MUSIC FOR BOTH EARS

The University Club will present Dr. George Stibitz at 8:15 p.m., Thursday, April 14, in the Faculty Lounge. Dr. Stibitz will discuss "Binaural Sound - Music for Both Ears. "

• • • • •

Dean Thomas King will preside at one of the evening sessions of the 64th annual meeting of the Harvard Teachers Association taking place March 19 through 26.

Dean King is president of the Harvard Teachers Association, and will preside at the closing session Saturday evening, March 26.

• • • • •

Donald Hardy and Mrs. Martha Buttrick of the Burlington Y.W.C.A. accompanied a group of UVM foreign students to Montpelier Monday evening to attend a meeting of the Vermont Legislature. The group met afterwards with legislative leaders.

• • • • •

President Borgmann addressed a dinner meeting of Cleveland Area Alumni at the home of former UVM President John S. Millis, on Friday evening, March 18. President Borgmann also spoke to Chicago area alumni on Saturday evening.

• • • • •

Ivan Hershner, George Male, James Marvin, Bennett Murdock, James Pooley, and Arthur Whithill served on a committee to implement a new policy which permits UVM ROTC students to list the five branches of the Army in which they prefer to serve.

William Cox, William Bunney and George Powers are ex-officio members of the committee.

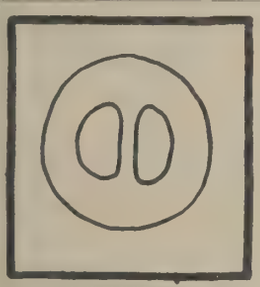
The new policy is the result of President Borgmahn's suggestion that the Military Science program be changed from a purely infantry course to one of general Military Science. Forty-two senior ROTC students have been appointed by the Department of the Army under this policy to serve in seven different branches. Twenty were able to enter the branch of their first choice.

• • • • •

ALUMNI NOTES

Edward Newcomb Brush, UVM 25, is listed as a speaker in the Speakers Bureau of the University of Maine where he is Dean of Graduate Study.

(continued on page six)

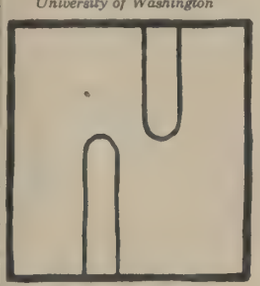


" ACROSS THE FENCE " WMVT DAILY FEATURE

The College of Agriculture has adopted television as its latest medium with a daily show, "Across the Fence ", Monday through Friday from 1:00 to 1:15 P.M. over WMVT (channel 3), Burlington.

The program is offered as a public service educational feature for the large audience of town and country people now being served by the local television station.

Lloyd Williams, TV specialist, directs the program for the University Extension Service. He and Stuart Hall will emcee the TV show. The daily schedule follows:



Date	Topics	Guests
March 25	"Community Health Service "	Mrs. Elizabeth Robins Home Demonstration Agent Lamoille County
March 28	"Why Food Costs So Much "	Thurston Adams Agr. Economist UVM
March 29	"Testing Your Soil "	Ted Flannigan UVM Agronomist
March 30	"Keeping Poultry Healthy "	Wes Bolton, UVM Animal Pathologist
March 31	"Know Your Fertilizers "	Bill Corey and Ralph McWilliams, Rutland and Franklin County Agents
April 1	"Farming in Japan "	Carl von Lautz Administrative Clerk, UVM
April 4	"Dairyman's Bridge "	Dick Dodge UVM Extension Dairyman
April 5	"Green Pastures "	Win Way UVM Ext. Agronomist
April 6	"Painting Easter Eggs "	Miss Leone Jackson UVM Staff Artist and two school children, Janice Dulger and Catherine Penrose
April 7	"Birth of a Chick "	Len Mercia UVM Ext. Poultryman
April 8	"The German Farm Girl "	Miss Annefreide Oltmanns, her hostess, Mrs. Harold Littlefield, and her Grange sponsor, Mrs. Robert Cossingham.
April 11	"Town and Country Days "	President Carl Borgmann and Associate Dean Paul Miller
April 12	"4-H Fashion Show "	Margaret Wentzel, Chittenden County 4-H Agent and some boys from her club
April 13	"Treat Yourself to More Milk "	Mrs. Leona Thompson Addison County Home Demonstration Agent
April 14	"Social Security For Farmers "	Verle Houghaboon, Ass't Agr. Economist

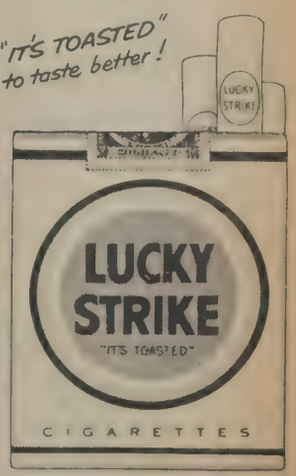
LUCKY DROODLES! GET 'EM HERE!

WHAT'S THIS? For solution see paragraph below.
Droodle suggested by Norman Gerber, C. C. N. Y.

HAVE A LITTLE FUN when you smoke. Enjoy yourself. Give yourself the pleasure of a better-tasting Lucky Strike. The enthusiasm often inspired by Luckies' famous better taste is illustrated in the Droodle (*right*) titled: Alphabet soup for Lucky smoker. So why *stew* over what cigarette to smoke? Luckies' taste is *letter*-perfect. After all, L.S./M.F.T.—Lucky Strike means fine tobacco. Then, that tobacco is *toasted* to taste better. "*It's Toasted*"—the famous Lucky Strike process—tones up Luckies' light, mild, good-tasting tobacco to make it taste even better... cleaner, fresher, smoother. When you light up, enjoy the better-tasting cigarette... Lucky Strike.



STUDENTS! **EARN $25!**

Lucky Droodles* are pouring in! Where are yours? We pay $25 for all we use, and for many we don't use. So, send every original Droodle in your noodle, with its descriptive title, to Lucky Droodle, P. O. Box 67, New York 46, N. Y.

*DROODLES, Copyright 1953 by Roger Price

"IT'S TOASTED" to taste better!

Better taste Luckies... **LUCKIES TASTE BETTER**... Cleaner, Fresher, Smoother!

Plender Key To UVM Hopes

Puts Record O's On Line

By Mark Bernstein

It's no secret that in the past few weeks the UVM Catamount baseball team has been diligently preparing for it's annual Southern Trip. It is also no secret that George Plender, Vermont's captain is one of the hottest pitchers in collegiate ball and that he is considered tops on Coach Ralph Lapointe's pitching roster.

When you speak about George and his participation in athletics it is very difficult not to mention the fact that he is an all-around guy on campus. Among his many affiliations on campus, he was Kake Walk director this past year at UVM. But pinning down his all-around ability to baseball we find his physical and mental stability the main reason for his success up to date. Plender works hard and at all times has control of himself and his pitch. Coach Lapointe busily at work over at the gym took time out to remark that Plender is the best he's had in his four years at Vermont.

Captain George Plender

Looking back at last years record we find that Plender compiled a record of six wins and two losses. The highlight of last years pitching was his record 57 2/3 scoreless innings. This is quite a feat for any pitcher and you can be sure that many an eye, both fan and scout, will be watching the progression of this senior from New Jersey.

Golfers Face Big Schedule

By Ed Walker

Even though the golf season is a little more than a month away, the returning letter-men and hopeful links aspirants are already polishing up their clubs ready to get in early practice rounds during vacation. Coach Ed Donnelly expects big results from his three returning veterans - Pete Colodny, Vern Trinkino, and Bill King.

The golf schedule this year is one of the biggest in the school's history. There are nine matches, with the team opening up in a State Match at Rutland, and closing the season, with a match against the alumni, which last year turned out to be very successful. The golf team will once again participate in the New Englands which will be held along with the Yankee Conference Tournament, May 13-15 at the Oakley Country Club, Boston, Mass.

NOTES: Pete Colodny tied the Vernon Hills Country Club's amateur record this summer with a booming 68 !

Attention divot diggers - all students interested in playing golf at the Burlington Country Club this spring must obtain a form from the athletic department before they can play!!

The 1955 Schedule:

May 6 State Match at Rutland, Vt.
May 7 R.P.I. at Troy, N. Y.
May 9 Clarkson at Burlington
May 11 State Championship at Burlington
May 13-15 New Englands and Yankee Conference, Boston, Mass.
May 16 Union at Burlington
May 19 Dartmouth at Hanover
May 20 Alumni at Burlington

Diminutive Janice Bailey was UVM's only entry in last week's International races. Jan placed 19th in a field of fifty of the world's best skiers in the Giant Slalom with a time of 2:10. A class "A" rating was required to be eligible to compete in the events.

Tennis Tourney

Right after vacation a mixed doubles tennis tournament will be held. Last year, pros and amateurs alike enjoyed the competition. Choose your partner and watch for notice of this tournament!

Western Electric field engineers supervise installation of complex electronic equipment made for Armed Forces

Marco Polo had nothing on Western Electric's field engineers. They travel the world to advise on use, installation and maintenance of the electronic equipment we produce for the Armed Forces . . . like radar bombing systems, anti-aircraft fire control systems, and the Nike guided missile control system.

Western Electric is called upon to make these things because of its vast experience with highly complex electronic equipment as the manufacturing unit of the Bell System. It's a job that presents an unending challenge to our engineering staff.

Western product and development engineers are responsible for turning out some 50,000 different items annually for the Bell System—everything from tiny transistors to giant bays of electronic switching equipment. Shown is one stage of transistor manufacture.

Sports Nameless
by Ed Willard

The 1955 Catamount Baseball team leaves this weekend for s 44th annual Southern Trip. Financially, the boys made it the skin of their teeth this year. How they'll fare next year a burning question right now. It would seem a shame to ondon this annual event which has served us so well in the st. First of all, it gives our boys a chance to get a few mes under their belts long before it's possible to play base- ll up here in the North Country. Our outstanding ball-clubs the past have proven the worth of this. Secondly and not far behind in importance, is the fact that it gives our loyal umns in New York City area a chance to see the boys play. hat does a lot for overall alumni spirit and probably reminds t a few that their old Alma Mater is still going along in high ar. Thirdly, it gives the team a good chance to see the ghts in the Southland, which for most is a wonderful opportun- y. Coach Lapointe informs us that a tour of D.C. is a regular ing on the agenda.

All of this brings us to the point of injecting an idea. It ems as if a lot of college teams that go south every year cur much less expense than do our Catamounts and get in ch more solid baseball. The University of Connecticut is a se in point. The UConns go south and spend a few days at uthern Marine bases. The service bases are anxious to enter- n college teams and provide facilities for them. It works mething like a training camp; three or four days of solid base- ll, no moving around, and what's more, some early season mes to get the bad ones out of the system without it going ainst the record.

Added up, it looks good. The practice conditions would be cellent. The cost, much less. The games in the New York a could still be played on the way back. Nothing would be t and the boys would have a lot more good baseball under ir belts when they get back. A concentrated football training mp sure paid off. How about baseball?

For what it's worth. . . . . After witnessing the world's best ers in action at Stowe last weekend, it seems evident why ericans haven't been able to meet foreign skiers on even ms in the past. It's a case of boys trying to do the job of a n. We can bring up our kids on skis. They can be, as they ved over the weekend, as good as anyone in the world in their group, (witness Miss Betsy Snite and Buddy & Skeeter mer). . But, and here's the question, how can they continue compete when the amateurism of American skiing is so dly maintained? When they get out of college, the age at ch European Skiiers are entering their prime, they have to out and work. Skiing can't be a full time thing with them. y have to eat and our amateur rules just don't allow for ssidization as in Europe. Until we can solve this problem, best skiers will for the most part have to give up just when y're reaching their peak.

Coach Ralph LaPointe
UVM's Baseball Mentor

NOTICE

On April 7th, Thursday the John Dewey Club will present Dr. Carl Borgmann who will speak on the topic "UVM -- Past, Present and Future." The lecture will be held in Student Lounge at 8:00 P.M.

This is the last in the series of talks on Education and how it pertains to the Vermont student.

All are invited.

Beginning this week, the CYNIC will carry a new feature; Sports from Southwick. For some time, the fairer sex has not been regularly represented. A regular women's sports column will appear weekly from now on written by Joan Armstrong.

In the period after the basketball season ends and baseball season begins, campus sports take over. The intermural program at UVM is a good one; we have a variety of sports. There are probably several that the average UVM'er hasn't heard of. Keep your eyes peeled. We'll try to keep you posted on all coming intermural events.

Bowling

Widespread Campus interest in Bowling was quite evident last Saturday as a large crowd turned out for the first Mixed Doubles Bowling Tournament. The winners were Ruth Zarr and Bob McKinley who posted the high total of 579. Second was Bill Clifford and C. J. Foss who had 571. In third place was Pat Horwath and Bert Goodman with 566.

The high single game for the men was posted by Paul Low with 126. Among the women Ruth Zarr took honors with 101. The high triple game score was 324 made by Bob McKinley, while Marjorie Billings led the women with 270.

Individual cups will be awarded the winners.

tional Women's Athletic Conference.

During Spring vacation, two ficers of WRA, Joan Armstrong d Florence Alexander will resent UVM at the National men's Athletic Association nference at Smith College, rch 30 through April 4.

dminton Doubles Tourney

In the badminton department e top doubles combinations ll meet in a final round-robin rnament. They are; Alpha silon Phi, Coolidge Hall, Pi ta Phi and Sigma Gamma. The Phi's met the bowlers from Allen House in the finals and emerged the victors.

W.R.A. Spring Intramurals

After Spring vacation the WRA Spring Intramural Clubs will start activities the week of April 11. These are slated as follows: Archery; Monday and Wednesday at 4:00, Sailing, Tennis and Volleyball; Tuesday and Thursday at 4:00, and the water ballet club on Wednesdays at 5:30 at the YMCA. The water ballet club is currently planning a water pageant for the Spring. Every Wednesday night a square dance is held in the Waterman Lounge at 7:30 p.m. Everyone is invited.

Last Saturday a mixed doubles bowling tournament was held in Waterman. Enjoyed by all!!

Veteran Studded Catamounts Head South On Saturday

Baseball UVM springs into action for Vermont fans as the 1955 Catamounts spring into action against George Washington University on March 28 in far off Washington D.C. The Cats leave this Saturday morning for the 44th annual Southern Trip. The squad appears fit and as ready as any team who hasn't had any outdoor workouts as yet. Six seasoned starting veterans are included in the Catamount's starting lineup. Captain George Plender, UVM's sensational right-hander, who hopes to continue his streak of 57 2/3 scoreless innings will start on the hill for the Vermonters.

A squad of sixteen plus Coach Ralph Lapointe and manager Stan Borofsky will be making the trip. After a workout Sunday at the University of Penn. field, the Cats journey to Washington, D. C. where they will play George Washington on Monday and American University on Tuesday. Wednesday, Vermont plays Villanova Pa. and then to the New York City area where they play in order; Upsala, Hofstra, Wagner and Adelphi.

Most of the starting club will be familiar to Vermont faithful as the bulwark of the 1954 team which after winning only two out of six on the Southern trip came home and played red-hot ball, ending the season with a ten and seven record and the coveted State Championship.

Behind the plate is sophomore Johnny Galascione who provided as much spark as an end on the '54 football team. At first base will be Joe Wark, the hard-hitting Barre boy. At second, a newcomer in the person of slick fielding Pete Maynard. Al McLam who led the Cats with a .369 batting average last year has switched from second base to shortstop this year; while at third, batting cleanup will be another Barre boy, Art Soloman, reserve infielder and Bob Shuttle will be the fifth infielder. Vern Currier, last year's alternating third baseman may join the squad in New York after a conference in Montreal.

In the outfield, Vermont has two hard-hitting fine fielders in the persons of juniors, Ed. Beck and George Gilbert. Sophomore Howie Hammer will complete the outer garden crew. On the mound, the starting pitchers, for the first four games in order, will be Captain George Plender, Ronnie Larrow, Lew Deitsch and Hugh Bemis. The rest of the mounds corps are Bob Gorman, Bruce McAllister and Russ Wagner. Plender, Larrow and Deitsch, all right-handers were last year's mainstays. Wagner and Bemis are newcomers to the squad.

Overall, this year's Catamount nine is sure to be a threat in State baseball circles and, depending on the success of the pitching staff, a possible for this year's N.C.A.A. tourney.

Intercollegiate Play Day

The highlight of the winter women's sport season was an intercollegiate basketball Play Day with the following colleges being represented; Vermont Junior College, Plattsburg State Teachers College, Middlebury College and McGill University. Linda Shaw, manager of the basketball intramurals was chairman of the affair. UVM's sextet won one game and was beaten by the wining team from McGill. In connection with sport day, girls were being tested for the National Official Ratings, Ruth Seeler, class of 1958 received an Associate Rating.

The Vermont Cynic

UNIVERSITY OF VERMONT AND STATE AGRICULTURAL COLLEGE

VOL. 73 BURLINGTON, VERMONT APRIL 10, 1955 NO. 3

UVM's Easter Parade

EDITORIAL

The purpose of this issue..

This issue of the CYNIC is not planned and contracted for. It is experimental in that we shall attempt to drop out all national advertising next year, and we wanted to make certain that the paper could be partially self-supporting by dint of the local ads alone.

But the paper shows more than that. It shows that the merchants in town are friendly to the university and the students. Many whom we contacted showed a lively interest in campus affairs; several are graduates of UVM.

By dropping the impersonal national advertising and concentrating on the local townspeople, we feel that we are benefiting the merchants. They have one more tie to the university.

We know that our student body makes up a large part of the city population. We also know that the purchasing power of the student body is quite large. The students comprise a great natural market for the merchants and they are eager to tap it.

We ask the student body to demonstrate to the storekeepers exactly how important economically we are. It is not our policy to praise our advertisers in the editorial column, but we ask that whenever you make purchases from our advertisers say " I SAW IT IN THE CYNIC! "

We have asked our advertisers to try to aim their ads at the student body in a friendly, personal way. Several stores are considering a special advertising campaign in the CYNIC for next year which is directly aimed at student appeal. There will be special student discounts and other inducements. It will be of definite value to the students.

And the students will be the ultimate beneficiaries in another sense also.

They will have a better newspaper. The Student Association budget combined with money derived from local advertising will permit us to publish a much larger paper next year. We will attempt a fourteen or sixteen page issue every week.

But it is for you to help us in this important manner.

Junior Week Poster Contest

With the coming of Spring, plans are being formulated for the annual Junior Week which will take place during the first week of May. At the Junior class meeting on March 22, Dan Milloy was elected chairman over the week's activities. Milloy has already named committee chairmen: Jazz Concert, Bud Isaacson; Peerade, Terry O'Donnell; Junior Beauties, Jack Stetson; Publicity, Joyce Morchower.

This year, for the first time, a poster contest will be held. An award for the winning poster will be made at the Jazz Concert which is to take place Saturday afternoon, May 7th, and will be the final event of the week.

The purpose of the poster is to announce the activities of Junior Week. Entries are now being accepted at the COSA office in the lower hall of Waterman.

Entries will be judged on originality, proficiency of drawing and advertising qualities. Anyone wishing more information on the poster contest should call Joyce Morchower at 2-9041.

In the past it has always been the purpose of the Peerade to advertise the two Spring Operettas. This year the operettas have been given up as the Music Department joins the University Players in presenting "Oklahoma ".

U V M Students Herald Awaited Spring Activities

By Shirley O'Neill

Have you seen students basking in the sunlight on the steps of Waterman these warm April afternoons? Aren't all proud owners of convertibles riding around with the tops down? Have you recently suffered an attack of that much-heralded seasonal "fever ", so that you decided it was just too nice a day to go to class? If your answer is yes, then it's a sure sign that spring has finally arrived on the UVM campus.

It seems that only one concession is still being made to the long, snowy winter. Ardent ski enthusiasts still set off for Stowe in pursuit of that long-awaited "corn " snow. But sweaters, dungarees, and Bermuda shorts are now the order of the day, replacing the traditional mid-winter parkas, ski pants, and long red underwear.

Meanwhile, an all too short spring vacation has come to an end, and we are now entering the last lap of the academic year. Already many campus organizations have elected new slates of officers for next year.

Today, on Easter Sunday, everyone will be decked out in their new finery, ready to take their place in the traditional Easter parade. And many, envious of the brown, red, and various in-between shades acquired by those lucky few who spent their vacations in Florida or Bermuda, are looking forward to beach parties and sunbathing sessions so that they too may sport that prized coppery complexion. Heavy storm coats are being relegated to out-of-the-way closets until next November. Golf clubs and tennis racquets are being brought forth from winter storage and dusted off for springtime use. Brains, too, are being dusted off in preparation for impending hour exams.

And, what will everyone be doing and thinking and talking about for the next few weeks? For one thing, this Friday will mark the first "in-the-round " collegiate presentation of the long-running Broadway success "Oklahoma! "

The following weekend will see the opening of the Vermont Conference, which will feature distinguished speakers from all walks of life. This three-day event will be run in conjunction with the High School Day on Saturday, April 23, and the Town and Country Days on both Friday and Saturday.

In-state students are talking about the tuition bill which recently came out of committee in the House of Representative. If passed by both houses in its present form and signed by the Governor, the bill would reduce tuition for Vermont students from $705 to $425 per year.

People are wondering whether this year's UVM debate team can capture its second national championship in five years. The Varsity debaters will travel to the National Tournament at West Point the last of this month in an attempt to emulate the prize-winning feat of the 1950 team.

On the social side of campus life, everyone is looking forward to the IFC Sing on Saturday, April 23, the Junior Peerade on Tuesday, May 3, and the fraternity spring formals on May 6 and May 13.

Yes, as that immortal bard, A. Nonymous, once so truly said, "Spring is sprung! "

Grab Your Bats And Rackets Sails And Rods - It's Spring!

"Spring has sprung; The grass has riz' I wonder where the athletes is? " You're right! Spring maybe defined as that time of year when everyone and his uncle get interested in, among other things, sports. Seldom used right wings are made to ache in that first softball game. The golf scores are in the low sixty's (for nine holes) The campus, in general, turns to sports in spring. The fair femmes are also in the swing of things as they have a full program, not a few of them beating their more muscular mates in such games as tennis or golf.

On the varsity playing fields, Vermont fields teams in a variety of sports. Did you know we had a sailing team which has several meets? There are also other sports beside the big two: baseball and track. Our golf and tennis teams also play a full schedule of meets. Even the football team gets into the act with spring workouts.

But, we digress. Spring is not the time for trained teams alone. Everyone has some sport in which to participate. We might list a few and the places to play them. First, there's softball. There is an excellent intramural set-up in which all the fraternities and men's dorms can participate. This league operates in back of the gym, and at the playing field at WJOY. The fields are open for use at times when games are not scheduled. Tennis can also be played at two places on the campus. There are courts at Redstone Campus and adjoining Centennial Field. Golfers also have a choice of facilities. The Burlington Country Club has an excellent 18-hole course with a generous student fee of twelve dollars. Students may obtain information about this from the athletic office. For the occasional golfer, there is a good nine hole public course at Williston. The women have their archery range over at Redstone. Lovers beware; that person with the bow and arrow is not Cupid. The girls also play field hockey at Redstone.

For the seaman, we cannot recommend the swimming in lovely Lake Champlain much before the end of May. We are told, however, that many sports are enjoyed at gatherings along the beaches. For the sailor, the school has four small sailboats open to use for members of the sailing club. There is also some good fishing in the lake. The bass season comes later in the year but there is good fishing for perch and pike now. For the adventuresome, there are two sports very popular in these parts, pickerel shooting or spearing. For excellent fishing guide service, contact Bill Trealer or Larry Tudhope at 4-9743.

That's about it. We've mentioned some games. We've left out some. But, we hope we may have helped to get you started with some ideas. Anyway, if you haven't played any sports in spring up to now; start! Get out your old sneakers and sweatshirt and go to it!

Mix April Rain With Soft Earth Get Mud For All

Spring! This is supposedly the most glorious time of the year, when the skies are clear, the sun sparkles, and grass and flowers fill the day with color! Those of us who have spent a winter in Burlington may find it difficult to believe that such a season can come to Vermont.

But rest assured. The United States weather bureau says that "Burlington can well meet the requirements of a ' good climate. ' " The facts speak for themselves. For example, an average April in Burlington has 6 clear days and eight only partly cloudy.

No one would mistake this with California, but it surely is an improvement over December which boasts of an average of three clear days.

Showers Bring Flowers

The old saying "April showers bring May flowers " is as true today as it ever was. The weather bureau will admit that "precipitation is generally plentiful and well distributed throughout the year. " Although we may think of this as a disadvantage as we struggle with our rubbers, the weather man points out that this makes for a good climate because it provides a sufficient rainfall "to provide moisture for the growth of grass and crops. "

If this is an average April, there will be rain on thirteen days, and snow, sleet or hail on one. There will be about 2.39 inches of rain, which isn't hard to take when compared to the 3.64 which July averages.

Spring Warm Up

If these statistics seem a bit disappointing to some cheerful young optimists, there is one thing which should be able to bring warmth to even the coldest of personalities. This is the undeniable fact that April will be warmer than March was!

The proof of the matter is that while the mean March temperature was a chilly 29.4 degrees, April blossoms out with a full heart warming 43 degrees. But don't go away now folks, because there's even better news for the future. May shoots right up for an average of 55.8 degrees, and the mean for June is a sweltering 65.1.

Cool Summer

At least that's almost sweltering for Vermont. The very highest mean temperature is reached in July, and that is only 70.1 degrees. You see there is an advantage to Vermont weather. The only trouble is that most of us won't be here to enjoy it. Sometimes it seems a pity that after freezing and shivering through the kind of winter Burlington has, we can't get the reward of a cool summer which we have rightfully earned.

There is one more factor of spring weather which ought to be mentioned to make this article complete. This factor is the inevitable mixture of dirt and water called mud. You have no doubt make its acquaintance at home, but here with the large amount of snow melting and the heavy rainfall it is even more easy to find. About the only advice which can be given is: avoid it.

ABOUT THE PICTURES

(All the photos by Herb Wagreich)

What better way to show that Spring is here than to have a set of photos of the campus awakening to spring.

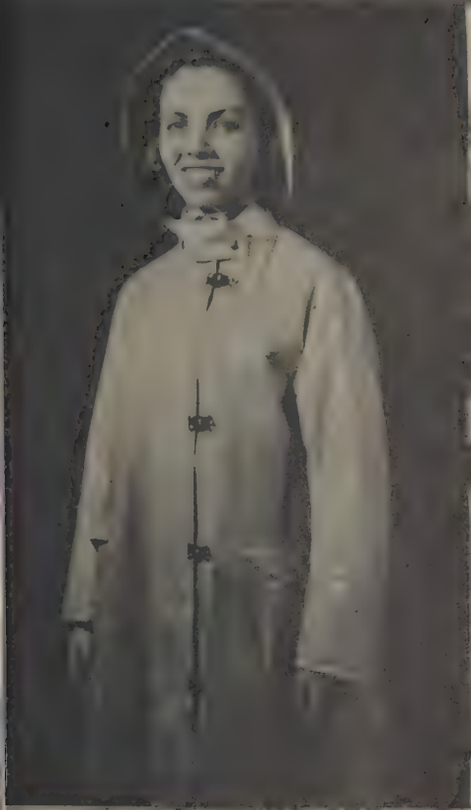
The Cover photo shows Linda McKerly, Eugene Levin, Carole J. Foss and Alan McLan out for a stroll on Campus Row.

Looking at the photos on the opposite page we have (top left) Carl Josephs and Barbara Wood out on the tennis courts.

(top right) Vivian Menke, Adrianne Coles, and Gail Blandin are studying on the library steps to prepare for the next round of hour exams.

(middle left) shows BarbaraBerke dressed for the Monsoon season that usually comes around this time.

(center) is a fine photo of College Row in the spring.



(middle right) has Michael Semans trying on a robe for graduation. They are now in the bookstore waiting to be assigned to seniors.

(bottom left) shows girls out sunbathing and studying in back of Redstone Campus.

(bottom right) Mary Sue Rothenberg is getting ready for spring with a new outfit. Here she is finishing dressing for a big date.....

U. V. M. CLIPPINGS

HIGH SCHOOL DAY PLANS

UVM will hold its third annual High School Day program on Saturday, April 23, in conjunction with the fourth annual Town and Country Days program set for Friday and Saturday, April 22 and 23. A special feature of the High School Day program will be the annual State High School Science Fair.

High School juniors and seniors from all parts of the State have been invited to attend, and UVM faculty and students have cooperated in planning the program which will offer the visiting students an opportunity to learn more about college courses and occupations and professions.

NEW WINDOW DISPLAY

The display window at the main entrance to the Waterman Building is this month featuring a Town and Country Days exhibit. Previous exhibits have featured University publications, Kake Walk, and baseball at UVM. The May window will present a display by Military Science department.

The display window, installed and maintained by the Public Relations Office, is for the purpose of bringing to general attention various aspects of the University. Because of its strategic location, it offers an opportunity to departments and divisions to show to students, faculty and townspeople interesting and noteworthy phases of University life.

The window is not intended for promotional or specific campaigns.

NUMBERS, PLEASE

All faculty and staff members are requested to send their new 1955 auto license numbers to the Information Office.

NEW CATALOGUE

The 1955 Catalogue has arrived, and copies may be obtained at the Admissions office.

Meetings

RESEARCH CLUB

Graduate students will have the floor at the next meeting of the Research Club on Tuesday, April 19, at 8 p.m., in Room 108 of the Home Economics Club.

A representative group from all fields of study will report on research being carried out by candidates for the Masters degree.

UNIVERSITY CLUB

Dr. George Stibitz will discuss "Binaural Sound - Music for Both Ears," at the Thursday April 14, meeting of the University Club at 8:15 p.m. in the Faculty Lounge.

A.A.U.P.

There will be a 7:30 p.m. meeting of the A.A.U.P. on Tuesday evening, April 12, in the Fleming Museum.

Faculty Notes

The April issue of *Classica Journal* contains a note by Robert Lane on "The Catharsis of Pity and Fear."

• • • • •

Philipp Lohman has had an article on "Competition: Our Best Bet for Gas Production," published in the March 31 issue of Public Utilities Fortnightly.

Mr. Lohman will also participate as a discussion leader in a seminar on "Administering the Credit Function," to be held at the Palmer House in Chicago, May 9-11.

Mr. Lohman earlier participated in a similar seminar in New York City this spring. The seminars are sponsored by the American Management Association in connection with its work in educational activities carried on for business and industry.

• • • • •

In a letter to Dean Robert Kroepsch, Lewis Feuer reports that there is a large contingent of Vermont graduate students at Columbia whom he sees from time to time -- Richard Lapidus in law, Matthew Baigell in art, Larry Ainsworth in theology, Don Forst in journalism, Shirley Donahue in philosophy, and Barbara Demarest in international relations.

Mr. Feuer also reports enjoying a seminar in American civilization with Prof. Lewis Leary, an UVM alumnus; one in sociology with Richard Lynd, and one in American history with Allan Nevins.

One of the great pleasures, he reports, has been the off-Broadway season. They have seen Perandello, Strindberg, O'Neill, Congreve, Auden's "Ascent of F-6," the Dybbuk, The Merchant of Venice.

• • • • •

Annis Barney will travel by land, sea and air to attend the meetings of the National Association of College Stores in Dallas, April 24-27.

Miss Barney will sail from Baltimore to New Orleans, then fly to Dallas, returning the same way. She will leave on April 13.

The UVM store is a charter member of the NACS.

• • • • •

A fairly large UVM delegation traveled to Newberry recently, for dinner at Scott and Eleanor Mahoney's The Vermont House.

Making the dinner trip were Anna Smith, Carrie Power, Florence Woodard, Esther Knowles, Eleanor Cummings, Annis Barney and Selma Guthridge. Anna Smith reports that Mr. and Mrs. Donald Hardy, Glenn Oppfelt, and George Lucchina were also there.

The group received "wonderful food and service, and enjoyed seeing Eleanor and Scott," Miss Smith relates, adding that the Mahoneys plan to add a gift shop to their Inn. Reservations are a good idea for those interested in making the "pleasant drive" to The Vermont House for a Sunday or holiday dinner, she informs.

Alumni Notes

Edgar C. Peoples, UVM '42, recently visited the campus as a representative of the U.S. Navy, interviewing students interested in the Navy's civilian management plan.

Mr. Peoples is in the Navy's Bureau of Docks and Weights. He is married and has one daughter.

A NOTE OF THANKS

To our many friends and customers at the University of Vermont, both faculty and students, we wish to extend our sincere thanks for your patronage. Your support has made it possible for us to become the leading college specialty shop in this area.

We have tried many innovations in men's clothing BEFORE they become fads, i.e. the pink shirt, the natural shoulder suit etc. These new fashions have been tremendously successful only because of your enthusiastic support. You have helped us foster and implement new ideas, and we can assure you we will continue to do so.

We at Miles & Riley's recognize the fact that men's fashion emanate from the Eastern campus. Thus we will appreciate your suggestions, if you care to pass them on to us.

The University and its student body is a tremendous asset to this State. It is the very lifeblood of Burlington. We sincerely hope that its critics will come to realize this. We here at Miles & Riley certainly are aware of it, and we most certainly are appreciative that we have such a fine asset in this community.

April Rain

(continued from page two)

Spring Still Best

This article has told you about the clouds, the rain, and the mud. Spring has all of these. But it is equally true that one second of a really gorgeous morning can give a person so much happiness, as to more than compensate for disadvantages of spring.

The Office of Student Personnel will receive applications for appointment to assistant student counselor jobs in the men's residence halls between Tuesday, April 5, and Friday, April 22, according to Ernest Stockwell, assistant director of student personnel.

Nine undergraduate students are appointed each year to assist in administration of the residence halls, Mr. Stockwell reports. Their chief responsibility, " and probably their most satisfying one, " he relates, " is that of helping freshman men become adjusted to college life and work. They also play an important part in developing the recreational programs which will be more extensive next year with the advent of deferred rushing.

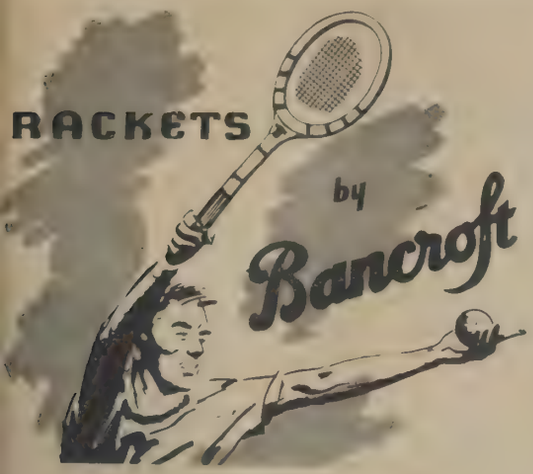
"As members of the Men's Residence Hall Council, they help give important instruction in student government. "

Selection for the appointments is made on the basis of maturity, leadership ability, and interest in the problems of freshmen, according to Mr. Stockwell, who adds "although the chief remuneration from this work is in the experience gained and the satisfaction of being able to help others, undergraduate student counselors receive free single room rent for their services."

Application forms and additional information are available in the Student Personnel Office. Room 159, of the Waterman Building.

In addition, applications are still being received for head student counselor appointments. Graduate students are appointed to these positions which carry a $1,000 per year stipend plus free room and tuition.

OPEN LECTURE



Interested students are invited to attend an open lecture on "The Role of Light in Certain Chemical Transformations, " by D.C. Gregg on Thursday, April 14.

This lecture will be given in Room 208 of the Williams Science Hall at 8 a.m. and again at 11 a.m., and with a number of additional seats available.

Other open lectures will be announced in next week's CYNIC.

Auto Operators Report Your New License Numbers

Automobile operators: Be sure to report your new license number to the Information Office immediately. Those who have brought cars to the campus which have not been previously registered this year should register them immediately with the Information Office in Waterman.

VOL. 73 UNIVERSITY OF VERMONT AND STATE AGRICULTURAL COLLEGE BURLINGTON, VERMONT APRIL 14, 1955

Lawrence Debate Team Wins Annual Forensic Conference

A UVM debate team last Saturday won the annual national conference of Tau Kappa Alpha, the national honorary forensic fraternity. The Vermonters won eleven matches and lost only one to top a field of 34 colleges from all parts of the nation.

The UVM negative team, composed of Marshall Kroot, '55, and John Burgess, '57, was undefeated. It won all six of its matches, beating Purdue University, Florida University, the University of Cincinnati, Mercer College, Bridgewater College, and Case Institute.

A record of five matches won and only one lost was set by the UVM affirmative team, composed of Herbert Simons, '56, and Leonard Kronman, '55. They defeated the University of Tennessee, the University of Cincinnati, Capitol University, Westminister College, and MacMurray College, and lost only to Florida.

Tournament officials presented a plaque to the team for its win. Vermont also won the tournament in 1951, placed fourth last year, and was third in 1949.

Observers noted that UVM captured one of the biggest tournaments of the year without using its top team, Herzl Spiro and Edwin English. Spiro and English are entered in the national championships to be held at West Point, N.Y., on April 21, 22, and 23.

The Lawrence debate Club was also represented recently at the Hofstra Invitational Debate Tournament, and emerged again with a winning record. The negative team, composed of Nancy Samuel and Robert Grimm, finished the tournament with an overall record of three wins and one loss. The affirmative team, composed of Arthur and Robert Krauser, though not as decisive in the won and lost column, finished high in the total amount of points scored. All four debaters were facing varsity competition for the first time after having completed novice training.

OKLAHOMA! O.K.

By Lal R. Fishbein

Attending a dress rehearsal is quite a thrilling experience, both for the cast and, to a somewhat lesser degree, visitors. When asked to review the dress rehearsal of "Oklahoma", I was delighted at the privilege of viewing what I think is the most rewarding period in the production of a play. Perhaps I can impart to you the excitement as I felt it.

At seven o'clock, Friday evening, I walked through the doors of Memorial Auditorium. All I could see was chaos, with unorganized running about in uncoordinated activities - or so it appeared at first. But slowly the pattern was revealed. The groups turned out not to be uncoordinated, but rather, well organized, as the dancers on set, the stage hands and costume crews, all with a job to perform, and one for which each was trained to handle. How often the actor takes for granted the cowboy hats, pistols, and special effects, all confidently in their place, while the stage hand worrying about his props, is satisfied that the acting will come off smoothly.

Dr. Gregg Falls called the organization together for the rehearsal in full dress. Orchestra leader Ippocrates Pappoutsakis stepped to the podium and began the overture of 'Oklahoma''. The air tingles, hearts beat fast, voices are hushed; now for the results of weeks and months of sweat, strain, and short tempers. The fine musical accompaniment is a reflection of the musicians; Mrs. Sada Start, a concert master in her own right, and Mrs. David Kinsey, long a professional violinist, to mention but two.

Actors in blue jeans and plaid shirts, and actresses in their colorful calico dresses began the dialogue. Costume manager Eleanor Levin proudly explained that no cost was spared in the preparation of the costumes. Among others she especially praised Mrs. Leslie Johns for her untiring work in the sewing of dresses.

Miss Martha Howe, choreographer, assisted by Harry Kolhe and Bob Barth, was able to transform the fine campus talent into an almost professional dancing group. I was more than a little impressed with the quality of the dancing from both the chorus and leads.

I marvel at the outstanding work done by Joanne Murray, with her prop crew of seven. Enough antiques have been acquired to compliment the finest museum. Most notable was the oldfashioned surrey borrowed from the Carlyle Farms in St. Albans. There is the antique wheelbarrow received from Dr. Bennet, who, incidentally, heads the musical direction; a butter churn from the Shelburne Sugar House; a water trough from the Williamstown General Store; a corn crib; and a 150-year old carpet bag.

Stage manager Tom Marx was very informative in a personal interview. Said Tom, "We're especially proud of the distinction of being the

Town And Country Days Features Two Day Program

By Ruth Zindler

The fourth annual Town and Country Days will be held on the UVM campus April 22 and 23. Town and Country Days will be combined with the Vermont Conference, High School Day, and the High School Speech Festival. Town and Country Days is an opportunity for all Vermonters to come to the campus for a two-day program of educational features in all phases of life. There will be fifty different features, enabling everyone who attends an opportunity to find a topic of interest. The average attendance, according to Mr. Jack Spaven, UVM Town and Country representative, has been between four and five thousand people, varying from year to year.

Members

The members of the general committee are: Paul Miller, chairman; Francis H. Adamo, Thurston M. Adams, Harold C. Collins, Clinton D. Cook, William N. Ellis, G. Richard Hopwood, Florence B. King, Robert H. Kroepsch, Leo W. O'Neil, John W. Spaven, Walter A. Stultz, Arthur F. Tuthill.

Every college will be participating and there will also be several noted speakers. Some of the main features are: Ed Mitchell, farm advisor of WGY and WRGB in Schenectady, New York, will speak Friday morning at ten o'clock on "How to Make More Money on Your Farm." Then he will lead a panel of specialists from the University in discussing trends in Vermont farming and the efficient utilization of agricultural opportunities. Three other speakers will outline various phases of bettering farming.

Moore Speaks

Dr. Lane Moore, head of dairy cattle feeding research at the USDA's Beltsville, Md., reseach station, will speak on increasing profit from future dairy rations. He will stress recent developments in dairy cattle feeding and their importance.

Frank Lanham, secretary of the American Society of Agricultural Engineers, will review accomplishments in mechanization and what they mean in easier living and more profits.

Dr. John Washko, Pennsylvania State University agronomist, will discuss savings in seed and fertilizer by band seeding. He will report how research has shown that better forage stands are possible through this inexpensive seeding method.

Writer Talks

Mrs. James R. Wilson, feature writer for "Today's Health" magazine, will speak on today's homemakers. Washday suggestions, new fabrics, challenge of the

(continued on page seven)

Fourth Vermont Conference To Discuss Education

The Fourth Annual Vermont Conference, produced by and for the students, will convene next Thursday, to discuss the topic "The University Student-Educated for What?"

Spotlighting the field of noted speakers, educators, politicians historians and engineers will be some of the most famous names in their respective fields.

Bailey to Moderate

Moderator of the all-important sessions will be the Director of the Graduate Program in Princeton University's Woodrow Wilson School of Public and International Affairs, Dr. Stephen K. Bailey.

Speakers will include Mr. C. Scott Hill, since 1953 head of the Engineering Recruiting Activities for General Electric. A graduate of the University of Nevada, Mr. Hill has had over 30 years experience with General Electric, and is a former Vice-President of the American Institute of Electrical Engineers.

Dr. Nicholas S. Timasheff, full professor of Political Science at the Graduate School of Arts and Sciences at Fordham University, and an escapee from Communist Russia in 1921, is the author of fourteen principal publications and books. His subjects vary from religion, law of Soviet Russia, sociology and politics. Dr. Timasheff formally taught at the University of Prague, the Sorbonne in Paris, and lectured for four years at Harvard on sociology of law and modern social movements.

From Notre Dame

Dr. Otto Bird, a noted educator, is presently Director of General Education at Notre Dame University, South Bend, Indiana. Dr. Bird carries to Vermont Conference the ideas of education in discussing the topic.

Dr. Stanley Hornbeck, veteran of the diplomatic service, and Doctor of Laws and Political Science, will be a fifth panelist. Dr. Hornbeck was a member of the American Delegation to the Dumbarton Oaks Conference in 1944, and later that year became American Ambassador to the Netherlands.

Hornbeck is the author of many works on politics. among them, "The United States in the Far East-Certain Fundamentals of Policy. In addition he has written many articles on international law, politics and trade.

Philosopher to Speak

A Professor at the New York University School of Philosophy will come to Vermont also. Dr. Van Denhaag, lecturer and author, rounds out the panel of speakers, who represent almost every major field of endeavor in the country...industry, education, politics, law, history, government.

E. Russell Sherman, Student Chairman of the Vermont Conference, told the CYNIC today that there would be four sessions, beginning at 7:30 p.m. Thursday the 21st.

(continued on page seven)

Nine New Faculty Members Appointed By UVM Trustees

University of Vermont trustees last week approved the appointment of nine new members of the UVM faculty.

Earle R. Marshall, now assistant professor of metallurgy at Massachusetts Institute of Technology, was appointed associate professor of civil engineering. Dr. Marshall, a native of Ohio, received his professional education at M.I.T. graduating as doctor of science in 1953. He has also had experience in industry, and is the author of several scientific papers. His appointment is effective in September.

Boardman and Bouchard

Two new members were appointed to the staff of the College of Medicine. Dr. John D. Boardman of Burlington was named clinical associate in obstetrics and gynecology effective March 1, 1955, and Dr. Richard Bouchard, also of Burlington, was appointed instructor in medicine effective July 1.

Named as instructor in psychiatry, effective September 1, was Dr. Clare Marshall. Dr. Marshall is presently at Harvard University psychological laboratories, and at UVM will work with the student health staff as a psychiatrist.

Willard A. Fletcher has been named instructor in history effective September 1. He is a native of Johnson, Vermont, and a graduate of UVM. He has studied extensively abroad and holds a masters degree from the University of Arkansas. He also has held a Fulbright scholarship for study in Belgium.

Dr. Alan Gowans, director of the Fleming Museum, in addition to his museum duties, will serve next year as assistant professor of art.

Pickel Appointed

Frank G. Pickel, was appointed assistant professor of classical languages and history, effective September 1. He is a native of New Jersey, a graduate of Oberlin College in Ohio, and holds a doctor of philosophy degree from the University of Chicago.

A graduate of UVM, currently teaching in Winooski High School, Miss Mary L. Pratt, was named assistant professor of commerce and economics, effective September 1. Miss Pratt has a masters degree from UVM and has had teaching experience at several Vermont high

(continued on page seven)

Building Program Theme of Junior Week Peerade

The theme of this year's Junior Week Peerade has been announced by the float committee. The theme for 1955 will be the university's building programas illustrated by the arena theater.

The Peerade is one of the most widely anticipated events of Junior week. The spectacle is scheduled for Wednesday, May 4th. As is traditional, the Peerade will originate in front of University Row. The procession of floats and Junior Beauty Candidates will proceed down Pearl Street and up Church Street in Burlington.

Town And Country Days To Feature Debate Tourney And Science Fair

Debate

In conjunction with Town and Country Days, a high school debate tournament will take place on Friday, April 10. The participants will be students from various high schools in the state of Vermont including Burlington, Leland Grey, Mount St. Joseph's of Rutland, Randolph, Montpelier, Spalding, Morrisville, Bennington, and Arlington.

Professor Charles Helgesen, who is chairman of the state high school Speech Conference, believes that the tournament will serve as good practice and instruction for the various debaters who will assemble here, and he pointed out the superiority of Vermont high school teams in the past. Vermont high school champions did very well this year at the New England Debate Conference Tournament; and in 1952 when the champion team was composed of Herzl Spiro, now of UVM and the foremost collegiate debater in the country, and Joe Frank, currently of Harvard's top team, Vermont not only won the New England Debate Conference Tournament went on to finish fifth in the National Forensic League Tournament held at Boston University.

UVM Judges

Friday's competition will consist of three rounds of debating to be held late in the afternoon and in early evening. The judges will be members of the Speech Department as well as some of UVM's varsity debaters. Insofar as the primary intention of the tournament is to offer advice to the participants, three judges will sit in at each debate.

Science Fair

UVM will play host to some 50 or 60 students who will participate in the High School State Science Fair on April 22 and 23.

The science fair consists of projects that are submitted by students throughout the state. The projects are judged primarily on scientific worth and attractiveness and ingenuity. The winners will be eligible to compete in the New England Science Fair which will be held early in May.

Program

On Friday afternoon the students will be guests of the university science students. Barbara Johnson and Adelle Virtue, graduate students, and Lianne Tryon, a sophomore, are in charge of a social hour for the contestants.

At 8:00 p.m. Dr. Eugene Rochow of the Chemistry department, Harvard University, will address the group on the subject, "The Unusual and the Unnatural." Dr. Rochow's theme will deal with research in relation to the uncovering of the unique and unusual properties of materials. He will illustrate the talk with examples from the rapidly growing field of silicones.

Dr. Rochow is one of America's most eminent scientists and is noted not only for his ability as a researcher, but also as a lecturer. He was one of the key men in the development of the silicone industry, one of the most rapidly growing chemical industries.

On Saturday morning, the students will tour the State Health Laboratory and then proceed to the Ira Allen Chapel where the prizes for their projects will be presented.

S A Elections ToBeHeldFriday

University students will go to the polls on Friday, April 29, to elect Student Association officers, representatives to S.A. and class officers.

A very important meeting for all prospective candidates will be held on Monday, April 18, at 7 p.m. in the Student Lounge. Everyone must attend this meeting in order to run for an office. Material for entering candidacy will be distributed.

The following offices will be filled:

President of Student Association
Secretary of Student Association
Treasurer of Student Association.
Representatives to Student Association
2 Juniors
3 Sophomores
3 Freshmen
Class officers for '56, '57, '58.
President
Vice-President
Secretary
Treasurer

" Students should begin thinking now about running for an office, " explained Roberta Baker, member of the S.A. elections committee. " I hope that there will be good stiff competition for every office. If we have a well-contested election, the whole campus will be better satisfied with the results. "

Annual Fun Fair Set For April 22

The Fourth Annual Fun Fair will be held Friday, April 22, in the gymnasium from 9-12 in connection with Town and Country Days and an evening of fun is planned for everyone.

Faculty and students are invited and no admission will be charged.

Emerson Lang and his Green Mountain Volunteers will furnish music for square dancing, polkas, and waltzes. At intermission UVM students and faculty will put on several acts. Judy Patten is in charge of the talent and will also serve as master of ceremonies.

Vt. High School Students To Visit Campus April 23

By Susan Wakefield

Hundreds of Vermont high school students will visit the UVM campus during the third annual High School Day on April 23.

High School Day is designed particularly for those students who wish to find out more about college and the opportunities available to them through a college education. It is not necessary that the student plan to attend UVM.

The program will include special meetings covering many different interest areas, general meetings, exhibits, and displays. Each department of the university is responsible for part of this program. The student can choose to attend one of the following meetings during a typical hour: a meeting in nursing, engineering, a sample philosophy class on "How to Judge What's Good or Bad," a sample German class, or a sample Spanish class.

Vocational Aid

"The High School Day is an invaluable aid to our students in choosing their future courses of study," stated the principal of Burlington High School, Holland L. Smith. "We will send about 125 of our students to the day."

The program is part of a UVM "open house", which includes Town and Country Days, Vermont Conference, High School Debate Tournament, High School Speech Festival, and High School Science Fair.

The day will begin with registration in the Memorial Lounge at 9 o'clock. Cocoa will be served to high school students until 10:30 a.m. on the lower floor of Waterman by students in the Home Economics curriculum.

Chapel Meeting

At 10:00 there will be a open meeting in the Chapel. Musical selections will be presented by UVM students, and the prizes for the Science Fair and Debating will be awarded.

The remainder of the day is divided into "class" periods. During these periods meetings will be held in education, agriculture, health sciences, secretarial science, ROTC, nursing, engineering, home economics, music, business administration, science and mathematics, men's athletics, and dental hygiene.

Sample classes will be conducted in French, German, Spanish, physics, zoology, and geology. When not attending meetings, students will visit exhibits, displays, and buildings.

The closing meeting in the Chapel at 4 p.m., will feature a concert by the UVM band and a recital on the chapel carillon.

"Gas Production" To Be Published By Prof. Lohmam

Prof. Philipp H. Lohman, chairman of the department of commerce and economics at the University of Vermont, will have an article on "Competition: Our Best Bet for Gas Production," published in the March 31st issue of "Public Utilities Fortnightly."

Prof. Lohman's article is an "objective inquiry into the relationship of independent natural gas production to the public interest, particularly the consumer's interest.

UVM Senate Voted Down Motion To Abolish Kakewalk

The UVM Senate, composed of faculty members, recently voted down a motion to abolish Kake Walk. The senate voted overwhelming against the motion introduced last month by Professor James Chaplin, chairman of the Department of Psychology.

Chaplin maintained that Kake Walk involved excesses and loss of time from study and was getting out of hand. One of the chief points criticized by both Chaplin and the senate was the length of time spent in king and queen campaigns.

Despite the defeat of the motion, discussion by the senate indicated that there was support for at least parts of Chaplin's proposal. Consequently, President Carl W. Borgmann said, he would refer the entire Kake Walk program to the Student Advisory Council for study. The Council is made up of senate members and can recommend changes in Kake Walk procedure to the senate or the trustees.

Power Plant Inspected By Engineering Students

Ten electrical engineering and twenty-two mechanical engineering students at UVM spent their spring vacations inspecting power and industrial plants in New York, Massachusetts, and Connecticut.

The electrical engineering students, accompanied by Professor Charles F. Hoilman of the Department of Electrical Engineering, visited such installations as the General Electric Company plants in Schenectady, N.Y., and Pittsfield, Mass., and the International Business Machines Research Laboratory in Poughkeepsie, N.Y. Student making the trip included James Burbo, Burlington; John Cameron, Lebanon, N.H.; David Elrick, Orange, N.H.; Joseph Kittle, Burlington; Norman Kreitzer, Highland Falls, N.Y.; Toomas Laaspere, Estonia; Andre LeBlanc, Burlington; Robert Weber, Englewood, N.J.; and Robert Newcomb, Brattleboro.

Prof. Arthur F. Tuthill of the Department of Mechanical Engineering was in charge of the other tour, which took in various plants in Massachusetts and Connecticut. The General Electric Company River Works in West Lynn, Mass., and the Ford Motor Company plant at Somerville, Mass., were among those visited. Mechanical engineering students making the trip included Porter Cleveland, South Burlington; Victor Dzewaltowski, Springfield; Richard Everett, Norway, Me.; Robert Gauthier, Burlington; Leonard Horton, Hadley, Mass.; George Issacson, Tenafly, N.J.; Anthony Jannicky, Arlington; Frank Kemp, Ausable Forks, N.Y.; William King, Laconia, N.H.; Warren Kirkendahl, Naugatuck, Conn.; Philip Kuhn, Burlington; James Laraway, Morrisville; Albert Lindholm, Upper Montclair, N.J.; Mervin Merriam, North Troy; David O'Dwyer, Larchmont, N.Y.; Gerry O'Halloran, Burlington; Robert Pollitt, Maplewood, N.J.; James W. Smith, Brooklyn, N.Y.; David Thorpe, South Burlington; Albert Turner, Yonkers, N.Y.; Allan Tyler, Plainfield; and Charles Westphal, Jr., Burlington.

A Campus-to-Career Case History

He keeps up with

440,000 customers

"I used to think accountants wore green eye shades and sat on high stools," John Merrick will tell you. "That's before I started working in a modern accounting department.

"I trained for about a year and a half in different phases of telephone accounting. Then I was placed in charge of the section which maintains telephone service records. I have more than 60 people in my group with four supervisors reporting to me. Our job is to keep a running record of monthly charges for 140 exchanges in Central Massachusetts. That comes to 440,000 different customers.

"Customers expect their bills on time and they want their charges to be right. So on my job my primary concern is to maintain constant and rapid production and at the same time keep our work accurate and reliable. One of the best ways to do this is to be sure that 'the right person is on the right job at the right time,' an old cliche. But I found it works and it gives me a chance to use my Sociology training since it means handling all sorts of personnel situations."

John finished Bates College in 1952 with a degree in Sociology, and started with the New England Telephone and Telegraph Company. His work is typical of many assignments in the Bell telephone companies. The opportunities open for college graduates with other operating companies of the Bell Telephone System are many and varied—also with Bell Telephone Laboratories, Western Electric and Sandia Corporation. Your Placement Officer has full details.

EDITORIAL

Tau Kappa Alpha

The size of our student body precludes any real possibility of exceptional athletic teams. Our size prevents us from having a swimming team and from entering in other competitive sports that might raise our stature in the eyes of some other schools.

But there are many competitions in which we not only participate but excel. Foremost among these is debating.

Our debating team has much reason to be proud. It has top-notch debating coaches and some of the best debators in the nation.

Last week we again proved our superiority in this sport.

Tau Kappa Aloha is a national debating fraternity, and each year it holds intercollegiate debates. Last week Vermont came in first out of thirty-four competing colleges!

Much credit should be given to John Burgess, Leonard Kronman, Marshall Kroot, and Herbert Simons for their excellent showing. Debating is not something where a great showing can be made by luck. It takes many hours of patient research and work each week. The two partners must have close coordination in order to best present their case. Debating succeeds by team effort. What is the reward in debating? Certainly it is not easy work. And the recognition is slight. You may present a brilliant case with only the judge as an audience. Proficiency is difficult to attain and requires literally years of hard work.

So UVM can feel justifiably proud of the Lawrence Debate Club, and will watch with sharp interest the outcome of the National Championships to be held at West Point later this month.

Plea For Parking

This university does not have what can be called a real traffic and parking problem. Nevertheless there is always some congestion around the Waterman Building and other campus centers.

Now the University has made provision for faculty members and disabled students. These people are issued a yellow sticker and are permitted to park in certain restricted areas near these key buildings. The other people with the blue stickers, are expected to park in the remaining areas but to keep out of the yellow sticker parts.

Now the trouble occurs when yellow sticker cars are parked, for example, in front of Waterman, instead of the rear, just because a space happens to be convenient. Now what is really happening is to further limit the areas where a blue sticker car may park.

This seems to be a further penalty incurred and therefore we ask that yellow sticker drivers please consider the situation before they park haphazardly. Their actions will ease the situation all around.

Professors Betty Bandel, George Dykhuizen

Published weekly, every Thursday, during the college year, by the students of the University of Vermont and State Agricultural College. Editorial and business offices in Waterman Building, Burlington, Vermont. Telephone 4-4511, Ext. 344. Deadline for notices is Thursday, one week prior to date of publication.

Founded in 1883. Subscription rate, $3.00 per year; single copy, ten cents. Acceptance for mailing to points outside Burlington at special rate provided for in Section 406 P. L. and R. of March 3, 1879, authorized October 14, 1926.

Represented for National Advertising by National Advertising Service, Inc.
Members of the Associated Collegiate Press, Intercollegiate Press.

Did You Know?

That the general manager of the metropolitan district electric traction company in London, England, from 1901 until well into the twentieth century was a VVM graduate? His name was James Russell Chapman, Class of 1873 (also degree of Civil Engineer, 1880), who entered the sophomore class as a transfer from M.I.T. in 1871. Before going to England, he was in charge of the construction of several street railways in Missouri, Michigan, and Illinois, having charge of such work in Chicago from 1894 to 1900.

Letter to The Student Body

Lately we've tried something during council meetings that, as far as I know, hasn't been done in the past. This is the procedure of discussing campus and off-campus problems not entirely relevant to the running of Student Association business but does pertain to the general student welfare. Something did arise from these which, I believe, should be brought before you, before it's dropped in your laps, before you've had any background in the matter.

Recently the American Association of University Professors, headed this year by Dr. Gregg of the chemistry department, has been concerned with student (well, skippy-do, here's another of those awful words again) apathy here on campus, that is, on an academic plane. I put the question on the council's agenda and after hashing it around with Dr. Gregg, Mr. Oppfelt and some interested students, we decided to take a couple of positive steps in trying to remedy the situation.

Rather than put the blame on an inferior caliber of student as, I understand, many of the faculty have done, the council tried to more in a direction which would give the student more to work with and try to remove some of his handicaps.

The AAUP is going to send a questionaire to this year's seniors asking where things could be improved, etc. Student Association, working in conjunction with AAUP, will include in this a faculty evaluation sheet. I would like to see grow out of this survey a joint student-faculty Curriculum Committee to make an annual survey of student ratings of faculty and to publish a critique of courses as is done in a couple of other colleges. I've talked to Dr. Gregg who seems favorable as does Dean Kroepsch and it looks as though we can get such a committee on its feet this year. I believe that this would be invaluable in giving everyone involved an idea of what's to be desired and where the weak points really are.

The council also voted a referendum along with the coming April 27 election putting the question of changing the marking system before you. A couple of methods were suggested. One was the honor point system used at other New England state universities. This method gives a grade of 1, 2, 3, or 4 for passing, fair, good or excellent to the work. However, objection was raised to this on the basis that it is based on the numerical system we have now. Another suggestion was a method patterned after that used in the medical college. The student would get a grade of S (satisfactory), M (marginal), or U (unsatisfactory) while a numerical grade would be kept secret in the registrar's office for the purpose of transferring or graduate school. This would take the emphasis off marks and keep students on their toes but still create the proper atmosphere of learning for learning's sake.

That's about all the space I can devote to that problem but I hope you'll give it some thought and be sure to vote. If it turns out that you want SOME change in the system, why we'll see that you're heard in the proper place.

I will be in Burlington during the summer and will work to see if I can't set up a student discount plan so that students get a cut rate from the local merchants. Nothing concrete has been done here yet but I've written to other schools to see how they're set up.

We were supposed to have a "cabinet" meeting with President Borgmann last Tuesday, but he was called away at the last minute so I have no word for you on the Debate Club situation but another meeting is scheduled for next week and we should have that nailed down by Spring with any luck. I'm waiting to see the list of proposed buildings that the administration sets forth in their ten-year program before I do any more on the Student Union Fund. I've talked to Gregg Falls and Bill Lewis and have great hopes for the Union as a *student center* housing a radio station, theater-in-the-round, and so on, along with the usual lounge, coffee shop, barber shop, etc. If the Union isn't on the list by the middle of May, I'll report this to you then and see what I can do to change the situation.

The leadership training seminar will take place on April 30 at Camp Abnaki in North Hero. We hope to have the entire council there along with the officers of

Continued on page eight

Intercollegiate Round-up

By Eugene Levin and Richard Chernaik

As you know, the Intercollegiate Roundup is a brief summation of what's going on at the other colleges all over the country. We glean our information from the intercollegiate press and student newspapers which are mailed to us. Our sources of information are hence limited and we would greatly appreciate your cooperation in broadening our scope. Please put all contributions along these lines in the Levnaik box, which will shortly be placed in a prominent position on the downstairs bulletin board in Waterman.

So, if you know of some cool capers from other quads, don't keep them to yourselves; tell us about them.

Item: At the U. of California, parking violators are angels in disguise. The revenue from parking fines paid for 7 $150 scholarships last year.

The Alma Mater needs money? Yale initiated a plan recently which will pay off in big dividends several years from now. The graduating seniors take out insurance policies, each member paying $10 per year for 25 years, a quite nominal sum for self-supporting men. At the end of 25 years, the class has a reunion at which they present the school with a really worthwhile gift. This is much more intelligent than trying to hustle seniors and recent grads for a large sum, and when the money starts to roll in, Yale will benefit by some quarter of a million dollars annually! Why not?

Poinig's Postscript

By Wolfe

"Yesterday, as I walked across the campus, I thought I heard an old Norman Brooks record playing "April Showers" from a parked convertible. Whether it was really this or not doesn't matter; it was a lie, at least in Vermont. Here, April showers do not bring Mayflowers,, rather May MUD!

"While deeply transfixed with the moist atmosphere of 'sunny' Burlington, a naive freshman girl ran up to me and implored as to the climate of our fair state. She asked, 'Is it true that Vermont has only two seasons (--those) being winter and July?' What else could I do but agree?

"No sooner had I said yes than a voice spoke out from behind me. The voice chided, 'Young man, you should be ashamed of yourself. Every upperclassman at UVM & SAC should be aware that there are three seasons in Vermont. This state is the only region in the world with such weather. WE have winter, July, and in between - the MONSOON SEASON.'

"When the voice subsided, I could no longer restrain myself from falling into a swoon. Minutes later I was revived by a St. Bernard with pictures of Mendes-France and the state liquor inspector on his side. In the presence of this young lady, I felt most embarrassed.

"A noise rumbled in the distance and the fair damsel quickly turned and asked me what it was. Without hesitating. I yelled 'The monsoon is upon us!! Quickly we ran to high and dry East Hall where I knew we would be safe.

"Looking out of the window in the geology room, I saw an object begin to break through the mud. I did not pay much attention to it, however, thinking it to be just a freshman's car! But, this was no car! It was a real submarine coming to surface in the middle of the East Campus.

"The freshman stood looking in horror stricken awe. Not I though, I remembered this sight from last year. It was merely Captain Carl W. Nemo surfacing for a short glance around his domain. At least someone was safe from the wet and slime.

"Webster (the dictionary Webster) says that the monsoons usually last from April to October. In this respect Vermont is lucky in receiving only one-seventh of this deluge. Conversly, this also runs from October to April, and Vermont receives the other six-sevenths in the form of snow.

"I strongly advise the reader to be prepared to carry raincoats and hat. As a warning, remember the mud. I am sorry that I must end this message on a sad note but thirty-seven students are still missing from last year. They were last seen going from Science Hall to Hills across the fields.

"So fellow students, remember to fill your fountain pens that write under water and go onward to face the element of nature stoically. Forward with chins held high, face the rain and mud 'when ever April showers come along."

Society

KAPPA ALPHA THETA

After the Easter Concert, March 20, the Theta Pledges were hostesses for the pledges of all the sororities and fraternities at a tea.

Shelburne Harbor is the spot where the Theta's and the Pi Phi's will hold their annual joint spring Formal this year. The date is April 9. A buffet supper with dancing afterward is planned.

Saturday, March 19, was an exciting day for fifteen Theta pledges. Initiation. The girls you see wearing new Theta pins are:

Diane Eastman
Judy Corcoran
Carol Harris
Nancy Bassett
Liz Beck
Barbara Bennett
Irmy Downie
Gail Dunkerton
Judy Egbert
Gail Gibson
Libby Kidder
Nancy Soistman
Carol Stenberg
Sue Thomas

There have been two recent pinnings at the Theta House. Joanne Ewing is wearing Dick Smith's ATO pin and John Adams SAE) gave his pin to Sally Davis. Congrats!

In the past two weeks the Theta's have had Exchange Dinners (with the OWLS and SAE) arranged by social chairman, Jane Engel.

PHI DELTA THETA

The Phi Delts announce the new officers for the Spring semester, President, Robert Crawford; Reporter, Robert Parker; Warden, Dick Kennedy; Secretary, Terry O'Donnell; House manager and Treasurer, Frank Maccini; Librarian-Historian, William Saris, Choirister, David O'Dwyer; Chaplin, Robert Dana; and Scholarship Chairman, John Stetson.

Congratulations are in order to the following on their recent contributions to the romance department: Bruce Walgren, '56, engaged to Ruth Honer of West Hartford, Conn.; Russ Hubley, '55, to Margaret Eccher of Readsboro, Vt.; Ray Flannery, '55, to Lee McBride, '56, a Tri-Delt, from Buffalo, N.Y.; Ron Peaker, '57, to Barbara Anderson, of Naugatuck, Conn.; and Ken Keating, '54, to Jean Lenox of Rochester, N.Y. Also to the following on their pinnings: Charlie Maxson, '56, to Peggy Leonard, '56, a Pi Phi; Chuck Szendrey, '56, to Joan LeViness, '55, a A D Pi; and Terry O'Donnell, '56, to Len Lacey of Holyoke, Mass.

The annual "Shipwreck" party will be held on Saturday, April 15. Crusoe never had it so good!

The huge success of Founders Day, Phi Delt's national holiday, which was held on March 21, brought back many alums, from far and near. The affair featured dinner and movies of Phi activities of the past year.

Dan Milloy, '56, was recently elected senior IFC representative.

The pledge class has decided to renovate the pool room as their pledge project. The floor will be tiled and the walls pine-paneled.

Ariel Distribution

From now until the end of school the Ariel's will be given out in the C.O.S.A. office. Those eligible to receive these are members of the classes of '55, '56, '57.

ACACIA

During the past couple of weeks, Acacia has participated in joint functions with various sororities. On Thursday evening, a desert hour was held with Gamma Phi. This social hour was held at both houses, with some Acacians going up to 381 Main St., and some Gamma Phi's coming down to 305 Maple St. Coffee and desert were served during this social hour. A "Crest Painting Party," was also held, at which a few members from the various sororities on campus attended. The novel entertainment included having the sorority girls paint their respective crests. This addition will be a valued possession to the party room. The artistic activities, completed, refreshments and singing were enjoyed by all. Largely responsible for the success of these two affairs, was Bob Stetson, Social Chairman.

Some of the present professors of Acacians, as well as Dean Kidder, Dean King, and COSA Don Hardy, were guests at Acacia's Faculty Smoker. During the evening, a movie was shown of the '54 Mass-Vermont. Football Game, with Bob Stetson, past manager of the "Cats", doing the narrating. Following the movie, coffee and light refreshments were served.

The Acacian Social correspondent, wishes to apologize for the late announcement of the engagement of Bob Stetson, '55, of Springfield, Mass., to Marilyn Falby, '57, of Burlington. Other rather late items of Acacia social news are the pinnings of: Jack Noe, '56, of Madison, N.J., to Jean MacKenzie, '57, from Burlington, and Mal Hunter, '56, from Millerton, N.Y., to Jean Mills, '56, of Paterson, N.J.

Dud Johnson, '51, a Charter Member of Vermont Chapter of Acacia, and one of the present Traveling Secretaries from the National Office, spent some time here last week, renewing many old friendships and discussing with the chapter, plans for new activities.

Acacia announces the recent pledging of two men. They are Charlie Westphal, '56, of Burlington, and Putnam Clayton, '57, of Tenefly, N.J.

SIGMA GAMMA

Sigma Gamma pledged two girls and initiated five sisters at a ceremony Sunday morning, March 6, conducted by the president, Phyllis Bracey.

Those pledged were Ruth Carroll, '56, of Plainfield; Joan French, '58, of Newfane.

Those initiated include Ina Mae Ranney, '56, of Gilman; Annette Rowell, '57, of Hardwick; Diane Isham, '58, of Morrisville; Nancy Richardson, '58, of Springfield, Mass.; Christine O'Connell, '57, of Syosset Long Island, N.Y.

A surprise household shower was given Mrs. Pauline Marin by her Sigma Gamma sisters Monday night. Mrs. Marin, who was married February 20, is the former Pauline Vezina, '56, of S. Royalton. She received her gifts from under a blue and white umbrella decorated with streamers in a sunburst effect. Refreshments were served, including a wedding cake made by Gwendolyn McGrath, '58, Wallingford. Ada Pratt, '57, of Newfane was in charge of decorations.

Gamma Phi Beta

The Gamma Phis' announce that their annual Pie Party was held on Friday March 18, at the chapter house. Entertainment and dancing and pies-pies-pies- of all varieties made for a large slice of fun at the "Chez Gamma Pie." Credit for the success of the affair goes to co-chairman Dot Ward and Lianne Tryon.

Alph Tau Omega

By the looks of the letter from 21 Williams Street this week this reporter would say lots had been happening with the Taus. To clear up any questions they or any other group might have concerning the publication of events--- if you want "ink" you'll have to make sure the items get into the SOCIAL NEWS COLLECTION BOX in the Cynic office.

ATO's new officers for the Spring of 1955 are: Worthy Master-Earl Tesch, of Trumbull, Conn., Worthy Chaplain -Ron Smith, Longmeadow, Mass; Worthy Keeper of the exchequer-John Manning,- Ausable Forks, N.Y.; Worthy Keeper of the Annals-A. Henault, White River Junction; Worthy Scribe-R. Smith, Rutland; Worthy Usher-L. Soldovni, Staten Island, N.Y.; Worthy Setinel T. Downes, Taunton, Mass; Steward-R. Fillmore, Bradford, Vt.; House Manager J.B. Baughman, Wellesly, Mass.

In the Softlights Section sit: Dick Smith who was recently pinned to Joanne Ewing, Kappa Alpha Theta over Kake Walk weekend; Larry Soldovieri pinned to Carmen Geoffrion, Trinity College; and Jim Crawford who is engaged to Jean Marcou of the Mary Fletcher Hospital.

Recent Initiates: Taylor

SIGMA PHI EPSILON

Newly elected officers of the Sig Ep house are:

President -- Edwin English '56
Vice-President -- Hugh Bemis '57
Comptroller -- Bob Spense '57
Historial -- John Burgess '57
Secretary -- Dick Martin '57

The chapter's retiring President is Gary Fay.

THETA CHI

The Theta Chis' new head is Bob Hope from Leavittsburg, Ohio and to help him steer their Ship of state are:

Vice-president -- Bob McKinley, Verona, N.J.
Treasurer -- Al Corcoran, White Plains, N.Y.
Secretary -- Scott Carson, Wethersfield, Conn.

Telephone Trouble

By Peggy Richter

Mr. Anthony says, "Heaven," the faculty says, "Hell." Redstone is in an uproar. Things are in bad shape. The reason for all this panic is the marks on the hour exams--they're terrible!

Now, let's get at the cause of this malady. If you've had a public speaking course you'll start analyzing the subject.

Do the girls know how to study? The answer is, most probably, yes.

Do they waste a lot of time? Not too much.

Is their study regular, covering a certain period of uninterrupted time? Well, not completely.

Here we begin to detect a flaw. The girls sit down to study for those thousand hour exams and they are interrupted. Is it the telephone? Well, more or less, the telephone is only the means, not the end. However, no gal receives so many calls that her study is shot.

Their problem is not quite so simple. You see Katy C. expects Johnny B. to call. It's already Wednesday night and no call yet. This is calamity, goodness gracious golly gee, the annual "Straw Mop" is this Friday and it's already Wednesday. Why doesn't he ask me? It's not right, it's too late. The wail goes up from her book-ladden desk.

Don't despair Katy, he will call. It's just that he can't get through. Either the girls are too popular or the phone's off the hook constantly.

Now, we have established the cause, the means, and now to the end. Fellow Johnny can't make that phone. He turns to despair and confusion and says, "No date for the Straw Mop, I wanna go. Hey fella's, how'd you nab a date?" After three lessons of how, what, where and when we see Johnny trudging up the wooden hill to Redstone. He saunters through the golden gate, stutters Katy's name to the receptive proctor, and sits down in the public salon to build up his courage. Shortly Katy tears in, all dressed up in her khakis and brillantly exclaims, "What a surprise!"

And then, after an interval of time and interruptions from a friendly house mother, Katy whispers, "Yes," (even though it's so late!)

Johnny doesn't stay too long, but for every minute he was there it takes Katy five to tell about it, and then you multiply that by at least the four rooms she has to visit to tell her tale, so there blows Katy's hour exams.

Now, we have the cause, and effect and now for the solution. Naturally, install private phones!

FOR BETTER OR FOR WORSE

The first thought that comes into our minds upon entering college is, of course, marriage. But how many of us go about seeking mates, as I like to call them, in a truly scientific manner? Not many, you may be sure. Most of us simply marry the first person who comes along. This can lead to unpleasant consequences, especially if the person we marry is already married.

Let us today make a scientific survey of the three principle causes of marriage—homogamy, personality need, and propinquity. We will examine these one at a time.

Homogamy means the attraction of like for like. In marriage it is rarely opposites which attract; the great majority of people choose mates who resemble themselves in taste, personality, outlook, and, perhaps most important of all, cultural level.

Take, for example, the case of two students of a few years ago named Anselm Glottis and Florence Catapult. Anselm fell madly in love with Florence, but she rejected him because she was majoring in the Don Juanian Poets and he was in the lowly school of forestry. After graduation Anselm got a job as a forest ranger. Still determined to win Florence, he read every single Don Juanian Poet cover to cover while sitting in his lookout tower.

His plan, alas, miscarried. Florence, sent on a world cruise as a graduation present, picked up the betel nut habit in the Indies. Today, a derelict, she keeps body and soul together by working as a sampan off Mozambique. And Anselm, engrossed in the Don Juanian Poets, failed to notice a forest fire which destroyed 29,000,000 acres of second growth blue spruce. Today, a derelict, he teaches Herrick and Lovelace at the Connecticut School of Mines.

The second reason why people marry, personality need, means that you often choose a mate because he or she possesses certain qualities that complete and fulfill your own personality. Take, for instance, the case of Alanson Duck. As a freshman, Alanson made a fine scholastic record, played varsity lacrosse, and was very popular with his fellow students. Yet Alanson was not happy. There was something lacking in his life, something vague and indefinable that was needed to make his personality complete.

Then one day Alanson discovered what it was. As he was walking out of his class in Flemish pottery, a fetching coed named Grace Ek offered him a handsome brown package and said, "Philip Morris?"

"Yes!" he cried, for all at once he knew what he had been needing to round out his personality—the gentle fulfillment of Philip Morris Cigarettes, the soul-repairing mildness of their vintage tobaccos, the balm of their unparalleled taste, the ease and convenience of their bonny brown Snap-Open pack. "Yes, I will take a Philip Morris!" cried Alanson. "And I will also take you to wife if you will have me!"

"La!" she exclaimed, throwing her apron over her face, but after a while she removed it and they were married. Today they live in Prince Rupert, British Columbia, where Alanson is with an otter glazing firm and Grace is a bookie.

Propinquity, the third cause of marriage, means closeness. Put a boy and a girl in a confined space for a long period and they will almost surely get married. A perfect example is the case of Fafnir Sigafoos. While a freshman at Louisiana State, he was required to crawl through the Big Inch pipeline as part of his fraternity initiation. He entered the pipe at Baton Rouge. As he passed Lafayette, Ind., he was agreeably surprised to be joined by a comely girl named Mary Alice Isinglass, a Purdue freshman, who had to crawl through the Big Inch as part of her sorority initiation. When they emerged from the pipeline at Burlington, Vermont, they were engaged, and, after a good hot bath, they were married. Today they live in Klamath Falls, Ore., where Fafnir is in the weights and measures department and Mary Alice is in the roofing game. They have three children, all named Norman.

©Max Shulman, 1955

For your enjoyment the makers of Philip Morris have prepared a handsome, illustrated booklet called MAX SHULMAN REVISITED, containing a selection of the best of these columns. Get your copy, absolutely free, with the purchase of a couple packs of Philip Morris at your favorite tobacco counter. Hurry! The supply is limited.

UVM Clippings

"Across the Fence," the television program prepared by UVM's Extension Editorial Office for showing on WMVT Monday through Friday from 1-1:15 p.m., will next week feature interviews with UVM staff and faculty members concerning the approaching Town and Country Days program on Friday and Saturday, April 22-23, and High School Day, Saturday, April 23.

Charlotte Beatty and Harold Collins will be guests on the TV show on Friday, April 15, to discuss the highlights of the Town and Country Days program which will be of special interest to homemakers and to high school students.

Miss Beatty will talk about the Open House at the Home Economics Building, and Mr. Collins will speak briefly on High School Day events and the High School Science Fair.

On Monday, April 18, Dean Robert Kroepsch and Dean George Wolf will be guests on "Across the Fence," with Thurston Adams. Dean Kroepsch, Dean Wolf, and Mr. Adams will discuss with Lloyd Williams, speakers who will be featured during Town and Country Days.

On Wednesday, April 20, Clinton Cook will appear on the afternoon show with Mr. Williams, who directs "Across the Fence" for UVM, to discuss "Silicon Magic," and to further preview Town and Country events.

The Conference is an invitational affair for the discussion of enzyme and protein structure. It is sponsored by the Biology Division of the Oak Ridge Institute for Nuclear Studies, and represents part of the Institute's program for the interchange of information among research scientists in this field.

• • • • •

Kathleen Webb has an article entitled "How we used the Flesch Formula" published in the March issue of ACE, the publication of the American Association of Agricultural College Editors.

• • • • •

Fred Carpenter, Harry Kahn, Stuart Johnston, Malcolm Parker and David Romey attended the Northeastern Foreign Teachers Association Convention held in New York City, April 1-2.

Mr. Kahn reports that "we saw many things we would like to bring to Vermont."

• • • • •

Helen Coleman was a recent visitor to the campus. She reports her copy of CYNIC and CLIPPINGS gets good circulation in Montpelier, making the rounds of several UVM grads who, she reports, are happy to have this news of the University.

Faculty Notes

Arnold Schein is attending a Biology Research Conference at Oak Ridge, Tennessee.

Want Ads

WANTED - One baby's playpen. Call 2-1489.

FOR RENT - Comfortably furnished two-bedroom apartment, by faculty member leaving for graduate study. In pleasant hill location. 10-minutes walk from campus. Large lot, garden space. Available July 1 on a 15-month sub-lease basis. For further information call 2-5297 after 5 p.m.

FOR RENT - University Heights apartments available as follows: studio apartment, now; one-bedroom, May 1; one-bedroom, July 1; two-bedrooms, May 1; two-bedrooms, June 1; three-bedrooms, July 1.

1145 LUCKY STRIKE NEWS

Dick Hooker, Dick LaFreniere, Don Karp, and Mike Rosco alternate on the news programs, using the material gathered through The United Press Teletype service.

Assisting those actually "on mike," WRUV has a hard-working engineering staff headed by "Doc" Willard; a writing staff headed by Libby Kidder; and a music library in charge of Gail Gibson. This library, incidently, has some 6500 selections and the station welcomes requests at Ext. 369.

A campus news program in the charge of John Burgess been recently instituted, any news of campus activities is invited, call Ext. 369 or leave it in the Radio Workshop box in Information.

"Your criticisms and suggestions are invited," says the Exec. Council, "after all, it's your station and we want it to serve you."

"If you cannot receive the station on your set, please be patient," says "Doc" Willard, "these transmitters are all student built and require a great deal of time to tune properly. We are in hopes of reaching all of you by early in May."

ARROW GUARDS—
BRIEFLY, THEY'RE COMFORTABLE

One thing *every* man wants in underwear is COMFORT! And, Arrow *has* it. Arrow Guards, of fine combed cotton, give firm but comfortable support. They keep their shape . . . give perfect fit where you sit.

If you prefer a short, Arrow offers the *Sprinter* model with elastic waist-band, or snap-front model shown below. If you like fancy patterns, slip into a pair of Arrow LOVE MATCH shorts (below right), one of several Arrow specialty prints. Arrow Guards, $1.20. Shorts, $1.50. Fine Arrow T-shirts, $1.25.

ARROW
UNDERWEAR
SHIRTS & TIES
CASUAL WEAR
HANDKERCHIEFS

Our answer to the Mambo—
Arrow underwear!

We've long suspected the Mambo started with ill-fitting, uncomfortable underwear. Why else the squirms and anguished looks?

Bring your wracked frame into us. We'll show you Arrow underwear (Guards or Boxer styles), that give you unbounded comfort and classroom ease. We've Arrow T-shirts, and shoulder-strap athletic shirts, too. They're of fine combed cotton, offered at unruffled prices. Arrow underwear, $1.00 up. Arrow T-shirts, $1.25.

NODOZ AWAKENERS

Vt. Conference

(continued from page one)

The full schedule released today is:

7:30-10 p.m. Moderator's address, opening panel.

Friday Morning--9:30-12 noon...Second panel.

Friday afternoon--2-4:30 p.m....third panel.

Friday evening--8-10:30 p.m. closing panel.

An innovation this year finds the deletion of the Saturday panels from the schedule. Conference officials noted that there was little interest on Saturday sessions, and since Town and Country Days will be taking place, in addition to the Interfraternity Sing, it was thought more convenient to complete the program on Friday night.

The aid of several University departments will be sought in insuring a good turnout for the Conference. Sherman told the CYNIC, "In contrast to past years, when faculty and administration all but ignored the Vermont Conference, we hope to secure full cooperation from both, to assure the students of adequate opportunity in attending all sessions."

"The Conference, after all, is being planned for both faculty and students," he concluded.

More to Come

Supplimenting the list of speakers already lined up, Sherman said, would be several more, in order that UVM could get the best possible answer to the perplexing problem of "The University Student-Educated For What."

This year's topic is geared to interest not just one segment of the University body. From the College of Education to the College of Technology, along with those of Arts and Science, Agriculture and Medicine...all will be equally satisfied.

Town & Country

(continued from page one)

food market, creating today's fashion and training tomorrow's parents are other items scheduled for the women. Extension specialists, teachers and students of home economics will give continuous demonstrations.

From the faculty of the med school talks will be given on polio, cancer, heart disease, and the connection between cancer and cigarettes. There will also be sample classes open to the public, and a concert to be given by the band.

Town and Country Days will be a combination of features by both students and faculty of UVM, and will reflect a great deal of planning.

New Faculty

(continued from page one)

schools and at the University of Connecticut.

Another Vermonter, graduate of Randolph High School and UVM, Fred C. Webster, was appointed assistant professor of agricultural economics, and associate agricultural economist. He holds a masters degree from UVM and has been continuing his studies and working at Cornell University during the past two years. He taught at UVM from 1951 to 1953 as instructor in agricultural economics.

Oklahoma

(continued from page one)

first amateur group to undertake the production of "Oklahoma" since it was released last year. The cooperation and all-out drive couldn't have been better. The crews have been working practically full time for the last five weeks - including spring vacation. No less than one hundred persons are included in this group. We are putting close to a thousand dollars into this production, but we're sure that Friday night will show that it was worth it." Next thing Tom was running up to the actors supplying them with the blank bullets for their revolvers.

Space prevents me from mentioning all the actors and actresses that I would like to, but the two that impressed this reporter the most for their overall acting were Hal Greenfader as 'Will' and Joyce Morchower as 'Ado Annie'. Roger Wakefield who plays 'Curley,' and Betsy Brazil as 'Laurey' turned in fine vocal performances. The actor who is best cast, in my opinion, is Wally Siegel who will keep you in stitches as 'Ali Hakim'.

My hat is off to the University Players for a great production.

Book Return Box

No longer need eager students wait until 7:45 a.m. before returning books to the library. Nor do those burning the midnight oil need to face an early morning alarm in order to get their reserve books back before the deadline. For they may be assured an uninterrupted sleep simply by returning these books before retiring, even though it be the small hours of the morning.

No, the library has not gone on a 24-hour schedule, but rather has had installed on its facade, immediately outside the main entrance to the right of the door, a book return box. Here books may be deposited during the hours the library is closed. Of course, during regular library hours, books should be returned to the circulation desk as usual. The library staff hopes that this innovation may make life a little easier for the early risers and for those who study best after midnight, and need their morning rest. Those keeping more normal hours will, upon occasions, find it convenient to return books Saturday evening, Sunday morning and Sunday night, which could not be done before the advent of the book return box.

WSGA Committee To Consider "Men's Apartment" Rule

Several Sunday nights ago the girls on campus heard the announcement in their house meetings that the rule under Section IV, Part B, Number 2 in The Rule-book staging, "Women students may not go to a fraternity house, men's dormitory or apartment unless a chaperone approved by either the Dean of Women or the Joint Social Activities Board is present ....", is going to come up before the revision committee of W.S.G.A. The question is, should the rule be wiped off the books?

Various reactions were heard around the campus. Many girls expressed the opinion the rule should be dissolved and we should be allowed to go to men's apartments and fraternity houses unchaperoned. This of course means the Dean of Women sanctions our actions and is fully responsible for us. Another suggestion made was place "Men's apartments" on the white card included with skiing, flying, riding etc., which the parents of every matriculating freshman women receives. Perhaps this should be too great a shock for the parents of any high school girl and the idea might assume undue proportions. Others were heard to say "girls will be girls" and no matter rule or no rule, men's apartments will continue to be visited. However, there were many girls who felt the rule should not be erased and that the Dean of Women should not be made responsible for the 994 girls on campus, in this respect." A young lady's actions are reflections on her upbringing and not on the Dean of Women, therefore the Dean should not "bear the burden."

However it is the opinion of many people that although women should not be legally sanctioned to visit men's apartments they should be allowed to enter fraternity houses at other times than those set aside for specific party hours. Fraternity houses offer television and informal dates and since we have no student union with open lounges in the evening, fraternity houses can temporarily suffice.

What's going to happen? That's up to W.S.G.A. But please, Revision Committee, be practical, modern and conventional. Impossible! Wait and see.

Spotlight UVM Informs Vermonters of School

Spotlight UVM is a recorded program designed to acquaint Vermonters with their University. It is produced by Mr. Lewis of the speech department for the Public Relations Office. Hal Greenfader, Mark Rosenblatt, Ann Terry, Midge Haflinger, and Howie Ross are Mr. Lewis' student assistants. Greenfader is semi-monthly director, alternating with Mr. Lewis.

Lewis Comments

Mr. Lewis stated, on being questioned by a CYNIC reporter, "The purpose of Spotlight UVM is to inform people living in this state about the events of the week at the University. We cover occurencee as diverse as a flight into the cold evening by co-eds escaping a fire in the Old Mill, and excerpts from "The Passion According to St. John " by Bach.

A typical week's program included an interview with Professor Pappoutsakis, conductor of the orchestra's Easter Concert; the reactions of female refugees from the Old Mill fire and a discussion with Professor Chaplin of his experiment with light.

Oklahoma

" Oklahoma " will be

"Oklahoma " will be one of the subjects of this week's program. That famous musical is to be performed on campus the third week after spring recess.

For those who want to know about Spotlight UVM, here is the radio schedule for each week's recording:

4. "Shadow on the Prairie." (16 min.). A dramatic ballet performed by the Royal Winnipeg Ballet Company and depicting the story of a young Pioneer and his wife.

5. "Cote D' Azur "(10 min.). A film about the French Riviera.

(The Saturday showing is a preview showing at which the comments of experts are recorded for play-back on Sunday).

Next Showing Cinema-ArtClub ThisSat.And Sun.

The next showing of the Cinema-Art Club of Burlington will be this Saturday and Sunday, April 16 and 17, at 8:00 p.m. at 75 Bilodeau Court (off East Ave., at end of street). Guests are very welcome. The grogram is as follows:

1. "Henry Moore " (25 min.). England's greatest living sculpter is shown at his studio. The film includes the entire process of creation of one of his works from sketch to statue, as well as a discussion by the artist in person of his life's work and philosophy.

2. "Jackson Pollock " (11 min., color). This controversial figure in American Art is seen at work, showing his technique of dripping paints on a canvas laid on the ground.

Francis Colburn, head of the UVM Art Department will comment on these pictures.

3. "Singing Pipes " (21 min.). A film about the pipe organ, showing how it is built and operated, and tracing the history and development of the instrument. As a conclusion, Bach's Toccata and Fugue in D minor is played.

Trustees O K Charter

The Board of Trustees of the University of Vermont and State Agricultural College at a special meeting recently took the final step to make UVM the state university of Vermont.

The amendments set up the University as "an instrumentality of the state for providing public higher education, " and consolidated the titles of property and holdings under the corporation of the University of Vermont and State Agricultural College. The amendments also establish the legality of appropriations by the Legislature for the support of all parts of the institution.

The only remaining action to be taken is for Governor Johnson to appoint, with Senate approval, three new trustees.

Vermont Last

Although the University of Vermont has functioned in many respects as the state university for its 150 years of operation, it did so without formal recognition by the state. By the charter amendments now completed, Vermont becomes the 48th state to have an official state university.

Did You Know ?

That Henry Hitchcock, UVM Class of 1811, in 1816 sailed down the Ohio and Mississippi rivers to Nitches, tnd thencd to Mobile, to become one of the leading statemmen of Alabama? At 28 he was sevretary of the Territory and a delegate to the convention which shaped the constitution of the new state. He went on to serve as secretary of state, attorney general, and chief justice of the Supreme Court of Alabama. In the 1830's he revisited Vermont, bought the house in Burlington

Open Lectures ToFeatureDurrell Gould,Lockhead

There will be four open lectures next week, on Monday and Tuesday, April 18 and 19, and Thursday, April 21. All interested students are invited to attend either or both of the lectures.

Monday's lecture will be at 1 p.m. in Room 236 of the Hills Science Hall where W.B. Durrell will lecture on "The Control of Brucellosis in Cattle. " Approximately 20 seats are available.

Tuesday's lecture will be at 4 p.m. in Room 117 of the Old Mill where Lyman Gould will give the first in a series of two lectures on "Latin American Executives. " The second lecture in this series, which willalso be open, will be on Tuesday, April 26, at the same time and place. About 25 seats are available.

On April 19 and 21 at 11a.m. in Room 300, Science Hall, John H. Lockhead will discuss von Frisch's experiments on "The Language of Bees. "

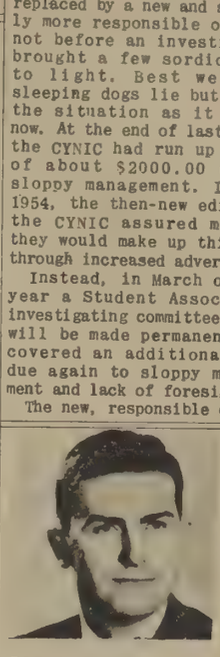
Professor Lockhead recommended attendance at both lectures for appreciation of the topic.

Letter

(continued from page 4

the other three governing bodies, the honoraries and the new editors of the CYNIC.

Speaking of the CYNIC, as you probably know the old editorial board has been replaced by a new and seemingly more responsible one, but not before an investigation brought a few sordid facts to light. Best we leave sleeping dogs lie but here's the situation as it stands now. At the end of last year , the CYNIC had run up a debt of about $2000.00 due to sloppy management. In May, 1954, the then-new editor of the CYNIC assured me that they would make up this debt through increased advertising.



Instead, in March of this year a Student Association investigating committee (that will be made permanent) uncovered an additional debt due again to sloppy management and lack of foresight.

The new, responsible editors have already mapped out plan which will wipe out th $600.00 debt by the end o the year and will set th paper on an even keel i three years with no outsid help except the usual annua appropriation by the S Council.

They've gotten off to very bright start by doin away with their nationa advertisements which pa next to nothing and goin out and getting, in the las issue, four pages of highl profitable local ads. Al this after the old editoria board had assured the counci that local ads were impossibl to come by and that the counci was foolish to suggest them. There's still a lot of wor to do but so far the ne editors have done a fine job.

I'd better sign off no and make room for some local ads. Hope you all enjoyed the spring recess; we'll see you at all the many late season activities as Junior Week, IFC sing and the others.

Sincerely,
George G. Lucchina,
President
UVM Student Association

Kappa Sigma Takes IFC Track Honors As Records Fall

Harasimowics ; Hall Star

Taking up where they left off last year, Kappa Sigma Fraternity won the IFC track meet as they narrowly beat out the Phi Delts and Delta Psi. The meet was a close one all the way with two long stand records being broken along the way.

Individual Marks Set

Neil Hall of Delta Psi and Paul Harasimowics of Phi Delt both set new records in the pole vault and the weights respectively. Hall pole vaulted 12 feet 2 inches to set both a new cage and a new IFC record. Harasimowics for his part smashed an IFC mark in the 35 pound weight event with a throw of 43 feet 11½ in. Dick Jannonni of Kappa Sigma took individual honors with 11 points as he won the 30 yard dash. For individual honors, Jannonni was followed by Harasimowics, Osuch and Hedger with 10 points each.

The team scores for the first three teams were very close as Kappa Sigma had 28 points, followed by the Phi Delts with 24 and the Delts with 23.

Team and individual totals follow:

Kappa Sigma - 28
Phi Delta Theta - 24
Delta Psi - 23
Sigma Alpha Epsilon - 15
Sigma Phi Epsilon - 10½
Tau Epsilon Phi - 10
Alpha Tau Omega - 7
Sigma Nu - 3½

The winners of the individual events were:

440 yd. dash - Blank ATO - 60.4
Br. Jump - Hedger SPE - 18'4"
16 lb. shotput - Harasimowicz PDT - 42'4"
Mile - Tauber TEP - 5 min. 12.1 sec.
220 yd dash - Osuch SAE - 22.5 sec.
30 yd hurdles - Hedger SPE - 4.6 sec.
30 yd dash - Janonni KS - 3.9 sec.
High Jump - Barry DP - 5'9"
880 yd. run - Tauber TEP - 2 min. 19.5 sec.

Sports From Southwick

By Joan Armstrong

Pi Phi's Cop Cups

Concluding the winter season the Pi Phi's emerged the victors in the bowling, badminton, and basketball intramurals. The Gamma Phi's succeeded in reaching the badminton finals after wins over Coolidge Hall and Alpha Epsilon Phi. The basketball finals proved to be a real test of ability and team cooperation. The final score; 19-17. It looks like the Pi Phi's are going to have a monopoly on the intramural cups. Congratulations!

Tennis Tourney

Attention all tenis players! The nets are up!! The sign up list for the mixed doubles tournament has been posted on the WRA bulletin board in lower Waterman. The tournament will start next week in order to be finished before exams. Choose your partner and sign up now!

WRA Offiler Elections

Tuesday night nominations were made for the officers of the WRA for next year. Elections will be held this week. If you are interested in running for an office you can obtain a petition from the physical education office. Also included in the meeting was a report from the National Women's Athletic Conference. Many ideas were brought back from this conference for a better sports season next year. Good luck to the officers elect.

Volley Ball Competition Open

Volleyball intramurals have started with the Theta's and Coolidge Hall the only teams submitted. In a pre-season match, Coolidge won two games and lost one. If interested in playing on a team contact Miss Hood. The archery and tennis clubs will also start competition this week; Monday, Tuesday, Wednesday and Thursday respectively.

'Mural Mirror

By Ken Brunjes

INTRAMURAL VOLLEY BALL

With one week left to play in Volley Ball, Phi Sigma Delta leads league A and Delta Psi leads league B. 5 of the 14 teams that started to play have had to be dropped because of forfeits. It is unfortunate that each fraternity cannot get at least 5 men to play volley ball. The Athletic Office points out that it is unfair for the other fraternities entered not to put up a team. As it is now there are 6 teams in league A but only 3 teams in league B. A proposal has been made that each team desiring to participate will put up an entry fee which will be refunded if the team completes the schedule. The standings up to date are:

League A

Phi Sigma Delta	8- 0
SAE	6- 2
Kappa Sigma	5- 3
Sigma Nu	3- 4
AEP	1- 6
Owels	0- 8

League B

Delta Psi	3- 1
Phi Delt	3- 2
TEP	2- 2

Southern Trip

(continued from page ten)

opened with a one run lead but Wagner shortstop Bob Scariato quickly disposed of it with a 350 ft. circuit blast.

Vermont - 6 Adelphi - 0 -

Here we are on the last lap, holding a 2-3 record and still in New York ready to face Adelphi College. This was "George's" day as Captain Plender, Vermont's top hurler, spun a neat four hit shut out climaxing a 6-0 victory and evening out the Southern Trip at 3-3. Centerfielder George Gilbert was also hot as he clubbed a quintet of Adelphi pitchers for four hits. (No box score available)

The Cats are now home, their field is in good shape, their trip was far from a loss, and above all "George" has another string of scoreless innings going.

Riflers Fourth In First Army

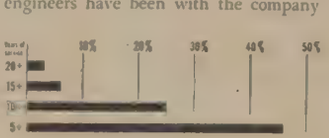
By Ron Smith

The UVM rifle teams fired a 7312 score in the National Army Rifle Association competition last month to place fourth in the first Army Division. This entitles The Nimrods to fire again in the National firing against all of the six Army Divisions. The Fordham Rams were top team in the First Army with a 7434 score. Following Fordham was Norwich and Northeastern University of Boston. UVM was not a too distant fourth and Sgt. Whitehead is very hopeful that the boys will improve their standing in the overall national shootings this week.

Before vacation the team had a match at Norwich where the team did well but placed behind Dartmouth and Norwich. The ROTC team has continued to win at their usual clip as they took three wins just before vacation with their record breaking 1901 score. They lost to Ft. Meade last week by one point.

1922—Roll-out of a Boeing-built fighter

1954—Roll-out of America's first jet transport, the Boeing 707



Progress is a Boeing-career hallmark

From the earliest days of aviation, Boeing engineers have produced an impressive number of trend-creating "firsts"—including the 707, America's first jet transport, shown above.

Boeing's 38-year history of Research, Design and Production progress has continuously opened up new career opportunities for engineers. Today Boeing employs more engineers than even at the peak of World War II.

At Boeing you'd work with engineers who developed: The world's first all-metal, 3-mile-a-minute commercial transport. The first pressurized airliner. The first effective four-engine bomber (the B-17). Today's fastest operational bomber (the six-jet B-47). The even more advanced B-52 eight-jet global bomber, and the 707, America's first jet transport. Boeing engineers continue to design "years ahead," doing research on nuclear-powered aircraft. They are also developing a new Air Force defense weapons system, based on the Boeing F-99 Bomarc pilotless interceptor. These long-range programs project Boeing progress far into the future.

One measure of the satisfaction of Boeing careers is given in the chart below. It shows that 46% of Boeing engineers have been with the company for five or more years; 25% for 10 or more years, and 6% for 15 or more years.

Here are other advantages: Boeing promotes from within and holds regular merit reviews to assure individual recognition. Engineers are encouraged to take graduate studies while working and are reimbursed for all tuition expense.

Of technical graduates at Boeing, 28% hold Mechanical Engineering degrees, 24% Electrical, 19% Aeronautical, and 9% Civil. The remainder is comprised of other engineering graduates, physicists and mathematicians.

For further Boeing career information consult your Placement Office, or write:

DONALD F. RENARD, Recruiting Supervisor
Boeing Airplane Company, Seattle 14, Wash.

CATAMOUNTS BREAK EVEN ON TRIP

Lapointe Reviews Trip: Optimistic

"I feel optimistic about the general picture but we've got our work cut out for us." These were the words of UVM baseball coach Ralph Lapointe as he reviewed the Southern Trip and discussed the rest of the team schedule for 1955.

The Catamounts, playing against top notch opposition all the way broke even with three victories as against three losses, after being "cold weathered" out of their first game against George Washington.

The team showed well in general as newcomers Howie Hammer, Hugh Bemis and John Galascione came through well in their first varsity action. Bemis was the object of special praise although the entire mound staff pitched good ball, walking very few.

One lineup change resulted from the trip as Vern Currier was switched from third to second base. In drills this week, both Art Soloman and Pete Maynard are working out at third base.

"Baseball Coach Ralph Lapointe shakes hands with UVM Athletic Director, Ed Donnelly as the Catamounts start South on the 44th Annual Southern Trip."

The infield play was spotty as could be expected for the first of the year with Al McLam showing well at shortstop. Joe Wark was hampered by an injured ankle.

In the outfield, Vermont's "pony" outfield came through as expected with George Gilbert leading the way in batting averages. The trip saw no home runs but doubles were much in evidence, six being hit in the American U. game alone.

Percentage wise, the leading hitters were Wark, Gilbert, Hammer and Beck in that order.

The Catamounts open their regular season with another "Southern Trip" this one a trip into Southern New England where they open against Brandeis on April 21.

Plender Tosses Shutout At Adelphi On Final Day

By Mark Bernstein

UVM students are now back from the comforts of home and with them comes the University of Vermont Baseball team who spent their spring vacation in a slightly different way. For the Cats it was the 44th annual Southern Trip consisting of seven top games against George Wash. U., American U., Villanova, Upsala, Hofstra, Wagner, and Adelphi College.

George Washington - Rain -

Needless to say, the trip from city to city was an experience in itself for Coach Ralph Lapointe and his squad who most assuredly deserve it. With the weather as it is in Vermont, the Cats opening game at George Wash. was to be the first time outdoors since the opening practice in the cage. As it turned out the Cats forgot to leave cold weather behind them and their first game was cancelled. Coach Lapointe, nevertheless, took advantage of a clear field for some fielding and hitting practice.

Vt. 11 - American U - 3

The following day clear skie prevailed and the Catamounts too on American U. in their first gam of the 1955 season. Behind th five-hit pitching of Ronnie Larro and soph Hugh Bemis who too over in the fifth, Vermont crushe American U. 11- 3 under a 12-hi barrage. The hitting attach wa led by a quartet of players, in cluding George Gilbert, A Solomon, and Sophomores Joh Galascione and Howie Hamme

Pennsylvannia was the nex stop as the Cats took on the al ways dangerous Villanova. Coac Lapointe started his top pitche and Captain George Plende Plender going into the game ha held a string of 57 2/3 scorele innings since the close of th 1954 season. But in the thir inning of this contest his strin was snapped as Villanova pushe over one run. The final was 5-4 in favor of Villanova who neve lost their one run lead. Th Cats, behind 5- 1 staged a seven inning rally that just fell short tying up the game.

Vermont 1 - Upsala 3 -

March 31 the Catamounts wer in East Orange, New Jerse This was the home of the Viking from Upsala College, whom as th good host, promptly knocked o the Cats for their second straig win and Vermont's second straig loss. Behind some good three-h pitching the Vikings overwhelme Vermont 3- 1. Pitcher Le Deitsch took the loss as h pitched a very tight game till th seventh, when at this time a tw base error cost him the winnin run. In the eighth the Viking added one for insurance an Bruce McAllister relieved Deitsc to finish up.

Vermont 4 - Hofstra 1 (10 inning

Holding a 1-2 record thus fa the Cats made their way into th big city, New York. The da was April 1st and this report was there to see a lot of peop fooled. The Cats took on one the top teams in the Metropolita Area, Hofstra College. As w expected a large turnout of Ve mont students from New Yo were on hand to witness th game. Hofstra opened the scorin in the third inning with a singl a steal, and another single. Th game moved slowly on and several Vermont rallies we extinguished by the home tea here, many fans started to lea as Vermont's chances look slimmer and slimmer.

By the eighth inning all w peaceful that day in Hempstea But the Cats were not to denied as they forced over t tying run. The ninth was scor less for both teams but in t tenth a slashing line single shortstop Al McLam sent Joe Wa home with the run that broke a 1- tie. Hofstra followed this with trio of errors giving Vermont t insurance runs. Final score re 4-1 with reliefer George Plende getting the win. Sophomore Bem who had started pitched a pret game till he showed signs tiring, he had given up six hit

Vermont - 3 Wagner - 6 -

The following day Vermont too on Wagner College in their sixt game of the swing and dropped 6-3 decision. Starter Ron Larr took the loss and he was lift for a pinch hitter in the seven being replaced by Bob Gorm Wagner pitcher Jeff Safford he Vermont to four hits and w never in any danger.

BURLINGTON, VERMONT APRIL 21, 1955

OL. 73 — UNIVERSITY OF VERMONT AND STATE AGRICULTURAL COLLEGE — NO. 5

Oklahoma by Players

Joan L. Ross

The University Player's ena style presentation of dgers and Hammersteins- Oklahoma " was presented th great success at morial Auditorium on Fri- y evening, April 15, to an most full house.

The superlative production s a product of the com- ned efforts of many men. . Gregg Falls was re- onsible for the very fine ting of the characters, d indeed much of the credit longs to him. However, not be forgotten is the tire- ss work of Miss Martha ve on choreography, Howard nnett on musical direction, pocrates Pappoutsakis of nducting, Francis Weinrich Vocal coaching, and chard Adams on technical rection.

ads Star

The lead male role of le of Curley was sung gnificently by Roger Wake- eld. Laurey, the female ad, played by Betsey azil, was a fine job of ting combined with a very eet and clear voice.

Wally Siegel as Ali Hakim d Joyce Morehower as Ado nie were fine comics, as s Hal Greenfader who played ll Parker. Stephen Pearl's dition of Pore Jud almost ought tears to many an eye d Alayne Tomlinson's Aunt ler was most appealing.

hn Van Blarcom as Cord am, Marlene Goodenough as rtie Cummings, and Kenneth nderbilt as Old Man Carnes so shone brightly.

The ballet sequences with bert Barth and Nancy Clarke were beautifully done.

Presentation Superlative

Roger Wakefield - The Star

Because the operetta was presented in the round, a minimum of scenery was required. However, it was excellent as it created the same illusion of realism which an entire stage of scenery would. I think through this presentation the players have proved their future plans for an outdoor arena theatre are entirely worthwhile, as it will make possible the presentation of dramas and musicals in the University's own theatre.

The audience reaction to the production proved that it was entertaining to all despite the back-breaking discomfort of the bleacher seats and the length of the performance. Certainly we who saw the production will remember it as equal to a legitimate Broadway show.

"Education, For What?" Topic Of Annual Vermont Conference

Speakers Emanate From Varied Fields

The Fourth Annual Vermont Conference will convene tonight to discuss, "The University Student -- Educated for What? " Nine leaders in varied fields ranging from engineering to labor relations will meet in Ira Allen Chapel at 7:30 p.m. this evening, and again three times on Friday.

Tomorrow morning at 9:30 p.m. the second session will begin, to end at 12 noon. The afternoon panel meets at 2 p.m. to 4:30 p.m. and the Conference will end with the Moderator's summation at 8 p.m. Friday evening.

Leading the list of noted speakers is author and diplomat Stanley K. Hornbeck, former Ambassador to the Netherlands. Dr. Hornbeck, now retired and writing on international relations, was U.S. Representative to the Dumbarton Oaks Conference in 1944, and has lived, traveled and studied abroad extensively.

During the later years of the Roosevelt administration in Washington, Hornbeck served as Political Adviser and Special Assistant to the Secretary of State. He was chief of the Division of Far Eastern Affairs, U.S. Department of State.

Dr. Otto Bird

A former teacher and lecturer at St. Michael's College, and now Director of the General Program of Liberal Education at Notre Dame, Dr. Otto Bird, will also speak. Dr. Bird is Consultant to the Institute for Philosophical Research, directed by Mortimer Adler.

Dr. Bird taught philosophy at St. Michael's, University of Toronto, St. John's College in Brooklyn, and received his academic training at the Universities of Michigan, Chicago and Toronto.

Ernest Van Den Haag

Carrying the views of the philosopher into the Conference will be Dr. Ernest Van Den Haag, now at New York University. Dr. Van Den Haag, formerly with the Office of War Information during WW II, has lectured abroad at the Universities of Naples, Sorbonne, Florence. His forthcoming essay " Education as an Industry " will appear in the Quarterly Journal of Economics this fall.

W. Scott Hill

The Head of the Engineering Recruiting Division, General Electric, Mr. W. Scott Hill, will represent the field of Engineering. This provides him a vantage point from which to observe many colleges' educational trends, as well as the performance of men in industrial capacities.

A former vice-president of the American Institute of Electrical Engineers, Mr. Hill is currently active on many of its national committees.

Dr. Nicholas Timasheff

Dr. Nicholas Timasheff, escapee from Russia in the early Twenties, and author of many books on Russian law, civilization and Communism, will be a featured speaker. Formerly a lecturer in St. Petersburg until forced to leave the country with the march of communism, Timasheff is now full professor at Fordham University in New York City.

Dr. Timasheff lectured at the Sorbonne in Paris, and at Harvard in 1936. Among his 14 principle published works are: *Offense Against Religion, Law of Soviet Russia; The Great Retreat,* and *One Hundred Years of Probation.*

Debate Team Continues To Be Decisively Victorious

By Don Karp

With the news that UVM's Lawrence Debate Club won the National Tau Kappa Alpha Conference, news of other convincing victories were not as heralded as they would have been otherwise. Perhaps the most important of these victories was achieved at the West Point Regional Eight Debate Tournament where the team of Herzl Spiro and Edwin English won first place for decisions and 2 draws, therefore, edging out Dartmouth and Middlebury who tied for second position with records of 13 wins and 3 deadlocks in a field of 32 teams competing. Not only was the won and loss percentage high, but in 10 out of 16 decisions, Spiro and English ranked first and second respectively in total number of points. The team which was accompanied on the trip by Dr. Robert Huber, chairman of the speech department, found the victory a decisive one on their schedule; for they are now eligible to compete in the Nationals for which they will leave on April 20.

TO INDIANA

From this competition, which took place at Syracuse, Spiro and English then travelled to South Bend, Indiana, where they participated in the Notre Dame Invitational Tournament. Here amidst a field of 24 of the top teams in the nation, Vermont brought home the second place plaque losing to Wilkes College of Pennsylvania in the finals after defeating Dartmouth in the semifinals.

Again demonstrating the depth of the Club, UVM concluded a successful participation in the Georgetown Invitational Debate Tournament held recently in Washington, D.C., without using its top team of Spiro and English. On this trip the affirmative team, composed of Marvin Levy and Leonie Strachan, compiled a record of 4 wins against 3 losses. The negative, consisting of Max Ansbacher and Philip Grover, won 3 and lost 4 for an overall record of 7 wins and 7 defeats. The teams, which were accompanied by Dr. Robert Huber, also met competition along the route to Washington. In a debate at Princeton University, the affirmative team of Levy and Strachan won the decision.

Herbert Simons; Marshall Kroot; Professor Charles R. Helgesen, Director of Debate; John Burgess, and Leonard Kronman.

Program Series To Feature .app, Top Atomic Expert

Dr. Ralph E. Lapp, one of e nation's foremost experts atomic energy and the use the atom, will be the eatured speaker at the nal presentation of the 54-55 program series. He ill appear in the Ira len Chapel at 8:15 p.m. xt Wednesday.

Dr. Lapp is director of e Nuclear Science Service, organization he set up Washington, D.C., in 49 to serve as a consultant industry on uses of atomic ergy. He has collaborated th Stewart Alsop, well- own columnist, in a number Saturday Evening Post ticles covering civil fense, the hydrogen bomb, ctical uses of the atomic mb, and highlights of the omic project. Dr. Lapp's ok, "Must We Hide? " was e first popular study of omic defense and won a de audience in 1949. His Nuclear Radiation Physics " a standard textbook. Dr. pp also served as special itor for the Bulletin of omic Scientists, the most liable periodical on atomic fairs.

omic Energy Advances

His latest book, "The w Force, " published early 1953, is the story of oms and people in both ace and war. Dr. Lapp scusses the pros and cons of large and small bombs, the experiments on tactical weapons ranging from a bomb which can be used in tactical aircraft to one which could be fitted as a warhead in a guided missile. He also cites the progress being made in industrial use of atomic energy.

In his middle thirties,

(continued on page seven)

Redstone Dorm Construction To Begin Soon

The proposed Redstone women's dorm will be built at a saving of about $500,000, because of recent action by the State of Vermont. The state legislature authorized use of its credit to back up the University bonds, thus enabling UVM to take advantage of a lower interest rate.

Construction of the 400 girl building is scheduled to begin this summer. The state has authorized use of its credit for bond issues of up to $1.8 million. No state funds will be involved.

The state would be required to give assistance only of the University defaulted on payment of the bonds over a 60-90 day period.

IFC To Present Yearly Song Fest At Memorial Sat.

The strange noises which have been heard recently in the vicinity of the UVM campus have not all been the chirping of birds ushering in the spring. There has been added the chirping, or should we say harmonizing, of musical notes by fraternity men and sorority women in preparation for the annual Inter-Fraternity Sing. All of the participants have been trying to maintain the atmosphere of secrecy which traditionally surrounds the event. And all will soon be trying to imitate the feat of last year's winners, Delta Delta Delta and Sigma Nu.

John Manning and Dave O'Brien, co-chairmen for the festivities, report that all fourteen fraternities and all eight sororities on campus will participate in the Sing. Memorial Auditorium will be the scene; the program will begin there at 7 p.m. this Saturday night.

Science Majors To Give Lab Show High School Day

UVM Science majors will be on hand Saturday, April 23, to put on a laboratory show for Vermont high school students visiting UVM for High School Day.

The UVM students will be at work all day Saturday in the Williams Science Hall on campus to demonstrate a variety of laboratory equipment including a geiger counter, the stroboscope, the short wave oscillator, ultra violet light, vacuum fractionation, and infrared spectroscopy.

Visiting high school students will also have the opportunity to visit a number of other High School Day exhibits set up by various departments and divisions of the University, as well as the exhibits of the annual Vermont State High School Science Fair, which is this year being held at UVM in conjunction with the High School Day program.

Students who wish to do so may also see exhibits set up for the Town and Country Days Program which is being held Friday and Saturday, April 22-23.

Aldridge To Hold Centaur Meeting

There will be a Centaur meeting Wednesday evening, April 27th at the home of Professor J. Aldridge, 84 Buell St., at 6:30 p.m. Members of the staff are requested to be present and any students who desire to work on next year's publications will be welcome. Editor and officers' elections will be held; future plans will be discussed. Fields for work include literary, art, publication, business, circulation, and advertising.

"Tea & Sympathy" Headlines Artists Series Next Year

Presentation of two symphony orchestras and a Broadway play, "Tea and Sympathy," will headline the inaugural program of The George Bishop Lane Artists Series at the University of Vermont, it was announced by Elizabeth Semans, student chairman for next year's program.

Miss Semans said that the Philharmonia Orchestra of London, conducted by Herbert von Karajan, will be featured in one presentation of the Series, while the Vermont State Symphony Orchestra conducted by Alan Carter will be featured in a concert here with the world famous Zino Francescatti as violin soloist.

The first offering in the Series will come on Oct. 11, when the Canadian Players will be presented. This young dramatic group operates out of Stratford, Ont., scene of a summer Shakespeare festival, and they tour the United States next year with a Shakespearian repertory, and Shaw's "Saint Joan," as well as "Peer Gynt" by Ibsen. The play to be presented in Burlington has not yet been chosen, Miss Semans said.

In addition to the staging of the play, "Tea and Sympathy," the George Bishop Lane Artists Series has also scheduled a presentation of Anna Russell, who is known for her comic interpretations of Gilbert and Sullivan, Wagner, and other musical figures.

A sixth presentation will be announced in the future, according to Miss Semans, who said that tickets for the series will go on sale following student registration at UVM in September.

Songs Welcome Coming Alma Mater Contest

"Everyone is invited to enter the Alma Mater contest," said Bob Corshen, member of the Pep Committee. Either songs or ideas for songs will be welcomed. The deadline for the contest being run by the Pep Committee for a new alma mater for UVM has been changed from April 19 to next semester, September 24, two weeks before Homecoming.

Both students and faculty members decided the later date was better as it would give time to contact more people, including alumnae. This now leaves the summer for contestants to write a song.

The judging of the songs will take place one week before Homecoming next semester by three music professors and three students of the school body. However, if a new song is to be chosen, it must be better than the present one.

Jerry Loucks asks:

What sort of work would I do on my first assignment with Du Pont?

R. GERALD LOUCKS is currently working toward his M.S. in Chemical Engineering at Carnegie Institute of Technology. Jerry has served as president of his student chapter of A. I. Ch. E. and participated in intramural sports—besides finding time to play the trumpet in the R.O.T.C. and Kiltie bands. Right now, Jerry is giving a lot of thought to the selection of an employer.

CHARLES W. LOUNSBURY, Jr., worked at Du Pont's Chambers Works for three summers before he received his B.S. in Chemical Engineering from Rensselaer Poly. Inst. in 1940. Since then he has taken an M.S. from Carnegie Tech., and has been continuously employed on interesting assignments at various Du Pont plants. Today Charlie Lounsbury is Technical Superintendent of the Grasselli, N. J., plant of Du Pont's Grasselli Chemicals Department.

Charlie Lounsbury answers:

There is a great variety of first assignments at Du Pont, Jerry, depending on a man's field of training and the general area of work he has selected. For example, I understand you're interested in plastics, and you might start in *development work* on plastics, as I did. I worked with a team of more experienced engineers to increase the capacity of equipment used in producing "Lucite" acrylic molding powder. This was a natural prelude to my next major assignment, where I acted as a liaison between Du Pont's *Design Division* and the plant group—on the design of a new plant for making another form of "Lucite" plastic.

Or take *research work*. Here a new man is generally assigned to minor research problems until he becomes familiar with the general features and requirements of an industrial research program.

A young man interested in *sales* may start in a plant or laboratory dealing with the products he will later sell; or he may join a group of trainees to learn selling techniques right from the start.

A man aiming for *production supervision* may first spend a year or so in laboratory or plant development work. Or he may start as an operator—in a plant producing nylon or "Dacron" polyester fiber, for example. In this way he obtains firsthand knowledge of his process, and establishes a bond of mutual respect with the men he'll be working with on his major assignments later.

In general, Jerry, a man is chosen for a specific job within the scope of his major field of study. His first assignment is intended to help him make the best use of his abilities as promptly as possible.

WANT TO KNOW MORE about working with Du Pont? Send for a free copy of "Chemical Engineers at Du Pont," a booklet that tells you about pioneering work being done in chemical engineering- in research, process development, production and sales. Write to E. I. du Pont de Nemours & Co. (Inc.), 2521 Nemours Building, Wilmington, Del.

AFROTC Cadets To Attend Summer Training Units

Thirty-five UVM Air Force ROTC cadets will attend Summer Training Units to be conducted this summer at Langley Air Force Base, Va., Griffis Air Force Base, N.Y.; and Ethan Allen Air Force Base.

UVM cadets who will attend summer training at Langley Air Force Base are: Robert Gauthier, Angelo Pizzagalli, Burlington; Raymond Bunker, Fair Haven; Arthur Bylow, Barre; Bruce Dunbar, Swanton; John Fitzpatrick, Pittsford; Edwin Korzun, Winooski; James Laraway, Morrisville; Peter Maynard, Wilmington; Irving Morton, Newport; Hollis Rowell, West Glover; Willard Tresler, South Hero; John Willey, Essex Junction; Donald Aikman, Brooklyn, N.Y.; James Carlin, Forest Hills, N.Y.; Herman Cumming, Jr., Catskill, N.Y.; John Harrell, Plattsburg, N.Y.; Robert Hart, Norwood, N.Y.; Alvin Johnson, Stanfordville, N.Y.; Edward McDonald, Albany, N.Y.; John O'Connor, Brant Lake, N.Y.; George Isaacson, Jr., Tenafly, N.J.; Francis McCrane, Clifton, N.J.; John Noe, Madison, N.J.; Charles Maxson, Westerly, R.I.; John Morse, New London, Conn.; Bruce Walgren, Hartford, Conn.; Kenneth Savela, Fitchburg, Mass.; and Richard M. Smith, Longmeadow, Mass.

At Griffis

Cadets who will attend summer training at Griffis Air Force Base are: Porter H. Cleveland, Burlington; John Buxton, Jericho; Norman Sutherland, Essex Junction; Richard Towne, Morrisville; and William King, Laconia, N.H.

Lowell Carpenter of Burlington will attend summer training at Ethan Allen Air Force Base.

Foreign Service Officers Exam To Be Given Soon

The Department of State Foreign Service Officers Examination will be given on June 24, 1955 throughout the United States. The closing date for the receipt of applications to take this examination is May 2, 1955. Students interested in participating are urged to mail applications to the Department's Board of Examiners for the Foreign Service immediately. Failure to submit the application by May 2 will eliminate candidates from competing in the examination on June 24, 1955.

Information pamphlets, sample questions from the examination and application forms are available from Prof. Little, 116 Old Mill, or may be obtained from the Board of Examiners for the Foreign Service, Department of State, Washington 25, D.C.

Planning Begun On 1955-56 Datebook

Recently the Calendar Committee of the Joint Social Activities Board began work on the activities calendar for the next academic year.

In an effort to avoid conflicts in the scheduling of club programs, this committee will soon request tentative programs from each group on campus. From these a master calendar will be drawn up which will be the basis for the University Date Book.

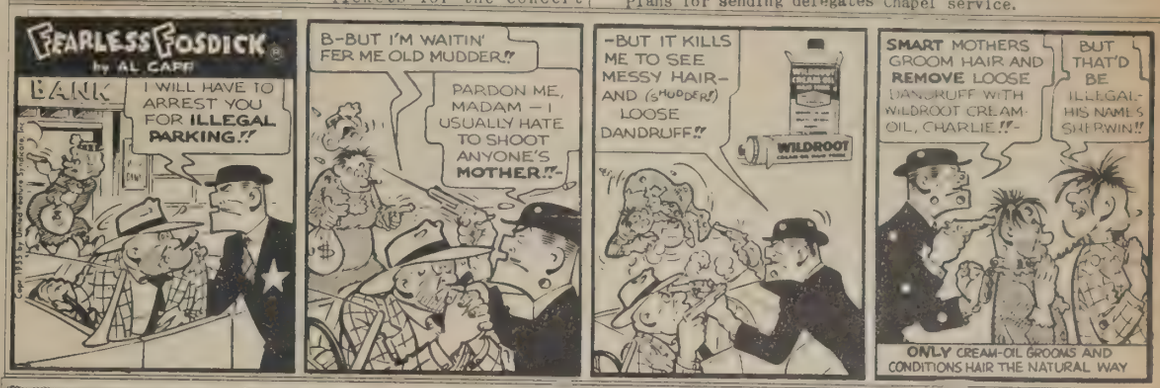
Begin now to plan your group's activities. Watch the CYNIC for further details.

Osler Society To Feature Julliard String Quartet

The Osler Clinical Society of the University of Vermont College of Medicine is sponsoring "an evening of chamber music" by the Julliard String Quartet next Thursday evening, April 28, at 8:30 in the Southwick Auditorium on Redstone Campus.

The Quartet, which has played extensively throughout the United States and Europe, is composed of Robert Mann, first violin; Robert Koff, second violin; Raphael Hillyer, viola; and Claus Aden, cello. The group represents one of the country's most outstanding young string quartets, according to critics who have acclaimed the group for its "interesting and versatile repertoire."

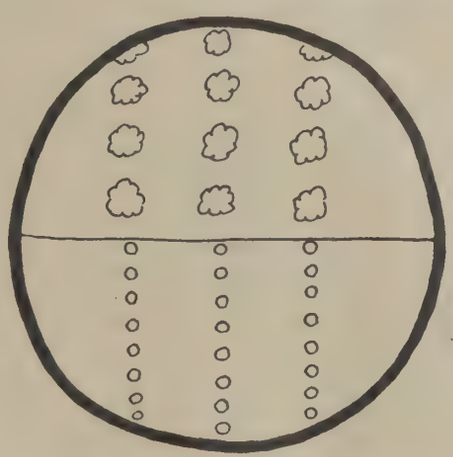
The quartet, which has recorded in the Columbia American Chamber Music Series, will present a program of music by Hayden, Beethoven and Ravel in their appearance here, which is open to the public.



Tickets for the concert may be obtained at the University Store, the Everyday Book Store, Bailey's Music Store and Carbee's.

Newman Club Held Its Trip To Montreal

The UVM Newman Club last Saturday held its annual trip to Montreal, with about a dozen members participating. The Newmanites made the trip by car, visiting famous Montreal shrines and dining at Ruby Foo's, one of the city's best-known restaurants.



Plans for sending delegates to the Province Convention were discussed at the monthly meeting of the Newman Club last Sunday. The convention will be held next weekend in Springfield, Massachusetts. The Newman clubs throughout New England are expected to send delegates.

A Forty Hour's devotion will be held in the Chapel on Monday and Tuesday, with members of the Newman Club invited to participate. The girls are expected to watch during the hours from 4 P.M. through 10 P.M., while the boys are urged to watch after 10 P.M. Cards to be filled out with the hour chosen will be distributed at Mass on Sunday; some were given out at yesterday's Chapel service.

LUCKY STRIKE
"IT'S TOASTED"
CIGARETTES

"IT'S TOASTED" to taste better!

NO MATTER WHERE YOU ARE, you'll get more pleasure from your cigarette if it's a Lucky Strike. That's the point of the Droodle above, titled: Three deep-sea divers enjoying Luckies. You get *deep-down* smoking enjoyment from Luckies because they taste better. Why do they taste better? That's easy to *fathom*. First of all, Lucky Strike means fine tobacco. Then, that tobacco is *toasted* to taste better. "*It's Toasted*"—the famous Lucky Strike process—tones up Luckies' light, mild, good-tasting tobacco to make it taste even better . . . cleaner, fresher, smoother. So, when it's light-up time, light up the better-tasting cigarette . . . Lucky Strike.

Better taste Luckies... **LUCKIES TASTE BETTER**...Cleaner, Fresher, Smoother!

EDITORIAL

Congratulation

The University is fortunate in having such men as Prof. Greg Falls around. He and his University Players Organization are constantly progressing and experimenting into new fields of dramatics. Ample praise has already been bestowed upon the magnificient production of OKLAHOMA, and there was much favorable comment on the theory of producing a show " in the round ".

But there is much difficulty in producing any play and the University Players is doubly handicapped by the lack of a playhouse. Memorial Auditorium is very inconvenient if only because of the distance and lack of accomodations. The seating for that building is not very good either; it is difficult to enjoy the show if you must sit on hard wood benches without any backing except for the knees of the person behind you.

Southwick is not too good either. There is great conflict of time between the Players and the women's athletic program. There is also a lack of storage space.

For several years the Players have been conducting a building fund with which they would either build their own building or, at least, reconvert some university building to their needs.

It should be pointed out that construction of a separate building for the University Players would not be a duplication of the University's plans in eventually constructing a proposed auditorium-gymnasium combination. The Players are not interested in a giant building that could also be used for commencement ceremonies of Vermont Conference, or the like. The University Players hope to construct an intimate little stage with a seating capacity of about 400. Here in comfortable seats the audience could witness a real production of " theatre-in-the-round ", and the Players could have efficient solutions to their production problems. And the whole university would gain by having their own student theatre - a building that would harmonize with the newer campus architecture.

Much needed University building plans leave no money for the construction of such a theatre, low though the total cost might be. So the University Players have undertaken to raise the money themselves. A good start has been made and it is to be hoped that in the not too distant future this organization will have the building which it so badly needs and richly deserves.

Don Hardy

And while we are congradulating people a quiet word of thanks should be given to Mr. Donald Hardy and his office of Coordinator of Student Affairs. In a way this office serves as a nerve center and clearing house for all campus student activities. Programs and calendar dates are cleared through the COSA office as well as requisitions for classrooms and other university properties.

With so much campus activity, a well run coordinating service is needed and that is just what is supplied. As with anything else there is a certain amount of red tape that must be catered to, but the end result of a smoothly running campus social and activities world makes the office worth while and necessary.

Mr. Hardy also runs the school Lost and Found, as well as an informal travel bureau for students considering educational tours abroad this summer.

In an informal capacity he is always ready to advise students and is a tremendous help to all student organizations.

Letter to the editor

To: The Editor of the Cynic

Lest some incorrect conclusions be drawn from President Lucchina's letter to the student body in last week's CYNIC, we feel that one point merits clarification.

The suggestion that faculty members and student body work together to improve the academic climate on the campus is one about which we are enthusiastic and one in which we are anxious to participate. We did not, however, indicate to Mr. Lucchina that we thought this cause would be furthered by "...establishing a committee to make an annual survey of student ratings of faculty and to publish a critique of courses..."

The AAUP and Student Association are two groups which could effectively organize and develop a program of evaluation of all aspects of academic program at UVM but only after there has been agreement on the modus operandi which has as yet not been discussed on a joint basis.

Professor Donald Gregg
Dean Robert Kroepsch

To: the Editor of the CYNIC

It has been my policy in these open letters to outline proposed projects to keep the students informed of what is going on and to air my views in these and other matters. That is all.

George G. Lucchina

To All Campus Organizations

From: The Calendar Committee of the Joint Social Activities Board.

The Calendar Committee is charged with the task of developing an activities calendar for 1955-1956 which will permit the many diverse functions at UVM to operate as smoothly as possible. This means eliminating serious conflicts in dates, and scheduling activities in such a way that those interested may get the greatest benefit. This letter is to outline our procedure in arriving at such a calendar.

1. Obtain a date card at the office of the Coordinator of Student Affairs by May 6th. Please indicate (a) name of function, (b) preferred date, (c) alternate dates. Please note: (In planning your program please consult the back pages of the latest University catalog for the vacation and exam schedules for 1955-1956. Please keep in mind that preceding each semester exam period, there is a dead week.)

2. The Calendar Committee will then draw up a tentative calendar, and will submit it to all interested parties at a meeting in Room 239, Waterman Building, at 7:00 p.m. on Wednesday, May 18, 1955.

3. Please send a representative to this meeting to receive the proposed calendar and to discuss any changes or adjustments that may be needed.

4. It is essential that a representative from your group attend in order to eliminate date conflicts that may arise. Those clubs failing to submit dates and/or not having a representative at this important scheduling meeting automatically looses its right for consideration in case of conflict.

5. The completed calendar will be submitted to the Joint Social Activities Board for approval.

The Calendar Committee, in cooperation with the Student Association is also responsible for preparing the UVM Date Book. Would you turn over to the Committee, at your earliest convenience, any photographs of your activities which you think would be appropriate for the Date Book?

Sincerely,
Donald P. Hardy

Chairman-Calendar Committee

Note: With deferred rushing beginning next year, there will be a large segment of our student body which will need recreational outlets on weekends, particularly on Saturday nights. Some groups may now find this a good night for scheduling social events.

To All A&S Students

To Students of the College of Arts and Sciences:

Preliminary enrollment for the next academic year will be held from May 2 to 7 inclusive. During this period all students who expect to attend next year must file preliminary enrollment cards showing the courses they plan to take during each semester of the year.

This preliminary enrollment is designed to give each student an opportunity to consider his selection of courses carefully, in consultation with his advisor or the Chairman of the Department in which he plans to concentrate, and to make sure that all distribution and concentration requirements are met.

1. Students will obtain enrollment cards at the Dean Office.

2. Students will then consult faculty members as follows, and have their selection of courses approved:

A. Pre-medical students will consult their pre-medical advisors;

B. Freshmen in the Liberal Arts curriculum will consult their assigned advisors;

C. Each sophomore and each junior in the Liberal Arts curriculum will consult the Chairman of the Department in which he plans to concentrate.

Note: Those who plan to concentrate in Economics must enroll between 9 and 12 a.m. or 1 and 5 p.m. in Room 212 North College according to the following schedule: Students whose last names begin with letters from A - G on May 3, H - O on May 4, and P - Z on May 5.

3. Cards when fully filled out and signed by the appropriate advisor are to be returned by the student to the Dean's Office.

Those who have special difficulties of any sort may consult the Dean. Appointments should be made in advance.

Students who do not fill out and file preliminary enrollment cards by May 7 may be refused permission to return for the next academic year.

Chasing Around The Green

By Carol Chase

With the arrival of UVMers for the last lap of this semester came the lovely spring weather to greet us. We noticed that blazers were back in fashion and also that lethargic mood which arrives each year about this time (especially for those fortunate ones who still have a bit of Bermuda in their veins!). However, it doesn't take too long before we all regain consciousness once again and get back into the routine. So, here we go with some of the goings on about the campus.

ACACIA

Recently initiations were held at which time Richard Turner, '57, of Montpelier, Vermont, and Gordon Hoxie, '56, of Danville, Vermont, became brothers of the Vermont Chapter of Acacia.

Just before spring vacation the following men were pledged to Acacia: Bruce K. Dunbar, '56, of Swanton, Vermont; Ervin Josilyn, '57, of Waitsfield, Vermont, and Terry L. Scribner, '58, of Island Pond, Vermont, plus men become eligible under the new deferred rushing program and we are glad to have them as pledges.

On March 21, the Vermont Chapter of Acacia Fraternity, proudly announced the election of its new slate of officers. They are as follows: Venerable Dean - David Curwin, '57, of Ridgewood, N.J.; Senior Dean - David Walker, '57, of Morrisville, Vermont; Junior Dean - Alan H. Smalley, '57, of Johnson, Vermont; Treasurer - Richard Turner, '57, of Montpelier, Vermont; Secretary - Gordon Hoxie, '56, of Danville, Vermont; Senior Steward - Ted Engel, '56, of Burlington, Vermont; Junior Steward - Bob Slade, '56, of Springfield, Vermont; Senior IFC Representative-Dave Curwin, '57, of Hawthorne, N.Y.; and Public Relations Director - Mal Hunter, '56, of Millerton, N.Y.

The engagement of Mal Hunter, '56, of Millerton, N.Y., to Jean Mills, '56, of Paterson, N.J., was announced during Spring vacation.

ALPHA DELTA PI

The Alpha Delts initiated the following new sisters on Sunday morning, March 20; Madeline Fournier, '57, Burlington; Ann Lockwood, '57, Larchmont, N.Y.; Ann Barton, '57, Brant Lake, N.Y.; Carol Stewart, '58, Meriden, Conn.; Alison Davis, '58, Ely; Elizabeth Johnson, '58, Hartford, Conn.; and Janice Frazier, '57, Meriden, Conn.

Following the ceremony a banquet was held at Shelburne Harbour Inn honoring the new sisters and the following new alumni: Mrs. Warren R. Austin, Jr., Mrs. Elliot Cox, and Mrs. R.D. Harvey.

Mrs. Robert Huber was mistress of ceremonies at the banquet. Madeline Fournier was chosen the outstanding pledge and Carol Stewart read her prize-winning essay. Ann Barton received honorable mention for her essay.

Judy Patten, '55, of Cuttingsville, is pinned to John Whalen, '56, Burlington, of the Owls.

DELTA DELTA DELTA

On Friday, March 18, Tri Delta initiated into the sorority eleven new members. They include: Marty Abell, '57, of Burlington; Shirley Behrens, '57, of Snyder, N.Y.; Gail Dick, '57, of Brandon, Gerry Feyrer, '57, of Chatham, N.J.; Ann Frazer, of Rye, N.Y.; Claire LeConte, '58, of Massapequa, N.Y.; Lee McBride, '56, of Snyder, N.Y.; Freddy Hill, '58, of East Brookfield; Mary Lou Reedy, '58, of Rutland.

Following the initiation ceremony which was held at the sorority house, the members attended a banquet in the Orchard Room of the Hotel Vermont where awards were presented to five of the outstanding members. Freddy Hill was presented a bracelet for being the most outstanding pledge of her class. The award to the most outstanding junior was given to Ann Harriman, '56. Lynn Eger attained the highest average in the sorority. Ann Frazer received an award for having had the highest average in her pledge class. To Micky McGrath, '56, went the award for the greatest scholastic improvement.

A new addition to Bev Cameron's apparel is the five-pointed star of Charlie Hicks, a Sigma Nu sophomore, who hails from Granville, N.Y. Monday night the Sigma Nus came down and serenaded her at the house.

GAMMA PHI BETA

Beta Nu Chapter of Gamma Phi Beta initiated sixteen new members at the chapter house on Saturday, March 18. The new initiated are: Connie Allen, '57, Costine, Maine; Mary Bohmer, '58, Caldwell, N.J.; Mary Booth, '58, Bridgewater; Lindsay Burleson, '58, Castile, N.Y.; Pamela Crooks, '58, Burlington; Nancy Davis, '58, Greensboro Bend; Jean Dunbar, '57, Swanton; Jane Eichler, '58, Forest Hills, N.Y.; Kay Evanson, '57, Swanton; Judy Fletcher, '57, Ithaca, N.Y.;

THE STUDENT COUNCIL

Today let us investigate a phenomenon of American college life called the student council. First of all, what is the student council? The answer is simple: the student council is a council of students.

Next, what does the student council do? Again the answer is simple: it meets.

Next, what goes on at the meetings? This question is rather more complicated than the others. Perhaps it can best be answered by reproducing here the minutes of a typical meeting of a typical student council.

Meeting scheduled for 8:30 p.m. at Student Union Building. Call to order 9:51 p.m. by Hunrath Sigafoos, presiding. Motion to adjourn made by Louis Bicuspid, freshman representative. Motion ruled out of order by Hunrath Sigafoos, presiding. Hunrath Sigafoos called "old poop" by Louis Bicuspid, freshman representative. Seconded by Delores Wheatgerm, sophomore representative. Tabled by Hunrath Sigafoos, presiding.

Minutes of last meeting read by Zelda Pope-Toledo, secretary. Motion to accept minutes made by Hunrath Sigafoos, presiding. Motion defeated.

Treasurer's report not read because Rex Mercredi, treasurer, not present at meeting. Rex Mercredi, treasurer, impeached in absentia.

Motion made by Louis Bicuspid, freshman representative, to allow sale of hard liquor in school cafeteria. Seconded by Delores Wheatgerm, sophomore representative. Motion tabled by Hunrath Sigafoos, old poop.

Motion made by Booth Fishery, fraternity representative, to permit parking in library. Motion referred to committee.

Motion made by Gladys Algae, junior representative, to allow attendance in pajamas and robes at first hour classes. Motion referred to committee.

Motion made by Elwood Feldspar, athletics representative, to conduct French Conversation classes in English. Motion referred to committee.

Motion made by Esme Plankton, sorority representative, to allow hypnosis during Rush Week. Motion referred to committee.

Motion made by Pierre Clemenceau, foreign exchange student, to conduct German Conversation classes in French. Motion referred to committee.

Motion made by Harriet Critter, ag campus representative, to allow faculty members above the rank of assistant professor to perform marriages. Motion referred to committee.

Observation made by Martha Involute, senior representative, that in her four years on student council every motion referred to committee was never heard of again. Miss Involute was tabled.

Motion made by Louis Bicuspid, freshman representative, to allow sale of hard liquor in Sociology I and II. Seconded by Delores Wheatgerm, sophomore representative. Motion tabled by Hunrath Sigafoos, presiding crossly.

Refreshments served. Coffee, cake, Philip Morris Cigarettes. The following resolution adopted by acclamation:

"WHEREAS Philip Morris is milder, tastier, more exhilarating, and chock full of rare rich vintage tobaccos; and WHEREAS Philip Morris is contained in the patented Snap-Open pack which is the quickest, simplest, neatest container yet devised for cigarettes; and WHEREAS Philip Morris, the most commendable of smokes in the most admirable of wrappings, is available in both king-size and regular; therefore BE IT RESOLVED that it is the sense of this meeting that Philip Morris is far and away the best cigarette buy on this or any other campus."

Meeting adjourned with many a laugh and cheer at 9:58.

Respectfully submitted,
Zelda Pope-Toledo, Secretary

© Max Shulman, 1955

The makers of PHILIP MORRIS, who bring you this column, move that today's PHILIP MORRIS is the best ever. We know you'll second the motion.

UVM Clippings

News Of Faculty And Staff

Prepared By The Public Relations Office

UNIVERSITY OPEN HOUSE

Our campus will be welcoming a host of visitors from all parts of the state this weekend as a number of major events have been brought together through long and detailed planning by faculty, staff and students from all colleges and divisions of UVM.

Students will have the opportunity to raise the curtain on this long and busy weekend when the fourth annual Vermont Conference, scheduled for Thursday and Friday, convenes in the Chapel with a number of outstanding speakers who will discuss this year's theme: "The University Student-Educated for What?"

On Friday, the University's fourth annual Town and Country Days program will open with featured speakers, exhibits and demonstrations set to take over much of our campus as Friday and Saturday become days when UVM and the people of the Vermont have a chance to get to know each other better.

On Saturday, Vermont high school juniors and seniors will be welcomed on campus for the third annual High School Day program.

Added features of the Town and Country Days and High School Day programs are the annual State High School Science Fair which will bring scientific exhibits to the campus for judging, as well as the annual State High School Debate Tournament and Speech Festival which will be run by UVM's department of speech.

CAPPING CEREMONY

Seventeen first-year students in the School of Dental Hygiene received their caps in ceremonies conducted at Southwick on Sunday.

Speakers included President Borgmann, Dr. Robert Aiken, commissioner of Health; Dr. C.I. Taggart for the American Dental Association; Dr. Byron W. Bailey for the Council on Health of the American Dental Association; and Phyllis Quinby.

OVER THE TOP

Harold Collins reports that a total of $1,410 has been raised to date in the annual Red Cross Drive on our campus. The figure puts UVM $210 over this year's quota, Mr. Collins notes, adding that additional contributions are expected.

CHAPLAIN AT UVM

An Air Force Chaplain whose parish extends from Hawaii to Puerto Rico and includes 46 states, spoke recently to UVM's AFROTC cadets in the Ira Allen Chapel. Lt. Col. Vernon Rogers told students that their responsibilities as future officers of the Air Force can be successfully carried out if their actions are guided by the moral law.

Meetings

Phi Beta Kappa

There will be a meeting of members of Phi Bete Kappa on on Wednesday, Apr. 27 at 4:30 p.m. in the PBK room in the Waterman Building.

Purpose of the meeting is to elect new members to the chapter. All members are urged to be present.

A meeting to initiate the new members will be held on Monday evening, May 2, at 7:30 in Room 364 of the Waterman Building. A reception for the newly initiated members will be held in the PBK room immediately following the initiation.

All members and their husbands and wives are invited to attend the reception.

The Sigma Xi

There will be a meeting of the Society of the Sigma Xi on Tuesday, April 26 when initiation of new members will take place in Room 364, Waterman at 5:30 p.m.

A dinner will be served in the President's Dining Room at 6:15. Reservations for this must be in (Call Ext. 323) by Thursday, Apr. 21.

A lecture will follow the dinner at 8 p.m. in Room 239, Waterman, when Dr. Harold F. Blum of Princeton University will speak on "Some Perspectives in Evolution."

Dr. Blum is perhaps best known as the author of "Time's Arrow and Evolution," a book in which he discusses the application of thermodynamic principles to the study of evolution. Much of his time, however, is devoted to fundamental problems of cancer research, and he has been primarily concerned with factors which influence the growth of skin cancers.

Faculty Notes

Dick Hopwood has received a letter from Lewis Feuer, summarizing "some of my activities during the past months." With CLIPPINGS' recent report on Mr. Feuer, this report would seem to establish what no one doubted: that Mr. Feuer is busy.

He writes to Mr. Hopwood "A few more of my articles have been published. The leading article for the April issue of "The University of Toronto Quarterly" is my essay, "Bertrand Russell: the Pilgrimage of Scientific Philosophy." The March issue of "Philosophy and Phenomenological Research" carried a long article of mine entitled "Political Myths and Metaphysics" as well as a review of Sartre's Existential Psychoanalysis.

"The Encyclopedia Americana has asked me to do two articles for their next edition, "Dialectic Materialism" and "Dialectic."

"I read a paper at the Christmas symposium of the American Philosophical Association...entitled "Causality in the Social Sciences," (which) was published in the "Journal of Philosophy" at that time.

"On March 24...gave a lecture entitled "Indeterminacy in the Social Sciences" to the Department of Philosophy and graduate students at Columbia University.

"Otherwise, I have been attending seminars in sociology and American history...

"I have been following with much interest all the recent news and developments at the University of Vermont, and am looking forward to returning soon."

Charles Helgesen brought double honors for UVM to the recent National Tau Kappa Alpha Debate which was won by a team of four UVM debaters.

Besides coaching our winners in this, one of the largest and most important of collegiate debate tournaments, Mr. Helgesen also brought greetings as the Regional Tau Kappa Alpha Governor for the Eastern Division.

He relates that UVM's debaters- John Burgess, Leonard Kronman, Marshall Kroot and Herbert Simons, met some of the top debaters in the country as they finished first among 34 competing colleges and universities.

Next stop for Mr. Helgesen and UVM's debaters, will be the National Debate Tournament at West Point where a win would give UVM a sweep of the two top tournaments. Herzl Spiro and Ed English will represent the University.

• • •

Catherine Nulty attended the meetings of the Eastern Business at the Bellevue-Stratford Hotel in Philadelphia, Pa., Apr. 6-9. Miss Nulty served as the first woman president of the Association, and as the first woman editor of the Association's yearbook.

• • •

Charles Doll attended the recent annual meeting of the New England Section of the Association of Geology Teachers at Tufts College.

The group made a field trip to the north Boston area, and Mr. Doll, retiring president of the New England Section, gave the main addition to serving as chairman for the final morning session.

Allen Herzberg, Neil Meurlin, and Frederick Aldrich accompanied the University's AFROTC Drill Team Competition held at the Hartford Armory.

ACROSS THE FENCE

1-1:15 Monday - Friday

April 22 - "Town and Country Days Feature"

Interviews with several of leading Town and Country Days speakers.

April 25 - "Lambing Time"

Don Balch, Vermont Animal Husbandman and two baby spring lambs.

April 26 - "Hemlines"

Lois Soule and Muriel Bohne of the Vermont Home Economics Dept. demonstrate the importance of hemlines to "My Lady's" appearance.

April 27 - "Rats!"

George MacCollom, Vermont Entomologist demonstrates the methods of rat control.

April 28 - "Let's Go Fishing"

G.L. Wright of Essex Junction, Vt. Fish and Game Service Commission and Stewart Phillips of Wood's Sporting Goods Store exhibit a prize trout and give the inside story of fishing in Vermont.

UVM AFROTC Drill Team Places In Conn. Competion

A fifth place in the New England Drill Team Competition was registered by the UVM Air Force ROTC Drill Team in an area-wide competition held in Hartford, Conn., last Sunday.

The UVM team competed only in the unarmed division, along with ten other squads. A total of sixteen squads competed in the whole competition, which included both armed and unarmed divisions.

The fifth-place win was termed "quite an accomplishment" by Capt. Frederick C. Aldrich, drill team advisor. "We have never sent a squad to a drill competition before" he stated. "Added to this is the fact that the majority of the team are freshmen, and that they had never done their routine in front of an audience before. For these three reasons, I have great expectations for the squad in next year's competition."

The UVM team was composed of thirty cadets under the supervision of Cadet Colonel Luther Hackett of Burlington, Cadet Captain Carl Haviland of Red Bank, N.J., and Cadet Sergeant Max Rothman of Burlington. The squad was accompanied to the competition by Col. Allen F. Herzberg, professor of Air Science, and by Capt. Neil D. Meurlin and Captain Aldrich.

Members of the team are Ronald Albrecht, Londonderry; Robert Ault, Jersey City, N.J.; Maurice Barry, Bellows Falls; James Baughman, Wellesley Hills, Mass.; Richard Callahan, Montpelier, Richard Chapman, Burlington; Dennis Copeland, New York City; David Hoelterling, Berkeley Heights, N.J.; Richard Davis, Essex Junction; Robert Denis, Montpelier; Peter Dooley, Fairlee; Ronald Downer, Hingham, Mass.; Daniel Joffe, Mt. Vernon, N.Y.; Walter Knorr, Yonkers, N.Y.; Robert Maynard, Wilmington; Paul Miller, Pompton Plains, N.J.; William Pickens, Brooklyn, N.Y.; Robert Regazzini, Medford, Mass.; David Reilly, Fairlawn, N.J.; James Russell, Orange, N.J.; Edward Sinclair, Windsor; Kenneth Smith, Rutland; Edwin Teich, Great Neck, N.Y.; David Terwilleger, Franklin Lakes, N.J.; Herbert Wagreich, New York City; Joel Wechsler, New Rochelle, N.Y.; John Wheeler, Richmond; Robert Wilson, Hudson Falls, N.Y.; Richard Wilson, Methuen, Mass.; and Michael Zacchilli, Bryantville, Mass.

Ballet Theater To Appear In Memorial Aud. May 9

An ambition to dance in all 48 states will bring the Ballet Theatre to Vermont on Monday evening, May 9, as the group celebrates its 15th year.

The appearance of the Ballet Theatre in Burlington's Memorial Auditorium will make the Green Mountain State the 47th state in which the dance group has performed, according to Marjorie Rowell, student director of the UVM Program Series which will sponsor the Ballet Theatre here in a special presentation.

The program was arranged, according to Miss Rowell, when the Ballet Theatre contacted the UVM Program Series to inquire whether, at very short notice, the Program Series could handle the local arrangements for a performance. The students and faculty on the committee decided that in spite of the work involved in bringing the Ballet to Burlington, the event would roundout the career of the Program Series which next year will give way to the George Bishop Lane Artists Series.

The ballet program will not be a part of the current Program Series which will conclude this year's offerings with a lecture by Dr. Ralph Lapp on Wednesday, Apr. 27, according to Miss Rowell who explained that the UVM group will be involved only in arranging for the auditorium and setting up the ticket sale, details of which will be announced soon.

Lapp

(continued from page one)

Dr. Lapp is a Phi Beta Kappa graduate of the University of Chicago, where he also earned his doctorate in cosmic ray physics under Dr. Arthur H. Compton. He began his professional scientific work with the late Dr. A.J. Dempster, discoverer of U-235. Later, he was associated with Dr. Vannevar Bush and Dr. J. Robert Oppenheimer.

Dr. Lapp served as division director of the famous wartime Manhattan project, and during postwar years was assistant director of the Argonne National Laboratory until appointed scientific adviser to the War Department general staff. In 1947, he was made executive director of Dr. Bush's Research and Development Board. A year later, he switched over to the Navy Department to head the nuclear physics branch of the Office of Naval Research. Being a veteran of two cosmic ray expeditions in the Rockies, Dr. Lapp led the scientific group at both A-bomb tests at Bikini in 1946.

Dr. Lapp attempts to ease the public mind somewhat by painting a glowing picture of the peaceful aspects of atomic energy in examining the progress made in recent years in medical research and industrial uses for "the new force."

Alma Mater

(continued from page two)

The idea for a new alma mater was voted on by the student body last semester. Student Association turned the job over to the Pep Committee, who started the contest and set the orginal date for April 19, hoping it would be ready for Inter-Fraternity Sing.

Conference

(continued from page one)

Labor Relations here in Vermont, Francis B. Butler, of St. Albans, will also speak. Mr. Butler was Secretary-Treasurer of the Vermont Federation of Labor, and attended the Harvard School for labor leaders, being one of few selected for that honor.

Professor Mark Perlman

A full Professor at the New York State School of Industrial and Labor Relations, Dr. Mark Perlman, will join Mr. Butler in bringing labor and management's views to the conference.

Dr. Perlman is a member of the Board of *Editors, Industrial and Labor Relations Review*, a trade journal. He received his doctorate from Columbia University in 1950. He has several published works relative to his field of study.

Judge Hazel Schwartz

Judge Hazel Schwartz, of the Municipal Court of New York City, will round out the panel of speakers. Judge Schwartz has been active in combating juvenile delinquency in and around N.Y.C., where her work as a jurist brought mention in the *New Yorker* several months ago.

Moderator of the panels will be Dr. Stephen Bailey, Director of Princeton's Woodrow Wilson School of National and International Affairs, and former mayor of Middletown, Conn.

Deadline Apr 22 For K W Funds

The deadline for my club or organization to petition for Kake Walk Disposition Committee Funds is Friday, April 22. All requests should be given to John Manning, chairman, by that time.

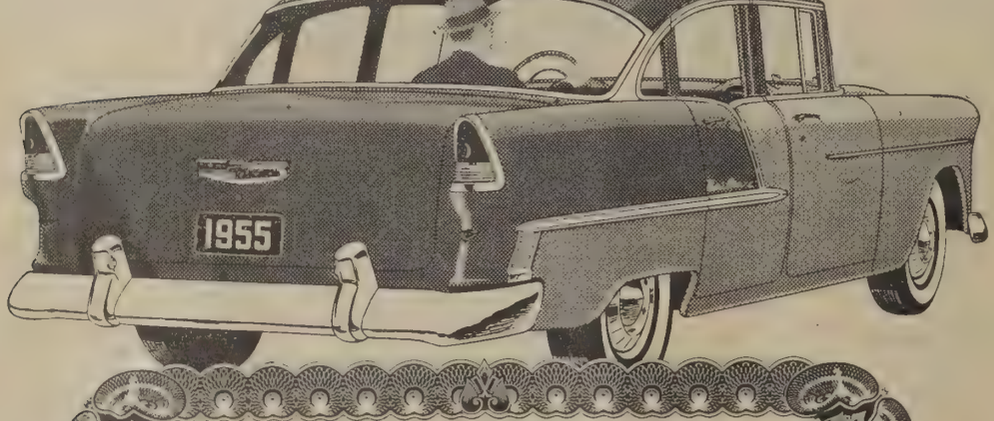
See it—

Drive it—

WIN IT!

You'll find a world of new fun at the wheel of a new Chevrolet—and the exciting discoveries you make can help you win one!



Driving a beautiful new Chevrolet is thrill enough any time. It is more rewarding right now, because the things you find out on your drive can help you win a 1955 Chevrolet plus a $1,000 U. S. Savings Bond!

For instance, your drive will show you what it means to sit in a luxurious Fisher Body, to see all four fenders from the driver's seat, and to get a man's-size look ahead through a Sweep-Sight windshield.

You'll learn that Chevrolet puts new comfort in *going!* New Glide-Ride front suspension and Outrigger rear springs. New ease to guiding the car with Ball-Race Steering. A new smoothness to all stops with Anti-Dive Braking Control. A constant flow of outside air from the new High-Level ventilation system.

You'll discover new fun whether you drive Chevrolet's new 162-horsepower "Turbo-Fire V8" or one of the two new 6's. (All with the only 12-volt system in their field.) You can learn about the smoothness of three great transmissions—automatic Powerglide, new Overdrive (extra-cost options) and Synchro-Mesh.

Come in soon. Pick up your entry blank and get the complete details on Chevrolet's big Miracle Mile Contest. It's easy to enter and you'll enjoy yourself. So drop in while there's still plenty of time left to win!

MIRACLE MILE CONTEST

102 New Chevrolets plus

$1,000 U. S. Savings Bonds Given Away

It's easy! It's fun! A demonstration drive can give you clues to help you be a winner! There's no cost—nothing to buy. Come in for entry blank and complete details.

COMPLETE and OFFICIAL figures show that again in 1954—for the 19th straight year—

MORE PEOPLE BOUGHT CHEVROLETS THAN ANY OTHER CAR!

See Your Chevrolet Dealer

By Susan Wakefield

Listen to 'em out there! They're applauding - they're laughing - it's wonderful! It's a *show* !

We dancers nervously waited below the stage for our cue. We had already dressed in the swishy brief costumes for our first number. I was like a tightly wound spring. I couldn't sit down, but must walk, stretch tight muscles, tie a bow more perfectly, put crayon an eyebrow darker.

We warmed up in unison, our legs up on the back of chairs. Then we all practiced desperately those last little things. - Oh, I hope I remember to turn here, and everybody- *smile* ! (and wave at all the nice people in the $2.50 seats).

Our cue sounded. We scampered upstairs with jitters. We walked out on the brilliant stage with jitters. The audience wrapped around us like warm cotton. The jitters began to melt slowly as we went through the familiar steps " Many a New Day." Oops, backed into a barrel! Ooooh, and my parents are in the audience. Well, the show must go on. And certainly nothing worse can happen to me now!

We ran off the stage, too excited we wanted to yell! We couldn't wait to go on again, to fell that wonderful applause beating on us like a hot shower.

Our big number was still coming up - the can-can. Sid Posner, Sandy Phippen and I raced to change into glamorous black elastic stockings and satin dresses. We made our eyes huge and luminous with silver eye shadow until they looked like they were pasted on our faces. Marty Howe and Bob Barth sprinkled " sparkly stuff " in our hair, then pulled on long black gloves, and did we feel wicked and French? Mais oui!

On this enchanted night we weren't UVM students, we were "of the stage." We had forgotten the past week of rehearsals every night from seven to one, and the two months of hard and three-hour rehearsals three or four times a week. The aching muscles, blisters, bruises, and Roy Kelley's falling arches were all a thing of the past.

All our work had culminated in this single performance. We wanted to give *Oklahoma* again and again -- every night for weeks and weeks.

I went to bed Saturday night with the exciting aroma of makeup and cold cream still clinging to my face. I lay there for hours doing the can-can in my mind a hundred times over with the brassy music banging in my ears and muscle tense

Yankon Race Seen As Tight For 1955

No Team Has Great Edge

New England's six state universities will play 26 baseball games this spring within the framework of the Yankee Conference, including seven doubleheaders, with Hank Swasey's defending champions from the University of New Hampshire facing serious opposition from all five foes in the 1955 pennant race.

New Hampshire's defending champions face the prospect of replacing mound aces Dave Colpitts and Charley Sowerby. At the moment Swasey, with a good hitting club, has only one reliable pitcher, left hander Joe Kazura.

Massachusetts lost Don Swanson to the Pacific Coast league, but has Phil Tarpey, top right hander in last year's New England championship drive, and relief ace Joe Faucette. Shortstop Bob Pedigree was among those lost by graduation and is the property of the Cleveland Indians.

Rhode Island is encouraged by the presence of more hitting strength to back pitcher Dave Stenhouse, one of the toughest in the league. The return of Sal Ferrara, left handed hitting first baseman, and the arrival of Angelo Dagres who hit well over .400 for the freshmen, make Coach Bill Beck's Rams a definite title threat.

Maine, off its win over Army, Connecticut and Vermont all have well balanced entries which can cause consternation in the ranks of the favorites.

Conference play actually gets underway on April 19 when Coach J. Orlean Christian brings his UConns to Amhurst for a twin bill with Earl Lorden's Redmen.

Vermont plays 6 games in Yankon action as they have 3 doubleheaders. They meet Rhode Island April 23 at Kingston and face UMass and UConn respectively in doubleheaders at Burlington on May 7 and 19.

'Mural Mirror

By Ken Brunjes

VOLLEY BALL

Last week the Delts beat TEP to take their league championship and then beat Phi Sigma Delta to take the Campus championship and then beat Phi Sigma Delta to take the Campus championship. In league B it was close for if TEP had beaten the Delts the league would have been in a three way tie for first place. While in league A the Phi Sigs romped with a 9-0 record. In best 3 out of 5 for the campus championship Delta Psi won the first two games with the score of 15-6. They lost the third game 4-16 but clinched the championship with a 15-8 win in the fourth game.

The final standings:

League A

Phi Sigma Delta	9-0
Sigma Alpha Epsilon	6-3
Kappa Sigma	5-3
Sigma Nu	3-4
Alpha Epsilon Pi	2-6
Lambda Iota	0-9

League B

Delta Psi	4-1
Phi Delta Theta	3-2
Tau Epsilon Phi	2-3

SOFT BALL

Last Tuesday was the opening day of Intramural Softball. This year, four leagues will participate. The first three consisting of fraternity teams; the last consisting of dorm teams. In the first round each team will play in their respective leagues. Round 2 will consist of a playoff elimination bracket comprised of 8 teams. 3 teams from league A, 3 teams from league B and 2 teams from league C) The winner of Round 2 will play the winner of the dorm league to decide the all campus championship. The athletic office wishes to opologize for the short schedule this year, but it is pointed out that the new shorter schedule will make it possible to complete all games for the first time in several years.

Schedules, Practice time and pertinant information should be picked up at the athletic office.

Sports From Southwick

By Joan Armstrong

Green Mountain Play Day

The important event of the Spring Season will be an intercollegiate play day at Green Mountain Junior College on May 14, Saturday. UVM will be represented by their best players which will include; a softball team, four tennis and four archery players. These girls will be picked from those WRA members in the respective clubs. If you are interested in trying for one of these places, anyone is elligible to participate in these clubs. The Tennis Club meets at 4:00 on Tuesday and Thursday, the Archery Club on Monday and Wednesday at 4:00 and the Softball Club at 4:00 on Tuesday and Thursday.

WRA Picnic

At the WRA meeting it was decided to have the annual picnic for awards at Rock Point on Thursday, May 19 at 4:00. Watch the bulletin board announcing when the tickets will be on sale. The WRA election will be held next week. For anyone interested in running for an office on the council, the petitions can be secured in the Physical Education Office. They require twenty-five signatures of active members. Don't forget to vote!

Coolidge Leads Volleyballers

In the intramural department, Coolidge is leading the volleyball tournament with their recent win over the Thetas. The softball tournament will start in May as soon as the volleyball tournament is completed. Sign up your team now! The Swimming Club which meets on Wednesday at 5:30 is currently working on a Spring Pagent Production. The co-educational archery club seems to be populated by more males than females. How about that! The Square Dance Club which is also co-educational meets in the Waterman Lounge on Wednesday evenings at 7:30. The members are currently rehearsing for the Vermont Pagent at Northfield at which they will perform.

Tennis Team Faces Lengthier Schedule

By Dick Lewis

The University of Vermont Tennis Team began workouts this week in preparation for the 1955 season. Led by Captain Jay Selcow, candidates for the team have been working out in the gym and expect to move outside early this week.

Coach Fred Carpenter has five returning lettermen in the persons of Selcow, Ken Savela, Shelly Rosenthal, Lew Barth and Carl Joseph. These five men will undoubtedly be the nucleus of the 1955 net squad and with the depth that they can provide, the University should have a tennis team which is much improved over last year's squad.

Newcomers Bolster Squad

Other candidates who will give added strength to the team are Jerry Gould of Burlington, who is a transfer from Middlebury College; Ed Frost who played on the Champlain College Squad prior to military service; and Bill Clifford, a junior who competed in Europe while serving in the Armed Forces. Steve Millard and Paul Miller, both sophomores and members of last year's freshman team are also competing for positions on the team.

Longer Schedule Faced

The team faces a somewhat longer schedule than in previous years but Coach Carpenter is confident that the team will make a good showing with the improved depth that is provided by the five returning lettermen. The added experience in the persons of Gould, Frost and Clifford will help round out the squad.

The Varsity Tennis Schedule:

April 29 Clarkson, Potsdam, N.Y.
April 30 St. Lawrence, Canton, N.Y
May 2 Middlebury, Burlington, Vt.
May 3 St. Michael's, Winooski Park
May 6-7 Yankee Conference, Amherst, Mass.
May 10 Rensselaer, Burlington
May 13-15 New Englands, Williams College
May 16 St. Michael's, Burlington
May 20 Union, Schenectady, N.Y.
May 21 Trinity, Hartford, Conn.
May 25 Middlebury, Middlebury, Vt.

Tennis Mixed Doubles

The mixed doubles tennis tournament has been slated for April 24 and May 1. It will be run off as a round robin tournament on these two consecutive Sundays from 1:00 until dark and the team that wins the most matches will be declared the winner. Sign up now for a lot of fun. Remember, it is this Sunday!!

Spring Football

(continued from page ten)

There are several men working out at the various positions in the hope that they can fill the shoes of those who are graduating. Bob Gorman and Bob Holenstein are working out at center; Tom Tierney, last year's Freshman quarterback, is working out at the quarterback slot; and several candidates are working out in the other positions.

The big problem that Coach Donnelly faces this coming season is that his team will lack experience. With the loss of so many starters from the team, it becomes necessary for the squad to be rebuilt in both the line and the backfield.

Great Vermont Athletes

W. L. "Larry" Gardner

On May 13, 1886, one of Vermont's greatest athletes was born in the Franklin County, town of Enosburg Falls. Little did anyone know that twenty-three years later Larry Gardner would be playing third base with the Boston Red Sox.

Larry didn't become really interested in the national pasttime until he entered high school in 1901. He played on the high school team for four years and during summers on a town team. He often dreamed about moving on to the major leagues.

" Larry Gardner as UVM Baseball Coach. "

In the fall of 1905 Larry came to Burlington as a freshman at UVM. In the spring he made the starting nine and during the next three years he developed quickly as a member of some of Vermont's greatest teams, captaining the 1908 nine. Also a member of the same team in Larry's class of 1909 was another future Red Sox great, pitcher Ray Collins.

Right after his junior year, Larry signed a contract with the Red Sox and spent the summer with the Boston Club, coming back to Burlington in the fall to finish studying for his degree in chemistry. The following summer Ray Collins joined Larry with the Red Sox.

Larry was with the Boston Bosox from 1908 to 1917, playing third base on three world championship teams in 1912, 1915, and 1916. In 1918 he was with the Philadelphia Athletics for a year and then he was traded to Cleveland. He played for the Indians for the rest of his major league days, finishing up in 1924. He was in his fourth World Series with Cleveland in 1920 when they won the world championship from Brooklyn. After winding up his playing days with the Indians, he managed a year for Dallas in the Texas League and then spent two years with Ashville, North Carolina.

During his seventeen years in the American League, he hit 282.5, climbing above the .300 mark six times. He won the first World Series he was in with a sacrifice fly against Christy Mathewson of the New York Giants in the eighth inning of the final game in 1912. In the first game including a triple to pace the team to a 4-3 victory.

While he was with the Indians he set two American League records which are still standing. In 1920 he handled the fewest chances for a third baseman in an extra inning game when he didn't touch the ball once in thirteen innings. In 1922 he collected the most hits for a pinch hitter in one inning with two.

After the 1928 season with Ashville, Larry left organized baseball to return to his Alma Mater as baseball Coach and Director of Athletics. He held these positions at UVM until his retirement in 1952. During the second World War he served as an instructor in the Air Force here. Since the war he has been a part time scout for the Milwaukee Braves, formerly of Boston and is still active in the capacity.

It was a misty spring evening about a week ago when this reporter walked up the flagstone walk to a modest brick cottage on Overlake Park in Burlington. The doorbell was answered with a warm handshake from a man with friendly sparkling eyes, who still had the erect stature and confident bearing of an athlete.

"Come right in," he said, and I was glad to. He spoke of his sons, John, a chemist with the Maltex Company, and Larry Jr., who is teaching in Germany, while the family dog, almost as contented as the master slumbered at her master's feet. He reminisced of high school days when the St. Albans team in the Northern League seemed "big time."

Looking forward to May 1, he expressed anticipation of the opening of trout season, not especially to catch fish but just to be out with the rushing water and the newness of spring. He mentioned the awe inspiring first world series in 1912 and the time he almost guided Vic Power, now of Kansas City, into the Braves' organization.

There were no pictures or trophies around the comfortable living room. They were all upstairs or down in the basement. He said he had left his playing days behind and only took private trips back to The Boston, Philadelphia and Cleveland of the early part of the century.

Cats Meet Brandeis, B. U. & Rhody This Weekend

Corshen Wins Hexathlon

Takes 1400 Pts. In Rope Climb

"Hexathlon Winner Bob Corshen." By Haskell, SPS.

Two weeks ago, Bob Corshen beat out Neil Hall and Ronnie Hill to win the Hexathlon Championship an indication of the best athlete in the school. A sophomore in the college of agriculture, Corchen scored 1400 points in the rope climb which turned out to be the deciding factor of the events.

There were six events in all: the 110 yard dash, rope climb, mile run, shot put, high jump, and broad jump. Bob took the lead after scoring 1400 points in the second event. The suspense came when Hall overtook him by two points after the fourth event. But Corshen scored eighty more points than Hall did in the next event to regain his lead. In the last event, Bob added forty more points to his edge to win by 120 points.

For each event there was a mean of one thousand points. For marks above and below this mean points were added or deducted in arriving at the score for each event. The winning score was 6506 points. Neil Hall scored 6380 points to take second place. Last year's winner, Ronnie Hill, took third place with 6306 points. The record is 6874 points set in 1952 by Clark Hinsdale.

A product of James Madison High School in Brooklyn, Bob's only previous athletic experience was as a member of his high school's track team after his hexathlon win. Archie Post has his eyes on Bob for the UVM track team.

Sailors Cop First Meet

UVM Boat #14 seen in action last week at MIT meet. By Levine, SPS.

The University of Vermont Sailors started off their season on the right foot as they won the Associate member cup at the National Intercollegiate Sailing Association races at M.I.T. last weekend.

Vermont Racers Burt Lindholm and Bill Day were the winning skippers for the sailing Catamounts as they beat out boats from Vermont's across the river St. Michaels and the Rhode Island School of design, long a power in intercollegiate sailing.

The two other associate members in New England, Colby and Wesleyan did not race. This race was the first of the year for the Vermont team, the first scheduled one being "called on account of ice" The UVMers have at least one home meet planned for the ensuing season.

Lapointemen Play Four In Three Days

Three new opponants will be faced by the UVM Baseball team this week-end as the Catamounts go on a "Little Southern Trip" into Southern New England. The Cats meet Brandeis in Waltham, Mass. today, Boston University tomorrow and Rhode Island State on Saturday in a doubleheader, one of the four facing the Catamounts this season. That the club has its work cut out for it is evident as Vermont plays four games in three says against the best that this area has to offer.

"Captain George Plender in Motion." By Haskell, SPS.

The three opponants are an u known quantity in general. Bra deis has been beaten once b undefeated Harvard while Bosto University also has lost one t Tufts. Pitcher Dave Stenhous who has plagued the UVM Baske ballers for four years is Rhod Island's mound ace. The Ran also boast a much improved attac featuring Angelo Dagres who h .400 last year for the Ram Frosh

Coach Ralph Lapointe plans t start Lew Deitsch against Bra deis and follow with his "Ace" Captain George Plender again B.U. the following day. Plend has another string of scorele innings started as he has rolled u 15 without a run, including a shu out against Adelphi on the Sout ern Trip. Hugh Bemis and Ronni Larrow will pitch against Rhod Island in the doubleheader Satur day.

The Catamounts open their hom season on May 29 against form UVM ace Rusty Yarnell's Lowe Textile team.

Spring Footbal A Conditione

By Dick Lewis

Spring may be here now, Football Coach Ed Donnelly already looking forward to Fall when the University of V mont opens the football sea against Union here in Burling Forty-two candidates for vars football positions have b participating in spring footb practice for the past ten da under the guidance of Coach D nelly and his staff.

Six of the starting elev stalwarts of last year's succes ful team will graduate this com June, thus leaving Coach Donne with a rather large replacem problem. The big question is h to find replacements for play such as Ed Nemer, Mike Sema Walt Johnson, Clem Forte a others. Spring football pract gave Mr. Donnelly this opportun to look over the prospects.

CAMPUS "STAND-OUTS" ★ ★ ★ *Real Gone Gal*

The Vermont Cynic

UNIVERSITY OF VERMONT AND STATE AGRICULTURAL COLLEGE

VOL. 73 BURLINGTON, VERMONT APRIL 28, 1955 NO. 7

Junior Week Starts Wed.

Malloy Announces Events

Plans Include Peerade & Jazz Concert

The events for Junior Week, the biggest social event of the year for the Class of 1956, have been announced by general chairman Daniel Malloy, '56. The Week will begin with the Peerade which will be held on Wednesday afternoon. The Junior Beauty elections take place on Thursday, and Saturday afternoon's Jazz Concert will climax and and conclude the week's festivities.

Peerade

One of the highlights of Junior Week will be the Peerade which will include floats submitted by sororities and fraternities, and the presentation of Junior beauties contestants riding in convertibles. The entire Peerade will be police-escorted, and will be headed by the UVM band.

According to Terry O'Donnell '56. Peerade Chairman, the peerade will form Wednesday at 3:45 P.M. along University Place in front of the Old Mill and Science Hall facing Colchester Avenue.

The judging of floats will be done from the City Hall platform on Church Street. Trophies will be given to the first and second place winners in the mens' and womens' divisions. In addition, the rotating Dramatic Club trophy will be presented.

The contestants for Junior beauties will ride in convertibles in the Peerade. Jack Stetson '56, Junior Beauty Chairman, has announced that voting for the beauties will take place in Waterman on Thursday from 8:00 A.M. to 4:30 P.M.

Jazz Concert

Bud Isaacson '56, Jazz Concert Chairman, has announced that the Dartmouth Chiefs from Dartmouth College will provice the music for the Jazz Concert on Saturday afternoon in the gym from 1-5 P.M.

The Chiefs played at the Surf Club at Elbow Beach, Bermuda during Spring vacation and will return there next Spring. They have also had engagements at Jimmy Ryan's in New York City, Williams, Cornell, Skidmore and in and about New Haven. Next Thanksgiving they will play at Carnegie Hall in New York. "Having heard them personally," Issacson stated, "they are surely upon top as far as college dixieland bands go."

During the Jazz Concert the winners of the floats--sorority and fraternity--will be announced, as will the poster winners. At this time the five Junior Beauties chosen by the student body will be revealed.

SA Spring Elections To Be Held Tomorrow

Hansen And O'Brien Lead Race For Top Positions

George Hansen

Dave O'Brien

Spring elections for representatives to student government will be held tomorrow from 8:00 A.M. to 5:00 P.M. on first floor Waterman.

"We are pleased with the large field of candidates, and expect a well contested election," said Alan Weinstein, speaking for the SA elections committee.

Students will vote on three referenda presented by the Student Association. They are stated as follows:

1. Are you in favor of changing the present marking system to amore general one, such as: A.B.C. etc., or Satisfactory, Marginal, Unsatisfactory?

2. Are you in favor of a raise in the Student Activity fee of $2.50 per semester ($5.00 per year) with the stipulation that money will be placed in the Student Association Student Union fund?

3. Are you in favor of eliminating classes from 12 to 3 p.m. on Good Friday in observance of this religious holiday?

President of SA

George Hansen is a pre-med student of the Class of 1956. He believes that there are three especially important programs needed at the University of Vermont Hansen would encourage a leadership training program, would continue the drive for a student union building here on campus, and would organize the freshman class into an active functioning body.

Hansen has been Class President for the year 1953-54. He is a member of Gold Key and Key and Serpent, Senior Dean of Acacia Fraternity, Kake Walker winner '53 and '54, Homecoming Band Committee, SA Freshman Orientation Committee, SA Freshman Steering Committee, Committee Chairman in charge of Kake Walkers, SA Committee in charge of redecoration of the Student Lounge, SA Committee in charge of planning Leadership Training Program.

DAVE O'BRIEN is a pre-law student of the Class of 1956. His platform includes following through with the student union fund and a close supervision of the financial ends of university publications such as the CYNIC and ARIEL. He supports the proposal to evaluate courses and professors, and is in favor of revising the entire Vermont Conference program. O'Brien would especially support the growth of WRUV, and would support the leadership training program.

O'Brien is the present vice-president of SA. He has been SA councilman for two years, IFC secretary-treas-

Honor's Day To Be Celebrated By Chapel Exercises May 2

By Lenore Weinstein

This year the exercises held in Ira Allen Chapel at 10:30 a.m., May 2, will be celebrating Honor's Day rather than Founder's Day, which in the past commemorated the founding of the school by Ira Allen. There has been a change in the name because many people felt there was insufficient recognition of people with high scholastic records and of members of honorary societies. They thought there ought to be formal recognition of such persons.

Honor Roll

Therefore, a feature of the exercises will be the Honor Roll which will be distributed to all persons attending. This will include the names of all people who have achieved an average of 90. or above.

This will be the first time the members of the senior class will appear in academic dress. The new members of Boulder and Mortar Board, the senior honorary societies, will be announced and inducted in a formal ceremony. The other honoraries will also announce their new members. However, this time their names will not be run through quickly, in order that more recognition will be paid to them. The elections to Phi Beta Kappa and Sigma Xi will also be announced. A highlight will

(continued on page seven)

Delta Psi And Pi Beta Phi Top Top Honors At IFC Sing

Delta Psi and Pi Beta Phi topped top honors in the annual Inter-Fraternity Sing at memorial Auditorium on Saturday evening, April 23.

The winning songs sung by Delta Psi were "Delta Psi Phi" and "I've Got Plenty of Nothing." Pi Phi's winning songs in the sorority division were "Follow the Arrow" and a Hans Christian Anderson medley.

Sigma Alpha Epsilon won second place in the fraternity division and Phi Delta Theta placed third. In the sorority division Kappa Alpha Theta and Delta Delta Delta placed second and third respectively.

The Sing Committee was headed by Dave O'Brien and John Manning acting as co-chairman and Herbert Russell and David Curwen who worked in coordinating the program.

Professor Bennett of the UVM Music Department and Senator Barry served as judges for the contest.

Different Views On Education At Vt Conference

By Max Ansbacher

The opening session of the Vermont Conference began to answer the question "The University Student -- Educated for What?" by discussing the role of higher education. Ernest van den Haag of the NYU Philosophy Department stated that people tended to overestimate the effect which higher education has on students.

For examples of this contention Mr. van den Haag said that education had "not the least to do with the development of morality", that it could not make citizens more reasonable voters, nor help international relations by improving understanding among nations, and that it could not eradicate prejudice.

"First The Basic Tools"

Dr. Stanley K. Hornbeck, well-known diplomat and international relations expert, said that many students today could neither write nor reason. In order to correct this situation Dr. Hornbeck recommended that colleges devote the first year to teaching the basic tools of knowledge, such as shorthand, use of

Spiro And English Capture Fifth Place At West Point

By Don Karp

The University of Vermont's Lawrence Debate Club, represented by Herzl Spiro and Edwin English, captured fifth place at West Point in the National Debate Tournament in competition against the best teams in the nation. First place went to Alabama, with Wilkes College second, followed by Northwestern, Wake Forest, and UVM.

Spiro and English, who earned the right to debate in the Nationals by winning first place in the regional tournament for the northeastern section of the country, reached the quarter-finals and just missed the semi-finals. They defeated Willamette, Central Oklahoma

Prof. Helegesen, Edwin English, and Herzl Spiro show their Debating award. Absent from picture, Dr. Huber. Photo by Eisner.

State, St. Peter's, St. Joseph's, Notre Dame, and Augustana; while they lost to Wisconsin State and Kansas (last year's champion.)

Vermont has reached the Nationals in eight out of the nine years of the tournament's existence, and in seven of those eight years UVM has been among the top sixteen teams. In six of those seven years, Vermont has been a quarter-finalist. It has reached the semi-finals three times and has won the national championship once. The club's overall record now for allstar competition is 53 wins against 22 losses.

Spiro and English, both juniors, faced elimination

High School Science Fair Scene Of Sparkling Sound

The usual quiet and studious atmosphere of the Waterman reading rooms was replaced for two days last week by the crackle of sparks, the click of Morse Code, and the sound of a mechanical robot. It was all part of the annual high school science fair, in which Vermont high school students enter projects which they have made during the year.

Among this year's projects were such diverse exhibits as a reflecting telescope, an explanation of the carbon, a working model showing the principle of electronic calculaters, and a Herz oscillator.

One of the most popular exhibits was Richard Boulanger's mechanical robot. About five feet high, the robot is made from an old nail barrel sanded smooth and painted a bright aluminum. It has a head with eyes that light up, arms which move in a rhythmical motion when it moves, and legs which can propel it forward or backwards and turn it around.

Robot at Science Fair. Photo by Haskell.

Took Less Money, Less Time

Richard, who is in the 11th grade of Orleans High School, explained that he got the idea from an article in Life magazine. His robot can do everything that the one in the article can, but took him less time, and cost Richard $8.00, while the original cost its creator $50.00. Richard figures that Vermont ingenuity and thriftiness have paid off.

The robot contains over 120 ft. of wire, solenoids, an electric train transformer, and motors from war surplus machines. The robot is controlled from a remote switch box.

Skulls Of All Sizes

If you are fascinated by skulls you would have enjoyed the "Comparison of Human and Animal Skulls" by Dorothy Eldridge of Springfield. She found most of her skulls out in the open, already cleaned for her by good old Mother Nature. The skulls ranged in size from two feet for a horse, to the tiny starling which is about one and a half inches.

Students To Open Summer Camp For Needy Children

On May 6, 7, and 8, college students from all over the eastern area will journey to Winchester, New Hampshire, to open a summer work camp for underprivileged children. This opportunity is open to both men and women, transportation will be provided Friday afternoon going down and Sunday afternoon coming back. There is an optional price for meals for the weekend at $3.50. If you are interested call Linda Howlett, 2-2674.

Hill Pep Chairman Adamo, Solemene, Weiland Elected

At 4:00 p.m., Tuesday, April 19, the Pep Committee had elections of officers for the next school year starting in September, 1955. They are as follows:

Chairman - Bob Hill
Vice-Chairman - Art Adamo
Secretary - Dru Weiland
Treasurer - Bill Solemene
Sales Division Head - Dick Fisk
Publicity Division Head - Mickey Rotanelli
Pep Rally Division Head - Bob Corshen
Card Cheering Division Head - George Perry
Cheerleading Division Head - Dick Blankfein

The new Band Division Head has not been decided upon, since the drum major of the University Band is automatically granted the position on the Pep Committee.

Nadworney Voted Honor Member Of Class Of 1955

Milton J. Nadworny, Assistant Professor of Economics, was unanimously elected an honorary member of the Class of 1955 at a recent class meeting.

Professor Nadworny is the Senior Class' faculty adviser. Senior week committee chairmen reported on their progress and their plans were discussed by the assembly.

Cinema-Art Club Announces Its Next Progam Showing

The Cinema-Art Club of Burlington announces its next showing on Saturday and Sunday, May 7 and 8, at 8:00 P.M. at 75 Bilodeau Court (off East Ave., at end of street). Guests are very welcome. The program is as follows:

1. "Peoples of Russia" (30 min.) A film made in the late Thirties by Julien Bryan and released in 1944. It shows the everyday and cultural life in the cities of European Russia, (including shots of Maxim Gorky, Ivan Pavlov, the Habima Players and a theater production by Myerhold), and interesting pictures of the peoples of Siberia, Central Mongolia and the Caucasus, including their folk dances.

2. "Russian Songs and Dances" (15 min.) These were made in the U.S.A. and include "Gori, gori" with "Kamarinskaya", "Proschai", "Net, nie khochu", a Caucasian flaming sword dance, "Bublitchki" and "Kasbek".

Dr. E. Lepeschkin will comment on these films.

3. "French Sculpture in the Middle Ages" (15 min.).

4. "The Pythoness" (4 min.) A poem by Kathleen Raine, illustrated by drawings of Henry Moore.

5. On Saturday: "Inspiration" (12 min.) A phantasy of rain-drops come to life, represented by animated glass figures. Made in Czechoslovakia, with an original musical score.

After the Sunday showing, a preview will be made of the film, "The Mobiles of Alexander Calder", (18 min., color), which will be shown on Monday for the UVM Art Appreciation Class. The music for this film is by John Cage. In this film Calder is seen at work, and many of his Mobiles are shown among the natural "mobiles" of trees, waves, seaweed, and sea anemones.

Lohman To Hold Summer Course In New York City

Prof. Philipp H. Lohmann, Chairman of the Department of Commerce and Economics announced that his summer field trip course to New York will hold its fifth annual session this year. The course, The Economics of Capital Formation, will run from June 20-July 29 and will give course credit of six semester hours on the graduate and undergraduate levels.

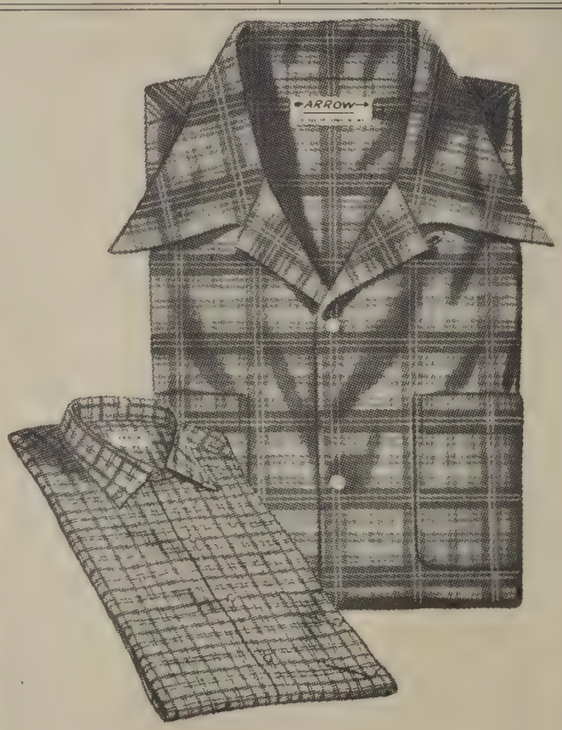
Registration is limited and must be approved by Dr. Lohman, but there are a few openings still available. The expense of the course is $90.

The main feature of the course is constant visits to Wall Street and lectures by noted officials in the field including men of the caliber of Mr. Keith Funston, president of the New York Stock Exchange.

Besides on the spot visits to the Exchange there will be visits and meetings with officials of leading banks.

Prof. Lohman describes the course as "an excellent opportunity to meet the people who make todays financial news. Only through courses like this can the student fully understand the complex money operations of today."

THIS ARROW SHORT STORY MAKES REAL SUMMER SENSE



Here's a really smart summer combination... getting more popular every day. Arrow gingham shirts and fine Arrow walking shorts. They'll keep you cool, and give you comfort when you want it most.

The shorts are comfortable, practical, right in style today. We wouldn't be surprised to see more shorts than "longs" on most *any* campus this spring.

Get Arrow walking shorts priced from a mere $3.95 in denim ($5.00 in other fabrics). Get frosty Arrow ginghams, too, from $3.95. Broadcloth check, (left), $5.00.

ARROW
CASUAL WEAR
SHIRTS & TIES
UNDERWEAR
HANDKERCHIEFS

Even the SQUARES are cool these days

You're living back in the cutaway days if you're not keeping calm and cool in our Arrow walking shorts and gingham shirts. We're stocking a wonderful selection in both departments... so, come in out of the sun. It's cooler inside... inside one of these smart Arrow summer combinations. Arrow ginghams from $3.95. Arrow walking shorts, $3.95 to $5.95.

Haviland, Lyman, Wagrei ch Head Student Photo Staff

The Student Photography Staff has almost completed another successful year of service to the student body. The staff started off the year with veteran members consisting of: Karl Haviland, president; Ted Lyman, vice-president; Herbert Wagreich, secretary- treasurer; Phil Levine, Vic Borst, Harold Horton, Dave Curwin, Judy O'Connor, and Hedy White. During the year the staff accepted hopeful future photographers: Paul Haskell, Dex Jones, Irwin Eisner, Dan Joffee, and Steve Rosen.

The big event of the year for the staff came once again with the Kake Walk issue of the CYNIC. The color cover which has appeared annually now for two years is a major accomplishment on the part of the staff. It requires the technical skills of everyone.

The staff has had their work in such school publications as the CYNIC, Date Book, Freshman Handbook, and the ARIEL. On occasions they have had their pictures in the Burlington newspapers, WMVT television, Vermont Life, and several magazines throughout the East. Some of the staff members have entered contests throughout the country and we are all waiting with great hope for their success.

Aside from the regular photographic skills sought after by everyone, two prominent areas of color and portraiture are being covered rather intensely this year by Herb Wagreich and Phil Levine respectively. Wagreich has gone far into the color field and is still constantly searching for means of improvement. Wagreich supplied the staff with all the color shots of Kake Walk. Levine has concentrated his efforts this year on the portrait requirements which the staff is often requested to meet. The big test of portrait experimentation presented itself during the Student Association elections, when all of the candidates had to be photographed. The skill of the staff members can be easily shown by the many picture requests and orders from the faculty and students.

Another very popular aspect with all amateur and semi-professional photographers is the search for "fast" films and developers. Our experiments on "The Caine Mutiny Court Trial" and "Oklahoma" were just two of our recent developments along the line of "fast" film. With the new color film out on the market and our skill at speeding-up black and white, we are very hopeful that soon we will be able to speed up color film --- with the result that next year's color pictures of Kake Walk will be a hundred per cent improvement over past performances.

The spring season, which has finally come to UVM, will provide many interesting situations for the staff's photographers, especially with new fashions and old cupid. Should anyone ever need photographic aid, please feel free to approach any of the members of the staff. They will gladly help you with your problem to the best of the ability.

Part of the Student Photography Staff.

Bit Of Texas Invades U V M Occasion - San Jacinto Day

By David Spector

Last week a bit of Texas invaded Vermont in the form of Prof. W.F. Lovejoy. The occasion was San Jacinto Day, a Texas national holiday which celebrates the Battle of San Jacinto in 1836. Mr. Lovejoy's usually sedate Money and Banking class was startled to see the teacher, a native of Dallas, enter draped in the usual western attire, complete with hat, boots, and six guns. They were no less startled to receive a quiz in "Texonomics", which was filled with subtle propaganda about the size, quality, and condition of Texas. There were also historical tidbits, such as the fact that Texas has been under six flags (France, Spain, Mexico, the Republic of Texas, the United States, and the confederacy), and that a Texas Christmas tree is an oil well rig.

After the exam was marked (Texas honor system), the person with the highest mark received a gigantic cigar, which seemed to have trouble remaining in one piece.

A geography lesson was then given; a map of the United States was shown with Texas in its TRUE proportion. The class was a bit surprised to see that the Panhandle reached the Canadian border, and that El Paso overlooked the Pacific, while Dallas fronted on the Potomac.

A rendition of the Texas National Anthem, "The Eyes

EDITORIAL

The topic was " The College Student - Educated for What? " One of the panelists quipped that perhaps it should be changed to " Educated - So What? "

What was the cause of the failure of this Vermont Conference? Most of the blame can be laid to the much battered term of " student apathy ". But is that all? What about faculty apathy? The almost empty chapel could have been filled by the presence of teachers as well as students. Not all of them had classes and they certainly could have appeared at least, for a while. Perhaps the administration could have taken the stand that classes could be dismissed for some of the sessions. Or some teachers could have released interested students from their classroom obligations so they could attend. The people who were present seemed determined to be educated IN SPITE OF the University.

Perhaps there should have been more " name " speakers to have attracted a larger gathering. This is very easy to write about but let us be realistic. The committee sent out about 200 invitations to qualified people, but very few busy, important people can spare three days of their time to come all the way to Burlington for a conference where there is not even any financial renumeration. It is a mark of generosity on the part of the panelists who were so willing to sacrifice themselves. To be greeted by such poor attendance is clearly a slap in the face.

What about the physical setup? Why were the name-cards so illegible, and why was the green cloth over the panel so wrinkled? Where was the large " Vermont Conference," sign that was present at previous conferences?

What about the topic itself? " The College Student - Educated for What " is rather an awkard question. By having the topic so vague the different speakers had their talks degenerate into far-flung fields. A more pointed topic could have kept the discussion to a point.

In our opinion the best part of the entire program was the very end when the speakers broke up into little groups and were subjected to barrages of student questions and beliefs. For the first time real interest was generated. It is impossible to describe what each group talked about but a fairly representative sampling could be found in the group around Judge Hilda Schwartz. Here was discussed general views and theories of education. Judge Schwartz, a true liberal, carefully reviewed the main beliefs and then gently submitted her own.

As in any good discussion nothing concrete was established. Nobody convinced anyone else of his or her views. No ill will was generated. But there was a general airing of the question and everyone was stimulated to do some creative thinking on his own, and in private.

Much the same situation occured in the other discussion groups, for the informal atmosphere acted as a medium through which ideas could travel.

But the original problem still exists. With the student body at its present size it seems difficult to believe that more student interest was not manifest. These people who came to speak were our guests. They were not doing this for their own benefit; it was merely to help us. And we let them down! We have left the feeling in their minds that here is another campus where student apathy is clearly demonstrated. The Vermont Conference is our big intellectual event of the year, and this year we permitted it to fail.

Tomorrow is the annual Student Association elections and it is the duty of every student to vote. It is the only time of the year that the student body has a direct influence on what policies will be carried out by the student government, and if any student does not vote he is clearly not fulfilling his obligations to the student body as a whole.

Student Association is not something set apart; it should be constantly in the fore, and it can be made powerful and worthwhile only through student support.

If the students give strong impetus to any issue, the officers will feel they have the students' mandate to carry on. But if there is no student support, then the S.A. can only fumble in the dark, and will only get a reaction when some act is contrary to the latent student opinion.

This is not the way for student government to carry on, and it need not be the case. The decision is up to YOU. With the polling place open all day, there is no valid reason why you cannot cast your vote.

Intercollegiate Round-up

By Eugene Levin and Richard Chernaik

Spring is here, and down at Mississippi U. that means Sadie Hawkins Day. On April 6th, Al Capp's brainchild reached new heights never forseen by its progenitor. As the prize for the "Name the Baby " contest, the student body gave away one genuine, crying, bedwetting baby, guaranteed by Good Housekeeping. (This prize was won by one Q. Flavius Figasoos, recently nicknamed Pape.) The law students wrote up a mock trial - "Daisy Mae Yokum vs. The Wrecker ": and of course, the day's social mixup was climaxed by a Sadie Hawkins dance.

While we're down south, there's a chain letter going around the University of Texas. It's a switch from the old letter, since it applies to married men only. If we may quote:

"Dear friend,

This letter started in Peoria, in the hope of bringing relief and happiness to tired husbands.

Unlike most chain letters, this one will involve no monetary investment. Simply send a copy of this letter to five friends who are equally as tired.

Place your name at the foot of the list, then bundle up your wife and ship her to the man whose name appears at the top of the list; then when your name comes to the top, you may receive 8,750 women and some of them are bound to be dandies. Have faith and don't break the chain - one man did and got his own wife back.

Sincerely,
Jimmy Roosevelt
Aly Khan
Porfirio Rubirosa
T. Manville
E. Flynn

On the serious side, there is at present a crisis in Massachusetts which well may create a cancer in the very essence of American democracy. Until now, it has been at the individual school's discretion whether to discharge a teacher because of "hiding " behind the fifth amendment.

"The Massachusetts legislative committee on education has come up with its own partial answer to this question by reporting favorably to the House of Representatives a bill calling for the discharge of so-called "Fifth Amendment Professors " in private educational institutions."

The consensus of opinion on this matter, as brought out by many contemporary thinkers, is that this sort of problem should and must be handled by the institutions, involved, and that each case must be handled on an individual level.

We feel that a bill of this sort is dangerous. It would tend to limit the educational opportunities offered by colleges and universities. The main purpose of education in general is to develop critical thinking. The educated person is one who can sift the facts from a mass of information consisting of lies, half-truths, exaggerations, slanted facts. We believe that the closest proximity to the truth can be obtained by careful analysis of all sides of the question.

It is wrong to teach one side of a question and explain that the other is wrong and must be avoided. This type of enforced ignorance often leads to fear of the other side. Fear paralyzes the mind and leads to rigidity, and thus further limits the possibility of arriving at the truth. People are afraid of what they don't understand. Usually, knowledge of the situation will cause the fear to disappear. Psychologists are aware of this and illustrate it in teaching children not to fear the dark. The child is told to turn on the lights whenever he feels afraid. The light illuminates the fact that there are no goblins, etc., and after a few quick trips to the light switch, the child's fear is usually conquered.

We feel that the only way to conquer fear of communism is to expose it to the student. This person will be able to tell fact from fiction regarding communism, and will not either absorb or reject the propaganda but will be able to pick out the facts and disregard the rest. A crowd of intelligent people, all educated in this manner, are much less likely to be swayed by a Russian "Hitler," than a crowd which has preconceived notions based on fear and ignorance. These people could only accept or reject in toto. They cannot make moderate decisions.

It would hence be desirable to teach the principle of communism from both the rightist and leftist points of view. We do not think that a card-carrying communist should be allowed to preach revolution. However, there is nothing undesirable in someone tending to the left presenting his side of the argument.

Even those who are against "pink " teachers should not convict a man of being a communist on such flimsy evidence as standing behind the fifth amendment. The fact that a man invokes the fifth amendment does not signify any leftist tendency. It must be remembered that some of these people invoke this amendment because they are against invasion of their personal liberties, or because they have friends and relatives whom they want to protect.

Is it right to punish a man for invoking a basic civil right?

Shakespeare Did Own Writing, Says Prof. Pope

Speaking on "Who Wrote Shakespeare's Plays," Willard B. Pope, UVM professor of English, said he is convinced William Shakespeare wrote his own plays.

He cited three other writers who have been mentioned as authors of Shakespeare's plays. These men were: Francis Bacon, Edward de Vere and Christopher Marlowe.

Pope discussed the authority of Shakespeare's plays with his regular class and a Town and Country Days audience Saturday in commemoration of the 391st anniversary of the famous writer's birth.

Nelson L. Walbridge, professor of physics, and Howard M. Smith, professor of electrical engineering, discussed science research and the small college. Explaining how research is conducted, it was pointed out that various projects in small colleges are often carried on with the cooperation of government agencies and commercial concerns.

Other sample classes on the Town and Country Days and High School Days program were:

"What is Electricity?" with Ralph M. Holmes.

"How to Judge What is Good or Bad," a sample philosphy class conducted by George Dykhuizen.

"Photography—Films, Fun and Filters," a discussion with Mrs. Nancy Churchill and Frank Klinkostein of the Burlington Camera Club serving as chairman.

World Needs More Agriculture, Says Dr. P. H. Lohman

Dr. Philip H. Lohman of UVM told the Unitarian Laymen's League that in the last half of the 20th century, world population has increased by 846 million. If current trends since 1950 continue, world population will rise about 1½ billion — an increase almost as great as the total increase of the human race prior to 1900.

Birth control was not suggested. An increase in agricultural productivity in backward areas was seen as the solution. An increase in agricultural productivity would release a number of people to participate in the manufacture of consumer goods and services thereby raising the level of the standard of living.

Once the standard of living has risen sufficiently, said Prof. Lohman, this and this alone would act as the break on increasing population.

Dr. Lohman cited that in England and the U.S., the birth rate began to decline long before mass-produced contraceptive information and supplies were generally available.

In order to bring some semblance of control to this problem, it must be tackled at all levels, he said, both within and without the world organization.

Better organizational know-how, freer currency exchange, higher literacy rate and a more friendly attitude toward foreign venture capitol were cited as the means toward world survival.

UVM

News Of Faculty And Staff

Prepared By The Public Relations Office

BASEBALL AT HOME

UVM's baseballers make their home debut Friday afternoon at 4 at Centennial Field.

Ed Bartlett reports that faculty and staff members can get tickets for any of the home games by coming to the Athletic Office in the Gym up to game time, except in the case of Saturday games, when the Office will be open up until 5 p.m. Friday.

Presentation of the numbered Athletic Department card will entitle each faculty or staff member to tickets for home games.

Faculty Notes

Robert Lane has a study of the influence of Terence's "Hecyra" on Ostrovskii's "Groza" under the title "Roman and Russian Mothers-in-Law," which will appear in the May issue of The Classical Journal.

• • • • •

Muriel Hughes attended the regular spring meeting of the New England College English Association held over the weekend at Wesleyan University. Featured speaker for the session was Malcolm Cowley.

The fall meeting of the NECEA will be held at UVM on Oct. 15, Miss Hughes reports.

• • • • •

A display of the current work of UVM arts and crafts classes was on display in the University Store through Town and Country Days, Isabel Mills reports.

The exhibit featured brightly colored pottery, woodenware, etched glass and sterling jewelry with "a gaiety of tone which expresses the spirit of youthful enthusiasm which went into the making of the articles." Mrs. Mills relates, adding that many of the items exhibited involved new experiences in various craft media for students with little or no previous art training.

Purpose of the exhibit was "not so much to show a professional level of production as to point out personal development through individual creative experience."

Clippings

Television Schedule

The following is a schedule of programs coming up on "Across the Fence," which may be seen on WMVT, Monday through Friday, from 1:15 p.m.

Date	Guests
April 29	Jennie Smith "Treasures in Your Home"
May 2	Miss Erma Hard Washington County 4-H Agent and four 4-H members "Planting Our Garden" 4-H gardeners get down in the soil to plant an actual garden Across the Fence.
May 3	Bill Corey, Rutland County Agent and John Page, Bennington County Agent "Living With Your Lawn" Two county agents give some timely tips on how to start a new lawn and keep it in top condition.
May 4	Charlotte Brooks, Vermont's first Home Demonstration Leader "Our Beginnings" A special program in commemoration of National Home Demonstration Week.
May 5	Polly Rowe, Associate Vermont 4-H Leader and four 4-H girls "4-H in Action" The girls take over and show how their projects are helping the community.

On Campus with Max Shulman

(Author of "Barefoot Boy With Cheek," etc.)

SCIENCE MADE SIMPLE: NO. 3

Once again the makers of Philip Morris, men who are dedicated to the betterment of American youth, have consented to let me use this space, normally intended for levity, to bring you a brief lesson in science.

It is no new thing, this concern that the makers of Philip Morris feel for American youth. Youth was foremost in their minds when they fashioned their cigarette. They were aware that the palate of youth is keen and eager, awake to the subtlest nuances of flavor. And so they made a gentle and clement smoke, a suave blending of temperate vintage tobaccos, a summery amalgam of the most tranquil and emollient leaf that their buyers could find in all the world. And then they designed their cigarette in two sizes, king-size and regular, and wrapped them in the convenient Snap-Open pack, and priced them at a figure that youth could afford, and made them available at every tobacco counter in the land.

That's what they did, the makers of Philip Morris, and I for one am glad.

The science that we take up today is called astronomy, from the Greek words *astro* meaning "sore" and *nomy* meaning "back." Sore backs were the occupational disease of the early Greek astronomers, and no wonder! They used to spend every blessed night lying on the damp ground and looking up at the sky, and if there's a better way to get a sore back, I'd like to hear about it. Especially in the moist Mediterranean area, where Greece is generally considered to be.

Lumbago and related disorders kept astronomy from becoming very popular until Galileo, a disbarred flenser of Perth, fashioned a home made telescope in 1924 out of three Social Security cards and an ordinary ice cube. What schoolboy does not know that stirring story — how Galileo stepped up to his telescope, how he looked heavenward, how his face filled with wonder, how he stepped back and whispered the words heard round the world: *"L'etat, c'est moi!"*

Well sir, you can imagine what happened then! William Jennings Bryan snatched Nell Gwynne from the shadow of the guillotine at Oslo; Chancellor Bismarck brought in four gushers in a single afternoon; Hal Newhouser was signed by the Hanseatic League; Crete was declared off limits to Wellington's entire army; and William Faulkner won the Davis Cup for his immortal *Penrod and Sam.*

But after a while things calmed down, and astronomers began the staggering task of naming all the heavenly bodies. First man to name a star was Sigafoos of Mt. Wilson, and the name he chose was Betelgeuse, after his wife Betelgeuse Sigafoos, prom queen at Michigan State College from 1919 to 1931.

Not to be outdone, Formfig of Yerkes Observatory named a whole constellation after *his* wife, Big Dipper Formfig, the famed dirt track racer. This started the custom of astronomers naming constellations after their wives — Capricorn, Cygni, Orion, Ursa Major, Canis Major, and so forth. (The Major girls, Ursa and Canis, both married astronomers, though Canis subsequently ran off with a drydock broker named Thwaite Daphnis.)

After naming all the heavenly bodies, the astronomers had a good long rest. Then, refreshed and brown as berries, they undertook the gigantic project of charting the heavens. Space is so vast that it is measured in units called "light-years." These are different from ordinary years in that they weigh a good deal less. This, of course, is only relative, since space is curved. As Einstein laughingly said, "E=mc²."

Well, I guess that covers astronomy pretty thoroughly. But before we leave this fascinating topic, let us answer one final question: Is there life on other planets?

The answer is a flat, unequivocal no. Recent spectroscopic studies have proved beyond a doubt that the atmosphere of the other planets is far too harsh to permit the culture of the delicate vintage tobaccos that go into Philip Morris Cigarettes . . . And who can live without Philip Morris?

©Max Shulman, 1955

This heavenly column—like the author's more earthy ones—is brought to you by the makers of PHILIP MORRIS cigarettes—who feel you'll find real enjoyment in their product.

South American University Differs Politically From UVM

Several weeks ago I set about to investigate the foreign student opinion of our campus as compared to the campus of his own country. My interview was with a student from Bogota, Colombia. Cornelius Baas is a sophomore in the College of Technology.

I began by asking him why he had come to Vermont. He explained to me that he had gone to school in Canada and that he had decided upon Vermont because it seemed to fit the type of college he was looking for. I asked his opinion of the school. "I like it here. Perhaps the most striking feature about the university is the friendliness of the students." He said, "I came to college in America to become more fully acquainted with the American customs, social standards and ideas and I feel I am doing that here." Asked what particular features he approved, he highly praised the petition which was circulated at the beginning of the second semester asking for the student opinions on the question of discriminatory clauses in fraternity charters.

Differences

Mr. Baas explained that the differences between the University of Vermont and a South American university were principally political and social structure differences. He explained that since a democratic system of government was new to the Colombian people, at least new in comparison with our government) it was much closer to the people and especially to the student. Student riots against a particular proposal of the government are not uncommon and their protest exerts a far greater influence than would a similar protest in the Unites States. It would seem that the South American student is better informed about his government and is comparable in some ways to a member of a political pressure group such as the American Legion. The difference in social structure is primarily due to the fact that the Colombian university does not have fraternities. Social events revolve principally around the cultural aspects and interests of the various student groups.

It was interesting to note that this foreign student knew more about the university in some respects than I did.

Program Series Group Arranges For Ballet Troupe

Arrangements for bringing ballet to Burlington, in the form of the Ballet Theatre, are being completed by the UVM Program Series Committee. The troupe is now having a successful run at the Metropolitan Opera House, and will go from there to Boston. The Program Series is handling the arrangements for their appearance in Memorial Auditorium, May 9, at 8:30 p.m. "We are very pleased with the Program," said Marjorie Rowell, chairman, "for it should satisfy varied tastes since it includes both classic ballet, in the form of "Swan Lake," as well as the modern "Rodeo" by Aaron Copeland.

Tickets will go on sale at the COSA office and Bailey's at the end of this week. Mail orders are being filled in the COSA office. Prices are $1, $2, and $3; all seats are reserved.

Men Counselors Guide Freshmen

A vital program in the life of an underclassman at UVM has been underway for the past two years, centering its aims on the orientation of freshman men to college life, and guiding their scholastic and moral development. The three student counselors of mens' dorms, who accept this responsibility are Morton Maimon '(Buckham), Louis Affinito (Chittenden), and George Giffen (Wills).

Development

The role of the student counselor of the residence halls is unsurpassed in affording on campus an opportunity for the development of leadership ability. More than anyone else, the student counselor, through daily informal contact, has the opportunity to observe, evaluate and guide habits of health, work and recreation which will set the pattern for the freshman's entire life.

Qualifications

The degree to which residence hall living attains its potential worth depends greatly upon the quality of leadership afforded by those charged with supervision. The Office of Student Personnel appoints one graduate assistant as head counselor of each dorm. Requirements for appointments are a Bachelor's Degree and qualification for admission to the graduate school of their field. Preference is given to those who have had leadership experience working with boys as counselor or teacher, and who have shown leadership in extra-curricular, community and similar activities. Mr. Maimon, Mr. Affinito, and Mr. Giffen, graduates of West Chester Teachers College, St. Michael's, and Colby respectively, have proved invaluable aids in personal and academic problems.

"Mourning Becomes Electra" April 29

Everyone is invited to hear a Reader's Theatre Presentation of Eugene O'Neill's famous play, Mourning Becomes Electra: The Homecoming, in the Southwick Ballroom Friday, April 29, at eight o'clock.

The cast, under the direction of Greg Falls, will include Dean Robert Kroepsch, Marian Sargent (director of the Burlington Theatre Club), Nancy Jean Beals, '54, Joanne Murray, '55, "Rusty" Clarke, '56, and Arthur Pollack, '58. Larry Killick, Littleton Long.

After the performance there will be a panel discussion of the play, the author, and related topics, to which all are welcome.

General admission is $.50 per person, for the benefit of the University Players Arena Theatre Fund. A student Art Exhibit will be held at Southwick at the same time.

Debaters Near Top As Winterburger Takes 2nd

By Don Karp

The University of Vermont was recently represented at the New England Invitational Debate Tournament in competition against the best teams in the New England area. UVM finished near the top with an overall record of five wins against eight losses, but the big prize won was Sandy Winterberger's recognition as the second best affirmative debater in the tournament.

Doctor Robert Huber, Chairman of the Speech Department, who accompanied the team on the trip, felt that Sandy's fine performance was indicative of the superb work she has done all year.

The negative team consisted of Patricia May and John Travis, while Anthony Jannicky was the other affirmative team member. Aside from debate competition, Vermont was represented in other events, including Oral Interpretation, Oratory, and Extemporaneous Speaking. Roz Faher, Donald Graves, and John Travis participated respectively.

UVM debaters also met success in novice competition recently at Hanover, New Hampshire, where the team placed third behind Bates and MIT at the Annual Invitational Novice Debate Tournament at Dartmouth College.

Louis Kiefer, a freshman, and Irwin Eisener, a sophomore, were undefeated for the affirmative, beating Amherst, St. Anselm's, St. Lawrence, Northeastern, and Utica. Kiefer was rated the second best affirmative debater in the tournament. The negative team of Nancy Samuel and Bob Grimm were rated high in total number of points accumulated.

Conference

(continued from page one)

the slide rule, typing, and use of references.

Dr. Hornbeck pointed out that the difference between the impossible and the possible is often the difference between what one knows and what one imagines. Students should therefore be taught to reason through such courses as logic, psychology and the classics.

" Education Can Be Harmful "

Mr. van den Haag's theory of education is based upon the assumption that there is a constant tension in man between what he believes, and what he knows are the real facts of the world. Mr. van den Haag believes that by emphasizing facts, education can be injurious. As an illustration of this one can picture a boy from the "Bible Belt" taking a course in the history of religion, and losing his entire faith in living. This dangerous tension between belief and facts led Mr. van den Haag to the conclusion that "higher education is all right for a small highly intellectual group, but not for the masses."

" Professor Unnecessary "

Mr. van den Haag said that there was really no need for a teacher, since the students could read the lecture more quickly if it were written in a textbook. However, he asserted that many students are in college today who are not motivated to learn. Their attitude is something like this, "I'm really interested, but if you stimulate me and make the course amusing enough I might take an interest in it."

Mr. van den Haag joked that the original reason for having professors in college probably came from businessmen who felt that they were getting more for their money if they could see some action, such as a person talking.

" No I.Q. Improvement "

Dr. Hornbeck said that the popular belief "The better you get to know strange people, the better you get to like them," is wrong. There probably are as many, according to Dr. Hornbeck, in the "more you know, less you like" class, and in fact, Dr. Hornbeck said that he had run into more of the latter kind.

The point was elucidated by the anecdote of an American diplomat in Japan who was asked how he liked the Japanese. The diplomat thought for a moment and then replied, "Which Japanese?"

Honor's Day

(continued from page one)

be the induction of the new president of the Student Association.

New Awards

Many prizes and awards will be given out. There are several new ones. One of them is the Mary Jean Simpson award which will go to the most deserving senior woman.

The speaker is to be Ian R. Macneil, who was graduated from UVM in 1950. After active duty in Japan as a Second Lieutenant, he returned to Harvard Law School in 1953, where he is now. As an undergraduate he was a member of the debating team and considered an excellent speaker.

In order that all students and faculty attend the exercises, all classes next Monday have been cancelled from ten o'clock until noon of that day.

Texas

(continued from page three)

of Texas Are Upon You", was given, and the class then broke up after swapping tall tales.

Prof. Lovejoy, ambushed later, explained, "Normally, I am broken to Yankee tradition but I reserve this one day a year for patriotic displays." Twirling his guns he sped off to his bunkhouse.

Debate

(continued from page one)

competition with the nation's top 102 debaters, and their fine showing in the Nationals is consistant with their past record. As a team up to this time, they have lost only three out of 47 debates.

Professor Charles Helgesen accompanied the team to West Point.

A Campus-to-Career Case History

Here Ed Chandler reviews Long Distance facilities between Atlanta and Lincoln, Georgia. He is working from a layout that shows all Long Distance lines in the state.

"My classmates talked me out of a job"

Ed Chandler had a good job all lined up long before he graduated from Georgia Institute of Technology as an Industrial Engineer. But then he changed his mind . . .

. . .

"When I got out of college in '50, I was all set to go with a company I'd worked for during a previous summer.

"But then I got called up by the Army. During the next two years I heard a lot of good things from my Georgia Tech classmates who'd gone to work for the telephone company. As far as I was concerned this was the best recommendation any company could get.

"So when I got out of the Army I stopped in to talk with the telephone people. When I saw an outline of their development program, I was sold.

"My first year took me through every phase of handling and estimating costs on telephone equipment from warehouse to installation. I drew up plans for several projects, then went out in the field to see how they were carried out.

"Now I'm helping develop next year's multi-million-dollar construction program for Georgia. I've found it an interesting and rewarding job."

In the engineering department of Southern Bell Telephone & Telegraph Company in Atlanta, Ed Chandler is moving along in his career. Your Placement Officer can give you details about similar opportunities with the other Bell telephone companies like Southern Bell—also with Bell Telephone Laboratories, Western Electric and Sandia Corporation.

Owls Search For Brother

Only the hat of their drowned fraternity brother was found in a fourteen-mile search of the Winooski River last Sunday by thirty members of Lambda Iota. They were seeking the body of Frederick L. Luce, 30, who was lost Easter Sunday in an attempt to shoot the rapids in a canoe.

The party was divided into three-man groups. They used walkie-talkies lent by the ROTC, and maps lent by the geology department, John Whalen was in charge of coordinating the search; Hugh Sullivan made the map details; and Jan Curran and John Geisler handled the personnel of the search.

The group did not give up until almost 6 p.m. They searched from the point where Luce went into the water at Bolton to about three miles below Richmond.

As I See It

BY Ed Willard

The spring Intramural season has begun at UVM as the cry of "you're out" rings out across the back campus. The Intramural Softball leagues here at Vermont attract a lot of attention from most people. They get pretty good coverage in the Cynic; A lot of people get good recreation from playing the game and in many cases, there are a lot of spectators around. That's where the interest in the game ends. There is one group of people on the campus who should take some interest in the sport who never see the diamonds. These are the people who are supposed to keep them in shape.

Our softball diamonds are in lousy shape to put it purely and simply! There has quite evidently been no attention given them this year. It would be pure suicide to go after a ground ball on the rough terrain. A runner takes his life (or anyway his ankles) in his hand as he bounds around the hilly maze called an infield. Instead of playing runners close for doubles plays, UVM softballers have their own methods developed because of the rough field. The infielders play half way out in the outfield, hoping to catch a ground ball if it takes a lucky hop.

On the serious side of the question is the gngle of safety. The university spends good money to provide medical facilities for its students and then loses some of the effect of it all by having unsafe playing fields. The softball diamonds on our campus are actually dangerous to use. Witnessed in in the several games in which this writer has played on the fields were a sprained ankle and a swollen lip from a ground ball that took a bad hop.

All in all, it looks as if the athletic fields on the campus have been relegated to a backdrawer, behind many less worthy endeavors pursued by the grounds department. We certainly believe that UVM athletes should be given a much better deal by the people in charge of our athletic fields.

To change the subject, let's come back to baseball. The Catamounts have completed the first four games of their official season against the best in the New England area and have pulled off two wins, a loss and a tie game which should have been called before it was, giving the Cats another win. There haven't been many outstanding performances by individuals but the baseballers have come up with a consistently good brand of team ball.

The track team is more or less unknown quantity but we're sure to have some excellent men in the weights and some fine runners right down the line.

The importance of it all is this. The Vermont baseballers open their home season against Lowell Tech. tomorrow while the tracksters open their's against Union next Wednesday afternoon. Let's see you there.

Students are also remin to keep in mind the $1 dollar L and M Photogra Contest. See your cam reps for complete detai These are just two more Chesterfield's services the college students the U.S.

Track Team Opens Saturday At Colby

Face Middlebury, Bates Colby In Quadrangular

By Mark Bernstein

Tomorrow morning the Catamount Track Team leaves for Colby College to participate in their first meet of the spring season. Competing in this meet will be Colby, Bates, Middlebury and UVM. This is the second round of a four year agreement between the four schools; with Vermont winning the first four and Bates winning the last two.

Weights Look Good

As in the past Coach Archie Post has always managed to turn out fine Track teams which is a tribute to him alone. Archie most definitely will never stick his neck out in making predictions but rather tries to give the optimistic viewpoint. This is just how he felt before the Quadrangular Meet this weekend, "It looks much better from the standpoint of weights, but I'll know more after this first one."

In running through this years team we find many seasoned veterans and also many new faces to brighten the Catamounts chances for a second consecutive State Title.

Distance Men Strong

The key distance man will be Larry Damon who couldn't be in finer shape. In the half-mile Coach Post is looking for Don Grady and Ray Tafrate to make a showing. As yet, neither of the two boys are in shape and haven't had any trial runs. Ken Wadley and Dave Stephens will carry the load in the 220 and 440.

The sprinters this year will be headed by Fred Solomon from last years team and sophomore Hexathlon champion Bob Corshen. The dashes thus far are the biggest question mark in Coach Post's mind. A sprinter who could run 10 seconds or 10'1 steadily would solve a lot of point problems in future meets.

Other Events Good

Capt. Clint Thompson will handle the High Hurdles with usual adeptness. Sophomore Pete Perkins is the only Pole Vaulter up to date. Pete did 11'10 in a recent indoor trial. Another question mark prevails in the Javelin event. Bob Lovejoy and Rudy Keimowitz have been working out, and with the conclusion of spring Football, Dick Dennis is coming out. In the Broad Jump there are a few possibilities in Corshen, Lovejoy and even Clint Thompson who came through with a substitute third place last year in the State meet. But Archie feels that whatever these Broad Jumpers can do remains to be seen in competition. The High Jump is pretty well nailed down by Murray Guy and Lovejoy.

Weight Men Outstanding

The outstanding bright spot of this years team falls upon the men of the weights events. With Ronnie Doornbosch and the two "H's", Harasimowicz and Hill the team will have more strength than they've had in years. These boys will control the Shot, Discus, and Hammer along with Junior Stan Talbot on the hammer

Cap't Clint Thompson (middle) in action in State Meet last year.

Frosh Baseballers Set For Season

By Herb Brown

Since their return from spring vacation about 40 freshmen under the tutelage of Coach Fuzzy Evans have been trying out for freshman baseball. Working out afternoons in the UVM cage the squad has not been cut yet due to the many good prospects out for spring football practice. Fuzzy would like to get a good look at these boys before passing judgement and cutting the squad down to 22 men. With the first game against Norwich a little over 2 weeks away the squad should be cut down by about the end of the week to enable Fuzzy to put together a smooth working unit.

Fuzzy though not being overly optimistic, is enthused with his prospects and he hopes to surpass last years 8-2 record and he hopes to carry on the tradition of sending quite a few boys up to the varsity next year.

So far the hitting and fielding has looked pretty good but there is room for improvement and Evans hopes to see it when the boys start practicing at Centennial Field at the end of the week.

In the pitching department Fuzzy thinks he has 2 very reliable chuckers in Dave Klien and Russ Hendricks. Both are big and fast and they have come to UVM with outstanding high school records. Behind them he has 2 righthanders; Dick Shatten who has shown improvement and Eddie Kanel.

Behind the plate there is Harowitz and Curran who is out for spring football, these two will probably fight it out for the starting position.

At first base he has Jack Lamabe who at the present time has a sore arm.

Rounding out the infield we have Trayman at 2nd and men battling it out for 3rd base and short stop. They are Johnston, Murphy, Tierney, Man, Bardon and Wilcox.

Any of these boys may be switched to the outfield along with Gilbert & Johnston.

All in all things are shaping up pretty well and the Kittens look forward to a successful season after a 6-3 victory over Burlington High in a practice game.

On Friday Theta Chi played Sae and the Delts played Sigma Nu. Theta Chi scored 4 runs in the first inning and led all the way to win, 17-7. After 5 innings Sigma Nu was behind by 9-7, but they scored 2 in the sixth and 1 in the seventh to win 10-9.

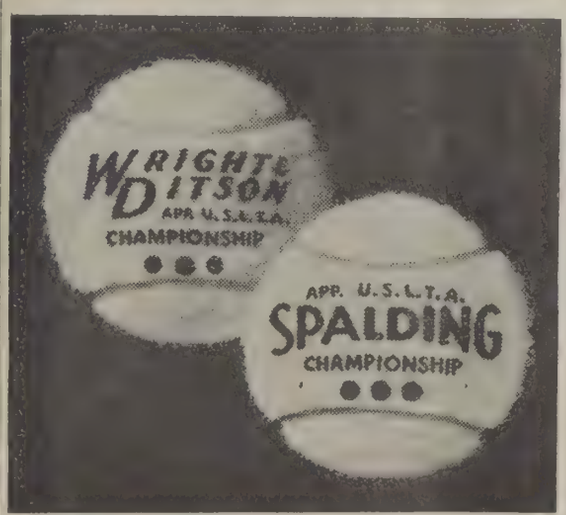
Misuse of WJOY Field

The athletic office has received some complaints about the misuse of the WJOY field. It seems that the Softball players have been parking on University Heights. The correct place to park is on the farm work road east of WJOY. Bad language and boisterous behavior should be held down. If this persists, the diamond will be no longer available for intramural play.

The Standings

League A		League B	
Sigma Nu	2-0	Phi Delt	1-0
Phi Sig	1-0	TEP	1-0
Delta Psi	0-1	Sig EP	0-1
Owls	0-1	Acacia	0-1
AEPi	0-1		

League C	
Kappa Sig	1-0
Theta Chi	1-0
ATO	1-0
Sigma Phi	0-1
SAE	0-2



Mural Mirror

By Ken Brunjes

SOFTBALL

April 18 saw Phi Delta Theta and Sigma Nu win their opening games to start the 1955 softball intramurals.. Phi Delt romped over Acacia to win by 11-1. Sigma Nu beat A E Pi by a score of 7-5.

The following day, all games were cancelled due to bad weather. On Wednesday, ATO scored 5 runs in the third inning to beat SAE 7-4. Three games were played on the 21. Kappa Sig scored 11 runs in the first inning to beat Sigma Phi, 15-13, while Phi Sigma Delta romped over the Owls, 30-4. The closest game of the year was played that day between TEP and Sig Ep. After 7 innings the score was 4 all. TEP scored 4 runs in the top of the eighth to win 8-4.

Look for the Spalding "Tennis Twins" Wherever Top Tennis Is Played

There are good reasons why Spalding's tennis twins are *used in more major tennis tournaments than all other tennis balls combined.*

Top players want a tennis ball that can take rough treatment . . . and give uniform performance set after set. They pick the Spalding and the Spalding-made Wright & Ditson *over all others* for uniform wear and better bounce qualities.

Put the best ball in play for your best game. The pick of top tennis men . . . Spalding's famous *tennis twins.*

Your dealer has them now.

Donelli Speaks At "V" Dinner

Carpenter To Retire After 30 Years

By Herb Brown

On Tuesday night April 19 the Athletic Council held its annual Letter Man's Dinner at the Ethan Allen Club in Burlington, this dinner honored all the varsity lettermen of the 1954-55 season as well as presenting them with awards.

The main speaker of the evening was Mr. Aldo "Buff" Donelli, the famed football coach of Boston University who is a personal friend of UVM's football coach and athletic director Ed Donnelly. Mr. Donelli spoke on the merits of athletics and the things boys learn from them besides winning. He spoke on the importance of the athletes learning how to live with each other. Buff also said that boys are given the opportunity to learn many things which may enable them to solve problems in later life.

He also expressed his thanks to the Vermont Football Team and the part they played in Peterborough, N.H. with his team this past fall. He was of the opinion that his boys profitted immensely from the practice and he was sure Vermont had also. Mr. Donnelly agrees with him and expressed hopes that we could continue this practice every year.

The highlight of the evening was the presentation of a national cross country ski championship medal to Larry Damon. Larry was the only 3 letterman at the dinner. He participated in cross country, skiing, and track.

The evening was saddened by the announcement that Fred Carpenter, tennis coach for thirty years at UVM, is retiring.

(continued from page nine)

Stepping out on a limb it looks as if UVM's chances for repeating last year's win of the State Title looks very good, but as far as Coach Archie Post is concerned, he's just not talking.

See You At Centennial Field For The Opener TOMORROW

Tie B.U. And Lose To Rhode Island

By Dick Lewis

The University of Vermont baseball team journeyed to Southern New England last weekend for four games winning two, losing & tying one in a schedule which included two Yankee Conference games with the University of Rhode Island.

Vermont 15 - Brandeis 2

The Catamounts overwhelmed the Brandeis Judges last Thursday in Waltham by a lopsided score of 15-2. Combining a total of 14 base hits with nine walks and six errors, the Green Mountain boys came out on top. Pitcher Lew Deitsch was given a 6-0 lead before he threw a pitch, as the Cats jumped on Brandeis starting pitcher Maury Stein.

The Catamounts made it 7-0 in the fourth inning before the Judges nicked Deitsch for their first run, the result of Vermont's only error in the game. Deitsch gave up another run in the sixth before retiring in favor of southpaw Bruce McAllister who pitched the final two innings. The game was called by mutual agreement at the end of eight innings.

Vermont 7 - Boston University 7

The Cats took on the B.U. Terriers at the Old Braves Field in Boston on Friday in a somewhat tighter played game than that of the previous day. Vermont scored four runs in the first inning off starting pitcher Leavitt and then were held scoreless until the eighth inning.

Starter George Plender got the nod from Ralph Lapointe for the game and pitched well until the seventh inning when B.U. started a rally. He was relieved by Bruce McAllister as the Terriers started to pile on the hits. B.U. infielder Joe Stoico slammed a two run homer into the jury box in right center field to give the Bostonians the 7-7 tie.

Rhode Island 11 - Vermont 2

The Rhode Island Rams tore into starting pitcher Ronnie Larrow for six runs on seven hits in the first inning of the first game at Kingston before lefty Russ Wagner came in to put out the fire. Wagner gave the boys from R.I.S. only two hits the rest of the game, but errors in the field allowed five more runs to cross the plate in the seventh and eighth innings. Larrow was the losing pitcher

Vermont 9 - Rhode Island

The Cats got back on the winning trail in the second game of the doubleheader to take the Rams by a 9-3 score. Starting pitcher Bruce McAllister went all the way with Johnny Galascione behind the plate.

The Vermonters pushed several big runs across the plate in the first inning to give southpaw McAllister a good lead. Three walks and a hit batsman got the Cats their first run and a single by Galascione drove two more home. Before the inning ended George Gilbert had driven in another pair of runs with a double and Vern Currier did the same with a single.

McAllister held the Huskies until the fourth inning when a single run crossed the plate then gave up two more in the sixth when he issued two of his four walks, as the game ended a decisive win for the Catamounts.

UVM Opens at Home

The Cats face Lowell Textile next Friday afternoon at Centennial Field. Starting time for the game is 4 P.M. It's opening day at UVM, so get your peanuts and cracker jacks, and see the Cats in their first home game.

UNIVERSITY OF VERMONT AND STATE AGRICULTURAL COLLEGE

VOL. 73 BURLINGTON, VERMONT MAY 5, 1955 NO. 8

Alpha Zeta To Honor Aiken; To Mark Fifty Years At UVM

Senator George D. Aiken will be honored Saturday at the University of Vermont as the University's Green Mountain Chapter of Alpha Zeta, national agricultural honorary fraternity, marks its 50th year on the campus.

Alpha Zeta was founded 58 years ago, and the UVM chapter was formed 50 years ago as the ninth chapter.

Expected for the all-day ceremonies will be four of the ten charter members of the UVM chapter, including George W. Ainsworth, Henry V. Allen, Vincent A. Bates, and Frank G. Helyar, all of the class of 1905.

The day's activities will begin at 9:30 with a tour of the Agriculture Campus for charter members. A noon luncheon will be held in the faculty dining room of Waterman for guests. charter members, officers and advisers to Alpha Zeta. At 1:30, there will be a dedication of a reading room in the Hills Building and, at 3:30, Senator Aiken will be initiated as an honorary member of Alpha Zeta, following which, new members will be initiated.

The celebration will wind up at 6:30 with a banquet to be held at the Lincoln Inn in Essex Junction.

Besides Senator Aiken, guests will include Lindley Dennis, high treasurer of Alpha Zeta, and Elmer Towne, commissioner of agriculture, who was a member of Alpha Zeta at UVM.

Students to be initiated into the honorary fraternity include Alun Jones, Burlington; Stuart Hadwen, Bennington; Bruce Walgren, West Hartford, Conn.; Charles Maxson, Westerly, R. I.; John Bonnlander, Chester; David Walker, Morrisville; Philip Manley, Milton; Norman White, Bradford; Donald Luce, East Calais; Bryce Elliott, Barton; Elwood Bickford, Burlington; and Richard Urie, Craftsbury Common. The initiates will wear the Alpha Zeta key about their necks from Thursday through Saturday.

Students initiated last fall, who will be honored Saturday, include John Eapen, India; Paul Bohne, Burlington; David Perrin, Berlin; Willard Tresler, South Hero; Robert Benoit, Enosburg Falls; Pearl Dewey, Wardsboro; Eugene Fellows, Burlington; Roland Gould, Newfane; Peter Maynard, Wilmington; Melvin McKnight, Montpelier; and Robert Slade, Springfield.

Hansen Chosen President Of SA For Coming Year

O'Brien, Baker And Burgess Also Take Posts

George Hansen

George Hansen was chosen president of the UVM Student Association for the coming academic year as the student body voted last Friday on SA officers and councilmen, class officers, and members of the Student Court. Three referenda presented by Student Association were also voted upon.

Hansen, a member of Acacia fraternity who has served on various SA committees, will succeed outgoing president George Lucchina. During his term of office, Hansen has promised to encourage a leadership training program, continue the drive for a Student Union building, and organize the incoming freshman class into an active functioning body.

Dave O'Brien, the present vice-president of Student Association, will again serve in that capacity next year. Roberta Baker and John Burgess were chosen as secretary and treasurer, while the offices of sub-secretary and sub-treasurer will be filled by Joan Armstrong and Ralph Des Laurier.

Only one of the three referenda was given an affirmative answer, as the student body voted to eliminate classes from 12 to 3 p.m. on Good Friday in observance of the religious holiday. The motions to change the present numerical marking system to a more general one and to raise the Student Activity fee so as to provide money for the Student Union fund were defeated.

In the elections for class officers, Michael Rosco was elected president of the Class of 1956. Joseph Wark will serve as vice-president, Nancy Becher as secretary, and Bruce Walgren as treasurer. Nancy McGoughran and James Cleary were chosen SA Councilmen.

The Class of 1957 will be headed by Herbert Russell, President; Gary Richardson, vice-president; Nancy Bush, secretary; and Peter Manning, treasurer. SA Councilmen will be Marilyn Cooper, Stephen Plumb, and Donald Kidder.

George Parry will head next year's sophomore class, aided by James Matthews, vice-president; Marilyn Jensen, secretary; and John Austin, treasurer, Judith Clark, Elizabeth Beck and Edward Dailey were chosen SA Councilmen.

Those elected to the Student Court include Gordon Gilman and William Saris from the College of Arts and Sciences, Shirley Campbell and Cornelia Suhr from the College of Agriculture, Richard Martin and John Trowbridge from the College of Technology, and Margaret Rotanelli from the College of Education and Nursing.

AAUP To Conduct Poll Concernning Student Interest

What is the attitude of students concerning education and educational interest at UVM? You will soon be given an opportunity to voice your views on this controversial topic, and to decide whether our educational system measures up to what it should be, through a questionnaire sponsored by the American Association for University Professors. An increasingly large group of undergraduates and graduate students are of the opinion that the situation is not at all as good as it could be, and planned their program for action at a meeting a few months ago.

Initial Step

Their first step was to see President Borgmann, who contacted the AAUP, which polls in nation-wide surveys. The general chairman at the university and representative of AAUP is Professor Gregg.

Honor's Day Programs Presents Awards To Numerous Outstanding Students

Over 100 UVM students received honors and awards Monday as the University marked traditional Founders Day ceremonies with a special program "Honors Day" designed to take note of academic achievement on the part of students during the college year.

Ian Macneil, who graduated magne cum laude from UVM in 1950, was the principal speaker. His talk was on the topic, "What Academic Life at UVM Meant to Me."

Honors

Named to Mortar Board, Senior Women's Honorary Society, were Lila Hart, Ann Harriman, Mary Hoilman, Alice Millis, Frances Raphael, Virginia Rosse, Elizabeth Semang, Sally L. Smith.

Named to Staff and Sandal, Junior Women's Honorary, were Florence Alexander, Roberta Baker, Phyllis Bracey, Beverly Cameron, Shirley Campbell, Patricia Cheney, Lorna Dean, Lynn Eger, Marilyn Falby, Beverly Jones, Judith Lamson, Patricia May, Marlene Patrick, Frances Russell, Lianne Tryon, Susan Wakefield, Dorothy Ward, and Sandra Waugh.

Named to Sophomore Aides were Elizabeth Beck, Judith Clark, Pamela Crooks, Gail Dunkerton, Janis Erla, Joan French, Gail Gibson, Barbara Godwin, Winnifred Hill, Carolyn Hunt, Marilyn Jensen, Elizabeth Kidder, Anne Kopf, Edith Lawson, Joyce Quilkin, Mary Lou Ready, Peggy Richter, Nancy Sobstman, Susan Thomas, and Lenore Weinstein.

Nursing students named associate members of Sophomore Aides were Jo Ann Armstrong, Nancy Bassett, Mary Booth, and Janet Smalley.

Named to Boulder, Senior Men's Honorary Society, were Alice Chaffee, George Hansen, and David O'Brien.

Named to Gold Key, Sophomore Men's Honorary, were Alan Awalt, Arnold Blackstone, Einar Chrystie, Arthur Corrigan, Richard Howe, Martin Johnson, Donald Karp, Ronald McGurn, George Noor, Roger Piper, Terry Scribner, and John Webster.

Named to Key and Serpent, Junior Men's Honorary, were Max Ansbacher, Donald Bicknell, Kenneth Brunjes, John Burgess, David Curwen, Richard Dennis, John Galascione, Ronald Hill, Rudolph Keimowitz, Donald Kidder, John Lounsbury, and Leroy Williams, Jr.

Named to Phi Beta Kappa were Carol Crossman, Peter Laibson, Marjorie Rowell, and Gilbert Miller.

Nu Beta Pi, Engineering Honorary Society: Rollin Dye, Philip Grover, Gordon Hoxie, Toomas Laasper, Paul Low, Mervin Merriam, Earl Schiring, and Robert Weber.

The Sigma Xi, Science Honorary: Vernon Currier, Peter Laibson, Melton Miller, Jr., Arthur Rosenberg, and Bruce Somers.

Kappa Delta Pi, Education Honorary: Ruth Atkinson, Carol and Carolyn Brumbaugh, Linda Howlett, William Davis, and Aroline Urquhart.

(continued on page six)

Junior Week Festivities To Feature Jazz Concert

Junior Week will reach its climax tomorrow at the jazz concert when the float, poster, and Junior Beauty winners will be announced. The concert will begin at 1:00 with the music of the Dartmouth Chiefs and continue until 5:00.

Junior Week began yesterday with the Junior peerade of fraternity and sorority floats designed to give attention to the Arena Theater fund. The peerade also provided a chance for the University family to see all of the candidates for the Junior Beauties.

The entire parade was police escorted, and had the accompaniment of the UVM band. The judging was done from the City Hall platform, and the results will be announced tomorrow. Trophies will be given to the first and second place winners in the men's and women's divisions.

Beauty Voting Today

Election of the five Junior Beauties took place all day in Waterman today. Twenty-three juniors have been nominated by their sororities or living units. The winners of this contest will also be announced at the Jazz Concert.

The Chiefs are "surely up on top as far as college dixieland bands go." Bud Isaacson, Jazz Concert Chairman, has assured the CYNIC. During the spring vacation the Chiefs played the Surf Club at Elbow Beach, Bermuda. They have also had engagements at Jimmy Ryan's in New York, as well as at Williams, Cornell, Skidmore, and in the New Haven vicinity. This Thanksgiving they are scheduled to give a concert in Carnegie Hall.

Officers and Candidates

Junior Week is an activity of the Junior Class. Daniel Malloy is the general chairman, Terry O'Donnell is the peerade chairman, Jack Stetson is Junior Beauty chairman, and Bud Isaacson is jazz concert chairman.

Program Series To Present Ballet Theatre May Ninth

The music of Tschaikowsky, Johann Strauss and Aaron Copland will provide the background for the three ballets to be performed by the Ballet Theatre here Monday evening at 8:30 in Burlington's Memorial Auditorium.

Tchaikowsky's Swan Lake will be performed from the ballet which was presented originally in Moscow in 1877. The story tells of a Prince who, while out hunting, comes upon a flock of swans who are, in reality, maidens transformed by the evil magician, Von Rotbart. The Prince falls in love with their queen, Odette. When he returns to his palace, a black swan appears. Believing her to be Odette, he pledges his troth. Too late, he discovers she is Odile, daughter of Von Rotbart. Returning again to Swan Lake, he finds that Odette must spurn him because he is pledged to Odile. The Ballet Theatre's version is a combination of the second and fourth acts with the pas de deux of the third act.

Graduation Ball, the third ballet to be presented here, will be danced to the music of Strauss. The ballet takes place in the ballroom of a girl's school in old Vienna. Before the ball the girls receive last minute instructions and admonitions from the school mistress who is herself excited by the prospect of entertaining the commandant of the nearby military academy. The cadets arrive and, after several timid overtures and false starts, the dancing gets into full swing. The ball is interrupted by entertainment which features a pas de deux and a solo variation by the Drummer Boy. This is followed by a competition to determine who is the first ballerina of the year. When the votes are collected, a caricature of the headmistress and the commandant is found in the ballot box and the culprit is punished. The ball is concluded and the cadets leave, but the boldest returns for a final furtive kiss.

The Ballet Theatre Symphony Orchestra will be under the musical direction of Joseph Levine.

The UVM Program Series is handling local arrangements for the Ballet Theatre which is this year celebrating its 15th year.

Eight Science Open Lectures To Be Given Next Week

UVM students are invited to visit eight open lectures in the course of the next week and a half, six of them representing a series within the framework of the course, The Development of Science.

The six lectures, under the series title, "The Whys and Hows of Creative Process," will consider the process of creative work in various fields of activity, discussed by artists and scientists using their own work as examples and showing how the idea was conceived and developed into its final form.

On Friday, May, at 4 p.m. in the Art Center, Francis Colburn will discuss "How Does a Painter Create." Following his lecture, Gladys LaFlamme Colburn will discuss "How Does a Poet Create."

At 4 p.m. Monday, May 9, in the Physics Lecture Room of Williams Science Hall, Adam Skapski will discuss "How Does a Physicist Create." A current research project will be inspected.

At 4 Wednesday, May 11 in 122 Hills Building, James Marvin will discuss "How Does a Plant Physiologist Create." A current research project will be visited.

On Friday, May 13, at 4 p.m. in the Zoology Lecture Room of Williams, John Lochhead will discuss "How Does a Zoologist Create." A current research project will be inspected.

On Wednesday, May 18, at 4 in the Physics Lecture Room of Williams, Donald Gregg of Clinton Cook will discuss "How Does a Chemist Create." A current research project will be visited.

On Tuesday, May 10, Andrew Nuquist will lecture in the Open Lecture Series being offered by the political science department in connection with its course in Popular Government. Mr. Nuquist will discuss "Executives in the Far East." This lecture will be at 4 p.m. in Room 117 of the Old Mill.

On Thursday, May 12, Donald Gregg will give an open lecture on "Solar Energy and the Production of Our Food." This lecture will be offered at 8 and 11 a.m. in Room 208 of the Williams Science Hall.

Campus Bridge Tourney Names Four Champions

Vermonters and out-of-staters shared evenly in bridge honors at UVM this year as two out-of-state co-eds and two Vermont men students were declared campus contract bridge champions in the recent National Intercollegiate Bridge Tournament.

UVM Champs

Elaine Goldstein, '56, of New York City, Frances Kernoff, '56, of Nutley, N.J., Willard Tresler, '55, of South Hero, and Lawrence Tudhope, '57, of North Hero yesterday received certificates naming them campus bridge champions at UVM. They were among 2,000 students representing 141 colleges and universities who participated in the national tournament, won by teams representing Texas University and Whitman College. Sixteen students competed in UVM's tourney, which was under the direction of Professor R. S. Towne of the department of romance languages.

A plaque bearing the names of UVM's winners will be presented.

Round Table Annual Spring Picnic To Be Held At Southwick

The Round Table will hold its annual spring picnic and last meeting of the year 6:00 this Sunday at Southwick. Professor Paul D. Evans of the history department will lead the discussion on "Scholarship vs Personality at UVM."

Professor Evans explained the discussion would probably center upon the level of academic standards which a university should set for itself. However, Professor Evans is expected to point out that one can not gain one thing without losing something else.

Activities Would Lose

The loser in this case would probably be extra-curricular activities an outside social affairs. Thei place in a university is usually justified on the grounds that they build up the "personality" of the student.

Everyone Welcome

The meeting will begi with a picnic supper a 6:00 to which all student are cordially invited. Round Table president Max Ansbache affirmed this by saying, "The spring picnic is usuall an informal and enjoyable meeting. We will be glad to have any student or professo with us." Cost of the meal is 75 cents.

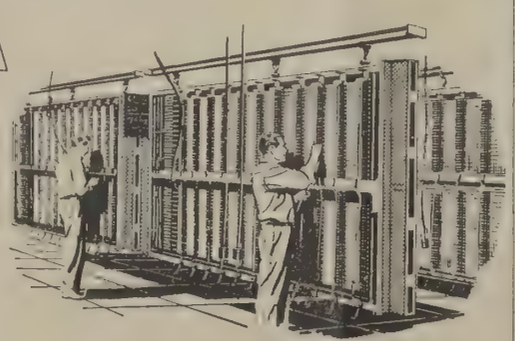
CREATIVE ENGINEERING

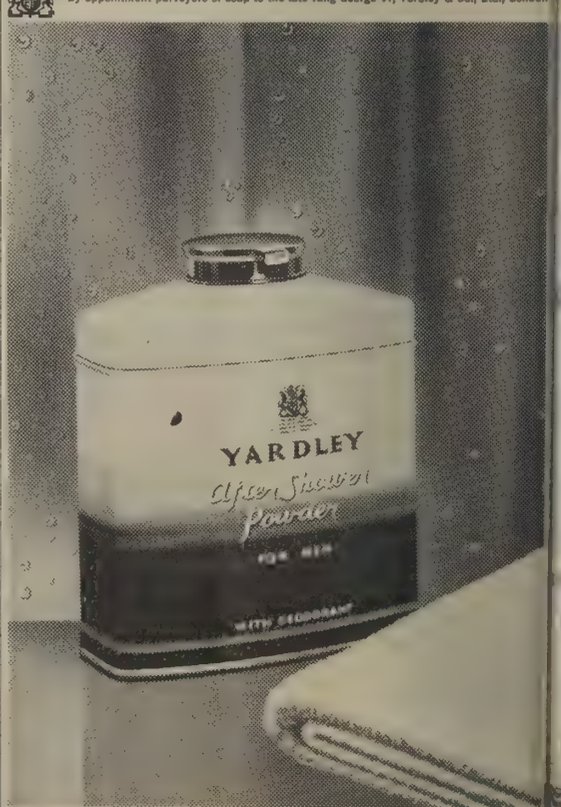


SKYPATH FOR WORDS AND PICTURES

Pictured here is one of the many stations in the Bell System's new nation-wide radio relay system for beaming telephone calls and telecasts coast to coast. It is Western Electric's responsibility to make and install the complex electronic equipment needed. This is another example of our job, as the manufacturing and supply unit of the Bell System, to provide the thousands of things that make good telephone service possible. It's a job that presents an unending challenge to our engineering staff.

IN THE AIR... ON LAND... AT SEA...

For the nation's defense, the Armed Forces call on Western Electric to apply telephone technology to the manufacture of electronic controlled weapons . . . like the fabulous guided missile NIKE (shown here) and other air, ground and sea radar systems. Besides producing these new weapons, Western Electric advises and instructs on their installation, use, and maintenance—through its Field Engineering Force (F.E.F.). In the air, on land and at sea . . . in the U.S. or abroad . . . you'll find Western Electric-made equipment and men of the F.E.F. working with the Armed Forces.



DIRECT DISTANCE DIALING

Modifying telephone systems for nation-wide dialing requires months of make-ready. Working with technical men from Bell Laboratories and Bell telephone companies, Western Electric engineers develop and plan the manufacture and installation of the intricate equipment needed for change-overs. Shown here is an automatic switching bay being manufactured in one of Western's 16 plants.

Ballet Tickets

Tickets for the Monday, May 9, performance by The Ballet Theatre are on sale in Room 40 Waterman and at Bailey's. All seats for the 8:30 presentation in the Burlington Memorial Auditorium are reserved seats with prices set at $1, $2 and $3.

The UVM Program Series is sponsoring the appearance of The Ballet Theatre here through an agreement with the Ballet group to handle local arrangements. Seating arrangement has been worked out on the plan which will be used next year for presentations of the George Bishop Lane Artists Series.

The Ballet Theatre group will perform three ballets in their program here: Swan Lake, Rodeo and Graduation Ball.

Rutland Herald

UVM students maintained their record of exceeding every quota set for them in special University drawings last Thursday when they donated a total of 204 pints of blood. Quota for the drawing had been 150 pints. The sponsoring Ethan Allen Rifles had aimed at 200 pledges in order to meet his quota.

The Rutland Herald of Friday morning carried the story with the brief headline: "Orchids to UVM," which we report on the theory that UVMers will be happy to know that news like this gets as much attention as court proceedings which involve students.

Military Review

Over 1,000 UVM Army and Air Force ROTC cadets will participate in the 87th annual Military Day Review on Friday, May 13, at 3:30 p.m. at Centennial Field.

Plans for the event, to which the public is invited, are being coordinated by Allen Herzberg and William Cox, whose respective departments will once again be cooperating in presenting the Review.

Life Saving

The Chittenden County Chapter of the American Red Cross will conduct a Life Saving Instructor's Course at the local YMCA on Thursday, May 5, and from May 9 through May 13 from 6-9:30 p.m.

Jane Hood will conduct the preliminary and pre-requisite class on Thursday, May 5. Raymond Amiro, area representative of the Red Cross Safety Services, will give the Instructor's course.

Kappa Delta Pi

UVM's chapter of Kappa Delta Pi has presented eight volumes in the Kappa Delta Pi Lecture Series to the Billings Library. It is the hope that the UVM chapter can eventually give the entire series, according to Nelle Adams.

Meetings

Sigma Xi

The Society of the Sigma Xi will hold its annual business meeting on Thursday, May 12, at 8 p.m. in the Home Economics Auditorium. The agenda will include the election of officers and recommendations from the committee on admissions.

Following the business meeting, Charles Doll will show Kodachrome slides of Vermont geological formations.

Refreshments will be served.

Reseach Club

The Research Club will hold its annual meeting for the election of officers on Tuesday, May 17 at 8 p.m. in the Home Economics Building.

A. A. U. P.

The A.A.U.P. will hold its annual dinner meeting on Tuesday, May 10 at 6 p.m. in the Faculty Lounge.

Home Baseball

The UVM baseball team will be at home to Clarkson at 4 p.m. Thursday, May 5; to Massachusetts at 1:30 p.m., Saturday, May 7; and to Norwich at 2 p.m. Saturday, May 14. The freshman team will play a home game with St. Lawrence at 1:30, Friday, May 6.

Faculty Notes

Fred Carpenter, Ed Schneider, and Ed Greif will represent Trinity College, Cornell University and New York University respectively when St. Michael's College celebrates its 50th year on Monday, May 9.

Alumni Notes

Gov. Joseph B. Johnson was the guest speaker at the annual banquet meeting of Nu Beta Pi, held recently at Oakledge. Gov. Johnson was made an honorary member of the honorary following the banquet.

James Bullard has had a letter from Charles E. Carver, Jr., who writes in part "I completed my graduate study at MIT and received the degree of Doctor Science in civil engineering last February. I shall always be grateful for the high standards of instruction at UVM during my undergraduate training which held me in good stead during the somewhat arduous years of my graduate work.

"I have recently accepted a position as senior engineer with the Glenn L. Martin Aircraft Company in their hydrodynamics section. Although I should like to return to the academic sphere eventually, I felt a need for industrial experience as a pre-requisite for broader background in my chosen field. Certainly the problems I am now encountering are intensely interesting and diversfied..."

OH, BROTHER, ARE WE IMPROVING

Just think of the tremendous improvement in election turnout this year over last time. There was an actual increase of TEN votes. Where did these come from? No doubt new freshmen, and the school should be on the lookout for more of them. All of which leaves us with the unpleasant fact that our new Student Association president was elected by only about one-third of the student body.... 1035 votes combined for both contestants! And, of course, candidates for lesser positions had less student interest and hence, less student votes for their contests. Some candidates had so few votes cast in their races that they could almost have been appointed.

APATHY AGAIN

So this leaves us with a Student Association which certainly does not have student support or interest. It was not the candidates' facult; they put on splendid campaigns. And the turnout of voters does not reflect on the ability of the candidates. George Hansen is well equipped to do an excellent job as President of S.A., and so is Dave O'Brien. Either would have done equally well in the position, and therefore the students were not showing their displeasure by abstaining. No, let's face it. The real answer is that old, but valid, term, " student apathy ". With the ballot boxes right in the center of Waterman it seems incredible that students could not find time to, at least, choose the key officers in S.A. But for more than 2000 students to utterly pass up this chance seems difficult to comprehend. Student government is not a tool of the administration. It is there to serve the students. The election was our foremost opportunity to make our collective will felt, and we passed it by for lack of interest, or as one student put it, " What do I have to do with S.A.? It's only for clubs anyway."

In a way he is correct. For many students there is no contact at all with S.A. These people are not in organizations, and are only concerned with S.A. in a very indirect way. It is their money that is being spent, but they don't benefit. They don't even know who the new officers are. Nor do they know anything about the referendums that were voted on, though they are directly effected by the results.

If they feel this lack of identification with S.A. they should set out to change it. The way is not to ignore an election. An active interest would generate an active knowledge, and an active knowledge would create a close liason.

NEXT YEAR

It's really too late to discuss this now. What has been done is finished, and as the expression goes " wait till next year. " We don't have to wait; the results will be about the same as now. So one-third of the students really make up the active student body and the two-thirds majority just tags along for the ride.

Well, George Hansen, the best of luck to you, and to your associates in whatever positions they may hold. You are going to face a difficult task, but remember, at least, some students are behind you.

Though the students let you down, don't you let them down!

Intercollegiate Round-up

By Eugene Levin and Richard Chernaik

We recently learned of the existence of two conditions which left us dumbfounded. One is a potential financial oil well in UVM's back pocket which, because of legal knots, cannot even be tapped. We are referring to the potential income from land-holdings in the State of Vermont which should be bringing in thousands of dollars per year, and yet does not even pay for the bookkeeping required to maintain it. It would seem to us that a most expedient measure would be to hire a team of lawyers and lobbiers and hustle down to Montpelier. Columbia University collects a reasonable amount every year by virtue of the rent collected on Rockefeller Center.

At last, UVM is a state school and now the question is -- what about the scholastic standards? It is an unofficial, but considered, opinion that there is pressure exerted by the school board on the secondary education systems, not only in Vermont, but in other states as well. In these states, it is extremely difficult and uncomfortable for a teacher to flunk a student. With the shifting of UVM from a semi-private to a state university, and with the consequent shifting of public attitude, will there be a feeling of control over the University's entrance and scholastic policies?

It is a plausible expectation that tax-paying Vermonters will develop the attitude, "I pay good money every year to support a state university, and I'll make sure that every Vermont kid gets a chance at it." Such pressure, applied to the state legislature, will naturally result in a lowering of the scholastic standing of the university. Teachers of the first caliber, of whom there are a good number here, become discouraged, disinterested, and mechanical unless the class displays a certain minimum of interest and intelligence. The rewards of teaching transcend financial remuneration. They are the installation of the creative, active mind in a student. Probably the greatest sense of achievement comes to a good teacher when he, or she, sees a student actively tackling a new problem or theory.

Without teachers like this, whom money can neither buy nor hold down, a college is merely an advanced grade school, grinding facts learned by rote into reluctant students. The staff is that around which a college is built, and must be constantly fed a diet of intellectual stimulation, seasoned with humor. (We have never met a good teacher without a characteristically good sense of humor.)

In short, the scholastic standards must be kept up, and even raised. Practical considerations must, of course, be taken into account, but let us not keep our nose to the grindstone that we cannot see the stars.

Poinig's Postscript

By Wolf

Vermonters, beware! A world devastating event has just been hushed before our very eyes. The time was ripe last Sunday, May Day.

GEORGE HANSEN

Students Hold First SA Training Workshop Sat.

Last Saturday the first Student Association Leadership Training Workshop was held at Camp Abnaki, North Hero, Vt. Eighteen representatives of various campus organizations met and discussed questions dealing with the role of Student Association on campus and the role of faculty advisors.

A picnic dinner followed.

Mr. Donald Hardy, Coordinator of Student Affairs, described the function as "performing a valuable service to the interests of a informed student government, and was also useful in giving campus leaders an opportunity to meet one another." Another session is planned for next year.

Deadline May First For Listing Of Events In 55-56 Calendar

The Office of Coordinator of Student Affairs announces that Friday, May 6, is the last chance to get functions of organizations listed in next year's Student Calendar. Cards may be obtained from the Calendar Committee and are to be filled out with the preferred date as well as an alternate day.

The Calendar Committee will draw up a tentative calendar and will submit it to all interested parties at a meeting in Room 239 Waterman on Wednesday, May 18 at 7 P.M.

Winterberger Represents UVM At Senate Confab

Representing the University of Vermont at the annual Vermont Senatorial Convention will be Miss Sandra Winterberger, Class of 1958. The meeting, to be held on May 12 at Montpelier, will have as its timely discussions pertaining to Mothers' Day.

Miss Winterberger has chosen to give her views on "The College Woman Looking Forward to Marriage and Motherhood." Explaining the male opinions on the college girl's attitude toward her future will be Marvin Levy, Class of 1957. Both representatives have had experience with the Debate Team. An interesting day is assured to all who attend and participate.

"It has been called to my attention, through several anonymous letters, that not only the state, but also our school has become a target for a subversive organization. Naturally, I was interested and investigated. Now, I fully realize its dimensions and that it was about to first strike in the open here in Burlington. Students, there were May Day demonstrations on the campus; where were you?

Hardly anyone can conceive how or why such a thing began, I, with my staff, have finally pieced this situation together for a more complete understanding. The proof is clearly illustrated in the Wilbur Library unknown to almost everyone. Actually, the whole thing commenced almost a hundred years ago.

This underground movement was a direct result of the Civil War, when some Confederate troops infiltrated north. The one northern city raided by the rebels was none other than St. Albans, Vermont. Most people, including the residents of that beseiged town, believed that all the invaders had left shortly afterwards. However, I discovered that one man remained. After the war was over, he became a simple, unassuming farmer in disguise. In 1871, he married a local Yankee woman and during their long marriage, he proceeded to thoroughly ' brain wash ' her and incorporate her into his plan.

As the years passed, this undercover agent's family grew to become the largest single led cell of subversion in New England. In time, the leadership was passed down from eldest son to eldest son until the present time. Now, we are face to face with the shrewdest member of this family which I give the nom de plume, ' Karl.'

Karl is a smart New Englander and knows all about the mannerisms of the Vermonters. He flooded the UVM faculty with self-indoctrinated co-workers and planned for the future. Not only did he plot to control the university, but the city of Burlington itself. Throughout the city, Karl planted his men in strategic occupations and even in one or two local official offices. The most innocent woman or man might be a member of this notorious cell.

The ' Web of Subversion ' is closing in on all of us. We must be ready to meet Karl and his comrades to insure our future. Let us all be ready to stand and quell this uprising.

Around The Green. .

With Rhoda Rosenberg

What's new in your sorority or fraternity house or dorm? How about sharing it with the campus? We'd like to hear from you. What do we want to know? Elections, new pledges, social news, and romantic elements--pinnings, engagements, marriages, and new arrivals. Anything at all that would be of interest to your fellow students. When you mention someone's name, please give us their home town and class at UVM. If you're announcing the pinning or engagement of someone, tell us what school "the other half" attends, or where they are working. We'd also like to know the names of your reporters. Dorms--elect a reporter to keep us informed.

If there is anyone who is interested in working on the Society page, just leave your name in the Society box in the Cynic office. We'd be glad to have you help us.

That's about it for this week. Let's hear from you!

The Society Staff

PHI SIGMA DELTA

Phi Sigma Delta announces its officers for the coming year. Master Frater, Gerry Goldman '56; Vice-Master Frater, Marv Nierenberg '56; Housemaster, Stan Borofsky '56; Secretary, Ed Walker '57; Treasurer, Ron Grossman '57; Alumni Secretary, Bob Kleinberg '56; Corresponding Secretary, Bill Infeld '57; Steward, Rudy Kelmowitz '57; Senior Rep., Bernie Rome '56; Junior Rep., Dick Stein '57; IFC Delegate, Roy Willians '57; Activities Chairman, Barry Stone '56; Public Relations Chairman, Bob Kleinberg '56.

Congratulations to Don Karp '58, for his election as outstanding pledge of the David L. Klein Memorial Pledge Class.

In the ceremony held in the gardens in back of Fern Hill on Tuesday, April 19th, the following men were initiated: Mike Abramson '58, Mount Vernon, N.Y.; Ted Ginsberg '58, Flushing, N.Y.; Gerry Gray '58, Forest Hills, N.Y.; Harold Horton '57, New Haven, Conn.; Don Karp '58, Newark, N.J.; Art Krauser '58, Brooklyn, N.Y.; Bob Krauser '58, Brooklyn, N.Y.; Roger Lerner '58, Bridgeport, Conn.; Ronnie Nadler '58, West Hartford, Conn.; Dick Ostreich '58, Great Neck, N.Y.; Steve Rieman '58, West Engelwood, N.J.; Stan Reiter '58, Roslyn Heights, N.Y.; Steve Smith '58, Brooklyn, N.Y.; Steve Solomon '58, Great Neck, N.Y.; and Professor Milton Potash, Burlington, Vt., Associate Frater.

PHI DELTA THETA

Spring has brought a fresh burst of activity to the brothers and pledges of Phi Delta Theta. On March 20 twelve new brothers were initiated into the bond. They are: Joe Hillock, Art Adamo, Bill Husk, Don Sherman, Tom Davenport, Marty Jonson, Ron Peaker, Ed Korzun, Pete Andresen, Ed Dailey, John Kaiser, Bill "Charlie" Beebe. One of the preceding, Bill Husk, has just been elected Junior I.F.C. Representative.

From all reports this year's annual "Shipwreck Party" ranked with the best we've seen in recent years. The Sophomore Class is now planning a "Gypsy Party" tentatively scheduled for May 7, complete with decorations, musicians and costumes.

GAMMA PHI BETA

The Gamma Phi's held their spring formal on April 16. Bill Wanamaker and his orchestra supplied the music for the members for their guests. The theme centered around the Gamma Phi Crescent and pink carnation. The committee heads were: Decorations-Lianne Tryon, Refreshments-Carol Conner, Door committee-Beryl Oliver. The general chairman was Marilyn Wakefield.

ACACIA

Acacia fraternity selected their most outstanding senior of the year, Sidney Barnard, of Vergennes, Vermont at their regular meeting on Monday night. He was chosen for his outstanding scholastic achievement, for his able work as Senior Steward, and for his extra curricular activities on campus. As an active member of Alpha Zeta, Agriculture Honorary Society, Sid was in charge of the Dean Hill's Sugar Party, this past Spring. Mr. Barnard, who has received several scholarships, including one from the Hood Foundation, plans on doing graduate work in agriculture upon graduation this June.

Acacia announces this week the pledging of Donald Howland, '57, of Belmont, Vermont, and the initiations of Bob, "Stretch" Richardson, '57, of Albany, New York and Donald Klein, '57, of Stratford, Connecticut.

ALPHA EPSILON PHI SORORITY

The big night for the A E Phi pledges, their initiation, was held Thursday, March 24. Wearing their big sister's pins are: Val Gluskin, Geri Wainshilbaum, Joyce Morehower, Lisa Garris, Wendy Sterns, Rose Marie Brit, Gloria Pincus, Arlene Bennett, Peggy Richter, Lennie Weinstein, Sue Mandelbaum, Lesly Asnis, Ann Buxbaum, Charlotte Marks.

The best pledges award of the year was shared by Val Gluskin and Lennie Weinstein.

Taking care of the executive duties for next year are: Leone Bernstein, Dean; Rhoda Rosenberg, Sub-Dean; Donna Davidson, Scribe; Myrna Feldman, Treasurer.

DELTA PSI

A new semi-athletic team has been formed at the Delt House. It is the locally famous "sack team." Captain and undisputed champ is able, "shuteye" Jim Cleary; runner up to Jim is "dead eye" Brian King and anchorman is old, reliable "sack" Bill Balfrey.

We wish to extend congratulations to Phil Whitney who ably directed the DELTS to first place in the Interfraternity Sing. Also, we would like to congratulate his assistants: Bruce Ferguson, Don Bicknell, and Charles Gee.

It is being anticipated that there will be a Singapore party scheduled for Saturday, May 14. The garb will be representative for the type of party, and it will be a blast.

Recently pledged to Delta Psi was Al Duval, Class of 1957, from Windsor, Vermont. Congratulations All!

The Delts walked off with first place in their volleyball league.

This championship team consists of: Coach Bill King, Dick Towne, Bill Bradford, Bill Mann, Don Carpenter. Congratulations men!

Pete Manning, Class of 1957, was elected for I.F.C. representative for the coming year.

KAPPA ALPHA THETA

The Lambda Theta's here at U.V.M. here hostesses for a District Convention held in Burlington the weekend of April 15-17. Representatives for the Theta chapters at U. Conn., U. of Mass., and McGill attended. There were four sessions of the convention. A welcoming dinner was held Friday night and a Formal Banquet Saturday night.

On the past two Monday nights, the Thetas have entertained members of the Faculty. Professor F.P. Colburn showed slides and told about the trends in Contemporary American Art. Professor and Mrs. Gregg Falls were our guests at dinner and afterwards Mr. Falls spoke on "Oklahoma."

TRI DELTA

On Saturday afternoon, April 16, 1955, the present Tri Delta pledge class held a personal auction including their mending, washing, ironing services, etc. All the proceeds raised from the gal's affair were to go to the needy families of Burlington. Brad Carnell made a great auctioneer. Car washing seemed to be the most desired service.

Kathy Oram and Ralph DesLaurier, who were in charge, deserve congrats for making the party a success through their planning.

TAU EPSILON PHI

On Sunday, April 17, the TEP's welcomed 18 new brothers through the portals of Tau Epsilon Phi. These new initiates are: Al Resnick, '57, Brooklyn, N.Y.; Bernie Sussman, '58, Allentown, Pa.; Bill Damsey, '58, Brooklyn, N.Y.; Art Geduldig, '58, Queens Village, N.Y.; Mush Horowitz, '58, Bridgeport, Conn.; Shelly Gross, '58, Springfield, Mass.; John Iszak, '58, Longmeadow, Mass., Jay Julius, '58, Bronx, N.Y.; Harry Mancoll, '57, West Hartford, Conn.; Paul Konigsberg, '58, Brooklyn, N.Y.; Don Shoob, '57, Lynbrook, N.Y.; Carl Horowitz, '57, Brooklyn, N.Y.; Richie Alper, '56, Brooklyn, N.Y.; Bob Brodherson, '57, Brooklyn, N.Y.; Howie Cornett, '58, Brooklyn, N.Y.; Dick Bregstein, '57, Brooklyn, N.Y.; Marty Greenwood, '58, Tenafly, N.J.; Bill Pickens, '58, Brooklyn, N.Y.

The TEP Spring Formal will take place on Friday, May 6th at Oakledge Manor and on Saturday, there will be a picnic. Following this will be a party at the house. The social chairman, "Tiger Ted" Zeitlin is not sure whether that Saturday night party will turn into the first annual "Caveman Party." It seems that Miles and Riley has not received its shipment of blue oxford button-down leopard-skins for the affair. A door prize of a genuine four billion year old frozen mammoth will be awarded to the girl having the most hieroglyphic costume of all. The TEP's found this frozen darling after the ice finally broke up in Lake Champlain last August. If there is a "Caveman Party," be clubby -- bring your own club!

ALPHA EPSILON PI

The New England Regional Conclave was held at the University of Rhode Island on April 15, 16 and 17th. Eight brothers and pledges represented Zeta Pi Chapter and carried off the regional bowling trophy. Marty Bloomfield was elected Lieutenant Master of the region. Newly initiated brothers include Neil Rich, Seth Okin, Jules Perley and Norman Coe. Joe Long has accepted an open bid. Newly elected officers of AEPI are: Stuart Gorden-Master, Harvey Rubin-Lieutenant Master, Ted Rauch-Scribe, Bernie Toomin-Exchequer, Neil Rich- Corresponding Scribe.

LAMBDA IOTA NEWS

The Owls recently pledged two men. They are Jong Fink '58, of South Roslyn, N.Y., and John Klinck '58, of Washington, D.C.

The Owls recently elected Dick Severens '56, Saxtons River, President; of the Lambda Iota Fraternity. Elected to the Board of Governors were: Jan Curran '56, Goldens Bridge, N.Y.; Hugh Sullivan '57, Bellows Falls; and John Whalen '56, Burlington. Ed Crane '56, Burlington, was chosen Secretary and Al Turner '56, Yonkers, N.Y., Treasurer.

ALPHA DELTA PI

The following girls were recently pledged by the Alpha Delts: Claire Seyer, '58, Calais; Eleanor Brown '58, St. Johnsbury; Elizabeth Sawyer, '58, Weston, Mass.

On Campus with Max Shulman

(Author of "Barefoot Boy With Cheek," etc.)

LOVE IN REVERSE

They were at the campus swimming pool. She was standing on the diving board—lithe, young, vibrant. He came swimming over. "Hey," he called, climbing up on the board, "was it you who made that dive a minute ago?"

She nodded—lithe, young, vibrant.

"Whew!" he whistled. "That was some dive! A back jackknife two and a half twist full gainer swan. Where did you learn to dive like that?"

"I fell off the board," she explained.

"Oh," he said. He looked at her—lithe, young, vibrant. "Let's go steady," he said.

"But I don't know anything about you," she said.

"What's there to know?" he said. "I'm a typical American college man—young, healthy, and broke."

"That's good enough for me," she said, "for I am not interested in money. I am a girl of simple tastes—lithe, young, vibrant."

"Dad!" he whispered.

"Crazy!" she breathed.

Their lips met. Their arms twined. They fell off the board.

"If you only knew," he said later, as he applied artificial respiration, "how long I have been looking for a lithe, young, vibrant girl of simple tastes, for though my heart is large and full of love, my purse is lean and meagre. My cruel father sends me an allowance barely large enough to support life. So I have been looking high and low for a girl of simple tastes."

"Search no more," she said. "My tastes are simple; my wants are few. Just take me riding in a long, sleek, new yellow convertible, and I am content."

"Goodbye," he said and ran away as fast as his chubby little legs could carry him, for he knew this girl was not for the likes of him. He had neither convertible nor hardtop, nor the money to buy one, nor the means to get the money, short of picking up his stingy father by the ankles and shaking him till his wallet fell out. No, there was nothing for it except to forget this girl.

But lying on his pallet at the dormitory, he could not get her out of his mind and finally he knew that whatever the expense, he had to have her—lithe, young, vibrant.

So he sold a few things—his textbooks, his overcoat, his hi-Y pin, his roommate's truss—and soon he had accumulated a goodly sum. He went to a place that sold automobiles. "How much does it cost," he said, "to buy a yellow convertible automobile?"

The man told him. He collapsed in a gibbering heap.

After a while he stirred and shambled home. But on the way he passed a place with a big sign that said: RENT A CAR—DRIVE YOURSELF. Hope came into our hero's eyes. He went inside. "How much does it cost," he said, "to rent a yellow convertible automobile?"

"Ten dollars a day, plus seven cents a mile," said the man.

"Done and done," said our hero, and soon he drove away in a long, sleek, new, yellow convertible.

"Oh, goody!" said the lithe, young, vibrant girl when she saw the car. "This suits my simple tastes to a T. Come, let us speed over rolling highways and through bosky dells."

And away they went. They drove north, they drove south, they drove fast, they drove slow, they drove east, they drove west, they drove and drove and drove and, finally, tired but happy, they parked high on a windswept hill.

"Philip Morris?" he said.

"Yum, yum!" she said.

They lit up. She snuggled against him. "You know," he said, "you are like a Philip Morris—mild and fresh and relaxing."

"But there is a big difference between me and Philip Morris," said she. "They're available in king-size and regular, and I am only available in regular."

They laughed. They kissed. He screamed.

"What is it, dear man?" cried she, alarmed.

"The speedometer," he said. "I just noticed. We put on 200 miles tonight, and this car costs seven cents a mile, and I have only $14 left."

"But that's exactly enough," she said.

"Yes," he said, "but we still have to drive home, and that will put a lot more miles on the car. Where will I get the money to pay for that?"

"Gee, I don't know," said she.

"Me neither," he said glumly. He started the motor and backed out of the parking place.

"Hey, look!" said the girl. "The speedometer doesn't move when you're backing up."

He looked. It was true. Mileage only registered when the car was moving forward—not in reverse. "Eureka!" he said. "That's it!"

"Do you mean—" said she.

"Exactly!" said he. "I will drive home in reverse. Then no more miles will register and I'll have enough money to pay!"

"I think that's a George idea!" she cried, and she was right. Because today our hero is in the county jail where food, clothes, and lodging are provided free of charge, and his allowance is piling up fast. By the time his sentence is ended, he should have enough to take his girl out riding again.

Little Cup, Forrest Higley; Wall Street Journal Award, Dale Gardner; Vermont Bankers Association Prize, George Ewins; George H. Walker Dairy Prize, Willard Bickford; Burpee Horticultural Award, Bertie Boyce.

Elwin L. Ingalls Prize, Lois Jones and Bryce Elliott; John M. Thomas Trophy, Willard Bickford; Alpha Zeta Proficiency Award, Bryce Elliott; Omicron Nu Cup, Myra Van Deusen; Institute of Radio Engineers Award, Paul Low; American Institute of Electrical Engineers Award, Nelson Stiles.

Kidder Medal, Luther Hackett; Mary Jean Simpson Award, Marilyn Skinner; Sunderland Memorial Trophy, Walter Johnson; Wasson Athletic Prize, Lawrence Damon; Athletic Council Managerill Prize, William Blakeman; Outing Club Skiing Award, Lawrence Damon; Stroh Trophy, Edwin Beck, Jr., and to James Montgomery and Edward Rynn, both UVM '54.

Howard Prizes for scholastic excellence during the freshman year: Lianne Tryon, first; Marvin Nierenberg, second; and Patricia May, third.

Alpha Lambda Delta Awards: Carol Crossman and Marjorie Rowell.

Hannah G. Solomon Prize: Jacquelyn Joyce.

Scholarship awards to women's residences, based on first semester averages: Large Residence, Old Mill; Small Residence, Gardner's House. Highest ranking sorority, Gamma Phi Beta; highest ranking fraternity, Acacia.

Trackmen 2nd At Colby As Harasimowics Breaks Record

As I See It

BY Ed Willard

UVM's Sports weekend was a successful one and in more ways than one. Our teams had a good weekend. The Varsity baseballers knocked off St. Mikes while our track team placed second in a quadrangular meet at Colby as Paul Harasimowicz set a new UVM record in the shot-put. The Frosh tracksters took every first place in a win over Lyndon Institute. All in all, it was a "gooder".

The "successful in more ways than one" also includes the help Vermont fans gave the Burlington A's in launching their season Saturday and Sunday. This writer noticed many UVM students at the pro's debut as well as at the double-header on Sunday. If they aren't already, the A's management ought to be grateful for this. Student support until college closes will be a big factor in the overall success of the A's. Attendance at Athletic events is a funny thing. It's hard to analyse but it has a lot of interesting aspects.

Many times, people can have the best sort of entertainment staring them in the face and they won't have anything to do with it. Witness the Vermont Conference. It happens in sports too. The Rochester Royals have had some of the top teams in American Pro. basketball for the past ten years and yet, their attendance usually doesn't go over 2000 a game. Only a philanthropic owner keeps em going. The Fort Wayne Pistons are in a similar spot. Why? Don't ask me! The thing works the other way too! Look at the Detroit Tigers and the Pittsburgh Pirates. The Bengals had a last place club just two years ago and over a million fans trooped to the park! Pittsburgh has the same situation. The explanation; They're "baseball cities"??

The whole thing is a riddle to me. The point is this. The support of the student body at Vermont is needed to help supply that inestimable something that may make Burlington a "baseball city" again.

It seems that the minor leagues in general face a rather dubious future in this country. Team after team and league after league have dropped out of the picture. With the advent of Television and two cars in every garage, fans either go to see the big leagues or they don't go at all. The death of the minors would mean among other things that eventually we will be seeing minor league ball players parading in major league uniforms. They have to get experience somewhere. Thereby hangs the tale!

High point man at Colby Ron Doornbosch heaves hammer in practice.

Doornbosch, Thompson, Damon, Perkins Score Firsts

The UVM track team opened their season at Colby in Maine where the Catamounts placed second in a quadrangular meet as Paul Harasimowicz set a new shot-put mark of forty-four feet, two and a half inches. Bates won the meet with 66 points while Vermont followed with 55. Middlebury had 38½ while host Colby finished with 5½.

High scorer of the meet was Ron Doornbosch with a total of nine points; he was closely followed by Paul Harasimowicz and Larry Damon with eight points

Paul Harasimowicz broke Ron Doornbosch's meet shot put record by tossing the iron ball 44' 2½". Other record breakers were: Riopel of Bates in the mile who was clocked in 4:34:7, and Middlebury's Hart, who high jumped 5' 10 7/8".

Besides Harasimowicz's winning shot put, Vermont had four other first place finishers. Larry Damon won the two mile race with very little competition; Capt. Clint Thompson captured the 220 yard low hurdles; Pete Perkins took the pole vault; and Ron Doornbosch placed first in the discus.

Vermont's lack of any strength in the sprints cost them the meet. In the hundred, two-twenty, and four hundred and forty yard dashes Bates scored twenty-four points while Vermont scored but one. If Vermont had one good sprinter, they could have displaced some of the Bates' runners and very possibly won the meet.

In Spite of This

Coach Archie Post feels quite optimistic about future meets and is hoping for a winning season.

Kitten Trackmen Smash Lyndon

By Herb Brown

Last Thursday Coach Norm Strassburg's Freshman Track team ran to an overwhelming victory over Lyndon Institute. The meet was held at Centennial Field and when it was all over the final score read UVM 86 Lyndon 31.

If this meet was any indication of what Coach Strassburg can expect of his Kittens they should be in for a very successful season. In romping to victory the frosh took all 13 first places and a majority of the second and third places. Quite a few future varsity prospects were uncovered and it looks as though Coach Strassburg will continue this year as he has in the past in developing future stars for the varsity.

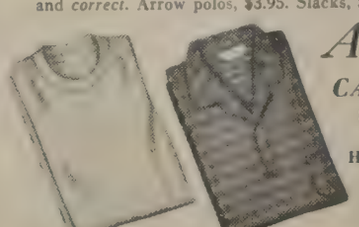
The Kittens came up with quite a few double winners and one triple winner, Neil Hall, with his victories in the 120 high hurdles, javelin and his frosh record breaking performances in the pole vault when he cleared lift 9 inches, shattering the previous record of 9½" set last year by Pete Perkins. The double winners were Schmick in the shot-put and 180 low hurdles, Meader in the 100 yd. dash and quarter mile, and Hall with his victories in the javelin and half mile. Barry also did well with his first in the high jump and seconds in the 120 yd. high hurdles, pole vault and javelin.

All in all Coach Strassburg and his Kittens look for a successful season.

Warm weather's a "breeze" . . . in our fine Arrow knits.

We won't have *these* luxury shirts in long. We never do, for they sell by the dozens. Arrow knitted sport shirts are so good for casual occasions, you'll certainly want more than one. These shirts are porous, to keep you cool . . . skillfully tailored to keep you happy. Practical, too, they'll help save your regular shirts from constant trips to the laundry. Fine Arrow knitted sport shirts in solids and patterns are priced at $3.95.

HAYES AND CARNEY INC



NO ONE EVER GOT "TEED OFF" AT AN ARROW POLO SHIRT

How could they? Arrow polos give unlimited comfort and style. What's more, these fine knitted polos keep their shape almost forever.

For casual wear, and for active sports, you'll find them cool and absorbent . . . a pleasure to wear. In solids, stripes and quiet patterns, these luxurious polos are yours at a pauper's price.

Combine them with smartly tailored Arrow sailcloth slacks like those shown above, and you'll face the heat . . . calm, cool and *correct*. Arrow polos, $3.95. Slacks, $5.95.

Vermont Downs St. Mike's 3-1 & Lowell 7-0

Deitsch Shuts Out Lowell Tech

Before a sparse crowd last Friday afternoon, Ralph Lapointe's Catamount Baseball team opened their home play at Centennial Field. Starter Lew Deitsch responded in neat fashion by hurling a four hitter as the Cats downed Lowell Tech 7-0.

Lowell Tech proved to be no match for the hustling Cats who blasted three Tech pitchers during the afternoons festivities. Batting practice was the order of the day as sophomore left-fielder Howie Hammer led off in the first inning with a booming double to left center. Before the initial inning was over the Cats showed a three run bulge. Lowell just didn't have it as they bobbled chance after chance in the field for a total of four errors on the day.

Deitsch, one of UVM's top hurlers was coasting along on a no-hitter till the sixth frame, here Tech smashed a base hit through the left side of the Cats infield. Lowell tried in vain to rally but Deitsch easily scattered the rest of their hits.

Catcher John Galascione is greeted by UVM teammates as he crosses plate in Lowell game after hitting homer.

Vermont added three in the third and one more in the seventh but by this time they were practicing for their game with St. Michaels the following day. Catcher Johnny Galascione made the day complete as he shot one over the newly constructed 320 ft. left field fence. Laurels must also go to outfielder George Gilbert who picked himself up two hits, both coming at crucial times.

Cat's Meet U Mass Saturday

Plender Tops Sorrell In Big Mound Duel

By Mark Bernstein

The University of Vermont Catamounts making their bid for a straight State Baseball title, promptly disposed of the Purple Knights from St. Michaels, 3-1. Playing the first of two games with St. Mikes, the Cats "made" the long journey to Winooski Park to disappoint a capacity Junior Weekend crowd.

UVM mound ace George Plender started against lefty Tom Sorrell of St. Mikes. Many UVM students should remember last years game that pitted these same pitchers in a duel of 13 scoreless innings. Gerry Samuels of UVM broke it up with a run producing double. Plender going into this game had a three year hex working on the Purple Knights; he had run up a string of 23 1/3 scoreless innings. I say "had" because in the sixth frame Faucher of St. Mikes got a base hit with men on first and second. This was the Purple Knights first and last tally of the game.

All of Vermont's three runs came in the first inning, one that proved very shaky for pitcher Tom Sorrell. Sorrell got the first batter on strikes but George Gilbert who is setting a torrid pace, started the bite on Sorrell with a single to left. Eddie Beck walked, clearing the way for first baseman Joe Wark's run producing single. Beck went to third and Wark took second on the throw to the plate. A passed ball allowed Beck to scoot home with the second run. Final scoring in the inning came as a result of Johnny Galascione's bloop single over the shortstop, whereas Wark tallied the third run.

A St. Mikes rally was squelched in the seventh as Plender after two out, gave up two straight singles. But it proved to no avail as first baseman Bob Bolster fouled out to end the inning. The Catamounts had a chance to score again in the eighth as Wark opened with a triple down the left field line. Galascione then grounded to Coffey but the runner didn't score. Al McLam the next batter tried to squeeze Wark home, but the pitch to the plate was high and Wark was an easy out.

Vermont's Eddie Beck made the play of the day as he speared a liner backhanded that would have easily been in for extra-bases.

The Cat's next home game is today against Clarkson. Saturday, the Catamounts have a big doubleheader with UMass, last year's District No. 1 NCAA winner. Be there!

By Ken Brunjes

Kappa Sigma won two softball games to lead league C as the weeks activities were limited due to bad weather. Tuesday and Thursday saw more than one game played. All games were cancelled on Monday and one game was played on Wednesday. The UVM varsity baseball game halted activity on Friday. So far, six teams have not lost a game. Kappa Sig and Sigma Nu have 3-0 records, while Phi Sigma Delta, Phi Delta Theta, TEP and Theta Chi have 2-0 records.

On Tuesday, the 26th, three games were played. Kappa Sig scored 4 runs in the first inning, 5 runs in the third inning, and 3 in the seventh inning to beat SAE, 12-4. Theta Chi scored in every inning to rip Sigma Phi by the score of 16-1. The Delts also romped by beating the Owls, 18-4. Wednesday saw the Delts win again in a close game with AEPi, 4-3.

Four games were played on the 28th. Scoring 7 runs in the fifth inning. Kappa Sig beat ATO, to win their second game of the week 11-7. Phi Delt defeated Sigma Phi Epsilon, 17-4. Sigma Nu started their game with the Owls by scoring 10 runs in the first inning; the final score was 28-5. Phi Sig scored 6 runs in the first inning, 8 runs in the fourth inning and scored a few in between to defeat AEPi, 19-7.

The standings:

League A

Sigma Nu	3-0
Phi Sigma Delta	2-0
Delta Psi	2-1
AEPi	0-3
Owls	0-3

87th REVIEW TOMORROW

Borgmann Names Coutts To Position As Dean Of Men

By Shirley O'Neill

Prof. Alan Coutts, director of student activities at New York University, last Saturday was named Dean of Men at UVM. The position is a newly created one, following a reorganization of the office of student personnel. The announcement was made by President Carl W. Borgmann after a meeting of the Board of Trustees.

Born in Washington, the new Dean of Men received a B.S. degree from Oregon State University, and an M.A. degree from Northwestern University. He enlisted in the Navy in World War II, serving eleven months aboard an attack transport in the Pacific, where he participated in five invasions.

Prof. Coutts served for one year as instructor in drama and director of theatre at the University of South Dakota. He was then appointed instructor in speech and drama at UVM, serving in this position until 1946, when he was appointed director of student activities. In this position, he was responsible for student government activities, freshman orientation, the University's new student center, and the religious center. He was also in charge of student counseling and supervision of fraternities, two dormitories, and a number of house plans. The responsibilities of the director of student activities at NYU are generally equivalent to those Prof. Coutts will have at UVM.

In 1947, the new Dean of Men received a leave of absence from NYU to act as consultant to the Secretary of War to promote Universal Military Training. During this period, he flew 35,000 miles to appear at 65 speaking engagements in 34 states.

Prof. Coutts will take up his new duties as Dean of Men on July 1.

Two Trophies To Be Given Seniors In '56

UVM President Carl W. Borgmann has received two new trophies for the University of Vermont. The presentations came as the University marked its founding with an Honors Day program.

Both trophies will be presented in future years to UVM students.

Seman's Trophy

The first trophy received by Dr. Borgmann for the University was the Henry Seman's Trophy given in memory of Henry Semans of the Class of 1924 by Tau Epsilon Phi. The trophy will be awarded annually to the male member of the graduating class who is outstanding for leadership, loyalty and service to the University, active participation in athletics, and winning the respect and regard of his fellow students.

The second trophy received by Dr. Borgmann was the Goldberg Trophy given in memory or Bailey Herman Goldberg, member of the Class of 1950, who died in service of his country on October 15, 1952. This trophy will be awarded annually to the senior man with an overall academic average of 80 or better, who has successfully participated in intramural athletics and who intends to continue with graduate work.

New Awards

In addition to these trophies which were presented to the University, two trophies were given for the first time at today's ceremonies. The Mary Jean Simpson Award, to the senior woman who best exemplifies the qualities of character, service and constructive influence which Mary Jean Simpson strove to set before the women of the University of Vermont, was presented to Marilyn Skinner of St. Johnsbury.

The Stroh Trophy, given anonymously in honor of Charles Stroh of the Class of '34, for the member of the baseball team who, in the course of the regular season, drives in the most runs, was given to Edward Beck, Jr., of Waltham, Mass., and to James Montgomery and Edward Rynn of the Class of 54.

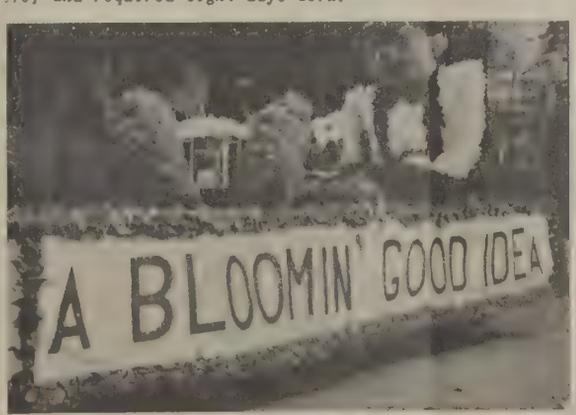
"Queen Gret" To Present Colors

Queen Grete Isbrandtsen, who holds the title of "Honorary Cadet Colonel," was elected by the entire student body last fall at the Military Ball.

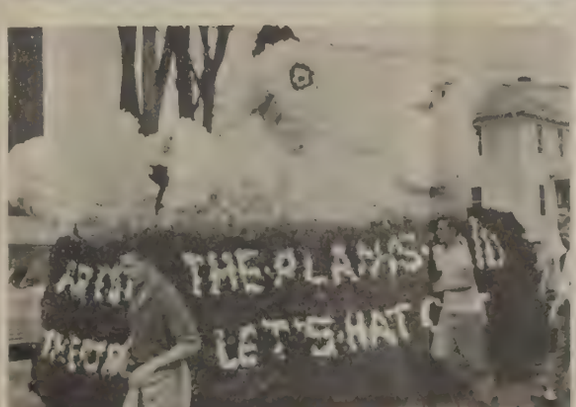
By Don Karp

Once again the Vermont campus will be the scene of a salute to the military as the Reserve Officers' Training Corps of both the Army and Air Force, participate tomorrow in the 87th Military Day at UVM since 1868. The scene of most of the action will be Centennial Field where the entire Army detachment under the command of Lt. Col. William E. Cox, and the entire Air Force detachment under the command of Col. Allen F. Herzberg, will perform an exhibition of skill on the drill field and will be reviewed by high ranking officers. Col. Roger G. Fuller will inspect the Air Force troops, while Col. Henry E. Strictland will perform the same service for the Army.

Awards



The afternoon ceremonies, which will include a Presentation of the Colors by Military Queen Grete Isbrandtsen ('56), will feature the awarding of prizes to members of the Army and Air Force ROTC, who have shown outstanding qualities in their work this year.



Drill Team

Other events highlighting the program will be exhibitions by both drill teams and a combined march of the two services, which will be directed by Commander of Troops Luther F. Hackett. Beginning with this year, the Commander of Troops will be alternated between the ranking officers of the two services. The presentation of awards will be made by Dean of Administration Robert Kroepsch in the absence of President Carl W. Borgmann, who is unable to attend due to a prior commitment.

(continued on page six)

The winning float in the sorority division was Alpha Chi Omega's presentation of "Blooming Good Idea." The float was built completely from scratch at a cost of $70, and required eight days work.

The over-all winner in the float competition was this extravaganza by Phi Delta Theta which took almost two weeks to prepare. It features sound effects and movable wings and beak. Many of the flowers were salvaged from last year's effort which also took first prize.

Alpha Chi Omega Phi Delta Theta Floats Triumph

Winners of the Peerade were announced and the Junior Beauties were introduced at the Annual Junior Week Jazz Concert held last Saturday afternoon in the gym.

For the third consecutive year Phi Delta Theta's entry has come in first. Their float entitled, "We've laid an egg now let's hatch it," had movable parts and sound effects. Their float was also given the best all-around float award in the sorority and fraternity divisions. Phi Sigma Delta's, "All the world is a stage -- let's build," took the award for second prize in the fraternity division. Alpha Chi Omega topped the sorority division with their float, "Bloomin good idea," and Delta Delta Delta, winner of last year's first place award in the Peerade, came in second with their entry, "Great Expectations."

In attendance at the Annual Junior Week Jazz Concert were the five Junior Beauties who were elected by the entire student body last week. The Junior Beauties are: Jane Carlough -- Tri Delt, Carol Coen -- Grassmount, Lou Haug Middle Converse, Lee McBride -- Tri Delt, and Betty Slayton -- Alpha Chi Omega.

The Jazz Concert which brought the Junior Week festivities to a close was enjoyed by approximately 100 people.

Eleven Promoted In Air Force ROTC; Meurlin To Award

Eleven UVM Air Force ROTC cadet officers received promotions, it was announced today by Capt. Neil F. Meurlin of the University's Department of Air Science.

Those promoted were Cadet Col. Luther Hackett of Burlington, wing commander; Cadet Lt. Col. Richard Russell of Waterbury, deputy commander; Cadet Lt. Col. Robert Hylton, Manhasset, N.Y., deputy of operations; Cadet Lt. Col. George Plender, Tenafly, N.J., deputy of personnel; Cadet Lt. Col. George Bardis, Brattleboro, deputy of material.

Also Cadet Lt. Col. Gerald Olson, Ossining, N.Y., air inspector; Cadet Major Richard Wood, Brandon, adjutant; and Raymond McNamara, Rutland, public information officer; Edward Nemer, Lewiston, N.Y., Group I Commander; Lowell Carpenter, Peru, N.Y., Group II Commander, and Cadet Sergeant Major Norman Sutherland, Essex Junction.

Milking Contest To Highlight Livestock Show

By Shirley O'Neill

The fourth annual Catamount Livestock Show, sponsored by the Animal Industry Club, will be presented on Saturday, May 21, according to Rosemarie Eurich, publicity chairman.

A highlight of the show will be the traditional Coed Milking Contest, in which four-girl teams from the sororities and dormitories on campus will participate. The winner of last year's contest was Delta Delta Delta sorority.

In addition, various classes of Morgan horses, yearlings and two-year olds, dairy animals and sheep will be shown and judged on type

(continued on page six)

"Jazz Of Lights" Weekend Feature Of Cinema-Art Club

The Cinema-Art Club of Burlington will have its next showing on Saturday and Sunday, May 14 and 15, at 8:00 P.M. at 75 Bilodeau Court (off East Ave., at end of street). Guests are very welcome. The program is as follows:

1. Three Films of Ian Hugo:

"Jazz of Lights" (16 min., color). This film combines scenes taken at night in the Times Square area of New York City into dramatic or humorous impressions or abstract patterns. Moondog appears in some of these. The musical accompaniment is unique in that it uses cybernetic music, composed and played by an "electronic brain", which bases the melodies, rhythms and counterpoints on instructions received from the directors (Louis and Bebe Barron) and thus integrates them with the content of the visual images on the film.

"Ai-Ye" (27 min., color). The film tells the story of Mankind through skillful editing of scenes taken on the Pacific Coast of South America. Man travels from birth in a lagoon through the struggles of childhood, adolescence, old age, and death, until in a 100 foot plunge he returns to the ocean from whence he came. Renewed, he emerges, finds the image he saw in his dream, seeks the primitive joys of life, and plunges to the ocean again. This responds of dashing enormous waves against the shore, on which stands the dinosaur as symbol of timelessness. The accompaniment to this film is a chat with drum accompaniment improvised by Osborne Smith, noted Negro singer.

"Bells of Atlantis" (10 min., color). This film concludes the theme of "Mankind" by the search for the lost continent of the soul. It is an integration of a prose poem by Anais Nin, read and in part enacted by the author herself, of slow-motion, multiple exposure images and of the electronic music described in the first film.

At this time the experimental films to be shown next year will be voted on.

2. "Paris Skyline" (10 min.) The most outstanding architectural landmarks of Paris.

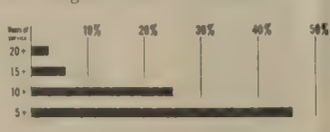
3. "Brief City" (20 min.) A film about the 1951 South

(continued on page six)

The Jazz Combo that entertained students at the Annual Jazz Concert last Saturday.

1927—Unloading cargo from Boeing mail plane

1955—Loading Boeing C-97 Stratofreighter



There's plenty of variety in Boeing engineering careers

America's pioneer passenger-cargo aircraft, the 40-A, was a Boeing. So is the Air Force's versatile tanker-transport, the C-97 Stratofreighter shown above.

During the company's 38-year history, Boeing engineers have blazed new trails in the design of aerial freighters and tankers, commercial airliners, flying boats, fighters, trainers and bombers. Today Boeing continues to offer engineers a wide variety of opportunities in Research, Design and Production.

Students sometimes are surprised that Boeing's engineering staff includes those with civil, electrical, mechanical, aeronautical and other engineering degrees. Yet all find application in aviation. For example, the civil engineer may work on airframe structure or stress. Electrical engineers find challenge in the complicated electrical and electronic systems of modern jet bombers and guided missiles. Other engineers will find similar application for their talents.

The high degree of stability in careers at Boeing is reflected in this chart.

It shows that 46% of Boeing engineers have been with the company five or more years; 25% for 10 or more years, and 6% for 15 years.

Boeing promotes from within, holds regular merit reviews to assure individual recognition. Engineers are encouraged to take graduate studies while working and are reimbursed for all tuition expense.

Current Boeing programs include: six and eight jet bombers; America's first jet transport—the 707; F-99 Bomarc pilotless interceptor (guided missile)—and advanced projects such as the application of nuclear power to aircraft.

For further Boeing career information consult your Placement Office, or write:

Rushing Discussed At Sunday Pan-Hell Panel

The Pan-Hellenic Workshop was held on Sunday, May 1, at Southwick Memorial from two to five in the afternoon. The Workshop consisted of a panel discussion on the subject of sorority rushing for next year. Dean Harris, Dean of Women at UVM and Pan-Hellenic adviser, acted as moderator. The guest speakers were: Mrs. Elizabeth Kelly, Dean of Women at Middlebury and Pan-Hellenic adviser there; Midge Van Leuvan, Middlebury student; Alice Millis, UVM student; and Mrs. Connie Abrahams, regional director and adviser to Alpha Epsilon Phi.

After about an hour of discussion by the panel, the audience and speakers broke up into small groups with chosen people, mainly Pan-Hellenic representatives as discussion leaders. The ideas presented by the panel were talked over and the discussion leaders reported back to the main group. This was followed by a general discussion period from the floor.

The panel discussed second semester rushing at UVM as the University Senate had ruled that rushing must be held some other time other than first semester. It was decided to have sorority rushing during inter-semester vacation. There will be no classes then and the girls will have later hours during those days.

"The change from first to second semester rushing was done to place more emphasis on schoolwork during the first semester," said Gail Greenslet, chairman of the Workshop. In all probability the first semester marks will be the basis for initiation into the sororities. However, the sororities fear that many prospective members will not stay at school over the vacation for rushing. They will also be losing the money gained from the pledge dues and house fees collected from the girls in first semester. The time element is involved as the sororities do not wish to run rushing into Kakewalk.

Jamele To Head "Centaur"; New Advisors Chosen

The UVM literary magazine, Centaur, will be headed next year by Joseph Jamele, '55, following elections held last week.

Balloted into the Assistant Editorships were Elliot Taft and Beth Bowan. Business Manager is George Rood, '56, while Art Editors will be Bill Shoenfeld and Ann King. Marcia Fink was elected Publicity and Exchanging Editor.

Marsha Pearl, '56, retiring editor of the magazine, was given the position of Ex officio member of the Editorial Board.

Succeeding Prof. John Aldridge as advisor who is leaving U.V.M. this summer, are Mr. McArthur and Mr. Brownfield, both of the English Department.

It was announced that in the school year 1955-56 the Centaur will appear four times, and the entire structure of the literary magazine will be revamped with a new format. Members of the university family are encouraged to submit works to the Centaur, the Editors said, and all will be given careful consideration for the possibility of publication.

Evans Speaks At Annual Round Table Picnic

"The personality of a student will take care of itself, if the student will devote himself to developing his gift for scholarship, as he should." Professor Paul D. Evans of the history department told members of the Round Table this weekend.

The topic of the discussion was "Scholarship vs. Personality at UVM." The meeting was the annual Round Table picnic which is held at Southwick.

Great Chance For UVM

Professor Evans said that the present student is capable of producing between 50 and 70 per cent more work than UVM is now requiring of him. With the anticipated flood of applicants for college, Professor Evans stated that UVM is now on the verge of a great opportunity to increase its academic standards.

Professor Evans recalled that when he had been a freshman at college a senior who was both a Phi Beta Kappa and editor of the school paper had warned the students to give their attention to the main event, and go easy on the side shows.

More Side Shows

Today it seems that there are even more side shows, extra-curricular activities, to distract the student's eye from the main show which is scholarship. It was pointed out by other members of the Round Table that today company representatives are interested mainly in what kind of an academic record the student has had. The outside activities of the student are of only secondary interest.

Other members of the dis-

Cliff Litherland asks:

Would I have varied assignments at Du Pont—or would I specialize technically?

CLIFFORD LITHERLAND received a B.A. degree from Rice Institute last year, and is now working for a B.S. in Chemical Engineering. He is Business Manager of "*The Rice Engineer*," and Vice-President of the fifth-year class at Rice. By asking questions of prospective employers, Cliff is trying to get information that will help him make the best use of his training in the years ahead.

ARTHUR I. MENDOLIA was graduated from Case Institute in June 1941 and started work with the Du Pont Company that same month. In addition to handling challenging assignments at work, he also enjoys some interesting hobbies. Although he makes no claims personally, he's classed as a minor authority on golf and hi-fi music. Mr. Mendolia is Assistant Director of Research for Du Pont's *Electrochemicals Dept.*

Arthur Mendolia answers:

Well, Cliff, I'd say the answer to that question depends largely on your own preferences. In a company the size of Du Pont there are opportunities for growth along either line.

In my own case, I've followed the route of diversification—and I think you'll find that's the general procedure when a fellow is interested in administrative work.

For example, after graduation I started work in the research lab at Du Pont's Niagara Falls plant. That was followed by two years of process improvement work, and a stretch as assistant supervisor over one of the plant areas. Next, I spent a few years in liaison on the design and construction of our first full-scale plant for making nylon intermediates from furfural. Then, I had assignments on "plant start up," and production supervision before I was given my present post. I was made Assistant Director of Research for Du Pont's *Electrochemicals Department* last August.

You see, variety of assignments means contact with new men and with constantly changing problems. That keeps interest alive. It leads to growth, too, because it provides a broad base of experience for future responsibilities.

On the other hand, some fellows prefer to become specialists in a particular field—and Du Pont has many opportunities for that type of professional growth, too. In our research, development and design groups we have experts on distillation, mass transfer, thermodynamics—and most anything else you'd care to mention in the field of engineering. These men are respected throughout the whole company for their technical knowledge.

Whichever route you choose, Cliff—broad or specialized—you'll find that a job well done leads to satisfaction and advancement at Du Pont.

WANT TO KNOW MORE about working with Du Pont? Send for a free copy of "*Chemical Engineers at Du Pont*," a booklet that tells you about pioneering work being done in chemical engineering—in research, process development, production and sales. Write to E. I. du Pont de Nemours & Co. (Inc.), 2521 Nemours Building, Wilmington, Delaware.

Hopwood Leaves

We note with regret that Mr. G.R. Hopwood is leaving the University and his position of Director of Public Relations after eight years. In that capacity Mr. Hopwood served to present the University to the outside world. Many of the stories and news items about UVM came from his office. But we will miss him not only for the excellent and capable job he did, but for his other activities as well. He has been an adviser to the Ariel for the past five years, and for Kappa Sigma fraternity for six, as well as three years for Mortar Board.

He has also been on the Joint Social Activities Board, Student Advisory committee, George Bishop Lane Artists Series, and other similar organizations.

He has helped the CYNIC in countless situations, for his wealth of information and his comprehensive file of pictures could ease us out of almost any situation. Through his duties with the Ariel he has broadened his interests to all the campus publications.

Mr. Hopwood has been appointed Executive Director of the U.S. Education Foundation in Greece, where he will be in a position to serve the entire country. With him go our best wishes for a difficult task ahead.

Mississippi Leaps

Into our office flows a steady stream of newspapers from other colleges. Some of the more interesting items which they contain are picked up and presented in Intercollegiate Round-up which usually appears on this page. This week we have run across something extraordinary which deserves special note; took namely an editorial in The Mississippian, " the official news organ of the Associated Student Body " as it calls itself. The editorial dealt with a recent student poll which showed that only fifty-one percent of the students wanted to retain segregation. Forty-one percent wanted to admit Negroes gradually, while seven percent chose immediate admittance. " Those in favor of gradual intergration felt generally that the Negroes should have, and are entitled to, an education. They stated that the South must keep in step with the times....to raise the moral, educational, spiritual and economic status of the South. "

Those in favor of segregation stated," I don't want to go to school with Negroes. " " Intergration leads to intermarriage. " " I don't think the Negroes want to go to school with the Whites. "

For us here in the North it is difficult to follow such reasoning. We regard one race as equal to another. This was dramatically proven recently when Sigma Phi Epsilon fraternity voted, along with other New England units, to drop its discriminatory clause. Other fraternities, both on our campus and at other nearby schools are planning similar steps.

In our section of the country news of this sort is not really big. We never really stop to consider what a serious problem segregation is down south. We should therefore commend the editors of The Mississippian for their objective reporting of this changing trend in our Southern schools. Their attitude demonstrates that progress is at long last in sight.

An Open Letter To University Family

It is in the cause of progress that we have undertaken to present an analysis of a situation which we feel merits appraisal and rectification.

It is a situation which has its roots in a basic attitude of "a-intellectualism." We refrain from calling it anti-intellectualism because this does not appear to be an exact representation of what we believe to be the actual facts.

By "a-intellectualism" we rather refer to a general lack of awareness in the world around us, a complete neutrality on the part of students, and perhaps faculty with reference to matters of culture and education.

Two overt symptoms of this existant state are immediately called to mind. One of these is the recent refusal by Student Association to allocate funds for the speaker brought to campus annually by the John Dewey Club, and their subsequent allocation of funds for the flowers necessary to initiation ceremonies for one of the women's honoraries.

The other is the poor student and faculty attendance manifest at the recent Vermont Conference.

These are just two of the more apparent symptoms. But the purpose of this letter is not to deal with symptoms. We are interested primarily in the cause, which as indicated above, we have named "a-intellectualism."

Altogether too many students are of the opinion that intellectual interest comes and goes, manifesting itself on particular occasions.

If this were the case, the problem would not be so complex. We do not, however, believe that this is so. It is our humble opinion that academic or intellectual interest is such that it is a spirit that pervades the entire course of one's activities. It is manifest continually in one's attitude and actions. It does not pop to the fore every two or three weeks for a two-and-one-half hour period. Too few individuals possess the former type of interest.

Although the acknowledged lack of intellectual endeavor is to a great extent limited by the interests and ability of the individual, we wonder if the effective environment can not somewhat alter the existing condition.

And here is the point at which we feel a change can be brought about. It would seem to us that with the influence of the fraternity and sorority being kept from the freshmen for a full semester, the University is in an unprecedented position for re-evaluating its role in terms of finding for itself a definite philosophy of education.

Too many "Lockean blank tablets" arrive at UVM who are swayed, for lack of better advice, into the "rah-rah" stream.

With an inspirational and living philosophy spread at the feet of the new entrants during a revised and intellectually grounded Freshman Orientation, perhaps the entire picture of the campus can be changed. With intellectual interest thus aroused, it can be nurtured through the first semester, and brought to fruition in later college years, and of course, throughout later life.

It is our thesis, then, that given a push in the right direction, in the right way, from the very start, a spirit of intellectual craving can be instilled into a great many more students than at present is the case.

We are all seniors who endorse this letter. We leave UVM with the hope that our alma mater "finds itself." The school as a whole seems to have only a vague idea of its direction at present. Hence, many of its students find themselves in the same limbo. Some of us have sought out direction for ourselves. We are concerned, however, with those who, in our conceited opinions, have been less fortunate.

It has been advanced recently that it is the purpose of UVM to provide higher education at low cost to Vermont's youth.

But what is this higher education to be? Is it to consist of trade-school training that has no place on the college level? Or is it, at least in the College of Arts and Science, to consist of the liberal arts taught in the liberal tradition?

Are the students to receive only cold facts, or are they to be exposed to the dynamic ideas behind the facts, the principles involved, and the relation of society to the evolution and synthesis of new systems of thought?

Because "higher education" has become a social and economic necessity in contemporary America, most students come to college "for power, respect and the love of beautiful women." The liberal arts college must face this fact and overcome it. It must replace this false framework through its teaching in a dynamic inspiring mode so that the student will come to realize for himself the intrinsic value of education.

We have described our conception of "a-intellectualism," have shown concrete examples of it, and have suggested a possible remedy. Isn't it time, now, for John Foster Dulles' "agonizing re-appraisal"?

DID YOU KNOW?

... That Thomas Jefferson attempted to institute a system of student government at the University of Virginia in the 1820's, but the plan had to be given up after a six-month trial because the students would not pass judgment on each other? The boys, two-thirds of whom were 19 or less, generally fresh from plantations, often had Negro slaves or servants. They spent considerable time playing cards, eating surreptitious chicken suppers, and "guzzling egg-nogs and mint slings."

The self-government experiment was discontinued after the young gentlemen had, among other things, set off firecrackers before professors' houses, shot pistols and guns all night, "quietly strangled" chickens in coops in professors' backyards, and held cockfights. In 1836 there was a student rebellion when the faculty ordered a military company to wear a prescribed uniform and not to fire muskets on the college lawn. Before the dust cleared, muskets were fired in the college arcades, the Charlottesville Episcopal church bell was carried off, the college bell was rung for several hours without a let-up, and professors and their families withdrew to the upper stories of the college for safety.

Signs Of Spring

Stir Co-eds Thoughts

By P. Richter

Walking around UVM lately what do we see? What's on people's minds, and what are they doing?

Number one, they're sporting convertibles like crazy, and for what? It seems that everyone must have traded in their old cars for a convertible. However, being like everyone else, (at times), convertible contributions will be readily accepted any time. Just phone 344.

New Dorm Unpopular

If you have walked in or out of Waterman lately with any degree of keen-sightedness you have noticed the plans for the new women's dorms. In spite of the grandeur of the building antagonistic thoughts have been heard circulating. If the University is going to spend so much money, why not spend it on an adequate library or a badly needed student union? And then too, why not ask the people concerned with the new dormitory -- the women. When asked what they think of the new dorm, they reply, "it's beautiful." When asked if they would like to live there, the answer is "No." The general reason is that it is too far from main campus, lectures, library, and all university activities.

Tennis Popular

Since the new dorm is inevitably going up, we have only one suggestion, build more tennis courts. Now that spring has infested the campus the tennis bug has struck. The Redstone courts are littered with all sorts of players. We have the early birds who wake up the girls at 7 o'clock to the tune of an active tennis ball. And then there are those afternoon gym classes where little girls in green shorts "volley" the ball across the fence. And of course there are the males who must execute their skills in the evening when ten women wait on the side lines. The sign reads "Women's Courts, Men Permitted as Guests, Courts close 5 P.M." But who reads signs anyway?

The gentle slopes rising above the tennis courts are bedecked with women clad in bathing apparel, trying diligently to cover their faces with a sunburn. Immaterial is the fact that winter skin burns red, and hurts. But notice, girls are permitted to soak up the sun only in designated areas, lest they appear beyond the brick dormitory walls! And don't forget speaking to girls in sunsuits by men is absolutely, positively forbidden. Gentlemen beware!

Sandwich Man Goeth

As a closing touch, whatever happened to the sandwich man? His glad smile, full bag and extended palm were welcome every evening at 10. The little man has forsaken us and let us go hungry. Guess man has to prove he has the upper hand somehow!

UVM Clippings News Of Faculty And Staff

SUMMER SESSION

The Summer Session will open on June 20 with the beginning of an eight weeks session to run through Aug. 12. A six weeks session and a three weeks session will begin July 5. A second three weeks session will be offered starting July 28.

A number of special workshops, institutes and clinics will be featured, according to Lyman Rowell, including the second annual Warren R. Austin Institute in World Understanding.

In all, around 100 courses will be offered during this year's sessions.

SENATOR AIKEN HONORED

Sen. George D. Aiken was honored Saturday as the University's Green Mountain Chapter of Alpha Zeta marked its 50th year on campus. The national agricultural honorary fraternity was founded 58 years ago, with UVM's chapter becoming the ninth chapter eight years later.

The all day ceremonies were high-lighted with the initiation of Senator Aiken as an honorary member. Guests included Lindley Dennis, high treasurer of Alpha Zeta, and Elmer Towne, commissioner of agriculture, who was a member of Alpha Zeta at UVM.

EXCHANGE OFFERED

Fred Greene, assistant professor of political science at Williams College, would like to rent or exchange a home in Burlington during July.

Mr. and Mrs. Greene and their two children, aged four and six, would like to rent a Burlington home for July, or will exchange their home in Williamstown. The Greenes are known to George Little of UVM's political science department.

UNIVERSITY STORE

By appointment purveyors of soap to the late King George VI, Yardley & Co., Ltd., London

Yardley brings you months and months of shaving luxury— London style

From London, the world's center of fashions for men, comes the Yardley Shaving Bowl. This distinguished soap — imported from England and packaged in America — should give you up to six months of shaving luxury. The rich lather wilts the beard, soothes the face and softens the skin in wondrous fashion. At your campus store. $1.25. Makers and distributors for U. S. A., Yardley of London, Inc., New York.

Meetings

SIGMA XI

The Society of the Sigma Xi will hold its annual meeting Thursday evening, May 12, at 8 in the Home Economics Auditorium. Election of officers will be held. Charles Doll will show Kodachrome slides of Vermont geological formations. Refreshments will be served.

RESEARCH CLUB

The University Research Club will meet to elect officers Tuesday evening, May 17, at 8 in the Home Economics Building. Dorothy Brownfield will speak on "Behavior and Activity Tests of Newborn Infants."

HOME BASEBALL

UVM's baseball team will be at home to Norwich on Saturday, May 14 at 2 p.m.; to St. Michael's on Monday, May 16, at 4 p.m.; to St. Lawrence on Tuesday, May 17 at 8:15 p.m.; to Connecticut on Thursday, May 19, at 4p.m.

TRACK

The freshman track team will be at home to Burlington High School, Wednesday, May 18 at 4 p.m.

TENNIS

The tennis team will play at home against St. Michael's on Monday, May 16 at 4 p.m.

Faculty Notes

Alan Gowans has had a book, "Church Architecture in New France," published by the University of Toronto Press.

The book traces the development of church architecture in the Province of Quebec, and its 162 pages include 26 photographic plates and a catalogue of chapels and churches erected in New France between 1615 and 1760.

Work on the book was begun at Laval University in 1948, continuing with research in France. Research work for the book was done under grants from the American Council of Learned Societies, the Humanities Research Council of Canada, and the Research Council of Rutgers University.

Donald T. Evans Elected President Of Round Table

Donald T. Evans was elected President of the Round Table for next year at a special election meeting held last week. Pat May was elected vice president, and Ed Austin treasurer.

Cynthia Wooster won the election for food chairman. She will be helped by two assistants, Ann Kotchen and Gayla Schildhaus. Robert Farrar is the new corresponding secretary, and Dorothy Ward will be the recording secretary. The faculty advisers for next year will be decided upon soon.

Donald Evans is a pre-medical student in the College of Arts and Sciences and a member of the Class of 1957. He is from Rutland, Vt.

Constitutional Changes

Two changes in the constitution were made at the special meeting. A recording and a corresponding secretary were voted to replace the secretary and his assistant. Because the job of food chairman requires so much effort, it was voted to have two assistants instead of one.

ROTC

(continued from page one)

The most noteworthy awards to be given members of the Air Force are: The Air Force Association Award for the most outstanding senior cadet of the Air Force ROTC which will be awarded to Cadet Col. Luther F. Hackett; the department of Air Science Award for the Advanced Air Force ROTC cadet, who has the highest over-all average in Air Science III to Cadet M. Sgt. Norman B. Sutherland; the Republic Aviation Award for the Air Science III cadet who made the most effective public presentation on an Air Power theme to Cadet M. Sgt. John B. Suxton; the Convair Award for the advanced cadet who has demonstrated most outstanding interest in military flying to Cadet Major Sam Cutting, the Veterans of Foreign Wars Medal and Plaque also will be given to Cadet Major Sam Cutting for being Cadet Commander of the best drilled squadron.

The Army awards to be presented are the Wadsworth Ramsay-Smith Award to Col. Francis Maccini, the Association of the United States Army Award for the senior with the highest scholarship to Lt. Col. Robert J. Crawford, the American Legion Trophy for the commander of the best drilled company to Cpt. Anthony L. Vydra, and an award for the most proficient leader in the junior class to George Hansen.

Finals in Doubt

The second day saw Vermont's Savela defeated in the finals. Selcow won his last two matches and wound up undefeated to take the number two spot in the meet. Shelly Rosenthal went on to take the number five spot in the tourney for the second year in a row. Jerry Gould was also a finalist in his spot. Selcow and Don Greenhouse took the number two doubles positions to round out the UVM scoring.

The team scores were as follows; UMass-16, Vermont-15, Rhode Island-8, Maine-8, UConn-4, UNH-2.

Earlier in the week, the Catamounts had downed Clarkson with a clean sweep by a 9-0 score, and St. Lawrence 6-3 giving Vermont a start on one of their most successful seasons.

Evans

(continued from page three)

cussion said that it was often the students with the superior scholarship record who were also the leaders in the other activities. Donald Hardy, coordinator of student affairs, said that out of the approximately 2,700 students at UVM, only 200 of them did almost all the work of the extra curricular activities.

Great Vermont Athletes

Ray Williston Collins

by Ed Willard

The glorious days of the University of Vermont's baseball past as well as stories of the major leagues when "men were men" were passed before this writer's eyes by a fine gentleman a week ago. The man; Ray Collins UVM alumnus, class of 1909 and a great major league pitcher with the Boston Red Sox from 1909-1915. As with all stories, it's probably best to begin at the beginning so let's do it here.

Ray Collins was born on a farm in Colchester, Vermont, on February 11, 1887. He was brought up here and lives on the same farm today as a successful dairy farmer. At the turn of the century Ray entered Burlington High School. There was nothing auspicious about the beginning of his baseball career. These were the days when the Captains of college teams did their own recruiting for next year's ball club. The University of Vermont Captain didn't even bother to see Ray but he entered UVM anyway and there began the career of Vermont's greatest pitcher.

Ray Collins was a member of Delta Psi Fraternity along with another Vermont baseball great, Larry Gardner. He was also the director of Kake Walk, a much smaller Kake Walk than we know today. His first love, however, was baseball. Burlington was a baseball city. College games of the times attracted 5000 fans on a good day at the old UVM park at the foot of Fern Hill.

Ray and Larry Gardner both played on the successful Vermont teams of the next four years. The teams were never undefeated. It was hard to go undefeated when the teams you played against were the tops in the country. The Notre Dame team which UVM played in 1909 had four future major leaguers on it. Vermont played and beat the best of them in these days. Once at Harvard Ray recalls, the Vermonters were being ridden by the Cambridge men. "Hayshockers, Hicks" yelled the Johnnies. The "hayshockers" trounced Harvard. Then, there was the great Notre Dame team of 1909. They had beaten everybody in the East. They came to Burlington after downing Yale, Holy Cross and Dartmouth. In Burlington and looking for a pushover they were beaten 5-2 by UVM and Ray Collins. Holy Cross used to be a big rival of Vermont. Ray Collins beat the Crossers 5 out of 6 times he faced them. Once after he had played a tennis match, and lost, against Dartmouth in the morning, Ray shut out Holy Cross 1-0 in the afternoon.

By the end of his senior year, Ray had been contacted by eight major leagues for a contract including the Yankees, both Boston clubs, both Philadelphia teams and Cleveland. He decided to go with Boston and had his contract when he graduated.

Here began as great a feat of pitching as this writer has ever heard of. Two days before graduation, Ray shut out Holy Crosss while striking out nineteen. Graduation day, he got his ticket to Chicago to join the sox there. His first day in a major league park (he had never seen a major league game) Ray was called on to pitch the last three innings against the White Sox. The following day, he pitched the last four innings. The Red Sox then moved to Detroit and the next day, Ray was started against the awesome Tigers led by Ty Cobb. Ray lost 4-2 while striking out Cobb twice. The day after this, he started against the Tigers and won by a shutout 6-0 as the Boston papers raved. All this within a week of college graduation.

Baseball was a much different game then than today. A dead ball was used. Since the home club furnished the balls, they would often insert completely dead practice balls into a game to preserve a narrow lead. You still had to be good to get by however and Ray was. His best record years were 1912 when his record was 14-8, 1913 with a 19-8 record and a 1914 season when he hit the magical 20 game winners group with a 20-13 record.

There were many thrills for the young Vermont boy in the major leagues. He pitched a one hit shutout against the Chicago Sox. He accomplished a rare feat in defeating the great Walter Johnson three of the six times he met him. He always was good against the Tigers however. His greatest thrill was pitching and winning a doubleheader against the Bengals. He won the first one 4-2 though as he put it, "they really hit me hard". The Boston manager took him aside after the game and said, "Ray you pitched too fast." Ray started the game, pitched slower and shut out the Bangals 6-0, one of the few men ever to accomplish the feat of winning both ends of a double header.

There were many other exciting happenings in the life of Ray Collins in the major leagues before he retired in 1915 after losing seven games in a row by a three to two score. One incident taken from a Boston paper goes as follows. Clark Griffith, said to Boston Mgr. Bert Donavan in the spring of 1910. "Have any of your stars arrived yet?" Bert pointed at young Collins and said "There's Collins, he's the boy who beat Mathewson".

Ray retired in 1915 to the farm where he is living at present. He coached for three years at UVM in the 20's while still farming it at home. The story doesn't end here. This fine gentleman is still operating as a successful farmer on Route 7 at his birthplace in Colchester. He has raised a fine family of sons and daughters who attended UVM and he still maintains his interest in baseball.

I last saw Ray Collins at Centennial Field last Sunday watching a younger generation playing the game he loved so much.

Ray Collins as an aspiring young pitcher.

Netmen Take Close Second In Yankon Meet

Upsetting the dopesters who hadn't even mentioned the Catamounts in pre-meet reports, the UVM tennis team led by Jay Selcow and Shelly Rosenthal took second place in the Yankee Conference tennis matches at Durham, New Hampshire, and missed the first place laurels by the slim margin of one point. The final tally had UMass first with 16 points as the Catamounts followed with 15.

Big Yankon Upset

It was do or die for the Vermonters, out to win this one for their Coach, Fred Carpenter who is retiring this year after thirty years as UVM tennis mentor. The victory was without a doubt the upset of the Yankon sports year as UMass, Rhode Island, Connecticut and host New Hampshire were all figured to beat out the Cats.

Tied For First Place Lead

In the first day of competition, the Catamounts were tied for the lead with UMass at 10 points each. Vermont's number one man, Ken Savela, defeated the UMass number one man two out of three as UVM number two man Jay Selcow defeated his UMass opponant 6-1, 6-2.

(continued on page six)

Golfers Top Midd; Clarkson

Playing on the cold, wind-swept Rutland Country Club last Friday, the UVM golfers tied the Middlebury Panthers 3-3 and at the same time swept over St. Michael's, 4½-1½. This was the team's first match and it brought forth a strong team. Bill Purcell was low medalist with a 76, and Bob Botsford and Pete Colodny had 78's. Purcell was one under par for the first twelve holes. Norwich, who was expected to participate, did not show.

The Summaries: (Vermont vs. Middlebury)

Botsford (V) defeated Hufford (M) 3 and 2; Colodny (V) defeated Sanders (M) 1-up; Kempf (M) defeated King (V) 3 and 2; Purcell (V) defeated Keresztesy (M) 4 and 3; Leonard (M) defeated Nesbitt (V) 2 and 1; Griffin (M) defeated Walker (V) 6 and 5.

(Vermont vs St. Michael's)

Botsford defeated Crichton (SM) 2 and 1; Colodny defeated Hannan (SM) 3 and 1; King defeated Shea (SM) 2 and 1; Purcell defeated Donnellon (SM) 9 and 8; Nesbitt halved with Charlebois (SM); Latus (SM) defeated Walker 2 and 1.

LOSE TO R.P.I.

Last Saturday the team traveled to Troy, N.Y. to play R.P.I. at the Troy Country Club. Blind, rolling greens were the factors which caused UVM's defeat. The home team was at a great advantage since they knew the course backwards and forwards. Low man on the totem pole for Vermont was Pete Colodny who had an 80.

The Summaries:

Zambella (RPI) defeated Botsford 6 and 5; Peterson (RPI) defeated Colodny 2-up; Pappa (RPI) defeated King 3 and 1; Witter (RPI) defeated Purcell 5 and 4; Nesbitt defeated Dower (RPI) 6 and 5; Hasenbalg defeated Walker 3 and 1. The final score was 7½ and UVM 1½.

TROUNCE CLARKSON

The wind howled, and the thermometer dropped to 40 as UVM's "Sam Sneads and Ben Hogans" proceeded to outshoot a poor Clarkson team 20-7. This was the first home match for the Cats and it turned out to be a victorious one. The weather proved to be no problem for Pete Colodny as he turned in a 76 only four over par. His round was highlighted by birdies on three out of the four par five's.

Kittens Split Twin Bill With Larries

Fuzzy Evan's Kitten baseballers after downing the Norwich Frosh 8-2 earlier in the week split a doubleheader with the St. Lawrence Freshmen Friday to bring their season's record to 2-1.

In the first game, the kittens lost 2-0 despite a three hitter pitched by Russ Hendricks. Winner Jack Brown hurled a four hitter against the UVMers with one of the Kitten hits being a 410 foot triple by first baseman Jack Lemabe.

The night-cap had a Frank Merriwell finish as Marty Johnson broke up a 3-3 tie in the last inning with a home run. The Kittens had given starter Dave Klein a 3-1 lead which was erased by two walks and three Vermont errors in the final inning. Johnson's homer decided the issue as the Kittens won 4-3.

On Campus with Max Shulman

(Author of "Barefoot Boy With Cheek," etc.)

THE GIFT HORSE

Many of our friends will soon be graduating. What kind of gifts should we give them?

Here is no simple question. It is never simple to find gifts for people who have everything, and college students, as everyone knows, are the most richly endowed of mortals. They've got beauty and truth. They've got rhythm. They've got stout hearts, willing hands, and a clear vision that dispels the miasmas of the future as the morning sun sears away the last wisps of a cool night's fog. They've got heaps and heaps of money, as who would not who has been receiving such a huge allowance over four years of schooling?

What can we give them that they don't already have?

One infallible gift for the person who has everything is, of course, a stethoscope. New models, featuring sequined earpieces and power steering, are now on display at your local surgical supply house. Accompanying each stethoscope is a gift card with this lovely poem:

When you hear your heart beat,
When you hear it pound,
Remember me, your buddy,
William Henry Round.

If, by some odd chance, your name does not happen to be William Henry Round (you're laughing, but it's possible), here is another dandy suggestion for the person who has everything — a gift certificate from the American Bar Association.

These certificates, good at your local lawyer's, come in three convenient sizes: small, medium, and large. The small certificate covers title searches and writs of estoppel. The medium size covers torts, claim jumping, and violations of the Smoot-Hawley Act. The large one covers kidnapping, murder, and barratry.

If, by some odd chance, you don't know what barratry is (you're laughing, but it's possible), it is arson at sea. This interesting crime is called after Cosmo "Bubbles" Barrat, a captain in the British navy during the last century, who was addicted to burning his ships. One man o' war after another fell victim to his incendiary bent. The Admiralty kept getting crosser and crosser, but every time they called in Captain Barrat for a scolding, he would roll his big blue eyes and tug his forelock and promise faithfully never to do it again. Oh, butter wouldn't melt in his mouth, that one!

So they would give him another ship, and he would soon reduce it to a scattering of charred spars. He burned more than 120,000 ships before he was finally discharged as "doubtful officer material."

After his separation from the navy, he moved to Vienna where he changed his name to Freud and invented Scrabble.

But I digress. I was listing gifts for the person who has everything, and here is another one. This gift, in fact, is not only for persons who have everything, it is also for persons who have nothing, for persons who have next to nothing, for persons who have next to everything, and for persons in between. I refer, of course, to Philip Morris cigarettes. Here is the cigarette for everybody—for everybody, that is, who likes a mild relaxing smoke of fine vintage tobacco in a handsome brown package that snaps open with the greatest of ease. For those, if such there be, who like dull, nondescript tobacco in a package that requires a burglar's kit to open, Philip Morris is definitely the wrong gift.

Among the newer gifts that warrant your attention is a revolutionary development in the enjoyment of recorded music. This is the Low-Fi Phonograph. The Low-Fi, product of years of patient research, has so little fidelity to the record you put on it that if, for example, you put *Stardust* on the turntable, *Melancholy Baby* will come out. This is an especially welcome gift for people who hate *Stardust*.

Finally there is Sigafoos Shaving Cream, a brand new kind of cream that makes whiskers grow *in* instead of out. You just bite them off in the morning.

© Max Shulman 1955

To Max's suggestion to give PHILIP MORRIS for graduation, the makers of PHILIP MORRIS, who bring you this column, add a hearty amen.

Cats Drop Clarkson 9-3 & Split With U Mass 3-4;5-4

Damon & Harasimowics Set Records In Romp Over Union

Take All But Two Firsts In 93-33 Win Over Dutchmen

Led by Larry Damon and Paul Harasimowics who broke the UVM mile and shot-put records respectively, the Vermont Tracksters took all but two first places as they smashed the Union track team, 93-33, last Wednesday at Centennial Field.

Record Breaker

Record breakers Damon and Harasimowics both set records which they had been rapidly approaching all year. Damon's new mile mark is 4:31.5 seconds which breaks the old record of 4:33.6 set by Bob Caswell in 1951. Harasimowics record of 45'7 inches tops Ron Doornbosche's last year's record of 44' 8½ inches.

Double Winners

There were two double winners for the Catamounts: Captain Clint Thompson, who won the 120 high hurdles and the 220 low hurdles, and Damon who won the two mile run, in addition to his record breaking mile.

Sweep Three Events

John Osuch won the 100 yard dash in 10.6 seconds followed closely by Fred Soloman and Horton of Vermont to give the Cats a sweep in the event. The 220 yard run was run in 23.7 seconds by Soloman who was followed over the line by Corshen and Blank, all of Vermont. Dave Stephens led the third Vermont sweep of the day as he ran the 440 in 51.6 seconds followed closely by Wadley and Blank, who tied for second place.

The Cats also took firsts in the high hump, pole vault and discus.

The Summaries:

100-yard dash: Won by Osuch, V; 2nd, Solomon, V V. Time: 10.6 sec.

Pole vault: Won by Perkins, V; 2nd, Churchill, U; 3rd, Woodberry U. Height: 11 ft., 6 in.

Shot put: Won by Harasimowicz, V; 2nd, Doornbosch, V; 3rd, Hill, V. Distance: 45 ft., 7 in. New Vermont record.

Discus throw: Won by Doornbosch, V; 2nd, Harasimowciz, V; 3rd, Hill, V. Distance: 124 ft., 1½ inches

220-yard dash: Won by Solomon, V; 2nd, Corshen, V; 3rd, Blank, V. Time: 23.7 sec.

440-yard run. Won by Stephens, V; 2nd, tie, Wadley, V, and Blank, V. Time: 51.6 sec.

880-yard run: Won by Grady, V; 2nd, MacKinnon, U; 3rd, Wever, U. Time: 2 min., 2.2 sec.

One mile run: Won by Damon, V; 2nd, Parillo, U; 3rd, Grady, V. Time: 4 min., 31.5 sec. New UVM record.

Two mile run: Won by Damon, V, 2nd, Parillo, U; 3rd, Fitzpatrick, V. Time: 10 min., 16.8 sec.

120-yard high hurdles: Won by Thompson, V; 2nd, Michalsky, U; 3rd, Guy, V. Time: 16.8 sec.

220-yard low hurdles: Won by Thompson, V; 2nd, Michalsky, U; 3rd, Woodberry, U. Time: 27.0 sec.

High jump: Won by Lovejoy, V; 2nd, Guy, V; 3rd, Kivette, U. Height: 5 ft., 10½ in.

Galascione Provides Margin With Homer Against Redme

Last week Ralph Lapointe's Catamount nine were a busy outfit as they took on Clarkson College in a single game and then the Univ. of Mass. for a doubleheader. Clarkson was easily beaten 9-3, as Lew Deitsch picked up his second straight win at home. But this game was just a stepping stone to the more important one with the Redmen from UMass. who are the defending NCAA District One champions.

Strong pitching and home runs decided the opener in favor of the Redmen. Phil Tarpey, the UMass. ace who pitched the Redmen into the NCAA tournament last spring, gave Vermont but two hits, a double by Al McLam and a single by Vern Currier. Errors and walks provided the Catamount runs in the losing effort. Circuit clouts by shortstop Gobielle and Pitcher Tarpey provided the edge for Mass. over right hander Hugh Bemis who went all the way for the Cats.

Final score for the opener wa 4-3.

Taking the bull by the horn and realizing the importance of split, the Catamounts played a uphill second game and outdi tanced Mass. 5-4. Catcher Johnn Galascione talked with his stic last Saturday afternoon as h refused to let the Redmen cop twin bill. It was Galascion who beat out a slow roller to th shortstop to score George Gilbe from second on a bit of darin base running and sent the gam into extra-innings. With the score tied at 2-2 the Redmen came rig back in the top of the eighth b jumping on Ron Larrow who ha relieved starter George Plende Mass picked up a pair of runs this time but Vermont was not be denied as Galascione cam again, with two out and Jo Wark on first, parked one over th left field fence to tie it all up 4-

From the ninth on, Larrow an UMass reliever Pat Joy held eac other off until the last of th tenth. Ed Beck started thing by singling to center with on away. Wark struck out and on th first pitch to Galascione, Bec stole second. Galascione on th next pitch promptly smacked a single to bring Beck around wi the winning run, giving the Ca a split and a very importa victory.

Needless to say the victo in the second game kept th Cats in contention for NCA honors in New England. Persis tence must be Johnny Gala cione's motto as he not on tied the game up twice but too it upon himself to also knock the winning run. The Catamoun now have a 6-2-1 record since the Southern trip, this exclude the game with Middlebury whic was played yesterday.

Soft Ball

The first round in Intra mural Softball was comple as eight teams made it to second round. In league A Sigma Delta, Sigma Nu Delta Psi remain. Phi Del Theta and TEP made it fr league B. Kappa Sigma, The Chi and ATO remain fr league C. These teams will play on an elimination bas to arrive at a winner.

The first round standing

League A

Phi Sigma Delta	
Sigma Nu	
Delta Psi	
AEPI	
Owls	

League B

Phi Delta Theta	
TEP	
Sigma Phi Epsilon	
Acacia	

League C

Kappa Sigma	
Theta Chi	
ATO	
Sigma Phi	
EAE	

Second Round Begins

Last Monday, three gam were played. Phi Sigma Del scored 10 runs in the fir three innings to triumph o Delta Psi, 11-2. TEP lost Phi Delta Theta, 6-3, as t Phi Delts scored 2 runs in t second inning and 4 runs the third inning. AEPI scor in every inning as they be the Owls, 15-8.

The Vermont Cynic

VOL. 73 — UNIVERSITY OF VERMONT AND STATE AGRICULTURAL COLLEGE — BURLINGTON, VERMONT, MAY 19, 1955 — NO. 10

Rowell Announces Opening Of UVM Summer Session

The UVM Summer Session will open on June 20 with the beginning of an eight-weeks session which will run through August 12. A six-weeks session and a three-weeks session will begin on July 5, according to Lyman S. Rowell, director, and a second three-weeks session will be offered starting July 28.

A workshop on Economic Education will be presented from July 5-26 in cooperation with the Joint Council on Economic Education, supported by scholarships sponsored by the Associated Industries of Vermont. The Workshop for Teachers of Retarded Children, to be given July 5 - August 17, will be offered in cooperation with the Division of Special Education of the Vermont State Department of Education.

Special Sessions

As in past years, a number of special workshop, institute and clinic sessions will be featured during the summer. A Workshop in Methods of Teaching Typing will be held from June 21-24, while a State Parent-Teacher Workshop will take place July 12-13. The third annual School Maintenance Clinic will also be held July 12-13, as will the League of Vermont Writers Institute. An American Junior Red Cross Institute will be offered July 26-27.

Besides these special workshop offerings, there will be a course in Automobile Driver Education and Training provided through the cooperation of the American Automobile Association. This basic course for teachers is for two weeks, June 20 to July 1, a change from the one-week course of previous years.

Cooperation with outside agencies is also the keynote of the Home Nursing Instructors Course being offered from June 20-24, under the joint sponsorship of the Vermont Civil Defense Agency and the American Red Cross.

100 Others

Besides these special offerings, nearly 100 courses will be offered during the various sessions, including courses for Adult Development as well as courses carrying undergraduate and graduate credit. A wide variety of courses of special interest to teachers is being offered, according to Rowell.

Community Concert Sale Ends Tomorrow

Memberships for the 1955-56 Community Concert Association may be obtained this week only. Student representatives are on campus and memberships will be sold in the lower hall of Waterman on Friday from 11 a.m. to 2 p.m. "The Philharmonic Piano Quartet" and "I Musici" (The Musicians), an instrumental group of Italian artists, have already been booked. Other concerts will be announced at the close of the campaign.

Student memberships $3.00 for the series; adult memberships $6.00 for the series. Concerts to be held in the new auditorium of the *Burlington High School*. Admission by membership card only! For further information call Student Personnel Office or Bailey's Music Rooms, 38 Church St., Tel. 2-5801. Campaign closes Saturday, May 21 at 5:30 p.m.

Alexander And Severens Named Frosh Week Heads

Florence Alexander and Dick Severens have been appointed Co-Chairmen of Freshman Orientation for 1955. Their names were chosen from a list of those who originally signed up and were approved by Student Association. They will be assisted by Gene Mowry, Finances; Bruce McAllister and Liz Curtis, Publicity; Howard Ross and Lorna Dean, Banquet; Mark Bernstein and Madeleine Fournier, Mixer; George Parry and Val Gluskin, Picnic; John Manning, Men's Registration; Sammy Hebard, Sing; and Donna Newhall, W. S. G. A. representative. Members for these various committees were chosen at mass meetings held during this week.

Many changes have been made in the program for Freshman Week this year. The program will be one day shorter, since the banquet and mixer will be held on the same night. Most of these changes were based on reports handed in by Mortar Board and Staff and Sandal, senior and junior women's honorary societies. Instead of presenting the various clubs and organizations to freshmen at registration, there will be a Club Carnival where the many organizations will have booths to present the work of their club to interested freshmen.

In an attempt to improve school spirit, many rules will be made to make the freshmen more conscious of the school. In addition to this, the wearing of beanies will also be enforced. The Campus Varieties will be continued to teach the new freshmen the songs and cheers of the university.

Senior Week To Open Its Festivities June 10

Caps And Gowns To Assemble For 1955 Class Day

Class Day, for the Graduation Class of 1955, will begin on Friday, June 10.

At 9:00 that morning, the class will assemble in cap & gown, before the library. The traditional procession, through the campus will then take place. The procession will visit the Lafayette and Ira Allen monuments where the orations of the respective statues will be given.

These orations are a part of the Class Day ceremony. The Ira Allen Oration deals with the history of UVM and various incidents from Ira Allen's life. The Lafayette Oration deals with the life of Lafayette, and is on the same order as the Ira Allen Oration.

A class picture will be taken at this time.

At 2:00 on the campus, the Ivy, Tree and Pipe Orations will be held. These orations are related to the symbols themselves and contain interpretations that the class may want to include in these speeches.

A graduation rehearsal will be held at 4:00 P.M. the same day. While this is going on, parents and guests of the students will have an open lounge period in the Waterman Building. The professors and instructors of the students will be there to answer any questions that may arise.

The Senior Prom will be held at the Burlington Country Club from 9-1 that evening. Al Drootin, who played with the Mahogany Hall All Stars for the Jazz Concert during Junior Week of last year, will provide the music that night.

Week Includes Procession, Walk And Senior Prom

Senior Week will open officially with the Senior Banquet which will be held June 9 in the Waterman cafeteria. Friday, June 10, Class Day exercises will be held at the Lafayette statue, the Ira Allen Chapel and in the front of the Waterman Building. At these exercises speeches will be given by members of the faculty and the graduating class.

Open house for parents, faculty and guests will be held in Memorial Lounge Waterman on Friday afternoon. And in the evening the Annual Senior-Alumni Prom will be held at the Burlington Country Club.

Saturday there will be an alumni luncheon to which the Class of '55 is invited.

On Sunday the Academic procession will take place at 9:30 a.m. and at 10:00 a.m. on the college green Dr. Buell G. Gallagher, President of the City College of New York will be guest speaker at the Baccalaureate Service.

Class reunion dinners will be held at noon. The academic procession will take place at 2:45 p.m. prior to the Commencement exercises which will take place at 3:30 on the college green. Alan T. Waterman, director of the National Science Fund will be the main speaker at the commencement exercises.

Bill Battles, president of the Class of '55, announced the following people as committee chairmen of Senior Week Activities: Babs Rosenbush and Ros Gross as the Co-chairmen

(continued on page two)

Chaffee, Hebb, And Wadley Are 1956 KW Directors

McGoughran And Nadworny Also Take New Posts

By Shirley O'Neill

Three new Kake Walk directors, a new secretary, and a new faculty advisor have been named as preparations begin for the 1956 edition of the Kake Walk. The three new directors - Bruce Chaffee, Edwin Hebb, and Kenneth Wadley - will replace outgoing directors Robert Hylton, George Bender and Stanley Stein, while Professor Milton J. Nadworny will serve as the new advisor.

Bruce Chaffee, last year's assistant director in charge of program, publicity, and posters, will serve as next year's Director in charge of production and Publicity. Chaffee, a member of Delta Psi Fraternity, is a pre-medical student from Burlington. He served as chairman of the 1954 Homecoming Weekend and has been a member of both Gold Key and Serpent. He was recently elected to Boulder Society, the senior men's honorary.

Finance Director

Edwin Hebb, former Assistant Director in charge of tickets and awards, has been named Director in charge of Finance. Former president of Sigma Nu Fraternity and of the French Club, he is a pre-law student in the College of Technology. Hebb comes from Bellows Falls, Vt., and has recently been elected president of the Interfraternity Council.

Kenneth Wadley, last year's Assistant Director in charge of Auditorium arrangements, will be the 1956 Director in charge of Production and Auditorium. A member of Phi Delta Theta Fraternity, Wadley served as publicity chairman for the 1954 Homecoming Weekend, and has been a member of both Gold Key and Key and Serpent. He is also a member of the varsity track and cross-country teams. An accounting major in the College of Technology, Wadley comes from Great Neck, N.Y.

Professor Milton Nadworny, the new Kake Walk Advisor, will replace Dr. Sidney B. Smith, Director of Libraries, who has held the position of advisor for seven years. Dr. Nadworny is Assistant Professor of Economics in the College of Technology. He received his bachelor's degree at the City College of New York, his master's at Columbia, and his Ph.D. from the University of Wisconsin, and came to UVM in February, 1952.

Lower Tuition Bill Advances In Vt. Senate

By Shirley O'Neill

A bill lowering the tuition paid by Vermont students from $705 to $345 a year has been passed by the House of Representatives of the Vermont Legislature, and is now under consideration by the Senate Committee on Appropriations. The $345 rate is a compromise between the proposals of Gov. Joseph Johnson and President Carl W. Borgmann. Gov. Johnson in his budget message called for a tuition reduction to $425, while President Borgmann advocated a rate of $225 per year.

If passed in its present form by the Senate, the bill will go to Governor Johnson for his signature. If passed in a different form, a joint conference committee composed of members of both House and Senate, will attempt to work out the differences.

As it now stands, the bill would lower yearly tuition rates for all Vermont students except those in the College of Agriculture from $705 to $345 per year. The present rate of $225 for students in agriculture would be continued. As for those students in elementary and junior high school education, tuition

AF & Army ROTC Display Spectacle On Military Day

By Don Karp

The University of Vermont campus recently was a spectacle of military display as the Air Force and Army ROTC Corps performed in a Military Day program at Centennial Field.

The program and ceremonies, which were announced by Lt. Hal Greenfader, featured exhibitions by both Army and Air Force drill teams. The UVM band, under the direction of Dr. Joseph Lechnyr, kept the commands in proper marching time through presentations of many sprightly marches.

Highlighting the program was the presentation of awards for outstanding members of both groups. Those receiving awards from the Air Force included Cadet Col, Luther F. Hackett, Cadet M. Sgt. Norman B. Sutherland, Cadet M. Sgt. John B. Suxton and Cadet Major Sam Cutting; while recipients of Army awards included Col. Francis Maccini, Lt. Col. Robert J. Crawford, Capt. Anthony L. Vydra and Lt. George Hansen.

Awards being presented at Military Day Ceremonies.

The Cadet Officers who participated in and directed the program were under Commander of Troops Luther F. Hackett. Next in command was Col. Francis Maccini and assisting both was a Joint Staff composed of the following: Lt. Col. George Bardis, Lt. Col. John

(continued on page two)

Players Banquet Toasts Tom Marx As New President

Thomas Marx was elected presfdent of the University Players at an election meeting last week, replacing outgoing president John Van Blarcom. Other new officers include Nancy Clarke, vice-president; Lee Baker, secretary; John Van Blarcom, treasurer; and Patricia Orvis and Roy Kelley, members-at-large.

A National Collegiate Players member was elected to the Executive Council last night, during the initiation ceremonies which preceded the annual University Players banquet.

DID YOU KNOW?

... That in 1829, when UVM had 101 students, Yale (largest in the country) had 359 and Harvard was second with 247? In 1839 the score was: Yale, 411; Union, 236, Virginia 247; Princeton, 237; Harvard, 216; UVM 110. By 1860 it was: Yale, 502; North Carolina, 450; Virginia, 417; Harvard, 409; UVM, 173(including 72 medics).

Niles Weekly Register in 1829 reported one person in college for every 3800 persons in the country, as the national average. State ratings were: Massachusetts, 1 to 1300; Connecticut, 1 to 1500; Vermont, 1 to 2000; New Hampshire, 1to 2500; New York, 1 to 3700; Mississippi 1 to 56,000.

New Econ. Honor Society Elects Merrihew Pres.

Last Thursday an Economic Honorary Society was founded, a constitution approved, and officers elected. The purpose of the group is to provide some unity for students in the Commerce and Economics Department and Liberal Arts Economics majors. The scholastic requirements for membership set down an overall average of 77 and an average of 81 in all Commerce and Economics courses.

New officers are: president, Ray Merrihew; vice-president, Bruce Ferguson; corresponding secretary, George Brown; recording secretary, Charlene Craig; and treasurer, Clyde Lewis.

Faculty advisors are Professors E.C. Greif and E.A. Nyquist, both of whom played key roles in getting the group started.

Next year a full program of meetings and guest speakers is planned.

Senior Week

(continued from page one)

of the Senior Week Committee. Other committee chairmen are:

Punch-line to the year's hottest power story–

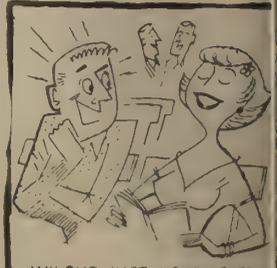
Chevrolet "Turbo-Fire V8"!

This is the engine that's writing a whole new chapter in the book of automobile performance records. This is the engine that has stock car timers doing a "double take" at their stopwatches wherever experts gather to compare the abilities of the 1955 cars.

For example, in the recent NASCAR* stock car competition at Daytona Beach, Florida, Chevrolet literally ran away from every other car in its class—and a raft of others besides. In the one-mile straightaway run for low-priced cars, the first two places—and six of the first ten—went to Chevrolets. And in acceleration runs from a standing start against all comers, the Motoramic Chevrolet beat all other low-priced cars—and every high-priced car except one!

What's behind this blazing performance? A compact honey of a V8 that only the world's leading producer of valve-in-head engines can build. Chevrolet's new "Turbo-Fire V8".

It puts a new kind of fun in your driving life. You're in charge of 162 high-spirited horsepower — or if you're looking for even more excitement, the new "Super *Turbo-Fire V8*" *(optional at extra cost) puts 180 h.p. under your toe!*



Pick the one you'd rather have fun with, then come in and get behind the wheel. You'll see why the Motoramic Chevrolet is showing its heels to everyone else on the road!

*National Association for Stock Car Auto Racing.

Spiro - English Team Cop Prize At Midd - UVM Debate

By Don Karp

The team of Herzl Spiro and Ed English were victorious Tuesday evening as they won the decision over Middlebury College for the Lawrence Debate Club of the University of Vermont in the annual Middlebury-Vermont Prize Debate Contest. Spiro, who with English represented Vermont at the Nationals recently, was awarded a cash prize of $50.00 for being the best speaker. The Middlebury team was composed of Alice Armstrong of Elmira, N.Y., and Alan Entine of Roslyn Heights, N.Y.

The event which saw the two Vermonters in their last appearance as UVM debaters add a finishing touch to a brilliant record, was attended by the University's two debate coaches, Professor Charles Helgeson and Dr. Robert Huber. The judge was Mrs. Frank Carrino, Director of Forensics at Albany State Teachers College.

Finals Call On Beach And Billings For Ideal Study

Vacation is almost upon us but first comes finals. And where to study best is the question at hand. The beaches at Mallets Bay and Shelburne are ideal from sun-up to sun-down, seven days a week - weather conditions and sand flies the only disrupting factors. For those who like to study closer to home the steps of the Waterman Building (best in morning for sunbathers, also allow ten minutes disturbance per hour between change of classes), the Chapel, Billings Library, and Science Hall are also available. For those who find nature conducive to study but have only their two feet for transportation there is the cow pasture in back of Converse Hall and the field in back of Coolidge.

For the others among us who dislike sunbathing, mosquitos, and failing finals, the University offers various study quarters. The list includes: Rooms 211 and 210 in the Waterman Building from 8 a.m. to 11 p.m. seven days a week. Memorial Lounge in the Waterman Building is open 10 a.m. to 4 p.m. Monday through Friday and till noon on Saturday. The conference room in the Fleming Museum from 9 a.m. to 5 p.m. Monday through Saturday, and 2 to 5 on Sunday. The Wilbur Library has the same hours with the exception that it is closed Saturday. Hills Hall is open 8 a.m. to 10 p.m. Monday through Saturday. The Home Economics Building offers a reading room open to all students 8 a.m. to 5 p.m. weekdays. The library in Science Hall is open 8 to 5 weekdays only and the Billings Library is open 7:45 to 10 weekdays, till five on Saturday and 2 - 5 on Sunday. The Medical Library is open 8-10 weekdays, 9-5 on Saturday, and 2-5 on Sunday.

Happy studying!

Professor Ellis Conducts Study On Radioactivity

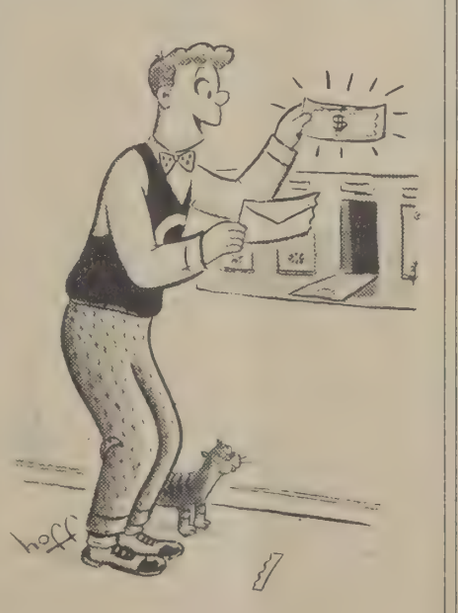
Professor William Ellis of the Physics Department is engaged in research concerning a well known subject, namely radioactivity. One of the goals of his research is to determine the radioactivity of the element, bismuth.

One way of performing nuclear physics is by using nuclear emulsions. Common methods are by employing: a cloud chamber where the tracks of the exploding particles are shown by droplets, or by the use of a bubble bath where the reaction shows in the form of bubbles. Professor Ellis uses what he considers a more accurate test. This consists of making an emulsion of the substance and then soaking a piece of film therein. When this film is taken from the bath, the tracks are photographed upon the film. This film is then examined microscopically and the particles are located. The tracks are measured by noting their scattering, their length, and their grain density.

By this measurement Professor Ellis can determine the mass, charge, and energy of a substance. Another factor which is ascertained is the half life of the element. The half life is the period of time it takes for the substance to decay by fifty per cent. The half life of bismuth is a billion, billion, billion years.

Comic Books Attract Many Read By Old And Young

Pencils, books, and papers galore --- the usual school day supplies. However, there is one more book that was left out. What is it? Why it's the colorful comic book! Haven't you, yourself, read some of these books this year?



Statistics show that more money is spent each year for the purchase of the comic book than is spent for the entire book supply for elementary and secondary schools. How many times have you been snowed under with hour exams, quizzes, term papers, and that outside reading due next week? It is almost impossible to find the time to sit down and begin to read a long, fine-print novel. But it must be read or you flunk the course. The only solution is to buy a Classic Comic. In a matter of minutes you have finished your reading assignment. Now the only thing is -- will you be able to answer the big question? The Classic Comic is, by far, the easiest way out, but actually, how well-informed are you on the material?

Not only high school and college students read comics, but college graduates and even teachers read them. We have all seen the professional man's office with its magazine rack stacked with various cultured magazines and comics. The next time you sit in such an office, be sure to notice all the adults that have their noses buried in comic books.

Many persons believe that comic book reading lowers the intelligence of the individual. It has been proven that such readings do not favorably influence intelligence. Instead of picking up a comic, one should read a novel and try to broaden his interests. True, comic books are amusing and easy to read, but really, how can you benefit from them?

When you're flat broke and feeling kind of mean...

And Pop comes through with some spending green...

M-m-man, that's PURE PLEASURE!

For more pure pleasure... SMOKE CAMELS!

No other cigarette is so rich-tasting, yet so mild!

P.S. No other brand has ever been able to match the pure pleasure in Camel's exclusive blend of costly tobaccos -- one of the reasons why Camels are America's most popular cigarette!

R. J. Reynolds Tobacco Co., Winston-Salem, N. C.

EDITORIAL

THANKS

This issue of the CYNIC is the last for this semester - we have to study also. But before we go we would like to make a few parting comments about the school in general and about the people who have helped us in particular.

First, we would like to thank the Student Association for the confidence they have shown in us, as illustrated by their having granted our budgetary request.

We owe a great debt to our regular advisors, Professors Bandel and Dykhuizen, for the long hours and great assistance that they spent in advising us this past year. We also give our thanks to Professors Greif and Nyquist, of the Economics Department, for their aid on the financial side of the paper. Mr. Greif mapped out our advertising campaign, and Mr. Nyquist set our books and records in order.

The administrative offices have proven most welcome in giving advice and cooperation. They have served as a steady source of information about policies and personalities.

ADMIRATION

We have always thought highly of our faculty, but never realized how versatile they were until last Sunday when a group of them, under Cap't. Gould, beat Alpha Tau Omega fraternity in baseball. Every Sunday morning the team assembles behind the Old Mill and takes on a fraternity or other student group. They have a long series of wins behind them and students who seek a " stimulating " morning's entertainment are urged to show up next week at 10 A.M. for the next game.

HONORARY

A long felt need was on its way to satisfaction last week as a group of students banded together to found an Economics Honor Society. Other schools in the University have their own honoraries and now this one, as yet unnamed, joins the ranks.

LOOK WHAT'S AHEAD

It is difficult to believe that school will be over in less than three weeks, exams and all, so the entire CYNIC Staff wishes you the best of luck for the period ahead and we will see you in the fall. Also our congratulations to the graduating senior class - it was a hard struggle but you made it.

SIXTH OPEN LETTER FROM THE STUDENT ASSOCIATION PRESIDENT

Fellow Students,

Even though this will be the last of this series of open letters from me as SA president, there are a few items I feel that I should report on before we go on to any resume of the year's work or a nostalgic bit.

First of all, the finances of the Lawrence Debate Club have been cleared up. In a recent meeting of the "cabinet" with President Borgmann, it was agreed that the University would foot the bill for all off-campus meets, with Student Association covering only the Vermont Invitational Tourney held here in the fall. This move saves SA about $800 per year and, more than that, makes our financial policy completely rigid if properly administered, thereby removing a long standing headache from the council.

VERMONT CONFERENCE

Well, the Vermont Conference is over for what looked for a while like its last year, amid cries of "apathy " from faculty and "poor publicity " from students. The committee did a pretty poor job in planning and publicity this year but that's partly the responsibility of Student Association and is something that can be cleared up in choosing a committee and making recommendations for next year.

Faculty Attitude

The thing that gripes me more than that is the attitude of some faculty members concerning the conference and apparently all student functions. One faculty member, who had not seen the notice that due to a transportation difficulty the speakers would not be able to start until a half hour after the previously scheduled time, arrived at the original 7:30 hour. When told of the change by one of the young ladies at the door, he asked, "Is this thing sponsored by Student Association? " When assured that it was, he remarked that he thought as much because, "they (Student Association) always do things wrong anyway. "

It's this apparent ignorance of what Student Association is doing and has done, for the University and, even more deeply, a lack of faith in students and the deplorable idea that we should not be given credit for a strain of common sense, that leads to misunderstanding and poor relations all around. I've stood by and let a few very petty acts slip by the boards, but I personally owe so much to Student Association that I feel that, before I leave the undergraduate student body officially, I should point out what I believe are long standing injustices so that they may be brought out into the open and finally, in some manner done away with in the future.

I wonder if in future years classes on the days of the Conference could be made optional. This doesn't seem too unreasonable in light of the fact that AAUP, at least, seems to be interested in broadening the student outlook, and the Conference, expecially this year, would be invaluable in this regard.

LEADERSHIP TRAINING

The leadership training seminar went off quite well although we didn't have the participation that we expected. I believe that this is something that should be continued in the future. I'd like to thank, at this time, Miss Harris, Mr. Hardy and Mr. Killick, along with the faculty members who were present, for their contributions to the meeting, and I hope that this get-together has been helpful in furthering student-faculty-administration relations.

AAUP Committee

Speaking of student-faculty relations, it seems that although AAUP appeared interested in a project to further the academic program about campus, they are not interested enough at this time to make it a representative student-faculty venture. At present they do not have any students working with their group and personally, I don't see how they hope to succeed in gaining student interest or opinion without student representation on the committee to give our side of the case. I guess I've taken enough cuts at the faculty for one day anyway, so I might as well get off this subject. However, it seems that for some reason AAUP isn't interested in a teacher or course appraisal by the students. Student Association has organized a curriculum committee to work either on a student-faculty basis or alone, depending on the situation next year. I know that this will be carried on and will be valuable in the future.

George Lucchina

STUDENT FACILITIES

Student Association has set up a facilities committee to study the outfitting of more room in Waterman and Southwick to house student facilities and meet the growing needs of the students.

At a recent meeting, President Borgmann suggested this idea, and to me it seems an excellent one. With the new women's dorm going up, the need for some sort of facilities on the south campus will grow tremendously and we should be ready to meet it beforehand.

It appears that the hue and cry for a student union has, at least, brought up the possibility that some student facilities are lacking. As President Borgmann says, if we can show a need for facilities by using those that we can have now, we will show a need for a union.

Future Plans

I guess I'd better wind up this letter and save the CYNIC a little room for local ads. I intend to work during the summer and, whenever I have to, on the idea of a student discount service which I mentioned in a previous letter; a speaker series to supplement the George Bishop Lane programs ; and a student advisor program, much like and to work in conjuction with, the "big sister " program sponsored by WSGA. The latter would be made up of an upperclassman serving as a "student advisor " to a group of about five freshman men. It seems that we've already hit a snag with fraternities because of deferred rushing but I hope something can be worked out.

1955 Council

Regarding this year's council, it hasn't been perfect but it's certainly been the best group that I have seen work for Student Association in my four years here. After the first few rocky weeks, they stood their ground and backed up whatever they thought was right in the face of criticism and came out on top as far as I am able to see at the present time.

Dave O'Brien has been very cooperative and has served as a check on a "one party " show as I believe he should. He has been an excellent vice-president and a wonderful man to work with. Dave has shown the leadership needed in such a position and I know that he will continue to do the job in the same manner next year.

I don't know what to say to tell you how much respect I have for the council that you gave me to work with. They were the best as far as I know, to represent their students on any student governing council that I have seen and they have had a model structure to work with. SA's relations with the other governing bodies - IFC, WSGA and Pan Hell - have improved 100 per cent. Our ties with WSGA especially are stronger now than I can remember them to ever have been in the past.

The enthusiasm of this year's group has completely revamped SA outlook and picked it up from its so-so position last year to a place of respect in student government circles. This, in itself, is a major accomplishment of the 1955 SA Council.

I want to express my appreciation to those of you who elected me for the opportunity to work with this best of all councils and for giving me a chance to serve you. I have done what I could and hope that I have been of as much service to you as this opportunity has been to me, in allowing me to develop in a balanced social structure and not a one-sided shell of intellectualism or, on the other hand, of worthless procrastination.

In closing, as a bit of advice or a parting shot, I would like to draw a bit from my convocation speech last September.

"As you look about you now, place yourself in the Greece of early times, in Athens, the citadel of freedom of the ancient world, which had just completed its *first* war against the totalitarian state of Sparta, representing military force and dictatorship as a way of life. This was the commitment that the Athenian leader, Pericles, envisaged for his people, in his funeral oration for the Athenian soldiers who had died in the *first* war against Spartan totalitarianism.

"As the free citizens of Athens prepared for their final struggles with the forces of darkness, Pericles told them:

' Fix your eyes upon the greatness of your country as you have it before you day by day;

Fall in love with her, and when you feel her great, remember that her greatness was won by men with courage,

With knowledge of their duty, and with a sense of honor in action

Who even if they failed in some venture would not think of depriving their country of their powers,

But laid them at her feet as their fairest offering.'

Respectfully,
George G. Lucchina
President -
U.V. Student Association

Cloud Seven

At the Alpha Chi House Barbara Wood '58 is pinned to Bob Friday from the University of Illinois. Nancy Catlin '57 is engaged to George Ewings of Theta Chi. Patti Reele '55 is engaged to Bill Meyers who is now in Germany. Trixie Hansen '55 was married to Nelson Jones of Dartmouth during spring vacation.

Up at the Pi Phi House Sue Connelly is pinned to Randy McNaughton who is a Theta Delta Chi at Williams College. Sue Lowell is pinned to Mike Dow, a Theta Delta Chi at Williams College. Martha Scott is pinned to Dick Perkins a Sigma Nu at Dartmouth College. Peggy Leonard is pinned to Charles Maxson a Phi Delt at UVM. Sally Lou Jensen is engaged to Wil Hergenrader of Lincoln, Nebraska. Jane Bohlinger is engaged to Jack Yago who is a graduate from the University of Penn. Joan Bugbee '57 is engaged to Dave Boardman a Junior at Holy Cross College.

It was a real memorable night for one couple at the Delta Psi's formal. Chris Zwirner '55, Briarcliff, N.Y., pinned Penny Collins '56, Alpha Delta Pi, from St. Albans, Vt.

Lois Butler '56 from Hasbrouck Heights, N.J., a Gamma Phi, is pinned to Carl Haviland, '55, from Red Bank, N.J.

Carolyn MacNeill, '57, Lakeville, Mass., an Alpha Delta Pi, is engaged to Corporal Victor E. Lindfors, a member of the U.S. Marine Corps at Camp Le Jeune. A June wedding is planned.

Pi Beta Phi

The Pi Phi's initiated fifteen girls on March 19th. They are: Ellen Anderson, '58, East Meadow, N.Y.; Joanne Armstrong, '58, Bennington, Vt.; Betsy Brazil, '56, Laconia, N.H.; Judy Clark, '58, Rutland, Vt.; Anne Dove, '55, Rye, N.Y.; Lovice Hinsdale, '57, Havertown, Pa.; Joan Ferguson, '55, Hartford, Conn.; Carolyn Hunt, '58, Burlington, Vt.; Marilyn Jensen, '58, Burlington, Vt.; Anne Lee Knopf, '58, Paterson, N.J.; Jean McMahon, '57, St. Albans; Joyce McQuilkin, '58, Montreal, Canada; Connie Rawson, '56, Poughkeepsie, N.Y.; Liz Milner, '58, New Rochelle, N.Y.; Eva Rehtje, '57, Djursholm, Sweden.

Jane Stickney, '56, Bellows Falls, Vt., is President of Women's Student Government Association and Sally Smith '56, of Burlington, is second Vice-president. Nancy Bush is the Sophomore representative to Student Association, and Nancy Becher is the Junior representative.

New officers of the Home Economics Club are: Jane Bohlinger '57, Trenton, N.J., President; Carolyn Hunt, Social chairman; and Joan Ferguson, publicity chairman. The girls elected to Honorary ies are:

Sophomore Aids: Joanne Armstrong, Judy Clark, Anne Lee Knopf, Joyce McQuilkin, Carolyn Hunt, who is president; and Marilyn Jensen is treasurer.

Staff and Sandal: Pat Cheney, Marilyn Falby and Sandy Waugh.

Mortar Board: Elisabeth Adams and Sally Smith who is next year's president.

Marilyn Jensen is secretary of the Class of 1958. Nancy Bush is secretary of the Class of 1957, and Nancy Becher is secretary of the Class of 1956.

Mrs. Robbins gave all the engaged Pi Phi's aprons which she made by hand.

This past Sunday, thirteen of the Pi Phi's gave Mrs. Robbins a surprise Mother's Day dinner at Oakledge Manor. It was also Pat Kolks birthday and when the waiter brought Pat a birthday cake she was very surprised. She asked the girl next to her whose birthday it was.

Alpha Chi Omega

Open bids were given last week to Fay Weston '56, Judy Newton '58, and to Carol Sunderland '56.

Alpha Chi held its Spring Formal April 29th, at the Olde Board. A great time was had by all.

The "Mad Hatters" party and the "Kiddies Party" were held at the Alpha Chi House last month, and both were very successful.

Marim Sallah '55 was named Carnation Girl for the month of May.

A coffee hour will be held at the house Tuesday, May 17, for Mrs. Weber. Mrs. Weber is not planning to return next year.

The following girls were initiated: Mary Lou Agnew '58, Nancy Catlin '57, Calleen Coxon '58, Janice Erla '58, Barbara Goodwin '58, Gail Henion '58, Edith Lawson '58, Frances Russel '57, Elisabeth Slayton '56, Theodora Stokes '58 and Ellen Stone '58.

The new slate of officers is Jo Ann May, president; Marcia Hallenbach, first-vice-president; Mary Hargreaves, second-vice-president; Mary Towne, corresponding secretary; Frances Russell, treasurer; Nancy Catlin, assistant corresponding secretary; Barbara Child, recording secretary; Susan Goldstein, chaplin; Mary Towne, song leader; Virginia Rossee, Senior Pan-Hellenic representative; Judy Lawson, Junior Pan-Hellenic; Donna Newhall, Rushing chairman; Judy Lawson, assistant rushing chairman; Jean Goodwin, social chairman; Patti Rule, Lyre editor; Marilyn Beer, historian; Beverly Sorenson, warden; Susan Goldstein, assistant warden; Liz Curtis, activities chairman; Betty Slayton, publicity chairman; Henrietta Donnelly, scholarship chairman.

Delta Psi

After a week of Pleasant initiations 11 pledges of Delta Psi were brothered up during a formal ceremony on Monday evening May 2. They are as follows: Carl Carlson, '58, Stowe, Vt.; Don Carpenter, '58, Mountain Lakes, N.J.; Maurice Chevalier, '57, St. Albans, Vt.; Bruce Ferguson, '56, Lancaster, N.H.; Neil Hall, '58, Burlington, Vt.; Roger Piper, '58, Schenectady, N.Y.; Larry Scofield, '58, Stamford, Conn.; Dick Spear, '58, New York City; Mike Turanski, '58, Rochester, N.Y.; Russell Wagner, '57, Dunellen, N.J.; John Webster, '58, Orleans, Vt.

The solemn part of the ceremony came with the awarding of the Delta Psi scarlet (purple) hearts to 3 brave members of Delta Psi athletic teams. Red Towle received his scarlet heart for torn ligaments received in an interfraternity basketball game. Jim Laraway received his award for broken legs while fearlessly combating the ski slopes in preparation for the 1956 interfraternity ski meet. "Battling" Bill Balfrey received his scarlet heart on his hospital bed shortly after breaking his leg on first base in his last interfraternity softball game.

The DELTS held their annual spring formal on May 6. House steward, John O'Connor, had a hardy buffet supper prepared for the merry-makers. Social chairman, Jack McAuley, had the house decorated in fine shape and the entertainment rolling all throughout the evening. The orchestra was "Phil's Sophisticated Five". The boys in the band spent the evening drifting along lazy melodies and sparking hopped up be-bob.

The following day everyone went to the Champlain Club for the fraternity picnic.

The weekend was considered a colossal success.

Alpha Delta Pi

The Alpha Delts held their spring formal on Friday night, April 29, at their home on South Willard St. The Catamounts furnished music for dancing. Chaperones were Miss Catherine Wilcox, Mr. and Mrs. Jack Trevethick and Mr. and Mrs. R. N. Searles. Jane Van Susen, '57, from Glens Falls, N.Y., was chairman of the dance.

Gamma Phi Beta

Nancy Meyer, '58, was pledged to Gamma Phi on April 25. Nancy is from Harrison, N.Y. The Gamma Phi's honored their mothers this past weekend in the third such event to be held by the sorority. Mothers arrived on campus Saturday afternoon. They met at 5 for a business session and then attended a dinner in their honor. Following dinner slides of the sororities activities were shown at the chapter house. Sunday morning mothers and daughters attended church services. Dinner was served and each mother was presented with a corsage. Mrs. Christine Frost, housemother was presented a bouquet of flowers honoring her birthday and anniversary.

On June 11 the alum group will put on a June spread for the graduating seniors and their families. Tea will be served in the afternoon.

Delta Delta Delta

On Sunday, May 1, Tri Delt held its annual Butterfly Breakfast. The money raised was put into the sorority scholarship fund. There was a good attendance and a good time was had by all. The menu consisted of juice, waffles and maple syrup, and coffee. Three Junior Beauties were Tri Delts -- Lee McBride, Carol Coen and Jane Carlough. Shirley Behrene was chairman of the Tri Delt's second place float. Tri Delt's elected to honoraries this spring were: Ann Harriman, Mortar Board; Bobbie Baker, Beverly Cameron, and Lynn Eger to Staff and Sandal; and Freddy Hill and Mary Lou Reedy to Sophomore Aides.

On Friday, April 29 the spring formal was held at Oakledge Manor. The Kappa Sig band provided music. Kathy Oram, social chairman, was in charge of the dance.

Alpha Epsilon Phi

On April 30 the AEPhi's held their annual spring formal at Happy Acres. Supper was served and dancing followed to the music of Norm Lennah. Chaperones were Dr. and Mrs. Schwartz and Dr. and Mrs. Torch. Guests were Mrs. Jessie Child, housemother; Miss Catherine Nulty, faculty advisor and Mr. and Mrs. H. Abraham. An enjoyable evening was had by all.

Two AEPhi's, Lenore Weinstein and Peggy Richter were recently initiated into Sophomore Aides.

On Wednesday evening, May 11, Miss Catherine Nulty, AEPhi faculty advisor, was honored by the AEPhi's. Miss Nulty is retiring as faculty advisor of the sorority and from the university faculty this June. After dinner a tea was held attended by faculty and housemothers. The AEPhi's have established a Catherine C. Nulty Scholarship Award in her honor. The award will be presented each year in the fall to the soror who achieved the highest average in the preceding year. The Alpha Epsilon Phi's want to take this opportunity to thank Miss Nulty for her guidance. We have appreciated everything she has done for us and we shall miss her.

On Sunday, May 15 a lawn party was held at the AEPhi house in honor of Dean Anna Rankin Harris.

Music Recital Sunday May 22

The Department of Music of the University of Vermont announces a recital by students of voice, violin, and piano in the Fleming Museum Auditorium, Sunday, May 22 at 8:15 p.m.

The following students will participate: Nicholas Brown, Frank Carr, Patricia Cheney, Helen Chicoine, Marlene Goodenough, Beatrice Hughes, Louise Lewis, Joan Nuceder, Karl Raab, Alayne Tomlinson, Kenneth Vanderbilt, and Maurice Villemaire.

The recital is free and public.

On Campus with Max Shulman

(Author of "Barefoot Boy With Cheek," etc.)

THE GREAT CAP and GOWN CONTROVERSY

The cap and gown season is upon us, and with it comes the perennial question: which side of the cap should the tassel hang on?

This is an argument that arises every year to roil the academic world, and it is, alas, no closer to solution today than it was in 1604 when Fred Tassel invented the troublesome ornament.

Fred Tassel, incidentally, never made a penny from his invention. The sad fact is he never took out a patent on it. This tragic oversight becomes understandable, however, when one considers that patents were not invented till 1851 by Fred Patent, himself a pitiable figure. A compulsive handwasher, he died in his fourteenth year, leaving behind a wife and five spotless children.

But I digress. We were discussing which side of the cap the tassel should hang on.

For many years the universally accepted practice was to hang the tassel over the front of the cap. This practice was abandoned in 1942 when the entire graduating class of Northwestern University, blinded by tassels hanging in their eyes, made a wrong turn during commencement exercises and ended up at the Great Lakes Training Center where, all unwitting, they were inducted into the Navy for five year hitches.

There is one school of thought—large and growing daily larger—which holds that the tassel should be worn on the same side you carry your Philip Morris cigarettes. Thus a quick glance will show you where your Philip Morris are and save much time and fumbling.

This makes a good deal of sense because when one wants a Philip Morris, one wants one with a minimum of delay. One does not relish being kept, even for a second, from the clean, delicate flavor of Philip Morris, so artfully blended, so subtly concocted to please the keen and alert taste buds of young smokers. One chafes at any obstacle, however small, that is put in the way of enjoying this most edifying of cigarettes, so pleasing to the perceptive palate. Here, in king size or regular, at prices that do no violence to the slimmest of budgets, is a firm white cylinder of balm and pure, abiding content.

There is another group, small but vocal, that insists the tassel should hang over the back of the cap. The tassel, they say, is a symbol like the bullfighter's pigtail, signifying honor and courage.

They are wrong. Bullfighters wear pigtails for only one reason: to keep the backs of their necks warm. Do you have any idea what a draft a bull makes when he rushes past you? A plenty big one, you may be sure.

In fact, upper respiratory infections, contracted in the wake of passing bulls, are the largest single cause of bullring fatalities. I have this interesting statistic from the Bullfighters Mutual Life Insurance Company of Hartford, Connecticut, one of the few insurance companies in Hartford, Connecticut, which writes insurance exclusively for bullfighters. Incidentally, Hartford, the insurance capital of America, is a most interesting city and well worth a visit if you are ever in New England, as northeastern United States is, for some reason, called. Hartford can be reached by bus, train, plane, and the Humboldt Current. Try to make your visit in spring, when the actuaries are in bloom.

But I digress. We were talking about what side to wear the tassel on. An ingenious solution to this troubling problem was proposed a few years ago by Fred Sigafoos, perhaps better known as "The Quoit King of Delaware." An early forbear of Mr. Sigafoos, Humboldt Sigafoos (who later invented the current which bears his name) was granted a monopoly by King George III on all quoits manufactured in Delaware. Somehow the royal appointment was never rescinded and from that day to this, every quoit made in Delaware has been a Sigafoos Quoit.

Well, sir, Fred Sigafoos once suggested that an equitable settlement to the great tassel controversy would be to starch the tassels so they stood upright and hung on no side of the cap at all. Mr. Sigafoos was, of course, only seeking to broaden his market, because after graduation, what can you do with an upright tassel but hurl quoits at it?

©Max Shulman, 1955

The makers of PHILIP MORRIS who bring you this column make no recommendation about what side to hang the tassel on. But with cigarettes they say: Stay on the gentle, tasty, vintage side—with PHILIP MORRIS, of course.

UVM Clippings

News Of Faculty And Staff

PREPARED BY PUBLIC RELATIONS STAFF

EXAMS - COMMENCEMENT

Final examinations are scheduled to get underway on Friday, May 27, with Commencement set for Sunday, June 12. The June calendar, published with this, the last issue of Clippings for this college year, offers the schedule for Class Day and Senior Week activities.

AUSTIN INSTITUTE

The Honorable Carl McCardle, assistant secretary of state, will be the opening speaker for this year's Warren R. Austin Institute in World Understanding program, Lyman Rowell announces.

Mr. McCardle will speak at UVM on July 11 on the topic: "A Review of the United Nations Charter." His lecture, the first in this year's program on the theme "The United Nations After Ten Years," will be public.

The Institute is in its second year.

Topics for the three speakers to follow Mr. McCardle will include "The United Nations and Dependent Areas," "Arms and the United Nations," and "The Security Council Deadlock."

WALL STREET COURSE

UVM's fifth annual "Wall Street" course, entitled The Economics of Capital Formation, has been given publicity in two business publications, Philipp Lohman reports.

The course will be held in New York City from June 20 through July 29.

SUMMER SESSIONS

Summer-minded students will have their choice of four different sessions at UVM during June, July and August. The first, an eight-week's session commences on June 20. The regular six-week's session opens on July 5. Two three-week's sessions are also scheduled, from July 5-27, and from July 28 - Aug. 17.

In addition, a number of workshops, institutes and clinics will be offered.

RETIRING MEMBERS

Six members of the University family will be retiring this year. They are Miriam Marston, Catherine Nulty, Florance King, Elizabeth Kundert, Fred Carpenter and Leon Dean.

Meetings

UNIVERSITY CLUB

The University Club will meet Friday evening, May 20, at 8 p.m., in the Faculty Lounge.

BASEBALL

The freshman baseball team will be at home to Dartmouth at 1:30 p.m. on Saturday, May 21 and to Lyndon Teachers at 4:30 Monday, May 23.

The varsity baseball team will be at home to Middlebury at 4 on Wednesday, May 25 and to Dartmouth at 8:15, Saturday, May 28.

Faculty Notes

Dean George Wolf was one of 11 medical educators to testify before a recent United States Senate committee considering a proposed bill which would make up to $3,025,000 available to individual medical colleges for construction of medical education and research facilities.

Also submitted to the hearing was a "general statement of the place of the medical college in the total economy and administration of Vermont" by Gov. Joseph B. Johnson.

The Senate bill would appropriate money on a two-to-one matching basis, with the stipulation that each medical college receiving funds would increase its enrollment by five percent. The bill provides that 20 percent of the amount received could be set aside for endowment for maintenance. Up to $25,000 of the total figure could be used to meet architect and other planning costs.

The bill has strong support from the country's medical colleges, according to Dean Wolf, who reports that the Senate committee reaction "seemed favorable."

Dean John Kent, Samuel Bogorad and James Marvin represented UVM at the annual meeting of the Graduate College Association of New England held at Wesleyan University, April 29-30.

Dean Kent also represented UVM at the annual meeting of the Managing Committee of the American School of Classical Studies at Athens, held in New York City on May 14.

• • • • •

Philipp Lohman has been invited to serve on the Education-Industry Advisory Committee of the Lincoln Educational Foundation, Inc., a foundation which seeks the backing of both education and industry for organizing, providing and fostering courses of instruction in the industrial history of America.

Mr. Lohman is one of 14 college and university representatives on the committee which is also made up of 14 business-industry representatives.

He also conducted a seminar on credit for a group of credit managers at the recent meeting of the American Management Association in the Palmer House in Chicago, and attended the annual Twin State Business Roundtable held at the Tuck School at Dartmouth under the joint sponsorship of the New Hampshire Manufacturers Association and the Associated Industries of Vermont. Next year, this Roundtable will be held at UVM, Mr. Lohman reports.

James Chaplin has had a letter from Heinz Ansbacher which follows in part.

"The vacation ended with a conference in Berlin arranged by the Fulbright Commission for its grantees. This was our most memorable experience so far, in that in Berlin one is completely free to travel by subway to the Eastern Sector of the city. East and West meet here as on a classroom demonstration basis. The difference is enormous. West Berlin is busy, modern, and largely rebuilt or in the process of being rebuilt. East Berlin is dead, the people seem to drag themselves along in the streets, entire areas are flat, existing buildings are drab and all in need of being refurbished. With one exception we did not see any new construction. This exception is the area of the Stalin Allee where the German Democratic Republic attempted to build a showpiece. It is in many ways more shocking than the run-down or destroyed parts, because it is not a sincere attempt to provide modern housing where it is so badly needed, but a senselessly pompous gesture to give an impression of might and grandeur at any price. It reminds one of the early large apartment buildings in New York where elements of styles from all periods were thrown together to satisfy the taste of the nouveaux riches. In one of the buildings we went to a cafe on the top, the 13th, floor from where one had a grand view of the desolation all around. The place, like everything else, is run by a government agency. It was only opened about a year ago and well enough arranged and conceived. But the waitresses were unattractive and sloppy, tables and floors were dirty - all quite in contrast to what one finds in the Western Sector and quite in contrast to what one generally considers typical of the Germans. Altogether it's amazing how much East Berlin has become like what one imagines Russia to be. The automobiles are museum pieces; the stores are few and unattractive; one often sees women do heavy work; the famous Volkspolizei consists of pitiful youngsters in ill fitting uniforms; and everywhere there are propaganda posters calling for more work and the defense of the homeland. Whenever we were with somebody unobserved, he started to complain bitterly. One taxi driver told us that he would prefer a war to the continuation of the present conditions. When we went a little deeper into the subject, it turned out, however, that he thought that Berlin would remain relatively unharmed in the next war because it was no longer interesting as a target. It was a great lesson to have been in the East when one only looks at the surface, because one cannot imagine otherwise how sad and frustrating life there must be. And it was a great relief to return to the West."

HEY DROODLE BUGS! HERE'S ANOTHER BATCH!

WHAT'S THIS? For solution see paragraph below.

YOU GET A GOOD CLOSE-UP of college smokers' preference for Luckies in the Droodle at right, captioned: Lucky Strike column in a college cigarette-vending machine. On campuses all over America, college students *automatically* get Luckies. Why? Simply because Luckies taste better. They taste better, first of all, because Lucky Strike means fine tobacco. Then that tobacco is *toasted* to taste better. "*It's Toasted*"—the famous Lucky Strike process—tones up Luckies' good-tasting tobacco to make it taste even better . . . cleaner, fresher, smoother. Next time it's light-up time, why don't you *pull* for Luckies?

Vermont Tracksters Trounce Norwich 100-35

Our Track Team In Action

Did You See A Home Meet?

Damon Shatters 2 Mile Mar
For Second 1955 Recor

On May 10th the Vermont track team crushed the Norwich Cadets by the score of 100-35. The Cats had thirteen first places contrasted to Norwich which had two first places. The UVM cindermen swept four events. The 440 yard dash was won by Stephens of Vermont who was followed across the line by Blank and Wadley also of Vermont. Larry Damon and John Fitzpatrick were both clocked in 4:41.2 in the mile while Grady captured third place. Paul Harasimowics took the shot put with Doornbosch and Hill right behind him. Then Doornbosch captured the discus with Harasimowics and Hilk taking second and third.

Larry Damon set a new 2 mile record by running his specialty in 9:49.4. This broke the old record which was set by C. Hunter by more than 4 seconds. As will be remembered by some readers, Damon also broke the UVM 1 mile record on May 4th against Union. It seems a shame that there are no more distance records for Larry to break at UVM.

There were four double winners for the Catamounts. John Osuch captured the 100 yard dash in 10.4 seconds and took the 220 yard dash in 22.7 seconds. John has become the top sprinter for Archie Post's team. Captain Clint Thompson continued with his double wins as he took the 120 high hurdles in 15.6 seconds and the 220 low hurdles in 26.2 seconds.

Ron Doornbosch, t
Cats top weight man took t
hammer throw with a toss

As I See It

BY Ed Willard

Comes the last of the year and we summarize in the usual fashion the UVM sports year. We've got quite a lot to sum up. We've had teams with excellent, good and mediocre records. We could analyse them all for you but nothing new would enter the scene that you hadn't already heard or known.

The football team was excellent. Just three points separated them from an undefeated season. The basketball team had its ups and downs and ended the season with the poorest record in recent years. Fuzzy Evans had to do, and did, a big rebuilding job. Baseball is going great guns at the time this is written. The Lapointe men are headed for a possible NCAA tourney bid. Track has done very well in its own level of competition. All the so called "minor sports" have had successful seasons.

We've disposed of that in a hurry. It seems as if there must be something else that we can talk about. Oh yes! There's the Pep Committee. The Pep Committee is still on campus isn't it? A lot has been done by Mr. Sleepy" Hill and the members of this committee. Their object has been, to coin a phrase, to create a healthy athletic attitude in the UVM student. "Sober Saturday" hit the Vermont campus last fall as the result of all this. We found out that external cheer in the form of exciting football could keep us as warm and excited as various internal stimulants. The cheerleaders got awfully discouraged at times. One even quit she was so discouraged. But progress was made.

Toward the end of the football season, a new arrival entered the scene; the Catamount. It seems that the personification of the school animal adds much to the spirit of an attending audience. It did here!

Then came winter. The spirit at basketball games lagged badly after the first losses. The cheerleaders made a fine four or five voice chorus as they tried to drum up some noise in the Auditorium. This spring, the trend continues. Very few fans have "braved" the long walk of two blocks to Centennial Field to see our fine hustling baseball team or our good track team.

All told, it must be pretty discouraging to those on the Pep Committee who have tried throughout the year tp help things. The low point to me was the Maine football game where I heard an amazed announcer from Maine say I can't understand it folks; these people just aren't cheering" to a high point, one liquorless Saturday later when a big throng pulled the Catamounts through to a victory over UMass.

That wraps it up. Some people have appreciated the work of the Committee. Athletic Director Ed. Donnelly mentions the good work they've done almost every time I see him. Our coaches and players in general have been lavish in praise of the work of the Pep Committee. I'd like to express my appreciation and add it to that of the all too small group on this campus who realize that good school spirit is a prerequisite of good school athletics.

There's an old saying, "You can lead a horse to water but you can't make him drink." The Pep Committee has done a great job of leading us to water. . . . . .

Phi Sig Tops TEP IFC Champs

Scoring 5 runs in the last inning, Phi Sigma Delta edged TEP, last Thursday, to take the Fraternity Softball Championship, 17- 15. Earlier in the week TEP beat Kappa Sigma and Phi Sig beat Phi Delta Theta to gain the finals.

In the finals, Phi Sig started the game by scoring 6 runs in the top of the first inning. TEP came back by scoring one run in the 2nd, 7 in the 3rd, 2 in the 4th and one in the 5th. Meanwhile Phi Sig scored no runs. In the top of the 7th Phi Sig scored four runs with Hal Greenfader hitting a home run to come within one run of TEP. TEP then scored one run in the bottom of the seventh. Phi Sig tied it up in the top of the eighth. In the final inning Phi Sig scored 5 runs to lead. TEP tried vainly to tie the ballgame, but only scored 3 runs bringing the score to 17-15. Pete Greenwald pitched for the winners and Keith Jampolis pitched for the losers. Phi Sig must now meet Wills Hall for the All-Campus championship.

In the semi-finals, TEP beat Kappa Sigma, 16-13. Phi Sig held Phi Delta Theta scoreless to win 5-0.

Second in State Match

On May 11, the UVM golfers finished second to Middlebury in a State Match held at the Burlington Country Club. The Panthers top four men totaled a score of 328, while the best that the Cats could do was 333. St. Michaels finished third with 340 and Norwich last with 368. This is the first year that two State Matches have been held with the idea that one should be medal play and the other match play. UVM and Middlebury tied in match play. UVM scores were "Buzz" Nesbitt 81, Bill King 82, Pete Colodny 84, and Bill Purcell 86.

Larry Damon Finishes Fine Career As Student Athlete

Outstanding Athlete - Larry Damon. Photo by Conant

Next week the undergraduate career of Larry Damon one of UVM's finest and most versatile athletes will come to an end. Since entering Vermont in Sept. 1952, the quiet mild mannered senior has rewritten quite a few of the University's track, cross-country and ski records as well as gaining recognition as both a fine engineering student and a fine boy.

Larry since entering UVM from Burlington High School where he was a three letter man and one of the states top schoolboy skiers has continued to improve in cross-country, skiing and track until now he is recognized as one of Vermont's and New England's most versatile and outstanding athletes.

In his freshman year Larry did not run cross-country due to the fact that he was recovering from an operation he had undergone the previous summer. He did, however, ski as a member of the Varsity Ski team and prompted future greatness by his many very fine performances. Larry achieved this greatness this past winter when he won the NCAA National Intercollegiate ski championship and therefore put himself in line for a berth and finally capping it off by being both the number one man and the captain this past fall.

Larry holds a very unique distinction at UVM by being in addition to a 3 letter man a 2 sport captain. Larry was captain of the cross-country team this fall and in his junior year he was captain of the ski team and this past winter he was co-captain of it with Bill Battles.

Larry is an example of what many people label an "All-American boy" he is an exceptional student as well as an outstanding well conditioned athlete who is both liked and admired by all.

(continued from page ten

The Cats broke into the scoring column once again in the last of the sixth.

Vermont tallied its final marker in the eighth, when Howie Hammer reached first on a fielder's choice; soon moved around to second on a miscue by shortstop Montgomery, Gilbert then drove him home with a base knock to right.

Golfers Place High In New England

Last weekend, the golf team made the finest showing in UVM's history at the New England Intercollegiate Golf Championships at Oakley Country Club, Boston, Mass. The team finished in a tie for '11th place among twenty-five competing teams. Bill King and Bob Botsford shot 74 and 76 respectively to qualify for the match play round. Botsford was eliminated in his first match, but King advanced to the semi-finals where he lost to the eventual winner Paul Butler of Rhode Island, 4 and 3. A bad tee shot at the eleventh hole set the stage for defeat. Bill had won two matches the day before. One was a 1-up 19 hole victory.

This was the first time that two UVM golfers had ever qualified and the second time that a man had gone as far as the semis. The best four scores out of a possible six were added to get the final team score. Other scores were Colodny 85, Nesbitt 86, Purcell 87, and Smith 88. Another note is that UVM finished in a tie for fourth place in the Yankee Conference Division. The University of Massachusetts' top four men, who combined to win team honors, had an average score of 75!

The rich lather wilts the beard, soothes the face and softens the skin in wondrous fashion. At your campus store. $1.25. Makers and distributors for U. S. A., Yardley of London, Inc., New York.

Frosh Hazing At Minimum; Wearing Beanie Mandatory

Every great University has its traditional method of welcoming the Freshmen to its campus. At some schools the freshmen are inconvenienced, at others they are ridiculed, some schools make slaves out of the freshmen for a while, but among all this foolishness UVM stands out for its enlightened policy.

However, that is not to say that Vermont does not have its traditions for Freshmen, Vermont has quite a few of them indeed. The one which every Freshman will notice first is that he is expected to wear his green numeral beanie from the time he gets on campus until the Thanksgiving recess is in effect.

This custom has been retained not so that the Freshmen will be at a disadvantage but rather to help him to recognize his fellow classmates, as well as to aid him in being recognized by members of the University.

Beanies A Rule

Wearing freshman caps on campus is not only a custom, but it is a rule as well. This rule is enforced by the honorary societies and any other upperclassmen who are interested. Every rule must have a punishment if it is broken, inorder to be effective and this is no exception.

It is the traditional punishment of all Freshmen caught without their beanies to be thrown into the fountain in the middle of the green. The annual fountain fight between the Freshmen and the Sophomore men has almost become a tradition in itself.

If there are any Freshmen who do not like wearing their Freshman beanies at the time of the Homecoming Day game they have a chance to break away from this requirement by defeating the Sophomores in the annual cane rush.

In this unique contest a line of canes are laid out on the fifty yard line of Centennial Field. The Sophomores line up on one side of the field, and the Freshmen line up on the other side. The object of the game is to see which side can get the most canes.

At the sound of a gun both sides run forward, and from then on anything can happen, and often has in the past. Last year the Freshmen won, but this year those boys will be the Sophomores, and the competition should be tough.

This may be the roughest struggle between the Sophomores and the Frosh, but the wettest comes a while earlier in the annual hose fight. Here each class is given a hose by the Burlington Fire Department, and the class which washes the other away is counted the winner.

DATES, SOCIAL LIFE NOT ALL BUT HAS PLACE ON CAMPUS

By Peggy Richter

It's a little early in your college career to administer warnings. They come out around October or November. However, it is equally impossible to sit back and say "here's the scope. Go, goils, go."

Freshman Week is going to be a great big ball of fun. Make the most of it kids, it's your only one. And there is nothing like being a freshman girl. Your dinky is your biggest asset, wear it with courage. It is the one time it gets you rides from Redstone to main campus, free of charge. You're new, the young vibrant blood of UVM. The males have been eagerly awaiting you. For freshman boys, this is your best week also. It's the only time you don't have complete upperclass competition. Don't miss your big opportunity!

Avoid Procrastination

However, as in all things, there is a sad note. This glorified week-end is not college. Not by any way, shape, or means. Going out every night is not what you will pay a few thousand dollars for. Most freshmen seem to get the mistaken idea it is your only purpose in college. Don't be one of the many to come through that first bout of hour exams and finals with shocking 60's. Wait 'till you flunk your first course! It is pure, unadulterated hell. And freshmen have the happy faculty of letting just that little mishap occur. We cannot impress upon you enough the necessity of starting in immediately, don't begin the fateful error of putting off. Did you ever hear the nice, big, ten-cent word, "procrastination." Learn what it means right now, and avoid it with a capital A. Make the most of every available minute, for the college day, week and month flies away before you know it. Don't succumb to the constant bridge, nicotine and chatting habit. Date like mad every weekend, study hard during the week and you are off to a grand four years.

Activities

This sounds like an awful lot of don'ts when we want so much to say do. UVM has a lot to offer each and every one of you. If you wish to broaden yourself culturally, join the John Dewey Club or Round Table or if it's writing you aspire to, or a desire to be "in the news," try CYNIC and the Centaur. There are many other worthy organizations on campus, try them, but not too many at once. That is another common freshman error, too many extra-curricular activities and not enough book learn'. Kids, take a good look around now. You have come to a good school, with a fine name.

If, when you walk across the Quad, you watch the thousand other students hurrying to Sci Hall, Waterman or the Old Mill, you will feel the power of our small university home. Enjoy yourselves now and college can be everything you want it to be, so long as books don't get mixed up in the lounge.

HAVE FUN AT COLLEGE BUT STUDIES COME FIRST

By Max G. Ansbacher

This is your first day at college, and you're excited and happy, looking forward to the next four years with anticipation and longing. And yet in the back of every Freshman's mind is a part which is a bit worried, if not a little scared. You're wondering how you will do, if you will make the grade academically, socially, and if you will really be as happy away from home as you hope. This article is an attempt to answer your questions.

Even before classes begin you will be given so-called helpful advise on your classes. My advice to you is not to believe a thing you hear. Everyone who has been here for a year likes to show his superiority over the Freshmen by telling them about how hard the courses are. Look at the upperclassmen, and then say to yourself, "If they can get through, then certainly I can."

Why Students Gossip

Teachers are an even more popular subject for gossip than courses. The only advice you ought to believe is that a student who got a high grade in a course and says the teacher is good, or one who got a low mark and says that the teacher is good. My guess is that you won't find anyone either of these groups. Remember that it is a law of human nature that a student doesn't blame himself for flunking, but condemns the prof for not teaching him enough to pass. From this it follows that in any course in which a student gets a low mark, the teacher must be poor. However, I'm sure you're smart enough not to fall for this line.

To sum up what I've said about the academic worries: Don't worry about what the students tell you, either they're only out to make an impression, or they want to white-wash themselves by blaming the prof.

Percentage Doesn't Tell

Secondly it is true that in some courses about half of the Freshmen flunk. So, what? About 50% of the population is female, but that doesn't mean that you can't be a boy. The point I'm making is that what the other people in the class do, bears no indication whatsoever of what YOU will do. Keep this in mind, and have a better chance of keeping a good average.

You may be even more worried about how you'll fit into other campus affairs. Will I get into a frat, will I have dates? Are my clothes good enough? How about my looks? Personality? Background?

You can dismiss all of the last questions from your mind. Everybody fits in at UVM. Believe me, we have all kinds here, and unless you're really abnormal you'll find people here with your means and interests who will become close friends.

Dating

Let's deal with the girls first. No matter what you are, the University can practically guarantee you dates for the first month. The reason is that it is a fad among boys of all classes to take out freshman girls for the beginning of the school year. This so called "frosh rush" will give you a chance to meet many boys. If you don't continue to have dates throughout the year, it's your fault, and not that of the system. So relax, and get ready for a wonderful round of fun!

The picture for boys is quite different. The very fact that Freshman girls date boys from every class makes it a little difficult for the Freshman boys sometimes. You do have an exclusive advantage for these few days of Freshman Week, so get busy and make the best of it.

Spin That Dial

As the year goes on you'll find that things are probably a bit more formal than they were at school. For a formal or big weekend you've got to get the invitation out about two weeks in advance, and the proper time to ask a girl for Saturday night is Monday, or I'm told, by some, as early as Sunday. Above all, don't be discouraged if one girl is busy. If you want a date, you should be prepared to call at least four. Dates with local girls and Sophomores are a good trick if you can get them.

It's Up To You

I hope that this article has been able to answer some of the questions which you have in mind, and to still some of your apprehensions. I'm not going to conclude by saying that you're all set for a terrific four years, because that depends entirely upon you. But if you try, you can make these next four years the greatest in your life.

Watch Pennies Was Slogan In Earlier Years

If you went to UVM in the early nineteenth century, you literally had to watch your pennies. Many a student today does the same thing, but the term "penny" is used more loosely, perhaps.

When in the early 1820's a group of students organized the school's first eating club, members were assessed ninety cents a week for board (three square meals, seven days a week, apparently). They brought produce from their farms, and were credited with various amounts, according to prevailing retail prices, against their quarter's board bill. One boy was credited with $2 for "the use of a cow" for the quarter. Apparently Bossy roamed the College green when she wasn't providing milk for the cooperative eating club. Another boy was credited with twenty-five cents for bringing vegetable seeds to plant in proper season.

A neat little book of accounts kept by the Rev. Daniel Clarke Sanders, first president of UVM, was examined last year by Sheila Fay of Staff and Sandal. She found that each student paid twelve dollars a year tuition, but he had to look sharp or he might run into other expenses. A sophomore was fined one dollar for damages done to "the college edifice" by rolling stones in the hall of the third story. There were three fines of twenty-five cents each for playing ball in the College hall, and five fines of fifty cents each for burning the College fence.

EDITORIAL

Welcome Freshmen! On behalf of the CYNIC and the University we would like to welcome you to your first year at college. We don't want to repeat the same speeches that you have heard, and will hear during this trying period. Nevertheless we would like to welcome you to UVM and wish you every success for the years ahead.

There is very little we can give in the way of advice. Of course you will want to balance your time between studies and fun. But remember, studies come first. Let us caution you about joining too many extra-curricular activities for your first year; it is always difficult to find just how much you can take in your stride without becoming a burden.

We want to assure you the administration and faculty have a great interest in you and stand ready to help you in any way possible. Feel free to discuss problems with them. You will also find your advisor very useful, though most students quickly find a teacher they have confidence in and get advice from that source.

It is only natural that so many people are concerned about your welfare, because you are the graduating seniors of tomorrow. You will represent our University in the future, so we want to do all that we can for you now.

This editorial may also serve to introduce the CYNIC to you. This is a greatly abbreviated issue, but we felt we wanted to include our sincere welcome with the many awaiting you here.

The CYNIC is the official student publication and tries its best to represent the student body. Like all student endeavors we need student participation. All of you who are interested in any aspect of newspaper work are invited to drop into the CYNIC office - Room 139 Waterman - and choose whatever field interests you most. We will hold an informal get-together soon.

Well, that's about all we have to say. Freshman Orientation isn't as bad as it seems, and soon regular classes will begin. Then you will be official students and can really start to feel a part of this University.

Once again we wish you the best of luck.

What Is Dorm Life Like?
Franny Frosh Tells All

By Frances Raphael

A big question and one of the most important ones that weighs on the mind of a prospective woman student is what it will be like to live away from home in a dormitory with a group of girls she has never met. Franny Frosh was no exception and, when the time came for her to go to college, these same questions occupied her thoughts. She had decided to go to college away from home in order that she might gain the experience of dormitory life. But what exactly was dormitory life? Since she was not able to attend the High School Day, she had to wait to find out until that big moment when she first entered Coolidge Hall, UVM as a green and eager Freshman.

Franny arrived before her roommate and thus, with the help of her mother was able to just about squeeze her clothes into the space alotted for them before Uvie Emme, her roommate, arrived. The girl across the hall was unpacking also, and between crys of "I still have two formals to put in the closet" and "Why did I ever bring so many clothes?" a fast friendship was begun. On seeing the door to her room open, girls who had already finished their unpacking or upperclassmen serving on the Orientation Committee began dropping in to get acquainted with Franny. She was sure she would never remember everyone's names.

That evening Franny attended her first House Meeting. The purpose of this meeting was to explain the rules that the women's Student Government Association had formed to facilitate dorm living. The hours by which she and her classmates had to be in, the procedure of signing out whenever she would be out of the dorm after eight o'clock in the evening, the hours when she could entertain men in the dorm and the rules concerning dress and smoking were among those that were explained. It all seemed very new and different to Franny but before long she had fallen into the routine and signing out became second nature to her.

By the time classes began, Franny had become friendly with most of the girls on her floor. Since she lived in a large dorm, it would take time before she knew everyone, but that day finally did arrive. Before long she and Uvie had decorated their room and they swelled with pride whenever anyone said "Boy, your room sure looks nice." With the coming of classes, Franny observed a transformation in dorm living. Quiet hours were explained and enforced. She learned about proctoring and soon it was her turn to answer the telephone, the doorbell and enforce quiet hours. Dorm life was growing into community living. The dorm was her community and it was her duty and the duty of the other citizens to cooperate in order to make their dorm a better place in which to live.

In looking over her dorm life experience, Franny finds many things which stand out in her mind. One of the important parts of living in the dorm was the wonderful and diverse group of friends she made. The fact that she, from a suburb of New York City, became the best friend of a girl from a small Vermont farm proved to her that dorm life was an experience she would never forget. She loved the informal bull sessions whose topics would range from Saturday night dates to world shaking problems. The exchange of ideas with girls from backgrounds far removed from her own, made Franny realize that basically we are all the same. There is no better lesson of brotherhood than living in a dorm.

Franny also remembers the light side of dorm life. That wonderful surprise birthday party which her roommate gave for her, the perpetual bridge game which was always in session in the smoker and the many "Hi! Come on in" greetings which welcomed her as she walked down the hall will never be forgotten.

To you prospective students who are eager to learn what college holds for you, Franny Frosh has this to say. "You will be coming to college to learn -- to learn the wisdom of the past, to learn to think, and to learn to live in the world as a happy and productive citizen. Your education will take place both within and out of the classroom. Dorm life is an important part of this education, for it is within the dorm that you are experiencing the practical aspects of comminuty living. Whether you live in a dorm or a sorority house the feeling is the same -- living with a group of girls on a college campus is a unique and wonderful experience."

I was last years leader of the "down with beanies" movement.

Poinig's Postscript

By Wolfe

O.K. you frosh, roll out of those sacks! Get on your feet and move out! You're not home now; high school is in the past; in case you don't know it, this is COLLEGE! Me? I'm just a poor slob spending his third year as a freshman. Follow me and you too can flunk out.

I guess by now you all have been given schedules for the coming week listing tests, meetings, exams, parties, tests, receptions, exams, dances, tests, and one or two exams. Well kids, you are no longer home - you are now independent and on your own. Do what you please, forget about home.

Now that we have taken care of that burden, lean back and relax for the next four years. The first thing you must do is get rid of that infernal Freshman Week Program. You can't start off by being tied down. Besides there isn't much there of real interest.

The Best!

As college people, you want to meet other kids (especially those of the opposite sex), learn who has cars, find out the best beer to drink, best clothes to wear, easiest courses to take, which fraternity or sorority is best, and, of course, the better down-town night spots. Stick with me, frosh, and we'll have a great time. Remember kids, you are now college men and women!

Last year, my second as a frosh, an upperclassman told me to wear my beanie at all times. Rather than start a fist fight, I succumbed to this ludicrous tradition. College life is full of these traditions, but we must put up with them for a while. So as to bend a bit, but only to appease the upperclassmen, we shall keep them on.

Listen, frosh, for the clue about these exams. Actually they mean nothing and are given only to fill up some spare time. God, but they're high schoolish! When the weather is good, just cut and go to the beach with a date. That's the real college ticket. Besides, if you do well on these exams they only put you in an advanced course and that's only asking for work.

Style!

Another important college matter is the art of being "shoo," "nubby," "Clubby," or whatever you call it. The bit is to be dressed so "Joe College" that you make Jack Armstrong look like a Bowery Boy. One button, blue pin stripe, long drape, 10" pegpant suits are once more back in style on most eastern collegiate campii. Also, I seem to have noticed that discriminating freshman males prefer black broadcloth button-down shirts and lavender ties - don't forget the blue suede shoes. Not being too familiar with the female styles, I can only suggest certain ads appearing in "Cue," "Confidential," and other leading fashion magazines.

One of the greatest misfortunes of one's college career is the ownership of an ID card. All students are issued cards with their names, date of birth, and picture enclosed in plastic. The administration insists that it is for admittance to athletic events. Actually, it is to prevent students under 21 from buying beer and liquor. The plastic encasement makes it all but impossible to forge. Of course, this has led to a great amount of home brew and rum running from Plattsburg; things are really tough if you are underage. Incidentally, for $5 I can get you a card with your age listed as 23.

Well frosh, this is a picture of your first week at UVM. Make the most of it before you get snowed under with work. With a little luck and effort, you could be a frosh again next year like me. Just remember though, for a little peace, "Square that Beanie!"

UVM Offers Varied Sports Program

Football Team Has Its Best Season

If one must look for the starting point of college spirit, one must first gaze at the athletic fields. These are the places where the students really get out and cheer their school. Not one freshman will feel quite the same as when the band plays "Let's fight for Vermont" at the first game. When the ball is put into play you will find yourself yelling not only for the team, but for UVM as well. For the next four years, this will be your school, your team, your unifing link with real college spirit.

At UVM, we pride ourselves with the simple, true, amature sports program that we carry. Look around and you will begin to notice that there are no athletes with cars or homes provided by the university. Sure we are looking for the best, but the best have to be bought or given strong inducement. UVM can not offer much more than a good education, but what do we come to college for?

When you frosh become upperclassmen, look around your classroom. You will see the athletes sitting right with you. There is no way for them to get special training without attending and contracting regular courses. The university does not prescribe to special courses for ball players as some schools do. We try to stick to the rules of amature athletics.

This lack of professionalism carried UVM to its best football season last fall, in many years. After a shaky start with a tie to Union and a heartbreaking loss to Maine, we went undefeated in our next five games. Ed Donnelly's team posted a 5-1-1 record, won the state championship, and scored 170 points to their opponents 92. This year's team will be led by Ed Beck who was All-New England and All-Yankee Conference right half back last year.

A quick shift to the basketball scene found things not too bright. The Catamounts were troubled by lack of heighth and meeting too many good teams. Although Fuzzy Evans' boys only showed a 7-13 record, it was good enough to give us second in the Yankee Conference. Also, Earl Steinman, who graduated last year, found a berth on the second string of the All-Yankee Conference five. Last year was a good year to show the team's sophomores and they should be ready this year as juniors, to help the team led by Bill King.

We, as the student body, must help our teams in both winning and losing seasons. The only way this can be done is to get out and not only watch the games, but shout your heads off for your classmates, the athletes.

UNIVERSITY OF VERMONT AND STATE AGRICULTURAL COLLEGE

VOL. 73 BURLINGTON, VERMONT SEPTEMBER 22, 1955 NO. 12

Cheating Violates Principles, Codes Of UVM, Says Council

Stealing copies of final examinations and using them in violation of University regulations caused five students to be expelled by the University Council last spring. Two other students less directly involved were suspended for a minimum of one year.

This action followed an investigation by the members of the student court. The investigation was conducted quietly in spite of rumors spread across the campus which found their way into print in state newspapers.

The University has never released the names of the students.

In commenting on the Council's action, President Carl W. Borgmann said, that the University regretted having to announce this kind of news. However, because of those students who initiated the investigation and those who gave their cooperation to the student court, "We are hopeful that we shall not again have occasion to announce news of this kind which does not tell the story of the far greater number of students who serve the University and themselves with honor."

In announcing the dismissals the University called attention to the fact that dismissal is the severest disciplinary action the University can take. Except in rare cases, students who are dismissed are not re-admitted to the University, and their records, which, would be requested by any other college or university where they might apply, will carry the information that they have been dismissed from UVM.

In making the decision to dismiss the students, the Council made it clear that it did not take this action merely to punish or to set an example for supposed would-be offenders.

Rather, the Council was guided in its deliberation by the responsibility to make it clear that the action of the seven was so completely in violation of the University principles that the University had no choice but to dismiss and suspend. As it is treason to one's country for a man to profess allegiance to his country while, secretly, he betrays it, so it is treason to one's university to profess to abide by its standards while secretly violating these standards, without which the University and the honors it confers and would cease to have meaning.

Pres. Borgmann Appoints Many To Faculty

President Carl Borgmann announced recently the following appointments to the faculty. The list was not complete at press time.

Dr. James H. Bannon, Clinical Medicine; Dr. Bernard Barney, Clinical Surgery; Dr. John W. Bell, Clinical Surgery; Ross T. Bell, Zoology; Dr. John D. Boardman, Obstetrics; Dr. Richard Bouchard, Medicine; Wilbert F. Chambers, Histology and Embryology; Dr. Robert W. Coon, Pathology; Alan Coutts, Dean of Men; Albert D. Crowell, Physics; Arthur K. Davis, Philosophy; Miss Jean Davison, Philosophy; Dr. Robert L. Driver, Pharmacology; Willard A. Fletcher, History; Joe R. Ginrich, Agronomy; Calvin Hanna, Pharmacology; Morrison Haviland, Director of Libraries; Paul E. Hemp, Agricultural Education; Harold W. Hocker, Jr., Forestry; John J. Hyland, Jr., Economics; Everett T. Keach, Education; Dr. Frederick Klemperer, Clinical Medicine; Dr. Morris W. Lambie, Clinical Medicine; Harry Lighthall, Jr., Mathematics; Lt. Edwin G. Logan, Military Dept.; Chauncey C. Loomis, Jr., English; Paul Low, Electrical Engineering; Miss Marguerite McNeil, Education; Dr. Clare Marshall,

Dr. Charlotte Whitton Opens University Convocation

Emphasize Honor And Mind To Work Says Her Worship

Ottawa's Mayor Whitton

Her worship, Dr. Charlotte Whitton, C.B.E., told the members of the University at the opening convocation last week, "Be you armed with the *mind to work* and the *sword* of honour as you fashion the fabric of this land that God and your fathers have given you."

Using the allegory of the "young man Absolam" from the *Bible*, Her Worship said that if one could not answer that the young man (honour) was safe, then "it would be better for us, like him, to be caught up to death itself in the scheming and deceit of our own dishonour."

Jefferson On Honour

The speech contained many references to American and especially early Vermont history. Her Worship continued the discussion of honour by saying, "Your great Thomas Jefferson knew there was no other rule of life for men or nations when he closed the Declaration of Independence with the pledge of Honour, 'We mutually pledge our lives, our fortunes and our sacred honour.'"

President Carl W. Borgmann opened the ceremony with a brief description of the University's development program. He announced that

Lane Series To Present Variety Of World Talent

Some of the world's finest talent will appear in this state under the sponsorship of The University of Vermont during the approaching academic year, as the George Bishop Lane Artists Series presents its inaugural year program of seven outstanding attractions.

The Lane Series is an outgrowth of the Program Series of the UVM Student Association, and was established through the generosity of the late Mrs. George B. Lane of Minneapolis, Minnesota, in memory of her husband, George Bishop Lane, Class of 1883.

Appearing in this order, Vermonters will have the opportunity to attend the Canadian Players Production of "Saint Joan" on October 11, a concert by the world-famous London Philharmonia Orchestra on November 17, an evening with concert comedienne Anna Russell on January 5, the Pearl Lang Dancers with the Julliard Quartet on March 1, a concert by the Vienna Choir Boys on March 20, and a performance by violinist Zino Francescatti with the Vermont Symphony Orchestra on April 9.

The road production of Robert Sherwood's "Tea and Sympathy" which was scheduled for a November 1 appearance has been cancelled due to casting difficulties. The Series' seventh attraction will be another outstanding Broadway production to be announced within a few days.

Tickets for the Lane Series were available to University of Vermont students and faculty members at registration, and will be put on sale to the general public soon. Prices for the events range from four to eight dollars each.

All the presentations will take place in Burlington's Memorial Auditorium, and tickets will be sold for the entire series only.

The expansion of the Series to include major musical, theatrical and other artistic presentations under the Lane

25 Percent More Vermonters Are At UVM This Year

Admissions figures at the University of Vermont indicate that the number of Vermonters attending UVM as new students this year may take a jump of almost 25 percent over the number of Vermonters admitted last year, it was announced today by Harold C. Collins, Director of Admissions at UVM.

Collins indicated that the figures represent the number of freshman and transfer students admitted, and explained that the actual number of students who will attend UVM this fall "will not be known definitely" until after registration.

On the basis of admission figures only, however, Vermonters seem to be headed for a gain over out-of-state residents enrolling at UVM. The breakdown show 820 freshmen admitted compared to last year's admission figure of 696. In addition, 105 transfer students have been admitted for the coming year, a drop from last year's 127 transfers. Total new students admitted for this year is 925, while last year's new students totaled 923. Last year, there were 367 Vermonters admitted as new students against 556 out-of-state new students. This year, the number of Vermonters admitted has jumped to 448 while non-resident admissions have been reduced to 477, Collins states.

If admission figures hold at registration, this will be the largest number of Vermonters to enter UVM since '48 when returning G.I.s swelled UVM's enrollments, according to Collins.

In commenting on the admission figures, UVM President

UVM's Coutts, New Dean Heads New Position

By MAX G. ANSBACHER

"I hope that any student will feel free to come in and have a chat with me." Dean Alan Coutts, the new dean of men, told me recently. "If they don't, I'm afraid I might not see any of the upperclassmen until they've done something wrong."

Dean Alan Coutts getting orientated in his new office.

Friendly, blue-eyed, easy going Dean Coutts certainly doesn't want this to happen. In addition to the usual expected duties of dealing with minor discipline problems, Dean Coutts will also do counselling, deal with men's student aid, take care of placement, part time employment, freshman orientation, class excuses, extra-curricular affairs, and, to top off the list, he is responsible for dealing with all infractions of University parking regulations.

Judging from this list of duties any man should have many good reasons for dropping in to chat.

Active Student Himself

Dean Coutts ought to be able to understand the problems of college students, because he was a very active one himself. Some of his activities at Oregon State College included being night editor of the daily paper, working on the radio station, being in dramatics, and being a member of the varsity swimming team.

Dean Coutts has always been active in dramatics and writing. His thesis play, "Wharf Song" has won a $2,500 prize, and while director of student activities at NYU he started a follies which has continued down to the present, and today is one of the biggest events of the year, corresponding roughly to our Kake Walk.

Favors All-U Dances

Keeping in mind that freshmen won't be able to join fraternities until after the first semester this year, I asked Dean Coutts if he had any ideas on a University social program. He said, "I believe that it is a University's responsibility to make an active social life possible for each of its students. The cafeteria makes such an ideal place for All-University dances that it is a shame that more of them aren't successful."

In the sphere of social activities Dean Coutts said that he was particularly interested in the large group of upperclassmen not in fraternities who lived off campus and had practically lost touch with the school. Dean Coutts would like a program which will bring them back on campus.

New York Pictures

While we were talking I had a chance to look around the office. There on the walls I found instead of the paintings of mountains, snow, and maples

Cinema Art Club To Feature Two Films Sept. 24,5

The Cinema Art Club is a non-profit club interested in bringing to Burlington outstanding films of artistic merit that are not available commercially, and in discussing these films in an informal atmosphere. The club is a member of the American Federation of Cinematographic Societies and is now entering its third year of existence.

The first showing for the 1955-56 season will be on Saturday and Sunday, Sept. 24 and 25, at 8 PM at 75 Bilodeau Court (off East Avenue). The program will be:

1. "Triptych" (12 min.), a Modern Dance composition by the Halprin-Lathrop Dance Theater of San Francisco,
2. "Viennese Symphony" (90 min.), a film in German about the city of Vienna, Austria, showing its architecture and cultural life. Dr. Wilhelm Raab will comment on this film. This program is open to all interested persons.

This year the club will have three kinds of movie programs:

1. Open programs - Programs open to everyone for a charge of 25-50 cents, depending on the state of our treasury at the time.
2. Fleming Museum Previews - Programs featuring films to be shown also at the Fleming Museum. These will be free to members of the Fleming Museum Association; to others, the charge will be fifty cents.
3. Membership only Programs - Programs at which films rented from the Museum of Modern Art will be shown.

(continued on page five)

Billings' Frosh Open House Is Great Success

The Billings Library held a freshman open house for the first time last week. According to Robert Harvey, assistant director in charge of public services, the affair was "definitely a success and will be continued in coming years."

Over 330 students came to see the color movie "Keys to the Library," take a brief tour, and enjoy the refreshments. The movie gave basic information on how to find a book by using the card catalogue, use of reference books and so forth.

Large Turnout Probable

Mr. Harvey termed the response "very good. In fact, we were overwhelmed with people on the second day." He feels that if the movie can be shown more often, future open houses should be able to attract about 75% of the freshman class.

In previous years a member of the library staff has visited each section of freshmen English at the beginning of the year and explained the use of the library. This year, however, the library project will not be started until the freshmen are ready to do their freshman term paper. Because this may not be until late in the year, library officials thought that an open house might attempt to fill in the gap.

Class Of '59 One Of Distinction Says Borgmann

University of Vermont President Carl W. Borgmann extended a welcome to new UVM students at a meeting recently in the Ira Allen Chapel, and said that "the Class of '59 is a class of distinction, first because you have been accepted at UVM, a fine school with great traditions and high academic standards, and second because the Class of '59 is the first to enter UVM since it has become once again 'University of the State of Vermont.'"

First Meeting

Speaking at the first gathering of all the new students to arrive on the Vermont campus for the beginning of Preliminary Days at UVM, President Borgmann told the students that "admission to UVM means that you have been selected because you have the ability to profit from a college education. It remains for each of you," he said, "to apply yourself with honesty to the opportunity which lies before you."

Speaking to "those from other states," the UVM President said that "you are fortunate for having the opportunity to come to know Vermont, her people and her natural beauty. I know, for I am one of you. Become a part of Vermont and what she stands for," he urged.

"You are important to UVM, too, for you make us cosmopolitan and we always hope to provide for out-of-staters the opportunity to share with us the heritage of our University and of Vermont.

"To Vermonters," the UVM President continued, "your special responsibility throughout your years at UVM will be to your neighbors who are sharing with you the cost of your education. There are nearly 100 more of you represented here as new students than were here last year, and it is to you that the people of Vermont look as they turn to the future."

"To all of you - Vermonters and those from other states and countries - I urge you to work hard, with dedication and purpose, and to make personal integrity your guide," Dr. Borgmann concluded.

Construction Begins On New Women's Dorm

Construction for the new $1,800,000 women's dormitory at The University of Vermont has recently begun, it was announced by UVM President Carl W. Borgmann, following a meeting of the Board of Trustees.

The Northern Trust Co., of Chicago offered the lowest interest rate on the project's bond issue, which was guaranteed by the State Legislature this past winter.

The H.B. Cummings Construction Co., of Woodsville, N.H., and the Oullette Plumbing and Heating Co., Inc., of Lewiston, Me., low bidders for the construction and outfitting work, were given the signal to go ahead on the construction of the dormitory, after the Trustees acceptance of the bond issue program.

The new dormitory, which will be located on UVM's Redstone Campus, will house 400 women students and provide dining facilities for 600. Featuring three units connected at the west corners of the main unit, it will have a concrete reinforced frame with brick exterior and steel sash, and will be accoustically treated.

Construction of the women's dormitory has been called "the key" to the UVM Development program recently announced by President Borgmann, since it will enable the University to discontinue using the Old Mill, East Hall, Converse and several scattered small houses to house women students.

Construction work, given the green light by the Trustees' decision, is now under way.

Ag. College Name Includes Home Economics Now

The name of the College of Agriculture of the University of Vermont has been changed to The College of Agriculture and Home Economics, it was announced recently by Dean Joseph E. Carrigan.

Public Relations Announces New Appointments

Three new appointments in the University of Vermont Public Relations Office were announced by UVM President Carl W. Borgmann.

Lawrence E. Van Benthuysen, who has served as an assistant in the office since September, 1953, was named Acting Director of Public Relations, succeeding G.R. Hopwood who resigned recently to take a post as Executive Director of the U.S. Education Foundation in Greece.

Appointed as assistants in public relations were Karl A. Andren and Raymond L. Finehout. All of the appointments were effective July 1.

Andren, the son of the late Karl Andren who was a graduate of the University of Vermont in 1895 and a member of Sigma Phi, holds the B.S. degree from Harvard. He previously attended Middlesex School in Concord, Mass., and during World War II served as a Captain in Field Artillery on the Staff of General Eisenbower at Supreme Headquarters in Europe. He returned to New York City after the war, serving for six years as Manager of Market Research at Warwick and Legler Inc., and Maxon Advertising Agency.

Finehout is the son of the Rev. and Mrs. Raymond E. Finehout of Swanton. He was valedictorian of his class at Swanton High School, and is a member of the UVM graduating class this year. During his undergraduate study at UVM he served as sports editor of the Cynic in his sophomore year, and has served as UVM sports publicist for the past two years. He is a member of Kappa Sigma fraternity.

Van Benthuysen is a graduate of UVM in the Class of '51, and was employed as a reporter by The Burlington Daily News prior to his appointment to UVM in 1953.

There will be a meeting of all organization treasurers in the Student Council Room from 4-5 PM on Sept. 30. Attendance is compulsory.

Trustees Name Dykhuizen Marsh Prof. Of Philosophy

A tradition begun in 1826, when James Marsh was named fifth president of the University of Vermont will be carried on again at UVM after a lapse of 53 years as the Board of Trustees of the University named Prof. George Dykhuizen, chairmen of the department of philosophy and religion at UVM, as Marsh Professor of Intellectual and Moral Philosophy.

Marsh, in addition to serving as president of the University of Vermont from 1826 to 1842, also served as Professor of Intellectual and Moral Philosophy, bringing the work of Samuel Taylor Coleridge into prominence. Julian Lindsay, emeritus professor of English, in his UVM history, "Tradition Looks Forword," relates that "...the Vermont campus through the studies of James Marsh has been called the birthplace of American transcendentalism.'"

Lindsay goes on to say "the whole effect of Marsh's labors was to make the University...the acknowledged source of the most advanced thought of the time in America, though not universally commended in all educational circles."

In 1866, in recognition of Marsh's contribution to the university and to higher education, a committee headed by Matthew H. Buckham solicited the alumni for subscriptions in an effort to raise $100,000 "for the permanent endowment of the professorship, which, from early times, has given character and distinction to the University, that of Intellectual and Moral Philosophy, and to denominate it the 'Marsh Professorship,' after the illustrious Philosopher whose name is held in reverence by every graduate of the University."

The second annual report of the Trustees of the newly organized University of Vermont and State Agricultural College, made in 1867, stated that the "the alumni have subscribed the sum of twenty-five thousand

Prof. George Dykhuizen

dollars to endow the Marsh Professorship of Moral and Intellectual Philosophy."

In 1868, the Rev. H.A.P. Torrey of Vergennes was appointed to the chair. After Torrey's death in 1902, the title "Marsh Professor" was discontinued, and Prof. Lindsay, in a report to the Trustees, writes, "I am unable to find why." Carl Vernon Tower and A. Russel Gifford, who succeeded Prof. Torrey, had the title, Professor of Intellectual and Moral Phisosophy.

"In view of James Marsh's importance in the history of the University," Lindsay's report continues, " and as an obligation to honor the trust established by the subscriptions of loyal alumni of long ago ... I urge that the Trustees be earnestly requested to reinstate the Marsh Professorship and that the chair now held by Professor George Dykhuizen be so designated..."

The Trustees today voted unanimously to reinstate the chair held originally by one of UVM's outstanding educators, and named Prof. Dykhuizen to fill the chair.

Would the boys who stole the laundry from the faculty clothes lines behind Converse Hall last week please return them to Box 24, South Converse.

Coeds And Seniors Win Laurels Again Scholastically

University of Vermont co-eds walked off with the scholastic laurels again, according to figures for the Spring semester released today, continuing their dominance over Vermont men with a 77.96 average. The stronger sex lost out with a 73.81 figure over the same period.

Senior Class Tops

The UVM Recorder's averages showed that Gamma Phi Beta and Phi Sigma Delta paced the sororities and fraternities, while the senior class as usual copped the highest class average.

The gals led the men in all average classifications, with the senior women compiling an 81.63 percentage. The over-all University average was 75.37.

Fraternity & Sorority

A complete listing follows: Sororities - Gamma Phi Beta, 79.79; Alpha Chi Omega, 79.45; Sigma Gamma, 78.88; Delta Delta Delta, 77.14; Alpha Epsilon Phi, 78.74; Pi Beta Phi, 77.98; Kappa Alpha Theta, 77.27; and Alpha Delta Pi, 76.95.

Fraternities - Phi Sigma Delta, 76.75; Tau Epsilon Phi, 76.40; Acacia, 75.76; Sigma Phi, 75.48; Sigma Phi Epsilon, 74.77; Lambda Iota, 74.34; Phi Delta Theta, 73.25; Sigma Alpha Epsilon, 73.21; Sigma Nu, 72.94; Alpha Tau Omega, 72.74; Kappa Sigma, 71.57, Delta Psi, 70.95; Alpha Epsilon Pi, 70.56; and Theta Chi, 70.23.

Senior class, 80.26; Junior class, 77.33; Sophomore class, 74.80; and Freshman class, 71.82.

Faculty And Staff Members Gather In University Club

Faculty and staff members will leave academic and administrative details behind on the evening of Friday, Sept. 30, and on selected evenings throughout the coming college year as they gather together as members of the University Club, a club which has as its purpose "the fostering of social contact among the members."

The Sept. 30 meeting will be the first meeting of the University Club this year, and all faculty and administrative staff members are invited to attend, according to Merton Lamden, associate professor of biochemistry, who is president of the Club. "Ordinarily," he reports, " our meetings will be in the University Club rooms on the third floor of Waterman, but for this meeting we're asking members to bring box lunches to the Cage where we plan entertainment and some square dancing."

The University Club has been meeting since 1948 when another Medical College man, Fred Gallagher, chairman of the department of bacteriology, was elected first president. Affairs of the Club are handled by a Board of Control which includes the officers, the most recent past-president, two members at large, and the chairmen of the standing committees.

Invitations for membership are extended to all officers of administration, instruction and research; to officers of the Experiment Station, the Extension Service, and Related Services; and to all professional and administrative personnel. All eligible persons become members upon payment of dues of $3, including full-fledged membership for husbands and wives of dues-paying members. The first two meetings each year are open to members and non-members, according to Prof. Lamden.

Members have the use of the club rooms, and the University has the free use of the rooms for official functions, as do Phi Beta Kappa, Sigma Xi, The Research Club, and the A.A.U.P. Other organizations and groups may petition for the use of the rooms.

Serving as officers are Prof. Lamden, president; Dean Robert H. Kroepsch, vice-president; Sally Maybury, secretary, and George Clerkin as treasurer. Elbridge C. Jacobs and Eleanor Luse are members at large. Committee chairmen follow: Dean Kroepsch, program; Fred Gallagher, membership; Jack Trevithick, auditing; Prof. Lamden, room; Lee M. Lovejoy, newcomers; Douglas Fay, square dance group; Larry Van Benthuysen, publicity.

A Bad Ending

It is unfortunate to start off a new year discussing the poorer aspects of the old, but some mention should be made of the mass cheating which took place with the final exams last semester.

The actions of a few caused inconvenience to many and placed the university in a bad light when the story broke in the city papers. The Student Court took commendable action with their swift reply to the challenge and thereby safeguarded the rights of the majority of students.

Nevertheless, it is discouraging to find that so many college students were willing to risk the results of four years of effort on such a misguided venture.

The professors were not out for revenge. Seeing a student get expelled or suspended for his deeds does not equate with the effort expended in drawing up a new final exam the night before the test. We would say the response on the part of the teachers was more one of disillusionment rather than anger.

However, the incidents gave us light on another facet of student action. We watched the Student Court in its proceedings and noted how much better it was to have students judge other students rather than have a hearing and decree handed down from administrative officers. The responsible people on the court did an admirable job in their task and they too had exams to worry about.

In any case, let's live up to our responsibilities as college students this year.

A Good Start

A GOOD START

This semester began in a good view with the issuance of the new UVM Date Book. This venture, published by SA but prepared by the Calendar Committee of the Joint Social Activities Board, is much better than those we have had in the past. All the pictures are fresh and many are really fine photography. It is intelligently captioned and clearly printed. Special credit should go to our Coordinator of Student Affairs, Donald Hardy, who was its guiding light. This book, like the soon-to-be-printed student directory, is vital to all and is more thumbed through than many a text.

New Faces

Elsewhere in this paper is a story about the new faculty and administrative people on campus. We should like to welcome them all to UVM.

But let's look at one man in particular, a new man to fill a new position, Dean Alan Coutts, our Dean of Men.

There has always been a need for a Dean of Men to relieve the burden of the other administrative officers, and Dean Coutts seems especially suitable for the new post. He was very popular at New York University where he was instrumental in obtaining a new student union building.

Dean Coutts is going to start right to work with the freshman class, molding them from a disorganized group of strangers into a cohesive unit. He has plans for special frosh social activities and programs which should be of benefit to " our new generation." There are forthcoming plans which will widen to encompass the entire student body and to make the university serve as more than a seat of education. However, it is up to us to extend whatever help we can to make these plans work for Dean Coutts whose objective is our benefit.

Letter to the editor

To the Student Body:

This is the first in a series of letters that will appear in the CYNIC this year. In the past this means of conveyance has proved quite adequate in reaching all the members of the SA. We hope to keep actions and views of the Council before the student body.

In speaking with Larry Urie of the Agricultural Honor Society, Alpha Zeta, I have found out they intend to show a film on the place of a Student Union on the American College Campus. I was pleased that this society has taken the interest to present such a service to the entire campus. In the spring of 1954 the Student Assn. voted in favor of having a student union, and on this show of approval the student association council voted to place all the unallocated fees into a Student Union Fund. To date this fund has grown to the size of $4398.09, and will continue to grow under the present plan. In the past spring elections the association turned down an increase in the activity fee which would have gone into the mentioned fund. However the interest for a student union was still high during that time as shown in a survey by University of Vermont Development program, in which a student union placed in the top four desired buildings.

It appears to be a long range program, but still a concern to the campus, so it is with this note I urge the whole campus to be present at Hills Hall this Friday evening at 7:00 PM, to see the movie on the Student Union in American Colleges.

Respectfully yours
George Hansen
S.A. President

Alpha Epsilon Pi To Honor Dean Coutts At A Tea

On Sunday, Sept. 25, Alpha Epsilon Pi, 275 S. Willard St., will give a tea in honor of Dean Alan Coutts, the new Dean of Men. The affair will start at 2 PM and invitations are extended to the faculty and to two representatives from each fraternity and sorority.

This will be the first opportunity for the faculty to meet the new Dean.

If you can keep your head while those around you are losing theirs, maybe you just don't understand the situation..

A Union game Pep Rally will be held tomorrow night at 7:30, the Pep Committee has announced. A giant torch light snake dance will follow the rally.

No Drinking At UVM Game To Be Enforced

The no drinking policy of previous years will be enforced again this year, according to the Pep Committee. The policy was originated by the Student Association and will be enforced by both local and State Police. No bottles or flasks will be allowed inside the gates, and any student found violating this ruling will have his ID card confiscated and be liable to Student Court action.

Upperclassmen will be admitted to the game by presentation of their treasurer's receipt only. Freshmen will be admitted by wearing their beannies, and will be assigned to a special cheering section.

At the half time there will be a tug of war between the sophomores and the freshmen to determine which class has the strongest men.

Did You Know?

... That Thomas R. Powell, Class of 1900, remarked, "The curious and yet significant thing is that what each of my teachers exemplifies most strikingly in my mind is something not peculiarly related to his special field of teaching. My teacher of German gave me an interest in philosophy; my teacher of philosophy a feeling for English prose and for architecture. My teacher of Greek made it painfully apparent that a thing is not right until it is all right; my teacher of history made it clear that facts of the past are dead and inert unless you perceive their significance. From my teacher of English I gained the notion that a college education is not something ephemeral but an instrument for the greater richness of life. From my teacher of Latin I got a perception of the merits of clear and simple diction. From my teacher of mathematics I got a great sense of relief when the course was over. I also got a C, but I hadn't anticipated that he would ask questions on the work of the concluding week. Each gave us what he had in him to give, and each would have given us what was in him had he taught some other subject than that which he chanced to use as the vehicle for his teaching."

.... That UVM, thanks t its far-seeing president James Marsh, in the 1820' instituted an adult dis ciplinary code which di away with petty fines, etc. and simply made it the re sponsibility of students t act like gentlemen and stu dents, or leave? In thi move UVM was far ahead o most American colleges, whose rigid disciplinary codes are believed to hav been partly responsible fo an interesting outbreak o student rebellions during the Jacksonian era.

In 1828 the Uniform Re bellion at the University o Virginia strenuously oppose the purchase and wearing o a prescribed uniform. Yal had a "Bread and Butter Re bellion" in 1828 and "Conic Sections Rebellion" (against a method of teach ing mathematics) in 1830. The Great Rebellion of 183 at Harvard, begun when southern student refused t read some Greek proper name in class, brought most class work to a halt for two months.

A usual punishment was t "rusticate" a student send him to the country, presumably to keep up with his studies on his own. University of Virginia boys were "rusticated" at such taverns in Albemarle County as Cocke's and Clarke's -- where a good time was ap parently had by all fishing, hunting, playing cards, and drinking.

. That the Class of 18 was responsible for the firs improvement of the Colleg Green? The class (less tha fifty men) graded the green filled cellars which had bee open on it, planted a row o elm trees around it, put in railing with turnstiles fo entrance at either end of eac walk, and placed two "fin arched gates" in front of th College itself (the presen Old Mill). They gave the labor and raised $700 for materials Alvi Twing, who had come fro a blacksmith shop to college did the iron work for th turnstiles. Twing later be came an Episcopal clergyman was rector of several churche in Vermont and New York, an was for sixteen years secretar and general agent of the Com mittee for Domestic Missions

Convocation

this year's drive would soon open with the purpose of raising part of the $5 million dollars needed for the ten year development plan. President Borgmann made it clear that the expansion would not be used to increase enrollment, but merely to let UVM "catch up."

Ten Year Plan

A five to six year dormitory renovation program has already been started, the first project being Wills Hall. The new women's dormitory behind College will be ready for occupancy within two years.

Other projects of the ten year plan include modernizing the library, converting all of the Old Mill into classrooms, building a new medical college, and the erection of a combination Gym and auditorium.

Her Worship Whitton pointed out that Dominion statistics show that only about 60% of those entering college persist until graduation. She cited as reasons for this poverty of application, perserverance, persistence and absolute capacity to stay the course to the end than to failure of material resources.

"Here is surely an arresting challenge that this generation, you and your contemporaries, must face and answer with honesty. Surely this privilege and this heritage so dearly purchased cannot be thrown away as though they were but trifles."

Sacrifice For Students

Continuing the theme of duty, Her Worship said, "You know at what cost to others, to yourself, you have come thus far in your journeying to these halls of learning. No one knows better than yourself what sacrifices, what hopes, what dreams are entwined in your own and others' lives as you study here.

"Life pulses in your hearts, joy will wait upon your play; do not deny them but it is just as surely right that you should not deny yourself nor those whose confidence has been placed in you, the people of your family, the benefactors of this University, the citizens of Vermont who have provided this goodly house of learning, fundamentally for your learning of how to live and to make living better, happier and richer for your having lived."

Wisdom and Understanding

Her Worship urged all the University students to use every chance to increase their wisdom and quoted Proverbs III, 13-18 in support of her plea. "Happy is the man that findeth wisdom and the man that getteth understanding. For the merchandise of it is better than the merchandise of silver and the gain thereof than fine gold. She is more precious than rubies and all the things thou canst desire are not to be compared unto her. Length of days is in her right hand and in her left hand riches and honour. Her ways are ways of pleasantness and all her paths are peace."

New Dean

(Continued from page one)

which decorate so many offices at UVM, paintings of the City of New York. As if in defence of this, Dean Coutts pointed out that a large number of students came from New York, and he was only trying to make them feel at home here. However, Vermonters should not worry because the pictures are warm and friendly, and done in a style which is typical of Vermont artists.

Naturally I wondered why Dean Coutts had decided to come to UVM. He said that it offered him a challenge and a change, and then with a smile he added, "I came up here to see the girls, of course." The only trouble is it is very unlikely if he'll be seeing many in his new job as Dean of Men. This is no doubt a loss both for Dean Coutts and the girls of UVM.

Aggie College

(continued from page two)

The change was made by the University's Board of Trustees as a result of the unanimous recommendation of the faculty of the College of Agriculture.

Dean Carrigan's announcement came at an "Agriculture - Home Economics Get-Together" held for Alumni, members of the graduating class and their relatives and members of the faculty. The meeting was held in the Bertha M. Terrill Home Economics Building.

The Class of 1958 is planning to sponsor a Record Hop on Saturday night. The dance, which will last from 8 P.M. to 12 P.M., will be held in the Student Lounge. A $.25 admission for stags will be charged, with $.30 for couples.

Vt. Students

(Continued from page one)

Carl W. Borgmann remarked that "our expectations have been exceeded. We frankly expected that admission of Vermonters might be increased by perhaps 10 percent, but these figures are double that. This would seem to be gratifying proof that the program enacted by the last Legislature is already beginning to provide increased opportunity for the young people of our State."

New Faculty

(Continued from page one)

Psychiatry; Earle H. Marshall, Civil Engineering; Javier Meneses, Pathology; Dr. Ernest L. Mills, Surgery; Audrey E. Newton, Home Economics; Dr. Robert E. O'Brien, Clinical Medicine; Frederick L. Page, III, History; M. Jack Parker, Speech; Patricia Peterson, Physical Education; Frank G. Pickel, Classics and History; Winthrop W. Piper, English; Mary L. Pratt, Commerce and Economics; Dr. James W. Raleigh, Clinical Medicine; Dr. Joseph Rosenstein, Clinical Radiology; Seymour Sacks, Commerce and Economics; Dr. Borys Surawicz, Medicine; Enoch H. Tompkins, Agricultural Economics; Mrs. Virginia Trotter, Home Economics; Ralph L. Vanderslice, Jr., Speech; Hubert W. Vogelmann, Botany; Thomas Vris, Psychology; Fred C. Webster, Agricultural Economics; Dr. George W. Welsh, III, Medicine; James F. White, German; Dr. Habibuz Zaman, Pathology.

Art Club

(Continued from page one)

There will be three of these programs, and it will be necessary to charge a membership fee of one dollar per year, which will entitle members to see all three programs without additional charge. This is the only way that these films can be available, since the films must be rented, and the Museum of Modern Art does not permit charges for individual showings, but only for club membership fees. Accordingly this series will be available only to members. Members can join at any of the programs. They will be:

Oct. 22-23, 1955. 1. "Masters of Sacred Music" (15 min.) A film in English about Mozart, Shubert, Bruchner and others, featuring Austria's leading orchestras. 2. "Mr. Trull Finds Out" (24 min.). A man finds out about life by thinking himself dead. Music by Gian-Carlo Menotti; outstanding cast. 3. "Rothenburg" (20 min.) a Film in German about the famous medieval city. 4. "Three Masters of Woodcarving" (25 min.) (Bangemann, Pechstein and Orlowski). 5. "Basic Dance" (10 min.) Modern Dance techniques by Catherine Hinye.

Feb. 4-5, 1956. 1. "Austrian Peasant Dances" (15 min.) 2. "Rhythm of Africa" (18 min.) A film by Jean Cocteau on the people of the Tchad Region. 3. "Stephan Locnner" (20 min.) Paintings by the 15th century painter. 4. "The Singing Earth" (19 min.) A modern dance film in color by Kurt and Grace Graff on the text of Walt Whitman's "Leaves of Grass." 5. "Modern Sculpture" (20 min.) An open air exhibition in Hamburg of works by Rodin, Barlach, Calder and others.

May 5-6, 1956. 1. "The Brueggeman Altar in Schleswig" (20 min.) 2. "Apple Blossom Time in Poland" (15 min.) Folk songs and dances. 3. "A dream in India Ink" (10 min.) Expressionist drawings on the anxiety of modern man (German). 4. "Un Chien Andaloux" (25 min.) The famous surrealist film by Louis Bunuel and Salvador Dali (silent).

Artist Series

(Continued from page one)

Fund, offers members of the University and people of the State of Vermont a chance to see and hear artists performing to rare public appearances in this country and in this area.

The London Philharmonia, for example, is making its first American tour this year, lasting only five weeks. The 1955-56 tour of all the other artists appearing in the Series have been sold out for months, with Francescatti's tour having had two seasons advance booking since 1945.

The George Bishop Lane Artists Series, like the UVM Program Series which preceded it, is completely under the direction of students at The University of Vermont.

This year's student chairman is Patricia A. Kolk of Eggertsville, N.Y., with Jane Stickney of Bellows Falls in charge of production, Pamela Crooks of Burlington handling publicity, Sandra Collison of Rensselaer, N.Y., serving as secretary and Stanley Shannon of Ticonderoga, N.Y., as student treasurer. Prof. Jack Trevithick is the group's faculty advisor.

Medical History

The University of Vermont has been justly proud of its College of Medicine throughout the long history of the College.

First Lectures

In 1804 Dr. John Pomeroy, Burlington physician, began a course of lectures and a system of preceptorships out of which the College of Medicine grew. He was made a member of the University of Vermont faculty shortly thereafter. Until 1838 the College managed to maintain itself, as a sort of partner to the University; but the great financial difficulties of the late 1830's made it necessary to close the school from 1838 to 1853. The College re-opened in time to prepare many men for service as doctors during the Civil War, and from that time to the present it has continued to flourish. When the College building burned early in this century, the members of the medical faculty made a contribution unprecedented in the history of American universities -- they dug into their own private resources, which in many cases were very limited, to rebuild their College. In 1898 the University trustees assumed full control of the College and established a four-year medical course.

CATS SEEK REVENGE IN UNION OPENER SATURDAY

Harriers Open At RPI

With a little more than a week left before the first cross country meet, Coach Archie Post's fleet-footed runners are getting in shape for their first big meet against R.P.I., October 1. This year's schedule lists five dual meets, the Yankee Conference and Conn. Valley Runs, and the big New Englands which are held at Boston.

Grady Captains Thin-Clads

This year's team is captained by Don Grady, a senior from St. Johnsbury Academy. Other returning letter-men are John Fitzpatrick, and Ken Wadley. Many hopeful aspirants include Don Holland, a member of last year's squad, Frank Wall, a transfer student, Nel Slack, Bill Meade, Johnny Osuch, and last year's captain of the freshman team, Art Tauber.

Coach Post has a problem with only four veterans but if all his "ifs and ands" come through, the cross country team should have a successful year. The first home meet against Weslyan will be run over the 4 1/4 mile Burlington course, October 14. The Schedule:

A Union game Pep Rally will be held tomorrow night at 7:30, the Pep Committee has announced. A giant torch light snake dance will follow the rally.

YANKON HITS BIG TIME

Big-time basketball recognition for the Yankee Conference of which Vermont is a full fledged member was given last week by the NCAA as for the first time in history an automatic invitation to the NCAA basketball tournament will be reserved for the champions of the Yankee Conference in 1955-56.

Three New Members

The Conference of New England State universities is one of three new "automatics" announced by the NCAA to swell the field to 25 teams. Others joining this status will be the Ohio Valley Conference and the California Basketball Association. In all, 17 conference champions and eight at-large teams will make up the NCAA field.

Will Also Meet Ivy League Champs

Under the 1956 draw the Yankee Conference champions will meet the Ivy league champions, also an automatic qualifier, on March 12 or 13.

Members of the Yankee Conference are the University of Connecticut, University of Maine, University of Rhode Island and University of Vermont.

Connecticut teams have dominated conference play in seven of the past eight years, with Rhode Island breaking through for its lone championship in 1950. The Huskies were in the NCAA tournament field in 1954, but last year rejected the bid to accept a spot in the National Invitational Tournament at Madison Square Garden.

1955 Vermont Football Captain Edwin C. Beck

As I See It BY Ed Willard

"Folks, I can't believe it. This place is like a morgue. These people aren't even cheering!" These were the surprised words of the University of Maine football announcer last year as the Catamounts met the Maine Bears in a tough football Homecoming contest. At the time the Cats were two touchdowns up on the Mainers and seemed the stronger of the two clubs. UMaine came out on the long end of a 23-20 score. Wonder why? Could it have been the silent stands?

Some five weeks later, the Catamounts toppled a strong University of Massachusetts ball-club. This was the same powerful Redmen team that had downed the Harvard Cantabs earlier in the season. There seems to be a story behind this one. As a matter of fact, there is. Toward the middle of the season, Ed Donnelly, the UVM Football Coach and Athletic Director got together with the Pep Committee and tried to find a solution to the poor response our fine football team was receiving from the 5000 or so silent folks haunting the stands. Maybe they were preoccupied. There could have been something else on the minds of the assembled mass. There was, at least there was something that dulled the senses of many. Putting together two and two (The thousand or so empty beer cans found in the stands after each game along with many well flasked hips entering the games) and opposing it to the poor crowd responses the group came up with an idea. There were groans that reverberated around the campus when the word came, but . . . . . .

Sober Saturday had hit the UVM campus. There was to be no more drinking at the Vermont football games! To make a long story short, the Cats beat UMass on this first Sober Saturday. Some quates from team members followed;

Team Captain Ed Nemer, "The guys kept mentioning it during time outs---It's no bunk that a victory is 60% the team and 40% the cheering."

Asst. Coach Ralph Lapointe, "I noticed it... The ballplayers mentioned what a difference it made.

Halfback Al McLam, "When we were two touchdowns down, that was the reason we came back. IT WAS A VICTORY."

That was enough for even me, a somewhat cynical sportswriter.

We lost a two touchdown lead on Silent Saturday and came back from a two touchdown deficit on Sober Saturday to win a great victory.

Maybe sobriety and cheering weren't the whole thing but. . ..

Beck Led UVM Rates Even Against Dutchmen

By HERB BROWN

This coming Saturday at Centennial Field the University of Vermont "Catamounters" open the lid on their 54th season of Intercollegiate football against the Dutchmen of Union College.

Though the "Cats" prospects are not overly optimistic because of the loss of 6 starters from last year's team which compiled the best record in UVM's history, all is not despair. Coach Donnelly has 11 returning lettermen back and they should provide a strong nucleus upon which he can base the attack.

Beck Leads Cats

These returning lettermen are led by Capt. Eddie Beck who was an All-New England selection at halfback last year. He was also tied for the scoring lead among New England colleges and universities with 72 points. Also returning are John Duffy, Bill Farwell, John Galascione, Paul Harasimowicz, the giant of the squad, who stands 6 ft. 4 in. and weighs in the neighborhood of 240 lbs., Dick Jannoni, Ken Kurjiaka, Al McLam, Lew Reische, Art Solomon and Leroy Williams.

Started August 29

The team has been working out since August 29 and barring injuries should be at full strength Saturday. Though the 34 man squad is fairly well seasoned, much will depend on sophomores.

Tied Union Last Year

Last year Vermont opened against Union at Schenectady and though they went into the game as favorites, they were held to a 14-14 tie in a real thriller. Union's attack was led by quarterback Don Reed a native Vermonter who directed their attack in a masterful fashion. Reed has since graduated and Coach Hammerstrom, though he has practically his whole squad back, will have a rough time filling Reed's slot with an adequate replacement. All in all the game promises to be a real battle from start to finish.

Starters Not Definite

Going through daily practice sessions on Centennial Field, Vermont still has openings in the line and backfield which must be filled by opening day.

Two quarterback candidates, Dick White and Tom Tierney, are still battling it out for the signal-calling duties. White has looked particularly impressive in practices to date, but Coach Ed Donnelly isn't likely to make his selection until next week. "They're both showing us a lot," he explains.

The graduation-riddled UVM line is beginning to look slightly more stable, with the guard and end positions looking particularly set. Leroy Williams and Bin Gilbert have the inside track for the guard slots, and Mike Morse shifted from end will provide some top-notch reserve strength.

Vermont will be considerably stronger at end this year where four men are back with Varsity experience. Right end John Galascione will return to that position, while Art Solomon, Dick Dennis, and Lew Reische are all in competition for the left end duties.

240-pound Paul Harasimowicz isn't likely to get pushed out of the right tackle job he's after. The bruising Junior has looked sharp in practices, and brings considerable Varsity experience back from last year.

Another Vermont dependable, Ken Kurjiaka, has found the competition strong for the other tackle post. Kurjiaka has seen a great deal of service in the last two years, but may find himself sharing a starting berth with Junior John Shepherd who has looked good throughout the pre-season practice sessions.

There's still a rather ominous question-mark at center, where the Catamounts have three men working out. Ed Burke, Bob Gorman, and Bob Holenstein have all been operating from that position but none of the three has much of an edge.

1955 FOOTBALL SCHEDULE

Sept.	24	Union	Burlington
Oct.	1	Maine	Orono, Maine
	8	Rhode Island	Burlington*
	15	Rochester	Burlington

SHORTS. . .

Vermont's all-New England halfback Eddie Beck started another onslaught on the area's scoring records this week, when UVM opens its 1955 slate against Union College (N.Y.) at Centennial Field. Beck, who captained this year's Vermont eleven tied for New England scoring honors in '54, tallying 72 points in seven games.

* * * * *

New England's '54 scoring leader, Eddie Beck will lead his University of Vermont teammates into their opening tilt against Union College this week at Burlington. Beck, who tied for N.E. scoring honors with 72 points in seven games last season will captain the Catamounts during the '55 campaign.

* * * * *

Ed Donnelly's University of Vermont Catamounts open their '55 football slate against Union College this Saturday at Burlington. Ed lost six starters to graduation last June, but Donnelly says his crop of youngsters "look good" in practice sessions to date. Vermont will face a seven game schedule this year.

The Vermont Cynic

BURLINGTON, VERMONT SEPTEMBER 29, 1955

VOL. 73 UNIVERSITY OF VERMONT AND STATE AGRICULTURAL COLLEGE NO. 13

Coutts Denies Drinking Claims Stated By Press

"I have never said that this state's legal drinking age is too high, and I have no intention of saying it," Dean of Men Alan Coutts told the CYNIC late last week. The Dean continued by claiming that he had been "misrepresented" by a headline in the Burlington Free Press which gave the impression that he was advocating a change in the law.

The story developed out of an interview which Dean Coutts had with a Free Press reporter. The interview covered many fields, among them that of the Dean's opinion on college drinking. In the course of the talk Dean Coutts said that the legal age in New York was 18 and that it seemed to work out very well here. He also said that if a man was old enough to be drafted at 18 it would seem that he should be old enough to drink.

Apparently these remarks interested the reporter because he made them the center of his story. Dean Coutts told the CYNIC that "it would be silly for me to talk about changing a Vermont law when I only just got here. I'm not registered in this state, and if the change were proposed I couldn't even vote on it."

Since the article in the Free Press Dean Coutts has received many anonymous letters on the matter, and a letter has been published stating that he should be asked to resign from the University.

In addition to this the South Burlington Chief of Police has asked Dean Coutts to accompany him on a tour of some local bars, and the Dean has accepted.

Homecoming Weekend Features Claude Thornhill At Dance

HOMECOMING KING AND QUEEN CANDIDATES *(Photo by Levine)*

On Oct. 6 the UVM students will elect from these Freshmen candidates a King and Queen of Homecoming. The royal couple will be crowned by Claude Thornhill at the ball at Memorial Auditorium on Friday evening and will reign for the week- end. Who is your choice?

Is Selection By "Look" As Band Of Year

Claude Thornhill has been selected by the Homecoming Committee to play at the Homecoming Ball a week from tomorrow. He was recently honored by Look magazine when it selected his band as "The Band of the Year." Thornhill himself plays the piano, and the orchestra features Patti Ryan as its singer.

Homecoming this year will start off with a Pep Rally on Friday, October 7, at which there will be songs and cheers and a talk by Coach Ed Donnelly.

King and Queen

At the ball later in the evening the Homecoming King and Queen will be crowned. They will be elected next week from among those nominated in Freshman dorms.

Judging of fraternity and sorority Homecoming Posters will be held on Saturday morning from ten o'clock on. Moms and Dads are invited to attend classes on Saturday morning.

Shortly before the football game, a recital will be given on the electronic Carillon by Professor Francis Weinrich, of the Music Department. At 1:30 the Catamounts will take on the Rhode Island Rams at Centennial Field in the football game of the season.

Cane Rush

During the game intermission the annual cane rush between the Sophomores and the Fresh- *(continued on page two)*

Squelch Panty Raids At Converse & East Hall

The pep rally last Friday ended with an unscheduled event when approximately a hundred freshmen and others attempted to stage a panty raid at Converse and East Halls.

At Converse Hall the front doors were securely locked, but the intruders gained admission via the fire escape in the rear. A cellar window was also broken. In an attempt to force the front door the metal door handle came off. Although students actually did get into the dorm, and house proctor, who is reported to have had "fire in his eyes", managed to force the mob out.

Next on the agenda was East Hall. Admission was gained by removing the screens and two men students are actually reported to have gotten into a girl's room. However, as in Converse, the raiders soon lost their nerve and beat a hasty retreat.

It was at about this time that a rumor began to spread that the State Troopers had been called. Many recalled accounts of the panty raid a few years ago when quite a few UVM students had spent the night in jail. Order was quickly restored.

"Sleepy" Hill and other members of the Pep Committee, which was in charge of the evening, fought "valiantly" to quote one raider in an *(continued on page two)*

Game Win, Tug Parties Make Sat. Happy Day

By David A. Spector

Saturday was certainly a happy day. It is wonderful what a winning team can do to school morale. Our smashing victory, of course, merits mention, but that has been done by the Sports Editor. I am more concerned with the success of the Friday Night Pep Rally and the "snake dance" through town. A later attempt at a panty raid fizzled, but a certain excitement was building up. On Saturday a good part of the school was assembled at Centennial Field, but you would never know it by their cheering. The only cheering to be heard was that done by the pep committee. But during half time the fun started. A tug-of-war between the Freshmen and Sophomores became somewhat of a fraud when it was discovered that a jeep had been added to the side of the Sophomores. *(continued on page two)*

Cats Win Union Opener 33-6

BY ED WALKER

Last Saturday at Centennial Field, Coach Ed Donnelly's Catamounts roared through the Dutchmen of Union at will to win their opening game of the 1955 Football Season, 33-6. This was sweet revenge for the Green and Gold who were held to a 14-14 tie at Union last year and at the same time extended their winning streak over the last two seasons to six in a row. The last team that overcame the Cats was Maine, whom they face at Orono this Saturday.

McLam Scores 1'st T. D.

Vermont won the toss and elected to receive. The Cats got no-where on their first attempt and were forced to punt as did the Dutchmen on their fourth down. Vermont took over on the 48 yd. line of Union and proceeded to the 33, where McLam on second down broke through the left side and raced to the end zone for the score. With White holding, McLam's kick cleared the uprights to make the score, 7-0. Union then received but couldn't make the first down. A few minutes later, Captain Eddie Beck boomed a 55 yd punt to the Union 15 where their Quarterback Ed Nullions ran it back to the 20. The quarter ended as the Vermont forward line held the Dutchmen back brilliantly.

The second quarter was full of excitement as both teams moved the ball up and down field but could not get the pigskin across the goal line. Midway in the quarter, the Green *(continued on page six)*

Part of the snake dance running through down town Burlington.

Photo by Levine.

John O'Connor Heads AFROTC Cadet Wing At Vt.

The 370th Air Force ROTC Cadet Wing of the University of Vermont, is proud to announce the new roster of Senior Cadet Officers for the forthcoming academic year.

John O'Conner

Heading the list of new officers, is Cadet Capt. John O'Conner, the Commander of the Cadet Wing. Cadet Capt. O'Conner's newly appointed aides are: Cadet Capt. Bruce Walgren, as Deputy Commander; Cadet 1st Lt. J. Brooks Buxton, as Deputy for Operations; Cadet 1st Lt. George F. Issacson, Jr., as Deputy for Personnel; Cadet 1st Lt. Porter Cleveland, as Deputy for Material; Cadet 1st Lt. Norman B. Sutherland, as Air Inspector; and Cadet 1st Lt. Richard M. Smith as Adjutant.

Aikman

In the 1st AFROTC Cadet Group, which is the first of the two major divisions of the Cadet Wing, Cadet Capt. Donald Aikman is Commander. His aides are as follows: Cadet 1st Lt. Kenneth T. Savela as Commander of Squadron "A;" and Cadet Capt. Aikman again takes the honors as Commander of Squadron "B."

Norzon

Society Welcomes You

Dear UVM'ers,

Summers have their advantages but it feels great to to be back on campus. I extend a big "Hello, I hope you had a nice summer" to each and every one of you.

I think it would be a great help this year if one person from each sorority, fraternity, and dorm was to supply the column with their various activities. I would like to have each person's name and phone number in case I want to check on something. This would prove to be a great help to me and would aid you in getting your news published.

The first Society page for this year's CYNIC will be in the October 6th issue. All news for that issue will be due by Wednesday, September 28th. We want just about any kind of news that you have. There will be a "Cloud Seven" column for all pinnings, engagements and marriages.

Put your article in the Society box in the CYNIC office. Any news received by a Wednesday will be in the following week's issue. Let the campus know what is happening in your sorority, fraternity, and dorm.

Sincerely,
Rhoda Rosenberg and Staff

Homecoming

(Continued from page one)

men will be held in order to determine, theoretically at least, whether or not the Freshmen will be allowed to remove their beanies before Easter vacation.

Immediately following the game, a roast beef barbecue is to be given in the Cage. As in former years, the Animal Industry Club will have charge of the arrangements.

The traditional theatrical presentation, Vermont Varieties, with both students and faculty taking part, is scheduled for Saturday evening in the Memorial Auditorium. It will be a musical, written by dramatic coach, Greg Falls, and produced by Ralph Vanderslice, recently of Michigan State. At this time trophies will be awarded to winners of the poster contest. Fraternities are to have open house during the evening and sororities will serve tea on Sunday afternoon, when they will have their open house.

Homecoming Committee

Members of the Class of '57 who are in charge of the activities for Homecoming Weekend include: Phyllis Bracey of Bradford, Vt., and Ken Brunjes of New York City- Co-Chairmen; John Burgess of Bennington, Vt., and Florence Alexander of West Rutland, Vt.- Finance Committee; Dave Curwen of Ridgewood, N.J., and Sandra Waugh of Scotia, N.Y.- Dance and Decorations Committee; Marilyn Falby and Max Ansbacher, both of Burlington - Publicity; Pat Cheney of Rutland, Vt., and Rudy Keimowitz of Middletown, N.Y.- Moms' and Dads' Day Committee; Don Kidder of Lansdowne, Pa., and Bobbi Baker of Flushing, N.Y.- King and Queen Committee; and John Lounsbury of Vergennes, Vt.- Ticket Committee.

Sports From Southwick

By Joan Armstrong

Second WRA Meeting

The second WRA meeting of the year was held last Tuesday night with the following Fall intramural schedule being drawn up: Hockey, Tuesday and Thursday at 4:00; Archery, Monday and Wednesday at 4:30; Modern Dance Club from 7:00 to 9:00 p.m. on Tuesday and the Water Ballet Club was set tentatively for Wednesday evenings. Tennis balls and ear plugs will be sold again this year by WRA at a below cost price.

Sports Day - Oct. 29th

A sports day has been planned for October 29th, 1955, Saturday. At the present this event has been scheduled only for hockey. Middlebury, Skidmore and Green Mountain have each been invited to bring two teams. Katherine Warren is the manager of the hockey team.

New WRA Exec. Board

This year the executive board of WRA is scheduled for a change. It will be made up of three faculties; the executive board, the sports representatives from each dorm and the managers of each intramural club. Each of these three groups will meet separately and the latter two will report to the executive board, which is comprised of the officers. Linda Shaw was elected chairman of the sports representatives. This new plan of organization will be put into effect shortly and will certainly be an improvement under the guiding hand of the WRA president, Florence Alexander. The next WRA meeting will be held on October 4th at 7:00 p.m.

Game Win

(Continued from page one)

But this asset rather quickly became a liability when the Frosh stole its keys.

The Sophs were now in the embarrassing position of being pulled forward, jeep included. Therefore the goalposts were employed as a sort of lever or pulley arrangement. As any slapstick comedian would expect the entire goalpost was broken off with the result that now the school must pay a sizable repair bill and the rest of the extra point kicking took place at the Western end of the field.

I suppose various members of the band are looking for various members of the Pep Committee. After all the band did not make what could be termed a graceful egress, for it had to trip over a tow line and push through several hundred students to get off the field. Even the music was drowned out by frantic orders from the public address system.

But if you think the band was confused, think of the Union team. All in all it was a very happy day.

Fountain Fighters Lead Frightened First Days

By L.D.O.

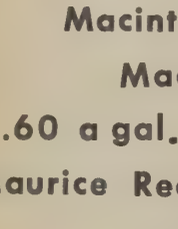
This is the story, the amazingly true story, of Herbert A. Forbish, who for 12 frightening days led 9 lives as a "Fountain Fighter" for the Class of '59! This is his story as he lived it and as he wrote it for his hometown paper "The Daily Cynic."

"There they were, silhouetted against the horizon, pouring onto the fields from all directions. They came from the caves in the hills, trees in the forests, stagnant pools and swamps. The very slime of creation itself. They began moving towards the dorms, most of them preparing for battle by either unscrewing one or both of their heads.

"Approximately 200 yards from the dorm (near enough to be heard, but far enough to run) they let their animal instincts get the better of them. Suddenly from nowhere there appeared a blinding flash of light, and Bob Gorden stood in front of Chittenden Hall uttering his famous last words, 'What's going on here.....' Splash! Then it was every man (i.e. Freshmen) for himself. The windows were manned by the bucket brigade, the ammunition consisted of two parts ink to one part water. Down at the front the counselor who was trying to stop the fighting was dyed a pale blue. Due to the large turnout from Chittenden Hall, the 'Hero' Sophs decided to go be 'Heroes' elsewhere. Their next stop was Buckham Hall, half empty at the time, where they had a wonderful time running up and down the halls until they forgot how to find their way out again. Rumor has it that the remainder of the Sophs retreated to Waterman in order to call out Dean Stockwell to rescue their classmates. A good time was had by everyone but the Sophs 'Ain't that a shame?'"

Signed,
Herbert A. Forbish L.D.O. PHd. M.S. & B.S.

Notice!



There will be a meeting of all organization treasurers in the Student Council Room from 4-5 P.M. on September 30. Attendence is compulsory.

Panty Raid

attempt to squelch the riot.

In cases like this, order is usually restored quickly by the presence of some high University official. However, on this night, it was rumored, and officially denied, that a certain person was not available because he was making a tour of the city bars in the company of a certain Chief of Police.

Where's The Freshman Rush Inquire Cute '59 Coeds

By Iris Hocker

The Freshman Rush - Where Is It?

The time has come when all good freshman girls must get together and discuss the problem. Just what have the sophomore girls got that we haven't? What did they have last year that we don't have this semester? Most freshmen feel that they have been cheated, and its all the fault of the upperclass males who won't give us a trial.

To be perfectly blunt, "Where is our freshman rush?" Was it merely a rumor, or is it on the way, or has it been and just died out? Who knows? This article is echoing the sentiments of practically every freshman lass from as far down as Redstone campus to the topmost floor of Old Mill.

Before the Class of '59 reached the gate of UVM the girls received their freshman handbooks in the mail, and some were debating whether Vermont was the place for them. There in bold, black letters on page 33 were stated these rules: curfew, 9:30 week nights; 11:30 Friday nights; and 12:30 Saturday nights. Many of us vowed to study and torture ourselves first semester so as to make Dean's List and acquire sophomore privileges for the second semester. However, we soon found out that this would not be at all necessary. Most freshman girls find themselves returning to their dorms immediately after dinner and not leaving them again until eight (a.m., the next day, that is.) The other night I noticed a cute little frosh signing out at the main office. Under the column headed "companion" she inserted the words "myself"!

This shows that something is definitely wrong somewhere. You men don't know what you are missing. Have courage and take the plunge (and I don't mean in the fountain). Why don't you indulge in that annual scramble. Give us back our "Freshman Rush".

.....you'll be so glad you did!

First Meeting Of Senior Class Is On Oct. 4

The Senior Class announces its first meeting on Thursday, October 4, at 7 P.M. in Room 239 Waterman. The business to be discussed will include:

1. The election of an executive committee.
2. The Harvest Moon Block Party.
3. Election of a new advisor.

It would be appreciated if as many seniors as possible attend this important function.

SCA Sponsors Picnic At Rock Point This Sat.

The Student Christian Association will sponsor a picnic at Rock Point on Saturday, Oct. 1, from 3:30 to 8 P.M., it has been announced by Frank Thurston, SCA president.

A hot-dog roast will be the eating feature of the day, but relay races, scavenger hunts and group singing are also scheduled. A sunset service will be led by Suzanne Irons, and those attending will find free transportation awaiting them in front of the Waterman building at 3:30.

Chaperoning the event will be Prof. and Mrs. Donald C. Gregg. Lois Jones, chairman of the Campus Affairs Committee of SCA, is in charge of picnic arrangements with Marlene Patrick in charge of food. Patricia Foote and Carol Hill are co-chairman for publicity.

Air Force ROTC

(Continued from page one)

The new Commander of the 2nd AFROTC Cadet Wing. As Cadet Capt. Norzon's aides, there are: Cadet 1st Lt. Angelo Pizzagalli, Commander of Squadron "C"; and Cadet 1st Lt. Charles C. Maxson, as Commander of Squadron "D."

After a summer of vigorous training at several of the numerous AFROTC summer training camps, these men are well prepared for, the many responsibilities in developing the basic students in the AFROTC program for the coming school year.

Upon graduating from the University in June of 1955, these Cadet officers will become commissioned 2nd Lts. in the United States Air Force.

Cynic Reporter Finds Running Bookstore Is Big Enterprise

By Larry Ostrow

Lost among the labyrinths of lower Waterman Hall, the University book-store presents both a challenging and intriguing experience to all newcomers. This institution of "higher finance" is capable of earning well over $20,000 in one day by selling anything from paper clips to pencils to stuffed toys and pennants. The mainstay of this organization is the "overstocked bookroom" where any text from American History to Zoology may be purchased with a matter of weeks, months or years! Another interesting feature of the bookstore is the 30%-40% discounts on all trade books, and a 10% discount on any articles by which the store profits 30% or more.

The enormous responsibility of operating this organization rests in the capable hands of Miss Barney; financial genius, administrator superior, and graduate of this university. She believes in giving the students every possible assistance, without bringing outside pressure to bear upon them. Each week a student club or organization has the use of one of the store's windows for advertisements or news.

Unfortunately the bookstore was not always as profitable as it is now. Fifteen years ago it was located in the Old Mill, and could best be described as a well-upholstered closet. In 1941 the store moved into lower Waterman, and with the arrival of the veterans it grew by leaps and bounds. The staff includes twelve salespeople employed on a permanent basis. The store is a charter member of the National Association of College Stores, and a representative from the store attends all the Association meetings. In the opinion of Miss Barney, money should be allocated to enable a representative of the NACS to come to UVM to help them with store planning.

However, even with minor troubles Miss Barney, a veteran of many years with UVM, looks forward to serving the students, not only for the first few rush days, but throughout the entire year.

MUMS

The "mum," now a tradition for Homecoming at UVM, will be sold again this year by Mortar Board. Orders for the big yellow chrysanthemums are now being taken in lower Waterman and will continue through Monday. The price is only seventy-five cents. Mortar Board urges all the fellows to get into the spirit of the weekend, to buy a "mum" for their girl.

EDITORIAL

The Truth

It is surprising to note how many people really think that Dean Coutts advocated lowering the Vermont drinking age from 21 to 18. What he really said is made clear on our Page One story. We don't want to pass on the drinking issue at all, but we are more concerned about the students and faculty members, who are moved to hasty action without a full knowledge of the facts. Saying "he won't last long up here" and "you would think he would know better than to start THAT" is not the correct way to handle the situation.

We repeat that Dean Coutts has no intention of, or plan for, changing the state drinking laws. Dean Coutts is not even a voting resident of the state. He was merely mentioning that other universities seem to be able to handle 18-year-old drinking. It is unfortunate that such a controversy came up in the first few weeks of Dean Coutts' association with the University, but we don't hold it against him. We rather like his attitude. As a matter of fact he seems to be about the only person who did not get hysterical over it.

Beanies

Upon first arriving at school the Freshmen were made to purchase beanies, which would seem to imply that the Student Association intended to carry out the rules and regulations in the student manual. This states that beanies must be worn until Thanksgiving unless the Frosh win the cane rush - (a rare occurence).

But, after the first week of classes, only a few Frosh still carried beanies, though some girls thought they were "cute," and wore them for that purpose.

We feel that if the Student Association takes the stand that beanies are nonsense and childish, then the students need not wear them. On the other hand, if the Student Association expects its regulations to be followed, then they must be fully enforced. We feel that beanies are good and serve a useful function, but that is not the issue. We are just looking to the Student Association to reaffirm its stand on this issue, and then to follow through with its conclusion.

Parking

The increase of student-operated autos has aggravated an already severe parking situation. With more cars than ever before on campus some solution must be found. A possible solution is for yellow sticker cars to park only in alloted areas and not take up limited blue sticker areas on the surrounding streets. The city could also help by painting white dividing lines which would designate a certain area for each car and prevent cars from parking ten feet apart, thus wasting valuable space.

The biggest move, however, must come from the administration itself. They must, we feel, take drastic action by prohibiting Freshmen from bringing their cars. We also favor a restriction on the use of cars by anyone with less than the University passing average of 72. Of course exceptions would be made for those with a proven need, but on the whole such action would relieve our traffic jam by about 20%.

This solution is not really so radical. Most other colleges have similar restrictions and some extend beyond the Freshman year.

We won't comment on the relationship between car ownership and high grades because that is only secondary. Our only concern is to help alleviate what is developing into an impossible situation.

Poinig's Postscripts

by WOLFE

After knocking off two weeks of the semester, let's stop a minute and have a look at the UVM campus.

The first thing that everyone must have noticed was that huge gray (or grey) structure at the Aggie school. I cannot possibly imagine four hundred women being housed and fed there. Maybe I'm wrong, but --nah! that can't be the new student union? Wait! don't tell me, ah---new library? No, ---Med School? Nay! Engineering building? Nein! Of course, the new gym. What, still wrong? At least, it could be used as an indoor swimming pool.

A new year has also brought deferred fraternity and sorority rushing. IFC and Pan-Hell have imposed strict rulings and already, one national fraternity has been thrown off "the hill." Reason -- frat president was in the same history class as a male frosh.

At the same time, a new national fraternity has joined the happy family. What is more, it compels its members to wear brown uniforms along with the customary pin. Name -- Beta Sigma Alpha (BSA). It is a group dedicated to social life and good times. President says "Fie!" in regard to service donation.

Oh, yes, the first flic of the season will be shown at the Fleming Museum this evening - "Seven Deadly Sins." (Adv.)

While not as noticeable as the gray (or grey) tower, we look to the grey (or gray) building -- Converse Hall. I doubt if one could find another women's dorm in any institution with a similar motto encrusted over its portals: "In Deo Solo Confido." I am sure that the "Green Mountain Boys" didn't intend that for our women to sleep behind.

Meanwhile, back at the museum we find a full scale un-American activities investigation in session. Shame on the officials for scheduling a film-lecture on Picasso for next spring.

There was a bill on the Vermont state senate floor last week requesting the legal drinking age be lowered from 21 to 18. The main pro argument was that if the boys can be drafted at 18, they can buy a drink at 18. The result was that the drafting age was raised to 21.

And now for the $64,000 question, which is correct, gray or grey?

"What kind of a day was it? A day like any other day, except," U...V!!

I thought the bull session was at the farm.

University Senate Adopts New Attendance Rules

The following regulations, adopted by the University Senate on September 22, are now in effect and supercede those appearing on pages 13 and 14 of "Student Regulations." Students are advised to preserve this notice for future reference.

V. ATTENDANCE

1. General Requirements. Every student is expected to attend all regularly scheduled classes. This is a major responsibility of the student to himself and to the University. A student who absents himself must accept the intellectual and academic consequences of his action.

2. Before and After Vacations. No student may absent himself without the permission of the Dean of Men or the Dean of Women from any University exercise on a day immediately preceding or following a recess or holiday (Thanksgiving, Christmas, Kake Walk and Spring Vacation). Such absence shall be anticipated if possible and the excuse obtained in advance. Students who violate this regulation may be placed on University probation.

3. Occasional Absences. Each department frames its own rules relative to occasional absences by students from scheduled activities and announces its policy at the first meeting of each course. If a student is absent from a course to such an extent as to imperil his standing, it is the duty of the instructor to report the facts promptly to the Dean of Men or the Dean of Women for appropriate disciplinary action. A student who thinks he has been treated unfairly may appeal to the Dean of his college.

4. Tardiness. A student not present at the beginning of an exercise may be marked absent.

5. Illness. The Dean of Men or the Dean of Women will issue excuses for absence because of illness but only upon receipt of written evidence from the Infirmary. Students who are so ill as to miss classes should go to the Infirmary, if able, or call the Infirmary to report their illness. Students who ar attended by a private physician must present a statemen from the physician to th Infirmary. The Infirmary wil issue to the student, fo presentation to the Dean o Men or the Dean of Women formal notice of cases o illness under its care o duly certified by the attending physician, but not fo other cases.

6. Group Absences. The Dea of Men or the Dean of Wome will issue excuses for absenc because of participation in duly approved athletic con test, field trip or othe group activity.

7. Make-up Privileges. When an absence for illness o other justifiable reason ha been excused by the Dean, th work missed may be made u at a time convenient to th instructor and the student. Other absences do not warran this privilege.

8. Absences from Mid-year o Final Examinations. A studen who is absent from a mid-yea or final examination must re port that fact and, the reaso in person or in writing t the Dean of his college withi twenty-four hours. If th absence was caused by ill ness, a certificate from th University physician MUST B PRESENTED. On the basis o this information, the Dea may excuse the absence, i which case the grade is re ported as "Inc.", and th student may take the examina tion at a designated time. I the absence is not duly re ported, as described above, o is not excused by the Dean the examination is regarded a failed.

9. Graduation. Every student is required to participate i the graduation ceremonies at which he is to receive a degree. Exceptions will be granted in unusual cases by the Dean of the College. Those not in residence during the spring semester are urged, though not required, to attend.

10. Concerted Unauthorized Absences. Concerted unauthorized absence of a group of students shall render the individual students liable to severe disciplinary action.

UVM Clippings

News Of Faculty And Staff

Prepared By The Public Relations Office

DEAN MILLER HONORED

Paul R. Miller was honored by the Government of Portugal last month when he was awarded the rank of Commander in the Ordem do Meriot Agricola for service he rendered Portugal during an agricultural mission to that country from 1951 to 1953. The decoration includes medals, official ribbons and a formal document signed by the President of the Portuguese Republic, the Prime Minister, the Minister of Economy and others. Portugal's Secretary of Agriculture, Dr. Vitoria Pires, stated as he made the presentation, " The excellent work achieved by Dean Miller in our country is something to be praised and remembered for long."

UNIVERSITY CLUB - SEPT. 30

The University Club will hold its first meeting of the year, a " Shoebox Social and Fun Fair, " Friday evening, Sept. 30, beginning at 6 P.M. in the big Cage behind the Gym, and all faculty and staff members are cordially invited to attend.

A number of special activities have been lined up by program chairman Jeanne Milbank, who reports that horticulture and flower show entries will be judged for "biggest and best pumpkins, tomatoes and squash, " and for flower arrangement. An effort will be made to recruit teams from each of the Colleges to compete in corn husking and cow milking contests, and those attending are invited to "bring your own picnic supper in a shoebox. " Prizes will be offered for the prettiest, funniest and most original boxes, and coffee will be served to winners and losers alike.

NOTICE

The date of the President's Reception for new members of the faculty has been changed from October 18 to Wednesday, October 19.

CONVOCATION ADDRESS

The Public Relations Office has a few copies of the Convocation Address which was delivered by the Mayor of Ottawa, Dr. Charlotte Whitton, on September 15. They may be secured at 111 Waterman as long as the supply lasts.

REMINDER

Additions and corrections for Directory cards can still be accepted. Send such information to Dean Kroepsch's office.

REMINDER

Faculty members interested in being nominated for the Danforth Teacher's Grant should have their letters in the hands of the University Council by Monday, October 3. Details may be obtained from the respective Deans.

Dean Paul R. Miller (left) of the University of Vermont is presented with a certificate and medals for meritorius service to agriculture in Portugal. Making the presentation is Dr. Vitoria, Secretary of Agriculture of the Portuguese Gov.

Faculty Notes

Anna Rankin Harris attended a seminar at the Harvard Graduate School of Business Administration at the end of August. This was a conference financed by the Carnegie Corporation and sponsored by the National Association of Student Personnel Administrators. Dean Harris and Dean M. Eunice Hilton, of Syracuse University, represented the National Association of Deans of Women at the meeting.

* * * * *

George V. Kidder spent two weeks at Fort Bragg, North Carolina, last summer where he observed the training of UVM'ers taking part in ROTC maneuvers. Major George Powers and Capt. George Nelson conducted Dean Kidder on his tour of the camp.

As I See It

BY Ed Willard

Well, we got our " revenge " so called. The Catamounts handily dumped a smaller, slower Union eleven by a good 33-6 score. This avenges, or revenges, which ever term you like, a 14-14 tie at the expense of the Dutchmen last year. It seems a good idea at this time however, not to get too overconfident about the prospects of a great, maybe undefeated, season.

The Cats won it. We possess two of the most talented halfbacks around in the persons of Ed Beck and Al McLam. Both of our soph quarterbacks, especially Tom Tierney, showed themselves well. Marty Johnson and Will Morse give us the two heaviest backfield operatives we've had in years at fullback. In other words, the backfield seems to be stronger than that of last year.

The line is the thorn in the side of the Cats right now. The opposing lines we will face from now on will almost surely be stronger than that of Union. All of our Yankee Conference foes as well as Middlebury and Rochester are reported to have big lines with capable reserves. Our line Saturday showed a definite lack of experience. Let's hope that's the main thing they're lacking in. From here, it looks as if there will be many changes in the Cat forward wall before the end of the season.

We face a big one in Maine this week. The Black Bears lost a real toughie to Rhode Island last week, 7-0, which foretells a very tough two weeks ahead for the Catamounts as we face Rhode Island next week. The week after that, it's a tough Rochester team smarting over last year's defeat at the hands of UVM. Then, we face a surprisingly strong Norwich team and following that a strong U Mass team. The Cats close the season with Old Midd., as usual, in a never predictable " blood " game. Do you see any weak spots?

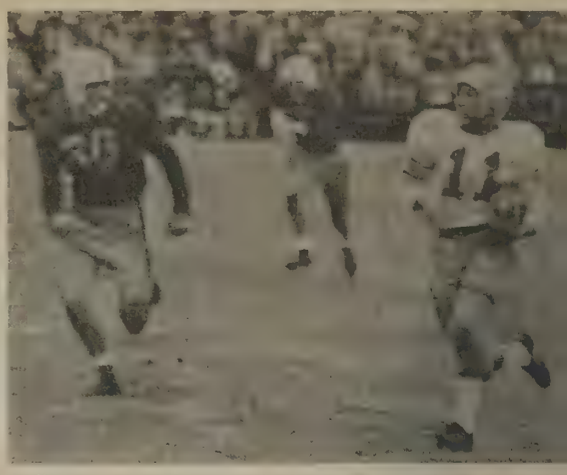
Every sports writer seems to be expected to make predictions as to the outcome of the season, so it seems as if this quarter had better go along with the crowd, and put himself out on a half-sawed off limb using as his only defense a couple of small if's. I predict a five-win and two-loss season IF our line settles down and lives up to its very real potential and IF we take one of our two games in the next two weeks.

The cheering was sporadic at the Union game. Inclement weather held the crowd down and a lopsided game probably cut excitement to a minimum but crowd response was pretty good, all things considered.

Catamounts Meet Maine Saturday In Yankon Opener

Team Goes For Seventh Straight

By Herb Brown



This Saturday the University of Vermont Football team travels to the University of Maine for a Yankee Conference clash with Coach Harold Westerman's "Black Bears". The Catamounts will be out to revenge their only loss of the 1954 season when they were upended by Maine 23 to 20 in the final seconds at Centennial Field. In that game the Cats blew sky high in the final quarter and handed the game to Maine after leading by a lopsided 20-7 score in the middle of the third canto.

Cats Seek 7th Straight

This game is of double importance to Coach Ed Donnelly's charges since they will be gunning for their seventh straight win over a two year span (5 last year). It is also the first time in three years that Vermont is eligible for the Yankee Conference Football Championship and the coveted "Bean Pot Trophy" that goes to the Conference Champs.

UVM In Good Physical Condition

Last Saturday the Catamounts opened their 1955 season with a 33 to 6 victory over the Dutchmen of Union College. Vermont came out of the game in pretty good physical shape except for a few minor bumps and bruises, and barring injuries during this week's practice sessions they should take the field for the opening kick-off with the same team that started against Union.

Vermont's Dick Janonni (No. 11) races into the cle in last Saturday's action at Centennial Field.

1954 Maine 23 - UVM 20

Last Week Rhode Island 7-Maine

(Continued from page one)

and Gold took the ball on their own 6 and started advancing up field on some nice runs by Beck and Dick Janonni who had replaced McLam at Right-Half. Jim Lee took the ball to the 31 where White threw a perfect pass to Johnny Galascione who was finally stopped on Vermont's 49. After Willard Morse and Beck picked up yardage, a quick pass to Dick Dennis brought the ball down to the 36. Janonni dashed around left end to the 12. White on an attempted pass was rushed and tackled back on his 18. The Green Mountain Boys were stopped on the next three downs as the half ended.

Galascione Sets Up Tally

The second half opened with an exchange of penalties and on Union's fourth down, Galascione rushed Root, the Union kicker who had received a bad pass, and downed him on the Union 24. Whereupon Al McLam picked up 24 yds. on two successive carries to plunge over, making the score, 13-0. Sophomore Fullback Marty Johnson was the next to score for Coach Donnelly as he ran 53 yds. to pay dirt. His open field running was aided tremendously by some great blocks by the Vermont line which outweighed the Dutchmen by about 5 pounds per man. With Coach Donnelly substituting frequently, Don Root broke through left tackle for Union's only touchdown.

The fourth quarter was a little sloppy as both teams were penalized many times and it wasn't until the five minute mark that the Cats got down in Union territory again. Roy Williams pounced on a fumble and with Eddie Beck picking up ground, Williams threw a great block while Beck dashed around his right end to make the score 27- 6, as McLam kicked his third extra point. The Green and Gold's final 6-pointer was paved by Tom Tierney, who after throwing a pass to Jake Curran good for 50 yds., bolted by the Union defenders to end the scoring for the day.

Cat-Nips

Coach Donnelly had the whole squad in the game and the Cats who have only 11-lettermen back from last year showed good depth, especially in the backfield. Everyone on the line played a great game with Paul Harrasimowicz leading the tacklers in most of the time. **NOTE**: During the second half, the teams had to march to the West-End of the field for the extra points. The other goal-post at the East-End had vanished during half-time.

Donnelly Dissapointed

Coach Donnelly and his staff were noticeably disappointed at the ragged and listless play displayed by both linemen and backs against Union. Undoubtedly this week's practice sessions will be crammed full of fundamental drilling and the proper execution of plays by the whole squad. Much time will also be spent on pass defense in an effort to have the team fully prepared for any offense Maine may throw against us.

This past week-end Maine opened its season with a 7-0 loss to Rhode Island. The game was marred by a constant rain and though Coach Donnelly had his scouts watching they were not able to bring back too much information for him to work with. Neither team threw a pass and both offenses were held under wraps due to the slippery playing surface, therefore the Catamounts will be going into this fray without really knowing what to expect from Coach Westerman's seasoned squad which boasts the return of 21 lettermen who last year lead Maine to an overall 5-2 record and third place in one of the Yankee Conferences most contested struggles for the "Bean Pot Trophy."

Intermurals Play Big Part On UVM Scene

By Gerry Goldman

General Beck and his Co. declared war last Saturday and less than 3 hours later an Armstice was signed between the two collegiate communities. Thus the Union Army conceded defeat to the Vermonters.

Civil War

Meanwhile, internal strife has broken out among the proletariat of the various intra-campus communities.

The intra-mural fall touch football season, having started last Monday, has begun a series of encounters which will last throughout the next two semesters.

UVM's fourteen fraternities and six dormitory teams (two from each dorm) will partake in various athletic events running until next June.

Football, of course, heads the list. The Greeks have been divided into two leagues, "A" & "B", each league having seven teams. The winners of each league will play for the fraternity championship at the close of the season. This title brings 5 Traynor points to the victorious House. The victors of this game then challenge the frosh dorm champs for the All-Campus title, which will be held October 23.

Handball For Individuals

For individual play, there is the handball tournament which in recent years has attracted only a small aggregate of contestants. The freshmen, particularly, can give this game a "shot in the arm" by preparing now for this winter's tournament. For your information, there is a court off the Main Gym floor. There are quite a few old time upperclassmen w would be willing to take any of you youngsters anytime. Last year's champio Paul Small, will take on a comers. He likes young bloo To contact him, call 4-9619.

In the spring we retu to the outdoors at whi time the all-campus tenn tournament is contested.

Other perennial Intra-mur events to be continued th year are the IFC Track Mee Relays, and the IFC Ski Meet

Badminton Fan News

Archie Post, UVM's younge Director of Phys. Ed planning to institute all-campus badminton tourn ment, that is if enou interest is shown. More this in a later issue of t CYNIC.

Last year our Fraterni Hoop Champs played Middl bury's tourney winners an inter-mural, affair wh saw the State U.'s Kap Sigma team bring home t spoils. This game will arranged again this year.

The Old Complaint

Thus another fully pack physical competition prog has been initiated. It appropos for us to say this time, that althou Physical Education and Int Mural competition has be stressed and endorsed University authorities, th has been no progress faculty improvement sprained ankles, bruis bodies, and perhaps a br here and there, will conti to monopolize until so thing is done about t rutty, slanted "footbal field adjoining the "fi house."

Huber Forecasts Bright Future For Debaters

By Susan Wakefield

This year's Lawrence Debate Club has a bright future, forecasts Professor Robert Huber, head of the Speech Department. More experienced debaters have returned than usual. In addition, about 20 newcomers have joined the squad. Speaking of the potentialities of these new debaters, Dr. Huber said, "It is too soon to know what these people can do, but beginners often come through brilliantly."

The outstanding team of Herzl Spiro, who was named top debater in the nation, and Ed English, cited for outstanding work in the National TKA Tournament, graduated last year. However, the team will have veterans who bear watching this year. Among them are: Herb Simons and John Burgess, winners of the National TKA Tournament last year; Sandra Winterberger, second best in the All - New England; and Max Ansbacher, one of the top debaters in the Eastern TKA Tournament.

The debaters will inaugurate the year with a picnic at the Ethan Allen Park on Sunday. There will be hot dogs, soda pop, and softball for everyone. "We're going all out to beat the batting records of the coaches," said Herb Simons, president of the club. The oldsters seem to have showed up the younger generation in recent years.

Officers

Presiding over the club this year are: Herb Simons, president; Sandra Winterberger, vice-president; Pat May, secretary; and Max Ansbacher, treasurer. Leonie Strachan, John Burgess, and Tony Jannicky are members of the executive board. President of the Tau Kappa Alpha honorary society is Leonie Strachan.

Mr. Jack Parker, who has newly joined the staff, is co-director of debate with Professor Huber. He was attracted to UVM because of its "excellent intensive debating program." Mr. Parker debated in high school and college. He was a member of Pi Kappa Delta, a national debate honorary, and attained the special distinction degree, the society's highest possible honor. His impressive record in forensics includes a second place in the National Peace Association Extemporaneous Contest. Mr. Parker received his master degree at Illinois State Normal University, and coached forensics at the School City of Gary, Indiana.

The team's first opportunity to debate will be at Tufts University on October 15. At that time Dr. Huber, district-governor of Tau Kappa Alpha, will install a new chapter of the debate honorary at Tufts, and in conjunction with the event UVM and Tufts debaters will clash.

Coming events include a tournament with experienced and novice debaters from Dartmouth, Middlebury, and Saint Michael's College, the last weekend of October. The novice team will take part in the Hamilton tournament the first weekend of November, and travel to the Dartmouth Tournament a week later.

The Vermont Invitational Tournament will be held the eighteenth and nineteenth of November. This tourney, which will bring about forty schools to UVM, will involve many university students in running it smoothly.

The UVM debaters will travel to New York for the NYU Hall of Fame Tournament on December 16 and 17. In addition to the debates, an extensive program of discussions before civic groups throughout the state of Vermont will be given.

Apply Fulbright Fellowships, 1956-7 With Dean Kent

Seniors and graduate students who wish to apply for a Fulbright Fellowship for 1956-57 are urged to make application at once on forms obtainable in Dean Kent's office, 107 Waterman Building. Applications usually take several weeks to complete, and the deadline for receiving them is October 31, 1955.

Last year at UVM there were seven applications, four of which were successful. Miss Marjorie Rowell received a state appointment to study political science in France, Miss Ruth Clarke received an appointment to study French literature in France, and Mr. Raymond Leonard an appointment to study forestry in Finland.

Word has been received that all three have begun their studies abroad. Mr. Joseph Kivlin, who received an appointment to study animal and dairy husbandry in Australia, was obliged to resign his appointment because of previous commitments.

Fulbright scholars receive stipends of approximately $3,000, plus travel expenses.

For 1956-57, applications will be accepted for study in the following countries:

Australia	Greece
Austria	India
Belgium & Luxembourg	Italy
Burma	Japan
Ceylon	Netherlands
Chile	New Zealand
Denmark	Norway
Finland	Philippines
France	United Kingdom
Germany

World Problems Focus On Theme SearchForValue

For the Fall Semester, 1955, the course in World Problems will focus on the theme of "The Search for Values in a Changing World." Lecturers representing various disciplines and colleges throughout the University (including the natural and living sciences, the social sciences, and literature and the fine arts) will relate their subjects to this theme.

The students enrolled in the course will be presented with the knowledge and reasoning processes involved in trying to find the answers to such questions as the following: What values are important to the educated man and woman living in the modern Western world? What light is shed on the search for values by the various disciplines which constitute the subject matter of college curricula? How does a college education help a student to discover values, to discriminate among values, and, finally, to choose and live by values? How does the student reconcile his values with the ever-changing relatives in the world about him?

Each lecturer will address himself to the following tasks: (1) defining the limits of his particular discipline; (2) indicating the relationship between his discipline and values; (3) showing the relationship between these values and the various relatives which may or may not invalidate a system of absolutes.

In effect, it is hoped that this course will help the student find some rationale, some philosophy of life (practical or idealistic, or both), which perhaps will give meaning to his college education and to his later life.

Revue And Musical Comedy Replace Usual "Varieties"

By Stan Sakowitz

Instead of the usual variety show, this year the Vermont Varieties will consist of two parts, a revue and a musical comedy.

The first half of the program will be a musical revue entitled, "So You Want To Go To College?" It will consist of eight acts which are satires on many well-known aspects of college life. Among these ROTC, skiing, graduation, alumni, job interviews, and dating. Jack Ovitt will accompany the groups participating in this first half of the show.

Dean Alan Coutts, new Dean of Men, has also consented to act in the revue. The UVM Choir will also sing several selections in this first part, among these an original UVM song composed by Professor Howard Bennett.

The second half will be an original musical comedy called "A Fable For Football." The book and lyrics were written by Professor Greg Falls, music by his wife, Jean Falls; orchestration, Professor Howard Bennett, and dances created by Martha Howe.

The musical comedy is based upon a football game. The characters in the comedy are: He, Alfred Wilder; she, Betsy Brazil; Coach, Tom Marx; Rural Vermonter, Professor Francis Colburn; and four Alumni, Dean George Kidder, Professor Robert Huber, Profeesor Jack Little, and Ernest Stockwell, Assistant Director of Student Personnel.

Included in the comedy are four original songs: "Come On Out To The Stadium," "You Gotta Kiss Me," "We're Alumni," and "The Coach's Song."

The entire football game complete with two teams and officials, will be danced to the music orchestrated by Professor Bennett from these four numbers. Those participating in the dance created by Martha Howe are: Dick Adams, Rusty Clarke, Dorothy Cook, Liz Curtis, Nanette Gros-Daillon, Gail Henion, Roy Kelly, Holly Kerckhoff, Pat Lovell, Gail Murray, Mickey Rotanelli, Mike Solby, Fay Weston, and Lennie Weinstein. The dancers will be accompanied by Carol and Carolyn Brumbaugh on the piano, while Lorraine Benedict accompanies the singers.

Ralph Vanderslice, new speech instructor, has designed all the scenery for the production, which includes a backdrop of a stadium for the musical comedy. The addition of more decor in the various numbers will also be evident in the production.

The Business Manager for the Vermont Varieties will be John Van Blarcom, assisted by Robert Putnam; Stage Manager, Janice Bartholomew assisted by Lee Barker; Scenery, Rusty Clarke; Lighting, Dave Safford; Makeup, Sheila Robertson; Props, Arthur Bolles; Stage Crew, Gerry Groden, and Publicity, Becky Orvis.

Pre Med Society To Hold Its First Meeting Tonite

Tonight at 7:30 p.m. the Pre-Medical Society will hold its first meeting of the year in the Waterman Lounge.

The main part of the program will consist of a discussion on "The Purpose of a Pre-Medical Society at the University of Vermont." The speakers will be Dr. Harold Pierce, Professor of Bio-Chemistry at the Medical School, and Dr. Clinton Cook, Assistant Professor of Chemistry in the Liberal Arts College.

At the meeting, the members of the Society will also vote on their constitution.

In the future, the Pre-Medical Society will invite members of the faculty to discuss such topics as: Graduate Work, Allied Fields of Medicine, Medical Education in the Army, and the Pilot Pre-Medical Program.

Cox Announces Military Awards Given 12 Seniors

Twelve UVM Seniors received Distinguished Military Student awards from the UVM Military Department at ceremonies last week, it was announced by Lt. Col. William E. Cox, Professor of Military Science and Tactics. Eight of the awards were won by Vermonters.

To earn the Distinguished Military Student designation a UVM Senior must have demonstrated superior leadership with the Military Department at the ROTC Summer Camp held at Fort Bragg, N.C., and on the campus. In addition, the award winners must have demonstrated high moral character, above average scholarship, and must be recommended by their academic deans.

The Distinguished Military Student awards are approved jointly by President Carl W. Borgmann and Lt. Col. Cox, who made the presentations. Recipients of the award are eligible for Regular Army commissions which become effective upon graduation.

The eight Vermonters earning the award were Jan D. Curran, Burlington; Thomas J. Marx, Burlington; Murray J. Guy, St. Johnsbury; John M. Quinn, Burlington; George H. Hanson, Rutland; David S. Thorpe, Sr., Burlington; Theodore D. Lyman, Jr., Swanton and Clyde E. Lewis, Jr., Brattleboro.

The remaining four award winners were Robert G. Gorman, Great Neck, N.Y.; William B. Nichols, Manhasset, N.Y.; Kenneth L. Wadley, Great Neck, N.Y. and Edward J. McCabe, Jr., Larchmont, N.Y.

Sig Phi Epsilon Votes To Remove Racial Clauses

At its annual national convention, Sigma Phi Epsilon fraternity voted to remove all discriminatory clauses. This action was endorsed by the entire membership of the Vermont Gamma Chapter.

John Burgesswas delegate to the Grand Chapter Conclave. John Burgess, Chapter Historian, told the CYNIC that all members of the Gamma Chapter were "overjoyed" to comply with the new regulations and to remove all discriminatory action.

Homecoming Promises Great Fun Weekend

By Lenore Weinstein

Homecoming, the first big week-end of the new semester, will be ushered in with a bang tomorrow night. Beginning with the Pep Rally and continuing through until Sunday afternoon with the sorority teas, the UVM campus will be overflowing with visiting parents and alumni. "The plans have been laid," said Ken Brunjes, overall chairman of the Homecoming committee, "for a great weekend of fun."

The Pep Rally tomorrow at seven p.m., in preparation for the big game Saturday against the Rams, will start the weekend rolling. There will be a parade up to East Campus where there'll be talks and cheers led by Coach Donnelly of the football team. Several of the fraternities will present short skits.

Thornhill

One of the big highlights is the informal Homecoming Dance, to be held in Memorial Auditorium from nine to one o'clock tomorrow evening. The dance band of Claude Thornhill with his featured singer, Patti Ryan, will play for the affair. This band has been chosen by Look Magazine as the "Band of the Year." During the evening the King and Queen, elected by the students to reign over this weekend, will be crowned by Claude Thornhill. Also the Intra-mural trophies and the Traynor trophy award will be presented to the fraternities.

Saturday, by tradition, will be Mom and Pop's Day. In the morning there will be the judging of the sorority and fraternity poster contest conducted by George Rude of IFC.

Cane Rush

In the afternoon the Vermont football team will take the field against the Rhode Island Rams at Centennial Field. During the intermission the traditional Cane Rush between the Sophomore and the Freshman men will take place. Theoretically, if the Freshmen win they can stop wearing their beanies before Thanksgiving recess. In honor of Mom and Dad, the King and Queen will award blankets to the parents with the most children attending UVM and to the parents who have traveled the farthest. After the game, the Animal Industry Club will give its annual roast beef Bar-B-Que, which will be held in the Cage.

Saturday night sees the talent of UVM get together for its yearly production of Vermont Varieties. This year the Varieties will consist of a musical show written by Gregg Falls entitled "Fable for Football." The show will start 7:30 and run approximately two hours.

Tickets

Following this, most of the fraternities will have open houses. On Sunday afternoon the sororities will wind up the weekend with teas and open houses to welcome the parents and alums.

Tickets for all activities may be purchased in lower Waterman starting Tuesday and continuing through Friday from 0-3.

The chairmen working on the weekend are all members of the Class of '57. They are: overall chairmen, Ken Brunjes and Phyllis Bracey; Finance, John Burgess and Florence Alexander; Dance, David Curwin and Sandy Waugh; Publicity, Marilyn Falby and Max Anschacher; Mom's and Pop's Day, Pat Cheney and Rudy Keimowitz; King and Queen contest, Don Sidder and Roberta Baker; Tickets, John Lounsbury.

Friday To Feature U V M Coronation Of King And Queen

Tomorrow evening at Memorial Auditorium your 1955 Homecoming King and Queen will be crowned by Claude Thornhill. The coronation of the royal couple will culminate a week of anticipation on the part of the candidates and expectation on the part of the entire student body. The coronation will also be the beginning of a royal weekend for the victorious couple who will reign for three days at the various Homecoming events. The King and Queen will be sitting in a special section at the football game on Saturday, October 8th, and will present blankets to the parents who have traveled the greatest distance in order to attend the Homecoming weekend, during the half.

As in the past the King and Queen will be elected from among the candidates who are all members of the Freshman Class. This year there are 29 students waiting to discover which two are the royal ones. Which King and Queen have you elected from among the following candidates?

Julie Coseo	Allen House
Bev Stowell	Clagget House
Joey Bellman	Collins'
Mary Lee Morril	Converse Hall
Jane Donelon	Coolidge 1st
Doris Graff	Coolidge 2nd
Betsy Cale	Coolidge 3rd
Barbara Bond	East Hall
Sarah Godrey	Elmwood Hall
Maddie Loeffler	Grassmount
Jean Robbins	Lyman Hall
Bambi Burdick	Old Mill
Marilyn Ann Howell	Phelps'
Alice Dvorsky	Redstone Hall
Sheila Carey	Robert's House
Christine Ries	Robinson Hall
Anita Fregosi	Sanders' Hall
Ann Kimball	Slade Hall
Sue Gilbert	Stebbins'
Joan Looker	Warner's
Malcolm Graham	Buckham Hall 2nd
Bob Gallagher	Buckham Hall 3rd
Mike Farina	Chittenden Hall 1st
Robert Gordon	Chittenden Hall 2nd
Bill Swanson	Chittenden Hall 3rd
Don Santa Cross	Chittenden Hall 4th
Bob Cole	Wills Hall 2nd
Al Overton	Wills Hall 3rd
David Edwards Hagberg	Wills Hall 4th

If you have not voted, as yet, the polls will be open until 4:30 P.M. today in the Main Hall of Waterman. Elect your King and Queen now.

Student Court Picks Attorneys For This Year

Last week the Student Court picked its attorneys for this year. The positions are as follows: Prosecuting Attorney, Dave O'Brien; Assistant Prosecuting Attorney, Charles Wilkie; Defense Attorney, Lawrence Klein; Assistant Defense Attorney, John Burgess.

Richard Hooker, Chief Justice of the Student Court, commented on the quality of the people chosen for the positions, and stated that he hoped the court would not have to deal with such cases as faced it last spring.

Hooker asserted that the chief function of the Court was one of justice and not of punishment.

"Thornhill Touch" To Provide Music For Friday Dance

Claude Thornhill, popular bandleader and musician, will provide the music for the Homecoming Dance held at Memorial Auditorium on October 7.

Thornhill has constantly attempted to extend the range of a popular dance orchestra by giving it new harmonics and voices. At the same time, he has always had good danceable beats and good listenable melodies.

Speakeasy Start

Mr. Thornhill was considered a prodigy at a very early age. He was first enrolled at the Cinncinati Conservatory of Music to study concert piano. After a while he left there to play in a dance band featured in a midwestern speakeasy. His parents soon put a stop to this and Claude enrolled at the Curtiss Institute, where his talent was given guidance and direction.

In January, 1940, Thornhill formed his own band and debuted at the Hotel Pennsylvania in New York. He continued to play in many hotels and theaters throughout the country.

Navy Troupe

In October, 1942, at the height of his career, Claude enlisted in the U.S. Navy as an apprentice seaman. During the war he was ordered to take over the Navy's musical group, "The Rangers." The troupe made two successful tours of the Pacific, playing all the islands except Japan.

Following his discharge from service, Thornhill picked up the strings of his career with amazing ease. His piano virtuosity had lost none of the "Thornhill Touch" and his arrangements always superb in the past, were supplemented with new and improved ideas. Since then, both his personal appearances and records have yielded him a continuous stream of successes.

Fall is the theme of the Homecoming Dance. Since it is related to autumn, a new idea is being introduced. In place of the traditional streamers, pumpkins and corn stalks will serve as decorations.

Moms And Dads Day Are Added Attraction Sat.

Mom's and Dad's Day will be a feature of Homecoming Weekend. Parents, friends and alumni of UVM return October 7th and 8th. Through the Public Relations office, the chairmen, Pat Cheney and Rudy Keimowitz, have sent invitations to parents of university students.

The Moms and Dads begin Saturday morning with registration and issuing of identification tags. They may go and attend classes with their sons and daughters. At the football game with Rhode Island in the afternoon two prizes will be given. One will go to the parents who have the most students enrolled in the University, the other will go to the parents who have come the longest distance for the weekend. Both prizes are green woolen blankets with yellow V's on them.

Fathers' Bench

During the course of the game, the fathers of the football players will have a bench alongside the team and they will wear the same numbers which appear on their son's football jerseys. The mothers will also have a section reserved behind the football team where they may cheer their sons on to victory. All in all it looks like a very wonderful day for parents at Homecoming.....

Canadian Players To Present "Saint Joan" And "MacBeth"

By Susan Wakefield

The Canadian Players Ltd. will present not one, but two, plays for the UVM audience next week. "Saint Joan" by George Bernard Shaw, a regular George Bishop Lane Series offering, will appear on the Memorial Auditorium stage on October 11 at 8:15. The next evening at 7:15 the Players will present "Macbeth" by William Shakespeare. This production is not part of the George Bishop Lane Series, but is being sponsored by them as an extra feature.

"Tickets are priced especially low to give every student a chance to attend," said Pat Kolk, the chairman of the GBL series. Admission will be gained only by buying a separate ticket. Reserved tickets $1.50 and student tickets 75 cents are on sale at the COSA office and at Bailey's Music Store.

Comments

The Canadian Players are a young repertory group from Stratford, Ontario. They have been called the most outstanding Shakespeare company in North America. The Players' production of "Saint Joan" attracted continent-wide comment during its first season in 1954-55.

Tania Long of the New York Times said "Their acting ability is leaving viewers breathless and excited, and distinctive method of play presentation is giving new meaning to written dialogue."

In "Saint Joan" and "Macbeth," as in all their productions, the actors work without costumes or elaborate properties. The stage holds several tables and stools, lights, and one or two levels. The presentation is starkly real, focusing all attention on the actors and their skill. The Players are said to be not only of the highest ability, but also of greatest versatility.

Kerr

Walter Kerr on Canada's Stratford Shakespearean Festival of 1955, said, "The Canadian actors are young, unwearied, unimpressed by the velvet sonorities of tradition, though they do have a tradition of clear, easily poetic speech."

"Macbeth" considered one of Shakespeare's most powerful tragedies, is directed by Douglas Campbell. His basic concept is that any attempt to present physically the many scenes suggested by the verse of Shakespeare is to deny the very function of the verse.

In this Shakespearean play particularly, Campbell permits nothing to detract from the inward struggle of Macbeth. Lady Macbeth is not allowed to overshadow her husband, as is often the case. She is portrayed as a woman with a hard and small soul who is neurotic to a terrifying degree.

Variety

In "Saint Joan" the story of the young saint told in a very believable, human way. It

Joyce Is Speaker Of Newman Club AT First Meeting

The first monthly meeting of the Newman Club of the University of Vermont was held September 25th in the auditorium of Bishop DeGoesbriand Hospital.

The meeting was opened by a prayer led by Father William Mulligan. Then the various committee reports were given and included was a short report by the delegates to the National Newman Club Convention held at Boulder, Colorado, this summer.

The main speaker of the evening was Bishop Robert F. Joyce, Auxiliary Bishop of the Burlington Diocese. Bishop Joyce is a former UVM'er and one time Editor of the CYNIC. While studying here, Bishop Joyce was one of Vermont's leading students scholastically and at the same time president of our Newman Club here on campus.

The topic of His Excellency's talk was "Church Laws and Motherly Concern of the Church." The Bishop reminded us that "the Church is a divine institution founded by Christ with authority to teach all nations." The laws of the Church are only applications of the Divine law of God. They are made as a fulfillment of the responsibility of the Church to take care ot its members. The main purpose of these laws is to protect us spiritually and physically with definite concern for the health of our immortals souls.

It was then announced that the new faculty advisor of the Newman Club is Mr. R.W. Hooley of the Economics Department here at the University. Mr. Dick Zider entertained us by playing his own renditions of Grief's

Everyone's Day

Today is your day. It is not just for the football team, or just for the fraternities, or just for the hawkers to sell their wares. Rather it is for all; for the team, for the alumni, for the parents, in short, for everybody connected with the university.

The CYNIC feels that Homecoming Weekend is really something special. After all, it is one of the very few occasions when parents have a chance to view "their" school. And it is the first affair of the year that can really be called a "gala." The ramifications do not stop at the game itself, but are continued in the general spirit of the weekend.

This year we are fortunate to have a really good band for the dance. The Pep Committee and other groups have gone to great lengths to insure the success of their part of the events. The flower of the day will be "Mums" as sold by Mortar Board. Sorority open houses on Sunday will add to the interest and social note of the weekend.

Of course the most important element is the attitude of the average student. For whom does the team play? For whom are the Mums sold? For whose benefit are the open houses? It is for every student that all the organizations are oriented.

The average student can enter fully into this weekend. The pressures of school work have not yet built up. Exams are not yet foreseen. In short it is a real attitude of relaxation and gayety, with spirit that is catching.

Of course it would perhaps have been better if Homecoming were a week or so later instead of only in the third week of school. We don't need a complete rest now and it is still a long stretch till the Thanksgiving break. But lets face the situation as it is and all do our best to make the most of the weekend.

After all, it is our weekend-let's make it a success!

Poinig's Postscripts

by
WOLFE

Read today's news tomorrow! Tomorrow's "Free Press" and "Daily News" will give you a fine, fascinating, factual, flamboyant, full news coverage of UVM's most disgraceful social disaster. Twenty-four male students were rounded up and jailed after a raid on their fraternity house last evening. The charge was - guilty for drinking Serutan under 35.

Meanwhile, back at the UVM water tower, we find that it has finally been put to good use by some vandalous Picasso. Uninspired, but undaunted and unheralded, he withered the heights, brush in mitt, and crowned that dome. He must have been an upperclassman; he spelt it right!

As no one was able to answer last week's $64,000 question as to the correct spelling of gray (or grey), we have a new query for the week. The prize is Ira Allen Chapel. The all-important question is ... Where is Dean Coutts' office? All answers are the property of the CYNIC and none will be returned. However, a stamped envelope should be sent as this writer collects uncancelled stamps.

Student Union

Plans for the new Student Union Building have finally reached reality. Construction of the modern structure will begin the first week in November. SA voted the purchase of a king-size do-it-yourself kit. Three credits will be given.

Progress Report for the Fiscal Week September 27-October 4. The depth of the crater behind Coolidge has grown in leaps and inches. By this time next year, we will have one of the largest swimming pools in the world. I have been told that fourteen girls have taken residence in the steam shovel. The operator has voluntarily been put on half pay.

As a free advertisement, please keep in mind Saturday evening when the Vermont Varieties will be presented. After attending rehearsals, look for this writer, at that time, in the first row - of the Strong Theater.

Art Building

Plans have been made for the erection of a new art building on the site where East Hall squatted before it was partially destroyed five years ago. In the past few years, the remains have been a constant eye-sore to the university. These shambles have been, from time to time, used as temporary classrooms and dorms. Construction of the art center will not begin until the present edifice is destroyed by fire, earthquake, or an act of the Trustees.

We of the CYNIC will continue our policy, as in the past, of distributing this paper every Thursday afternoon ... after everyone has gone home.

Letter to the editor

Upon reading the article of September 30th on "...New Attendance Rules" I was most disheartened in finding this new ruling on tardiness. In this ruling the university has set tardiness on the same plain as absenteeism. When I began to write this letter I immediately thought of that proverb "Better late than never." And from this point I would like to state my feelings and I hope the feelings of the rest of the student body. First and foremost, if a student knows he will be late for a certain class, knowing that he will be marked absent for it, and if he doesn't have much feeling for the course to start with, I can almost assure you that that student will not be present. With this absence two things are lost. The first being his lecture notes and the second a chance to gain an interest in this course. I know that the ROTC organizations, which are known to have stringent clauses concerning punctuality and absenteeism, do not rate tardiness as severely as absenteeism. Surely, the university does not wish to outdo the military in strictness. I appeal to the professors in this university, who in the long run have the last say about things, do not fail (I don't mean that literally) the student who shows interest enough to come to class, any time. To finish up I would like to say that I don't know whether the University Senate at that memorable meeting meant this ruling as a punishment or a threat, but if someone happened to walk in late for that auspicious occasion I doubt whether they stopped him from voting.

Roger H. Madon - '58

Here's some fun coming your way! On next Saturday, October 15, Hillel is holding its fall dance. There will be refreshments for the hungry and good music for the dancers. Tickets are $.75 stag and $1.50 drag. Everyone welcome!

In Defense Of Derangement

By Gary Wright

In an old house by a torn-up street, an old man lived by himself. He was a student. He wasn't a good student and he wasn't a bad student. He was an old student. He lived in the old house and looked at the torn-up street and studied his books and was old. The younger students laughed at him and said that he was old and that he shouldn't be studying but he studied and studied and kept on getting older.

He studied English and speech and general science and History and Latin. He didn't like Latin. He didn't like History. As a matter of fact he was fed up with the whole bloody mess. But he was an old student and he couldn't change. He couldn't have changed a nickel.

One morning he went to his car. He went to his car every morning. Sometimes it wouldn't start. Quite often it wouldn't start. In fact the blasted fire trap hadn't run in three years. But he was sure it would start sometime and so he tried it every morning. It wasn't a good car. It wasn't even a fair car. It was a wreck. But so was he and so together every morning in the torn-up street they would try to start each other.

It was a nice morning and as he walked to his car a little boy came out of the house next door and said,

"Isn't it a nice morning?"
And he said,
"Yes, it is."
And the little boy said,
"Are you going to school?"
And he said,
"Yes, I am."
And the little boy said,
"Do good today, won't you?"
And the old man said,
"Yes, I will."

And he got in his car and he slammed the door and the whole furshlinger complotment came apart in the middle of the torn-up street.

"I am sure you are the best student in the whole world," said the little boy.

"I'm sure I am too," said the old man and he poked through the wreckage for his books.

"I am sure you get all A's," said the little boy.

"You're sizzling John right I do," said the old man and he picked up a club.

"I'll bet you always got A's," said the little boy.

"I'm sure that if you don't beat it I'm going to open your head all over the sidewalk," said the old man and the little boy ran into the house and the old man caught a bus to school.

At school the old man walked across the campus. The leaves were falling from the trees and the old man walked through the leaves. It was a nice day with the leaves falling across across the campus and the old man felt good walking into trees with the leaves fallin on a nice day. It was a nic campus with the trees fallin and the old man rolling in th leaves and the day feelin good.

In Englisn the old man had quiz. He had never had so ha a quiz. He did his best an the pen wore into his hand ar he held on to the pen an the seat and the quiz was hard

When the papers came bac the old man had a C and h felt bad and the little bo next door wouldn't talk to hi and the falling leaves (al green and gold), filled in th torn-up street and the old ma studied his books and wonder where in Rome he went astr and grew older and may Hemin way forgive me and God Bles America.

Did You Know

... That Thomas R. Powell the Class of 1900 once sa of his teachers at UVM: "The men all had ideas and not ju subject matters... I have fo gotten the number of grai in a gold dollar (in fact, had forgotten it by examinati time and so got only a B), b I have not forgotten Preside Buckham. I no longer kn gerund or gerundive, but still know Professor Goodric I have but the dimmest reco lection of Descartes a Spinoza, but I have an abidi sense of Professor Torre German participles belong what is for me a dead languag but Professor Huff still live I have rejected not a few the sweeping generalizatio of Professor Emerson, but have not rejected him."

Around The Green . . .

By Rhoda Rosenberg

CLOUD SEVEN

Cupid expended a complete quiver of arrows in the direction of the members of the Sigma Nu house over the summer vacation. His targets were the following: Pinned are Sid Russick to Liz Beck, a Kappa Alpha Theta; and Dave Ireland to Janet Kendall, also a Theta. Bruce Hausser is engaged to Olga Schwindler from Wheaton College and Charles Hicks became engaged to Bev Cameron from Delta Delta Delta. A few Sig Nu's were married, too. Pete Lauderback married Peggy McGowan, Delta Delta Delta; and Ronnie Ward married Diane Johnson also a Tri Delt. Ann Keville married Dennis Copeland.

The word from the Sig Phi Epsilon house is that Garry Fay, former president, pinned Nancy Twilliger and Hugh Bemis pinned Bonnie Buckley. Merrill Page, Joe Howe and Dave Tiley took the final plunge and were married. Another note of romance from 371 Main Street is that Everit Dargie, former vice-president, is to be married in November.

Wedding bells rang this summer for Nancy Catlin '57, an Alpha Chi, and George Ewins '54, of Theta Chi. Joan Gilmore '54, and Paul Lowe '54, of Sigma Phi were married. A third Alpha Chi, Mary Towne '57, married Jim Cronin '54, a member of Delta Psi. Ann Bogard, '57, is engaged to Ken Wadley, '56, of Phi Delta Theta. Mary Hargreaves, '57, was pinned by Chuck Bickelhaupt, '55, a Kappa Sigma from Penn State.

The Pi Phi's are happy to announce the engagement of Nancy Chapin to Jim Sells, '57, a Phi Delt. Anne Duncan is pinned to Dick Nelson, a Delta Chi Delta at the University of Conn. Another engagement is that of Lynn Stevens to George Chase, a graduate of Yale who is now working in Newark, New Jersey. Wearing wedding bands are Pi Phi's Marilyn Hinsdale, Sally Lou Jensen, Liz Semans, Sally Smith and Nora-Jane Palen.

Lois Arnson, an AEPhi from the nursing class of '57, was married last year to Stuart Cohen, a TEP alum. Engaged is Sheila Levine, '53.

Two Alpha Delta Pi's were engaged over the summer. Anne Terry, '56, Burlington, to Jim Akey of Burlington, and Melva Sheeran, '55, from West Orange, N.J., to Jim Salde, an SAE of North Adams, Mass.

Wedding bells caught several Theta's over the summer months. Dale Hulburd, '55, became Mrs. Don LeBlanc. Don graduated from St. Michael's last June. Frannie Kidder, '55, was married to Nelson Stiles, '55, on August 15. Carol Crossman, '55, married Rees Midgley. Rees is a Sigma Phi and is a Sophomore at the UVM Medical School. Janet Tudhope was married to Ned Austin, a Sigma Phi. "Diamonds are a Girl's Best Friend" has become the favorite song of Claire Battles and Carol Chase. Claire, '55, became engaged to Dan Hart, Lambda Iota, at present in the UVM Med School. Carol is engaged to Gordon Reese, a graduate of Trinity College in Hartford, Conn., who is now stationed in Germany with the U.S. Army. Anne Mitchell transferred to the University of Cincinnati, Ohio, where she is engaged to Dick Cobb, a Theta Chi from that school.

There was evidence in the air last spring of some strange malady at the Sigma Phi house, but no one expected that it would get as serious as it did. Sig Phi's married over the summer are: Tom Mundie, '54, to Katie Melby, '55; Jay Zwynenburg, '57, to Joan Latham, '58; Ed Willard, to Lorraine Hays, '57; and Alan Haley, '57, to Caroline Merritt, '55.

Look's like UVM's keeping Cupid pretty busy! You'll be hearing from him again next week.

DELTA PSI

The fifty returning Delts noticed numerous changes upon returning to their Summit Street home. During the summer extensive repairs were made on the roof, fire escape, and shower room.

The Woman's Auxiliary of Delta Psi contributed new drapes and rugs for the living room, purchased new dining room tables, and is making plans to decorate the library during the fall semester. Other improvements included for this year are a larger parking lot, and landscaping.

A new wing, sub-zero, was opened to make room for the group of returning students.

The following officers were elected for the fall semester on May 16, 1955: President, Jim Cleary '56, Marblehead, Mass.; Vice-President, Art Bylow '56, Barre; Critic, Jim Laraway '56, Morrisville; Corresponding Secretary, Russ Wagner '57, Lancaster, N.H.; Recording Secretary, Bruce Ferguson '57, Lancaster, N.H.; Archivist, Dick Speer '58, Flushing, N.Y.; Senior Prudence, Bill King '56, Laconia, N.H.; Junior Prudence, Don Bicknell '57, Richford; Sophomore Prudence, Don Carpenter '58, Mt. Lakes, N.J.; Social Chairman, John MacAuley '57, Graniteville; Steward, John O'Connor '56, Brant Lake, N.Y.; House Custodian, Pete Manning '58, Bethel; Grounds Manager, Bob Shuttle '56, Barre; Inter-Fraternity Councilman, Pete Manning '57, Bethel; Public Relations, Mike Turianski '58, Rochester, N.Y.; Treasurer, Paul Preseault '56, Newport.

Bruce Quinby '56, of Waitsfield, Vt., was selected as the outstanding member of the Junior Class for contributions to Delta Psi fraternity during the year 1954-55. Bruce was awarded the honorary ANDERSON PIN for this significant achievement.

KAPPA ALPHA THETA

The Theta's started out the season by having an Open House after the Union-UVM football game Saturday, September 24.

Carol Chase has been elected Pan-Hellenic and Rush Chairman for this year.

Reports from Theta's alums:

Reet Johnson is following through with her nurse's training in Boston. She and Sheila Fay, '54, have an apartment in the city.

Barb O'Hara is working for the Dell Publishing Co. in New York City.

Mary Pfotzer and Bobbie Mett are busy teaching second graders. Mary is in Warwick, New York and Bobbie in Schenectady, New York.

The Psychological Laboratory of the American Cancer Society in Hartford, Conn., is keeping Hope Keeler busy.

SIGMA PHI

The Sigs started off the new college year in fine style with a successful informal party Saturday night, Sept. 24.

The house also had two of its members traveling to Washington as "pea pickers extroidinaire." According to the two, Larry Tudhope and Teddy Howard, it was a dry summer in Washington. Pedro (the cat) Nejai sojourned in Sweden where he enjoyed the sights.

Several of the members were invited back to an honorary "Summer Session for Slipping Students."

Brother Paul Lowe has been added to the faculty as an instructor in engineering.

SIGMA PHI EPSILON

The Sig Phi Eps are having an Open House in honor of Dean and Mrs. Coutts on October 16. Hope to see everyone there.

PI BETA PHI

The Pi Phi's have a champion golfer in their midst. During the summer Jan Baily won the Championship at the Hanover Country Club. Congratulations, Jan!

ALPHA EPSILON PHI

Come see our new home is the cry of the A.E.Phi's. Things on the corner of Main and South Willard are really popping.

Last Wednesday, September 23, three new sisters joined the ranks: Terry Siegel from Manhattan; Eddi Sachs from Verona, New Jersey; and Rhoda Alper from Hillside, New Jersey. Guests at the initiation banquet held at the house were: Faculty Advisor, Miss Hood; AEPhi Province Director, Mrs. H. Abraham and Head Resident, Mrs. Robinson.

THETA CHI

The Theta Chi's had elections recently to replace lost members. Lee Hitchcock is the new President and Mike Rosco is the new Vice-President.

Five pledges made their marks and are soon to be initiated. They are: Herm Cumming, Pete Colli, Guy Holt, Jeff Farkas, and Norm McIntyre. Two new members have joined the house this year. They are Dick Scotland who returned from a two-year visit with Uncle Sam, and Bruce Griffin, a brother from the University of Rochester.

SIGMA NU

The following staff of officers will guide Sigma Nu through another scholastic year here at UVM: Angelo Pizzagalli, Emminent Commander; John Hopping, Lieutenant Commander; Charles P. Nelson, Recorder and Jr. IFC representative; Arthur Corrigan, Treasurer; Bruce Hausser, Chaplin; Stephen Millard, Alumni Contact Officer; John Willey, Steward; Bud Isaacson, House Manager; Edwin Hebb, Senior IFC representative and President and Ken Savela, Historian.

An initiation ceremony was held at the house followed by a banquet at the Olde Board. The following pledges were initiated into the brotherhood: Donald Aikman, Pete Daley, Edwin Clay, Gilman Didrick, Gerald Donahue, Fredrick Gerson, Robert Grimm, William Keeshan, Fredrick Vaughn, David Wentworth, and Charles Wilkie.

Watch out for Sigma Nu's touch football team. Their newly developed athletic field located in the rear of the house is paying off. They won their first game 33-0.

Spring house cleaning in the Fall. The brothers and pledges have been trimming up all of the wooden structure of the house in their spare time, which has greatly improved its physical condition. The entire house is eagerly awaiting the arrival of ashipment of pine-paneling, which is to be installed in the dining and TV rooms of the house. All preparations for its installment have already been made. Sounds terrific!

LAMBDA IOTA

The officers for the coming year, 1955-56, have been elected. They are as follows: President, High Sullivan '57 (Bellows Falls, Vt.); Board of Governors, Pete Wood '56 (Schroon Lake, New York), John Whales '56 (Burlington, Vermont) and Gil Forte '56 (Brandon, Vermont); Secretary, Jim Thompson '57 (Saratoga, New York); Treasurer, Charlie LaClair '58 (Bennington, Vermont); Social Chairman, Ed Crane '56 (Burlington, Vermont); Assistant Social Chairman, Dave Depatie '56 (Enosburg Falls, Vermont); IFC Representative, George Rood '56 (Essex Junction, Vermont); Junior IFC Representative, John Geisler '57 (North Plainfield, New Jersey); Steward, Bob Benoit '56 (Enosburg Falls, Vermont); Assistant Steward, John Cardwell '57 (Ludlow, Vermont); Corresponding Secretary, Jim Lancaster '57 (Wilmington, North Carolina); Athletic Chairman, Dick Turrone '58 (Bergenfield, New Jersey); Publicity Chairmen, George Rood '56 (Essex Junction, Vermont) and John Whalen '56 (Burlington, Vermont). In charge of the Homecoming Posters are Al Turner '56 (Yonkers, New york) who is the chairman and Dave Depatie, Pete Wood, Dick Dowhan '58 (Burlington, Vermont) and Eddie Ash '57 (New York City, New York).

SIGMA ALPHA EPSILON

The following members have been elected as the officers for the coming year: Eminent Archon, Dave O'Brien; Eminent Deputy Archon, Joe Healo; Eminent Treasurer, Tom Dolan; Eminent Recorder, Dick Amato; Eminent Chronicler, Bill Grace; Eminent Correspondent, Ray Merrihew; Eminent Herald, Cookie Soshnick; Eminent Warden, Tom Egan; Chaplin, Dick Hooker; Steward, Jim Slade; and House Manager, Pete Gipson.

Occupational Hazard

LOS ANGELES — (ACP) — Mark Thoreson, Daily Trojan columnist on the USC campus, had a new type of shampoo recently.

While seated in the campus grill, quietly sipping a coke, a coed suddenly poured a chocolate malted milk over his head, shouting, "Take that for your column!"

WSGA Ruling On Smoking Improves Study Habits

The Women's Student Government Association passed a new ruling to the effect that it is permissable for women students to smoke in their rooms in university dormitories and sorority houses.

Miss Margaret Mary Wing, Assistant Dean of Women, attended the Chicago Conference this summer, where she discovered that fewer colleges throughout the country have separate smoking rooms and that more colleges allow smoking in dormitory rooms.

"The emphasis on the importance of study and the concern with students as students," according to Miss Wing were factors leading up to the new WSGA ruling. Also much consideration for the college students as adults was given by the women's governing group.

According to Miss Wing thi new ruling has been successfu so far. There is an indicatio of more time spent in stud since there is no longer need for a central smoke where much study time ha been lost in the past. Th Dean of Women's office ha been assured from variou dormitories throughout th university that the cigarette have not caused housekeepin problems or fire hazards thu far. Another reassuring facto is the idea that there hav been no parental complaints

Another new WSGA ruling -- concerning telephone hours. After 11:00 p.m. all outgoin calls close and incoming call are taken by the Head Residen or the House President. In th past the deadline for calls both incoming and outgoing wa set at 10:30 p.m.

News Of Faculty And Staff
Prepared By The Public Relations Office

NOTICE

The Rev. H. Edwin Rosser, representing the Student Volunteer Movement For Christian Missions, will be at 36 Waterman from October 10 - 12. He is making plans for the Ecumenical Student Conference on Christian World Mission which will take place in December when 3000 students are making a pilgrimage to Athens, Ohio. Although Mr. Rosser will come primarily to interview students, any interested faculty members may see him at that time.

Faculty Notes

Richard Hooley spent several weeks this summer at the Phoenix Mutual Life Insurance Company's home office in Hartford, Conn., where he had a fellowship for the study of the insurance business.

• • • • •

An addition has been made to the family of Ralph Vanderslice with the arrival of a son, born September 21. Mr. Vanderslice recently joined the UVM faculty from Michigan State University. A member of the Speech Department, he will direct the University Players production in December.

• • • • •

President Borgmann welcomed the Vermont Feed Dealers and Manufacturers Association to the UVM campus on September 9. Dean Carrigan also addressed the group, which was holding its 13th annual meeting, in the Fleming Museum auditorium. Don Henderson is secretary-treasurer of the organization.

• • • • •

Verle Houghaboom and Robert Sinclair have been granted a year's leave of absence to obtain their doctorates from Michigan State University at East Lansing.

• • • • •

Vermont's Dairy Plant Operators and Managers Association will hold its 34th annual conference at the auditorium of the Fleming Museum next Wednesday and Thursday, October 12-13. Dean Carrigan will greet the assembly. Other faculty taking part in the conference are Hugh Riddell, Warren Dodge and Henry Atherton.

• • • • •

The second issue of the Vermont Agricultural Experiment Station quarterly publication, "Vermont Farm and Home Science," was distributed this past week. Alec Bradfield's picture is on the cover, with his study, "Good-Tasting Milk," in the magazine. Also featured are articles by John Little, Henry Atherton, Andrew Tessman, James Sykes and Susan Merrow. The magazine contains a tribute to Charles Jones for his 59 years devoted to research at the Experiment Station. The publication, which also contains a picture of the medal recently awarded to Dean Miller by the Government of Portugal, is available at the Office of Information, Publications Section, in Morrill Hall.

NEW DISCOUNT SERVICE

Bernard Rome, '56, has coordinated a new service for the purpose of saving money for the faculty and staff. Through the cooperation of business firms in Burlington and vicinity, the personnel of UVM may receive a discount at the members stores of from 5 to 50%, or a free gift. Among the fifty-one firms taking part in the program are restaurants, sporting goods stores, jewelers, laundry services, clothing stores, theatres and repair shops. Each concern has a coupon in the College Coupon Book, which Rome has had printed, and will honor them upon presentation. The College Coupon Book may be secured from Bernard Rome directly by sending two dollars to Box 28, Burlington, or they may be purchased at the University Book Store.

Dept. Of State To Give Exams On Dec. 9

The Department of State announced recently that the second written examination under the new revised procedures will be given in 65 cities on December 9, 1955. Candidates must file their request to take this examination not later than October 21 and to be eligible should be:

(1) at least 20 and under 31 years of age,
(2) United States citizens of at least ten years standing, and
(3) if married, married to an American citizen.

Those successful in the one-day written test will be given a subsequent oral examination before a traveling panel which will meet in regional centers. Beginning salaries for Foreign Service Officers range from $4400 to $5500 depending on age and experience; additional benefits include insurance, annual and sick leave and a generous retirement plan.

It is expected that approximately 300 officers will be appointed during the coming year as a result of the vastly increased need for Foreign Service Officers. These will fill positions both in the Department in Washington as well as at over 250 posts in 77 throughout the world.

On October 12, Mr. John N. Gatch, Jr., will be at University of Vermont. Appointments for individual interviews may be made for that date through the office of Student Personnel, Room 159, Waterman Building. Prof. George Little, Room 116, Old Mill, also has literature and information about the Foreign Service.

Cats Lose 34-0 AT Maine, Prep For RPI

Harriers Drop R P I 23 - 31

Coach Archie Post's Cross Country started off the 1955 season in style as they downed the Engineers of R.P.I. 23-32 in a meet at Troy New York. The Catamount Harriers were led by Captain Don Grady as the Vermonters took four of the first six places.

Grady who along with Larry Damon had been the mainstay of last year's Cross Country team took first place with a time of 25 minutes and 27 seconds. He was closely followed by Wyer and Best of the Engineers with 26:13 and 26:27. The next three places were taken by Catamounts Nelson Slack, John Fitzpatrick and Ken Wadley in that order. Art Tauber and Pete Perkins took eleventh and twelfth places respectively followed in fourteenth place by Frank Wall to complete the Vermont scoring.

The team faces Union at Schenectady this week and will face Weslyan in their first home meet on October 14.

At I See It

BY Ed Willard

WE STUNK; That was the general opinion of most of the Vermont football team after our 34-0 loss to Maine last week. The opinion also seemed to be well received here on the UVM campus and at the time of this writing, we who sit on the sidelines in judgment of those who carry on our football wars, may have created an attitude of defeatism which may well still be a successful football season. Anyway, to the student body, this quarter says "Don't give up the ship!" at least not without giving the boys a chance to redeem themselves!

The rest of this is to be concerned with what will probably be some wrong philosophy and directed at the team itself. There isn't too much consolation to be offered boys. A good kick in the derriere seems to do everyone good at one time or another and that's exactly what UMaine gave us last weekend. Most of you whom we've talked with seem to be either discouraged or mad about the whole thing. Is this quarter wrong in assuming that the Vermont football team hoped that the Maine team would think they were facing the same football team that they narrowly defeated last year? It's plain to see that the Mainers didn't.

A football team is an entity. It's a body of athletes working together for a common goal. Last year's team had a goal. Football has been on the rise here on the Vermont campus for the last four years. Last year's team reached a point high in the annals of UVM football. They set a goal and they reached it. Is it possible that the team this year is living on the record of last year's ballclub?

All we're saying here is this. The prospects of going on to a good season are still with us. We face five more stiff tests on the gridiron in as many weekends. This 1955 edition of the Catamounts is no slouch. The potential is there. The opportunities are there. We, the armchair generals are behind you. Let's set our goal on what we can do this year and look neither to the past nor to the distant future for our success.

Sports Shorts

HUSKIES ADD LUSTER

The University of Connecticut Huskies adds more luster to the growing prestige of the Yankee Conference as they downed a big-time foe in Boston University by a 10-7 score. The week before, UConn lost a tough 14-0 ballgame to Yale, supposedly the Ivy League power house this year.

CADETS MIS-PUNT

Norwich University set somewhat of a record in reverse last Saturday as the Horsemen had five of their punts blocked by a hard chargin Coast Guard Team. The Sailers completed the irony by scoring on all five interceptions

-- Coach Ed Donnelly, who took over the football coaching duties at the University of Vermont in 1952, has been improving the Catamounts' records slowly but surely. UVM lost all seven of its games the year before Donnelly was named head coach, and since that time Vermont has won 10, lost nine and tied two. Last year's club had the best record in the University's football history with a 5-1-1 mark.

CYNIC NEEDS
GOOD
SPORTSWRITERS
CAN YOU QUALIFY?

LET'S ALL TAKE IN A CROSS COUNTRY RACE THIS YEAR

-- All-New England halfback Eddie Beck (WALTHAM, MASS.) paced his University of Vermont teammates in all but one offensive department last year. Beck, who tied for N. E. scoring honors with 72 points in seven games, paced the Catamounts in rushing, total offense, pass receiving and scoring.

BUY YOUR SHAKERS AND PENNANTS FROM THE PEP COMMITTEE AT THE GAME.

What's this doing here? Nothing frankly; just filling space. If you want to write and see SPORTS on the Sports page, see Ed Willard at the CYNIC office.

Bears Score Three In Fourth

By Hickey Walters

Maine's Bears outclassed Vermont here Saturday, 34-0, but it wasn't quite as bad as the score indicated.

While the Catamounts were taking a shelling from the powerful Maine ground attack, it was the backfiring of desperation plays in the final period that spelled the big difference.

Down 14-0 at the half, the Cats came back from the intermission nnd outplayed their favored rivals through the third period. But they were unable to do much penetrating of Maine's line, which had the jump on the Cats all afternoon.

When Vermont went to the air in the final period the Bears got hold of a couple of the aerials to set up touchdowns, then blocked a punt to pick up a third.

Maine stuck to the ground throughout the first three periods. With Jack Small, Ray Hostetter and Warren Griffin getting the holes they needed for quick reverses - led by a pulling guard - the right side of Vermont's line was hammered.

The second time they got the ball, Maine went 38 yards after recovering a Vermont fumble.

Nine drives into the line made the 38 yards - plus five of penalty - as Hostetter went over from the one on fourth down after Vermont twice had stopped the charges.

An intercepted, errant Tom Tierney pass by Maine's Jim Duffy led to the second period score. Starting on the 50, where Duffy had taken a dive to grab the sinking aerial intended for John Galascione, Maine moved to its second touchdown with a series of first downs. The ground game worked smoothly as reserve halfback John Edgar skirted right end for the final 7 yards behind a host of blockers.

Vermont's biggest threat of the afternoon came right after this Maine score. Forced to kick after taking the kickoff, Eddie Beck saw Hostetter drop his spiraling, 38-yard boot on the Maine 26. Galascione pounced on the ball and Vermont was within striking distance.

Dick White hit Beck with a pass good for 11 yards and a first down on the 15, and Will Morse bucked up the center for a yard.

Here came the play that, in the opinion of all observers, really decided the game. White hit Morse with a pass out in the flat. Morse was all alone, with only Maine's Pete (Costopoulos) Kosty in front of him. Kosty came up fast from his flanking position and nailed Morse in his tracks, and what should have turned into a big gain and a possible score was changed to a 7-yard loss.

Set back, the Cats couldn't pick up the necessary yardage and lost the ball on downs.

They never came back again, although playing Maine to a stand-off in the third period.

The fourth period Vermont gambling backfired. Set far back by a tremendous punt by Jim Duffy as the third period ended the Cats went to the air again.

But Kosty (he pitched the Bears to last year's win over Vermont) intercepted Tierney's long aerial on the Maine 41 and ran it back to the Vermont 17. That ended with the third Maine touchdown a few plays later.

With the Vermont reserves in the game, Maine held the Cats and Vermont punted out to mid-field. Again the ground game added up the yardage as Duffy Edgar and Joe Herbert churned away. Then, from the 20 yard line Maine crossed up Vermont as Edgar, faking an end run passed to reserve end Jim Carroll in the corner of the end zone.

Maine was back with its fifth touchdown two minutes later.

On the third play after UV carried a deep kickoff back to its own 26, White fumbled on an attempted pass and the Bears' Bill Tarazewich recovered on the 26. A five yard penalty set Maine back to the 31, but Leroy Moulton needed but one play to score.

Using the same reverse with a guard leading that had paved the way for the first two touchdowns in the opening half Moulton cut through left tackle, reversed his field and skipped into the corner of the end zone.

Vermont drove into Maine Territory in its final gasp for life, but the Bears' reserves held and Tierney dropped back to punt. He never got it off as John Castor smashed in to block it and recover on the Vermont 28. Moments later it was all over.

PUNTS and BOOTS: Maine was "up" for this one. Coach Hal Westerman said after the game "we could do nothing wrong, Vermont couldn't do anything right" ... Best end we've seen since Vermont's Al Campana was operating, Maine's Thurlow Cooper, big, fast and smart...

No serious injuries among the Catamounts, but there'll be some bumps and bruises...Marv Johnson missed at fullback his out-of-commission knee may keep him away another week...Maine used a pair of guards as linebackers, and they were charging Vermont's QB's at the snap of the ball. This accounted for hurried handoffs and passes that resulted in six Vermont fumbles and four interceptions...

Coach Ed Donnelly philosophical about the game... "I could see a lot of good points," he said, "I think the boys all learned a lot."

Rhody Has Two Ties & One Win

This coming Saturday Coach Ed Donnelly's University of Vermont football team returns to the spacious confines of Centennial Field to play host to the University of Rhode Island "Rams." This game will mark the 54th Anniversary of intercollegiate football at UVM dating back to 1897. A capacity crowd is expected at the game which is the feature of the University's 54th Homecoming Weekend. In this their 3rd game of the season, the Catamounts will attempt to "bounce back" from this last weekend's Yankee Conference loss to a strong University of Maine team and back in contention in the Yankee Conference race for the "Bean Pot Trophy."

Though they lost to Maine 34-0 the game was really much closer than the score would indicate. Vermont was only trailing 14-0 going in to the final stanza, but then the roof fell in as Maine quickly capitalized on 2 intercepted passes and a fumble converting all 3 into touchdowns for a somewhat hazy runaway triumph. The loss broke a 6 game Catamount winning streak. Coach Connelly's only comment in regards to the loss was that the "Black Bears" just had "too much manpower and they were bigger and stronger than our boys were."

SA Social Comm. Cooperate For Better Social Life

The Student Association is taking a direct interest in the social life of the students for the first time. Acting through the Social Committee it has set up a schedule in which there is at least one activity planned for every weekend this fall.

Nancy Bush, committee chairman, said that the program seems to be a success so far but that they would wait until the end of the semester to tell whether it would be continued.

Sponsors and Coordinates

The committee acts both as a coordinating unit for already existing programs, and as sponsor for other activities. It has sponsored the "Glenn Miller Story" which was presented free of charge in the student lounge recently. Nancy Bush said that the lounge was "quite full." The committee plans to show four more movies this semester.

This weekend the Social Committee sponsored a juke box dance after the Vermont Varieties in the Student Lounge. Next week the Sophomore Class dance is part of the Social Committee schedule.

Towards Fuller Social Life

The Social Committee has actually been in existance for quite a while although prior to this year it has been inactive. Last spring the SA Council held long discussions to determine if it could help students lead a fuller social life. The fact that freshmen would not be able to rush until the mid-semester recess prompted their purpose. The Social Committee wrote letters to other schools in order to get ideas for an effective program.

Money for the activities of the committee has been provided by the Campus Kickoff. This dance was sponsored by the committee and netted it about $250. The movies have been sponsored jointly with the Audio-Visual department and the funds from them have come from the Vending Committee.

When Nancy was asked if the fraternities had shown any adverse comments to an all University social program she said that they were in fact encouraging. "It isn't fair for the freshmen. No one wants to see them left out of things."

The other members of the committee are: Lorna Dean, Ralph DesLaurier, John Lane and Judy Umpa.

Intergrate Arts Into Medical Training Plan

Many medical colleges have complained about the lack of interest of medical students in liberal arts once they have entered medical school. The students feel that they do not need to apply their liberal arts training to their medical school training.

Late last spring, a combined committee of the liberal arts and medical faculty met and devised a plan that they thought would help alleviate this problem at Vermont.

Combining Courses

The plan calls for the senior pre-med students to split their last year of pre-med training with their first year of medical training over a two-year period. In is hoped that their interest in liberal arts will still be alive while in medical school, and that they will apply their liberal arts training to Medical training.

The burden of thr hard work may weigh heavily on the men's shoulders. It also requires a juggling of their

(Continued on page 7)

IFC Considers Violations Of Its New Rushing Code

At a recent meeting of the Interfraternity Council, charges of rushing infractions were brought against two campus fraternities. Tau Epsilon Phi was charged with giving a food scholarship to an eligible freshman rushee, while Sigma Alpha Epsilon faces a possible charge of allowing a sophomore transfer student to live in the fraternity house.

In the case of Tau Epsilon Phi, the fraternity pleaded ignorance of the rushing rules established by the I.F.C. and denied any attempt to fraternalize with the implicated rushee. The rushing committee of the I.F.C. meanwhile maintained that according to the adopted rushing regulations, their action was a definite violation. A vote was then taken and it was voted to indict the fraternity on the charge stated. This means under a recent statute that trial will be held with three non-campus fraternity members of the faculty sitting in judgement. In the event of conviction, a fraternity can incur a penalty of $100.00 payable in one month to the I.F.C. and may not be eligible for competition in any inter-fraternity event until the payment is made.

Sigma Alpha Epsilon was accused of permitting a sophomore transfer student to live at the fraternity. The fraternity maintained that the boy had a brother living at the fraternity and permission was obtained from a university official for him also to live at the house. The motion of indictment was tabled and the case will be heard this week.

Ed Hebb, President of the I.F.C., has had a bulletin issued to the fraternities on campus and to the freshmen outlining the rushing regulations in effect this year, and because of the newly accepted system of mid-semester rushing, he had asserted that violations will be dealt with conscientiously so as to give the fairest trial possible to this new plan.

FALL ELECTION CANDIDATES

There will be a meeting of all candidates who wish to run in the fall election, October 28. All classes elect representatives to the Student Association and the Freshman class will elect its officers. The meeting will be at 7:30 in the Student Lounge on Monday October 17. Petitions will be given only at that meeting, and only those present will be eligible to run in the election.

Homecoming Activities Prove Stupendous Success

By Lenore Weinstein

"Homecoming is usually ne of the most enjoyable eek-ends at UVM because it s the first big one of the ew semester. Everyone here, 'm sure, who shared in the raditional festivities enoyed themselves," said hyllis Bracey, overall hairman of the week-end.

UVM had two days full of ctivities all over campus hich were well attended by lums, parents and students. riday night at 7:00 P.M. he Pep committee held a ousing Pep Rally on East ampus. Later on in the vening Memorial Auditorium as well filled with people ancing to the musical elodies of Claude Thornhill. he featured event of the vening was the crowning of he King and Queen. Malcolm raham and Joan Looker, espectively, won the titles r the week-end. Also the raynor trophy awarded to ie fraternity which on an ctivities point basis has ccumulated the highest score, as presented to Phi Delta eta.

On Saturday morning the dges of the I.F.C. poster ntest toured the fraternity d sorority houses to make eir decisions. Saturday fternoon, bright with banners d yellow mums, was saddened our defeat to the Rams -0. However, the Roast Beef r-B-Que held in the Cage by e Animal Industry Club d the many jazz concerts d open houses all over mpus, after the game, did tch to raise everyone's irits.

Vermont Varieties played a large audience at Meorial Auditorium. The show ven in two parts was very ll received. The first lf, a revue, was entitled, So You Want To Go To Colge." The second part was a short muscial comedy, "Fable for Football," written by Gregg Falls. During intermission the winners of the poster contest were announced. In the sorority division Alpha Chi Omega took first, Tri Delt, second, and honorary mention went to Alpha Delta Pi. In the fraternity group Delta Psi placed first, Sigma Phi Epsilon, second, and honorable mention was tied between Lambda Iota and Tau Epsilon Phi.

The evening was rounded out with singing, dancing and drinking, at all of the fraternity open houses after the show. The week-end wound up with the sorority open houses and teas on Sunday afternoon.

"All the people working on the various committees did a marvelous job," said Phyllis Bracey. "They should all be congratulated on their fine efforts."

King Malcolm Graham and Queen Joan Looker at the Homecoming game at Centennial Field last Saturday. They were crowned the night before at the dance by Claude Thornhill. *(Photo by Eisner, SPS)*

The spectacular Delta Psi entry took first prize in the Fraternity division. *(Photo by Levine, SPS)*

This well executed poster gave Alpha Chi Omega the judges nod as best sorority display. *(Photo by Levine, SPS)*

Fleming's Value Increases With Vast Reorganization

During the summer, the Robert Hull Fleming Museum underwent a vast renovating and reorganizing program under the supervision of its director Dr. Alan Gowans.

The present program began a year agok when Dr. Gowans undertook the tedious job of taking "inventory" of the museum's possessions and displays, and contemplated giving the museum a more modern look by reorganizing and rearranging the rooms.

After an evaluation of the museum's collections, Gowans took the second step in his plan and started the renovating and reorganizing work which it is felt will increase the Fleming Museum's value to the University's faculty and the student body.

New Arrangement

This is nothing really new," Gowans points out. "The Museum has been in a state of gradual change since it was completed in 1931. This year's renovating will bring a good deal of the long-range plans to the completion stage, and it will continue throughout the coming year."

"An instructor or lecturer can now stand in the middle of a room and present his material in a logical sequence, with every student being able to see the material discussed at the same time," Gowans points out. This is achieved by doing away with the long cluttered rows of display cases which have traditionally filled the centers of rooms in older museums, and by using the sides of the rooms for most of the displays.

Gowans considers the Fleming Museum an outstanding asset to the University and one that should be among the most rewarding experiences offered by UVM to its students.

With this in mind, a new lounge has been made available for students' use, paid for in large part by a grant from the student Vending Machine Committee. The *Centaur*, the literary magazine of UVM, now has its offices in the museum, and students are going to be encouraged to make more use of the museum building for meetings and discussions.

Painting Exhibit

One of the museum's biggest projects is planned for the old natural history room, which will be turned into a gallery for exhibiting the museum's permanent collection of paintings, as well as furniture, costumes and ceramics for the use of several different departments of the University.

The painting exhibit, when completed will feature a special section devoted to "Painting in Vermont." This will include outstanding works of native Vermonters or others who have painted the Vermont scene. It is hoped that this gallery will provide a focal point for the rich artistic life of the state.

Apply Law School Admission Test To Be Held November 12

The Law School Admission Test required of applicants for admission to a number of leading American law schools, will be given at more than 100 centers throughout the United States on the mornings of November 12, 1955, February 18, April 21, and August 11, 1956. During 1954-55 nearly 10,000 applicants took this test, and their scores were sent to over 100 law schools.

A candidate must make separate application for admission to each law school of his choice and should inquire of each whether it wishes him to take the Law School Admission Test and when, since many law schools select their freshman classes in the spring preceding their entrance, candidates for admission to next year's classes are advised ordinarily to take either the November or the February test, if possible.

The Law School Admission Test, prepared and administered by Educational Testing Service, features objective questions measuring verbal aptitudes and reasoning ability rather than acquired information. It cannot be "crammed" for. Sample questions and information regarding registration for and administration of the test are given in a Bulletin of Information.

Bulletins and applications for the test should be obtained four to six weeks in advance of the desired testing date from Law School Admission Test, Educational Testing Service, 20 Nassau Street, Princeton, N.J. Completed applications must be received at least ten days before the desired testing date in order to allow ETS time to complete the necessary testing arrangements for each candidate.

Frosh Beanie Travels Excitedly On UVM Campus

By Eddie Lawson

Ladies and gentlemen, allow me to introduce myself, I am a freshman beanie. A few of you have seen me before, I'm sure, but, to the many of you who haven't let me describe myself.

I am a rather small object designed for covering the head. College students ungraciously call me a "beanie," but actually I am a very distinctively-styled chapeau. My relatives are found in most schools across the United States in one form or another, but we assigned to UVM are the most attractive of the lot. We are a gay, bright green, and our numerals are emblazoned on us in pure Vermont gold. Very distinctive!

I am new to the Burlington campus myself, but my father and grandfather were both beanies here. They've told me lots of stories about their days as beanies. Why, my grandfather said he was worn almost constantly, and when his owner passed out of the beanie-wearing stage, grandfather was wrapped in tissue and stored in a trunk. He belonged to a girl, you see. Incidentally, grandmother was in the same trunk!

Father had an even more fascinating time. He was given to his owner's girlfriend when his official term was ended, and she wore him quite rakishly for a long time. Then he met mother at a college reunion party, and they settled down.

Belong

Now here I am! I arrived here with a lot of my relatives and friends on September 9th. That was a big day for me. I could hardly wait to be picked out of the pile and placed on some one's head. The registration lines started to move, and, at last, I was picked up and placed on the head of a tall pretty brunette. Wow, was I thrilled! I was hoping to be given to a girl.

Well, that began my life at UVM, and with Jane. She wore me faithfully all her first day at UVM. I met all of my friends, too. They were all as happy as I.

Then came Saturday, the 10th. Jane pinned me on that morning, gazed at her reflection in the mirror, then took me and bent me in half so that I'd look better on her flowing locks. Well, did I ache! She ruined my binding completely, too. Anyway, she still wore me -- all day.

"Really Terrific" Describes Exploitation Of Mt. Mansfield

On October 2 the Outing Club held its annual Mountain Day with the summit of Mt. Mansfield as the goal.

Fifty-two UVM students, including Outing Club members, and others, left the campus Sunday morning, accompanied by two chaperones.

The hike up the mountain was interesting even though it required much energy. With little to carry and breathing quite regularly the boys reached Mount Mansfield's apex considerably sooner than the co-ed group. With a later start the girls had acquired the responsibility of carrying most of the food for the picnic lunch including the cider, which can become very heavy on a trip such as this.

The Top!

The climax of the day was, after reaching the summit, to observe the terrain for many miles with the aid of field glasses. If you recall correctly, Vermont's beautivul autumn foliage was most colorful on this weekend. It was an exceptionally clear day providing an excellent view of the Adirondack Mountain Range in New York State; the White Mountain Range of New Hampshire; nearly all of northern Vermont; and, of course, UVM's campus. Mount Mansfield is the highest elevation in Vermont, towering to 4,405 feet above sea level.

The trip proved to be "really terrific" as was described by one of the hikers. With no accidents, clear and sunny weather, and a large group of fellow students exploiting one of the Green Mountains of Vermont; what could be considered as a more ideal day?

Recently, the Intercollegiate Outing Club Association sponsored a weekend of enjoyment for college students on Lake George's Turtle Island. Many students, along with Outing Club members took advantage of this opportunity by spending last Saturday and Sunday at the meeting on New York State's picturesque Lake George.

Next?

On Saturday, October 15, a group of UVM students will meet the challenge offered by Mount Marcy. Any enthusiastic mountain climbers are invited to join the group by spending a healthful and refreshing week-end away from studies. Anyone may obtain information by consulting the Outing Club bulletin boards in lower Waterman. All of those desiring to experience the satisfaction of climbing the highest mountain in the Adirondack Range and observing its magnificent view, should sign up by three pm, Friday, October 14.

Six Department Heads Are New Appointees

Six new appointees were included on the list of department heads for the 1955-56 college year at the University of Vermont, which was announced last week. Three of the new chairmen are in the College of Agriculture and Home Economics.

Alvin R. Midgely, who was on leave from his post as professor of agronomy at UVM from 1954-55, takes over as chairman of the Agricultural Engineering Department. G. M. Wood served as Acting Chairman last year.

Virginia Y. Trotter will head the Department of Home Economics, filling the position left vacant by Florence King, who retired last June.

Paul E. Hemp is the new chairman of the Agricultural Education Department succeeding H. R. Cushman.

James F. White heads the German Department in the College of Arts and Sciences, replacing Fred C. Carpenter, who retired last June.

Dr. Robert W. Coon was named chairman of the Pathology Department in UVM's College of Medicine, a position which remained vacant last year.

Arthur F. Tuthill succeeds R. G. Sidle as head of the Mechanical Engineering Department. Tuthill was named acting chairman for the year.

Football And College Life Provide Basis For "Varieties"

By Stan Sakowitz

The game of football and aspects of college life provided the basis for this year's Vermont Varieties at Memorial Auditorium.

The UVM choir, under Professor Howard Bennett, opened up the show with three selections: "Dancing and Singing," "Sometimes I Feel Like A Motherless Child," and

"Charlottown." Their rendition of "On, On, Oh UVM," an original song by Professor Bennett closed the first half of the program.

"So You Wanta Go to College!," a musical revue satirizing various aspects of college life, was introduced by Tom Marx in his role as a Professor. Dating was the first aspect presented. After Joyce Morchower sang "Hello, Young Lovers," five couples sang "Something's Gotta Give." Those participating in the number were: Roger Wakefield, Joyce Morchower, Stan Sakowitz, Barbara Loweth, Rudy Reimowitz, Nancy Agosta, John Van Blarcom, Sally Carpenter, Pat Lovell, and Roy Kelley.

Tom Marx then sang his original lyrics, "Old Mount Mansfield," to show his inability to go skiing because of a quiz.

ROTC is present on many college campuses and thus this phase was included in a pantomime by Wally Siegel and John Van Blarcom to the record, "Going on a Hike."

"Experience Unnecessary," sung by Rudy Reimowitz, Marlene Posner, Elaine Schneider, and Mary Lou Piche proved that a few job interviews can be fun.

One of the last phases of a college career is Graduation. Wally Seigel and Roger Wakefield showed in a song and dance act to "Two Lost Souls," just how it feels after one has received his diploma and has to face the world on his own.

Betsey Brazil as Lola proved to be a successful alumnus when she got her man, Alan Wilder, in the final number of the musical revue, "Whatever Lola Wants."

Dean Alan Coutts, Dean of Men, sporting a flashlight, made a surprise appearance by walking across the stage, accompanied by a policeman, searching for liquor and beer. Upon finding a beer can, he threw it ot the audience and walked off the stage to rounds of applause.

"A Fable For Footballs," an original musical comedy, rounded off the second half of the program. Professor Francis Colburn, portraying a rural Vermonter in both dress and manner, presented a monologue as to how a rural Vermonter reacts to a college Homecoming Weekend.

The scene then switched to the football stadium where the spectators sang one of the four songs written by Greg Falls with music by his wife, Jean, "Come On Out to the Stadium."

A shy boy friend played by Alan Wilder proved to be too much for Betsey Brazil, so she sang "You Gotta Kiss Me" to try and make him more aggressive. However, for the time being, all her efforts are in vain.

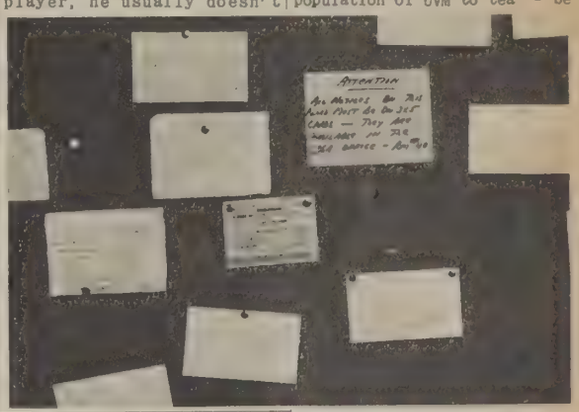
The returning alumni are always evident around Homecoming, and in our fable, the alumni, Dean George Kidder, Professor Robert Huber, Ernest Stockwell, and Professor John Little, dressed in racoon coats and hats, harmonized their feelings toward their Alma Mater in "We're Alumni."

A large portion of the musical comedy was devoted to the football game which was done entirely in a dance created by Martha Howe.

The fable ended happily for all concerned, especially for the coach, Tom Marx, who guided his team to victory and for Betsey, who found her man was not as shy as she thought he was.

Accompanists for the revue were Jack Ovitt and Peter Basralign, musical comedy Carol and Carolyn Brumbaugh.

According to this reporter, a concentration on theme seemed to make this year's Varieties a more rounded and entertaining show.



Do You Want Something? Bulletin Boards Answer

By Dave Kanter

Are you interested in answers to baffling riddles, transportation to Montreal, or any other destination, (excepting), or perhaps in purchasing old toy trains? Have you lost anything ranging from pens to panties? No matter what you may be seeking, it will inevitably be found on one of the numerous bulletin boards on campus, which can be located any place touched by UVM civilization.

In all probability, the first encounter a student has with this form of communication, is the posting of study lists. Unless this individual has the brawn of a two-hundred pound football player, he usually doesn't have a chance to view these mobbed bulletin boards. This of course is not the last experience one has with these info boards, for hundreds of pounds of paper and tacks are involved in displaying important notices throughout the year.

Although, some of these bulletin boards, at times, appear to be a mad scramble of illegible pieces of paper, the majority are well organized. A large part of this organization is under the management of Don Hardy, amiable and capable Coordinator of student affairs. if you do want a ride, (or wish to offer one) to South Kokomo, or to post a sign inviting the entire male population of UVM to tea - be sure to see someone in the Student Affairs Office. It is necessary to do this because of several rules pertaining to the size of the notice and the period of time which it is allowed to remain posted.

EDITORIAL

Let's Sell The School

We are not referring to a financial sale, but rather to one that would entail a change of attitudes on our part. It is all tied up with school loyalties, but is really more than that. It is showing UVM off to its best advantages to visitors and parents. We are all members of a proud and historic institution. But many outside factors tend to dilute our loyalties. On the whole we have a disorganized campus. This is in part due to the strong fraternity-non fraternity split. It is further manifest because of the great numbers of men who live off campus and therefore tend to drift away from the school. We don't think in terms of classes, but rather in terms of social groups. How many of us can name even our most important class officers? Look at the poor attendance at the class meetings. Many of us tie our loyalties to campus organizations, CYNIC, University Players, CENTAUR, Student Association; others owe their allegiance to fraternities and sororities.

School spirit is further hampered by other factors. So far this season our football team is not too impressive. Immediately dissident voices spring up. School spirit further wanes. There are even less tangible factors involved. We have a very useless Alma Mater- efforts to change it have gotten nowhere - and our buildings don't match.

We are not a rich school. We are not heavily endowed. But important as material values are, other things are more vital. The important question is whether or not we will change our fundamental attitudes. We have the ability to do so, but unless we do our university is headed for serious trouble.

Vermont Varieties

We feel that Vermont Varieties did a very satisfactory job last Saturday night. The show was lively and well done. Attendance was good. Student reaction was very favorable. Attending parents were impressed. And again the cast was greatly handicapped by having to use the Memorial Auditorium. Not only because of accoustical and seating problems, but also because they have no home base to operate from. The long run goal of the University Players is their own theatre, and the financial side of the question is slowly being advanced through profits on their productions. The goal is even closer now that they feel that they have found a site for its location. But what it really needs is a boost from the student body to help it get the theatre it so badly needs and richly deserves.

New Format

This year's issues of the CYNIC are trying out something new. We have done away with all national advertising with the result that we can offer more news and less ads in less space. All the ads are from local merchants, and they don't spend money for the fun of it. They feel the CYNIC is an effective advertising medium, and that it really reaches the student body. But our main purpose is not to win the friendship of the local merchants; it is to serve the school, inform the students, and close out our debt with Student Association as soon as possible. It is a disservice to the student body to create a debt, so it is our goal to come out in the black this year.

We are also concerned with making the paper more interesting to read. We are putting an increased emphasis on photographs, and next week we are introducing an Inquiring Reporter series.

We would appreciate any suggestions from the faculty or student body on how we can improve the paper. Please let us hear from you.

Letter to the editor

To the Editor of the CYNIC:
Dear Sir,

I read with revulsion your editorial in today's CYNIC concerning the wearing, or rather, non-wearing of beanies by freshmen on this campus. Other older traditions in the light of modern taste have been abolished. The fountain fight has been expunged due to the excessive number of casualties suffered by the sophomore class every year in the perpetuation of this time-honored 'tradition.' The CYNIC apparently advocates the continuation of these anachronous traditions.

The Constitution of these United States guarantees to each of us, as free men, the rights and privileges of Life, Liberty, and the pursuit of Happiness. But, if I may mis-quote Thomas Paine, "These are the times that try freshmen's souls." Not only are the freshmen new to the school, having a time of it getting accustomed to the new life, the studies and the strange lack of interest from their female contemporaries, they are also trod upon and persecuted by persons whose schedules seem to allow them sufficient time to make every waking moment miserable for the Frosh. The minute a man becomes a sophomore, he evolves into a cannibalistic ogre, snorting fire and soot from the nostrils.

Freshmen! Rise! Cast off your beanies! Strike for freedom! Fifty million freshmen are wanted by October, the eighth, to die in the fountain and pollute its sacred mire. the upperclassman is at your mercy! One sudden gesture and all his empires perish. Rise! Come like a sandstorm! Let us have a little direct action is the wish of

Two Irate Veterans.

Poinig's Postscripts

by WOLFE

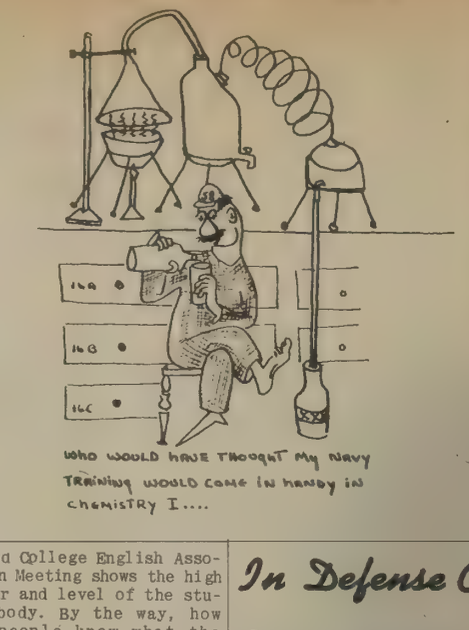
After a real wild Homecoming Weekend, it is really tough to swing back to normality. Nevertheless, after a few days of hell raising, the campus has once more assumed its usual state of sedate intellectualism. Such things as Tuesday's presentation of the the Canadian Players, via G.B.L., the meeting of the John Dewey Club last evening, tonight's Goodrich Classical affair, and this weekend's New England College English Association Meeting shows the high caliber and level of the student body. By the way, how many people know what the Dewey and Goodrich Clubs are? I guess there is too much competition from outside interests for the "finer things." Incidently, what are the finer things?

I felt like a real WW the other night when I got a phone call from a certain sophomore girl. She presented me with those facts that I asked for concerning a local problem. It seems that several female students have been influenced by dope! It is being spread by male students representing "down-town operators." Maybe this is a cause for slacking intellectualism?

The age of expanding capitalism has reached our dairy building. The attendants have been engaging in over-the-counter sales of ice cream cones. Sitting down for that purchase is verboten!

I had an opportunity to attend a sorority tea Sunday of Homecoming. It appears that the flic, "Pete Kelly's Blues," left its mark. There were three tea servers, only only two of which contained tea. Naturally, all of the students and a number of the parents over worked the third.

It was passed on to me that a certain male student had his appendix removed a week and a half ago. The proverbial sour-grape vine tells me that the bandage was both plaid and pleatless!!



A UVM campus cop complained to me that the administration should do away with different colored parking stickers. Most of the "yellows" park in the unrestricted areas while the "blues" in the restricted spots. It sounds like a color war without umpires. Maybe we ought to elect a Parking Commissioner and presidents for the National Yellow League and the Blue American League. Wow, what a series!

The book store is offering a special for October. It is a soft bound edition put out by the infirmary. The book clearly defines the various pills and their corresponding colors. There are over thirty-six shades of red.

Color TV has brought many students to the Sugar House, especially during the World Series. At least I think the attraction was the TV??

Guess what? Hour exams are now upon us. As for you frosh who have been goofing-off, keep up the good work. Even if you flunk out, you probably will be readmitted.

While the fraternities are not allowed to "formally" rush the new men, they have been creating enough "noise" so they can be recognized by the freshmen. Namely, on the intramural football fields and the pep rallies, where the cheering has been twofold for two kinds of Victory, "All's fair in love and etc." Loads of luck!

In Defense Of Derangement

By GARY WRIGHT

Friends, classmates, money-changers, lend me your notebooks;
I come to pass this course, not flunk it.
The building that men do lives after them,
And reading is often lost in the rush;
So let it be with English. The steely-eyed technicians
Have told you that English is of little use;
If this is so, then I can't see it,
Anymore than I can follow Chaucer.
Here, under the leave of Uncle Sam and the rest -
For Uncle Sam is a considerate old man;
So are they all, all considerably old men -
Come I take English for the fourth straight time.
It is my joy, entertaining and expensive for me:
But J. Hervey Stresspoint says it is idiotic;
And J. Hervey Stresspoint Sr. is a pickaxe operator.
It has brought many books for me to read
Whose pages did my empty head space fill:
Is this in English quite idiotic?
When that the ages have laughed, English has sung;
Idiocy should be more idiotic
Yet my young daughter says this is all too inconsistant
But, of course, she is only freshman.
You all did see that in the finals
I thrice met English without fear,
And I did thrice flunk out
was this ambition?
Yet my brother says it is life
And, boy howdy, is he a card
I speak not to disprove what anyone else says,
But here I am to catch up on my lost sleep.
You all did take this course not without reason:
What reason withholds you the to pass it?
Oh, Monah! You are fled to the Corner Cottage,
And women are late at Redstone.
Bear with me.
My notes are in the textbook there with Shakespeare,
And I must pause till I look them up.
Ah yes...But yesterday book of English might
Have put you all to sleep; notes lies it there,
And none so rich to buy it new.
Oh me- if I were inclined to smash
Your heads and shoulders to blood and pulp,
I should beat the instructor' time, or the Dean's time,
Who, you all know, are men of women.
I will not cross them up; I'd rather choose

(continued on page seven)

Around The Green . . .

Send in your news

By Rhoda Rosenberg

Alpha Epsilon Phi

by Eddie Lawson

This fall, Alpha Epsilon Phi sorority took title to a beautiful new house located on the corner of South Willard and Main Streets. The house is known locally as the Colonel Jackson residence, and, as this writer discovered, it is really a fantastic place with an interesting history.

Colonel H. Nelson Jackson, former owner of the house, died on January 14, 1955, at the age of 82. He was a very interesting person, well known all over the country.

He graduated from UVM (a very good beginning for anyone!) in 1893 with an M.D. degree. He practiced medicine in Burlington and vicinity until about 1900.

In 1903, he acquired national fame by becoming the first man ever to cross the American continent in an automobile. He used the northern route from San Francisco to New York, thence to Burlington, driving a Winton car which is now in the Smithsonian Institute in Washington, D. C.

Then Colonel Jackson went to Mexico, where he developed and managed some silver mines. He was in Mexico from 1904 until 1910.

When the first World War came along, Jackson distinguished himself even further. He was awarded the Distinguished Service Cross on December 27, 1918, for gallantry in action, and was admitted to the Legion of Honor on March 19, 1919. He received the Croix De Guerre with Palm on April 19, 1919. He was wounded at Montfaucon.

When the war ended, Colonel Jackson returned to start the organized Reserve Corps in Vermont.

He was one of the founders of the American Legion in the United States, and was once the national vice-commander. He was the founder of the American Legion in Vermont.

Next, he tried his hand at newspaper publishing, and became publisher of the Daily News in 1921. He acquired radio station WAX in 1931.

He was also president of the Burlington Trust Company, retiring in banking in 1954 when the five became consolidated with Howard National Bank and Trust Company.

He was also a trustee of Norwich University.

He at one time owned a beautiful summer home on Providence Island in Lake Champlain, and his family has a beautiful summer home on South Hero.

However, his pride and joy was a mansion on South Willard Street in the AE Phi's took over the house, it was filled with movable statues, medals, skins, animal heads, guns, and trophies from the Civil War. The Jackson family has been in Burlington since the Civil War days.

There are approximately fifteen rooms in the house, not counting a literal maze of small rooms in the cellar. Each room is beautiful—big, high-ceilinged, and with big windows. Every downstairs room has a big chandelier.

In the cellar, there is a walk-in vault, no less! Of course, the AE Phi's hope to fill it some day!

There is even a billiard room in the house, and a spacious ballroom. The ballroom is now being used as a bedroom for six girls.

The house also boasts an elegant elevator. That's really comfort!

There is a buzzer system going from every room to the kitchen. The family used to summon maid service with the buzzers. All the AE Phi's lack are the maids!

Every bedroom has its own bathroom.

On the ground floor there is a living room, lounge, chapter room, study, dining room, large kitchen, and two pantries.

There are two porches on the house, and an old-fashioned widow's walk on the upper floor. From this vantage point, the lake used to be clearly seen. Of course, the buildings of the city have spoiled this somewhat.

The AE Phi's hope to make some improvements in the future, but they have a beautiful new home.

PHI SIGMA DELTA

The Phi Sigs are happy to welcome Mrs. S. Lewis as their new housemother. She is a wonderful person and is well liked by all who have met her.

There has been an election at the house and some appointments have been made. The following have been chosen for fraternity office. Vice master frater - Sam Berger, Alumni Secretary - Artie Krauser, Corresponding Secretary - Mike Abrahamson, Recording Secretary - Eddie Walker, Historian - Stan Ryder, Executive Committee - Dick Ostreich and Bill Infeld, Activities Chairman - Lew Deitsch, Social Chairman - Larry Schlager, IFC delegate - Don Karp.

Recent dinner guests at Fern Hill were Dr. Milton Potash and family. Dean and Mrs. Alan Coutts were guests for dinner this past week. On October 7 a special scholarship dinner was held in honor of Phi Chapter's being awarded a certificate from Phi Sigma Delta National for placing on top in campus scholarship.

Richard Lewis, '55, has taken the position as Expansion Secretary for Phi Sigma Delta National Fraternity.

Phi Sig has recently pledged Mike Cohen, '58. Bruce Brodsky, Bob Wolff and Sam Costanzo have received house priviledges.

Phi and Siggy have been unanimously elected as associate members of Fern Hill. They have been awarded food scholarships for the semester——both are kittens.

KAPPA SIGMA

Kappa Sigma welcomes the return of veterans Daniel DeWolfe of Putney, Vermont; Walter Schinn of Tenafly, N. J.; and Frank Read of East Fairfield, Vermont.

DELTA PSI

During the past weeks a back injury hospitalized veteran cook Dick Del Hagen, but fortunately for the Delts he returned in time to prepare a fabulous buffet supper for one hundred and twenty brothers, alumni and their dates.

The University was saddened by the death of a former Delt Psi, Terry Hannon of Rutland.

ALPHA TAU OMEGA

There has been plenty of activity at the ATO house during the past few weeks. Along with the usual "welcome back to school hellos" and the registration blues, the brothers and pledges have managed to give their house a facelifting. The floors in the dining room, library, and living rooms have been freshly sanded and varnished. Many of the "interior decorators for a day" have also taken it upon themselves to fix up their own rooms. The finished products have been colorful to say the least. In general the boys have been papering and painting and the results have turned out surprisingly well.

Activity at ATO has not been confined merely to physical improvements of the house. The wheels have also been turning in an effort to provide a fine Homecoming weekend. The high point of the week-end was Saturday afternoon from 4:30 to 7:30—a jazz concert with Jack Durett and his Dixieland Band. All upperclassmen with dates were invited to attend.

CLOUD 7

Latest romantic tidings from Fern Hill is the happy news that Larry Schlager, '56, from Newton, Mass. has ringed Val Gluskin an A E Phi, '57, who hails from Beverly Hills, California.

Kappa Sig announces the marriage of Clem Forte, '55, to Lee Frank, '54, an Alpha Delta Pi, from Ogdensburg, N. Y.

Mr. & Mrs. Joseph Aidala are the proud parents of a daughter, Marian.

Bill Bozzone '55, a Delta Psi, is in the process of passing out cigars celebrating the birth of a 7 lb. 8 oz. baby boy. Congratulations. Bill!

Sigma Phi Epsilon

by Iris Hacker

Take a group of forty boys, add some ambition and spirit, mix well, and observe results. Here we have it; the Sigma Phi Epsilon Fraternity.

The key words of these boys is determination, and they've certainly displayed enough of it these past few months. From a small, practically ancient abode on Pearl St., these enthusiastic men of the UVM campus, have dug in, worked diligently and have practically completely renovated a newer home.

This new location was the former house of the Alpha Epsilon Phi sorority. As these young ladies moved out, the Sig Ep boys moved in, transforming the definitely female atmosphere to one of typically male. The boys have simply worked wonders with the place, and it's not surprising with the sparkling vitality and enthusiasm these fellows have shown in all their undertakings together. They work as one, with one aim--to succeed; they usually do.

At the present time, the boys are in the process of painting the walls of the entire house. The color is sky blue, and each room is being arranged to suit the tastes of each individual brother or pledge. The kitchen and dining room equipment is all new. The furniture for the house is still being purchased. Downstairs in the basement the fellows are thinking of making a rumpus room (for studying!) and instituting a library.

One of the prize possessions of the Sig Ep house is the newly installed marble bar in one of the basement rooms. It's antique style, with wagon wheels. How's that for ingenuity. This bar was displayed for the first time, the night of Homecoming and you can just about imagine the pride and satisfaction these boys experienced after all the labor and time put into its making.

All in all, the Sig Ep house should prove to be one of the most outstanding on campus. These boys certainly deserve an enormous amount of credit. There is a saying, "You get out of something only what you put into it." If this is true, these boys should expect the very best; for with their spirit, enthusiasm, ambition and respect for each other, just what can possibly go wrong?

News Of Faculty And Staff

Prepared By The Public Relations Office

FACULTY NOTES

Polly Rowe and John Merchant met with members of the 4-H Club staff last week at the Londonderry Inn in South Londonderry, where Dr. Ward Porter, of the U.S. Dept. of Agriculture, conducted a workshop on evaluation. They also attended the annual meeting of the New England County Club Agents Association at Jackson, N.H., on Saturday. Mr. Merchant is flying to Madison, Wisc., to attend a meeting of the National 4-H Club Committee on Evaluation on October 13 - 15.

* * * * *

Karin Kristiansson returned from Sweden the end of September to resume her news, radio and TV work in the College of Agriculture Office of Information. While she was in Sweden, she reported for the "Aftonbladet," Stockholm daily newspaper. Last Monday she appeared over WCAX-TV in a program "Report from Sweden," one of the series of Across The Fence productions.

* * * * *

Jack Spaven will attend the second workshop on Extension Regional Summer Schools at Louisiana State University from October 16-22.

* * * * *

The diamond on Charlotte Beatty's third finger, left hand, confirms suspicions that the house that she and Wendell J. Shepard are building on East Terrace will be their future home.

* * * * *

Thurston Adams has been appointed chairman of the New England Zone Milk Pricing Committee to study improved methods of pricing milk.

* * * * *

DR. SAUNDERS IN SANTA FE

Dr. Richard Saunders and Mrs. Saunders are attending a meeting of the Markle Scholars in Medicine at Santa Fe, New Mexico. A year ago, Dr. Saunders received a grant from the Markle Foundation.

Lecture Series

Professor Feuer's book, *Psychoanalysis and Ethics*, is the first study made by a philosopher to determine the significance of psychoanalysis for ethics. Also, the book points out the conception of ethics as an applied social science. The book is part of the American Lecture Series, and was published simultaneously in Illinois, Toronto, and England.

COLLEGE ENGLISH ASSN. MEETING OCTOBER 15

The New England Section of the College English Association will hold its fall meeting here on Saturday, October 15. Following a greeting by President Borgmann, Prof. Lewis Leary, UVM '28, of the English department of Columbia University graduate school will deliver the main address, "The Squirrel and the Cottontail: Some Observations on the Natural History of Homo Pedagogus."

Chairmen of afternoon sessions include Betty Bandel and C. Fenno Hoffman, who recently joined Middlebury College. F. Cudworth Flint, of Dartmouth, will preside as president of the section.

After being introduced by Hyder Rollins of Harvard University, Willard Pope will speak on the subject "Editing the Journal of Benjamin Robert Haydon." Baird Whitlock, now at Colby College, will give a talk on "English Departments and Humanities Courses."

Members of the UVM English department who are serving on the committee for the meeting are Muriel Hughes, Willard Pope, Betty Bandel, Samuel Bogorad, Jack Trevithick and Fred Marston.

* * * * *

UVM FACULTY ADDRESS ENGLISH TEACHERS ASSN.

Willard Pope and John Huden delivered speeches at the Fall Conference of the New England Association of Teachers of English in Manchester, Vermont, on October 1. Mr. Pope spoke on the subject "Evaluation in the Language Arts Program," and Mr. Huden dealt with "The library and Language Arts."

The University of Vermont will play host to the New England section of the College English Association at its fall meeting, to be held here on Saturday, October 15.

Between 9:30 and 12:30 the guests will register, and from 9:30 to 10:45 coffee and doughnuts will be served. From 10:15 to 10:45 there will be a meeting of the officers and directors in the Faculty Lounge.

The morning section will run from 10:50 to 12:20. The members will be greeted in the Student Lounge by President Carl Borgmann. Professor Lewis Leary of Columbia University will then give an address entitled "The Squirrel and the Cottontail." Luncheon will then be served in the Faculty dining room.

Yale Professors

The afternoon sessions will consist of a number of lectures from 1:30 to 2:20 Professors Douglas S. Beers (Middlebury) and Norman H. Pearson (Yale) will speak on "The Value of the Comprehension Exam" in Room 265, Waterman, while Prof. Dorothy Bethurum (Connecticut) will talk on "Learning in the Late OLD English Period" in room 216.

From 2:30 to 3:20 Prof. Baird Whitlock (Colby) will speak on "English Departments and Humanities Courses" in room 265, while Prof. Fred B. Millet (Wesleyan) lectures on "European Literature for Undergraduates" in room 216.

From 3:30 to 4:20 Prof. Thomas Wilcox (Bennington) will speak on "The Progress of a Cooperative Project: Exercise Exchange" and Prof. Elmer Blistein (Brown) will talk about "The I C Courses in English at Brown" in room 265. Prof. Willard B. Pope (UVM) will deliver a speech on "Editing the Journal of Benjamin Robert Haydon" in room 216.

From 4:30 to 5:30 tea will be served to the members in the Marble Court of the Fleming Museum.

Dr. Eugene Lepeschkin (second from left) and Dr. Wilhelm Raab (right) conducted the two heart seminars. Shown above are the principals in the third annual meeting on heart diseases, sponsored jointly by the UVM College of Medicine and the Vermont Heart Association.

Two seminars sponsored by the UVM College of Medicine and the Vermont Heart Association from September 14 - 17 were attended by over 100 doctors who came from all over New England. Dr. George Wolf opened the first session and welcomed the visiting physicians to the third annual meeting on diseases of the heart.

Dr. Wilhelm Raab conducted the first seminar at the Bishop DeGoesbriand Hospital auditorium, dealing with Functional and Degenerative Heart Disease. In viewing the future of the world, Dr. Raab stressed "Our Western loafer's civilization is bound to produce future generations of flabby physical washouts unless people are re-educated away from gadget worship and toward a reasonable use of their limbs, not to speak of their television-sterilized brains."

The second seminar was directed by Dr. Eugene Lepeschkin, who was assisted by Dr. Borys Surawicz.

ROTC Lt. Colonel Carr Is Well Known "Globe Trotter"

By LARRY OSTROW

This is the first of a series of articles on the officers and non-coms, who supervise our army R.O.T.C. program.

"They could have been the President, or one of those executives who make our country hum. But what did they become? But what did they become??"

Lieutenant Colonel Carr, "The Globe Trotter":

Canada, Mexico, Cuba, Puerto Rico, British Guinea, Brazil, the Gold Coast of Africa, Nicaragua, Anglo-Egyptian Sudan, Aden on the Red Sea, Suadi Arabia, Pakistan, India, China, Burma, Egypt, Italy, France, Canary Islands, Newfoundland, Alaska, Aleutian Islands, Hawaii, Japan and Korea are a "few" of the places that Colonel Carr has been to. As a youth the Colonel went to U.C.L.A. and in 1930 he received his R.O.T.C. commission. In 1940 he went on active duty with the 53rd Infantry Regiment as the Platton leader of a rifle company. Following Pearl Harbor, in 1941, he was sent to the Aleutian Islands as a Regimental Intelligence and Operations officer. The Berkeley School of Languages was his next stop, while he was there he studied Chinese.

The Army then sent him to Yunnan Province as a Liaison officer with the 50th Chinese division. He flew with that unit when they were committed to combat in northern Burma. Most of the Colonel's time was not only spent on the ground with the troops, but in the air flying a Reconnaissance plane. It was in one of these planes that he was forced down behind the Japanese lines. He had to spend a few days in hiding before he was rescued by some Burmese natives who guided him to safety. After this he was promoted to Intelligence Officer on the staff of the commanding General of Burma. In 1945 he was sent to Quetta Pakistan for five months as a student at the British Staff College. When he left the college he became the Operations Officer for the Burma and India theater.

He then returned to the United States and was assigned to the Presido of San Francisco in 1946, as officer of Public Information and Personnel, he held the rank of Major at the time. Following this assignment, he was transferred to Fort Levenworth as a student in the Army's Command and General Staff College. One year later he arrived at Fort Carson, Colorado, as a Regimental Adjutant.

In 1951, he was given command of an Infantry Battalion in Japan. He left for Korea in September of '52, and in 1953, with three years of high school Spanish taken in 1923 he was given command of a Puetro Rican Regiment.

Colonel Carr came to UVM in 1953 with the rank of Professor of Military Science. In the two years that he has been here Colonel Carr has made excellent progress in developing our R.O.T.C. program.

Compulsory Meeting for All Freshmen interested in running for offices in the Fall election.

Freshman Class Officers
President
Vice-President
Secretary
Treasurer

Student Association Councilmen from Freshman Class

Boards

(continued from page three)

Besides these boards there are many others pertaining to such things as S.A.C., religious life, fraternities, sororities, clubs, new books, and numerous others. One of the most important among these numerous others are communications from administrative offices. Since this is practically the only means of communication between the offices and the students, it is the responsibility, or duty, of the student to read these very important notices. While we are discussing the many different bulletin boards, let us not forget those in the rooms of both the men's and women's dorms. It would certainly be an understatement to say that a large variety of souvenirs, etc., existed on these boards.

With the great variety of information on the bulletin boards all over campus, rumor or confusion about times and places should not exist.

Med Program

(Continued from page 1)

courses to fit the medical courses into the liberal arts college. However, by taking three liberal args courses and three medical courses a year, they are able to be in regular classes scheduled for both liberal arts and medical students.

Six Students Qualify

Last spring, six out of twenty pre-med students qualified for the new program. They were picked through the regular tests and interviews which all pre-meds must take in order to enter medical school. They were also picked according to the way their liberal arts courses were scheduled.

A weekly supper is planned between faculty members of the liberal arts college and medical college and the new students participating in the new program. They hope to evaluate the success of this program through the dinners and by study of the students' progress.

They hope to continue this program indefinitely and iron out the flaws as they come. The six senior pre-med students taking the course this year are: Robert Brown, Marv Nirenberg, Bruce Norcross, Jack Stetson, Mel Wolk and Joe Siegel.

1	2	PSD	2	1	SAE
1	2	AEP	1	2	SPE
1	2	Sig Phi	0	2	TC
			0	2	LI

Last week Tau Epsilon Phi, in one of the most exciting games this season won a squeaker from Sigma Alpha Epsilon 26-25. Both teams showed outstanding offenses, but defenses were weak. Both Delta Psi and Phi Delta barely nosed out Sigma Phi and Sig Nu respectively 7-6.

On Tuesday October 4 Kappa Sig beat a good Phi Sigma Delta team 26-13. It was Kappa Sig for three quarters, until Phi Sig scored touchdowns on two successive plays. This was Kappa Sig's third win in a row, and gives the Kappa Sigs a good lead toward their league title.

Football

(continued from page eight)

During the last quarter, the Vermont offense was stopped cold as they did not cross the mid-field stripe. The Rams marched 67 yards from the Vermont 33 for the final touchdown. Highlighting this touchdown march was the magnificent ball handling of Rhode Island's other two sophomore quarterbacks, Jim Adams and George Burns, who used a keep and pitch play to perfection. Adams broke through Vermont's right side to dash 33 yards for the six-pointer. The only bright spot in the remaining minutes was Dick Jannoni's ball carrying around the ends, but still the middle of the Rams line on practically every play.

CAT-NIPS:

Fullback Marty Johnson saw action for the first time since the Union game. . . The game was witnessed by the 30'th reunion of the 1922 UVM football team who gained national recognition by upsetting Dartmouth. . .

Norwich Tops Kittens 7-6

by RUSS HENRICHS

The Vermont freshmen had the frosh soldiers of Norwich retreating all afternoon. . . But when the dust had settled, the Vermonters had lost a squeaker, 7-6. Coach Fuzzy Evans, however, was pleased with the team performance. The Kittens led in Rushing, forward passing, and in first downs by a wide margin. They performed to perfection on defense, with Walt Keranian and Phil Chalifaux turning in workmen like jobs on the line. The only Norwich score came on an offensive mistake, as a fumble of a punt in the end zone gave the Horsemen their score. Maynard Bush, the big fullback, provided Vermont's only score. Lou Petranaci made the sparkling run of the day, good for 55 yards, but was hauled down short of the goal line.

Penalties cost the Vermont frosh their game. They made their first kicking attempt for the extra point, but were called back for holding. They missed their second attempt from 15 yards out.

Norwich missed their first attempt, but were given a second try, which they connected with, to give them their 7-6 margin of victory.

Southwick

(continued from page eight)

If you are interested in trying out for any of these positions you can show your willingness by participating in the intramural clubs. The hockey club meets on the hockey field at 4:00 every Tuesday and Thursday. The tennis club meets at the Southwick courts every Tuesday and Thursday at 4:00. Ruth Muchler was recently elected manager. The archery club, which is a co-educational organization meets every Monday at 4:00 and every Wednesday at 4:30 on the archery field at Southwick.

The Water Ballet Club has been organized for this year with Sue Thomas at the helm. Due to conflictions the first meeting will be held in about two weeks. The club will meet every Wednesday evening from 7:00 to 8:00 at the YMCA.

Cats Ready For Rochester; Lose To URI

Union Downs Harriers 24-32

1955 UNIVERSITY OF VERMONT VARSITY CROSS COUNTRY TEAM

Kneeling l to r: Wadley, O'Such, Stone, Howland
Standing l to r: Manager Mansfield, Fitzpatrick Tauber, Slack, Grady, Sinclair, Wall, Coach Post
(missing when picture was taken-Perkins)

Coach Archie Post's Cross Country team lost their first meet of the season as they were downed by a 32-24 score by the Union College "thin clads" at Schenectady Saturday. The Cats had downed RPI the previous Saturday. The Cats had downed Union by a 24-32 score Saturday. The first man to break the tape was Lou Parillo of Union who followed 34 seconds later by Don Grady of UVM. The winning team was 26 minutes 7 seconds over the 4.7 mile Union Course.

Other Vermont runners finished as follows: Nelson Slack 4th; John Fitzpatrick, 7th; Ken Wadley, 8th; Art Tauber, 11th; and Pete Perkins, 13th. The team has been hampered by the loss of Don Howland who had been running well in practise.

The Cross Country team has their first home meet tomorrow against Weslyan.

OUR APOLOGIES

Someone has informed me that we DIDN'T play RPI in football as Cynic headline stated, that "opponant" is spelled "opponent" and that there is no such person as Hickey Walters. Sorry, lost my head. E.H.W.

Coach Pleased With Showing

by Ed Walker

The powerful forces of Rhode Island proved to be too much for Coach Ed. Donnelly's Catamounts last Saturday at Centennial Field. The Blue and White from Kingston, R. I. scored on two long marches and a safety to win the second encounter between the two teams, 16-0. The 1955 Homecoming game showed many that the Cats could play the Yankee Conference "brand of ball" which the Rams from Rhode Island displayed and with a few breaks the score might have read differently, but . . . . . .

CATS STOPPED ON 1 YD LINE

The Vermont starting line-up saw a few changes with Lew Reische at left end, Jim Dunn at right tackle, and Jim Lee at fullback. With Vermont receiving, Al McLam ran the kick-off back to his own 33, where on second down, Dick White threw a quick pass to Reische who was finally brought down on the Vermont 47. Jim Lee then bucked the line for a yard, whereupon Vermont's "touchdown twins", Eddie Beck and Al McLam, proceeded down to the Rhode Island 26. The Vermont line continued to open up good holes for Beck as he slammed through to the 19 and then on a drive to the 1 yd. line. With four downs coming up, it looked like a sure T. D. but the Rams held on with fierce determination. Rhode Island took over on the 1 and to the amazement of the big Homecoming crowd, marched 99 yds. to score. The Rams, piloted by one of their three sophomore quarterbacks Bob Sammartino, rolled off six successive first downs in their long drive. The scoring play was an end sweep by right halfback Bill Montanaro who continued to allude UVM tacklers throughout the game.

RAMS SCORE SAFETY

The second quarter opened with Sammartino intercepting a pass that was "labeled", White to Galascione, and ran it back to Vermont 42. The Blue and White brought the ball down to the 13 where Roy Williams recovered a fumble for the Cats. Tom Tierney was called in to replace the injured White as it started to rain. This proved to be a bad omen as Charlie Gibbons, a 218 pound tackle and Captain of Rhode Island, tore through to tackle Tierney in the end zone for a safety making the score, 9-0. Vermont had another big chance on an interception by "Bing" Gilbert but couldn't seem to penetrate the "Rhody" line.

With four and a half minutes left in the first half, Tierney threw a spiral from his 49 to McLam who dashed down into Rhode Island territory and was finally stopped on the 25 yd. line. On a spin and pitch-out play from Tierney to McLam, "Al" smashed his way to the 7. Captain Beck got down to the 2 and Jim Lee plunged to the 1. On last down, an offsides penalty brought the ball back to the 6 where Tierney's try for a touchdown pass fell short of his receiver.

SLIPPERY FINGERS

The third quarter saw the leather pigskin slipping and slidding through pass receivers hands and out of runners grips. Rhode Island's big fullback, Kazar Apkarian took charg after the kick-off and practicall single handed advanced th ball down to the Vermont 3 where Ken Kurjiaka recovered a fumble. After Vermont let th ball slip out of its hands, Ke pounced on another loose bal The runners were beginning t give indications that the hard bruising tackles were finall taking affect. Vermont lost th ball on downs only to hav Beck hit halfback John Lea hard enough to make him fumble "Ed" recovered, but the slip pery fingers epidemic seeme to be contagious to Vermont a well, as he and McLam let per fect passes from Tierney sli through their arms.

(continued on page seven)

Rochester Has Veteran Team

This Saturday afternoon, a centennial field, the University o Vermont Catamounts will attempt t get back in the win column, afte dropping their last two games t Yankee Conference foes, as they face Coach Elmer Burnham' Rochester team which dropped 20-0 game to Union last weekend.

Team Much Improved

Vermont's coach, Ed Donnelly far from being disappointed wit his team's showing against th Rhode Island Rams last week thinks his boys came a long way after the 34-0 defeat they suffered at Maine the week before. As he said, "It was a 100% better jo than the one the week before. The boys may have been overpowered but they were not bewildered and they never quit once throughou the game although they had numer ous opportunities to do so."

OUR OPPONENT

October 15, 1955
The University of Rocheste "Yellowjackets"
Colors Yellow
Coach Elmer H. Burnham
At Centennial Field
1954 record 5-3
1954 Vermont 19 UR 12
1955
UR 19 - Weslyan 26
UR 13 - Williams 12
UR 0 - Union 20

Beck Praised

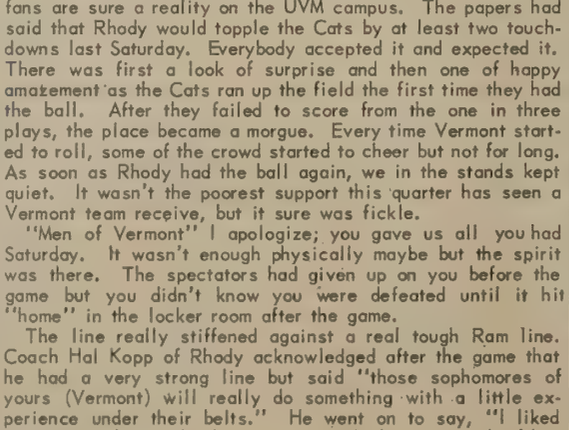
Donnelly singled out Vermon Captain Ed Beck as having played a great defensive game in additio to his usual good offensive game Completely disregarding Roches ter's loss to Union, Coach Donnell refuses to take the Yellowjacket lightly. Under Coach Elmer Burn ham, Rochester has run up a fin record, being undefeated in 195 and sporting a 5-3 record last yea including their 12-19 loss to Vermont. Since the series begar between the two schools in 1916 there have been many hard-fough battles. Although Vermont ha outscored the Yellowjackets ove the years, 125-100, the Cats hav won only four games while droppin five and tying one.

Rochester Started Slow

Although the Yellowjackets have only one win to their credit, a 13-12 victory over Williams, who incidentally, beat Middlebury 26-0 last Saturday, the boys from the River Campus have a large group of men returning from last year's aggregation, featuring star quarter back Jim Berkley. The Cats are "looking" for this one as they go through another tough week o practise at Centennial Field. Game time is 1:30. See you there!

Sports From Southwick

By Joan Armstrong



Are you athletic? Well here's your chance. The UVM Women's Recreation Association is supporting three intercollegiate play days. The first is to be held this Saturday, October 15 at Skidmore College, Saratoga Springs, N.Y. The Vermont team will be comprised of four tennis players, four archers and 12 hockey players. A sports day will also be held the following weekend, October 22 at Middlebury. This will only include the hockey team. UVM will return these invitations by holding their play day on the succeeding Saturday, October 29. This also will only include the hockey players and will be held on the new hockey field on Redstone Campus.

(continued on page seven)

Frosh Take First Six Places In Win

by Bennett Wall

In their opener on Saturday, Coach Archie Post's Frosh harriers met with Greensboro and Enosburg Falls H. S. The thin-clads showed off their superiority by taking the first six places. Leading the Kittens was Bob Kuchar, whose time for the course beats that of Vesey of Vergennes who in 1954 had set the mark of 16:59.9. Kuchar turned in a time of 16:41.8, or more than 18 seconds better than the old record. Bob was followed by Dave Porta of Bethlehem who did the course in 17:02, just shy of the old mark. In third was South Hero's Ray Allen who captained Lyndon Institute's team last year. Larry Seymour, Jon Reardon, and Carl Easter followed Ray across the line in that order. Taking 10th place was George Silver while Bill Geissal captured 12th. In 16th was Matt Connors who just beat Don Oberriter. Dan Vignone placed 20th in the field of 27.

UVM's Ed Beck reaches for the elusive pigskin as Dick Dennis blocks out a Rhode Island defender.

As I See It

BY Ed Willard

THE FANS STUNK! The team or fans don't have to say it; this quarter or anyone else could easily see it. Hot and cold fans are sure a reality on the UVM campus. The papers had said that Rhody would topple the Cats by at least two touchdowns last Saturday. Everybody accepted it and expected it. There was first a look of surprise and then one of happy amazement as the Cats ran up the field the first time they had the ball. After they failed to score from the one in three plays, the place became a morgue. Every time Vermont started to roll, some of the crowd started to cheer but not for long. As soon as Rhody had the ball again, we in the stands kept quiet. It wasn't the poorest support this quarter has seen a Vermont team receive, but it sure was fickle.

"Men of Vermont" I apologize; you gave us all you had Saturday. It wasn't enough physically maybe but the spirit was there. The spectators had given up on you before the game but you didn't know you were defeated until it hit "home" in the locker room after the game.

The line really stiffened against a real tough Ram line. Coach Hal Kopp of Rhody acknowledged after the game that he had a very strong line but said "those sophomores of yours (Vermont) will really do something with a little experience under their belts." He went on to say, "I liked your team. It wasn't what we expected after seeing the films of the Maine game."

Nuff said I guess.

The Frosh Cross Country team set some sort of a record as they took the first six places of their meet last Saturday. There was a crowd of eight on hand to view the festivities. This crowd was swelled by two Frosh runners on the sidelines with bum legs. Frosh; you people have two teams operating this fall. It's the job of the school as a whole but especially you to support these boys. We can't have good Varsity teams unless we have good Frosh teams. Give 'em some support, eh what!

The Vermont Cynic

VOL. 73 — UNIVERSITY OF VERMONT AND STATE AGRICULTURAL COLLEGE — NO. 16

BURLINGTON, VERMONT OCTOBER 20, 1955

UVM Trustees Acknowledge Gifts And Grants Of $100,000

The University of Vermont trustees acknowledged and accepted gifts and grants to the University totaling over $100,000.

Largest single amount was an unrestricted gift of about $80,000 from the estate of Mrs. Edith Poor Brennan. Mrs. Brennan was the wife of the late James D. Brennan, a Boston banker who was a member of the Class of 1903 at UVM. Brennan served as president of UVM's Alumni Council in 1931-32 and received an honorary doctor of laws degree from the university in 1931.

Two research grants of $8,600 and $6,370 and an anonymous gift of $6,000 for scholarships for Vermont students helped to top the $100,000 gift mark announced at this meeting of the trustees.

Research Grants

Prof. Donald B. Johnstone of the department of microbiology was named to direct research under a grant of $8,600 from the National Science Foundation for the support of research entitled "Lysine Synthesis by Azotobacter."

Prof. Adam S. Skapski of the physics department was named recipient of a grant of $6,370 from the Research Corporation for support of Skapski's project entitled, "The Drop-Flattening Method of Measuring the Surface Tension of Solid Metals."

In addition to the $6,000 gift for scholarships to Vermont students, the university received a number of other scholarship gifts including $750 for scholarships in agriculture from the Hood Dairy Foundation, $345 from the Shelburne, Vt., Scholarship Fund, $750 from the Barney Jaffin Foundation for general scholarship purposes and $250 from the Free Press Association to be awarded to the winner of the Vermont Art Awards Contest.

Also, the university's Development Fund benefited from unrestricted "matching" gifts of $1,200 from the Free Press Association, $250 from the Sprague Electric Co. and $250 from the General Electric Co. Educational and Charitable Fund. Each of these gifts represents funds granted to match scholarship or gift awards made by the concerns.

Other gifts accepted by the university include $600 from the National Quotation Bureau in support of the summer session Wall Street course; $250 as an addition to the Elizabeth D. Proctor Loan Fund for Medical Students; $217.91 added to the Terrill-Holbrook

Series To Present Maria Riva In 'Tea & Sympathy'

Artist Series Feature Oct. 24

With Maria Riva, daughter of Marlene Dietrich, and one of television's top stars in the starring role created by Deborah Kerr, a new national company of "Tea and Sympathy" will be offered by George Brandt before the George Bishop Lane Artists Series at Memorial Auditorium on October 24.

Alan Baxter, who played opposite Miss Kerr in the show's lengthy tour last season, will be co-starred with Miss Riva in the same assignment.

"Tea and Sympathy" is the second of seven major attractions which will be presented by the Lane Series during 1955-56 under the sponsorship of The University of Vermont. The Canadian Players' production of "Saint Joan" inaugurated the Lane Series program before a capacity crowd at the Auditorium two weeks ago.

Giving the Playwrights' Company the longest-running success in its entire history, "Tea and Sympathy" has been hailed as one of this country's finest dramatic offerings in years. The Robert Anderson play ran 91 weeks on Broadway, and had a highly successful 34-week tour last season, grossing over $1,000,000.

The play's road tour ran into a casting snag early this fall, when many bookings were cancelled over the tentative female lead. But the problem was resolved when Miss Riva accepted the role, and the date for its Burlington appearance was shoved up from Nov. 1 to

UVM Catamounts Beat Rochester Yellowjackets

by HERB BROWN

Last Saturday at Centennial Field before a rain-drenched crowd of 2000 die-hard fans, Coach Ed Donnelly's University of Vermont football team upended Rochester University 21-12, handing the "Yellow-Jackets" their 4th straight loss of the 1955 campaign. The win for UVM was their 2nd of the season and squares their record at 2 wins and 2 losses.

BECK INJURED

Though the Catamounts were without the services of their Captain Eddie Beck, who was injured in the 2nd period with the score 0-0. They did not let the injury thwart them and went on to play inspired ball for the remainder of the contest. Beck was injured when he was hit head on by a host of Rochester tacklers while attempting to sweep his own right end. In the process of being tackled he suffered a back injury and was carried from the field on a stretcher where X-rays showed that he had torn ligaments in his back. Before his injury Beck had proved to be a constant thorn in the side of Rochester on both offense and defense. He was constantly picking up yardage with his rushes through the line and by his sterling defensive play he enabled the "Cats" to keep Rochester from paydirt.

TIERNEY DIRECTS ATTACK

Besides the play of Beck the Vermont Partisans had a great deal to cheer about when they were treated to a fine brand of quarterbacking by

G E Appoints Searles New Ed. Specialist

Robert N. Searles, assistant director of admissions and records at The University of Vermont, has been named Education Specialist in the Educational Grants Section of the Public Relations Services Division of the General Electric Company. His office will be located in Schenectady, N.Y.

The son of Mr. and Mrs. O.S. Searles of Newport, he was educated in Newport schools and at Dartmouth College where he received the A.B. degree, and served as captain of the freshman ski team, and as a member of the varsity ski team for two years. He was a member of Delta Kappa Epsilon fraternity and of the Casque and Gauntlet Senior Honorary Society, and was president of the Philosophy Club.

During World War II, Searles served in the Air Force for 37 months, and was for a time instructor in skiing at an Air Force camp at McCall, Idaho. Following his discharge, he served as ski instructor at Manchester, Vt., and, in the fall of 1946, was appointed as coach of skiing at Norwich University, a post he held until his appointment in 1948 as ski coach and instructor in physical education at The University of Vermont.

In 1953, he was made assistant director of admissions and records at UVM. Throughout the past two years he has visited most of the high schools throughout Vermont as well as many schools in the other New England states.

Searles is married to the former Barbara Pierce of

K W Directors Promise Best Carnival Ever

Chaffee, Hebb Wadley Lay Active Plans

The Kake Walk Tri-Directorship of Bruce Chaffee, Ed Hebb and Ken Wadley has begun to lay plans for the 59th Annual Kake Walk Winter Carnival at UVM. Planning began as far back as the spring and has continued up to the present. However, the real serious business started just after college opened in September. The directors would like to say at this time that they realize the high standard that has been set for them to follow, and that while it is practically impossible to make Kake Walk any bigger it can be made better. It will be the foremost aim of the 1956 directors to make this Kake Walk worthy of the great tradition that lies behind them.

The Directors

The division of labor between the directors this year is as follows:

Production and Publicity - Bruce Chaffee, Deltsi Psi, Burlington, Vermont;

Finance -

(continued on page seven)

The three Directors discussing this year's programs.

Ray Merrihew Heads Economics Honorary At UVM

At a meeting last week, members of the new economics honorary group formally approved of the organizations official name. It will be the Economics Honorary of the University of Vermont. The purpose of the group is to provide some unity for students in the Commerce and Economics Dept., as well as for Liberal Arts Economics majors. The scholastic requirements are an overall average of 77, and an average of 81 in all Commerce and Economics courses.

The officers of the group are: president, Ray Merrihew; vice-president, Bruce Ferguson; corresponding sec't, George Brown; recording sec't, Charlene Craig; and treasurer, Clyde Lewis.

Faculty advisors are Professors E.C. Greif, and E.A. Nyquist, both of whom played key roles in getting the society underway.

President Merrihew stated that "this year we are planning a program of widespread interest to the Economics student. We plan to offer an interesting array of guest speakers, and to run a full social program."

Damage Of Property Is Not A Righteous Manifestation Of School Spirit

We are agreed that pride in Alma Mater, college spirit, and friendly rivalry between colleges are healthy and desirable and should be encouraged; however, we are also agreed that the damage of property, either on a rival campus or elsewhere, is not a proper manifestation of college spirit. We condemn such actions, and any student who is apprehended may expect to be subjected to disciplinary action.

We also wish to announce at this time that the possession or consumption of alcoholic beverages is not permitted at football games held under the auspices of the colleges we represent.

Mortar Board, Sadie Hawkins Snow Coeds With Problems

By Peggy Richter

Generally we try to tell you a story, but today we're going to let a story tell itself. First, we're going to present the situation and then let you solve the problem. Call it Mortar Board, Sadie Hawkins, or Drag a Stag. It's a dance and he's on the receiving end. SHE has to ask HIM out. Problem? Well, YES. And now, please dear readers, have empathy.

. . . . . .

"Me ask him out? Who me? Ask him? I couldn't do that. Why not? Well, he has his nerve; of all the ideas, expecting me to ask HIM out? Who said anything about expecting? Well, you see if I ask this one, he'll think I like him and that one, he bothers me. That one? Not trustworthy. That--oh no, he took me out once.

Oh, all right, I'll ask HIM. You don't think he'll get the wrong idea, do you? How do I do it? Written invitation? I see, too foppish. Call him up? who ME! Does HE expect me to call HIM up? Well, let me tell you, he has another thing coming. OH!, proper did you say? I suppose so, but he never calls me up. Well, he just sort of meanders up around Thursday and innocently says, 'Ya wanna take a flik kid?' So, you see. Yes, I know, Emily Post says ... all right. Should I do it right now? What's that? Wait till dinner hour. K.K. Hope I don't forget about it."

She sits down, prepares to study, regards her datebook, has coffee in the shop, chats in the lounge, grabs a bite, and sits down again to study. Place? Waterman reading room.

"Let's see, Chemistry, German, Trigonometry. What am I going to say to him? Pages 559 to 665, too much. Should I be cute, joking, serious, friendly, vivacious, pleading? Pleading! Who me! Never. Oxidation, hydrolysis, atomic weight...About six o' clock. I know, just be myself. Perfectly plain, simple, natural, honest, like I always am. Oh sure, just be me. Will he accept? Now what a silly question. Of course he'll accept. Why he should be honored. Just think it isn't every guy I ask out. No, see, not every guy. He's lucky. 97 elements. How many? 98, that sounds right, only 3 hours left. 3 hours! I'm clutched." (She resumes studying.)

"I can't do it. A big girl now? That's right. Okay, I'll do it. Here goes...busy signal, probably another girl. Another girl! Traitor! Operator. Hello. Hi, this is me, you know ME. How are you? Fine, thanks. The reason I called is because,' (in a rush) 'we're having a xxxx dance at xxxx. You would? Sure! Oh, gosh, well, um hum. See you soon. Bye.' He's going, he's going. Hey, everyone, HE's going."

. . . . . .

The moral fellows, if it takes you this long, give up now.

Honor Prohibits Going To Men's Apartments

Men who ask women students into their apartments are asking the women to break an honor pledge, and should realize that it is the women's duty to refuse such an invitation. This reminder is being made because of an incident which occurred Homecoming, in which a man seemed to believe that a woman's refusal to such an invitation was for personal reasons.

Honor Pledge

Before any woman student is accepted at the University she is asked if she is willing to sign the honor pledge. This pledge states in part, "I do pledge my honor as a woman . . .that I will live in accordance with the Women's Student Government Oath and the Vermont Pledge."

The Women's Student Government rules and regulations in Article II, Section IV, Part A, 1 states, "Women students may not go to a fraternity house, men's dormitory or apartment unless a chaperone, approved by the Dean of Women or the Joint Social Activities Board is present."

Among the individual responsibilities listed in the Women's Student Government Association, "each woman assumes responsibility for herself acting in an honorable manner by observance of the social regulations to the best of her ability."

The aim of the honorary system is "to educate its members to become self-directing individuals." Unless all the rules of the system are obeyed, the system will lose some of its presitige, and the purpose of the entire idea of an honorary system will be defeated.

Independents Organize For More Active Social Life

In an effert to solve the problem of promoting an active social life for all UVM students who are not in fraternities or sororities, a group of students are establishing an organization for independents. They held their first meeting last Thursday night in Waterman. They were told by the executive chairman, Bennett Wollk about the Vermont Independent Party, which flourished on this campus until about 1950. This group sponsored events, sports teams Kake Walkers and ran candidates for Student Association office. They were very successful in many of these activities. All students who were not in fraternities or sororities were members. A complete record of this group's doings were kept and Dean Kroepsch has kindly allowed the executive committee of the new organization to examine it. Many ideas have been gleaned from this source.

Volunteers were called for to make up the necessary committees and the response was called "most gratifying." Committee meetinggs are scheduled for this week

Commend Band On School Spirit

With the beginning of a new school year the UVM Band has enlarged its ranks to 68 members. After numerous tryouts 27 freshmen were admitted.

The band should be recommended on its fine display of school spirit and cooperation which it has shown at the pep rallies and football games so far this year.

Series

(continued from page one)

Oct. 24.

Miss Riva is primarily known for her many starring television roles, as well as appearances on Broadway in Theatre Guild Productions of "Foolish Notion" with Tallulah Bankhead and "The Burning Glass" with Sir Cedric Hardwicke. She has appeared in over 425 TV productions.

Her co-star, Alan Baxter, is likewise no stranger to the theater-going public. After numerous roles in motion pictures, Baxter won distinction on the New York stage in "Home of the Brave," and "The Voice of the Turtle," and toured for two seasons in "South Pacific."

Handled with admirable finesse, "Tea and Sympathy" deals with problems at a New England school for boys. The story revolves around the school's athletic housemaster, his sympathetic wife and a sensitive, non-athletic student.

The story, which chalked up 720 performances in Manhattan, concerns the smearing of reputations and the ruining of lives by false accusations, wild suspicions, wilder rumors and disastrous lies.

The play is an Elia Kazan production, directed by Sy Milbert. The strong supporting cast includes Nicholas King, Walter Case, Don McClellan, Christy Palmer, Arnold Merritt, Burt Edwards and Robert Wiley. The setting is the handiwork of Jo Mielziner, who created the scenic productions for over 200 shows on Broadway.

Curtain time for the October 24 presentation is 8:15.

CanadianPlayersSuperbly Present'Macbeth','St.Joan'

Acting is Best Part Of Production

By Max G. Ansbacher

Those who attended the Canadian Players' presentation of "Macbeth" last week were fortunate in being able to see a first rate group of Shakespearean actors. The Canadian Players were decidedly unfortunate in having to perform before a third rate audience, in a second rate basketball court, with some complimentary sound effects that would have been first rate for "Dragnet."

The acting was by far the best part of the production, which is not surprising since it was practically the only part. There was no scenery, and there were no lighting effects. The cast had been cut to less than one half of the number of roles, and sometimes with noticeable disadvantages. Sound effects were negligible, and many of the lines could not be heard by a large part of the audience.

If a person had not been quite familiar with the play, it would have been most difficult to follow, what with hardly any indication of change of scene, and the same actors taking different roles.

William Hutt (The Archbishop of *Saint Joan*) played the title role with a spirit and originality that made it interesting. Although appearing at first to be amazingly young and smooth for a Macbeth, he soon left no doubt in the audience's mind what his evil intentions were.

His originality was especially apparent in such purple passages as "Is this a dagger which I see before me?" and in some of the scenes with his wife. In the last scene for some reason he almost seemed if he were drunk, but perhaps that is also the way people look when they realize that they are at the last hour.

Frances Hyland *(Saint Joan)* was rather too young and attractive for Lady Macbeth, but she was convincing when she called out "Unsex me here!" One could see her evil influence upon Macbeth,

(continued on page seven)

Produce Shaw's Version Of Joan

The stage play, "St. Joan," by George Bernard Shaw, opened the George Bishop Lane Artist Series two Tuesday evenings ago, October 11. The Canadian Players, who presented the play, rang up the curtain at 8:30 P.M. in Memorial Auditorium on Shaw's modern version of the story of Joan of Arc.

The group was made up of well-known Canadian players. Frances Hyland, star for two seasons at the Ontario Shakespearean festival, played the lead role of Joan. William Hutt, known in Canada for his stage, television, and radio work, ably performed the part of the Archbishop. De Beaudricourt was performed by Douglas Campbell, actor and also director of the Canadian players.

The cast also included such people as Ted Follows in the Steward's role, George McCowan as Dauphin, Roland Hewgill as DePoulengy, John Gardiner as La Tremouille, John Horton as Dunois' Page, Jack Hutt as De Courcelle and Bob Gibson as the executioner.

Staging the Play

A very striking fact in the production was the staging of the play. The Affects achieved with a minimum and simple use of scenery, props and costumes were amazine. The backdrop, consisting of a white curtain, remained the same throughout the three acts. The small amount of furniture was moved around to fit the needs of the scenes. Most of the time this shifting was done in full view of the audience. Except at the ends of the three major acts, no curtains were pulled to divide the scenes; the players simply walked on and off. As the actors usually took several parts in the play, the lack of costumes was sometimes confusing in identifying them.

Canadian Players, an independent company formed in 1954 by Tom Patterson, was a natural outgrowth of the Stratford Shakespeare Festival. They produced at Stratford during the 1955 season, Stravinsky's "The Soldiers' Tale." For their 1955-56 tour, Douglas Campbell, their director, has chosen Shakespeare's "Macbeth."

Expanding The Series

The George Bishop Lane Artist Series is an outgrowth of the Program Series of the UVM Student Association. The expansion of the series to include major musical, theatrical and artistic presentations, open to both members of the University and of the community, was due to the generous gift of the late Mrs. George B. Lane of Minneapolis, Minnesota. She established the Lane fund in memory of her husband.

Rude Audience Embarrasses Certain Viewers

By Peggy Richter

I am ashamed, truthfully ashamed to say I sat in the audience in Memorial Auditorium last Thursday night to see Macbeth. I am just thankful that I sat close enough to the stage so that the animals in the rear could not completely wreck my enjoyment of Shakespeare. If this is a representation of the University of Vermont or Burlington High School audiences, the Lane Series or any other similar group may as well close their doors now. you cry that your university is not intellectual or your city not provincial, well you certainly contradicted yourself last Thursday night. Were you not ashamed to sit in that audience and see those actors try to really feel out their parts for you, despite the interruptions of snickers, slamming doors and trudging feet?

Of course I must admit Memorial Auditorium is no place to hold a Shakespeare production. The acoustics are poor, the seating is uncomfortable, and vision beyond the first three rows next to impossible. Granted it was ironic that a siren should sound at the moment of Banquo's death, but is that any reason to act like animals when a bus goes by, tires screech, or silly children scream in taunts. You show more respect to the Kake Walkers when they perform than you did to the Canadian Players.

I do not stand alone in feeling embarrased for you Thursday night, for many appreciative students and faculty certainly felt the same way. Culture might just as well pass the University of Vermont by, and Burlington be erased from the map if that audience performance at Macbeth is any indication of how we receive a fine performance.

Deans Offer Their Apologies For Stereotype

A memorandum giving the descriptions of two thieves who operate around colleges has been withdrawn from circulation at UVM because it contained a racist stereotype. The notice was passed on exactly as it came to the University by the offices of the Dean of Men and the Dean of Women.

Both Dean of Women Anna Rankin Harris and Dean of Men Alan S. Coutts said that they apologized if there was any offense taken. The notice described one of the suspects as "dark hair and complexion, wears glasses, neatly dressed, age in the low twenties, appears Jewish."

Professor Arthur K. Davis of the Sociology Department explained that, "We can classify people according to scales of hair color, eye color, hair form etc., but as far as the Jewish look goes it does not exist. The term 'appeared Jewish' has absolutely no objective meaning."

Racist Stereotype

The reason for this is that Jews are not a race but a religion. As an example there are about 3000 negros in Harlam who are jews. Professor Davis said that he used the notice in his sociology classes as an example of racist stereotype.

The notice was a routine release similar to many which colleges circulate among themselves as a mutual service. Although the two suspects were not actually expected in the Burlington area, the notice was posted in order to impress students with the importance of taking adequate precautions.

Apply KW Funds Is Last Reminder

This is a last reminder for any campus groups that wish to apply for available Kake Walk funds. Any organization at UVM is eligible to petition for these funds through the KW Disposition Committee. All petitions should be in written form and should be handed in no later then Oct. 28. The petitions can be left in the IFC mai box at the Information office.

Feuer Travels Far And Wide In Year's Study

Once in a while at the University of Vermont, we hear of fascinating people doing interesting things; this fact accounts for the saying, "Variety is the spice of life." Last year a member of the philosophy department received a Ford Foundation Fellowship. It was most interesting talking to Professor Lewis Feuer, of the philosophy department, about his year of study and the book he has recently published.

Professor Feuer was away for the entire year and was fortunate in being able to study in different places He spent a few months in Cambridge, Massachusetts, studying in the Harvard library. He then went to Leland Stamford University in San Francisco, California. From there, he went to New York to study and teach at Columbia University. At Columbia, Dr. Feuer took part in two seminars on philosophy, taught a few classes, and studied the Chinese language and Philosophy. In one of his seminars, hewas very fortunate in being associated with Margaret Mead, the famous anthropologist, Robert Lynd, and Allan Nevins, He felt that the year of study away from the university was stimulating, for at times, life at the university can be a bit isolated. In addition to the book which he has just had published, he has signed a contract with the Beacon Publishing Company in Boston to have a book published late next spring on Spinoza's political thought.

Ag. College Receives Gift Of $2,500 Bull

A pedigreed bull was in the spotlight at the meeting of the Board of Trustees of The University of Vermont last week, as they received the $2,500 animal as a gift to the University's College of Agriculture and Home Economics.

The transaction was on paper, and came as UVM acknowledged gifts totalling over $100,000.

The young bull was sired by Ideal's Superior, out of Ideal's L.D.'s Marie, and is the gift of Weston Howland of Boston, Mass., who has a farm in Brattleboro, Vt.

Although the University's Board of Trustees includes members such as Robert T. Holden of Bennington, who has been connected with farm work since his graduation from UVM in 1928, the University indicated that Prof. Robert Fitzsimmons of the department of animal and dairy husbandry would make arrangements to transfer the new bull from Howland's Brattleboro farm to the University Farm in Burlington.

Vermont Is Different, Not Provincial

By Don Karp

Students of the University of Vermont seldom really get to appreciate the true effects of their environment such as the customs which prevail throughout the state. It has been said that Vermont is indeed "provincial" in many respects; and many people believe this to be true; but in essence Vermont should be considered not "provincial" but "different." Even being provincial requires conformity to some criteria; and truly Vermonters are not hampered with any set conformity.

We cite in evidence of this fact a recent magazine article which lists some of the laws recently passed by the Vermont State Legislature. Where do you find conformity in making it illegal to serve garbage to pigs unless that garbage has been cooked for 30 minutes? Does this seem "provincial?" Certainly it places a type of conformity on pig raisers; but such radical legislation is definitely not the product of a conformist.

It is also brought to our attention that jumping out of airplanes in Vermont requires the express permission of the Vermont Aeronautics Commission. Now if we are to analyze such a law as being "provincial," we find ourselves with a contradiction; for provincialists, generally speaking, have not yet advanced to the air age let alone worry about parachooters. What other opinion can we arrive at but that such a law was instituted by a radical segment of the legislature which was influenced by an automobile lobby for the express purpose of doing away with aviation in the State of Vermont.

We see, therefore, that Vermont is not looking to the past but instead is looking forward -- but in an unusual sort of way. It should be maintained, consequently, that this generation of Vermonters does not have a rendezvous with destiny but already has found destiny and is busily doing its best to change it.

Macmillan Is New Asst. Prof. Pharmacology

One faculty promotion was announced last week by The University of Vermont following the meeting of the Board of Trustees.

Dr. William H. Macmillan was promoted from instructor to assistant professor of pharmacology. Dr. Macmillan came to UVM in January of 1954. He holds the B.A. degree from McGill University, and the Ph.D. in pharmacology from Yale. A native of Boston, Mass., he is married, and he and his wife have two children.

S A Wagon

The Student Association has just traded for a new station wagon. Our question is WHY? What was wrong with the old one? It was familiar to everyone on campus - a '54 Ford with a light green color and only 22,676 miles on the indicator. Last week the S.A. took this wagon and about $775 down to the Ford dealer and came back with a new '56 station wagon, this one two shades darker green.

Our question is whether or not S.A. should have waited another year before it traded. Quite possibly the $775 could have been applied to a more vital student function. Now if S.A. felt that the old wagon just could not have lasted another year, and that this purchase was mandatory, well then, this new wagon is justified. But if it was purchased just so the school would have the latest thing in station wagons, and as a booster of pride for S.A., then we feel that the students have been subjected to an injustice. Student Association should be spending the students' money in trust for us, and not for the benefit of S.A.

Another thought crosses our mind. We feel that, needed or not, the Student Association, at least, should have waited until the Plymouths and Chevrolets made their debut. Whether they will be better or worse than Ford's product is a moot point, but should not S.A. at least have looked into the matter?

Proclamation

On the front page we have a joint proclamation from the presidents of Middlebury College, Norwich University and UVM.

The warning which they state should be taken to heart by every student. It is something that we at UVM have always held to be true. Damage of property, even in periods of patriotic excesses, is always to be avoided.

However, far more important is the relationship among the three schools. Certainly here is something that can be made useful and furthered for the benefit of all. Let's keep this in mind during our coming football games.

Players

Some sort of an apology should be made to the Canadian Players for the conduct of their audience at Memorial Auditorium last week. The unfortunate thing is that most of the blame should not be laid to the University, but rather to the students of Burlington High School who did their best to make the performance unpleasant to the rest of the audience.

The George Bishop Lane Series thought they did a generous deed when they invited those high school students down for the performance. But their folly was quickly evident, so we feel that at the cost of a few unsold seats, on future occasions university events should be offered only to members of the university family.

Letter to the editor

To the Editor:

Sigma Alpha Epsilon wishes to place on record a severe disapproval of the manner of reporting in the lead story in last week's CYNIC. Not only were the facts wrong in the matter of our "rushing violation," but they were completely misinterpreted.

For that reason, as president of the house, I would like to explain the facts from our viewpoint, a viewpoint which finds us at extremes with the reporting of your correspondent.

First, Sigma Alpha Epsilon is not charged with rushing violations. Emphatically, no charges have been levelled against us. We are not accused of allowing anyone to live in our house, in violating the campus rushing rules.

SIGMA ALPHA EPSILON brought the matter up to the Intrafraternity Council at a meeting several weeks ago. It was on request and vote of the entire brotherhood that the IFC representative was asked to tell the story to the Rushing Committee of IFC. This was done, and as the procedure was followed, the matter was subsequently brought to the floor of the Council itself. At no time of printing of your story was the fraternity, S.A.E., accused of a violation.

Our stand is this: The boy living in our house was granted permission by the office of the Dean of Men, when he arrived late on this campus, a sophomore transfer student. His address was recognized by the University, and in ensuing weeks he has received official correspondence, which, in a manner of speaking, recognized his address as Sigma Alpha Epsilon.

This recognition casts a different light on the subject. With this a fact, no violation of rushing rules can be considered, since with permission, the sophomore transfer student is then engaged in a normal university function, recognized by the University. This is one of the exceptions to the rushing rules, and is so stated.

With this thought in mind, S.A.E. requests a retraction of the story printed in the CYNIC of October 13, or a reasonable facsimile thereof.

Dave O'Brien,
President S.A.E.

We stand corrected and regret the error.

In Defense Of Derangement

By Gary Wright

Many years ago, when the territory now knows as Vermont was claimed by neighboring states, there was no such thing as a legal drinking age. This, of course, caused much gossip in New England. A young Connecticut lad, happy to hear of a place where liberal minds were appreciated, packed up a jug and a rusty gun, and lit out grinnin' to follow the blizzards. This boy was Ethan Allen. Why, we will never know.

Legend holds that Ethan was over seven feet tall. Most Vermonters, naturally conservative, claim he wasn't a hair over six eleven. Whatever his height, we know he didn't like being called "Runt." He developed an inferiroity complex and was constantly trying to make up for it.

Soon after his arrival he began running around with a rowdy gang of woodcutters; and to impress them, he would tear up a Beech tree by the roots and beat New Yorkers with it. He laughingly called this, "Giving them the Beech Deal." This did impress the gang, and the sport caught on; much to the chagrin of the New Yorkers and the depilation of the Beech trees. Soon it was considered proper dress to have a tree or two in tow, no matter how hard it is to say.

The New Yorkers soon tired of this, and rowing back across the lake with muttered curses, they established West Point in order to train an army suitable for invasion. Later, however, the automobile proved to be much more effective.

With typical originality and as a means of identification, Ethan named his group, "The Green Mountain Boys." Needless to say, he was their leader by this time; having fought Roger Ranger to a standstill. Some say this is why Roger went north and formed his own gang.

One day in the spring of "75" the Boys were lounging around bandaging each other, drinking hard cider, and throwing Indians into Lake Dunmor, when Ethan turned to the group and said,

"Dag stab it, Green Mountain Boys, I need a place to stay this summer. If I'm gonna be in history I need a summer home like everybody else."

One of the Boys, who was idly pouring cider down the barrel of his rifle, raised his head.

"Some British folk built a place over on the lake. Down from Canady way. Built a fine place, all field stone."

Ethan slowly lowered his cup.

"Yeah?"

"Yep. Must of cost plenty too, by the looks of it."

"Say now," murmered Ethan, picking up an Indian and throwing him into the lake.

"What say we take a walk over there and appropriate the place in the name of the Great Jehovah and the Continental Congress."

"Haw. Ol' Ethan," they snickered, jolting each other with their elbows.

Will Ethan be able to pay off the mortage on Fort Ti? Will Ben Arnold get there first? Will Lake Dunmore hold all the Indians? Beats me.

See you 'round the campus!

DANCES

Mortar Board will presen its annual Candlelight Ball Friday night, October 21, i Southwick ballroom from nin to one. For this first forma of the school year the usua "boy ask girl" tradition i reversed. This is the tim when the girls have an op portunity to ask thei favorite male.

Tickets for the dance wil be sold for $2.00. The evenin will feature the music o Bill Wanamaker and fruit punc and cookies will be served The Candlelight theme of th dance will be carried ou through the decorations.

Sally Hackett, presiden of Mortar Board, urges al the girls to hurry and ge their dates for the Morta Board formal, or they migh find that someone else aske him first.

The Religious Activitie Committee is sponsoring dance on Saturday, Octobe twenty-second. The name of th dance is "Caveman Capers" and it will start at 8 P.M. in the Waterman Lounge. Ther will be entertainment an will cost only 25¢ stag o 35¢ drag. Everyone is invite to come and Margaret Rotanelli, Publicity Chairman, stated, "It will be a topnotc social affairs."

Did You Know?

... That in 1849 a UVM presi dent was arguing for stat higher education? Presiden Worthington Smith, in his in augural address, said, "As measure then of state economy and for preserving state in dependence, and more even tha this, as a means of perpetu ating the character an cherishing the spirit peculia to any people, as well as fo the love of learning and th aids and incentives to it pursuit which are derived fro them, no sovereign people ca well dispense with the highe institutions of learning, o afford to expatriate their son for an education."

Around The Green . . .

By Rhoda Rosenberg

SIGMA PHI EPSILON

Sigma Phi Epsilon has had an active week. They held an exchange dinner with Alpha Delta Pi, Friday night and Sunday were host to Dean and Mrs. Alan Coutts. The jazz band is holding nightly rehearsals and hopes to get together with other jazz bands on Campus to have a combined jazz concert some weekend. Many alumni are expected for the Norwich game and an open party is planned at the house.

On Wednesday night the Sig Eps were host to their neighbors, the Alpha Epsilon Phi's who were quite anxious to see the changes in their old home.

KAPPA ALPHA THETA

The Thetas introduced their new Head Resident, Mrs. Lou M. Eddy, to the campus last Sunday afternoon at a tea.

Alums Barb O'Hara, Mary Plotzer, Bobbi Mett, '55 and Jean Nuss '54 returned to UVM for Homecoming Weekend.

Judy Doe accepted an open bid and is now wearing a Theta pledge pin.

DELTA PSI

The Delts started the year off in great style by first winning the Homecoming Poster, followed by an excellent buffet supper and party. They were also happy to see the large group of returning alumni take part in the week-end festivities.

Joe Wark, 55, of Barre was elected athletic director, replacing the post vacated by Bill Balfrey.

SIGMA GAMMA

A party was held at the Sigma Gamma house on Thursday, September 29 to welcome the Freshman girls from Trinity College who have recently moved into the house at 297 So. Willard Street. Refreshments were served, and there was a program of entertainment.

Among the visiting alumnae last weekend were Annette Rowell now employed as a dental hygenist in St. Johnsbury, Vermont, Miriam Aho, a psychologist in Hartford, Conn. and Judith Black, now a teacher at Bellows Falls High School.

The following girls were initiated at a sunrise ceremony on Sunday, October 9. Gayle Lyons, '56, Albany, N.Y.; Patricia McLean '56, Burlington, Vermont; Mary Ann Tabor, Hinesburg, Vermont; Ruth Carroll, '56, Plainfield, Vermont.

Sigma Gamma has scheduled its first exchange dinner with Sigma Phi Epsilon. The dinner to be held on Thursday, October 27 and will be followed by a card party.

All other plans for this year's activities are progressing at a fine rate under the capable direction of Ada Pratt, president.

GAMMA PHI BETA

Members and alumnae of UVM Beta Nu chapter of Gamma Phi Beta sorority celebrated their fifth anniversary on September 17 with a get-together in the afternoon. That evening at 7 there was a banquet at Oakledge Manner followed on Sunday by a tea for other guests of Beta Nu.

Beta Nu chapter was originally Kappa Xi Kappa, a local, organized with the assistance of the Panhellenic Council in the Fall of 1949. This group grew in strength and petitioned Gamma Phi Beta for a charter. Thirty girls were pledged on February 11, 1950 at Southwick with a delegation of actives from Syracuse University, Alpha chapter of Gamma Phi Beta officiating. On September 16, 1950 this group went to Syracuse for the initiation ceremonies.

By 1951 Beta Nu had purchased its home at 381 Main Street, a historic house built in the days when Burlington's lumber industry was at its height.

Since the founding of the Beta Nu chapter, Gamma Phi Beta has participated in campus activities and won recognition in many respects including a Kake Walk and Military Ball Queen, Homecoming and Snow Sculpture awards, and for several semesters having been awarded the scholarship cup.

Traditions have grown with the house including a Christmas party for the underprivileged children of Burlington and the Pie party has become an annual favorite.

In May, the girls invite their mothers to spend a weekend at the house and in June they honor their graduates and alumnae at June Spread.

PHI SIGMA DELTA

Friday, October 7, was an important day at Phi Sigma Delta. In a solemn ceremony, five men were initiated into the ranks of fraternalism. The new brothers are: Ed Teisch '57, Great Neck, N. Y.; Les Rutstein'58, Burlington, Vt.; Chuck Hirsch '58, New York City; Steve Soloman, '58, Great Neck, N. Y.; Pete Greenwald '57, New York City.

Saturday, after the Rochester game, the Phi Sigs opened the doors wide and played host to the entire University family at an All Campus Jazz Concert. Man, it was real cool! Le Jazz Hot was the theme of the day, and those red corpuscles were stimulated. The gay occasion was ably chaperoned by Mr. Jack Parker and his lovely wife.

Many alums were guests of Fern Hill in recent weeks. Some of the returning fraters were: Gino Gordman '49; Dick Lewis '55; Dick Goldstein '55; Lew Dan '55; Hal Greenfader '55; Marty Gwintz '55; Mark Rosenblatt '55; Barry Grannick '53; Irwin Herling '54; Joseph Jackel; Norm Gootman '54; Irwin Klein '55; Dave Faigel '54; Izzy Zalkin '55; Bob Kleinberg; Wally Lash '53; Dave Hershberg '55; Al Paul '53; Les Chusid '54; Al Dan '53; Dick Stein; Steve Taub; Abby Dan '55; Steve Laub-Stein; Skitch Levine; Ed Belle, Floyd Lapidow; Ronnie Fishbein, E. L. Fishelson; Earl Steinman '55; Peter Colodney '55; Marv Saltceuse '50; Gil Edelstein '50; Jay Selcow '55. Among the returnees was that grand old gal Mrs. Laura "Mom" Laudon '55.

It was really a pleasure seeing all those smiling faces again. The Phi Sigs can hardly wait to see some more of their old gang.

ALPHA EPSILON PI

A E Pi welcomed three new brothers into the fold Monday night. They are Marv Stockel Hal Fishbein and Herb Posner. That same night the fraternity, celebrating another football victory over the Fern Hill "mob", lived it up in their newly built "Lions Den" in the basement, in typical fraternity fashion. Brothers Marv Stockel and Jim Carlin received a great deal of praise for their fine scoring plays during the game.

A party is planned for the evening of October 15 and the word is that it will be the best yet, according to Social Chairman, George Friedman. On Tuesday, October 11, Supreme Governor, Jack Temkin, paid the chapter a visit and discussed plans for the New England Regional Conclave which AEPi will host for its brother New England Chapters later this year.

SIGMA NU

Sigma Nu experienced a very successful Homecoming with all of the events going off as scheduled and with a large number of alumni returning for the weekend. Two of their alumni flew up from Florida in a Navy jet.

Two veteran Kake Walkers, Jack Mathewson and Thomas Snelson, were here for the weekend and put on an exhibition of walking at the Saturday night house party.

Cloud Seven

The weekend carried its share of cupid's tidings as we emerged from the weekend with four new Sigma Nu pinnings. They are: Donald Aikman to Rose Marie Urick, a PiPhi, Bill Keeshan to Judy Umper, a Tri Delt, Dave Wentworth to Barbara Leggett also a Tri Delt, and Phil Levine to Merrilee Gates of Framingham State Teachers College. The girls were very successfully serenaded Monday evening, each one being presented with the fraternity flower, the white rose.

Joan Kienast a Theta returned from Dartmouth last weekend wearing a DKE pin. It belongs to Art Zich.

Ken Fisher returned to UVM for Homecoming -- What's exciting about that? Well, he and Lee Hoilman also a theta became engaged this weekend. Congratulations, kids!

A reception was held at the Sigma Gamma house on Saturday, October 8 following the marriage of Janet Parker, Sigma Gamma '55 and Sgt. Glen Harkelroad.

Wedding bells are in the air for Everet Dargie, a Sig Phi Ep, from East Rygate, Vermont class of '55. Congratulations Dargie.

Congratulations to Robert Hedger of Sig Phi Ep and Sammy Hobert of Gamma Phi Beta on their recent engagement.

Jessica Schildhaus, '57, from Washington, D.C. was married in June to Kenneth Fischer from Mount Vernon, New York. Mr. Fischer is a 1952 graduate from Syracuse University.

Prepared By The Public Relations Office

DR. LEPESCHKIN REVIEWS IKE'S CARDIOGRAMS

Dr. Eugene Lepeschkin recently conferred with Dr. Paul D. White of Boston, leading heart specialist who has several times examined President Eisenhower at Fitzsimons Army Hospital in Denver, Col., following the President's heart attack.

At Dr. White's request, Dr. Lepeschkin traveled to Newfane, Vt., where the two specialists studied the President's electrocardiograms and reviewed his progress since the attack. Dr. Lepeschkin said that he was surprised and flattered to be called in as a consultant in the case. In Denver, Dr. White told a news conference that he considered Dr. Lepeschkin "one of the world's authorities on the electrocardiogram ... a very important authority."

Dr. Lepeschkin said that there has been a marked increase in the number of electrocardiograms being given here in Burlington, quite probably a result of the President's heart attack and the nationwide interest in heart conditions it created.

FOREIGN FILM AT FLEMING MUSEUM

The Fleming Museum Association will present the French motion picture, "Diary of a Country Priest," at the Museum auditorium at 8 P.M., Thursday, October 27. This production is the second in a series of eight attractions being offered this year by the Museum Association. The picture, directed by Robert Bresson, has been awarded several prizes on the continent. It deals with the adversities encountered by a young priest in a small French parish and his struggle to overcome his deficiencies.

Other foreign films to be shown will be "The Eagle With Two Heads," in December and "Beauty and the Devil," in January. Four film-lecture programs during the winter and spring will complete the series.

Membership in the Fleming Museum Association is available to faculty and staff at $2.50 for single. $4.00 for family and $10.00 for contributing memberships. In addition, tickets to individual attractions may be obtained for fifty cents at the door.

* * * * *

CINEMA ART CLUB FILM PROGRAM

The Cinema Art Club of Burlington will hold its next program on Saturday and Sunday evenings, October 22 and 23, at 8 P.M., at 75 Bilodeau Ct. The same program will be shown each evening and will consist of five short films: 1. "Masters of Sacred Music," a picture in English about Mozart, Shubert, Bruckner and others, featuring Austria's leading orchestras. 2. "Mr. Trull Finds Out" - a man finds out about life by thinking himself dead. Music by Cian-Carlo Menotti and an outstanding cast. 3. "Rothenburg," a film in German about this famous medieval city (or alternate, "The Fallen Eagle," a color picture of the Sioux Indians.) 4. "Three Masters of Woodcarving" (Pechstein, Bangemann and Orlowski). 5. "Basic Dance" - techniques of the dance by Kathleen Hinni and her students, including an original ballet performed on the beach at Martha's Vineyard with the sea as background.

This program, as well as the two future membership programs, is available to members only, without additional charge. Membership fee is one dollar and may be paid at any of the programs.

"Diary of a Country Priest" will be shown on October 26 at 8 P.M. at the same address. This showing is free to members of the Fleming Museum Association; to others, the admission charge is fifty cents.

Due to the increasing numbe of Vermonters enrolled at UVM the Freshman Class of "1959" is the largest in the University's history. Mr. Collins, Registrar of Admissions says, "the great increase in Vermont admissions this fall ca be traced directly to the generous appropriations of the second 1955 Vermont Legislature." The following statistics show the increase of the 1955 admissions as compared to admissions of 1954.

Undergraduate Enrollment	1954	195
Arts & Sciences	937	91
Technology	669	76
Agriculture & H Ec	427	41
Educ & Nursing	429	45
	2462	255
Plus 88 Medicine Graduates	399	39

"Boys Will Be Boys"

by Ed Boadway

"Boys will be boys" is a much-used expression, but one which aptly describes the numerous misdemeanours of students during the ffrst century of UVM history. Many practical jokes can be found among the records of ordinary rule-breaking. Due to the University Laws and the extreme lack of extra-curricular activities, boys gave vent to their feelings by mischievous means, - made more tempting by the stern features of the faculty.

In 1811, five boys were fined fifty cents each for using the college fence as bonfire material. During the same year, 7 boys, (almost the entire student body) were fined for cutting the bell rope, which was a favorite source of deviltry. Additional charges were made because of "glass broken."

CYNIC Defends

Fires of doubtful origin were common. In 1844, the president's house was burned to the ground. The boys claimed that lightning was the cause, but, as said by the late Dean Hills, "the faculty credited, or rather debted the boys with the destruction." The highlight of the 1836 commencement was the burning of the gymnasium and damage to the "janitor's barn." Again, the students were blamed, but the CYNIC vigorously denied the charges.

A cannon, kept by the Military Department, was often ridden and fired illegally, much to the dismay of surrounding window glass. A classic foul deed of the 1830's was the discovery of Lt. Coffin's uniform tied to the top of the campus flagpole. The halyard had been cut, and the removal of the clothing was difficult and expensive.

Many smaller deeds are notable. Gas lights and furnaces were disturbed, the organ was filled with lead shot, legs of professorial chairs were dangerously sawed through, class officers were kidnapped at banquets, and mice were freed in classrooms. On many occasions, a cow, or some other farm animal, was found tethered in the chapel. The chapel Bible disappeared at crucial moments. At this time there was no student government to control such activity.

The UVM Boulder, which has been on the campus 105 years, travelled widely in the 1890's. It has been rolled down the hill, painted, desecrated by visiting teams, and hidden in fraternity houses. It retired from active duty in 1908, when the famous piece of schist was mounted on a granite block. At the present time the Boulder is in front of the Old Mill.

Directors

(continued from page one)

Edwin Hebb, Jr., Sigma Nu, Bellows Falls, Vermont;
Production and Band - Kenneth Wadley, Phi Delta Theta, Great Neck, New York.

Fall planning includes: choosing assistant directors; outlining program for the year; planning for production; signing of bands for the fall and jazz concert; ordering cups and awards, and many other smaller matters which come up as the year progresses.

Secretary -

The tremendous task of handling all Kake Walk correspondence, in addition to taking notes at all Wednesday meetings, lies in the able hands of Miss Nancy McGoughran, who is a senior and a member of Delta Delta Delta Sorority. Nancy is from West Orange, New Jersey.

Two other important individuals in connection with Kake Walk are the advisors. University advisor to Kake Walk is Dr. Milton Nadworny, assistant prof. of economics, and financial advisor to Kake Walk is Mr. George Perkin, assistant treasurer of the University.

Macbeth

(continued from page three)

and yet this reviewer found himself thinking that he was just waiting to be convinced of good reasons for Duncan's murder. The sleep walking scene was done with emphasis upon the fact that Lady Macbeth was in a trance, and therefore "out damned spot" was uttered as if she were trying to flick away a fly. Nevertheless, in this way it became more believable.

The poorest player of the evening was easily Margot Blavey in the role of the Macduff child. The child is a boy of about ten, whereas Blavey is a woman of about twenty-five. She was obviously chosen for the part because she was the only person available, and yet one wonders if it would have been a bit more convincing if someone could have taken the part who did not have a French accent. Whatever the reason, the net result was that the Macduff child a bright young lad in Shakespeare's play, became an overgrown idiot child last week.

One of the difficulties of a small cast is that the players do not have time to change make-up from one part to another. A result of this was that the witches, who were all supposed to be ugly old hags with beards no less, looked like pretty young Little Red Riding Hoods. It took a lot of cackles to produce the desired effect.

Douglas Campbell, who directed the company, played the part of Macduff with feeling and in the main held the audience's attention.

As the play continued the audience became less and less attached to it, until during the last act it seemed as if every move brought laughter from the floor. In the light of this, it is surprising that Bob Gibson, as the drunk porter, didn't have a greater success.

Whatever else the play lacked may be explained by the production. In part this may be the fault of the poor facilities of the auditorium, but the Players could have done more. For example, when the witches pulled their creations out of the caldron, it would have been an easy matter for them to actually have something in their hands, and when Macbeth cries out at the top of his voice in the last act, "Ring the Alarums!" it is indeed an anticlimax to have him walk off in dead silence.

To summarize one might say that the acting was excellent and that it is a pity that there were so many other factors which tended to cancel it.

Football

(continued from page one)

Soph Tom Tierney who directed the attack in a masterful way. Tierney completed over 50% of his passes for 212 yds. and 2 touchdowns while setting up and scoring the third one himself.

VERMONT OPENS SCORING

After a scoreless first quarter Vermont was the first to reach paydirt in the second canto. Rochester kicked-off to open the game and Vermont after being unable to move against the hard-charging Rochester line was forced to punt. Here Rochester gained control of the ball and promptly engineered the first scoring threat of the rainy afternoon Led by shifty Dick Devereaux and rugged Sam Santandrea they moved the ball to the Vermont 9 yd. line and a first down. The big play of this offensive threat was a spine-tingling run by Devereaux from his own 48 to the Vermont 21 yd. line.

With Rochester working the ball through the center of the line they finally got a first down on the Vermont 9 yd. line. Here the vastly improved Catamount forward wall staged a goal line stand and held on the one, taking the ball over on downs.

After getting the ball the "Cats" immediately began to move and following the injury to Beck in the second quarter halfbacks Al McLam and Dick Jannoni started the drive to Vermont's first score. McLam carried the ball from his own 27 to his own 43 and here Tierney, who had replaced White in the Vermont lineup after the latter had been shaken up handed the ball to the fleet-footed Jannoni. The little scatback then broke through the line and appeared headed for a touchdown when he slipped and fell on the wet and muddy turf. After 2 more shots at the line and a Rochester penalty, Tierney faded back to the 27 yd. line, hitting McLam with a pass on the one. McLam, on this play, outmaneuvered the Rochester secondary and got behind them to make a beautiful leaping catch of the slippery pigskin only to fall down on the one, just short of a touchdown.

Here with a first down, Tierney, quarterback, sneaked the ball over for Vermont's first score. It was the "Cats" first score in 3 games after previously being held scoreless the 2 previous Saturday's in losses to Maine and Rhode Island. McLam promptly converted the first of his three points after touchdowns and the "Cats" were in front to stay, 7-0.

After Vermont kicked-off, Rochester promptly moved up the field led by the hard-running Devereaux to score their first touchdown. The score came when Devereaux broke through the right side of the Rochester line and behind some good blocks twisted his way to paydirt. The run covered 52 yds. and was reeled-off with 40 seconds remaining in the ist half. Schudell's try for the extra point was wide and Vermont left the field at halftime on the top end of a 7-6 score.

VERMONT SCORES TWICE

Taking the field for the second half Coach Ed Donnelly stayed with Tierney at quarterback and this move proved to be a success.

Vermont kicked off to Rochester and stopped the ball carrier on the "Yellow Jacket" 26. Then the versatile Mr. Devereaux, broke through the Vermont line and appeared headed for an almost certain score when he was stopped by a high-hard tackle by Tierney that sent him spinning. Vermont then took over on downs after a Rochester personal foul had ended the threat. Throughout the game Rochester lost great chunks of yardage due to unnecessary roughness and this was undoubtedly one of the main reasons for their downfall.

Two quick passes by Tierney, one to Glascione, who made a leaping catch of the ariel and another to the elusive Janonni that covered YP yds. stunned the "New Yorkers" and gave Vermont its second score. Tierney had let the ball go on his own ho and the fleet-footed Janonni gathered it in on the Rochester 48 and raced down the sideline unmolested for the touchdown behind a great block by Marty Johnson. It was the 1st touchdown in 3 years of varsity play for the little pepperpot who is one of the sparks of the UVM squad and came at a very opportune moment. McLam again converted and Vermont led 14-6 with 6-30 remaining in the third stanza.

Vermont kicked off and Rochester was promptly forced to punt again when 3 thrusts at the Vermont line and 2 more penalties failed to get the necessary yardage for a first down. McLam gathered in the punt and ran it back from his own 39 to the "Yellow-Jackets" 45. Here after a few quick plunges at the Rochester line could only net a few yds. Tierney once again faded back and let go with a "bullet" over the middle of the line in the Rochester secondary where the glue fingered McLam gathered it in and went all the way for the score.

Both coaches substituted freely during the final quarter as Rochester scored their 2nd touchdown. Rochester's attempted conversion was again wide and the score stood at 21-12. This is the way the score remained as the "Catamounts", after taking the kick-off ran the remainder of the clock out to preserve UVM's second victory of the season.

Vermont Favored In State Grid Opener

Harriers Lose To Wesleyan

Capt. Don Grady, the first Vermont runner to finish, shown as he breaks the tape last Friday.

by BEN WOLL

In a real close race, the Vermont Cross Country Team lost their first home meet of the season to Weslyan by a 26 to 29 score. The Cats, after winning their first meet over RPI have lost tough ones to both Union and Weslyan.

The winner, in a closely bunched finish was Hinman of Weslyan with a time of 25:43. He was followed in second place by his team mate, Many. Captain Don Grady was the first finisher for the Catamounts. Grady, after starting slowly, had caught up with the winners in the latter part of the race but couldn't keep pace with the fresher Wesmen. The Vermonters bunched their places from here however as Ken Wadley, John Fitzpatrick and Nelson Slack took fourth fifth and seventh places. Art Tauber captured the number ten spot.

Coach Archie Post is still looking for that fifth man who can finish consistently with the rest of the squad. This week, the Harriers journey to Orano Maine where they meet the University of Maine on Saturday.

LET'S ALL TURN OUT AT THE PEP RALLY FRIDAY NIGHT.

Frosh X Country Top BHS & Jericho

by BEN WOLL

Last Friday afternoon, the UVM Freshman Cross Country Team topped the leading two high school cross country teams in the state as they downed Jericho and Burlington respectively with a solid show of strength taking the third through sixth places. The The Kittens, running on their home course had 26, Jericho 43 and Burlington 60.

The first runner to breast the tape was Picard of Jericho who was closely followed by Mahlon Teachout of BHS. Bob Kuchar, Ray Allen, Dave Porta and Larry Seymour of the Kittens took the next four places respectively. Other Vermont finishers were Reardon, Easter and Silver in eighth, eleventh and fifteenth places.

The win places the Kitten runners in the distinctive position of being the only undefeated UVM team. They face Waterbury and Vergennes High here this Saturday.

Williams Drops Kittens 8-0

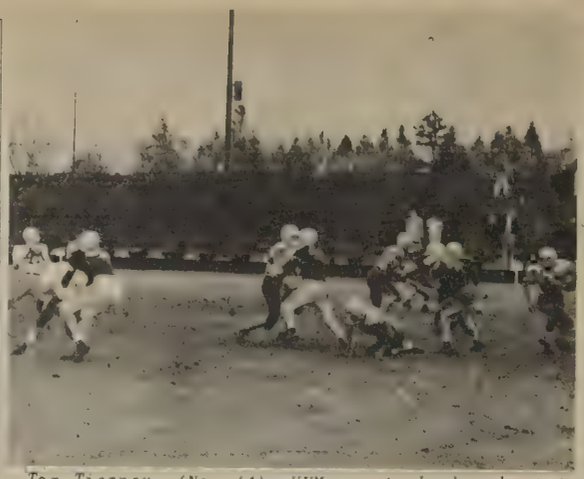
by RUSS HENRICHS

The Vermont freshmen were beaten, 8-0 in a muddy battle against a powerful, smoothly operating Williams eleven at Williamstown, Mass. last Saturday morning.

The Vermont defense worked well once again with an intercepted pass leading to the only Williams score, but the Frosh team from Williams showed perhaps the most outstanding team that the Kittens have had the misfortune of playing in several years.

But there is a lot of good talent on the Vermont team. Little Lou Petrenaci broke away for runs of 35 and 50 yds., equaling his performance of last week, and a pair of big fullbacks, Maynard Bush, and Bill Simond - turned in good offensive and defensive work. Coach Fuzzy Evans also praised the strong linework of Frank Brown and Eddie Primavera.

Once again however, the Vermonters weren't able to score. Every scoring attempt bogged down short of the goal line.



Sports Shorts

Brooklyn College Doesn't Lose

For the first time in five years, the Kingsmen of Brooklyn College didn't lose a football game. After five years of searching for that elusive first win, the Kingsmen came up with an answer. Both of their quarterbacks were out of action permanently. The rest of the team was battered badly. Brooklyn was to meet Norwich on the gridiron last Saturday when the answer came. The Kingsmen didn't show up! After losing 28 games in a row, Brooklyn may throw in the towel.

BECK NOT TO PLAY

Vermont football captain, Ed Beck definitely will NOT see action in this week's Norwich game contrary to a report circulated by a downtown paper. Also, he has NOT, as has been reported, attended classes at the University. Beck's injury is not as serious as at first thought but the UVM grid captain will definitely be out of action for at least a week.

Tom Tierney, (No. 41), UVM quarterback, about to pass to Dick Janonni, (No. 11). Note the excellent protection he is getting from the Vermont line.

As I See It

BY Ed Willard

The Yankee Conference is getting to be big stuff.

Though not too much in the way of evidence is needed to prove the point, we may add things up here to see just how it does stand. The relative ease with which our own UVM team has handled its non-conference foes and the trouble (to put it lightly) that the Cats have had with the Yankon foes goes a long way toward proving the point. Incidentally, we could probably appraise this year's edition of the Catamounts in a much sounder light if we realized the great difference between the Cats present Yankon foes and its present " small college " foes. There just isn't any comparison between the two groups!

The University of Connecticut is a good case in point. The Huskies started out the season by losing a real tough ball-game to Yale, supposedly the king-pin of a strong Ivy League. The Saturday following, UConn beat a big timer in Boston University. Last week, they won a squeeker from UMass and this past weekend were slapped 13-0 by Maine. Last year, the UConns dropped a 32-29 decision to Holy Cross. Comparative scores aren't everything but they unmistakably indicate a trend of the Yankon's growing ability to take the " big Boys " of the East in their stride. New Hampshire, by the way, lost 20-18 to a Delaware team who plays all the " big " teams of the Middle Atlantic Conference. Rhody State has knocked off its Ivy League foe, Brown, for the last two years.

The Yankon coaches, as far as they are known to this writer, are a very capable serious bunch of men. Our own Ed Donnelly was brought here after five successful years as backfield coach at Boston University. Bob Ingalls, the UConn mentor was an All-American and later coach at Michigan. Charlie O'Rourke, Chuckin' Charlie as he was called in his undergraduate days at Boston College, was also an All-American. Hal Kopp, Westy Westerman and " Chief " Boston, the coaches at Rhode Island, Maine and UNH respectively, all have impressive records to date.

In the field of basketball, the Yankon champ has an automatic invitation to the NCAA tourney in the years to come. What will come of this, no one can predict. This same set up is also true in intercollegiate baseball.

NOTE: The word " stunk " will never darken the face of this column again. We've been informed it's not correct English.

HOW OUR OPPONENTS FARED

Union	32	RPI	12
Maine	13	UConn	0
Rhode Island	39	UMass	13

Cats Meet Cadet In Home Final

by ED WALKER

The University of Vermo Catamounts wind up their ho schedule this Saturday wh they face the Norwich Hors men at Centennial Field. T game is the first inter-ste contest for the Cats, who a after their second successi State Championship and it also the 47th meeting betwe the two teams with Vermo leading in over-the-years co petition, with 30 wins, losses, and 4 ties.

Team Praised

Coach Donnelly thought t team had played a fine gar against Rochester and th Capt. Eddie Beck, who recei ed a back injury in the gam might see action Saturday needed. Dick Jannoni rece ed praises on his good eff last Saturday and also scor his first touchdown of h Vermont football career, on pass from Tom Tierney wh also played a great gam Fullback Marty Johnson is good shape now and is expec ed to be in the starting line- against the Cadets.

OUR OPPONENT

October 22, 1955
"Horsemen"
Colors: Maroon and Gold
Coach: Bob Priestly
1954 Record 2-6
1954 Vermont 41 Norwich
1955
Norwich 12 Upsala 13
Norwich 19 Bates 0
Norwich 9 Coast Guard
Norwich 0 NH Teachers

Horsemen Ready

Coach Bob Priestly of No wich had his team in goo shape and hopes to get ba at the Cats after last year' 41-0 loss at Northfield. Th Maroon and Gold's hopes de pend mainly on whether fin string quarterback Paul Ma honey will be fit for actio He has been out for a mon with a shoulder separation ar his subs, Nick Spagnoli an Pete Cronin, have been call ing signals in his place Watch Spagnoli, a freshma who is reported to be an "ace passer! Hard practice dril hope to replace last weekend' cancelled game with Brookly College, but the chances ar that without Mahoney, No wich's chances are slim. Ba es has been their only win s far and with Middlebury losin to Bates last Saturday, No wich may be the stronger the two contending state team

Critic Says 'Tea And Sympathy' Tremendous Success

y David Spector

"A tremendous success" is the term most used by an enthusiastic audience at emorial Auditorium last Monay evening after a sterling erformance of Robert Anderon's hit play, "Tea and mpathy." The eight curtain alls were only a part of the esponse however; the quiet ttention throughout the proiction demonstrated time and gain how much the show was ing enjoyed. One can only ntrast this to the reception "Macbeth" of two weeks o.

Everything about the play s fine. Maria Riva, as the derstanding house mother, s superb, and the rest of e cast was much more than equate. Memorial Auditorium certainly a limiting factor d it is to the great credit the cast and stage manager at they could make the best the circumstances and still me out on top. The splitel set was most interesting d was able to be used roughout the production thout the viewers tiring of . It encompassed all the tion in the one faculty sidence-dormitory and was ch more than just a few ards thrown together.

The play was acted in a reful and delicate manner roughout, but was quite able point out the effects of osed minds on a tight little mmunity, whether it be a n or a school.

The characters played their rts with a sincerity rarely en on the local stage, but is is no doubt due to the

UVM Students Install TKA Chapter, At Tufts

Last Friday Professor Huber and five members of Tau Kappa Alpha went down to Tufts College to install a new chapter of the honorary society. The group included president, Leonie Strachan; vice-president, Herbert Simons; secretary, Pat May; and members Phillip Grover and Max Ansbacher. That evening the group had two practice debates with Tufts. On Saturday morning they had two practice debates with Boston University. During both sessions Max Ansbacher and Phillip Grover were affirmative whereas Herb Simons and Leonie Strachan were on the negative side.

In the afternoon there was a reception and tea for those people who were to be present at the initiation. Following this the actual installation ceremony took place. The charter of the honorary society was given to the president of the college and then Professor Huber and the five members representing UVM ini-

Red Cross Sets 150 Pint Quota For Fall Drive

The American Red Cross Blood Drive will be held on November 3rd in the Waterman Lounge. The drive will begin at 10 and continue throughout the day until 4 p.m.

The Red Cross set 150 pints as the quota for this fall's drive. This is not the first time that this program has been held at the University. For several years it has been an annual event sponsored by Key and Serpent Men's Honorary.

Recruiters have been soliciting in all the living units, in order that there be sufficient pledges to fill the quota. This year, in order that a person under 21 may give blood, he must have his parent's signature, regardless

Over Fifty Candidates To Run For SA And Class Offices

Thurston, Bush Scroback Vie To Regain Posts

A total of fifty-four candidates are in the running for various Student Association and class offices in the elections to be held tomorrow. The candidates are vieing for the posts of Student Association Councilmen from each class, vice-president of the Sophomore Class, and all four officers of the Class of 1959.

Three seniors are campaigning for the one open post of Councilman from the Class of 1956. They are Frank Thurston, present member; Gordon Gilman and Michael Morse.

Nancy Bush, present Council member from the Junior Class, will attempt to regain her post against Charles Wilkie, Peter Kenney, John Wu and John Mesch.

The Sophomore Class will elect two new Councilmen. The candidates include Andrew Skroback, present member; Arnold Blackstone, Edward Austin, Einar Chrystie, Terry Scribner, Dorothy Curtis, Arthur Krauser, Gail Henyon, Michael Zacchilli, Janice Erla, Peggy Patton and William Mitchell.

The position of vice-president of the Class of 1958 is also open. Those running include Edwin Clay, Robert Krauser, Edith Lawson, Kenneth Orne and William Treene.

The Freshman Class will elect three Councilmen to Student Association. The candidates are: Marcia Beals, Larry Ostrow, Abigail Russell, Kenneth Dannett, George Silver, Robert deForest, Norman Letarte and Peter Snow.

Eight candidates are running for the office of president of the Freshman Class. They include Paul Bristol, Alan Kessler, Allen Harrington, Michael Sollby, Ted DaMolta, Peter Basralian, Albert Meyer, and William Swanson. Those vieing for the post of vice-president of the Class of 1959 are John Coffey, Stuart St. Peter, Al Giovanella, Donald Neitlich and Ray Fitzgerald. Linda Goodwin, Jaine Miles, Patricia Philpitt and Elliott Brown are seeking the position of secretary, while Bonnie Vuckley, Mona Stocknoff, Robert Morrill and Ronald Rothschild are running for treasurer.

Beckless Cats Tie Norwich

Wescott of Norwich carries after taking a pass from Cronin, first quarter of UVM-Norwich game...on next play, they scored from three-yard line to lead 6-0... Final score 20-20. *(Photo by Daily News)*

by PAUL HULL

A near riot, a cheering crowd of 6000 people and a fired up Norwich eleven were the features at Centenniel Field last Saturday as the determined Norwich Horsemen held a favored University of Vermont team to a 20-20 tie in the opening game of the 1955 State Series. The Cats, with Tom Tierney firing passes accurately at times seemed on the verge of running away with the contest all afternoon but Norwich had different ideas and struck back each time with a vengeance to score a moral victory and wipe out the memory of the humiliating 41-0 loss they suffered at the hands of the Catamounts last year. The game, a long three hour affair, was marred by sloppy officialling but provided a fine afternoon of football for the shouting Norwich and Vermont adherants.

Norwich drew first blood in the contest as Junior Jack Begeibing drove over for the first of his three touchdowns of the afternoon. The first UVM score came with seven minutes to go in the first as the Catamounts recovered a fumble on the Norwich 30. Operating out of the single wing, quarterback Tom Tierney hit end John Galascione with a pass and a first down on the ten, from where Tierney raced around left end and scored. The point was missed and at the half the score was tied at 6 to 6.

With only four minutes gone in the second half, the Catamounts scored again. This time it was McLam who set it up, as he intercepted a Norwich pass on the Norwich 47 and sprinted down the sidelines in an electrifying run of 45 yards, being smashed out of bounds on the Norwich

CATHERINE NULTY HONORED

Catherine Nulty was honored by the Vermont Business Education Association during the recent meetings of the Vermont Education Association in Burlington, The VBEA presented to Miss Nulty a sterling silver book mark, engraved with her initials and those of the Association, in honor of her long service. She has been a member of the Vermont Business Education Association for thirty-five years, and president for twenty of these.

TWO RESEARCH GRANTS

Donald Johnstone has been named to direct research on "Lysine Synthesis by Azotobacter" under a grant of $8,600 from the National Science Foundation. For continued research on his project "The Drop-Flattening Method of Measuring the Surface Tension of Solid Metals," Adam Skapski has received a grant of $6,370 from the Research Corporation.

AMERICAN FOREIGN POLICY LECTURES

The eight-lecture program sponsored jointly by the Vermont Council on World Affairs and the Vermont CIO and AFL Unions is now in its second week. The adult education course on American foreign policy consists of addresses, films and discussions, and is being held from 7:30 - 9 P.M. on Mondays at the Spaulding High School in Barre and on Wednesdays at the Rutland Free Library. Under the direction of Robert Heussler, the series will include addresses by George Little and William Steele.

Faculty Notes

Robert Huber installed a new chapter of Tau Kappa Alpha at Tufts College in Medford, Mass., last week. He is the regional governor of the national forensic honorary fraternity.

* * * * *

Governor Johnson has appointed Dr. William Young chairman of a commission to study mental health problems in Vermont. Starting with an analysis of existing facilities which might serve "border-line" and non-psychotic cases, Dr. Young will investigate possibilities of a half-way house and further assistance for mental patients during the next year.

* * * * *

Robert Heussler presided at the Rutland UN anniversary ceremonies last Friday evening. He introduced the main speaker, Gerard Widdrington, top staff officer of the United Nations Secretariat for ten years.

* * * * *

President Borgmann was the guest speaker at a luncheon meeting of the AIV in Woodstock last Thursday, at which he discussed education needs and the problems of financing them. During the afternoon, Robert Babock was moderator of a panel discussion dealing with the acquisition of new industries in the State.

* * * * *

Anna Harris recently led a discussion of current education problems at a meeting of the A.A.U.W. at the Hotel Vermont.

* * * * *

George Dykhuizen was the main speaker at the recent international banquet of the Zonta Club, held at Oakledge Manor. He traced the history of the present Egyptian regime and drew conclusions concerning its struggle for leadership among the Arab nations.

* * * * *

Dr. John Bland was the featured speaker last Saturday at the meeting of the New England Rheumatism Society at which he discussed the "Interpretation of Palmar Erythema." Groups attending the gathering came from Harvard University, Tufts College, Massachusetts General Hospital, Robert Breck Brigham Hospital, Peter Bent Brigham Hospital and the Mary Hitchcock Hospital of Hanover, N.H.

* * * * *

Hugh Riddell has been appointed to serve as a member of the American Feed Manufacturers Award Committee of the American Dairy Science Association. This committee selects a recipient for the annual award for distinguished service to the industry.

* * * * *

John Newlander was re-elected as secretary-treasurer of the Vermont Dairy Plant Operators and Managers Association.

WUS Drive To Aid Student Med. Services

The World University Service drive starts on November 6 and is terminated on November 13. The most significant contribution of WUS will be to materially and morally support the development of student health services. Medical aid in form of drugs and equipment will normally be used within the framework of such schemes.

The student population of Burma is centralized in Rangoon and Mandalay. Students in Rangoon suffer mainly from malaria, dysentery and Tuberculosis. The Rangoon University (4,000 students) operates a small hospital for students with a part-time medical ward and a full-time assistant medical warden. Funds are urgently needed to equip this hospital more adequately and to purchase drugs such as penicillin and streptomycin.

Sandy Winterberger is heading our WUS drive and the R.A.C. is in charge. The following chairmen have been selected for the various groups: sororities - Marilyn Cooper, Tri-Delts; fraternities - Bob Dana, Phi Delta Theta; men's dorms - Frank Thurston; women's dorms - Carol Hill; publicity - Theodore Ginsberg and Mickey Rotenelli; faculty chairman - Joan French; and off-campus - Fran Rothman.

OUR GOAL IS $2,000. REMEMBER, THE MOST WE GIVE IS THE LEAST THEY NEED!

Trocme, French Teacher To Speak At Congo Church

Andre Trocme, French educator and pastor, will speak at the First Congregational Church in Burlington on Sunday evening at 8 p.m. A recent traveler in the French protectorate of Algeria, now characterized by so much nationalist unrest, Trocme will be sponsored by the Burlington Council of Churches. Students and the public are invited.

Born in 1901, Trocme studied for the Christian ministry in Paris and at Union Theological Seminary in New York. For eight years he was pastor of a mining and steel-working parish of the French Reformed Church in the north of France. In 1933, he was transferred to the little Huguenot village of Le Chambon-sur-Lignon. Here he founded College Cevenal, an international secondary school, for the purpose of helping the cause of peace by bringing together young people of various nations and races. The College has been of considerable interest to American Protestants, and for several years the Congregational Christian Churches have had a representative on the staff.

During the second World War, the presence of Jewish and political refugees in Le Chambon attracted the attention of the Vichy police. Trocme helped many refugees to hide and later to escape into Switzerland. He himself was placed in a concentration camp for five weeks, and later went into hiding to escape possible execution.

In recent years Trocme has been a secretary of the International Fellowship of Reconciliation, traveling and studying in order to find how Christian principles can be applied to present situations toward the creation of peace.

Mortar Board Dance Was First Formal Of The Season

Approximately 250 couples attended the Candlelight Ball, presented by Mortar Board October 21 in Southwick ballroom from 9:00 to 1:00 p.m.

Bill Wanamaker's orchestra provided music for the dancers at the girl-ask-boy affair, which was the first formal dance to be held this year at Vermont.

Streamers and blue lights created a candle-lit atmosphere for the occasion. Refreshments of punch and cookies were served during a brief intermission at 11:00.

Chaperones were President and Mrs. Carl W. Borgmann, Mr. and Mrs. George A. Male and Mr. and Mrs. Malcom F. Severance. Distinguished guests included Dean Anna Rankin Harris and Assistant Dean Mary Margaret Wing.

"Communism Fills Chinese Needs," Wong Tells IR Club

"Communism fulfills certain spiritual as well as material needs of the Chinese people," James Wen Hsu Wong told members of the International Relations Club last week. Speaking on "Evolution and Revolution in China," Mr. Wong said that there was now no hope of Chiang's return to the mainland.

In the question period following his talk Mr. Wong said that he saw no real reason against recognizing China and seating the communist delegation in the United Nations. He said that these were marginal matters and would have little significance for either better or worse.

Mr. Wong emphasized the point that in order to have a real understanding of international affairs one had to be a student of the particular nation involved, and that not only the political aspects of that nation should be taken into consideration, but the geographical, religious, and economic aspects also. In order to grasp these a student needs to have a full liberal arts education, Mr. Wong added.

Ancient China has always had a strong feeling of family strength, as a self-sufficient unit. Modern technology made this impossible, and the disolution of the family left a vacuum which has now partly been filled by communism.

Because of the cooperative nature involved in building such large structures as irrigation dams, and the Great Wall of China, the Chinese have always placed a great deal of power in the hands of the state, and have considered the individual subserveant to it. This fits well into the plan of communism, according to Mr. Wong.

Other factors which Mr. Wong attributes to the success of the communist ascension to power is the lack of codified laws, the difficulty of language in discussion abstract ideas.

The Cashier's Office announced that all checks presented by students to be cashed, must be accompanied with the student's I-D card.

The Sophomore Class is sponsoring a hayride on Saturday, October 29, from 8-12. Everyone will leave from the lounge in Waterman at 7:45. Free cider and donuts afterwards. $1.25 per couple.

Non-sympathetic Tea

Last week "Our Sunday Visitor," the official publication of the Catholic Diocese stated that "it (Tea and Sympathy) seems likewise a poor vehicle for consumption by college students whose discernment may not be as mature as frequently attributed to them.

"Running the gauntlet from homosexuality to adultery, the theme, no matter how cleverly clothed in language, is scarcely cultural or entertainment fare."

We tend to disagree on both of these points. To answer the second one first, it seems to us that a sociological problem is a long way towards being solved when it is brought to the attention of an educated public. To get an educated public, you need to present the facts and therefore bring the problem to the full attention of all. The problem will not disappear by just ignoring it.

As for the first point - if college students are not to be permitted to see the production just who may? It seems to us that by the time a person has attained the college level he is mature enough to witness and understand such fare.

Has "Our Sunday Visitor" completely missed the point?

We are not sure that the subject matter of the play is one of homosexuality or adultery. These are only secondary. The real theme is about people with closed minds to open questions.

The fact that a controversial question is wrapped in an entertaining play certainly does not seem to us to be grounds for condemning either the question or the play. It is rather a triumph of the time and an indication of the genius of the author, Robert Anderson, that the production was handled so delicately and brilliantly.

Elections

Here is another of those dreary editorials this editor feels he must write to call the attention of the student body to some event.

This one is about the importance of voting in tomorrow's Student Association election. Seriously though, a good student government depends on student support, and is nourished by student interest. SA is an important cog in the students' college life though most people choose to ignore that fact.

We could come out with a safe prediction that many students don't even realize that an election is going to be held. Certainly they have no intention of voting. This is in part due to the general quality of the campaign. If candidates had as much interest in becoming a student representative as they had in becoming "king" or "queen" for some event, then student interest would perk up.

How many of us have ever sat in at a SA Council meeting? How many of us know that the SA meets at all? Granted they are usually dull get togethers but it is something that a person should experience at least once in his college life.

Actually the SA itself is partially to blame. They do not encourage visitors in open meetings, though this might be denied by some members, and it is suspected that in many cases they make much ado about nothing in driving a dead issue to the ground. Still it is the best we have and it can become the nucleus for a really effective student organization. We mean one where the electorate takes a real interest in the questions of the day, and where he does not forget about his elected representatives as soon as the voting is over. To drive home our point we ask the simple question - " can you name your class president?"

The Band

Whenever the occasion demands, the Band is around. Whether it be a snake dance or Kakewalk or for between halves football entertainment, the Band has its place on the modern campus. The UVM Band, under the able direction of Mr. Joseph Lechnyr has done the best it could with the available facilities. These facilities were never very much. Ohio State spends more on their band than we do on our football team. But we are not Ohio State.

The general attitude towards the Band is one of indifference. During Homecoming Day it was driven from the field by the Cane Rush. Last Saturday the Band gave a very fine display of precision drill. The majorettes were never better. But what was really important was the quick thinking of Assistant Director Stephen Plumb when he was able to prevent an unfortunate incident from developing into a really serious affair by playing our national anthem.

"The Star Spangled Banner" is often used by bands to break up riots. Our band didn't melt away after the half, but remained sitting in one section until the last moment of the game. Had they not, their effective aid could not have been rendered. The administrations, faculties, and students of both universities owe them a great debt of thanks.

Letter to the editor

To the Editor:

In regard to your article of October 13th - "IFC Considers Violations of its New Rushing Code," we believe that several pertinent facts have been omitted, giving the rest of the article a rather slanted viewpoint.

1. Some time ago, the IFC considered the possibilities and advantages of granting to various athletes on campus, food scholarships at the fraternity houses. This program would be carried on by the individual fraternities. Out of the then 13 houses on campus, two actually did grant scholarships for free meals. Last year, Clem Forte ate at the TEP house under this program.

2. The selection of the athletes, at least as far as TEP is concerned, has been left up to the coaches of the various teams.

3. TEP has had several men eating with us under this program, not ONE of whom has even pledged our house. Indeed, as most of you must know, Clem Forte was a brother in Kappa Sigma while eating with us. Obviously, any insinuation of dirty rushing is laughable.

We feel that this rather tangled up affair can be attributed to a misunderstanding. Naturally, it was assumed that our present guest had been cleared through all necessary channels. The statement that we pleaded ignorance of IFC rushing rules which we, as a house, had helped to formulate, is false and self-contradictory.

The briefest look at the whole setup in general, and ours in particular, reveals only the best of intentions. Some of the boys for whom we all cheer on Saturday would have a tough time of it here, were it not for this program. All of them are deserving of this scholarship, which may make all the difference to a good guy, and means so little to a fraternity's purse.

Sincerely,
Eugene Levin
Tau Epsilon Phi

Letter To The Student Body

To Student Association:

Tomorrow we elect our representatives to the various class offices and Student Association positions. The Council is looking forward to receive the new representatives, and from the looks of the candidates it seems like we're going to have excellent people filling the various positions. To all concerned I'd like to pass on something I read in POST a few weeks ago; "Blessed are the students who run in circles, for they shall be called wheels."

The CYNIC raised a perfectly legitimate question in an editorial last week concerning the purchase of a new station wagon. After studying the situation the Council felt that we needed a new station wagon for economic as well as practical reasons. The 1954 SA wagon had been in a couple of scrapes (may I remind the CYNIC that their staff members were responsible for two minor accidents) resulting in continual front end alignment difficulty. During the summer two new tires were needed, and if we kept that car two more snow tires would be needed to last the winter. Another factor entered the picture: that being a possible over-haul of the motor. All of these factors plus the age of the car contributed to the decision of the Council.

An issue that was voted down by the Council last Thursday evening was very disappointing to me. It concerned a matter of allocating money for a project publicizing student activities over WRUV-TV. The request for action came from the Public Relations Office in the form of a letter. The action of the Council was negative and this was taken over a request of a Council member to table the affair until Larry VanBenthuysen, of Public Relations, could appear before the Council in person and explain further what the purpose of the program was and just how it would concern the students.

From the beginning of the year, this campus has been plagued with a case of sign

In Defense Of Derangement

By Gary Wright

Ethan Allen: Boy Patriot
Part II

Synopsis of story to date: Ethan and the Green Mountai Boys, having rid the Vermon territory of beech trees Indians, land grabbers, hones woman, and hard cider, decide it would be fun to take a tri to Fort Ticonderoga. Sinc none of them had ever bee there, they planned a bi picnic with lots of dand games to play after lunch.

Ethan drained his cup belched, and wiped the back o his hand across his mouth.

"Say now, Green Mountai Boys, what say we go have look at this here Britis place tonight?"

Seth Warner, second in com mand, lurched unsteadily t his feet.

"Hang it all, Ethan. Yo talkin' 'bout thet ol' ston pile thet some French peopl built over in New York Stat there?"

Ethan blinked.

"This place in New York?"

"Hope to kiss a duck, is," said Seth. "Thet ain all either. No sir, not by long shot. Man, they got ca non there what can sling pound or two of lead three four hundred yards. Knock t wind plumb out of a man if aint lookin' and it hit hi square."

"Well I'll be stabbed, breathed Ethan. "Seth, wha say we take the summer off a go shoot squirrels. Might ju get us a place to stay befo tourist season starts. Help down the hill with this In dian, will yuh? I'm too tir to throw him."

A lanky buckskin figu rolled slowly to his feet a leaned on his rifle.

"Brother Ethan, I hear te they got some mighty fi drinkin' type liquor ov there. I'd shor admire sto achin' some."

"Whup!" said Ethan, droppi his half of the Indian. "Re we're gonna have trouble wi your sort yet. Let's go. Pa up. Charge!"

"Haw, Ol' Ethan," they a snickered, passing around t last barrel of cider.

"Pass me that last barr of cider," said Ethan. Wh he finished, it was simply t last barrel.

The trip to the lake was and exciting. The group sa marching songs, fighting son drinking songs, and songs th didn't even know. Most of th got lost. Night found a me handful of men at the lak shore.

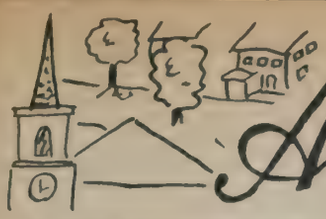
"There it be," roared Eth pointing at the reflection the fort in the rapidly dark ing water.

"Let's go!"

He put down the handful men and quickly they bui several canoes. With scatte oaths and happy cries th launched them into the lake watched them drift slowly of sight.

"Say, how we gonna across?" said one.

"There's some canc a'floatin' out there," Et answered. "Let's get some.



Luckily, no one was drow in the rush. With the can recovered, the small br band pushed out into the d lake.

Around the Green

by Rhoda Rosenberg

ALPHA TAU OMEGA

I'm sure that you have all heard how the mighty man of war, Joshua, made the walls of Jericho come tumbling down. Well, we nearly had a reoccurance of the same event, here at the University of Vermont, on Saturday afternoon of Homecoming week-end. However, instead of Joshua, it was the UVM student body as the leading character and instead of Jericho, it was the walls of the ATO house on Williams St. that shuddered and shook but managed to stave off the fate that befell its Biblical counterpart.

After the football game on the Saturday of Homecoming nearly 500 members of the campus filed into the ATO house to listen to a jazz concert with Jack Durett and his orchestra. Three hours later there were still 500 people present. Most of them were tired and most of them had sore hands and feet from trying to "stick with the beat " of the "cool"jazz that Jack and his boys were producing. However, they all had one thing in common; they were having a good time. At 7:30, when the last couple had left the house, the close observer could almost hear its superstructure groan and settle back on its tolerant underpinnings, supersaturated with the news that Basin Street had conveyed to the aftervisitors.

Jack's popularity has spread contagiously since his initial week-end at ATO and to this writer's knowledge, he has had at least one other engagement at UVM. The brothers and pledges of ATO would also like to extend their appreciation to all who were present at the jazz concert. Without you all, it couldn't have been the great time that it was.

SIGMA NU

The Sigma Nus entertained the Norwich Chapter of the fraternity at UVM last weekend after the game. There was a jazz band for the occasion which lived up to everyone's expectations.

KAPPA ALPHA THETA

Last Monday night, October 17, six Theta pledges became sisters. They are Carol Chase, Fitchburg, Mass.; Mary Davidson, Larchmont, N. Y.; Joanne Ewing, Longmeadow, Mass.; Janet Kendall, New Rochelle, N. Y.; Ruth Mutchler, Kensington, Maryland; and Betsey Stevens, Burlington, Vt. Congratulations!

An open bid was extended to Judy Doe, Pawling, New York.

Theta Alums, actives and pledges met Tuesday night, October 18, for a "Box Supper." They are fortunate to have a very active Alumnae Chapter in Burlington.

ALPHA EPSILON PHI

Is your car in sad shape? Here's the answer—The A. E. Phi's are having a CAR WASH Saturday, October 29, from 11:00 to 4:00 P. M. at 158 South Willard Street on the corner of Main Street. For only 90¢ you'll receive a good car wash both outside and a cleaning inside. So treat your hard working automobile to a shine. Remember Saturday, October 29!

GAMMA PHI BETA

The following girls were initiated into Gamma Phi Beta Sorority on Sunday, October 16: Janet Demsky '58, Burlington, Vt.; Suzanne Hinchey '58, Colebrook, N. H.; Nancy Meyer '58, Harrison, N. Y.; Lorelei Palmer '58, Burlington, Vt.; Sandra Phippen '58, South Hampton, Mass.; and Marion Trewilliger '57, Larchmont, N. Y.

ALPHA EPSILON PI

AEPI officers for the year are: Master, Stuart Gordon '56, Bayonne, N.J.; Lt. Master, Harvey Rubin '56, Bronx, N.Y.; Scribe, Ted Rauch '57, Pelham Manor, N.Y.; Exchequer, Bernie Toomin '56, East Orange, N.J.; Steward, Marty Kaufman '57, Brooklyn, N.Y.; House Manager, Bob Shapiro '57 Springfield, Mass.; Member-at-Large, Paul Goldstein '57, Brooklyn, N.Y.

Cloud Seven

Looks like Cupid never gets a rest on the UVM campus!

On the weekend of October 14, Geri Wainshilbaum '57 A. E. Phi of Rockland, Mass., was pinned to Jay Dropkin '56 T. E. P. of Brookline, Mass.

Two Gamma Phi's went one step further toward the altar this weekend. Announcing their engagements were Shirley Campell '57, to Claude Hamilton, Jr., also a junior, studying electrical engineering at South Dakota College and Gail Greenslit, '56, President of Pan-Hellenic, to Robert Parks, graduate of UVM's class of '55 and a member of S. A. E. fraternity.

Every one was a little surprised at the Sigma Nu House last weekend when Bob Reggazini returned with a wife. They are both living on campus now. Lots of luck.

Sororities...

Fraternities...

Dorms...

Where is your news???

Wm Pickens '58 Tells Of Famous Grandfather

By Pat Hughes

Bill Pickens, Class of '58, was recently interviewed about his grandfather, William Pickens, who is well noted for his extensive efforts in the National Advancement of Colored People.

William Pickens was born January 15, 1881, in Anderson County, South Carolina. He obtained degrees from such colleges as Talladega and Selma in Alabama, Fisk University in Tennessee, and Yale University in Connecticut. He was at one time president of the State Teacher's Association and a member of the National Association of Teachers in Colored Schools.

In 1919 he started his great work in the desegregation as Field Secretary for the government. He advanced the education and rights of the negro, especially in the southern states. He preached all over the United States and in Europe and he made 19 tours abroad to Europe, India and Africa. In the South he preached quite extensively, from platforms to street corners. At times, he was threatened by lynch crazy mobs and at one time was forcably taken off a train. He needed a gun at all times for protection.

Along with being a field secretary for the government he held such offices as Dean of Morgan College in Baltimore and Director of Inter-racial War Bond Department.

He was responsible for raising 3 billions in bonds which in part were from negroes.

He was a great orator and did extensive speaking during his tours abroad. In 1919 he won the Ten Eick Oratorical contest at Yale.

During World War II he began work in the bond division of the Treasury Department. He continued with his tours until 1951 when he retired.

He remained in retirement until 1954 when he took one last tour to South America. On his return trip home from his tour, he died while at sea.

He wrote numerous articles for newspapers and books. Among his books are: *Abraham Lincoln, Man and Statesman, Heir of Slaves and Frederick Douglas, and The Spirit of Freedom.*

Bill Pickens, is grateful for the opportunity to attend UVM through the untiring efforts of his grandfather. To quote Bill, "I'm sure the recent cases of segregation in Mississippi make my grandfather rest uneasy in his grave."

Common Cold Is Topic Of Conversation

Again we find ourselves at the time of year when the answer to the age-old question, "How ya' feeling?" is usually a loud and lusty "Ahhh---chooo!" Whether it's a cold, touch of the virus or that annual hay fever bout, the reply is always the same -- and so are the symptoms.

We all know the common cold shows its ugly little head by that "stuffiness" -- "Kodak the dose" feeling or possibly a sore and scratchy sandpaper throat. And for you lucky non-allergic individuals, hay fever is a device using golden rod and ragweed pollen to make the summers of a few unfortunates completely miserable. At any rate, such maladies sent UVM students flying to the Wasson Infirmary to the tune of 11,558 patients last year.

Of course, we must admit, not every one of these sufferer's illnesses are real. Occasionally you find one who found the temptation to get excused from class too great. But these imagined sicknesses are few and quite far between.

Usually the very real complaint is our old friend, the common cold. An invader into our healthy surroundings, this uncomfortable fellow tops the list of sicknesses at the infirmary. Runner-up on the list of unwelcome pests is the "tummy ache," referred to by the medical profession as gastronomical something or other.

These, and many other more serious afflictions, kept the nurses hopping last year with 11,096 outpatients and 462 who were "under the weather enough" to spend a few days in bed.

There are many to whom the whom the word "infirmary" is synonomous with "imprisonment." These mixed up individuals seem to think that once you are admitted into their care, the nurses want you to really make a stay of it. Nothing could be farther from the truth. The staff is trained to help you get up and on your feet again as quickly as possible. Proof for this little statement? The records show the average time patients stayed in bed last year was just 2.7 days.

So, if you find yourself completely exhausted from continuous sneezing or nose blowing -- don't despair. Don't give up hope. Remember, you have plenty of company.

See Students And Faculty In Action; WIRI Provides

By Stan Sakowitz

By means of the television studios of WIRI in Plattsburg, UVM and the surrounding vicinities will get a chance to see many of their students and faculty in action.

The program has been under way for a few months, under the initial guidance of the Public Relations Office. The first program of the season presented George Hansen, representing student government, and Carol Coen, speaking of student activities. Professor William Lewis, assistant professor of speech, and Robert Searles, assistant director of admissions and records, were also on hand to speak of further governing bodies on campus.

The next program featured Martha Howe and her dance workshop with the original dance that they did in the musical comedy, "Fable for Footballs." The University Players were represented by Betsy Brazil who was interviewed on the show.

Recently the Home Economics Club, under the guidance of Virginia Trotter, discussed various phases of home economics.

Other programs have been planned in the near future. On Friday, October 28, Professor Robert Huber, of the speech department, will discuss with some debaters the debating program on the UVM campus.

Dr. Alan Gowans, director of the Fleming Museum and a member of the Art Department, will appear on the show November 3 with two members of Staff and Sandal, Junior women's honorary society, who have taken the Museum as their project. On the same show, Betsy Brazil will return with Alan Wilder to do her "Lola" number which appeared in the Vermont Varieties.

Dean Robert Kroepsch, Dean of Administration is scheduled during the week of November 7, with a student representing student court or another student administered group.

These programs evolved through the request of Mrs. Grace Reese who is in charge of the program, "Hospitality House," which appears on Channel Five, Mondays through Fridays from 4 to 5 p.m. A segment of this program is devoted to interviews which present a picture of campus life on UVM.

Arrangements are being made for future shows and if this continues, the Radio and TV Workshop will be given the responsibility of arranging the TV programs in an attempt to give the students practical experience.

UVM'ers have also appeared recently on WCAX-TV, Channel 3, here in Burlington, giving the University's students and faculty members numerous chances for TV appearances. A regular WCAX-TV feature is the "Across the Fence," show produced by UVM's TV specialist, Lloyd Williams, each Monday through Friday from 12 to 12:15.

While UVM'ers have had numerous opportunities to appear on WCAX-TV since last year, the visits to the Plattsburg station, were only begun this fall.

Beck

(continued from page one)

2. Two tries at the line failed before Tierney, whose performance was outstanding all afternoon, crashed through the center of the Norwich line and tallied. McLam converted and for the first time in the game, UVM led, 13-6.

Late in the 3rd quarter, Norwich rallied to tie the score, and it was not until almost half way through the 4th quarter that the Catamounts again had the ball, and again they scored. Janonni ran a Norwich punt from his 48 to the Norwich 40, from where White passed to McLam, who had been Tierney's favorite target all afternoon, for a first down on the Norwich 4. Then Janonni, who had run well all day, sliced off tackle and into the end zone. McLam followed with his 2nd conversion of the day and the score was 20-13.

Now, it was Norwich's turn to get a break as they recovered a fumble on their own 40 and then, without going to the air, they marched 60 yards in 12 plays to tie the score at 20-20.

Faced for the first time this year with the possibility of a tie game, the Catamounts tried desperately to pull out a win in the last minute, and almost did, as Tierney arched a tremendous pass from mid-field, toward the end zone. The stands rose as one, and all eyes watched the ball as it sailed into the arms of Galascione in the end zone, but there was a flag on the play against UVM, and the clock ran out as a stout Norwich line had held the favored Cats to a 20-20 tie.

Sen. Aiken Discusses Leg. Process Of Vt.

Good working relations between Republicans and Democrats on Senate committees and the help given them by professional committee staffs were noted by Senator George D. Aiken (R) of Vermont last week, before a political science class studying "The Legislative Process" at UVM.

The Senator described the functions, organization and procedure of the committees, explained the changes effected under the Legislative Reorganization Act of 1946, and answered questions concerning the seniority rule in choosing members and chairmen. Aiken also explained the developemnt of rules to govern investigations, and the use of hearings on proposed bills.

Aiken pointed out that questions before the committees on Agriculture and Foreign Relations are rarely decided on strict party lines. With reference to Agriculture, he said: "I've never known a vote where the Democrats were all on one side and the Republicans all on the other."

The Senator stressed the fact that some of the committees have been developing efficient, non-partisan staffs. As an example, he mentioned that he had seen "no real evidence of partisanship on the Foreign Relations staff.

of the fact that he has given blood before. If you want to donate blood and haven't yet been approached by a solicitor, contact Mr. Hardy in the COSA office and secure the necessary materials. Let's fill the quota.

No Man Is An Island

By Sandra Collison

No Man Is An Island... Yes, no man is an island no matter who he may be. We all have to have friends, have to know that someone cares. Often times when one goes to college, he tends, unconsciously, to divorce himself from the outer world; one reason for this is that college is a world in itself. Students are wrapped up in their studies and the social life; few of us ha the time to read newspapers listen to radios. Many tim we do not have enough time write to friends in other co leges or in other walks life so that we really do come in contact with valuab information. My point is n only that students fail receive outside informati but that the students the selves miss these contact

Often students feel th they are so insignificant t they see no use in being i terested in the United Natio or other matters of nation or international affairs. T fact that we all fail recognize is that we are t people who are going to living in the world and th we are the potential leader This problem is not on typical of the University Vermont but of other colle also. If some system could devised whereby information matters of interest to t students could be exchang it would make the studer feel more a part of thing It is becoming increasing evident in the world to that people are living clos together; to keep up with th trend, it is necessary to k up with the times. Also, ma people feel that an educati is not only booklearning also a knowledge of how ot people live and think; ma on this campus feel that th are cut off from the outsi world. Why not include an change program in our life

Therefore, I advocate a solution a program desig like the program now be used in giving addresses pen pals. This program b been used to some exte among the student associati at the colleges. This wo consist of getting addres of specific students writing back and forth. might be a good idea also become more aware of outs affairs in preparation for future.

Yes, no man is an island it is good to feel a part life.

There are several vacancies on the CIRCULATION STAFF of the CYNIC. It is an easy job requiring about one hour a week. Contact Harry Mancoll, Circulation Manager, in the CYNIC office.

"Tea"

(continued from page one)

fact that they are really professionally polished actors. Robert Higgins was excellent in the role of Tom Lee, the misunderstood boy. Alan Baxter is the Master of the house, and has had a year's experience playing the part in the Broadway run. He played his part with vigor and one could feel the resentment he held against Tom Lee for breaking up the happy little routine of boarding school life.

This reviewer feels that "Tea and Sympathy" was the stellar attraction, so far, of the George Bishop Lane Artists Series and ranks as one of the best productions he has witnessed so far in four years of college life, and I've seen everyone offered to the students.

TKA

(continued from page one)

tiated the first members of the newly-born Tufts' chapter. On Sunday the group journeyed back to Burlington.

The Lawrence Debating team from which Tau Kappa Alpha gets most of its membership is looking forward to a good year as 17 varsity men are returning and 19 newcomers actively participating. Among the returning debaters are John Burgess and Herb Simons, both of whom were in National T.K.A. Debating Tournament; Sandy Winterberger, Secretary of Lawrence Debate Club; and the three novices who placed second last year in the Brooklyn College Debate Tournament - Don Karp, Ada Pratt and John Guay.

Some of the highlights of the debate schedule this year are the Round Robin Tournament with Dartmouth, St. Michael's, and Middlebury; one session of which will be held here on November 9; the Dartmouth Invitational Tournament for novices on October 29; the University of Vermont Invitational Tournament November 18-19; and the New York University Hall of Fame Tournament on December 9-10.

Derangement

Cats Underdogs At Massachusetts Saturday

Maine Harriers Trounce Cats

The University of Vermont Varsity Cross Country team went down to its third defeat in four outings Saturday as they were trounced by a powerful University of Maine Team 15-50 at Orono, Maine.

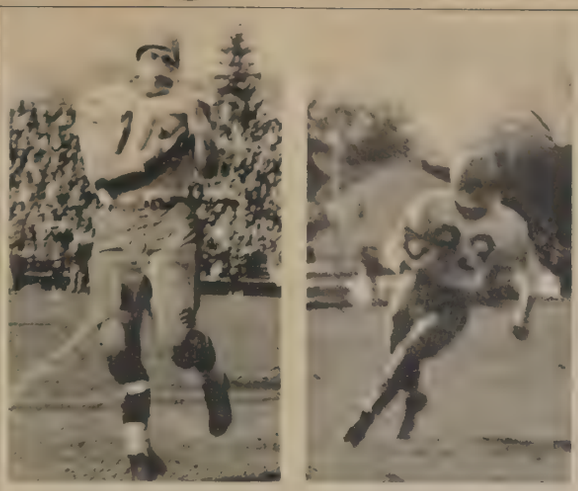
The Mainers took the first seven places in the uneven match and seem to be the power to beat in the Yankee Conference run this Saturday, also at Orono.

After the seven Maine runners, Captain Don Grady of Vermont finished in the eighth spot. He was followed by Ken Wadley, Nelson Slack, John Fitzpatrick and Pete Perkins in the ninth through twelfth spots.

As Catamount coach Archie Post puts it, "I don't see how anybody can beat those fellows out for the Yankee Conference Championship." The Cats return to Orono this Saturday for the annual Yankon run.

IRLS ! ! ! ! ! ! ! !

ID YOU EVER SEE A ROSS COUNTRY MEET? HERE'S A BIG ONE ON OUR AMPUS THIS TUESDAY OV. 1. LET'S SEE SOME F YOU FROSH WOMEN HERE!



Kittens Win Over Vergennes High

by BENNETT WOLL

Coach Archie Post's unbeaten Frosh Cross-Country team added two more victories to their string as they beat a highly-touted Vergennes team and a very surprising team from Waterbury last Saturday. Sparked by Bob Kuchar, last year's Jersey City Champ, the Frosh Harriers took five out of the first six places. Bob streaked over the 2.7 mile course in 16 minutes 15.9 seconds. Right after him came Ray Allen of South Hero, Vt. A half second later, Larry Seymour of Rochester N.Y. crossed the finish line. Vergennes' Gervey took fourth place to break the scoring ice for his school. Don Reardon of Gainsville, Indiana, and Dave Porta of Delmar N.Y. took fifth and sixth places in a photo-finish. Taking ninth place for the Green and Gold was Carl Easter, a big man at Vergennes High last year. The thirteenth man to complete the route was George Silver of Natick, Mass.

Freshman Open House Sunday 1- 6 p.m.

All three men's dorms are holding a combined open house for the freshmen women and others. Refreshments will be served. SORRY, DUE TO RUSHING REGULATIONS NO FRATERNITY MEN WILL BE PERMITTED.

Several Freshman Figure To Help Varsity Next Year

by RICK DEMME

Winning 1 out of 3 games the UVM Kittens cannot boast of an impressive record however, varsity Coach Ed Donnelly is hopeful that some of the outstanding frosh warriors will prove to be good material to fill vacant spots left by graduating seniors.

Phil Chalifoux, a vet has warranted high praise from Freshmen Coach "Fuzzy" Evans.

"Chalifoux is the best all around ball player I have," remarked Coach Evans in a recent interview. "He plays defensive linebacker and center on offense. Always hustling, when Phil hits someone they stay hit. He's no slouch on offense either, Chalifoux is an excellent blocker."

Also at the top of "Fuzzy's" list are halfbacks Lou Petronaci and Norm Latarte. Petronaci is the quickest man on the squad and therefore the most effective runner. In both games he has broken away for impressive gains. Latarte is the fastest Kitten runner but due to a chronic shoulder ailment he hasn't seen much action. He has looked good in the time he has played during the two games. Two talented fullbacks round out the backfield prospects. Maynard Bush and Bill Simonds, both hard runners, have shown considerable promise during the season.

Other linemen to watch are guards Frank Brown, Ira Effron, and Ed Primevera. The tackle "hopefuls" are Bob Carty, Al Overton, John Darwin, and converted center Walt Kranian. At the ends Tom O'Connel and Ed Rockett look best.

Barring failures, these are some of the fledgling Catamounts who will be seen on the UVM gridiron next year.

Ed Beck May See Limited Action In Final Yankon Clash

by ED WALKER

This Saturday, the University of Vermont Catamounts will travel to Amherst, Mass. to encounter the Redmen of Massachusetts in a Yankee Conference game. The Cats will be facing the Maroon and White forces of Coach Charlie O'Rourke for the sixteenth time with Vermont a little behind in the over-the-years competition, with 5 wins, 8 losses, and 2 ties. Vermont and Mass. both have 0-2 records in Yankee Conference play and while Mass. will be looking for its first win, UVM will be searching for the opposing team's end zone, which it has yet to see in both of its Yankee Conference losses.

Remember '54?

Last year if you can recall, the charged up forces of Coach Donnelly whipped a heavily favored Mass. team, 27-25 at Centennial Field before a "rooting" crowd, that seemed to be one of the factors in guiding Vermont to victory. Another big part of that win was Al McLam's three T.D.'s and his all important three extra points. This year the Cats are faced with injuries and a pro- Mass. crowd who are anxious to seek revenge from last year's Green and Gold triumph. Captain Eddie Beck is still on the injured list but may see limited action Saturday and also ailing is Roy Williams, one of the mainstays of the line, who received head injuries in last week's game; chances are that he'll be in the line-up Saturday. The Cats will be up for this one but what does Mass. offer. . . . . .

Redmen Strong

The Maroon and White so far this season has compiled a, 2-3 record including a 60-6 loss to Harvard, a 39-15 loss to Rhode Island, but a surprising 33-13 win over Northeastern last Saturday. Coach Charlie O'Rourke has a young, inexperienced team led by co-captains John McGowan, and Don Johnson and quarterbacked by Tommy Whalen who gave the Cats plenty of trouble last year. Mass. also boasts a good runner in right halfback Dick Wright and a good pass catcher in left end Dave Ingram, who stands 6' 3" and weighs 200 pounds! The line has close to a 195 pounds per man average and the backfield about 180.

NOTE: A note to all Mass. fans that good things come in little packages and the Ides of '54 seem to be nearing Amherst, Mass. See you there!

Conn. Valley Cross Country Run Here Tuesday

As I See It

BY Ed Willard

'Scuse the abrupt ending last week. They cut the end of the thing off down to the printers. We had said that we were going to examine UVM's position in the Yankee Conference and report on it to you. We can't do that today however but can give you one hint as to how the president of our school feels about Yankon. Dr. Borgmann refused to take his turn as league prexy, a position offered to all of the member college presidents. We'll take it from there next week.

The Cats, as seems to be their custom, underrated their opponent last week and were lucky to come out on the short end of a tie ball-game with the spirited Horsemen. Norwich wasn't all spirit though. The Cadets had a good line. They didn't have a tackle weighing under 205 pounds. We were seriously hurt all afternoon by the ineffectualness of two of our top linemen, Ken Kurjiaka and Bing Gilbert. They're both injured. When "Big Paul" got thrown out of the game for a foul that should, at most have been a 15 yard penalty, that was the end.

We have a good question. Why didn't our quarterbacker throw more short passes? Janonni and McLam were in the clear all afternoon and it seems to us that we could have short-passed Norwich silly all afternoon the way we did last year. Well, it was just a question.

A hearty well done to Bandsman Steve Plumb! Steve's quick thinking in striking up The Star Spangled Banner last week averted a real riot. It all goes to show that all of Saturday's heroes aren't on the field of play.

It would be great if we could turn some spectators out for the Connecticut Valley Cross Country next TUESDAY. The run is one of the top Cross Country affairs in the East with nine colleges entered. It would seem a shame if the host college didn't supply a few parrons.

NO VERMONTERS HERE

The University of Massachusetts has a claim to fame in its sports program. The Redmen boast that of the 215 men involved in the Fall Sports Program, ALL are from the State of Massachusetts. Here at Vermont. . . . . .

Sports Daze

by RUSS HENRICHS

Remember way back when the Baltimore Orioles were the St. Louis Browns? After trying all season to hypnotize the team into winning habits, eminent hypnotists concluded that the Brownies had fine attitudes but unfortunately were rotten ball players. Well, psychology has stepped into the baseball field once again.

Eighteen indignant umpires were ordered by the United States of American League Umpires Association of Psychological Investigation to undergo efficiency tests.

In discrimination tests, four umpires who were no longer able to discriminate the corners of the plate, had nervous breakdowns. Others had trouble discriminating between strikes and balls. Those who performed well were subjected to the Umpire Maze Tests.

Six umpires ran up a blind alley and started calling each other "dirty rats" (as such). Frustration ran rampant and fist fights broke out in several blind alleys. Only seven made it to the end of the maze and they were promptly rewarded with brand new 1957 contracts.

And one umpire was lost altogether. Howevah, the U. S. A. L. U. A. P. I. assured press observers that they would turn out a new and better crop next year.

Basketballers To Begin Nov. 1st

by DICK SCHATTEN

With the football season coming to a climax, the basketball season cannot be too far in the future. Pre-season practice begins November 1, with returning lettermen Bob Lovejoy, "Skip" Burkhardt, Bill Mann, Capt. Bill King, Dickie Dennis, Rollie Massimino, Jack Lafave, Hal Moore, Herbie Brown and Barry Stone leading the parade.

This year's squad will be without the services of the graduated Keith Jampolis and Earl Steinman. Keith and Earl, the stalwarts of last year's team, hold practically every UVM scoring record between them, and are the highest scorers in Vermont history. So we see that Coach "Fuzzy" Evans has quite a task before him in the season to come.

Juniors "Skippy" Burkhardt, Bill Mann and Dickie Dennis and seniors Bob Lovejoy and Capt. Bill King have seen quite a bit of action in the past, and inexperience should not be their greatest barrier to climb. On the other hand, some of the other boys are still without the adequate poise under game pressure, and only game experience will serve as a remedy. In any case, "Fuzzy" Evans must rely, in many situations, on his bench, as well as his doubtful starters, and boys like Massimino, Brown, Lafave, Moore and Stone will have to produce in order for the season to be anywhere near successful

In the sophomore ranks we find Ronnie Bouchard, Joe Lovell and Steve Ifshin. Bouchard is a good leaper and has a fine set of driving shots. Lovell, on the other hand, was the best set shooter on last year's freshman team, and can hit from the outside quite regularly. Ifshin is a 5-7 playmaker with good speed and hands and excellent basketball savvy.

Kittens Top Larries 20-0

by RUSS HENRICHS

The cold winds blew and the red flags flew in an interesting game, slightly marred by a profusion and a confusion of penalties, as the UVM freshmen finally came into their own, walloping the Larries of St. Lawrence 20-0 at a muddy centennial field Friday afternoon.

Coaches Fuzzy Evans, Ralph Lapointe and Ed Donnelly all agreed that this was a very impressive performance turned by the Frosh.

Fuzzy was particularly pleased. All year long he felt that the team was on the verge of breaking loose offensively. Defensively, there was no problem. They had a field day Friday afternoon, and he had praise for the entire starting team.

Two of the brightest prospects are Lou Petronaci and Phil Chalifoux. Petronaci, the shifty little halfback, ran for good yardage again today, and performed well on defence backing up the line. Chalifoux looks like the best center to come along in a long time. Fuzzy Evans calls him the best since Phil Chesarone, who captained the Catamounts back in 1942.

All afternoon, ends Don OConnel and Ed Rocket were knifing in to make good tackles. Guards Ira Effron and Frank Brown were also thorns in the sides of the Larries, with Walt Keranian, Al Overton and Eddie Primavera consistently breaking through the line. "One of the best tackling lines I've had, "opinioned Mr. Evans.

Quarterback Stu St. Peter had his best day, passing beautifully with a slippery ball. He connected with a 35 yd. touchdown pass shortly after Don Latona had returned a St. Lawrence punt 33 yds. Fullbacks Maynard Bush and Bill Simond have performed well all season and are two top prospects.

So the Kit Kats, who led in rushing and this time also won the game, drew a successful close to their season. With a 1-2 ledger, which of course, is good enough to finish in the National League.

Nine Teams To Enter Classic

by BENNETT WOLL

Well, it's here. UVM is host this year to the biggest Cross-Country race in this area. This Tuesday, starting at 2:30 P.M. the Connecticut Valley Championships will be run on the Catamount course. Teams from the following schools are entered; Vermont, St. Michaels, Norwich, Springfield, U. of Mass., U. of Conn., Castleton Teachers, and Coast Guard Academy. There are races for both Varsity and Frosh. Although the Varsity has only a 1-3 record, they have high hopes. Our frosh team is undefeated and stands a good chance of copping the title.

Green and Gold runners to watch; on the Varsity, the big man is Captain Don Grady who has consistently been the first Cat to finish. Ken Wadley, John Fitzpatrick, and Nelson Slack are other top contenders. Art Tauber, Howard Stone, Hugh Sinclair, Frank Wall, and Pete Perkins complete the team. Don Howland is out with injuries.

Bob Kuchar leads the Frosh Harrier's hopes by virtue of his holding the school record for the course. When coupled with Ray Allen, Larry Seymour, Dave Porta and Jon Reardon, an invincible group created. Rounding out the team are Carl Easter and George Silver.

UMass, Maine And Rhody Favored In Yankon X Country

ORONO, Me., Oct. --- The six New England state universities of the Yankee Conference will send their varsity cross country teams to the starting line here in the annual championship race Saturday Oct. 29. Host team this year is the University of Maine. The big race will be run over the Penobscot Valley Country Club course in Orono which offers an unusual opportunity for spectators to watch nearly the entire run of four miles.

Connecticut, Massachusetts, and Maine rule as the favorites. Maine is defending champion and on the basis of dual meet performances this fall looks like the team to beat. Coach Chester Jenkins of the Maine club believes that Connecticut and Massachusetts both have teams capable of edging out his pale Blue harriers.

The New Hampshire team is paced by captain Donald Vedeler, an eighth place runner in last year's event, Stuart Morse, who finished 23rd, and Hazan Gale who was 25th. They are all seniors. Coach Paul Sweet's Wildcats have four sophomores who should figure in the scoring. They are John Rasmussen, Ronald Hanson, William Randle, and John Alden.

Last year's scores were Maine 58, Connecticut 69, Rhode Island 72, New Hampshire 89, Vermont 96, and Massachusetts 110.

Connecticut has won ten straight dual meets. The UConns were a close second to Maine in last year's run, and Coach Lloyd Duff has such fine runners as Lewis Stieglitz, a junior who finished fourth in the YC meet last fall at Kingston, R. I., and captain Werner Gibelius, a senior who placed 12th in the 1954 run. In addition the Huskies have three veterans of last year's team in Herbert Congdon, who placed 32nd a year ago, Richard Keller, and three sophomores who have shown well in dual meets, Frank Barnes, Allan Frazier, and Adrian Michaud, all of whom give Connecticut good depth. These sophomores paced the Husky freshman team to the New England title last fall.

Massachusetts finished in last place last year, but must be rated a threat on performances this year which include a hair-breadth loss to Connecticut 26-29 and on the presence of co-captain Robert "Squeaky" Horn and Wilbert Lepkowski.

Maine's co-captain Paul Firlotte will be seeking his third consecutive individual championship, but he will be facing some extremely fast men. Co-captain Stanley Furrow, another senior, and three vastly improved sophomores, Daniel Rearick, Richard Law, and David Gould,

Vermont will present a pair of fleet runners in captain Donald Grady, a senior who placed 15th last year, and another senior Kenneth Wadley who trailed Grady in 18th spot. Both should improve their positions this year, but coach Archie Post's Catamounts will feel the loss of Lawrence Damon who finished third in the 1954 run.

'Mural Mirror

After getting a break for the first month of the season, the usual Vermont weather has set in. All games except three were cancelled last week

The most important game will be between Kappa Sigma and Delta Psi. This will be a rematch after their 7-7 tie of last week. The winner will meet Tau Epsilon Phi for the Interfraternity championship The winner of this game will play chittenden 1 and 2 for the school championship.

In the games played last week Delta Psi defeated Phi Sigma Delta 32-19. Alpha Tau Omega won over Sigma Ph 25-19, and Tau Epsilon Ph vanquished Sigma Nu 27-12

The league standings are

League A	Won	Los
Delta Psi	4	0
Kappa Sigma	4	0
Alpha Epsilon Pi	2	3
Alpha Tau Omega	2	3
Phi Sigma Delta	2	4
Sigma Phi	2	3

League B	Won	Lo

Sigma Alpha Epsilon	4	1
Phi Delta Theta	3	2
Sigma Phi Epsilon	2	3
Sigma Nu	1	4

League C	Won	Lo
Chitt 1&2	5	
Wills 1&2	2	
Chitt 3&4	2	
Buck 1&2	1	
Wills 3&4	0	
Bucks 3&4	0	

The Vermont Cynic

VOL. 73 — UNIVERSITY OF VERMONT AND STATE AGRICULTURAL COLLEGE — BURLINGTON, VERMONT NOVEMBER 3, 1955 — NO. 18

World University Service Set To Sponsor Student Aid

For a number of years UVM Student Association, through its Religious Activities Committee, has sponsored one fund drive annually - for World University Service. This choice has been made with the basic premise of WUS in mind: that American students and faculty are part of the World University Community. It means extending a helping hand to those who are struggling valiantly to help themselves; it means sharing in the only enterprise "of students for students " around the world. WUS is also sponsored by the three faiths, offering help according to need, not according to race or religion.

The needs of students in some lands are hard for us to visualize. 20,000 students in Japan are tuberculous. Last year one-half of our funds ($800) went to help build the first T.B. hospital for Japanese students. 3,000 Calcutta students have no place to lfve, 23,000 live in homes where they are allotted space equal to the size of a twin bed. Two years ago UVM's special was help for a student hostel in Calcutta. This year a health clinic in Rangoon, Burma, will be the recipient of 1/2 of the fund raised here.

The chief method of raising funds will be by personal solicitation in the various house units, but there will be a number of special projects also. The sororities have always put on stunts in lower Waterman; there will be an auction of "lost and found " articles with Dean Kroepsch as auctioneer. But always the largest amount is raised by getting personal gifts from individuals. The campus goal this year is $2000 which would yield $1000 for the Rangoon clinic and a like amount for the general purposes of the

(continued on page two)

This crudely constructed brick wall is part of the Delhi, India, hostel.

Northrop Shows Way To Escape War At Lecture

A pluralistic morally based foreign policy was advocated as the only escape from war by Professor F.S.C. Northrop in a talk before the John Dewey Club early last week. Speaking before approximately 200 people on "Three Theories of Foreign Policy " he pointed out that both monisitic morally based policies and power policies have always led to war in the past.

Professor Northrop said that the world today was divided into two major groups, those with the contract system of values and those with the old patriarchal. The patriarchal system, such as the United States had in the old south, is based upon a status which is inherited and justice depends upon one's status. The system is one thousand times stronger in other parts of the world than it ever was in the old south.

Professor Northrop continued this point by saying that if the United States or any country follows a moralistic foreign policy it eventually becomes a matter of forcing our basic concepts upon another country. The neutrals do not want this. As one of their representatives said, "It is bad enough for one country (U.S.S.R.) to be out on a moral crusade, but fatal for two."

(continued on page two)

New System Adds o Grace Period or Parking Fines

Beginning November 1 a new stem of collecting parking nes will be instituted by e University. This plan ngthens the grace period r paying the minimum fine $1.00 from ten days to two eks. It also places more sponsibility upon the student r taking the initiative if feels that extenuating rcumstances warrant conderation for waiving the nalty. The new parking olation ticket states:

If this is the first ticket ued on this vehicle since ptember 1, this notice stitutes a warning. If this ticle has been previously ged since September 1, this , in and of itself, conitutes a notice that you hereby assessed a fine $2.00 payable at the shier's Office. If paid hin two weeks, the fine reduced to ONE DOLLAR. the end of two weeks, if aid, the $2.00 fine is ered on your university ount. If you feel there are enuating circumstances ch justify the cancellation this tag, it is your ponsibility to discuss the ter with the Dean of Men the Dean of Women in the

(continued on page two)

A F Rifle Team Begins Work For Competition

The AFROTC rifle team at UVM has begun work for its 1955-56 competition. The team, consisting of 22 members, has had three practice drills this season. On the weekend of November 12, the team will compete in two postal matches, in which the teams of respective colleges exchange only their match scores by mail. (This enables the teams to avoid traveling from school to school.) There are eleven other matches arranged for this year, and there is a good chance of additions to the schedule. Every Tuesday evening the team has a two hour drill so as to retain their shooting proficiency. There is only one veteran member on this year's squad but although all the other members are new, the team has shown superb sportsmanship and spirit.

Air Of Excitement Invades SA And Class Officer Elections

Alum Quaterly To Make Bow This Week Around U.S.

A new Alumni magazine will make its bow this week in the homes of University of Vermont alumni around the nation, featuring a picture story and text on UVM's Fleming Museum and a picture roundup of UVM summer session activities.

The 24-page quarterly, printed on slick paper features President Eisenhower on its cover, showing the chief executive during his summer visit to Vermont. The magazine also contains an article on the Tri-State Rural Medical Program, and has a large section devoted to news of alumni.

Making generous use of pictures, the new magazine took shape from two university publications, "UVM Campus " and "UVM Notes," which both dealt with current university news.

The quarterly is supplemented by regular alumni bulletins, which will cover events of more current interest. The magazine will devote itself to on-campus activities and comprehensive reports on UVM's contributions to the community, the state and the nation.

Traces Museum's Growth

The quarterly follows the growth and development of the Robert Hull Fleming Museum from the laying of its cornerstone through to the present day, illustrating its feature article with 11 pictures.

The four-page spread shows the gradual change in principles of display and arrangement which have resulted in the modern museum of today.

(continued on page two)

Close Race For Frosh Pres; Paul Bristol Emerges Victor

Thurston, Bush, French Regain Council Seats

By Stephen Plumb

The customary air of excitement which accompanies an election of any kind invaded the lobby of Waterman Hall last Friday, as the Freshmen, Sophomores, Juniors and Seniors selected their Student Association Council Representatives, and in the case of the Frosh, their class officers.

Featured among the winners were three incumbents from the Student Association Council. Those regaining their seats on S.A. were Frank Thurston, 1956; Nancy Bush, 1957; and Joan French, 1958. Other candidates selected for the Council were Arnold Blackstone, 1958 and Abby Russell, Norm Letarte and Pete Snow, all from the Class of 1959.

Close Race

An extremely close race developed for the Frosh President, requiring three counts of the ballot before the original results were confirmed. When the smoke had cleared, Paul Bristol emerged victorious as the new leader of the class, while Ray Fitzgerald, Pat Philpitt and Bonnie Buckley rounded out the slate of officers as vice-president, secretary and treasurer respectively. The Freshmen had by far the best turnout for the election, both from the standpoint of the number of candidates running and the number of voters who turned out to exercise their prerogative in selecting their leaders.

The Sophs also elected a vice-president in a very close four-man race, with Edith Lawson pulling ahead with a late afternoon rally to nose out her three male rivals.

The scarcity of candidates undoubtedly cut down the interest of the voters of the upper classes. This was due in part to the fact that, since the number of Student Association Councilmen is determined by class population, there was only one office open in both the Junior and Senior classes.

The S.A. Elections Committee carried on an election without a hitch, thanks to the efforts of Al Fields, Gordon Gilman, Al Weinstein, Pete Kenney, Mary Bohmer, Sue Bogert, Woody Hawbecker, Gerry Gray, Stan Sackowitz, Russ White, Jules Perley, and Dick Carlson.

Available

The Elections Committee is available to any and all campus organizations for any sort of election merely for the asking.

ELECTION RESULTS

1959 President:

Paul Bristol	75

Beck Leads Vermont Seniors For 49th Middlebury Clash

by ED WALKER

This Saturday, the University of Vermont Catamounts will once again invade Porter Field to encounter their "friendly-old" rivals, the Middlebury Panthers. The 49'th meeting between the two teams will once again have the State Championship at stake, and the Green and Gold forces of Coach Ed Donnelly would like nothing better than to win their second successive championship at the hands of Duke Nelson's Blue and White Panthers. Looking back at past records, the Cats have beaten Middlebury 22 times, lost 20, tied 6, and the last time that our eleven rolled off two straight championships was back in 1934 and '35. In 1934 they tied for the crown, so if you want to go back even further, you'd have to look at the 1922 and '23 seasons when the Cats had the all important "undisputed" crowns.

All Out Effort

This is the last game of the year for both clubs. Each team will be giving everything it has in order to win the "big-one." The Cats, if they win could wind-up with a .500 average, going into the game with a 2-3-1 mark, and Middlebury has a record of 3-3 entering the fray. The Cats hope to have Captain Eddie Beck back and some of their other ailing stars whose conditions are uncertain at this time. Coach Donnelly played the whole squad last Saturday so as to avoid possible injuries and keep the team ready for this Saturday. This game will mark the last appearances of UVM's "touchdown-twins" Ed Beck and Al McLam who

(continued on page two)

UVM Football Captain Ed Beck

ArtAdamoHeads Pep Committee WithSameAction

By Margaret Atwood

The Pep Committee, under the leadership of its new chairman, Art Adamo, will continue with essentially the same plan of action as was carried out last year. Adamo does, however, have some ideas for stimulating and maintaining interest in athletic events to be put into effect next year and during the basketball and spring sport seasons of this year.

The first committee-run event to take place under the direction of the new chairman will be the Pep Rally for the Middlebury game. The Rally will be held tomorrow night and will feature four or five fraternity skits, several speeches, cheers and songs, and if possible, burning Middlebury in effigy in a UVM bonfire.

Caravan

"We also plan to organize a Caravan to Middlebury for the game," stated Adamo. Cars and the bus for the band will assemble before leaving for the game and will meet again just before arriving at Middlebury so that the UVM rooters can take over the town en masse.

Ideas that Adamo and his group hope to put into effect next year include reserving a special cheering section for freshmen at football games and having a cannon to shoot off during victorious moments of football games. This winter they hope to

case of women students) before this two week period has elapsed. *Once the change has been entered on your university account, it can not be cancelled.* Transcripts are not issued to students who have unpaid accounts.

Also, all unpaid fines incurred thus far this fall which have not been cancelled by the personnel Deans by Friday, November 18, will appear on the student bills issued about December 1.

Art Adamo

(continued from page one)

improve student cheering at basketball games and to organize a student welcoming committee for the members of the opposing track, baseball and basketball teams. Adamo is also working on improving publicity by announcing the coming Pep Rally over WRUV, and by having a special reporter from the CYNIC to cover all Pep Committee activities.

In addition to outlining the plans of the Pep Committee for the future, Adamo extended his thanks for the excellent work done by Bob Hill, and expressed his hope that he may do as good a job.

WUS

(continued from page one)

fund: hostels, books, labs, help to refugee students, medicines, TB sanatoria, etc.

The fund drive on the campus starts Nov. 6 and lasts for a week. A good response to the effort will indicate that UVM is not "provincial" and has joined the World University Community.

All solicitors are asked to meet at 4, Thursday afternoon, in 239 W. to hear the WUS secretary for New England and get their materials.

Dewey Club

(continued from page one)

Power Policy

A base for a foreign policy which is morally and ethically neutral according to Professor Northrop would power. The difficulty with the policy is that it is unworkable. This is illustrated by the fact that one of our most capable diplomats, former ambassador to Russia George F. Kennan, could not help himself from criticizing the Russian way of governing and thereby forcing himself out of the job.

The way out of this dilema would be a morally based pluralistic policy. The people of the United States would have to be educated to the fact that other countries have other traditions and values than the United States. We should take these factors into consideration when formulating our foreign policy. For example it is foolish to expect that countries with completely different bases of government will mean the same thing that we do when they use words such as democracy and peace.

"Abolish U.N. Veto"

Professor Northrop stated that every international conflict has been solved by law or war, and that therefore what the world needs is an international law with some power of enforcement. In order to accomplish this the U.N. charter should be based upon a pluralistic policy and the power of the veto should be abolished.

An international police force should then be established and every nation should be compeled to contribute to this force and to accept its jurisdiction. If the communistic bloc countries do not wish to become part of the system we will already have gone a step in the right because we will have all the neutral countries on our side.

The introduction of the speech said that our top military planners today must plan for three possible different types of war. First there would be the war with limited artillery use of atom weapons.

Beck Leads

(continued from page one)

in their football careers at Vermont have put new records into the books and more spirit into the crowd. Other seniors playing their last game and who have also shown fight and determination this season and past are Bob Gorman, Dick Jannoni, Ken Kurjiaka, Mike Morse, Art Solomon, and Stan Talbot.

Panthers Set

Coach Duke Nelson has his team already and raring to go, as his Blue and White held Norwich at will last weekend, 7-0. The score does not show the yards gained by the Norwich team, but Middlebury held them to a total of 94 yards rushing and only 17 yards passing. Compare those statistics with our Norwich game and you'll see that the Cats will be in for a good battle. Porter Field is treacherous on a wet day as in '53 when the Panthers upset the Green Mountain Boys, 7-0. The Middlebury team has a good backfield in Philbin, Balard, Cooper, and Tirone. Cooper who plays left-half and Philbin are both adequate passers. Tirone is the big running threat, while the mainstays in the line are Batal, Fusco, Johnson, and Wallace. The only consolation for the Cats is that their nemisis Al, "Sonny" Dennis won't be playing this year!

Alum Magazine Makes Debut

(continued from page one)

Presenting summer session activities in capsule form, a four-page picture story shows UVM's summer work in teaching, speech correction, world affairs and international understanding.

Also featured is the university's Economic Education Workshop, which called leaders from government, agriculture, industry and labor to discuss problems and outlooks with Vermont teachers.

The magazine salutes UVM College of Medicine for pioneering the Tri-State Rural Medical Program in an article entitled "A Country Village Calls the Doctor."

In explaining the concepts behind the three-state program, which hopes to achieve improved medical care for rural areas of Maine, New Hampshire and Vermont, the article outlines the project's development and its plans for the future.

Six pages of the new publication are devoted to alumni news items, arranged in order of class year.

Andren Is Editor

Karl A. Andren of the UVM public relations office is editor of the quarterly, which will be put in the mails on Monday.

Andren was "pleased from a personal standpoint" at having the President's picture on the cover of the first issue, since he served as General Eisenhower's headquarters as secretary to the SHAEF planning staff for the Normandy invasion during World War II.

Andren came to the state from New York City, where he left an advertising agency position for "the peaceful and pleasing surroundings of Burlington and the University of Vermont."

The alumni quarterly will be published in October, January, April and July, while the folder-size alumni bulletins, of which Andren is also editor, will be sent out in September, November, February, March and May.

PAT PHILPITT, SECRETARY '59

PAUL BRISTOL, PRESIDENT CLASS OF '59

RAY FITZGERALD, VICE PRESIDENT '59

BONNIE BUCKLEY, TREASURER '59

EDITORIAL

Anyone Got 53 Friends?

If any senior had fifty-three friends he could now be the Senior Class Councilman instead of Mr. Frank Thurston. Not that we have anything against Thurston, but is a man with only 53 votes out of a senior class the size of ours really justified in saying "I represent the Senior Class." It has long been an argument of Student Association that they truly represent the students. If this election shows them nothing else, it should demonstrate that nobody represents anybody in this school. The reason is that nobody wants to be represented. Who came in second to Mr. Thurston? Mickey Mouse! He received twelve write-in votes (Bruce Chaffee, an eminently less known figure - he's only a senior Kakewalk director - managed to get only one write-in vote) MICKEY MOUSE RECEIVED ABOUT ONE-FIFTH OF THE TOTAL NUMBER OF VOTES CAST BY THE SENIOR CLASS.

Well, really now, who's fault is this? We can sit aloofly behind our typewriters and say that the blame should be placed on the students. Student apathy and all that. Or we can say that S.A. itself, is responsible. Here they are sitting in their ivory tower making rules and decisions which concern the entire student body and are not brought to the attention of 95% of the students. It's not that the information is lacking, but that the students are not affected by them.

It's the old story of the same people leading many different organizations. There are two classes of students at this school - those who partake in all activities, and the vast majority who go about in their own little worlds, or social cliques, or fraternities, and let the organizational and student governmental aspects of university life quietly drift by.

It is really a situation that grows on an individual as the school years go by. It was the Freshman Class with the most voters; the Sophomore Class had a large drop! but the Junior Class demonstrated a remarkably inept performance. They had several offices to vote for as contrasted to the one candidate for one office situation which faced the seniors.

No excuse can be offered. Everyone was aware that an election was taking place. It had received headlines in the CYNIC a day before. Very clever posters were all over the campus on election day. Yet so few could spare the moment it took to fill out a ballot in Waterman where just about everyone must pass in the course of a day's activities.

About the only people who cared were the members of the Election's Committee and the faculty advisors. These men, the Coordinator of Student Affairs, Don Hardy, and Prof. Morris Simon, of the Political Science Department, really want to see Student Government succeed on this campus. They put much effort into the election. How can we, as students, disappoint them by not supporting our own government?

Published weekly, every Thursday, during the college year, by the students of the University of Vermont and State Agricultural College. Editorial and business offices in Waterman Building, Burlington, Vermont. Telephone 4-4511, Ext. 344. Deadline for notices is Thursday, one week prior to date of publication.

Founded in 1883. Subscription rate, $3.00 per year; single copy, ten cents. Acceptance for mailing to points outside Burlington at special rate provided for in Section 406 P. L. and R. of March 3, 1879, authorized October 14, 1926.

Big Game

BIG GAME

We need hardly remind anyone that Saturday is our Big Game, and that it would be really nice if we could get a crowd down to Middlebury to witness it. The Pep Committee is organizing a Catamount Caravan which will transport the fans; nobody should have to remain behind for lack of a ride. The cars will be gaily decorated and our exterior spirit will be good. But how about internally? Let's remember this is the last football game of the season, and for the seniors it will be the last football game that they will see as a member of a student body. There is a difference in watching just any football team, and your own school's team.

We therefore urge everyone possible to make a supreme effort and get down to Middlebury for this last fling, and don't forget to bring your school spirit along.

Letter to the editor

To the Editor:

Your editorial, "Non-Sympathetic Tea," which appeared in the October 27th issue of the CYNIC, shows a definite lack of taste and discretion on the part of the writer.

In assailing the "Sunday Visitor" for its stand on "Tea and Sympathy," you are questioning the right of the Catholic Church to preach to its members where moral matters are concerned. You have, in effect, openly insulted the beliefs of every Catholic student at the University. This is ignorance.

"Tea and Sympathy" may, or may not, have been "cultural or entertainment fare." This is of no consequence. Certainly several plays and movies have fallen into the category of being sound from an entertainment viewpoint. Yet, portions of these are cut because they portray sadism, immorality, lewdness, etc. The Catholic Church's Legion of Decency has said that the theme of "Tea and Sympathy" is an immoral one. Therefore, it has "cut" the entire presentation as far as members of the Roman Catholic Church are concerned.

The CYNIC, in making its comments on this matter, has offended every Catholic reader of the paper. To expect an apology from the writer of such an editorial is obviously asking for the impossible. To expect that a similar editorial will not appear in future editions of the CYNIC is, I believe, anticipating only what is right and decent where *all* members of the student body are concerned.

Robert J. Perfetti

(We feel it is best to discuss controversial topics openly and let *all* members of the student body make up their own minds. - Editor)

Poing's Post Scripts

by WOLFE

I guess this has gone far enough without mentioning the new addition to student life in our pseudo-union, the juke-box in the lounge. Not being a regular frequenter in the "Smoke Pit," I have not, or can not be a true judge to its merits, demerits or asininity. Therefore, I conducted an inquiring reporter poll and, as you can imagine, received a variety of answers.

The most professional reply came from Dr. Alfred J. Poinig, director of the Vermont Society for Better Music. Dr. Poinig sharply replied, "Humph!"; next there was a student named Ebby Scrooge who retorted, "Bah, humbug!" Personally, I reverted to a CYNIC Poll conducted two years ago. At that time, a UVM lovely prophetically proclaimed to the student body, that the lounge needed a juke-box. To wit, a feature writer for this sheet replied, "Yes, honey, and the library will subscribe to Superman." Well, dad, we have a Wurlitzer, Where's Clark Kent? Where's Lois Lane? What's worse than Rock 'n Roll?

The Bishop DeGoesbriand Hospital Snack Bar has become a very popular spot for late breakfasts and lunches. However, the place is so small that it is continually crowded at those times. The operators realized the increase in sales that would result with enlargement, and will begin shortly. To cope with the expansion, four patients in the adjoining rooms have been evicted.

While on the subject of eating places, we can't overlook our own Waterman Cafe. (I can not think of a good reason, but we must not overlook it.) Praise must be given to the decorators of the cafe who have combined colonial wall paper with modern drapes and contemporary food.

I notice that there was little complaining about four or five hour exams in one week or three in one day in the past few weeks. Evidently, the administration has finally solved this problem.

The first snow flurries of the season, a week ago, brought talk of Kake Walk to the scene. Already, many are digging their foot-holds for the coming controversies which could be repeated once more.

Has anyone noticed the fact that a few of the sorority pins seen on campus have resembled phallic symbols? Naturally, this is just a coincidence.

Reports are due to the deans this week-end. That means that warnings will be close behind, but what do warnings mean? One acquaintance has enough of them to paper his walls with, yet he is a senior.

A suggestion was raised by a Junior named Eflow that the S. A. donate $775 for a scholarship and let the wheels walk instead of using a new Ford.

A rumor has it that the University paid out $5000 for traffic signs in the spring of '54. What's the story?

A plan was submitted to solve the parking problem and is the best proposed to date. It entails the cutting of trees and ground leveling of the Campus Green. Plenty of room and all with out stickers attached!

In Defense Of Derangement

ETHAN ALLEN: BOY PATRIOT

Conclusion
Part III
By Gary Wright

Synopsis of story to date: Ethan and the Green Mountain Boys, having lost their way while hunting frogs on Lake Champlain, stumbled onto Fort Ticonderoga in the dark. Some of the Boys claimed it was a rock quarry, and others said it was the new Federal Building. In the argument that followed, Ethan declared that they would enter and find out exactly what it was. The Boys cheered this suggestion and fell in behind Ethan. They were stopped, however, by a man claiming to be Benedict Arnold.

Ethan turned to the Boy behind him.

"That name 'Ben Arnold' got a pretty sneaky sound to it," he said.

"I don't trust him," the Boy answered. "He ain't got no jug on him."

"Enough of this," cried Ben. "We gonna take this fort or not?"

"Sure thing, Ben ol' buddy," said Ethan. "Me first."

"Now Ethan," said Ben. "I come all the way up here from Massachusetts. On foot. I got rights. Me first."

"Well," mused Ethan. "We'll go in together. Provided the door's wide enough."

They crept forward, avoiding open ground and patches of moonlight.

"Avoid open ground and patches of moonlight," whispered Ben.

"I heard you the first time," snapped Ethan.

They reached the wall. Ethan stopped and looked around.

"How in the name of peace and security does a body get into this place. There ain't a door nowhere."

"Here," called Ben. "The French built this place and they must have left this lil' door here for the boys who were sneakin' in late. Let's go."

"Just a minute, Shorty," said Ethan. "We is goin' in together."

With a few grunts, several oaths and many loud scrapings, Ethan and Ben squeezed through the door and started up a narrow stairway. At the top stood a sentry.

"Got a match, Bud?" said Ethan.

"Righto, Old Boy," answered the sentry. "Rum night, wot. I say, wot's that chap doing?"

Ben was busy throwing cannon over the fort wall.

"Oh, he's busy throwing cannon over the fort wall," said Ethan. "Say, where does the commander sleep?"

"In the latrine," answered the sentry. "Say, Old Man, want a hand with those cannon?"

Ethan drew his sword, dropped his rifle, picked it up, dropped his sword, picked up sword, dropped jug, dropped hat, picked up jug, dropped sword, dropped script, picked up junk, and started in search of the commander.

He turned a corner, ran headlong into someone, dropped his watch, picked up watch, dropped person, dropped false teeth, picked up person, and uttered that famous statement, "**By the Continental Congress and the Great Jehovah, why don't you watch where you're goin'.**"

"I'm the commander of this rock pile, soldier. And what are you doing out after curfew?"

"Whup," said Ethan, dropping everything.

The commander paled.

"You-you must be Ethan Allen, Green Mountain Boy," he said.

(continued on page seven)

Around the Green

by Rhoda Rosenberg

ALPHA CHI OMEGA

A tea was held, October 11, for Mrs. Lantz, the new Head Resident of Alpha Chi. At this time she received a hearty welcome!

Mrs. Johnson Province, President of Alpha Chi from Massachusetts spent a few days at the Alpha Iota Chapter last week.

Ann Harman '57, Claire Lissner '57 and Ellen Morrisetti '57 were recently pledged.

The Alpha Chi's are happy to have Miss Susan Calton of the Home Economics Department as their new faculty advisor.

ALPHA DELTA PI

The following girls were initiated by Alpha Delta Pi on Sunday morning, October 23: Phyllis Rankin, Maplewood, New Jersey; Elizabeth Sawyer, Weston, Massachusetts; Joyce Slade, Springfield, Vermont; Claire Styer, St. Johnsbury, Vermont; Eleanor Brown, St. Johnsbury, Vermont; Lucille Rotanelli, Pelham Manor, New York; Jean Johnson, Burlington, Vermont; Sue Bogart, Leonia, New Jersey; Katherine Warren, Chatham, New Jersey; and Joan Meier, Lynbrook, New York. Following the ceremony a banquet was held at the house.

Miss Catherine Wilcox, ADPi housemother, was honored at a tea on Sunday afternoon, October 23.

ALPHA EPSILON PHI

A recent guest at dinner last week was Mrs. Jessie Child. Mrs. Child was their housemother at 71 Main Street.

The A E Phi's celebrated their 6th birthday with a short Founders Day ceremony and a guest dinner on Monday, October 24. The special guest of the evening was Miss Catherine F. Nulty. Miss Nulty retired from the UVM faculty and as A E Phi advisor last June. A scholarship was set up at that time in her honor, and she awarded it this year for the first time to President Leone Bernstein who had the highest average.

DELTA DELTA DELTA

Homecoming proved to be a busy weekend for the Tri Delts in more ways than one. Dr. and Mrs. Bouchard and Mr. and Mrs. Stultz chaperoned the open house which was held on Sunday, October 9, from 3-5 P.M. At that time thanks to Gail Dick, the Tri-Delt Art Chairman who was in charge of the Homecoming poster, they were able to display their second place cup.

At a recent meeting Helen McKuskie was elected the new sponsor chairman.

On Sunday, October 16 the Tri Delts held a tea in honor of Mrs. Harriet Bickford who is the new housemother. Mr. and Mrs. Lyman Gould chaperoned the affair which was a big success.

Maybe you've seen the two girls who are now wearing a new Tri Delt pledge pin . . . . they are Rita Ferrolo of Asbury Park, N. J. and Laura Walsh of Bellows Falls, Vt. who were open bid on October 19. Rita is a sophomore in the College of Arts and Sciences and Laura is a Junior in the College of Education and Nursing.

Sandy Harrop, from Dartmouth, Mass. and a junior in the College of Arts and Sciences, and Pat Hoag, a sophomore in the College of Arts and Sciences from Hanover, N. H. were initiated into Tri Delt a week ago and are now wearing the Stars and Crescent Badge.

DELTA PSI

During the past week, extensive work details were in full swing to improve the appearance of the house. The game room received a sparkling coat of paint, the telephone booth was moved and relocated on the first floor, and the shower room was freshly tiled and trimmed. All the electrical wiring was inspected and many new lines were added to provide greater service to the new occupants.

With the final paving of Summit Street, plans were made to set a fence out along the driveway and resurface the parking lot. It was good to see all the spirited cooperation given to accomplish these improvements about the house.

The Delts are looking forward to their annual Chi Psi exchange party at Middlebury. The weekend has always proved to be highly successful and should continue in its past tradition.

Two new members were recently pledged, they are Bob Ault '58 from Jersey City, N. J. and Dick Barry '57 from Milwaukee, Wis.

The presence of snow on Mt. Mansfield has caused the host of Delt skiers to prepare in earnest for the winter season. Brothers Roger Piper '58, Jerry Baril '57, and pledges Bart Larrow '58, Charlie Gee '58, Ian Furgeson '58, and Al Duval '55 are working out for the varsity ski team. A special room in the basement has been set up to handle the storing of equipment for the snowmen.

PHI DELTA THETA

The Phis returned this year to find a great deal of hammering and sawing going on. New steel windows have been installed in the rear of the house, and the exterior trim has been painted.

New officers in Phi Delt this semester are David O'Dwyer, president; Daniel Milley, secretary; Terry O'Donnel, reporter; Michael O'Brien, warden; Donald Sherman, journalist; Arthur Adamo, scholarship chairman, Richard Kennedy, chaplin; William Saris, historian; Kenneth Wadley, house manager; Joseph Hilloch, steward and Robert Gorman, assistant steward.

The province president, Paul C. Urion, was present for the initiation of six new brothers. They are Eugene Mowrey, Robert Holenstein, William Hartke, Eugene Meader, William Farwell, and Edward McCabe.

Charles Howe and Jack Cowie are back at Phi Delt after spending two years in the service.

Donald Sherman has been the recipient of an annual scholar ship award given to a brother in the Sophomore class with the highest scholastic standing in his class. The award is in the form of a Phi Delt badge donated to the Vermont Alpha chapter by Ralph W. Wilbur, class of "86".

PHI SIGMA DELTA

The Phi Sigs received a certificate from their national for winning the Brummer Cup for 1954-55. This cup is awarded annually to the outstanding chapter in the Phi Sigma Delta national. Congratulations!

Fern Hill is proud of Rudy Keimowitz '57 of Middletown, N. Y. Rudy was chosen to head the campus-wide blood donor drive.

There is a new look in the dining room. Bill Schoenfeld, '57, of Lakewood, N. J. is decorating the walls with informal portraits of the Fern Hill family.

Phi Sigma Delta national announces the installation of a new chapter at the University of Utah.

PI BETA PHI

The Pi Phis held a very successful open house after the Norwich game. Prof. and Mrs. Schneider were the chaperones. The theme that decorated the house was of Halloween. The large attendance of UVM and Norwich students enjoyed the hot cider, sandwiches and cookies that were served.

An initiation ceremony was held last week. Wearing the Pi Phi arrow are Greta Isbrandtsen, '56, from Bay Shore, New York and Janie Bohlinger, '57, from Trenton, New Jersey.

SIGMA PHI EPSILON

The Sig Eps were host to their Norwich chapter after the Norwich game. Everyone had a great time and the party was a success. Last weekend most of the house traveled down to the Massachusetts game and visited their chapter there. Some of the house visited their chapter at Cornell This weekend the Sig Eps will be guests of Vermont Beta chapter for the weekend at Middlebury.

ELMWOOD AND OLD MILL

Last Sunday Elmwood and Old Mill had open house between three and five in the afternoon. They were the first in a series of such open houses. The girls in the two dorms termed the event a success.

They served cookies and punch and had a good time doing it. They said it gave them an opportunity to get better acquainted with the deans and meet the new teachers. Boys and girls from the various dorms, fraternities and sororities on campus were also invited to take guided tours through the two dorms.

At Elmwood approximately fifty people came while at Old Mill one hundred and fifty were present. They were composed of the faculty and student body. The girls had a great time "playing hostess." They definitely think it is worthwhile for the other dorms on campus to have their own open houses.

Cloud Seven

A week or so ago all the girls in the Tri Delt house enjoyed forgetting their diets and ate candy donated by Marty Able and Bev Cameron. It is sort of a tradition in the sorority for the girls who get engaged to give the rest of the members a box of candy to enjoy, since we can't all be as lucky. This summer Marty Able from Burlington became engaged to Bob Rudd, an SAE from Pownel, and Bev Cameron from Chatham, N. J. became engaged to Charlie Hicks from Granville, N. Y., a Sigma Nu at UVM.

Our best wishes to Bruce Walgren, a Phi Delt, who married Ruth Homer of West Hartford, Conn. We send our best to two other Phi Delts who became engaged. They are Kenneth Wadley to Ann Bogart of Alpha Chi and James Sells to Nancy Chapin of Pi Beta Phi.

Recently two Tri Delts were pinned by two Sigma Nus. Barbara Leggett from Weymouth, Mass. is now wearing the five-pointed star of David Wentworthes from Kennebunk, Maine. Judy Umpa from Nashua, N. H. is wearing Bill Keeshan's pin. Bill is from Stanford, Conn.

Our belated congratulations to Myrna Feldman, an A E Phi, on her pinning to Marvin Marks, a member of Phi Epsilon Pi at Cornell. Marv is now at Pennsylvania Dental School. An alumnus of A E Phi and last year's president, Joan Soloman, was married on Sunday, October 23, to Stewart Horowitz of Springfield, Mass. The couple will honeymoon in Florida and settle in Springfield. Joan is currently employed by the New England Telephone Company.

From Alpha Chi we hear that Karen McKenzie, '58, was recently pinned to David C. Anderson a Third-classman at Annapolis. Another Alpha Chi, Barbara Child, '56, is pinned to Dick Severans, '56, a member of Lambda Iota.

DICK HOPWOOD REPORTS FROM GREECE

A recent letter from Dick Hopwood indicates that he finds life in Greece to be very pleasant. He replaced Francis Hamblin in Athens last June as executive director of the U.S. Education Foundation in Greece. Mr. Hopwood is living with his wife and three children in a suburb of Athens. Their home is a large one and the living room "is surrounded by a marble terrace for dining and sitting. From this we look down into our yard which is abundantly planted with flowers, bushes and trees. From the front gate along the walls, we have flowers - geraniums, asters, zinnias, roses, grapes and others. Among our trees are cherry, lemon, orange, nut and tangerine."

"A couple of weeks ago," he writes, "Helen and I went to the International Fair at Salonica. A most amazing show- very modern buildings, attractive displays, and quite sophisticated. Our observation (and substantially our analysis of the whole European picture as seen from Greece) was that the U.S.A. spends the most for its displays, but the European countries, notably Germany, knocked your eyes out with new products, and a very acute awareness of what the Greeks might want to buy. Our concentration was largely on expensive cars no Greek can afford, and fancy American kitchens which cost more than most Greek homes of middle-class families."

Mr. Hopwood reported that Norman Lange, former UVM director of student personnel, had dropped in to see him. Mr. Lange is now guidance counsellor for the U.S. Army Dependents Education Organization in Germany. Also that he had heard from Francis Hamblin "who is Dean of the College of Education at Ohio University in Athens (!) Ohio."

Mr. Hopwood's address is: Tameion Building, Room 220, 9 Venizelou Street, Athens, Greece.

Faculty Notes

Dean George Wolf attended the annual meeting of the Association of American Medical Colleges last week at Swampscott, Massachusetts.

* * * * *

Jack Little attended the International Conference on the Use of Antibiotics in Agriculture which was held in Washington, D.C., October 19-21. The day following he was present at the second annual meeting of plant chemists and biochemists at Rutgers University at New Brunswick, New Jersey.

* * * * *

Dr. Fred Dunihue represented the UVM College of Medicine recently at the Anatomical Teaching Institute which was sponsored by the Association of American Medical Colleges in Swampscott, Massachusetts.

* * * * *

Dr. Jospeh Spelman has been named to fill the newly established position of Chief Medical Examiner in the Philadelphia Department of Health, effective January 15. He will also have the title of Deputy Commissioner of Health.

* * * * *

Dr. Borys Surawicz read a paper last week before the 28th annual Scientific Session of the American Heart Association meeting in New Orleans. The paper, which Dr. Surawicz wrote in collaboration with several other physicians, was entitled "Effect of Intravenous Administration of Potassium Chloride on Ectopic Rhythms, Ectopic Beats and A-V Conduction Disturbances."

* * * * *

Alan Gowans delivered a talk on folk art last Saturday at the Fleming Museum. The lecture, illustrated by lantern slides, was made before the Green Mountain Folklore Society at its fall meeting.

* * * * *

Dr. Eugene Lepeschkin addressed the Laymen's League of the Unitarian Church last Thursday, the subject of his talk being "Electrocardiography in its relation to Heart Disease."

* * * * *

Miss Mary Jean Simpson spoke at a meeting of Delta Kappa Gamma, honorary society for teachers, at Woodstock last week. Miss Simpson gave an account of her trip last spring to England, Scotland, Wales and France.

FOR SALE - Recently-built National house. 3 bedrooms, living room, kitchen, bath, large closets - all on one floor. Built on corner lot 104 x 70 feet, entirely enclosed by wire fence. Located at 1181 Airport Drive, South Burlington, this modern home has hot air oil furnace, electric hot water heater, screens for all windows. Lot is completely landscaped and has many evergreen and hardwood shade trees. Contact Robert Searles at 106 Waterman, Ext. 220, or call 2-5205 for appointment.

WANTED - Three-room apartment, heated, with kitchenette, bath and private entrance. Furnished or unfurnished, in area close to UVM and downtown shopping district. Call Ext. 342.

FOR SALE - 5 bedroom house, 1 1/2 baths, garage, near bus and campus. $19,500. Olga Reab, 3-3886.

FOR RENT - Furnished three room apartment. Third floor but with private entrance. Available November 1. Tel. 4-5625.

FOR SALE - Beautiful large building lot on Fairmount St. in new Prospect Parkway section, 135' frontage by 120' deep, some view of lake and mountains, quiet street, eight trees, sewer and water already brought into lot. Call Robert Kroepsch, Extension 234.

The University Club Meeting on Friday, November 4 will be at 8:15 p.m. at the Fleming Museum.

Grants

Grants totalling $207,34 have been received by th UVM College of Medicine fo use during the current yea which began July 1.

In announcing the tota figure. Dr. George A. Wolf Jr., dean of the College, noted that the grants are designated for either research or teaching purposes Research grants, amountin to $132,551, form the bulk o the funds, Dr. Wolf said.

Of this research amount $55,210 is for studies o radiation effects and o X-Ray therapy in pelvi cancer. Investigations i the cardiovascular field wil have available funds o $25,526. Remainder of th grants is being used t further research in rena and neuromuscular physiology cancer, pharmocologica fields, anatomy and regiona medical needs.

Teaching grants amount to $72,793, and are designed to develop training programs at the College in the cardiovascular and neurological aspects of medicine, and in mental hygiene and biochemistry.

UMass Drops Vermont 54-15 In Final YankCon Game

Amherst, Mass. was the scene of one half of a whale of a football game last Saturday as an outmanned but never outfought UVM football team gave a powerful UMass team a real battle for two quarters before succumbing to superior weight and numbers in the second half to give the Redmen revenge for a defeat suffered here at Burlington last year. Before the 54-15 contest was over, the Bay Staters knew they were in a ball game and so did the 7000 or so fans who witnessed the contest on a warm, muggy football day.

Vermont's captain, Ed Beck did not dress for the contest but sat on the sidelines and watched his fellow backs; Hal McLam, Dick Jannoni, Dan Bianca, Tom Tierney and Dick White give a good account of themselves.

The Vermont line, seeing limited action from Bing Gilbert and Leroy Williams and no action from Ken Kurjiaka, was held together by the fine play of John Galascione and Paul Harasimowics. Big Paul played a tremendous game as he opened holes and blocked ravagely.

The Redmen, exploiting Vermont defensive lapses, made long distance gains, but did not mount any long offensive marches until the second half.

The Massachusetts backfield perfectly coordinated by junior Tom Whalen, unleashed runners Charlie Mellen, Dick Wright, and Roger Barous for long gains all afternoon.

Vermont took the kickoff but didn't gain. After an exchange of punts, Mellen punted into the Vermont end zone. The Cats again couldn't budge, and Tierney booted to the Vermont 40. Three plays later, found the Redmen with a first down in the Cat 24. From here, Wright ran to the Vermont nine, with Barous scoring on the next play. Mellen converted for seventh point.

The second quarter opened with Galascione's recovery of a Mellen fumble which put Vermont on the UMass ten. Here Tierney's pass was intercepted by Noble in the end zone, and gave Massachusetts the ball on their own 20. Here Noble fumbled twice, the second one taken by Harasimowicz on the Mass. 19. Vermont could not gain, and the Redmen took possession on their own 14.

On the third play from scrimmage, Whalen threw a three yard pass to Ingraham, who ran 70 yards for the second Mass. TD. The conversion was missed.

Jannoni, back in the game, made another brilliant runback, carrying to the Vermont 40. Here the Cats began to move, and Tierney made two eight yard runs, and Johnson contributed a nine yard dash. Tierney set up the first Cat score as he ran 18 yards to the Mass. 20, aided by a two man block by Harasimowicz. He then passed to McLam in the end zone, with the latter leaping high in the air to snare the aerial, McLam's conversion made the score 13-7.

Mass. scored in three plays from scrimmage following the kickoff. Wright romped 37 yards, Barous then carried 42 yards to the Vermont 25, scoring one play later to give Mass. an 18-7, with Mellen's conversion making the halftime score 20-7.

After three minutes were gone into the second half, Mass. scored again, and this was the signal for Ed Donnelly to send in his bench. With little exception, the reserves finished out the game for Vermont.

With the score 26-7, Ingram scored from the 15 to make it 33-7 after Mellen's kick.

The third quarter ended as Johnson took a Vermont punt on his own 34, running 66 yards for a touchdown. Kidd converted to make it 40-7.

Into the final quarter, Mass. kept the pace. The next TD came when Mass took a Vermont punt on the 33 and scored on two plays with Messena's conversion good to make the score 47-7.

Vermont's second score of the game came as the Cats drove to the Redmen 39. Blume' dropped a 4th down punt in the end zone to give Vermont a safety.. Mass. punted from their 20 after the touchdown. A clipping penalty and a 25 yard run by McLam put Vermont on the Mass. 31. White lobbed the ball to Curran for six, and then carried himself to the five. McLam scored to end Vermont's tallying.

Enos took the kickoff on the five and ran 95 yards along the sidelines for the final Mass. score of the afternoon. The conversion was good, and Mass. won 54-15.

the first male American skier to bring home a gold medal, he certainly wouldn't say so. He is a very modest fellow.

He's a hard worker off the athletic field as well. He is currently studying for his M. A. in physics to add to his Mechanical Engineering, and he has rhythm both on and off the field. He's an avid jazz fan; a Dizzy Gillespie advocate, When he has time, you're likely to find him pounding out a tune on his piano.

But right now his piano is gathering dust, as he ardently prepares for his big trial, determined to get a bid in the 1956 Olympics.

Derangement

(continued from page four

"Yup," replied Ethan.

"And you must want me to surrender."

"Yup."

"Well just follow me, Ethan. Sadly will I do this deed. Yea, verily. Toot and sweet."

"Why shor," said Ethan.

Ethan followed the commander down a flight of staris and into a small room.

"After you," said the commander.

Ethan entered. The commander slammed the door and locked it.

That is why Ethan Allen failed to take Fort Ticonderoga and a British sentry was court-marshalled for stealing cannon and Ben Arnold cracked up and the Green Mountain Boys wandered back to Vermont and disbanded and the Colonists lost the Revolution and to this day the British control shipping on Lake Champlain.

Damon Represents UVM Olympic Hopes

At I See It
BY Ed Willard

EDITORIAL

We followed through on the idea we said we would last week, namely; What is Vermont's place in the Yankee Conference?

We don't have any answer for the question and so aren't going to start any crusade here one way or the other. Some basic ideas have come through however and here they are: You put two and two together and you'll probably come out with five just as we did. Here it is:

1st; A decision will be definitely made this year by the Athletic Council as to Vermont's place in the Yankee Conference. We'll either be in it or out of it by this spring.

2nd; Our president, Dr. Carl Borgmann, will not commit himself definitely but has stated that he does not want Vermont to continue as a tail ender in the Yankee Conference. Dr. Borgmann has stated that he will not make a decision himself but will abide by the decision of the athletic council, which is made up of Alumni, faculty and student members.

Where does this all get us? We don't know. This writer did pick up some facts that may be of general interest however.

We had always thought that Vermont was the purest of the Yankon schools and were competing with schools that subsidized athletics more than we are. This is not strictly true. Vermont does not give out as many scholarships to athletics as the other Yankon schools but in proportion to the total amount of scholdrships given, on a percentage basis, we give as many and in some cases more scholarships to athletes than do the other Yankon schools. In other words, our over-all scholarship program is on a much smaller scale.

There is also the problem of the value of the dollar. The Vermont scholarship dollar is not worth as much as, for example, the UConn dollar. Let's take a fictitious case. We give two men scholarships amounting to $250 apiece. One goes to the University of Connecticut. There, his $250 will buy him full tuition for a year plus $75 in spending money. The other one goes to Vermont. His $250 here will buy him less than one semester of schooling.

We face a knotty problem. We are not a rich school. In all probability, our Athletic Council will not see fit to increase the percentage of scholarships given to athletes. We agree with this.

Summarily; We give (out of the entire amount of scholarships given) as high a percentage of scholarships to athletes as does the average Yankon school. What money we do have available will not accomplish as much as the other Yankon school's money because of the high tuition here.

It doesn't leave you with much to work on but it should make us all realize the difficult problem faced by the Athletic Council this winter. That seems to be it. Vermont will in all probability always be smaller than the other Yankon schools. Our financial condition is also less bright than the other schools at this time. It does not seem then that the quality of Vermont teams will change in the forseeable future.

What will we do. Do we stick it out in the Yankee Conference or not? We do not envy the Athletic Council's position in seeking an answer.

Skiers Start Workouts

by PAUL HULL

With the first blanket of snow hardly settled on Mount Mansfield, Charlie Traverse has already started to whip his ski team into condition. At the first meeting of the season, which was held on the night of October 26, 55 applicants showed up. Of these, 15 were on the squad last year, while 40 were frosh. The Varsity started their practice on October 25, along with the frosh cross country, while the rest of the frosh will start on November 7.

The returning veterans from last year include Frank Evans, captain, Bill White, Al Duval, Roger Piper, Charlie Gee, Bart Larrow, Jerry Baril, Ian and Bruce Ferguson, Nelson Slack, Edward Sinclair, Frank Vener, J. Larry Williams, Donald Grady, John Buck, and Dave Michael, all of whom are highly rated by Coach Traverse. Besides this fine array of talent, Charlie also has a transfer student from Paul Smith Junior College by the name of Frank Wall who was invited last year to try out for the Olympic skiing events. He should prove a valuable asset to the team in the future meets.

When asked about the frosh squad, Traverse singled out such men as Nick Gyurkey, Normand Letarte, Pat Daly, Don Oberriter, Bill Hartigan, Alan Mackey, Frank Brown, Bob Edney, Bob Turner, David Flanders, Al Ratte, and Ken Eaton, whose father is president of the Eastern American Ski Association.

All in all, things should shape up pretty well in both the varsity and frosh contingents as both have some excellent skiers capable of doing fine work.

Vermont's Olympic Hopeful, Larry Damon

UMass-UConn Take Honors In Conn. Valley Meet

By Rick Demme

Don Grady, Captain and top runner, paced the UVM Harriers to a respectful fourth place finish Tuesday out of a field of eight schools. Grady, who crossed the line after a 25:53.5 minutes jaunt, copped eleventh place in the 4.3 mile race. He was followed by nineteenth place Ken Wadley (26:21), twenty-fourth place John Fitzpatrick (26:46.5), thirty-first place Nelson Slack (27:37.5), and Art Tauber (27:39.5), in thirty-second place.

First to break the tape was Louis Stieglitz from U. of Conn. with a run of 24:17 minutes. Next across was Stieglitz's chief rival, Horn from U. of Mass. (24:22) followed by teammate Lepkowski (25:02.5). Completing the first five were Springfield runners Falvo (25:15) and Crowe (25:18).

The University of Massachusetts won the meet with a low total of 28 points. Scoring a 56 point second was the University of Connecticut followed by third place Springfield College with 76 points. The UVM Catamount runners finished fourth, totaling 117 points. Fifth, sixth, and seventh places went to the Coast Guard Academy (113), Norwich (133), and St. Michael's (196), respectively. Castleton Teachers College came in last with 224 points.

Sports From Southwick

By Joan Armstrong

UVM's hockey team played host to the Middlebury hockey players on a sports day staged on Redstone Campus' hockey field.

A little mud slowed the action somewhat, but the UVMers came out on top, 3-2. Those playing were: Katie Warren, captain, Jan Bailey, Ruth Seeler, Penny Church, Nancy Solstmann, Robbie Robinson, Eleanor Fullerton, Gulie Stiles, Sue Cramer, Barbara Grahm, Carole Story, Carol Conner, Judy Rosenblum.

Now that the fall season for sports has come to a close, WRA is looking forward to active participation in the schedule for Winter I sports. A variety is offered. The new season officially begins this week with opening meetings of the following clubs scheduled:

Badminton Monday, November 14 at Southwick Gym. 4:00 P.M: on Mondays and Wednesdays.

Basketball Tuesday, November 8 at Southwick Gym. 3:30 P.M. Officiating class. 4:00 P.M. practice on Tuesdays and Thursdays.

Square Dance Wednesday, November 9 in the Student Lounge 7:00 P.M.

Swimming Wednesday, November 9 at YMCA 7:00 P.M.

No Vt. Olympian Since Gutterson

by RUSSELL HENRICHS

Tuesday night Larry Damon leaves for the Olympic tryouts at Western State College Colorado. If he makes the Olympic squad he will be the first Vermonter since Al Gutterson to do so.

Although only three cross country skiers out of eleven will be chosen, he has a very good chance.

Last year, after placing first in the Dartmouth and Middlebury carnivals, coming in second in the Norwich and Franconia contests, and placing in the Lebanon relays, he won a decisive victory in the N.C.A.A. national collegiate championship at Northfield. He came in first, defeating some of the top skiers in the country. Then shortly after placing in the open contests at Rumford, he was chosen for the Olympic tryouts.

If he is chosen at Colorado, he will go immediately to Walla Walla, Washington, to begin an intensive training period, and then on to Cortina Italy. But Larry has always taken one thing at a time. He refuses to look past the tryouts at Colorado. He has been training hard for two years, and has his sights set on one thing, winning an Olympic berth.

The tall, loosely constructed athlete has a fine attitude and has compiled one of the most impressive records in recent UVM history. Although his running served primarily as a springboard for his skiing (feats), he set a number of records in track. He holds the present record for the mile run 4:min. 27 seconds, which he set last year. He feels that this particular record is not too impressive. "Why, take the high school kids down in Jersey," he said. "Their times down there are probably better than some of the times we set records with up here. It's just a matter of interest and competition. But in skiing, I guess we train as hard here as anybody in the country."

"How do you think you'd have done in track if you were really pressed?" I asked.

"Well that's hard to say. I guess you would have to run faster and your times might be better," he answered.

"I guess that's the difference between track and skiing up here. You're forced to train harder for skiing up here because the competition and interest are more intense.

He reflected for a moment then he answered. "Well, not exactly. I guess you'd say skiing is all by yourself. You're up there alone. You have to develop your own style and you have to drive yourself. Not that I can't learn from other skiers. I don't mean that. You always have plenty to learn. I guess you'd say skiing is a little bit different than any other sport. But then on the other hand take the Europeans and the way they train. The Americans are nothing by comparison."

No American cross country skier has ever placed in the Olympics. If Larry Damon's secret ambition is to become

VOL. 73 — UNIVERSITY OF VERMONT AND STATE AGRICULTURAL COLLEGE — NO. 19

BURLINGTON, VERMONT NOVEMBER 10, 1955

Present Directors Name Four Junior KW Assistants

The new assistant directors

Select Curwen, Martin Kidder, And Bernstein

The directors of the 1955 Kakewalk recently appointed four Junior classemn, Mark Bernstein, David Curwen, Donald Kidder and Richard Martin, to the positions of assistant directors for the forthcoming winter festival.

Mark Bernstein, a pre-law student majoring in Political Science, is vice-president of Tau Epsilon Phi, and lives in West Hartford, Connecticut. Mark was co-chairman of freshman orientation week, has written on the CYNIC and ARIEL staffs and is TEP's I.F.C. representative. He will be working with director Bruce Chaffee.

David Curwen hails from Ridgewood, New Jersey, and is studying horticulture. He is president of Acacia fraternity and is Acacia's I.F.C. representative. He was a member of the student photography staff and Gold Key honorary society his sophomore year and is now a member of the Junior class honorary, Key and Serpent. Curwen is in charge of walkers, skits and the king and queen campaign.

Donald Kidder comes to Vermont from Lansdowne.

(continued on page two)

Do Fraternities Run The Univ.. Is RoundTableTopic

"Do Fraternities Run the University?" is the topic which the Round Table will discuss at its regular meeting this Saturday at the Klifa Club on 342 Pearl Street at 6:00. Four faculty members will lead the discussion.

Professors Milton Potash of the Zoology Department, and Kessel Schwartz of Romance Languages will say that fraternities do run the University, while Professors Frederick C. Marston, English Department and Interfraternity Council faculty adviser, and Malcolm F. Severance of Economics will take the opposite view.

Dinner Before Meeting

The discussion will be preceded as usual by a dinner. The Round Table should be notified through its box in the Waterman Information Office of any person who wishes to attend the dinner.

The Round Table is an organization made up jointly of students and faculty for the purpose of discussing general questions of interest.

Walgren To Crown Queen At Military Ball Tomorrow Night

Kupic, Wilkie Are Co-Chairmen Of '56 Vt. Conf.

By Shirley O'Neill

Edward Kupic, '56, and Charles Wilkie, '57, were recently named co-chairmen of the 1956 Vermont Conference, to be held on April 5 and 6. This year the Conference, an annual university presentation featuring noted speakers from all walks of life, will deal with an important political topic, details of which will be announced at a later date.

Other members of the Vermont Conference committee include Joan Armstrong, recording secretary; John Whalen, corresponding secretary; Ralph Deslauriers, treasurer; Frank Adamo, Douglas Burke, Ted Frost, Fred Gerson, Richard Hooker, Bruce Kezer, William Keeshan, Thomas Lovett, Shirley O'Neill and Margaret Rotanelli

According to co-chairman Charlie Wilkie, "This year's Vermont Conference is going to be something entirely different from the ones in previous years. The committee members are already working diligently on their jobs, and the organizational setup of the Conference has been improved. We hope we can bring to the students a topic which will be both interesting and controversial, and one which will appeal to all the students of the University. At the present time, the committee of Vermont Conference is working along a topic in the field of politics which is in itself a vital part of the everyday life of all the students."

Wilkie, a junior and a member of Sigma Nu fraternity, is a Political Science major from Bellerose, N.Y. He is assistant prosecutor of the

(continued on page two)

Air Cadets View Ethan Allen Flight Line

On Saturday 29 October the Air Science I Class of the University of Vermont AFROTC was conducted on atour of three points of interest on the flight line of Ethan Allen Air Force Base.

Their first stop was at the flight line Fire Fighting Station where they observed fire fighting equipment and demonstrations of its uses.

Next they were taken to the Maintenance Hanger where they were given a lecture on the mission and operation of the Maintenance Squadron. While at the hanger they observed the C-119 and the C-47 type aircraft. The C-119 may be better known as the Flying Boxcar.

Finally the Air Science I class visited the Alert Hangers where they were split into two groups lead by Pilots on duty at the time. A Scramble Procedure was

demonstrated where F-86D Fighter Interceptors are in the Air four minutes after the signal is given.

Further trips are planned for all four Air Science classes in the near future.

Five Beautiful Coeds Vie To Reign

By Lenore Weinstein

The Annual Military Ball, sponsored jointly by the Ethan Allen Rifles and the Arnold Air Society, will be held tomorrow night at the Southwick Ballroom on Redstone Campus. There will be dancing to the music of Bill Wannemacher and his orchestra from nine O'clock until one in the morning.

The featured event of the evening will be the crowning of the Queen by Bruce Walgren, president of the Arnold Air Society. The Queen will have a court of four girls attending her. Preceding the coronation and procession there will be a Grand March led by Commander Robert Gorman of the Ethan Allen Rifles. Nine members of each military honorary will then form an archway of swords, under which the queen and her attendants will walk to the throne.

These five co-eds include Eva Wetche, Janet Kendall, Barbara Leggett, Judy Umpa, and Dru Weiland. They were picked by personnel of the Army and Air Force Departments and the Co-chairman of the Queen committee from pictures of 18 girls submitted by the various dormitories and sororities. Two pictures were sent in by each candidate, one consisting of a head and shoulder pose and the other a full length photo. The five chosen were then voted on yesterday by the student body at a public election. The winner will be announced at the ball.

Cats Retain State Title As They Upend Panthers 6-0

Saturday afternoon, before 4,200 rain drenched fans, at Porter Field, Middlebury, the University of Vermont retained its Green Mountain state football title as they upended the Middlebury College Panthers 6-0. The game was played at near freezing temperatures in a driving rain but the weather failed to stop the hard, spirited play of the Catamounts led for the last time by its great Captain, Ed Beck. The fans were on their feet for most of the cold drizzly afternoon. The win for Vermont exploded the myth that no-one can beat Middlebury at Porter Field on a wet day.

UVM Halfback and Captain Ed Beck, skirts the Middlebury end for one of his last runs in a great college career.
(Courtesy WCAX TV)

Final Game of Season

The game was the finale of the season for the Green and gold proved a fitting end for a fairly successful year as the Cats wound up with a 3-3-1 record. It was the first Vermont victory at Porter Field since 1942.

Vermont Line Excels

Neither side could score in the first half as both teams played good ball considering the muddy field. The opening kick-off brought the first injury of the day as Bob Holenstein, starting his first game of the season suffered a broken ankle. Offensively, the Cats led by the running of Beck threatened the Middlebury goal continuously as a lighter Vermont line, turning in its best performance of the year, completely dominated a heavy

(Continued on page seven)

Stop! Look!

FROSH

There is an important meeting of the Class of '59 at 7:30 P.M., November 14 in the Chapel.

Attendance is required.

The Goodrich Classical Club will hold an open meeting Wednesday, Nov. 16th, at 7:00 p.m. in the South Lounge of Southwich. Dr. Kent will speak on the subject, "Delos, Island of Apollo," and show slides. Dr. Kent worked there 8 months as an archaeologist.

The Student Christian Association wishes to announce that on Sunday Nov. 13, at 6:00 there will be a meeting at the Methodist Church. The theme of the discussion will be "Are We In a Social Revolution." Supper will be served and a collection will be taken up for the World Student Christian Association.

Two weeks ago nearly fifteen students from UVM attended an S.C.A. Conference at Smith College in Northampton, Massachusetts. The theme of the Conference was "Are We In a Revolution?"

Three Home Ec. Seniors Become Initiates Om Nu

In a candle-light ceremony held at the home of Miss Esther Knowles on November 4, three Home Economics seniors became members of Omicron Nu, the national Home Economics honorary. The new initiates are Sally Smith Hackett of Burlington; Donna Newhall, Burlington; and Sally Sherman, Schenectady, N.Y.

Omicron Nu is a national society which honors students of Home Economics and related fields for outstanding leadership and scholarship and promise of future attainment in their fields.

The objectives of Omicron Nu are to promote scholarship, and leadership; to conserve that which is of lasting value for home life; to stimulate research and the utilization of its findings for the improvement of living and to further a world-wide understanding of the basic importance of the home for the individual and society.

Following the initiation old and new members were guests at a tea. Hostesses were Miss Knowles and Miss Florence Bailey of the faculty. Pouring were Miss Susanna Colton, faculty advisor, and Miss Mary Lou Piche, president of Phi chapter.

Five Coeds Seize Slide Rules To Prepare For Engineering

The growing need for qualified engineers has made itself felt in this year's freshman class at UVM, where a quintet of gals are making with the slide rules in preparation for careers as engineers.

"They're only following a national trend which has been to make more use of women in industry and business," says Dean McKee of the College of Technology. "The tremendous shortage which exists today in engineering has opened the door for women to greater opportunities in this field," he explains.

And the five co-eds maintain that there are many others like themselves who would be working for degrees right now, except that "they didn't want to be the only girls."

"That's right," state Sally Folz of Babylon, N.Y. "I've met a lot of girls here at school who admit that they were interested in engineering, but shied away from it because they were afraid that there wouldn't be any other Essex"

Carol Stickney of Esse x Jct. supports this view, saying that she has been told the same thing by several of her friends. "Most of them are sorry that they decided against it," she says.

Asked whether they felt completely accepted by their male counterparts, the girls are unanimous in answering " Yes."

" We seem to be completely accepted," assures Nancy Repa of Underhill. "If there are any drawbacks to being a girl engineering student, I haven't come across them yet."

But how about dating? How do the guys react to slide rules and surveying?

"It's about the same as it was in high school for me," was Janice Gale's comment. "They either laugh or they're interested, whether they're in Burlington, Vt., or Binghamton, N.Y.," she says.

All five agree that their entering engineering was no fluke decision. "Speaking for myself," says Brigetta Brand, "I've wanted to study engineering for as long as I can remember." Brigetta adds that "another factor in our decision is that most of us have engineering backgrounds."

"Have we!" laughs Sally, who points to her father, stepfather, two brothers, a cousin and an uncle who have all received engineering degrees. " And you coul add my mother to the list," she explains, " except that in her day college didn't give women engineering degrees."

Carol, who's a fourth generation hopeful herself, feels that there was something more than family background involved in her choice. "I guess in all five cases it was the encouragement given us by our high school instructors that made up our minds. In talking over our decisions, we all mentioned teachers and the help they gave us."

" But say, where's all the snow I've been hearing about?" questioned Brigetta, who is a rabid ski enthusiast. "I can't wait to hit the slopes. That is, provided I can spare a few weekends from the books. "

Rangoon To Be Recipient Of Funds Raised By WUS

As you read this article, imagine yourself a prospective student in India; look at the people around you and choose ten of them counting yourself. Of the ten students you have chosen eight will not have the basic requirement for entering the university of their choice. What is this basic requirement? Living to reach the age of five. Impossible? Definitely not! This is the student's chance throughout most of Asia. Now look at this person in front of you. He and you are the lucky two who have survived childhood. He will be fortunate enough to receive a college education, but very possibly at the cost of graduating in the advanced stage of tuberculosis. That leaves you the the last man standing on a desolate island in a sea of despair. But you are the lucky one; you don't have to worry because you will be able to live out your full life expectancy, which is the ripe old age of 26. Then you awake from your nightmare; this can't happen to you because you live in the USA. In Burma and Asia your fellow students can't fall back on the support of their country. There is no doubt about it; they need your help to help themselves.

This year the UVM drive of the WORLD UNIVERSITY SERVICE will beam half of its funds to its health clinic in Rangoon, Burma. This clinic was established to give free medical aid to the 250 tuberculosis students who visit it daily. All of its modern facilities are operated and directed by a staff of well-trained personnel. The clinic is capable of handling 1,750 patients a week. However, this clinic is in desperate need of medical supplies to carry on its free medical service. It is YOUR CHANCE as an American student to fulfill this need.

The WORLD UNIVERSITY SERVICE is an international voluntary agency which operates a program of material assistance and international education to aid the world university community. W.U.S. is sponsored by the B'nai B'rith Hillel Foundation, the National Newman Club Federation, the United States Student Association, and the United States se tion of the World Student Christian Federation. In the United States, W.U.S. cooperates with the Advisory Committee on Foreign Aid, The Mutual Security Agency, the American Council of Voluntary Agencies for Foreign Services, C.A.R.E., American Relief for Korea, and the American Council of Education. The WORLD UNIVERSITY SERVICE works among students and professors of all religious convictions and creed. It has no political purposes, aims, judgements, or activities. The basic function of the WORLD UNIVERSITY SERVICE is to administer a program of material assistance and eductiion for international understanding. Last year's UVM W.U.S. drive helped to build a T.B. clinic in Japan.

One half of the fund raised at UVM in the current WUS drive will go to buy supplies for this clinic where more than 250 tuberculous patients (students) come every morning for treatment.

EDITORIAL

Yankon For Us ?

Yankon, as the Yankee Conference is familiarly known, has recently come under serious discussion by the students and administration. While it is, strictly speaking, a sports event (hence in the domain of Ed. Willard, our capable Sports Editor) we still feel that its seriousness warrants some investigation. A great controversy is now raging concerning our place in Yankon. We have lost all three Yankon football games this year, and therefore rate in last place in the conference list. But more important to the average student is our mediocre 3-3-1 record on the gridiron this year. Would not this average student be better served if we played teams more in our league and therefore emerged with the possibility of a better overall record?

A little known fact is that a school cannot engage in just the football Yankon without being in the other events. Therefore, we would also sacrifice our Yankee Conference Cross Country team, for example, if we were to cease playing football with these other teams. That might not be too bad a idea at that as we have had a very poor Cross Country record so far.

So on first hand it would seem that perhaps we are stretching our hopes a bit too much by remaining in the same league with the Universities of Maine, Massachusetts, and Rhode Island, but is this all that matters? We did very well against these teams last season, and might do equally well next year.

This is not the end of the question either. Yankee Conference may be the best thing that has happened to this school in a long time. It gives us quite a bit more prestige than we could get by just playing independent schools. Our sports editor last week suggested that we were the "purest" of the Yankon schools in that we did not engage in mass subsidation of athletes. That is certainly to our credit.

We do not have any solution to this problem, and in any case the decision is not ours to make. That is totally up to President Borgmann and the Athletic Department. All we can say is that there are certainly at least two sides to this question, and that no hasty action should be taken on a decision of this importance. Even those of us who are not primarily concerned with, or interested in, sports will be affected by the outcome of this situation because the name of the University is involved, and reverberations of the solution will not be retained in our ken only; they will spread throughout the North East.

Editor's Note

Many students misinterpreted last week's editorial on the Student Association elections as an attack against Frank Thurston, the new Senior Class Representative. This was not our intent at all - we merely used Mr. Thurston's case as an example.

The CYNIC finds that an alarming number of students have no knowledge whatsoever of the functions of S.A., so in the future we will try to keep you posted on what happens at their weekly meetings, and how it affects you. The CYNIC wishes to point out that these are "open" meetings in which any student may attend. They are held on Thursday evenings at 7 p.m. in the Student Association Council room in lower Waterman

Editorial and business offices in Waterman Building, Burlington, Vermont. Telephone 4-4511, Ext. 344. Deadline for notices is Thursday, one week prior to date of publication.

Founded in 1883. Subscription rate, $3.00 per year; single copy, ten cents. Acceptance for mailing to points outside Burlington at special rate provided for in Section 406 P. L. and R. of March 3, 1879, authorized October 14, 1926.

Letter to the editor

To the Editor of CYNIC:

The Oct. 13, 1955 issue of your paper carried a rather severe accusation, that is, assuming I read it correctly.

It stated, in effect, that, quote, "dope" unquote, was being used by several girl students and perhpas distributed by some, quote, "downtown" boys.

Not being a native of Vermont, I may not be familiar with some slang expression that is commonly used by the students. All this leaves me anxious to know whether the word was being used in a loose manner or did it mean narcotics.

As a parent of one of your pupils and another possible one at home, I was most concerned over this item. Your school was chosen for the high reference I received from some of your graduates and from people in the teaching profession. I was impressed by the clean, easy and friendly spirit which seems to dominate your town. Imagine my surprise and alarm to find that such a serious condition might exist on a campus as far removed from the "big City" influence as yours.

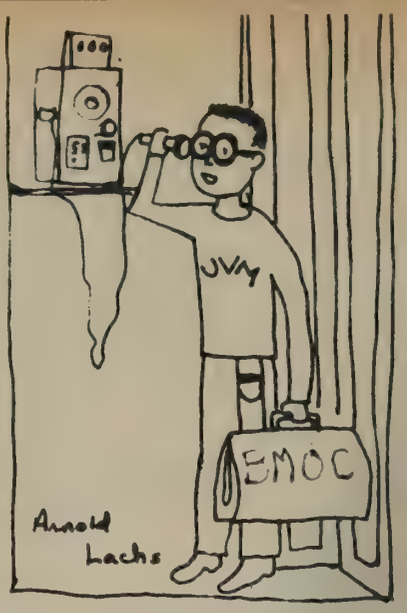
You no doubt, must have had other letters concerning this. I feel quite certain, however, that if this condition does exist, it will be given the most immediate attention. I shall look to your paper most eagerly for future information.

No need, I guess, to add that I most sincerely hope I misinterpreted your article.

Yours truly,
A Parent.

(The word "dope" was used in the humor column, "Poinigs Postscript," and in no way reflects conditions in school or in town. - Editor)

In Defense Of Derangement



A FAREWELL TO COLLEGE
or
HEMINGWAY REVISITED
Part I
by Gary Wright

In the early fall of that year we boarded in a converted chicken coop on a hill that looked across the avenue to the college. On the avenue there were cars and trucks, battered and smashed in the fracas and the traffic was heavy and going like hell and blurred in the middle. Students went by the coop and across the street and the cry they raised shook the leaves from the trees. The trunks of the trees too were shook and the students fell early that year and we saw the ambulance moaning along the street and the smoke rising and the students, battered by the traffic, falling and the cars racing and afterward the street bare and bloody except for the tire marks

There was sweating in the college and at night we could see the lights in the dormitories and from here on in any comparison is purely coincidental and only the story is changed to protect the copyright

On a day when the sun shone and the students fell faster than usual, I was sitting in a cafe with a friend talking about school and drinking milk from a cow tied to a nearby table, when a lad in our English class walked by and my friend clubbed him with a chair

"Lad today with books?" my friend said, looking at me and at the lad and grinning. Lad blushed and coughed and shook his head.

HI ALICE, I'M AL, THE TALL, DARK, AND HANDSOME SIX-FOOTER THAT MY ROOMMATE DICK TOLD YOU ABOUT.

"Lad always with books," my friend explained. "All the time with books. Sometimes five at once."

He shook his head sadly.

"I don't believe in books," he continued. "I am a senior. Books shake my faith."

Later that year my friend was found with a copy of *Memoirs of Hecate County* and took up reading as a sport and died of consumption in the early spring and I managed to get my book back.

The college was moving faster snd there were reports of scattered hour tests and I studied very little. The snow came early as does everything else and I didn't go to school for three weeks. I was sleepy. My roommate came in early one night and said,

"There is an hour test tomorrow."

And I said,

"Grandly."

I read a book and picked up a pen and left for school in the morning early. The hour test was hard and I was tired and the student next to me fell asleep and I missed five questions and walked out early. It was raining when I came out and the rain turned to mud when it hit the ground. I thought this was good because it would be a fine mess to have rain turn to mud before it hit the ground and don't ask me why it was raining instead of snowing because I don't know.

The next week I found I got minus ten on the hour test and this made me feel bad because it made over a hundred thirty in the hole. I felt pretty bad and it kept on raining. It was bad weather, not at all good.

That week I was introduced to a Miss Briackly who promised to be promising and help me in my school work and all and let's face it, this is the plot

Next week more?

Poinig's Postscripts

by
WOLFE

In the next week or so, Debating Team, Club, or Society will hit the tournaments in high style. It has been recently suggested that fraternities, sororities, and independent groups form teams themselves for intramural activity. If this could ever be conceived, a cup would be annually awarded, sponsored by the Outing Club. This year's topic will be, Resolved: Little Abner is more subversive than Pogo!

Lounge scroungers arise! Down-town Burlingtonian officials have been up in arms concerning the recent increase in smog. Either smoking in the lounge will have to cease or the windows kept shut.

The Free Press featu story of November 2, co cerning the romance of Magg and Pete, showed a fi level of student awarenes This article showed inte views of male and coed pe sonalities as to their opini of this crisis. The mo frequent answers wer "Haven't been followi it," "Who are they? "I've been (ahem) studyi too much," etc. If this an example of the stude attitude of current wor events, Steve Canyon wi never be popular.

For over a year no English milk companies ha been marketing licqu flavored milk. They actual have gin, rum and whisk flavored drinks. Need produce figures to show t rise in sales? Being a fi believer in health a wealth, I urge Vermonters follow this plan as e tablished in the moth country. Now everyone wi order milk at the Mill!

Here's one for the "T Much" department. I ca across an ad by a Chica firm for a new beverag Their product looks, smel tastes, feels, stains, foams just like beer. gimmack is there's no cohol, no fermentation, kick! You don't have to 21 to buy this brew. I ca picture this going over well at UVM.

Fashion note for men low blue sneakers and Mic Mouse sweat shirts are pearing on the college sc around the east. The styles will be featu shortly on the plain p racks at Miles and Carney

Remember, low overhead duck while entering.

There has been no repor for our fair coeds as ye However, the latest femini garb can be found in vario leading magazines such "Playboy," "Cue," "Confidential."

The subject of fashi keynotes tomorrow night dance, the Military Ball There, the featured ga will be sky blue and ea brown, with pleatless pan For the past week, m senior cadet officers h been pressuring the fr and sophs to buy tickets. certain captain disclo that Audie Murphy will there to demonstrate t tactics.

by Rhoda Rosenberg

SIGMA PHI EPSILON

The Sig Eps are having an exchange dinner with the Tri Delts on Thursday evening, November 17. Plans are also in progress for a combined orphan party with the Alpha Delts. The "Surprise Party" for the children who are less fortunate will be held on November 19.

ALPHA DELTA PI

The Alpha Delts celebrated Halloween Monday night with a party including skits and refreshments which were presented by the pledges. Following this Miss Suzanna Colton of the Home Economics department gave a talk.

On November 1, we entertained at dinner the boys who served as waiters at our initiation banquet.

Wednesday, Nov. 2, Dr. and Mrs. George Dykuisen were dinner guests of the Alpha Delts. Following dinner, Mr. Dykuisen gave a talk and showed slides from his year in Egypt.

DELTA PSI

Following an impressive ceremony on Monday night of last week, five pledges were initiated into the Brotherhood of Delta Psi. They are: Tony Arrighi, '58, Springfield, Mass.; Frank Cotrupi, '58, Rutland; Bill Mann, '57, Barre; Bill Treene, '58, Montclair, N. J.; and Dick Tifft, '58, of Bennington. Fred Hackett, '55, of Burlington, presented the house keys and addressed the new brothers.

Vern Currier, class of '55 from Island Pond, visited the house over the weekend upon his return from California where he was enrolled in a training course for the Western Electric Corporation. Vern is now working in Rhode Island awaiting his call from the Air Force.

Under the spirited leadership of brothers Jim Laroway, '56 and John Webster, '58 the dining room was completely redecorated the past weekend.

DELTA DELTA DELTA

It has been the custom in Tri-Delta for a number of years to award scholarship pins to two members in the sorority who have excelled in scholarship the preceding semester. One pin is given to the girl with the highest average in the sorority, and the second pin is given to that member who has raised her average the greatest number of points over the preceding semester. This year Lynn Eger was awarded the pin for having obtained an 88.2 average in June, 1955; and Sandra Gear received the pin for having raised her average from a 76 to an 86.2 in June, 1955.

On Monday evening, October 31, Tri Delta had a cultural meeting at which Dr. M. J. Nadworny of the Economics department at UVM was the guest speaker. Mids't interruptions from Hallowe'en "trick 'o treaters," Dr. Nadworny delivered a very inspiring talk concerning a problem which is present today in our world of varied interests-specifically, the problem of the unawareness that most people in society have as to the methods that are used in producing the variety of manufactured goods that are available today, and the problems that confront the workers who produce these goods.

PHI SIGMA DELTA

Phi Sigma Delta's housemother, Mrs. Sybil Lewis is recovering from an eye operation at Mary Fletcher Hospital.

Arnie Davidson, '56 of Great Neck, N. Y., has been elected steward of the house.

Bob Wolfe, '57 of New Haven, Conn., has recently been pledged by Phi Sig.

ALPHA EPSILON PHI

Last Saturday, October 29, was a big day at A. E. Phi. It was our first car-wash. From 11 A.M. until 5:30 P.M. suds, sponges, and whisk brooms were flying. At the end of the day we proudly claimed the credit for 52 shining cars in Burlington. Everyone had a great deal of fun polishing chrome and scrubbing white wall tires in assembly line fashion. This was the first, but certainly not the last car-wash at A. E. Phi.

ACACIA

On Thursday, October 27, Acacia held a Faculty Smoker and all present relaxed, talked, and watched a very good film.

Acacia is planning to have F. J. Preston Jr., of Burlington, at the fraternity house for dinner on November 7, and afterwards he will give a talk on diamonds and other precious stones.

Mr. Leroy D. Ritter, house father at Acacia, has been chosen a member of the Inter-Fraternity Alumni Council of Vermont. This is a newly formed group of interested alumni who have organized to help both the fraternities and the university.

Dave Curwen, '57 of Ridgewood, N. J. Venerable Dean of the Vermont chapter of Acacia, has been chosen as assistant Kake Walk Director for the 1955 festivities.

305 Maple Street is being improved this year with the addition of a much appreciated T. V. set and the pledge class' renovation of the upper floors.

GAMMA PHI BETA

The Gamma Phi's fifth annual Pie Party was held on Friday evening, November 4 from 7-11 p.m. The house was transformed into a typical Parisan sidewalk cafe. Music for dancing was provided by the Sig Ep's and lent to the atmosphere of candlelight and red-checked tablecloths. The homemade pies, coffee, and dancing was enjoyed by all who attended.

Cloud Seven

KAPPA ALPHA THETA

Last weekend was a memorable one for Mary Davidson. Joe Hanlon, now in the U.S. Navy, gave her his Phi Kappa Psi pin. Joe graduated from Colgate.

PHI SIGMA DELTA

Abbey Dan, '55 of Brooklyn, N. Y., is engaged to Bobbie Shapiro '57 also of Brooklyn. Abbey will be going into the service soon. Bobbie is now attending school in N.Y.C.

ATTENTION ALL!

Do you want to see your house news on this page?? I do. I should like to give every group equal space each week on "Around the Green." The only way it can be done will be if you send in your news. I would also like to try something new. If you will send in a picture taken at some event at your house, I will try to have it on this page with your story.

Remember the deadline is Wednesday at 5:00 for the following week's issue. Write it up and leave it in the Society box in the CYNIC office. Let everyone on campus know what is happening in your dorm. sorority, or fraternity.

Help wanted! If there is anyone interested in working on this page doing rewrite, typing, or makeup; please leave your name in my box in the CYNIC office and I will call you.

Until I hear from you - - -

News Of Faculty And Staff

Prepared By The Public Relations Office

PROF. JORDON HONORED AT RECEPTION

A reception was given to Hovey Jordan last Thursday by the College of Medicine in the Waterman faculty lounge. Dean Wolf presided at the gathering of the medical faculty, their wives, guests and medical students, who honored Prof. Jordan on the occasion of his retirement which will be effective next February. At the reception, he was presented with a 21-inch console television set which bore an engraved brass plaque reading, "To Hovey Jordan with the warm affection of his colleagues and students, November 3, 1955."

Faculty Notes

Hugh Riddell gave one of a series of public talks on American Foreign Policy, sponsored by the AFL and CIO Unions and the Vermont Council on World Affairs, in Barre on October 31. The subject of his address was "The Work of Our Foreign Service Officers Abroad."

RESEARCH CLUB MEETING

There will be a meeting of the Research Club in the Home Economics Auditorium on Tuesday, November 15, at 8 P.M. The speaker of the evening will be Donald Gregg, who will address the group on "The Black Sheep of the Organic Sulfide Family." Faculty and staff members and their guests are cordially invited.

RESEARCH GRANTS FOR FACULTY

December 1 is the deadline for applications for Faculty Summer Research Grants -in Aid, Dean Paul Miller has announced. The Board of Trustees of the University has approved five grants, each of $600, to be awarded for the summer of 1956 to give members of the faculty an opportunity of devoting the summer to research. These grants will be limited to research in the fields of Humanities and the Socia Sciences.

The Committee for the Grants-in-Aid, under the chairmanship of Dean Miller, will evaluate the applications of faculty members and make its recommendations to President Borgmann by January 1. 1956. Further information concerning the grants is available from the Deans of the respective Colleges.

INTERNSHIPS IN GENERAL EDUCATION

Information has been received in Dean Kent's office concerning internships in General Education for faculty members.

Members of the faculty who are interested in preparing themselves to teach courses in General Education are given an appointment for one year at Brown, Chicago, Columbia, Harvard or Yale with the same rank and salary of their home institution.

The closing date for nominations is January 20, 1956.

NOTICE

Will the person who ordered a two-month subscription to "The Montreal Star" to be sent to The University of Vermont, please contact the Public Relations Office? Copies of the newspaper are being held there, as well as a bill for same of $3.00.

Boys Succumb To Coeds Dorm Invasion

The boys awoke at their usual hour approximately 1:00 in the aftdrnoon. They made their beds, swept, mopped, and dusted their rooms; emptied their ash trays and waste paper baskets; decorated their walls with pictures of dogs and cats; shaved, and dressed in their best clothes. After doing all these little "daily" chores they were pleasantly surprised when their counselors told them that the Freshman girls would visit the dorm. The gentlemen of Chittenden, Buckham, and Wills Hall spent a relaxing afternoon decorating their lounges and mixing the punch. After weeks, and in some cases months, of eager anticipation the girls could no longer control themselves and descended upon the dorms in overwhelming numbers. The brunt of the attack was centered upon Chittenden Hall but a flanking assault engulfed Wills and Buckham within a matter of minutes. The girls were drawn into and through the dorms by a gradual process of osmosis. The highlight of the afternoon was the jazz concert given by the Chittenden Hall 6 Packs, led by Jim Kadrey on the drums; Bill Dawn played some real hot tunes on the piano; Steve Gould on the clarinet; Mike Tradeau on the saxophone; Sid Baker on the trombone and Ed Hall on the guitar combined to play some of the sweetest "flowing" music this side of lovely Lake Champlain! The guest books of the three dorms provided a unique problem; most of them vanished after the girls left (Dum De Dum Dum)! The majority of the visitors were left in a state of awe striken amazement after seeing some of the spacious, well lit, in more ways than one, tastefully decorated rooms. Chittenden Hall would like to thank Dean and Mrs. Couts for helping to decorate and proctor their dorm. The bulk of responsibility rested with the dorm counselors who did an excellent job in preparing and organizing the open house. The dorms were open to visitors from 4:00 to 6:00 on Sunday. The guests were composed of female students, various members of the teaching staff, and the house mothers from the women's residence halls. All in all it was a very clubby affair.

Blood Drive

The Blood Drive held last Thursday in the Waterman Lounge was termed a great success by officials of the Red Cross. The quota, set at 150 pints, was passed by a grand total of 176 pints.

The annual event is sponsored by the Key and Serpent Men's Honorary. All past drives have seen the quota fulfilled also. Refreshments were served to the donors later. A complete picture story of the drawing will be found on page three of this issue.

Ag. Station Budget Report Is Received

A report on the 1955-56 budget for the Vermont Agricultural Experiment Station, Extension Service, Related Agricultural Services, and the Morgan Horse Farm of the University of Vermont was received recently by the Board of Trustees.

President Carl W. Borgmann explained that the budget, for the fiscal year 1955-56, was delayed to this date because the amount of federal funds appropriated could not be determined in June when the University budget was adopted.

The report shows the Experiment Station with a total estimated income of $376,156.66 to be received as follows: $217,271.66 in federal appropriations, $145,000 in state appropriations, $13,005 in gifts. Estimated expenditures total $364,859.98 including $239,567.86 for personal services. Estimated balance for contingencies: $11,296.68.

Estimated Extension Service income is $589,305.03 as follows: $216,105.03 in federal appropriations, $270,000 in state appropriations; $103,200 in town appropriations. Estimated expenditures total $557,258.09, including $401,877.50 for personal services. Estimated balance for contingencies: $32,046.94.

Estimated income for Related services shows a total estimate of $263,246.40 which includes $7,051.40 as a balance from July 1, 1955, in addition to $83,000 in state appropriations and $173,195 from such sources as the University Farm and poultry and dairy sales. Total estimated expenditures is $256,758.43, leaving an estimated contingency balance of $6,487.97.

Pres. Borgmann Appoints New Plastic Surgeon

A plastic surgeon has been named to the teaching staff of the University of Vermont College of Medicine, it was announced by Dr. George A. Wolf Jr., dean of the College. Dr. Bernard B. Barney has been appointed instructor in surgery and joined the staff Sept. 1.

A graduate of the University of Vermont and the UVM College of Medicine, Dr. Barney received the medical degree in 1943. After interning at the New Rochelle Hospital, he served two years in the Army Medical Corps during World War II, emerging as a captain.

Following military service, Dr. Barney received specialty training in general surgery at Bellevue Hospital and in head and neck surgery at Kingsbridge Veterans Hospital, both in New York City.

His training in plastic and reconstructive surgery was taken with two of the outstanding men in the field. At the Royal Victoria Hospital in Montreal during 1953-54, he studied with Dr. Hamilton Baxter. For the past year, he was associated with Dr. S.M. Dupertuis, an executive of the American Board of Plastic Surgery. This experience was at the University of Pittsburgh Medical Center Hospital.

Dr. Barney is a member of Phi Beta Kappa and the Chittenden County Medical Society. He has been certified by the American Board of Otolaryngology and is a fellow of the American Academy of Opathalmology and Otolaryngology.

In addition to his appointment at the College of Medicine, he is on the staffs of the Mary Fletcher and Bishop DeGoesbriand Hospitals. He will limit his practice to plastic and reconstructive surgery.

Cats

(continued from page one)

panther line.

Game's Only Score

The Catamounts scored their first and only touchdown midway in the third period on a quarterback sneak by Dick White from the one foot line. The big break in the game came after Middlebury had taken the second half kickoff and moved to their 31. After being penalized back to the 26, Roger Tirone was hit hard and fumbled as the ball was recovered by Vermont's Roy Williams. In six running plays by White, McLam and Beck, the Cats moved to the Middlebury 13. White then tossed a neat leaping pass to McLam who went out of bounds on the one. Beck couldn't score on the first play but White took the ball over on the next. McLams conversion was wide and the score stood at 6-0.

Team Victory

The Vermont victory was a team affair as the Vermont line consistently opened holes for its backs. Paul Harasimowicz, Roy Williams, Mike Morse and John Galascione played great games. Morse who had played in a reserve roll for his first two years of varsity football came through with flying colors and was finally taken out protesting vigorously after an injury. The statistics were heavily attacked in favor of the Catamounts as they outgained Middlebury by over 100 yards on the ground as the Panthers could penetrate the Vermont 30 only once during the muddy game.

The game was a fitting end to the great grid career of Ed Beck who gained 96 yards on the ground, punted beautifully and even called signals. Al McLam also played his usual steady game in his last contest in a Vermont football uniform. The game also brought an end to the football careers of Ken Kurjiaka, Mike Morse, Bob Gorman, Dick Jannoni, Art Solomon and Stan Talbot.

Cat Nips

Little George Bossi, a surprise starter, played a whale of a defensive game as he played all but a few seconds, being taken out after he was kicked in the stomach. . . . . The injury list was astronomical; broken bones were suffered by three players. Holenstein broke an ankle and Williams fractured his proboscus for Vermont as Worthington broke his leg for Midd. . . . McLam's field goal attempt was the first one in a long time for Vermont-too bad it wadn't as good as Al's Kick-offs. . . . . Middlebury Coach, Duke Nelson heartily congratulated Beck at the game's end. It was well deserved. . . . .If the UVM line can play like that next year, watch out opponents.

Green

(continued from page eight)

knee. He will probably be out of action for two or three weeks. Fortunately enough, he doesn't play any sports.

CLOUD 13

Myrna Fishkin, burly hockey star from over at Southwick, pinned Rodney Peepers, who is quite small. (to a wall).

What girl in what sorority is pinned to which halfback????

Overheard in library: What famous athlete around the campus is affectionately known by his teammates as "Sixpac."

Boulders, Bells, Blue Paint Recall Midd-UVM Rivalry

By Zane Hickcox

"WE HAVE MET THE ENEMY —Middlebury 6, UVM 2—The snow fall of Tuesday covered Porter Field to the depth of a foot, but the entire student body of the men's college went to the field in the afternoon so that it would be possible to hold football practice each day before the UVM game."

If you should hear the chapel bells ringing at odd intervals tomorrow night, don't be alarmed. You will just be living in Middlebury's gone and almost forgotten past. The excerpt above is taken from a 1916 issue of the CAMPUS. Around then, it seems, the UVM-Middlebury rivalry was riding so high (or low, as some authorities would put it) that a dragnet system including chapel bell alarms had to be set up.

A number of spirited Old Midd Boys would station themselves out on the road to Burlington on the evening of the Vermont game and watch for enemy troops coming to engulf trees and sidewalks in yellow and green paint. At the sight of a car, these campus defenders would call the troops back on the hill who would ring out a signal to the rest of the guards on the chapel bells. As the car arrived on campus it would be swarmed and, in the words of an anonymous alumni, the UVM'ers would be "smeared."

Gone

Gone forever are the days of defend and attack. They died a slow and painful death before the statement banning such antics came out of the offices of the Middlebury, Vermont, and Norwich presidents. consensus seems to be that it was a mercy killing.

Back in the musty past, when the game was in Burlington, Middlebury took the offensive, generally with one objective in mind—the UVM boulder. Middlebury partisans stole the medium sized rock almost annually, and it was hidden on the Middlebury campus as many times.

After much intrigue, UVM would retrieve it, complete with a coat of blue paint. This practice was more or less unofficially stopped when the last guy to drive the boulder down found out that it was too much for the axle of his car. There aren't too many motorists who will pick up a hitchhiker sitting on a blue boulder. This practice was then more or less officially ended when the UVM Boulder Society had their rock cemented to the ground.

Aside from triumphs with the boulder, Middlebury had one remarkable coup with a blue paint brush. MIDD was slashed in blue all over the sidewalks in front of the new Waterman Building at UVM; blue paint is rather difficult to get off, or so must have been the undoubtable thought of the trustees and students who assembled in front of the Waterman Building the next day for its dedication.

To some painting sidewalks and stealing rocks fall somewhere in the same category as chasing people with wet towels and putting zoology pigs in people's beds; these people belong to the fast growing majority.

The days of about 1905, when the annual game had to be played and fought over on the field at Vergennes because neither campus would consent to be host to the other, are over. Action has now been taken by the college presidents and the undergraduate association.

Although paint cans have been shelved, Middlebury still holds to one last victory symbol. In the inmost of inmost vaults that has special slots carved to hold it, sits a worn, brown stick with an ivory handle and a silver placque saying "Gamiel Painter's cane presented to Middlebury College. . ." The display of this cane, unearthed in 1916, is restricted solely to the occassion of a Middlebury victory over UVM when it seen in the hands of the college president.

This story is reprinted in full from last week's MIDDLEBURY CAMPUS - the official Middlebury College paper.

Kappa Sig's Take Intramural Football Crown

As I See It

BY Ed Willard

The Vermont victory over Middlebury last Saturday, was a well deserved one. The Vermont line played its best game of the year as they provided a rock ribbed defense that we hadn't seen much of up until the Middlebury contest. The backfield, playing its last game with the services of Mssrs. Beck, McLam and Jannoni gave a good indication of how much they will be missed come next fall.

We haven't given much credit to Coach Donnelly for the Cat's success but no one can doubt that he richly deserves some for the victory last Saturday as well as a general pat on the back for a job well done this fall. Middlebury was cased to a "T" by Vermont scouts all during the season. Mr. Donnelly's fine diagnosis of the Middlebury offense showed up in the way the Cats held the Panthers at bay all afternoon.

Mr. Donnelly had many trying moments this year. The Catamounts played three ball-games in which they were completely outmanned. At times, the Cats went on the field with a squad of under thirty men, some of them injured. Mr. Donnelly's unfailing courtesy to the press and others, in the face of what would give many a coach ulcers was, we are sure, appreciated by all. Well done Mr. Donnelly!

The game marked a passing as well. Captain Ed Beck is a champion in every respect. His spirited leadership on and off the field was an inspiration to his teammates all during the year. His never say die spirit, his knowledge of the game and his actual ability combined to make a football player with no peers and perhaps no equals in the all-time Vermont football picture. Here's my vote Ed.

Remember the prediction we made at the beginning of the season? We said that if the Cats could defeat either Maine or Rhode Island, we'd have a 5-2 record. Our losses to both of these teams let us off the hook! Whew!

Overall, it was a good season. We lost only to Yankon teams. The losses to Yankon opponents didn't so much indicate the quality of the Catamounts as it pointed up the power of the Yankee Conference. We played two entirely different classes for football teams. We did well in our own league but couldn't "stay" with our Yankon foes.

We didn't say whether we favored staying in the Conference or not last week but we will hazard a shot now.

Participation in the Yankee Conference of Vermont teams able to hold their heads above water would be a great prestige factor for the school. The Yankon Football Champion is automatically among the best in the East. The Yankon Basketball Champ has an automatic invitation to the NCAA Tourney as does the Baseball Champion. For Vermont to hold its own in this setup would be a great thing. To be last means nothing!

The answer seems clear. We'd rather see the Cats beat Middlebury any day than be snowed under by a 60 man squad from the University of Massachusetts. 'Nuff said. If we alter our athletic policy so as to include more athletes, Yankon-yes; if not, Yankon-no.

UConn RIS Battle For Pot

The stage is set for the "Battle of the Bean Pot" at Storrs, Conn., Saturday, as the undefeated University of Rhode Island meets the University of Connecticut for the 1955 championship of the Yankee Conference, the athletic association of the six New England state universities.

Connecticut must win to clinch the Bean Pot, while Rhode Island may still win the trophy through the media of a tie. The UConns were beaten by Maine 13-0 early in the season, but the only blemish on the Rhody conference slate is a 13-13 deadlock with New Hampshire's defending champions.

The Rams of Hal Kopp were also tied by Northeastern in the opener, but have recorded victories over Brown, Maine, Springfield, Vermont and Massachusetts.

Connecticut, defeated in non-league games by Yale and Delaware, has beaten New Hampshire, Boston University and Massachusetts.

The odds are always even when these two old rivals meet, this time for the 46th renewal.

Two Yankee Conference teams wrapped up their respective state series titles last week, as Maine ran roughshod over Bowdoin for the Pine Tree State crown, and Vermont defeated Middlebury for the championship of the Green Mountain State.

MAN'S WORLD - WHO SAYS?

The St. Cecilia School in Dallas Texas has had a 2-2 record this season under the watchful eyes of an assistant xoach who has been with the school for ten years in this position. After watching the game for several years, the assistant coach believed that the school needed a further development of sports.

The only point at which St. Cecilia's differs from other schools is this. The assistant coach is a woman, and a nun at that, Sister Maru Berchman.

WINTER HAZARD INSURANCE FOR $10.00

Under a new National Ski Association policy, you can be insured for all skiing and winter hazard accidents occuring at or on the way to ski areas. It includes coverage for slipping on the ice, tobogganing, ice skating as well as accident coverage for trips to and from the skt areas. It will cost you only ten dollars for the year. See Ski Coach Charles Traverse at the gym for particulars.

Kits Second In Conn Valley; First In Local Meet

by BENNETT WOLL

The unbeaten record of the Freshman Cross Country Team was ruined Tuesday as they took a second place to an excellent U. of Mass. team in the Connecticut Valley Championships.

The large crowd of spectators saw Eric Dahl of UMass set a new course record of 15:53.5. He was followed by a fellow Redman, Don Medara. Ray Allen was the first Vermonter in, crossing the line less than half a second after Medara. Bob Kuchar took fourth for the Green and Gold. He was followed closely by Larry Seymour. Dave Porta came in seventh. The next Cat in was Jon Reardon in the number 15 spot. Carl Easter was 18th and George Silver was 20th.

Coach Archie showed great enthusiasm over the team's performance. The results were, UMass 26; UVM 34; Springfield 60; and U.S. Coast Guard Academy 101.

UVM's Frosh Cross Country team finished their season as UVM's only undefeated team in regular competition, as they beat Castleton Teachers College and Randolph Aggie last Friday. The Green and Gold harriers took the first four places.

Bob Kuchar streaked across the finish line first, breaking the tape 14 seconds ahead of Ray Allen. The next Kitten to complete the cold, wet circuit was Dave Porta, who was followed by Larry Seymour. Ko Soknam, of Castleton just nosed out Jon Reardon for fifth place. Carl Easter took eighth and George Silver tenth. Spunky Danny Vignone showed a lot of promise as he placed thirteenth. Don Oberriter was right behind him, and Bill Geissel was sixteenth. Al Ratte was 21st.

UVM defeated Castleton 16-44, and the Aggies 15-50. The team has an 8-0 record in regular competition and placed second in the Connecticut Valley Championships last week.

All Over The Green

by RUSSELL HENRICHS

NEWSY NEWS

Wendell Ersatz may be the greatest college pitcher of all time. This fantastic ballplayer, ever-superhuman was slated to get a $175,000.00 bonus by the New York Yankees, ever-rich.

He is so good, that the other 15 teams, none of whom, of course, could meet the Yankee's fabulous offer all chipped in and gave him$300,000.00 to quit the game!!!

Wendell, ever-clever, immediately bought 90% of the Baltimore - Orioles, whom he may move to Brooklyn, if the Dodgers move to Vermont, as rumors around the campus have it.

Wendell recently donated the fabulous Ersatz library in exchange for an honorary degree, which he, ever-humble, at first refused to accept.

Sports From Southwick

By Joan Armstrong

On Saturday afternoon, October 28, the co-eds of UVM played their last hockey game of the season with the co-eds of Middlebury, Green Mountain Junior College and Skidmore College were also invited, but they were unable to attend the Sports Day on Redstone Campus. Several members of WRA, Women's Recreational Association, rendered their services as linesmen, time-keepers and score-keepers.

The hockey players of both teams were fairly evenly matched and the competition was very keen. Throughout the entire game, the players were running from one end of the field to the other. Middlebury scored first but our co-eds did not lose confidence; in the first half of the game Ruth Seeler made a spectacular play. Jan Bailey, coming from a wing position, tried to pull out the goalie by making a pass into the center where Seeler smashed the puck through.

In the second half, the game proceeded with eve more enthusiasm. Nancy Soist mann was able to make clear, hard drive into th goal. Middlebury then mad another goal to tie up th score to 2-2. There were matter of seconds left t play when Penny Church, cente forward, made a goal from very difficult angle t break the score. UVM's co-ed won their final game of th season with a close score 3-2. The season ended wit one win, two ties and or loss.

Other members of the fiel hockey team were as follows Manager, Katie Warren, Jea Robinson, Carol Conner Eleanor Fullerton, Barbar Graham, Carole Story, Gul Stiles, Sue Cramer and Jud Rosenblum.

To end the day in goo spirit, a banquet was hel at Southwick with a Hallowe' them. Flo Alexander, presiden of WRA, welcomed the girl at the informal gatherin

Down TEP And Chitt. In Finals

After playing to a 7-7 tie, Kappa Sigs nosed out a 13-12 victory over a strong Delta Psi team, in a rematch. In the first 2 quarters neither team scored, however in the third quarter on a fine pass play Bill Mann registered a six pointer for Delta Psi, but they failed to score the point after touchdown. A few seconds later Kappa Sig came back with a touchdown of their own, and they made the point which was the deciding factor of the game. In the fourth quarter each team scored six points, and the final score was 13-12 in favor of Kappa Sigma. This win gave them the championship of league A, and the right to meet Tau Epsilon Phi the winner of league B.

Everyone including most of Cynic sports writers felt that this game would be a high scoring, but only a touchdown or two would separate the two teams at the end. However, all the so called experts were wrong, Kappa Sigma road roughshod over TEP and massacred them 57-19. Kappa Sigs scoring was led by Rollie Massimino, as he crossed the goal line six times. One of his scores was on a pass play that covered 80 yards. He scored another on an 80 yard interception. Massimino's scores alone would have been enough to beat TEP. TEP was never in the ball game as Kappa Sig scored two quick touchdowns, while TEP came back with one. Kappa Sig then scored seven touchdowns in a row; the final score 57-19.

On November 2, Kappa Sigma took the field against Chitt 1 and 2, and proceeded to swamp them in a very one sided affair 69-7.

This marked the end of the 1955 Intramural Touch Football League, with Kappa Sigma the champions.

The final standings were

WON	LOST	LEAGUE
5	0	Kappa Sigma
4	1	Delta Psi
2	3	Alpha Epsilon
2	3	Alpha Tau Omeg
1	4	Phi Sigma Delt
1	4	Sigma Phi

Barbara Leggett Crowned Queen Of Military Ball

Queen Barbara Leggett being presented flowers as the other candidates look on. The Ball, held last Friday, was termed "a big success."

Pretty, blond Barbara Leggett reigned as Queen of the 57th annual Military Ball, held in Southwick Ballroom, last Friday evening. Barbara, a sophomore from Weymouth, Mass., and a member of Delta Delta Delta sorority, was Middle Converse's Candidate for Queen.

The Ball, sponsored jointly by the two honorary societies of the Army and Air Force ROTC, the Ethan Allen Rifles and the Arnold Air Society, featured the music of Bill Wannemacher and his orchestra from 9 p.m., until 1 a.m. Approximately 250 couples attended, according to Commander Robert Gorman of the Ethan Allen Rifles, who termed the dance "definitely a big success, with an even larger crowd in attendance than last year."

The feature event of the evening was the crowning of the Queen by Bruce Walgren, president of the Arnold Air Society. Preceding the coronation was a Grand March led by Queen Barbara and Commander Gorman. Nine members of each of the honorary societies then formed an archway of swords, under which the Queen and her attendants walked to the throne.

Queen Barbara was chosen by a vote of the student body from among the five finalists, who were picked by personnel of the Army and Air Force departments and the co-chairman of the queen committee. The members of the Queen's court included Janet Kendall, Dru Weiland, Judy Umpa and Eva Wetche.

Forensic Teams Swarm To UVM For Tenth Annual Debate Tourney

Debaters from forty-seven colleges will swarm onto the UVM campus to take part in the tenth annual Lawrence Debate Tournament. This national practice tournament, one of the largest in the East, features five rounds of over one hundred simultaneous debates. Both novice and varsity squads will participate.

Teams participating include Army, Navy, Harvard, Cornell, Rutgers, McGill, Dartmouth, St. Michael's, Middlebury, Penn State and Colgate.

Prestige and Efficiency

"The tournament is so well known for its efficiency that national debate societies often call upon UVM to run their tournaments," according to Dr. Robert Huber, chairman of the speech department. "The prestige of the tournament is such that it has been written up in the Tau Kappa Alpha *Speaker*, and the Texas Hardin Simmons tournament will be modeled after the Lawrence Tournament."

Debates will be held at 7 and 8:45 p.m. on Friday evening, both varsity and novice teams meeting on the UVM campus. On Saturday at 10:30 a.m., the varsity division will meet at Burlington High School and novices at the UVM campus. At 1:30 and 3:30 p.m., both divisions debate on campus. The public is invited to attend any of the debates. Information may be obtained on the second floor of Waterman during the tournament.

Banquet

In addition to the debating, the tournament includes a breakfast for members of Tau Kappa Alpha, national debate honorary; a banquet for all the participants, and a Coaches' Chit-Chat Hour.

"The success of the tourney depends entirely upon the 450 UVM students who run it," says Dr. Huber. "Visitors are amazed at the wholehearted cooperation of the entire student body which is unrivaled at other schools."

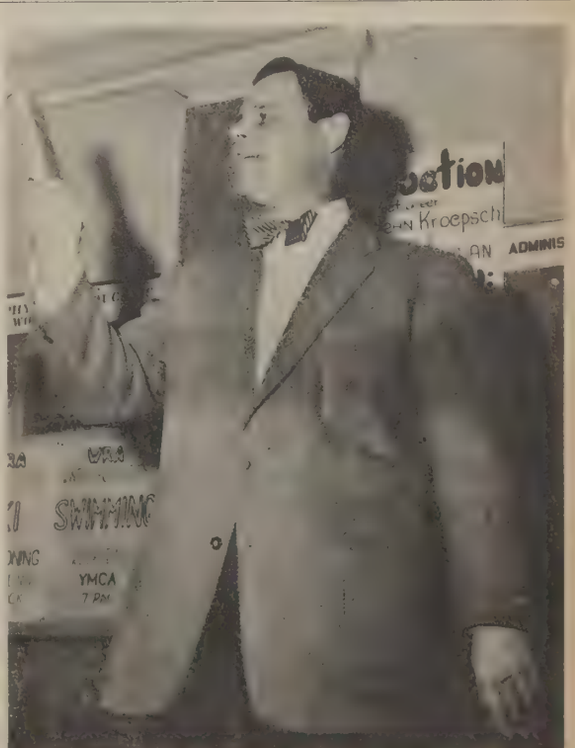
Heading the student committee are co-chairmen Donna Trombly, Brandon, and Susan

(continued on page two)

Round Table Doesn't Conclude On Frat Question

The question "Do Fraternities control the University?" went without a clear-cut answer after the Round Table discussion of the topic last Saturday. Participants in the discussion agreed that members of fraternities did hold a large number of offices out of proportion to their number, but opinion was divided as to the cause and as to whether this implied that the fraternities actually controlled these offices.

Four members of the faculty were asked to form a panel. Each member of the panel was assigned to a view point, and thus the ideas expressed by the panelists were not necessarily their personal view. Holding the position the fraternities do control the university were Professors Milton Potash, Zoology, and Kessel Schwartz of romance languages. The negative view point was upheld by Professors Frederick C. Marston, Jr., of the English department and Mr. Malcolm F. Severance of economics.



(continued on page two)

'Centaur", UVM it. Magazine, o Appear Fri.

Centaur, a literary magane of the University, will e distributed Friday, ovember 18, according to itor Joie Jamele. The gazine, which appears four mes each year, will feature ort stories, poems, essays, t and reviews.

Guest contributor of this sue is Professor Robert bcock of the political ience department, with an say entitled "The State d UVM." Jack Brownfield of e English faculty reviews e collected poems of Gladys Flamme and George Rood pears with a psychological tch, "Nowhere." John kinson reappears in *Centaur* th several poems, while ets Jan Curran and Mike chilli make their debuts the issue. Sally Deaver's ory, "The Red Dress," and lly Stalker's "Younger other" are two other atures. The cover and line awings are done by Anne King.

Centaur is published with e support of Student Asciation and is free to udents. Business Manager orge Rood reminds students at there are only a limited ber of issues available, so sure to get one Friday in er Waterman.

Dean Robert Kropsch is doing his bit to further the cause of W.U.S. as auctioneer in last week's gala auction of unclaimed lost and found items. (Photo by Iverson SPS)

Round Table To Hold Open House After Xmas Concert

The Round Table All-University Open House will be held this year in the Waterman Building after the Christmas Concert on Sunday, December 11. Plans are being laid with the expectation that over 600 members of the University family will attend the affair, which includes a turkey and ham supper and an informal Christmas program.

Co-chairmen of the faculty - student sponsored event are Robert H. Kroepsch, Dean of Administration, and Stanley R. Sakowitz, Class of '57. In announcing the plans for the affair Sakowitz said that the purpose of the Open House was to "develop a family spirit among all members of the University family."

Through the cooperation of Miss Godfrey of the Food Service Department, the event will be held in the Waterman Cafeteria and her staff will arrange for the purchase and preparation of most of the food. Posters will appear on the campus after the Thanksgiving recess announcing the availability of tickets.

Free Tickets Needed

These tickets are given out free of charge from convenient points on the campus. No persons at all will be admitted to the Open House without a ticket. Because there are only a limited number of tickets, students are urged to pick up their tickets promptly.

Committee Members

Decorations will be put up by a committee of which Linda Markson is the student chairman. Anne Blodgett is the chairman of the facilities committee. Food and other supplies which need to be contributed will be solicited by a committee under Mrs. Leslie Johns, Patricia May and Dorothy Ward. Carol and Carolyn Brumbaugh and Donald Hardy, Coordinator of Student Affairs, are in charge of the program.

The work crew for the arrangement of tables and chairs is headed by Rudy Keimowitz and will include the members of Key and Serpent and Gold Key. Robertson Farrar is chairman of the ticket committee, and Miss Helen Brown is in charge of food production. Publicity will be arranged by Max Ansbacher and Larry Van Benthuysen.

The plans for the entire enterprise were conceived by a committee consisting of John Burgess (finances), Donald Evans, Don Hardy, Dean Kroepsch, Pat May, Stanley Sakowitz, Dorothy Ward and Assistant Dean of Women Miss Margaret M. Wing.

Ticket Distribution

The admission tickets will be put on distribution at the following locations:

Veteran's Day Parade

On the eleventh second of the eleventh minute of the eleventh hour of the eleventh day of the eleventh month of 1955 which was officially the beginning of Veteran's Day, the University of Vermont AFROTC Drill Team was performing in the parade seen in Burlington. Under the capable leadership of Cadet Staff Sergeant Max Rothman the team performed a unique maneuver simulating a bayonet charge. The precision of movement exhibited by them is the result of many months of training and their skill will again be publicly demonstrated along with new advanced drill movements in the near future.

Round Table

(continued from page one)

Good of Entire School

Others at the meeting pointed out that if fraternity people were elected to public office it was only because they received votes from the independent members of the campus. A student asked whether a fraternity controlled an organization merely because a member of that fraternity was the head of the group. The student contended that office holders at the University act "for the advantage of the entire school."

Other points touched upon in the discussion included a graduate's divided loyalty between his school and his fraternity, the effect which fraternities had upon scholastic averages and the number of cuts taken, and the value which begin in a fraternity had as a help t begin elected to an office.

The discussion was precede by a dinner prepared b Round Table food co-chairme Ann Kotchen and Cynthi Wooster with the help o Anne Blodgett.

Do Fraternities Dominate?

To open the discussio Professor Potash pointed tha the question should appl only to extracurricular an social phases of student life He proposed that the wor "control" was vague, an that the proposition d fraternity members "dominat the University" would be preferable title.

"Only 22% of the men i the University are in fra ternities" was the statisti which Professor Schwart used to open his attack. I the members of the Freshma Class, who have not yet had chance to join fraternities are excluded from the average about a third of the me students are in fraternities.

22% In Control

Professor Schwartz the went on to read lists of th organizations on campu which were run by fraternit people, and he conclude that "22% of the student should not completely dominat campus activities."

On the other side of th question Professor Marsto pointed that fraternitie did not run the class room which was the most importan part of a university, fra ternities do not run th athletic programs, and man of the clubs on campus ar not fraternity controlled. I the field of social activitie Professor Marston pointe out that any one was free t give a party. This left onl Kake Walk being dominated b fraternities.

Joiners Take An Interest

Mr. Severance asked wha was wrong with having fra ternity members in position of importance if they wer the people best qualifie for the job. This would merel indicate that the type o person who joins a fraternit is the same type who take an interest in extracurricula affairs. He further state that if fraternities contro the social life of the campu it is merely through defaul of the other segments o the campus population.

In the second round o panel comments Professo Potash said that the Studen Association Council had bee "completely and utterl controlled by fraternities and that most of the new of the CYNIC society pag was devoted to fraternities He cited these facts a evidence of fraternit domination in extracurricula and social fields.

UVM Clippings

News Of Faculty And Staff
Prepared By The Public Relations Office

HOVEY JORDAN PRESENTED WITH TV SET

At the reception given in his honor on November 3, Hovey Jordan was presented with a 21-inch console television set and a purse, gifts from his colleagues and students in the College of Medicine.

Shown above are Prof. Jordan and Dean Wolf, who presided at the gathering.

Over a hundred friends and associates of Hovey Jordan attended the reception in the faculty lounge of the Waterman Building to extend their best wishes, on the occasion of his announced retirement next February from the UVM faculty.

The TV set carried a brass plaque with the inscription -- "To Hovey Jordan with the warm affection of his colleagues and students. November 3, 1955."

CINEMA ART CLUB TO MEET NOV. 19-20

The next meeting of the Cinema Art Club will take place on Saturday and Sunday evenings, November 19 and 20, at 8 P.M., at 75 Bilodeau Court (off East Avenue). The program will consist of the following:

1. "MELODIOUS AUSTRIA." (36 min.) A film in English showing the houses where Mozart, Haydn, Schubert, Bruckner, Beethoven and Johann Strauss, Sr. and Jr., lived, as well as the landscapes which inspired their works, with their music as background. Dr. Richard Stoehr, the Austrian composer, will comment on the film.

2. "EARLY GERMAN PAINTING FROM BERLIN MUSEUMS." (18 min.) A film in German showing paintings done between 1250 and 1500 A.D.

3. "CLINIC OF STUMBLE." (16 min.) An experimental dance film in color by Marion Van Tuyl of San Francisco, employing multiple exposures to create dance patterns impossible on the stage.

4. "THE SCULPTURE OF RICHARD SCHEIBE." (18 min.) A film showing the German sculptor at work.

5. "MIRACLE IN THE MESA." (20 min.) A color film about the Hopi Indians.

The Saturday showing is a preview, at which comments will be recorded on tape for playback on Sunday. These showings are open to everyone interested. A contribution of fifty cents per person toward the rental expenses will be collected.

On Wednesday, November 30, at 8 P.M., a preview of "The Eagle With Two Heads" will be shown at 75 Bilodeau Court. This film, by Jean Cocteau, is in French with English subtitles. Its second showing in Burlington will be at the Fleming Museum the following evening as part of the regular Fleming Museum Association program.

Faculty Notes

Martha Caldwell attended the Eastern Region Conference of College Textiles and Clothing Teachers in Atlantic City, N. J., last week. She was chairman of the Proceedings Committee at the Conference.

• • • • •

George Male was present at the fall meeting of the New England section of the American Philosophy of Education Society held in Fitchburg, Massachusetts, last week.

• • • • •

President Borgmann, Dean Carrigan, Dean Miller, Virginia Trotter, Robert Davison and Marjorie Luce are attending the annual meeting of Land-Grant Colleges and Univerities this week at East Lansing, Michigan. Dean Carrigan is reporting on the work of the Committee on Revision of Memoranda.

• • • • •

The Office of Information of the Extension Service conducted a News-Writing School for club reporters, 4-H Club agents and other organizations on November 17th in Springfield, Vt. Jack Spaven and Glen Goss assisted in setting up the school, which was organized in conjunction with the Springfield Reporter and Windsor County Extension officials.

• • • • •

Robert Wetherbee recently spent a week in Washington, D.C., attending meetings of Association of Official Agricultural Chemists. Representatives were present from all States and from Canada, Puerto Rico and Hawaii.

BOOK REVIEWS

Volume III of a continuing study, "History and Criticism of American Public Address," has just been published; Robert Huber, collaborating with Editor Marie Hochmuth, of the University of Illinois, is responsible for a part of the volume. Volumes I and II of the trilogy were published twelve years ago under the editorship of W.N. Brigance of Wabash College. The work is predominantly an analysis and criticism of great American speakers, and contains sections of historical nature, treatises of audience psychology and excerpts from the speaking careers of prominent orators.

Mr. Huber's contribution to the new book deals with the life of Dwight L. Moody, forerunner to Billy Sunday and Billy Graham, and the first of the big-city evangelists. "Moody carried larger audiences during the latter part of the nineteenth century than any of the modern evangelists do today," Mr. Huber remarked. "It is estimated that he spoke to about 100 million people in his speaking career. In New York City, his daily weekday audience was 30,000 with 40,000 on weekends."

Dwight Moody was one of the earliest forces in the YMCA movement, and Mr. Huber continued, "a single collection he took up in Philadelphia for the YMCA netted $100,226."

Mr. Huber's volume, which is just off the press, is published by Longmans-Green.

• • • • •

Milton Nadworthy is the author of a new book, "Scientific Management and the Unions," which was recently published by the Harvard Press. In it, Mr. Nadworthy traces the progress of scientific management from its beginnings of 50 years ago to the present time, and records the reaction of organized labor to the movement.

UNIVERSITY CLUB "DO IT YOURSELF" NIGHT

The University Club will have a "Do It Yourself" Night on December 2 in the Southwick ballroom. Starting at 8 p.m., the evening will feature exhibits, displays and demonstrations of faculty handicraft and hobbies. Questions bothering the hobbyist will be answered and helpful advice given on how to get that boat you built in the cellar out of the cellar. Faculty and staff members are cordially invited. Refreshments will be served.

EDITORIAL

"The Natural Superiority Of IVY LEAGUE Men"

"Gold and precious stones couldn't induce me to speak slightingly of Amherst, Bowdoin, Colgate or a whole alphabet of liberal-arts colleges that turn out splendid facsimiles of the Ivy League product. Nor can I bring myself to say uncharitable things about those educational rabbit-warrens known as State Universities, whose inmates, I hear from reliable sources, gradually learn the use of commas and can be trained to perform simple feats of logic concerned with chain-store management, ethical embalming and other disciplines much revered by the American demos." So started off an article in the November issue of Holiday Magazine by Henry Morton Robinson (Columbia '23) who endeavors to point up the so called superiority of Ivy League schools against all comers.

Naturally we cannot assent to such an opinion in the way the article enfolds. How can we compete in the style of buildings for example, with Harvard's fantastic $220,000,000 endowment? Obviously we can't. But is it important? Are we "educational rabbit-warrens"? He points out that only 2% of Ivy League Freshmen flunk out while 40% of State University Frosh fail to reach their second year. That might be mighty damning from the outset but look at our different makeups. Yale takes only the most carefully selected students; most state universities are forced by law to take anyone with a C average. He claims that teachers (he calls them "professorlings") get their revenge with their fantastic flunk-out rates! At UVM we don't like to hear our professors spoken of in that derogatory style and deny that they have any such intent.

His discription of an Ivy League man is that "a student in the Ivy tradition is quickly identifiable by his suave seriousness, his air of hard-minded scholarship and single breasted tailoring." Oh, come now, Mr. Robinson! There was national magazine coverage of Harvard's "Pogo Riots" and Yale's "Humpty Dumpty Ice Cream Riot." We don't deny Vermont's attempts to reach so called Ivy League levels in staging panty raids which by any standard become total flops. We just indicate that boys will be boys no matter where they may attend college.

Much of Robinson's column is written in a light-hearted vein but we feel he is all out for intellectual snobbery and in his article he anticipates this attack and denies that it is his position. We feel that a mass educational program for a mass of the population is much better and more suitable than neglecting the mass and giving a superior education to only a select few. We contend that any student in any college can receive a good education, if he is willing to dig for it, that is. Harvard may have a million books in its library but what student at UVM has picked a fraction of the available knowledge from our "inferior" collection?

In all fairness to Mr. Robinson we feel he has a perfectly valid position in the question of academic freedom. He sights the magnificent way Harvard's Dr. Pusey silenced Wisconsin's Wonder with the statement that "I am content to stand on Harvard's record..."

Robinson warns against state universities being dependent on the whims of the legislature. "Caution is the watchword in such places: any departure from orthodoxy - in curriculum, teaching methods, published findings, even personal reading matter - may cost a faculty member his job." We are not saying, or hinting, that such conditions exist here at UVM, but every student must have noted that there is at least a slight tendency to veer away from controversial topics. Were we Ivy Leaguers, no doubt Mr. Robinson would expect us to state that our teachers are, for example, afraid of getting their names dragged through the Daily News, but since we're not in that league (hence not more discreet, but more timid) we won't go that far.

In a few days we are leaving for our Thanksgiving Recess. Most of us have Ivy League friends (ours at least speak to us - superior though they may be) so why not see how many of them have read the article. We will grant the unproven assumption that Ivy League colleges start off with better material than UVM. Actually that statement need not be proven as it really speaks for itself. But we sincerely don't believe that those students are any less apathetic than we are in school activities. Does Brown get anymore of a turnout at its big games than we got down at Middlebury? Percentage-wise we doubt it! Dean McGeorge Bundy (again Harvard) states "It (his school) is a college for those who feel the need for a broad development of their powers, for a greater understanding of their world, and for an enriched cultural life." Does this hold meaning any less for a Vermont student than it does for a Harvard boy?

Robinson tries to set-up the Ivy League as a series of exclusive clubs tied together by traditions and hoary age. May we remind him that Vermont is not the newest school around. He tries to inject the democratic element by stating that about half of the students either work part time or have benefit of scholarships and grants. Fine! Is the situation radically different here? We can't find our deviation.

And so, congratulations Ivy League schools, you have the pick of the high school crop. Make the most of it. We are making the most of what we have, and we are not ashamed. In fact we are sort of proud of our school and our traditions. Let us coexist together and remember that the *Baccalaureus in Artibus* means as much to us as to you.

We were amused by your article but don't get the point.

Cynic Poll

Should UVM Stay In The Yankee Conference

I don't think we should remain in the Yankon because the other teams are too good for our caliber of playing.

H.G. '56

First, in order to remain in the Yankee Conference, UVM would have to wholeheartedly get into the Conference. I would venture to say that many students don't know who is in that Conference.

Conference competition encourages spirit and competitive rivalry which UVM sorely needs. Definitely UVM should remain in the Conference and the CYNIC can do much to encourage spirit by publicizing "In Bold Type" our competitive standing week by week.

Jack Noe, '56

Of Course. We should play more Yankee Conference teams.

Optimistic

No, we should drop out, since our football arrangements do the greatest good for the fewest and most athletically inclined students. How about promoting soccer which large numbers can play with very little equipment?

Anonymous

When I was a Freshman, Vermont was just building up football, and the students were complaining about the caliber of some of the opposition such as Champlain and Dartmouth B team. When we play better opposition the complaints register again. I think we should play better teams, such as in the Conference. Our baseball and tennis teams do all right, so let's give football a chance.

A disgusted Senior

The overall average was the following:

Should UVM remain in the Yankee Conference?

87.5% YES

12.5% NO

NOTE: The above average is computed on the basis of ballots received and includes answers not published. The object of this series is to mirror student sentiment. Your suggestions and thoughtful response will be greatly appreciated.

THERE WILL BE A GENERAL MEETING FOR ALL MEMBERS OF THE CYNIC STAFF ON MONDAY, NOVEMBER 21 AT 4 P.M. IN THE S. A. COUNCIL ROOM. PLEASE TRY TO ATTEND AND BRING ANY FRIENDS WHO ARE INTERESTED IN WRITING.

Intercollegiate Round-up

By Steve Kanor

....Senior Women at the University of Colorado will be able to stay out as late as they wish this year. "The dean's office believes that senior women are mature enough to be trusted with the new privilege. By the time she is within 30 hours of graduation she is capable enough to be accepting the responsibility of no hours, and such a responsibility is good preparation for the independent life after graduation."

W.S.G.A., are your women mature enough to accept the same "responsibility"?

....From Chapel Hill, N.C. The Independent Woman's Council is trying to improve study conditions in the dorms. Improvements include adequate lighting, desks, chairs and an attractive appearance. The Council's setting up of quiz files will be one of their major tasks!

A similar project is being taken up by a lone pioneer in the UVM Chemistry Department. He is now establishing a file of all his examinations for student reference in future years. Could other examinations find their way to a similar filing system?

....A strange disease has hit the dorms at St. Louis University, where a freshman recently battered the 60-hour record set by two disc jockeys. He played "You're My Everything" for 70 consecutive hours. All roommates of the infected were told to keep "Davy Crockett" records well hidden.

....Redstone, your roads are not unique. Holes are also ruining cars at the University of Chicago. "There are long, narrow holes, round, deep holes; and odd angular holes. Some of these holes are unusual. They protrude above the road level and are called bumps. Whatever their size shape or depth the fact remains that there are still holes..." Perhaps, it is wiser to leave this lane on our campus unpaved, for it does a wonderful job of keeping traffic found on some of the campus superhighways slowed down!

Around the Green

by Rhoda Rosenberg

ALLEN HOUSE

Last Tuesday night, the "Al" girls donned costumes for their Halloween party. Everything making up the various ensembles had to be found in the house so that the babies, tramps, chorus girls, mice, cats, gypsies and red riding hood and her wolf were certainly original. After a delicious supper a number of the girls put on skits; they played games and ended the party with refreshments of cider, apples and cake.

Thursday evening the town girls were honored at an open house held especially for them. Orange nametags for the guests and white for the hostesses were given out so that it wasn't long before everyone felt at home. Punch and donuts were served and a tour of the house was made by all the guests. After everyone was seated and relaxed on the living-room floor, the entertainment was started. First of all Carolyn Paine recited her "first poem", and then Bea Hughes sang a few selections, accompanied by Lola Foster at the piano. Sally Houston as the driver and Bonnie Atkins as the policeman, gave an accurate interpretation of a "woman driver." Lola closed with a fascinating musical bed time story "The Three Bears."

DELTA DELTA DELTA

As is the tradition, Tri-Delta entered into the W.U.S. fund raising drive by having the "Lolly-Pop" booth.

Two Tri-Delts made the finals in the Military Ball Queen Campaign. They were Judy Umpa, a sophomore in the College of Education and Nursing, and Barbara Leggett, a sophomore in the College of Arts and Sciences.

GAMMA PHI BETA

Gamma Phi's annual Pie Party held November 4 was a great success. Many people enjoyed the coffee and pies made by the girls, and music furnished by Sigma Phi Epsilon fraternity. All in all the evening was enjoyed by everyone who attended.

DELTA PSI

The Middlebury Weekend started off with a great movie and jazz party at the Delt Psi house on Friday night. Dr. Marshall, of the UVM Engineering Department, showed an hour's film on shots he had taken at Stowe and other ski areas of the east.

Following the movies, the Delts were entertained by a jazz concert and party for the rest of the evening.

After attending the exchange buffet and party sponsored by the Chi Psi Fraternity of Middlebury, the Delts left for home in great spirit and are looking forward to next year's Middlebury Weekend in which the Delts will be host to the Chi Psis.

The Delts will have Dean Coutts and the Dean of Men from St. Michaels College, Father Duford, at supper on Thursday night, November 10.

SIGMA GAMMA

On Monday, October 31, an invitation and pledging ceremony was held at the chapter house. Initiated was Gwen McGrath, '58, from Wallingford, Vt.. Pledged were Ruth Beals, '57, Westminster Station, Vt.; Marlene Patrick, '57, Jamaica, Vt.; Betty Phelps, '58, St. Albans, Vt.

On November 8 and 9, the girls of Sigma Gamma sold chances for two tickets to the basketball game which will be presented by the Harlem Globe Trotters on November 15.

Sigma Gamma had an exchange desert hour with Acacia on Thursday, Nov. 10. Entertainment was provided following the desert and coffee.

PHI DELTA THETA

Two new pledges have been pledged to Phi Delta Theta on open bids. They are Russ Henrichs from Whitestone, New York and Dick Birdsall from Newton, Mass., both class of '58.

The old pool room in the basement of Phi Delt, redecorated last year as a pledge project by the class of '57, has recently been converted into a television room. It makes a pleasant place to congregate on a rainy Saturday afternoon with football games being one of the major attractions.

KAPPA SIGMA

Extensive repairs have been taking place at the Kappa Sig Main Street Palace for the past two weeks. The old kitchen on the first floor is being converted into a recreation room. The upstairs bathroom and the present kitchen are undergoing major improvements.

Steward Mike Brown has purchased a deep freeze for storing the wild game (duck, deer, and partridge) bagged by the house hunters.

ALPHA EPSILON PHI

On the evening of November 3, the A.O.'s of A.E.Phi extended an open bid to Gayla Schildhaus, '57, of Washington, D. C. After accepting the invitation, Gayla was then serenaded by candlelight. She was officially pledged in the traditional ceremony led by President Leone Bernstein.

On November 10, the AE Phi's were delighted to greet one of their recent alums. Judy Victorsohn, '55 spent the weekend at their new house. She was delighted with its beauty, room, and conveniences.

Rabbi Wall of the O'havi Zedik Congregation in Burlington was a dinner guest of AEPHI on Tuesday, November 8, Rabbi Wall was most enlightening in their informal discussions.

SIGMA PHI EPSILON

This Thursday night the Sig Eps are having an exchange dinner with the Tri Delts. After dinner the Sig Ep Jazz Band will entertain the group. Mr. and Mrs. Donald Hardy are guests for the evening.

Plans are being made for the Sigma Phi Epsilon Christmas Formal which will take place the 9th of December. Art Mason's band will be featured.

The Sig Ep officers for this year are: President, Herb Russell; Vice President, Gary Richardson; Comptroller, Robert Spence; Historian, John Burgess; Secretary, Richard Martin.

The Sig Eps are having a closed fraternity party on Saturday night, November 19. Plans are also in progress for a combined Christmas orphan party on Dec. 10 with the Alpha Delts. This is to correct last week's mistake.

Cloud Seven

Cloud Seven is happy to say that the skies have cleared and Cloud Thirteen has departed with a final retort: that Wendell Eratz has gone back to sports page and has left Myrna Fishkin to Dave (punchy) Heavemore.

Although it is not spring, romance is lingering in the air.

Bill Beebe is now pinned to Kay Fernald of Kappa Alpha Theta.

Jinny Dickson of Coolidge Hall was ringed to Bob Shain of Brookline, Mass.

This past summer wedding bells rang for seven Tri-Delts, six of whom married UVM men. Those who were married include: Shirley Behrens to Bruce Quinby, a Delta Psi; Gerry Feyrer to Dudley Baker, a junior at UVM Medical school; Diane Johnson to Ronald Ward, a Sigma Nu; Peggy McGowan to Peter Louderback, a Sigma Nu; Mickey McKee to Chet Cooke; Jane Morrison to Bill Battles, an SAE; and Marty Young to Peter Morse, a Sigma Nu. Marty, Mickey, Gerry, and Shirley have settled here in Burlington temporarily, while the other three have established homes elsewhere.

Congratulations to Mr. and Mrs. Everett Dargie on their recent marriage. Mr. Dargie is a member of Sigma Phi Epsilon.

Williams To Captain 1956 Grid Squad

All State Guard Team's Choice

by HERBERT BROWN

Leroy Williams is the 1956 captain-elect of the University of Vermont football team. The announcement of his election plus the presentation of 29 freshman numerals was made last Thursday by athletic director and head football coach J. Edward Donnelly following a meeting of the athletic council.

"All State Two Years"

Leroy or "Roy", as the popular junior is called, is a 1955 pound guard who has been one of the stalwarts of the Catamount forward wall for the past two years. His tremendous competitive spirit and hard play have gained him the recognition and respect of all Vermont's opponents. This recognition has included his being named to the first string all state team in both of his varsity seasons. Last year he was the only sophomore on the first squad. In addition to this he was also awarded honorable mention on the Yankee Conference all-star team of 1954 even though UVM only played two games against conference competition. He was also, in his freshman year, elected captain of the undefeated freshman football team.

Active on Campus

Roy, however, has not confined all his attention to football alone, as he is active in many extra-curricular activities on campus. He is a member of Phi Sigma Delta Fraternity and he is their representative to the I.F.C. Roy is also the treasurer of Key and Serpent, the Junior men's honorary society and he is one of the few enrolled in The Advanced Air Force R.O.T.C. Course.

Upon his graduation, the 20-year-old junior, who is in the college of Liberal Arts, majoring in psychology, hopes to enter the field of social welfare.

Awards to 27 Lettermen

Among the 27 varsity letters awarded were eight to seniors, headed by this years captain Eddie Beck. Other seniors also receiving awards were Dick Jannoni, Al McLam, Art Solomon, Ken Kurjiaka, Mike Morse, Bob Gorman, and Stan Talbot. Juniors and sophomores receiving letters are Williams, John Galascione, Lewis Reische, John Shepherd, Richard Dennis, Robert Collins, John Duffy, James Dunn, Paul Harasimowicz, Wendell Gilbert, Ronald Hill, Robert Holenstein, Edward Burke, Martin Johnson, Richard White, George Bossi, Thomas Tierney, Dan Bianca, and the manager Andre Bauvilliers.

Leroy Williams as he appeared in uniform.

Intramural Basketball

Intra-Mural Basketball

On Tuesday November 29, the 1955-56 Intramural basket ball league will begin. The probable league will be.

League A	League B
1 Kappa Sig.	Sig Al Epsilon
2 Phi Delta Theta	Delta Psi
3 Tau Ep Phi	Phi Sig Delta
4 Sig Phi Ep	Sigma Nu
5 Theta Chi	Al Ep Pie
6 Al Tau Omega	Sig Phi
7 Lamda Iota	Acacia

The league will be run in this manner. In the first round each team will play the other six teams in its league. Then the top three teams from each league will form one league, and the winner of this will be the Intra-fraternity champions.

The teams were picked to be placed in each league according to last year's standings. For instance Kappa Sigma came in first, Sigma Alpha Epsilon placed second, so they were placed in opposite leagues. The next four teams, Phi Delta Theta, Tau Epsilon Phi, Phi Sigma Delta, and Delta Psi, had about the same records, so they were split up and put into opposite leagues. The other eight teams were also placed in their respective leagues according to their won and lost record.

Many boys have spoken to Norm Strasburg, who is running the intramural activities, and proposed different plans for placing the teams in leagues. Most of these ideas have been pondered over, and the method that is now being used has proved to be the best.

This year each team will pick a referee not from their own house, to work the first round games. For the second round the fraternities will get together and select those boys whom they feel did a good job in the first round. This seems like a good idea, and with cooperation should prove successful.

During the past few months the basketball rule book has undergone two important changes. The first was widening the foul lanes from six to twelve feet. This move is to try to limit the big man's dominence of the game. The second is that the whole game will be played under the one and one rule. Last year in the last three minutes of the game all fouls were two shot fouls.

The one and one rule is that if a player is not fouled in the act of shooting, or is not intentionally fouled he will be allowed to shoot one foul, and if he makes it he will get another try. If he is fouled intentionally or in the act of shooting he is always awarded two shots.

W. I. S. T. Plans Now Underway

Plans for the Women's Intercollegiate Ski Team started underway last week amidst snow flurries and the view of Mt. Mansfield covered with snow.

Fifteen applicants were present at the first meeting with seven returning from previous experience on the UVM team. The team will be practising at Stowe, Underhill, and the recently developed area at Centennial field.

The team will certainly miss the expert advice of Bob Searles, who has coached the team in the past. A newcomer to the physical education department, Miss Patricia Peterson has been assigned to fill Mr. Searle's position and has already started to condition the team.

The applicants for the team include; Shirley O'Neil '56, Mary Cox '58, Lisa Garris '58, Eleanor Brown '58, Helen Wichowsky '56, Lyn Kocker '58, Jan Bailey '57, Freddie Hill '58, Martha Scott '58, and freshmen Gaylo Mayo and Carol Stickney.

The returning veterans are Helen Wichowsky, Jan Bailey, Shirley O'Nail, Mary Cox, Freddie Hill, Joan Armstrong, and Martha Scott.

Jan "Coach" Bailey who has skied on the varsity for two years is a class A racer who competed in the National and International USEASA races last winter.

Helen Wichowsky who has skied for the team for two years and Mary Cox who skied last year, are both class B racers. Shirley O'Neil, Martha Scott, and Freddie Hill are all class C racers.

The team has already received an invitation to race in the annual Middlebury Winter Carnival competitions, on Thursday and Friday of Kake Walk Weekend, in which they placed second as a team last year.

Does Running Cross - Country Help A Skier

by BENNETT WOLL

Does running Cross-Country help a skier. This question is brought up again when you consider the case of UVM's Olympic hopeful in the ski competition, Larry Damon. Besides being a championship skier, Larry was a top-notch Cross-Country and long distance Track runner and had been a main stay of last year's Varsity teams. To see what the authorities had to say, I spoke to the coaches.

I first saw Archie Post, the mentor of the Cross-Country is one of the best physical conditioners for all sports, as it builds up not only wind, legs, and stamina, but also what he calls "intestinal fortitude." Archie thinks that Cross-Country helped make Larry Damon the skier he is.

I then spoke to Charlie Traverse, the UVM ski coach. He reiterated Coach Post's claims for Cross-Country as a physical conditioner and pointed out that the ski team runs the varsity Cross-Country course as part of its regular daily workout. He said that Cross-Country running definitely aided Larry Damon and may prove to be the deciding factor in his Olympic endeavors.

AFROTC Drill Team In Training

This year's AFROTC Drill Team is under the direction of Cadet Staff Sgt. Max Rothman, and Captain Aldrich of the AFROTC department, is the advisor.

Cadet Rothman has been concentrating on the training of the drill team members who have had previous experience with the organization. These men will eventually serve as drill sergeants for the training of those men who are prospective new members of the Drill Team. There have been regular two hour drill sessions every Tuesday evening.

This year marks the first year that the UVM AFROTC Drill Team has used the manual of arms with the 30 cal. Remington bolt action rifle, and even though this is a new experience for the men, the reports on progress have been excellent.

The team's first engagement this year will be the presentation of the full forty-man team performing in the local Burlington Armistice Day parade; numerous other engagements have been planned for the team in the coming year.

BURLINGTON, VERMONT NOVEMBER 22, 1955

Lane Series Orchestra Gives Fine Concert

By David A. Spector

Last Thursday evening found a packed audience at Memorial Auditorium expecting a fine concert by a fine orchestra. In this they were not disappointed. The London Philharmonia Orchestra has just celebrated its tenth birthday, and in those brief years it has made quite a name for itself in musical circles. Last week we saw why.

Working under the capable baton of Herbert Von Karajan, the group breezed through two light numbers, including the ever popular "Rapdosie Espagnole" by Ravel. After intermission it settled down to really serious work, embodied by Berlioz's "Fantastic Symphony in C Major." This piece, which tells the story of a young musician under the influence of opium who envisions strange scenes connected with himself and his sweetheart, was played with a brilliance and clarity of detail which is seldom exhibited by more sedate orchestras. Of course the symphony, itself, is well suited for this type of treatment as it is full of minute details which should be played for the maximum of effect.

The ever changing accoustical conditions at the Auditorium favored the orchestra too; even the usual clanging of the steam pipes did not join in.

Mr. Karajan had the orchestra under control all the time, and the audience most of the time. Once when the audience started to applaud between movements, Mr. Karajan silenced it with a disdainful wave of his fingers. All in all it was a very excellent performance and UVM was fortunate to be able to hear such talent. Before the program began President Carl Borgmann officially dedicated the George Bishop Lane Artist Series by a little ceremony involving the adopted son of the late Mr. and Mrs. Lane of Cleveland.

Centaur Fall Issue Quickly Taken

The Fall-1955 edition of *CENTAUR*, the campus literary magazine, made its appearance last Friday, though the printing of only one thousand copies was quickly exhausted.

The thirty-six page magazine will be published four times each year; the next editions coming out in January, March, and May.

Editor Joe Jamele promised that a greater number of copies would be printed in the future, and explained that this year's estimate of demand was based on the number of copies taken by students last spring.

Student reaction to the publication was mixed ranging from "this sort of effort is worthwhile and should be encouraged" to "this pseudo-intellectualism is ridiculous, a waste of the Student Association's money, and a satisfaction to nobody except the writers."

Most agreed that the cover design by Anne King was well done and interesting, but opinions as to the relative merits of the stories differed, though George Rood's "Nowhere" caused considerable comment and speculation as to the meaning of the work.

Professor Robert Babcock of the Political Science Department contributed a short essay on "The State and UVM." It placed the position of the school relative to the needs and views of Vermont.

Jan Curran submitted four poems and John Hawkinson had six poems printed.

Debate Tourney Was Successful

The tenth annual Lawrence Debate Tournament came to a successful close here Saturday evening with a banquet. The dinner marked the end of over 375 separate debates on topic "Resolved: that the non-agricultural industries of the United States should guarantee their employees an annual wage."

The six UVM varsity teams finished with a total of 16 wins against 13 losses. The Vermont novice debaters managed to win 14 debates while losing 13. No school went through the tournament undefeated.

Speaking at the closing banquet was President Carl W. Borgmann who extended a welcome to the visitors. Herbert Simons, president of the Lawrence Debate Club made a few remarks on the success of the tournament.

Thanks to Students

Both Dr. Robert B. Huber, chairman of the speech department, and M. Jack Parker, director of debate, expressed their thanks to the many student workers who had made the tournament possible.

Donna Trombly and Susan Wakefield were co-chairmen of the event.

Committee heads were Terry Siegel, Don Greenhouse, Lee Barker, Jean Trudell, Woodrow Hawbrcker, Tom Marx and Leonie Strachan.

Two Teams Absent

Because of bad weather and accidents both the Cornell and Genesee Teachers College were unable to attend the tournament. Last minute changes were made, and with the exception of one or two debates which had to be cancelled, the debates went off smoothly. The tournament began with registration at the Hotel Vermont on Friday at 4:00 and lasted until 6:00. Round one of the debate was held on the campus at 7:00 and was followed at 8:30 by round two. Because many university buildings were used for classes on Saturday morning, some of the debates were held in the Burlington High School.

The Saturday debates were preceeded by a breakfast and business meeting of the Northeastern district of Tau Kappa Alpha, the speech honorary society. Debate rounds were held at 1:30 and 3:30 Saturday afternoon. At 9:00 the coaches and critics had an informal chit-chat hour at the home of Dr. Huber.

JSAB Rules It Has Control Over IFC On Official Rules

Fraternity violation of University social regulations is under the jurisdiction of the Joint Social Activities Board, and this board may initiate action against the fraternities. This is the meaning of a recent motion passed by the JSAB.

For many months, infractions of the social regulations by fraternities have been referred to the Interfraternity Council Social Reports committee for action, subject to approval by the JSAB.

The JSAB is a board made up of faculty and students for the purpose of assuming responsibility for all social events.

Members of the JSAB feel that the misunderstanding over the rights of IFC to enforce all University social regulations has arisen because of the trial drinking program which made University regulations about drinking the responsibility of fraternity officers and members.

The discussion arose out of a case in which inadequate chaperonage had been applied by a fraternity at one of its parties. The caller committee had made a recommendation upon this matter.

Action Clarified

The JSAB made clear its stand by defeating a motion which stated, "That violations of Social Regulations involving fraternities be referred to the IFC social reports committee for action, subject to the approval of JSAB."

The action has caused interest and worry in fraternity circles. Some fraternity members seem to feel that this action may be the beginning of an administration drive to "take over" fraternity parties. In a meeting two weeks ago the Student Association Council voted 13 to 1 with one abstaining, to 1) show its displeasure at the recent defeat of the motion in JSAB proposing that violations by fraternities of University social regulations be referred to the IFC for action, and 2) to voice its displeasure at the procedure used by the JSAB in rendering its decision against the fraternity which had provided inadequate chaperonage.

The Interfraternity Council called a closed meeting last Tuesday after its regular meeting to discuss the ruling and its possible effects upon fraternity functions.

Girls' Dorm Cornerstone Laid In Ceremonies

Last Saturday morning another step was taken in the University's expansion program as the cornerstone of the new women's dormitory was laid. Extensive construction has already begun and the ceremonies merely honored former Dean of Women Mary Jean Simpson, for whom the central unit of the dormitory will be named. While While the Legislature is guaranteeing the bond issue which is financing the new building, cost of the dorm will be met by the University.

Pres. Carl W. Borgmann announced over the weekend other aspects of the long-range development program which is aimed at providing renovation of, and an addition to, the Old Mill, an addition to the Billings Library, a new Medical Building, and a new gymnasium or gymnasium-auditorium combination.

The Public Relations Office has just produced a twenty-four page brochure entitled "The Forward Look of Tradition" which explains the program as it will develop. The title comes from a quote of John Dewey, Class of 1879, who noted that "tradition looks forward as well as backward." This quote is now the theme of the school's program.

The new dormitory will be completed within two years and its construction will enable the University to close its small, off-campus girls' living units.

Plans are not yet complete for the construction of the other buildings outlined in the development program booklet.

Phi Beta Kappa Annual Banquet On Dec. 8

The University of Vermont chapter of Phi Beta Kappa will hold its annual banquet and lecture on Thursday, December 8, in the Waterman Building. Speaker for the lecture at 8 p.m. in the Faculty Lounge will be William T. Hastings, professor emeritus of English at Brown University, and president of the United Chapters of Phi Beta Kappa.

Prof. Hastings will speak on the topic, "Basic Shakespeare, Too?"

His address will follow the banquet which will be held at 6:30 p.m. in the President's Dining Room.

EDITORIAL

A Backward Glance

This semester is more than half finished so perhaps we should glance backward and review it. Actually not much out of the ordinary was accomplished. There were no important issues which have split the campus opinion. The football season was fair, the Military Ball was better, and the George Bishop Lane Artist Series brought to the school the best talent and entertainment in many a year.

As for campus politics we find we still have an apathetic student body, as evidenced by the SA elections of last month. And we still have a SA which, as far as we can see, has not done anything major so far this year.

We do find ourselves with a student court which is getting more and more active. This is good so long as it sticks to trying legitimate cases, and does not try to just get a name for itself and establish itself on campus. So far this year it has taken an active role and proven that students are capable of judging themselves.

We are living in a test period of social change. By moving fraternity and sorority rushing back a few months, it was thought that the incoming class would be better orientated to the campus and would be in a better position to find out just what the situation about rushing is.

At this time it is still too early to comment on the wisdom of such a move, but we are picking up opinions from all sides.

A Forward Glance

Looking forward we are faced in the immediate future with a short vacation, then a round of hour exams, and then a much longer vacation, and in two months we have finals. We also wonder about some answers to pertinent questions.

We wonder about the Inter-Fraternity Council and its relationship to the student body through the CYNIC. We wonder if it should have closed meetings, under the guise of being a private organization, or whether, because of its position of power and esteem on campus, a CYNIC representative should be able to sit in at its general meetings. A mere censored news release does us very little good, and our function is to present the news of the University to the University family. How well we perform our task depends to a great deal on what news is available to us. If the IFC had no effect on anybody except its members that would be one thing, but in reality the scope of the IFC includes much, if not most, of the students' social activities. As such it is legitimate news and should be reported.

Intercollegiate Round-Up

by STEVE KANOR

...A very unique columnist at Springfield College, who escapes the usual blastings bestowed upon those with new ideas remaining anonymous, writes, "I often wonder how students can be handed a degree and sent out to exemplify the Springfield graduate with what little knowledge they have. Have you ever found yourself engaged in a discussion with a student from M.I.T., Vassar, or a western university? Some of the daily conversations carried on in these places are comparable to an exam here. How many of us have read Maugham, Boccaccio or Dostoyevsky? Certain students, and I use the word loosely, are even unfamiliar with Melville, except for a brief skirmish with him in an "illustrated edition." Well, fellow "students," we alone do not lack the intellectualism which the writer describes absent in his college. Ignorance loves company, but intellectualism could also use a few friends. Let's get our latent minds to a little higher level than that which is now accredited to most students. Invade the bookstores, concerts, listen to speakers and other means of intellectual advancement. Or are you contented to graze through UVM without using extra mental efforts?

Beware!

...Graying Coolidgeites and other females nesting on yonder campus, fear not. At the University of Texas, prowlers also roam, but are found to be harmless. About 6:00 p.m., one of the campus dormitories listened to the radio report of a patient's escape from the State Mental hospital, and at the same time one of the girls, dressed in levis, a man's white shirt, with her head wrapped in a bandana, stepped from her second-story room onto the porch roof to dry her freshly washed and rolled hair.

On impulse she ran across the roof and tapped on one of the windows in the opposite wing. The girl who was studying at the desk by the window dropped her book and ran down the hall, screaming "Crazy man"...a cry which soon spread over the entire second floor.

The girl on the roof had just ducked back into her room when the housemother came running. Quieting the hysterical girls, she called the police.

Night found the rooms along the south porch deserted, with girls crowded six deep in the north rooms. That is, all except the girl with her rolled-up hair, and her equally brave roommate. UVM coeds put your coke bottle clubs back in the rack...The prowler may be *your* roommate.

Attention fellow depressives: we do not stand alone. At Albany State Teachers College we find one of our clan composing...

Days are long, boring;
Nights are longer, sleepless.
There is nothing to be
seen felt or heard;
Life is a complete void,
a vaccum.
Then, suddenly, you realize
that
Nothing is wrong:
It's just another slump!

Do Unto Others

...I often wonder whether any campus in the country has as good Monday morning communication system as ours. A good project for sonic engineers would be to discover how sound gets distorted in the amazing pattern it spreads around this campus. Would it be possible for the intellectuals at UVM to converse for a day, or even a few hours without belittling some one they know? Or as one Student at R.P.I. writes:

"When you leave the room, of
course,
Always slam the door,
"Spread your roommates'
secrets that
They told the night before.

Newman Club To Hold Annual Retreat

Highlighting the spiritua calendar for the Newma Club is the annual retre which will be held this ye on Friday, Saturday, an Sunday, December 2,3 and 4. All the exercises will b held in the chapel of Bisho DeGoesbriand Hospital.

Father Felix Talbot, fro Campion Hall, Mass., a we known speaker, will be campus to conduct our retre during that time. A memb of the Society of Jesus, F Talbot has spent a good de of his time in study to pr pare him to instruct and e plain the basis truths of t Catholic faith.

To deepen and intensi Catholic convictions is o of the main purposes of t retreat.

VOL. 73 — UNIVERSITY OF VERMONT AND STATE AGRICULTURAL COLLEGE — NO. 22

BURLINGTON, VERMONT DECEMBER 8, 1955

'layers To Present Molière's 'Le Malade Imaginaire"

· Bob Grimm

This evening, Friday, d Saturday, will see the iversity Players' presen- tion of Jean Moliere's Le Malade Imaginaire " in e Fleming Museum Audi- rium. Marlene Posner, a nior nursing student, will appearing in her last ayers' production when she kes the part of Toinette, e pert little maid. The le lead, Dysorgan, the pochondriac, is played by vid Montague.

Sometimes known as "The ppy Hypochondriac," or The Imaginary Invalid," the ay is a comedy-farce about ctors who have gotten too for their britches and ink they know everything out every illness. Mr. nderslice of the speech de- rtment, who is the director the production, feels that e translation which he is ing, written by George rnodle of the University Arkansas, best retains the ucy, racy flavor of the iginal French. It is to be other theater in the round esentation and since Flem- g Museum Auditorium has a pacity of only 250 all are vised to beat the rush from e Medical School and get eir tickets early. They e on sale in the book ore.

Last Play

The background of the play is interesting and somewhat unusual. Moliere made it a practice to appear in all of his own plays. However, in his later years he developed an annoying cough which often interrupted his speaking parts. Finally the cough became so severe that he decided to write aplay in which it would not seem out of place and began "Le Malade Imaginaire." It opened in Paris on February 10, 1673 with Moliere and his wife playing the leads. During the fourth performance his cough became so violent that he suffered a hemorrhage. He died a few days later on February 17.

The cast of the Players' production also includes Marie Savery, Adelle Mitchell, John Kenney, Larry Tudhope, Gary Wright, George Friedman, Sally Weinstock, Dick Brown and Roger Wakefield.

Christmas Concert To Be Held At Chapel December 11

The annual Christmas concert by the University Choir and University Orchestra will be held in the Ira Allen Chapel Sunday, December 11 at 4 p.m., preceded by a carillon recital at 3:40 p.m. Soloists: Therese Coderre Trahan, Helen Chicoine, Carol Brumbaugh, sopranos; Beatrice Hughes, Carolyn Brumbaugh, altos; George Merritt, Maurice Villemaire, tenors; Francis Weinrich, Nicholas Brown, basses.

Mrs. Trahan is a graduate of U.V.M. who has studied singing since graduation in Boston, in Besancon, France and in Montreal.

Choir director: Howard Bennett. Orchestra conductor: Ippocrates Pappoutsakis. Concert master and violin soloist: Sadah Shuchari Start. Organist: Miriam Natilee Marston. Carillonneur: Francis Weinrich. Pianist: Lorraine Benedict. The program will include carols and selections from Handel's "Messiah " and Bach's "Christmas Oratorio." A Christmas lullaby by Professor Skapski will be given its first American choral performance.

The concert is free and open to the public.

(continued on page two)

To Combine Choir And Orchestra

On December 11, after the Christmas Concert, the Third Annual Round Table Open House will be held in Waterman Building.

The Open House will consist of a buffet-style ham and turkey dinner, professionally catered, with members of the faculty serving the food. The meal will be followed by caroling and entertainment conducive to the program.

Admission to the Open House is by ticket only. The tickets are free and can be obtained at the Waterman Information Office, the Waterman Bookstore, Billing's Library, the Medical School Library, Hills Hall, and the Science Hall Library. No one will be admitted without a ticket.

When asked about the purpose of this Open House, Donald Evans, President of Round Table replied, "It is with the warmest spirit of fellowship that The Round Table is holding their annual Open House at the Waterman Building. Our intentions are to create a family atmosphere for the University Students and Faculty."

res. Election o Be Topic Of Vt. Confab

y Shirley O'Neill

"Why My Candidate Should Yours," will be the topic the 1956 Vermont Conference, announced last week by co- hairmen Edward Kupic and harles Wilkie. The Con- erence, to be held in April, ill provide a forum for key mbers of both the Democratic d Republican parties to ersuade UVM students which y they should vote in the 56 presidential elections. esent plans include possible k elections by the student dy to be held both before d after the Conference, in der to determine the poli- cal leanings of students and y possible changes which ght result because of the nference speakers.

According to co-chairman arlie Wilkie, letters of in- tation have been sent out many of the top figures in th parties, many Congressmen, rious state governors and yors of large cities, top ws writers and commentators, esent and former government ficials and important gures in the business world. e members of the Vermont nference Committee hope to tain three speakers from ch party, with perhaps a ws commentator serving as derator.

This year's Conference is signed to stir up great udent interest, both because the impending presidential ections next November and cause of the fact that many udents will be voting in ese elections for the first me.

Change "Ariel" To Senior Book, To Appear In Spring

The *Ariel* has been changed to a senior yearbook and will appear in the late spring this year instead of the fall as previous editions have done. Because a year has been skipped so to speak, this year's book will contain an activities section covering two years.

Lee McBride has been appointed co-editor with Joe Aidala and according to the faculty advisor, Dean of Men, Alan Coutts, work is now progressing satisfactorily.

"The *Ariel* slogan this year is up-date, and we will have a book that is right up to the minute," Dean Coutts said.

The switch over in types of book came after there had been a lapse in *Ariel* activity. Many of the pictures which would have been in this fall's edition, had it remained a junior book, were not taken last year. It was thus impossible to put out a book this fall. There has been sentiment favoring a senior yearbook at UVM for a long time, and this seemed like the opportune moment for the change.

Inadequate Accounting

The Student Association took over control of the *Ariel* for a recent period when an investigation of the funds for the 1954-55 book revealed inadequate bookkeeping. The Student Association voted to freeze all *Ariel* funds until they were satisfied with the work of the staff. The SA Council has recently voted to unfreeze the funds, thus endorsing the work of the present staff.

John Burgess, Student Association treasurer, was appointed to the job of managing the *Ariel* for the Student Association. When questioned about rumors concerning illegal use of funds on the 1954-55 yearbook he stated, "There is no evidence that money was taken, and on the other hand we have no concrete evidence that money was not taken. There just weren't any adequate books kept."

Same Book

The coming book will be basically the same as last year's in format and theme. The amount of space available for certain activities will necessarily be less, since the book will be approximately the same number of pages, and will have to cover two years. The staff has $11,404 with which to work. However, many pictures were taken last year, and these must be taken over again, so that photography expenses are exceptionally high.

One of the improvements which has been made is in the selecting a staff. At present there are students from all four classes working on the *Ariel*. Out of the Juniors working on this year's book will be chosen the editors for next year. Through this system of promotion based upon proven ability and interest, the *Ariel* editors hope to maintain a high standard for their staff.

"Willing Staff"

Dean Coutts was enthusiastic about the work of this year's staff. He said, "It is wonderful that we have gotten so

(continued on page two)

Brochure Annouces Opening Of Development Program

A 24-page UVM brochure entitled "The Forward Look of Tradition," formally announces the opening of the University's long-range development program which is aimed at providing renovation of and an addition to the Old Mill, an addition for Billings Library, a new Medical Building, and a new gymnasium or gymnasium auditorium.

Work on the first building in the development program, the new women's dormitory, has already begun, and cornerstone ceremonies recently honored former Dean of Women, Mary Jean Simpson, for whom the central unit of the new dormitory will be named. While the Legislature is guaranteeing the bond issue which is financing the new dorm, the cost of the dormitory will be met by the University, and a picture and story on the new building are a feature of the brochure.

The two-color brochure takes its title from a quotation from John Dewey, Class of 1879, who noted that "Tradition looks forward as well as backward," and this quote has been taken as a theme for the program of the University.

In a letter introducing the purpose of the brochure, President Carl W. Borgmann writes "In these pages are presented the University of Vermont's yesterdays, its position in the field of education today, and its dreams for tomorrow.

"We are proud of UVM's past... of those rugged pioneers who hewed a university out of a wilderness. We are grateful for the rich heritage of our traditions... traditions of the pioneering spirit, and of overcoming obstacles to win through to great achievements... traditions of democracy at work, and of an integrity as staunch as the Green Mountains which form the backbone of this state of ours...

"From the seed planted on the College Green in 1791, our university has grown to six colleges. Our academic position is strong. Our greatest handicap is the lack of physical facilities.

"Our aspiration for tomorrow is to overcome these handicaps. We hope to do it in the same bold spirit of faith in which our predecessors laid the foundations for what we have and are today.

"We invite you to read our story and to join us in working toward a greater tomorrow as ' tradition looks forward.' "

Features of the brochure, which will be sent out to University Alumni as well as to many non-Alumni individuals and groups, include a two-page center section depicting an architectural conception of what the UVM campus might look like 25 years from now.

Also featured in the booklet is the 75-member Greater UVM Fund Committee which will take a leading roll as the University begins its drive for the funds necessary to turn the "dream of development into the reality of the next few years.

Chairman of this committee is Charles P. Smith, Jr., of Burlington. Ambassador Warren R. Austin of Burlington is honorary chairman of Alumni Fund Raising. Maurice L. Kelley of Barre is chairman of Alumni Fund Raising, with

(continued on page two)

Hillel

(continued from page three)

and Jerry Seiler, the Oneg Shabbat (social gathering), and panel discussion held on Friday, Nov. 18. This evening's program was sponsored by Alpha Epsilon Pi, Alpha Epsilon Phi, Tau Epsilon Phi, Phi Sigma Delta and some of the Freshmen from the Women's and Men's dormitories. The panel discussion following the services at the Synagogue was on the topic of "Hillel's Position on Campus." Elaine Schneider spoke on its relation to the Freshmen, Steve Kanor on its relation to fraternities, and Gayla Schildhaus on its cultural and educational aspects. More of these Friday evening programs are being planned for the rest of the year.

Hillel this year sent eight delegates to its annual regional institute of thirty New England colleges held at Wrentham, Mass. The institute held as its theme the relation of the Bible to specific problems of today.

A weekly study group is held every Thursday afternoon at four o'clock in the Hillel room on fourth floor Pomeroy. The group is now working from a text called "Bible and Contemporary Thought." All are welcomed to join this group.

Christmas Concert Program

CHRISTMAS CONCERT
by the UNIVERSITY CHOIR AND UNIVERSITY ORCHESTRA
Ira Allen Chapel, Sunday, December 11, 1955 at 4 P.M.

Carillon Recital (3:40 P.M.)	
Organ Prelude: Four Choral Preludes	Dupre
Trio (Violin, Cello, Organ): Wachet auf, ruft uns die Stimme	Bach
Processional Hymn 137: O come, Emmenuel	Traditional
Sentences and Collect	
Response: Lo, how a rose e'er blooming	German, harm. Praetorius
Choral: From heaven above to earth I come	Bach
Air: Take me, Saviour for thine own, from the Epiphany cantata "Sie werden aus Saba alle kommen"	Bach
Carol: There is no rose of such virtue	English, 15th century
Carol: There is no rose	Benjamin Britten, arr. J. Harrison
Carol: Personent hodie	Mediaeval, arr. H. Bennett
Duet: At the cradle	Franck
Quartet: O Bethlehem	Spanish, arr. C. Dickenson
Christmas Lulaby	Adam Skapski
(First choral performance in English, in Rutland, Dec. 8, by the University Choir)	
Carol: Lay down your staves, O shepherds three	J. Duddy
Carol: Go tell it on the mountain	arr. G. Lynn
Glory to God in the highest	Bortniansky

UVM Students To Wear New Army Greens Next Year

UVM students enrolled in the advanced Army ROTC program will be among the first to wear the new Army green uniform, according to Lt. Col. William E. Cox, who learned of plans for the uniform change at a conference for ROTC Professors of Military Science and Tactics held at First Army Headquarters at Governors Island, N.Y.

The new uniforms will be available to Juniors entering the advanced Army ROTC program in the fall of 1956.

Forty-six professors of military science exchange ideas at the two-day conference, and heard Lt. Gen. Thomas W. Herren, First Army Commanding General, stress the importance of the Reserve Officers Training Corps.

"Eighty-eight percent of the officers in the First Army are reservists," he said "and since the beginning of the Korean War, the ROTC program has supplied the bulk of second lieutenants required by the Army."

Breaking down his figures Herren stated that the ROTC program supplies 50 percent of new Regular Army officers and 33 percent come from the U.S. Military Academy at West Point.

The conference anticipated that the Reserve Forces Act of 1955 will mean that an increasing number of college entrants in the next few years will have completed six months active duty for training and will be assigned to a reserve unit. This was defined as no obstacle to participation in the ROTC program.

An ROTC student who is a member of a reserve unit may participate in both activities and be paid for both. When graduates he will receive his reserve commission, a release from his initial reserve unit and incur a new obligation.

Vermont conferees were Col. William B. Moore, Chief of the Vermont Military District, Lt. Col. William E. Cox of the University of Vermont, Col. W. R. Prince of Norwich University and Lt. Col. W. Adcock of Middlebury College.

Lucky Boy

Cadet Airman 1st Class Joseph Martin was designated Airman of the Month by UVM Air Force ROTC for the month of November. Among other awards Cadet Martin was given a jet ride at the Air National Guard Base.

Cadet Martin was selected from more than 350 Cadets in the program for his outstanding achievements both in drill and in scholastics.

Ariel

(continued from page one)

much cooperation from the students. They have been so willing that now we don't need any more help."

The deadline for pictures in this spring's book is March 15. Right after this date the editors of next year's book will begin planning their *Ariel*. As of now the '57 book has only been appropriated $7,000 by the Student Association. This is more than $4,000 less than previous books have had to work with, and Dean Coutts said, "We can't put out a book with that amount." The Student Association may still appropriate more money at any time.

Story of a Year

Long range plans call for a re-arranging so that the book will tell the story of one year at UVM. Dean Coutts said that past yearbooks had put "much too much emphasis on some things." The object is to put out a book which will be in line with the yearbooks that the major colleges now publish.

ANSWER the CYNIC POLL

Brochure

(continued from page one)

Mrs. Lillian R. Proctor serving as vice-chairman. Also serving on the committee are Gov. Joseph B. Johnson and Lt. Gov. Consuelo N. Bailey, both graduates of the University.

Notice

Kay Fernald and Herb Russell have been selected by the Student Marketing Institute of New York to be The American Tobacco Company Representatives on the UVM campus. As Campus Representatives they will be presenting members of the student body with sample packs of LUCKY STRIKE, PALL MALL and FILTER TIP TAREYTON cigarettes throughout the year to acquaint them with the qualities of these products of the American Tobacco Company.

Formals

Debating Poses International Question

By Don Karp

Having debated a team from McGill University in the recent Vermont Invitational Debate Tournament held here at UVM, I was considerably interested in an editorial appearing shortly after the tournament in the *McGill Daily*, the student newspaper of that school. This editorial in general made mention of the wide difference existing between debate as found in the United States and debating as it occurs in Canada and Great Britain; it appeared as follows:

"As in many other things, the Americans approach their debating topics with grim seriousness. Armed with an array of statistics, reports, references and file cards, they attack the same theme the year round and flog it to death.....The purpose of a debate is to entertain as well as to enlighten, and while there is no cause for allowing a debate to degenerate into a vaudeville act, as frequently happens in Britain, the superiority of the Canadian approach lies less in its entertainment value than in its encouragement of flexibility and spontaneity in the manner and treatment of a theme."

Employing Humor

With the contention that a debate is intended to entertain as well as to enlighten, there could be no dispute; for certainly the greatest skill of a debater is to put his issues in an entertaining fashion. This, we believe, is a skill not only enjoyed by the teams of Canada but by able debaters in the United States as well. The fact is, however, that humor as such is not emphasized in American forensics for the very fact that it is not necessarily a part of forensics. Debating, as we envision it, is the winning of the argument at stake and to that end do we devote our greater effort. If with the use of humor we can better attain that abjective, then we employ humor, although we by no means arbitrarily exclude such usage where not absolutely necessary.

Insofar as the first statement which alludes to our great use of evidence is concerned, we believe that it is only too obvious that in order to ever prove anything, some proof must be given to provide substance to what is otherwise no more than an hypothesis. Recognizing, however, that logic is a dominant force in the winning of any cause, we are always mindful of presenting a case both well documented and logical.

Use of Evidence

A final reference to the use of evidence is that many times the fine logic of the debater is in no way equal to the experience of an authority on a particular subject, who knows through experience just which plan will work and which plan will not work. It is, therefore, of no consequence to have a logical plan which will not work; and if only to do away with fruitless bickering, evidence in the form of cold hard facts and statements from recognized authorities on the subject discussed are necessary stimulants to successful debate.

In conclusion, it seems apparent that what is being advocated by the gentlemen from Canada is to us substantially public speaking. What we maintain, however, is that while a good debater should by all means be a good public speaker, a good public speaker is by no means always a good debater.

Apply Danforth Ed. Trust Fund

The Danforth Foundation, an educational trust fund in St. Louis, Missouri, invites applications for the fifth class (1956) of Danforth Graduate Fellows from college senior men and recent graduates who are preparing themselves for a career of college teaching, and are planning to enter graduate school in September, 1956, for their FIRST year of graduate study. The Foundation welcomes applicants from the areas of Natural and Biological Sciences, Social Sciences, Humanities and all fields of specialization to be found in the undergraduate college.

President Borgmann has named Donald C. Gregg as the Liaison Officer to nominate to the Danforth Foundation two or not to exceed three candidates for these fellowships.

Dec. Brings Aspirin, Tinsel, Xmas Formals

The advent of the month of December brings a multitude of thoughts to the minds of Vermont students; sleigh bells and skiing, tinsel and tangerines, aspirin and antifreeze all infiltrate into grey matter of nearly every BMOC and BWOC as Santa's season begins. And of primary concern to many students, whether they be big, medium-sized, or tiny people on campus, are IFC Winter Formals, an annual feature of the pre-Christmas weeks at Vermont.

The majority of formals will be held December 9 this year, although a single group, Alpha Epsilon Phi, had its dance December 2, and most will be preceded by buffets or dinners. Several of the fraternities will serve dinner at their houses; other groups, such as Sigma Phi, which will have dinner at the Olde Boarde, will dine at restaurants.

The dance Friday night is, at some of the houses, only the beginning of a big weekend, for many of the fraternities plan parties for December 10 and teas December 11. Kappa Sigma and Phi Delta Theta are among the groups which are including parties for the children from the orphans' home in their plans

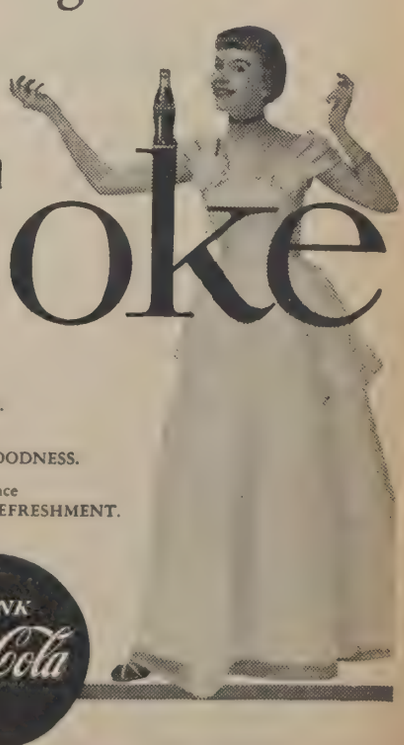
Sunday Brunch Becomes Active Part Of Hillel

The Hillel Organization, under the guidance of Professor Harry Kahn of the German Department and its President Marvin Nierenberg, has led a very active program this semester for its members. With the enthusiastic help given by its new members and its returning ones from last year Hillel has begun to assume fully its position on campus.

A regular feature of Hillel's program has been its Sunday morning brunches held throughout the semester. At the brunches Hillel has been able each week to have a professor from the faculty at UVM to give an informal lecture on some pertinent topic of the day. These talks have been followed by discussion periods on questions raised by the students from the floor. This past Sunday the speaker was Professor Davis of the Sociology Department who spoke on "Recent Civil Liberty's Cases." In the past weeks Hillel has heard Dr. Gregg of the Chemistry Department speak on "Science and Religion" and Dr. Moody of the Zoology Department on "Evolution and Religion."



One of the big events this semester was the student conducted Friday evening services, led by Rudy Keimowitz

Athletic Segregation

It is difficult for the Northern mind to grasp the deep seated hatred which recently made itself manifest in the Sugar Bowl controversy. Governor Marvin Griffin of Georgia, after finding out there would be a negro fullback on the Pittsburg team, asked the Board of Regents to prohibit Georgia Tech from playing in the sporting event. The general feeling is that even if the Board of Regents grants permission for Georgia Tech to play in the game, future "slip-ups" of this type will not be permitted.

It is to the credit of the student body of Georgia Tech that this irrational bigotry is not embraced so strongly. Six times they have marched to the capital and burned Governor Griffin in effigy. The demonstration was too much for the governor who left for a hunting trip after the sixth "body" was destroyed. nearby Mercer College also joined the mass protest, and no doubt the Board of Regents of the State of Georgia is wondering where their charges received these tainted and radical ideas.

The handwriting on the wall must by now be in clear sight of every Southerner. The Supreme Court decision of last year outlawed segregation in schools, and presumably on the school playing fields. It seems to us that a very easy and graceful way to get desegregation started would be in athletic contests.

Vermont, and other schools throughout the country, select players on merit, not on color or race. Leroy Williams won the captaincy of the Catamounts on consideration of skill and ability, not color.

It seems the Southern student bodies are willing to follow our sterling example, but are burdened by their so-called educators who are interested in maintaining an out-moded and illegal system.

The eyes of the nation are turned on the Sugar Bowl as never before, and it will be up to the interested parties to prove that the full spirit of the Constitution is at last triumphant over the forces of ignorance and bigotry. The outcome of the game will be dwarfted by the significance of the outcome of the grimmer sociological battle that is being fought.

Players

The University Players are going to present their feature production of the semester on December 8-9-10 so that no matter how many fraternity parties are planned, you will be able to attend one showing. This careful planning has a purpose; the group wishes to make a profit so they may add to their growing fund for a cherished dream - an arena type theatre. This is, through necessity, a long range program, and it has been interesting to watch it grow through the years. Their production this time is "The Happy Hypocondriac" Moliere's rollicking comedy which most of us are familiar with. By attending a performance you will be assured of an entertaining evening, and will have aided a worthwhile project.

Letter to the editor

To the Editor of the VERMONT CYNIC:

I have been following your recent series concerning the place of UVM in the Yankee Conference. As an alumnus might I state that Vermont's status in Yankon (pretty sounding, isn't it?) doesn't particularly excite me. However, I do find of interest the emphasis placed on the alledged purity which envelops the ever-fair Green and Gold with a shroud of holier-than-thou protection.

I, for one, am dubious about the state of virginity proclaimed loud and long in the ivy-covered (must be white ivy) halls of UVM.

In particular, might your attention be called to the Alumni Memorial Scholarships. These are awards granted almost exclusively to those men who are to represent Vermont on the field of battle. Believe me this is not the Battle of the Books (or come to think of it, maybe it really is.)

Now, I am not debating the validity of awarding such "scholarships." But let's call a spade a spade. For one year, through the efforts of Donald Forst (CYNIC editor, 1953-54) the University acknowledged the true intent of the Alumni Memorial Scholarships. This they accomplished by including in the Bulletin of the Univer-

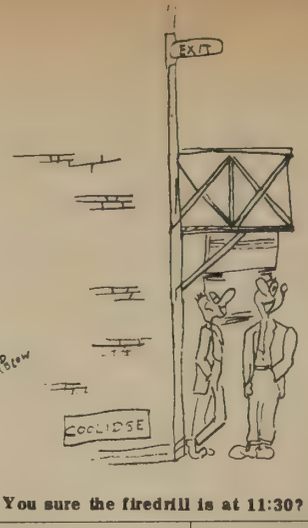
(continued on page six)

In Defense Of Derangement

An Introduction to the Poetry of J. Croachard Roach

by Gary Wright

A critical approach to J. Croachard Roach is no simple undertaking. He is kept constantly on the run by his creditors and is consequently a very hard man to reach. We can, however, make a careful study of his poetry, and perhaps arrive at some conclusion all together and in gay spirits.



In this introduction to Roach's poetry, the critic will trace the development of his philosophy from his use of blunt pencil, through leaky pen, to finally his pathetic use of a Japanese typewriter.

Let us consider a very early poem, the original of which was written on the inside of a match folder in carpenter's pencil.

TWINK
Twinkle, twinkle, little star,
Where in space do you think
you are?
Way up in the sky so low,
You're a better man than I am,
Old Black Joe.

This poem shows a startling awareness. In the opening line the poet introduces a novel concept; stars twinkle. To some, this may sound a bit trite, but let us remember this was written when the poet was only four. In the second line he asks a question that man has pondered for ages. The line also intimates that stars themselves don't know where they are. Roach continues this brilliant idea in the third line with an interesting paradox; up in the sky so low. This may have a shattering effect on

(continued on page six)

You sure the firedrill is at 11:30?

Confucius Says

This is the first of a series on the Cynic's Modern Confucious, and his observations on campus life. Sorry, we don't know who he is either. editor.

Confucius, as you lie muted in your ancient grave, please excuse this writer for abusing your scholarly name. But one cannot set down his feelings at this University without threatening words from those with whom I hold mild differences of opinion. Ancient philosopher, my remaining anonymous is not a novelty, as crusaders of other colleges have also written incognito.

The observations I set down could be those of a professor, or a grad student, perhaps, a Freshman's. Your guess as to the author is as good as the fellow sitting next to you, and he might even be the author. To help your curious minds discover the true writer, certain clues will be included each week, and this week let me conclude the introduction with the male sex writing.....

Last week Confucius, while looking for a seat in the over-crowded student lounge, observed the friendliness of one important campus personality. He is one of the few members of the faculty with sleeves always rolled up, a person able to greet many students by first name, one who does a smooth job of transforming red tape into black and white, and a best friend to all campus organizations. Don Hardy has not yet received the praise that we students should tribute to him. The more work and effort he puts into his job the less credit he receives. Don, on behalf of the students who have not any other way to express their appreciation, I say simply, thank you for your wonderful help.

Next, Confucius, wishing to remain awake in anticipation of a dull lecture and they are now as abundant as the stimulating ones, felt a need for UVM coffee. After the first muddy cup, he understood why, in China, tea is the national drink!

The freezing Confucius was made even more uncomfortable today when one blue-stickered auto narrowly missed one of his friends crossing the Waterman fountain path. White lines with people between them mean pedestrian crossing, and not the extrance to the highway. Will the driver of a blue, four-door vehicle please wear lighter shoes when driving?

(continued on page six)

Intercollegiate Round-up

By Steve Kanor

A fraternity at RPI was served its dinner meal by a professor of their choice! But to be eligible for such high class service, they had to donate the largest amount of money per capita to the Campus Chest. The 77 members of the winning house turned in $7.61 per man. Second place honors were a close $7.31 by a house who had chosen the same professor to serve them. Has any group on our campus given one-tenth of that sum per member? Our fund raising

(continued on page six)

Cynic Poll

Should UVM Increase Its Enrollment or Remain Its Present Size?

I think that the student body should remain the same size. Our facilities are limited as to funds and an increased total volume of income created by an increased number of students would not substantially cure our financial woes. Anyway the main reason why I like UVM is that I have many friends who aren't just "nodding acquaintances.

It should remain at its present size. The facilities of the University and also of the town couldn't be taxed to any further extent.

By all means, increase MALE enrollment.

It should remain its present size because the atmosphere is more friendly and you can get to know more people.

How can UVM increase its enrollment when it hasn't got the housing facilities? They can't because the new girls' dorm won't be finished for quite a while, and I am sure the school won't let Freshman men live outside of the dorms, and women will never be allowed to have apartments.

It's big enough now.

. . . . . .

The overall average was the following:

Should UVM Increase Its Enrollment or Remain Its Present Size?	
Increase Enrollment	41.6
Remain the same size	58.4
	100

Note: The above average is computed on the basis of ballots received and includes answers not published. The object of this series is to mirror student sentiment. Your suggestions and thoughtful response will be greatly appreciated.

Around the Green

by Rhoda Rosenberg

EAST HALL

A coat and tie open house was held on Sunday, November 20 from 2 to 5 P.M. This had been announced by the house social chairman. Jeanette Rubenstein. The affair was highlighted by the music of the Kappa Sigma Jazz Combo which consists of five pieces, guided tours through the rooms, and refreshments. The following people were the chairmen for the affair: Barbara Greig and Barbara Lager '58, refreshments; Barbara Berke '56, invitations; Patricia Cyr '59, clean-up; Lynda Shaw '57, entertainment; Joan Armstrong '57, publicity and Patricia Fee '58, Posters. It was a tremendous success.

ALPHA CHI OMEGA

Alpha Chi Omega is very proud to announce the initiation of six new sisters. They are: Carol Sunderland '56 from St. Albans; Eleanor Morrissette '57, Schenectady, N. Y.; Judy Newton '58, Burlington; Barbara Wood '58, Schenectady, N. Y.; Sandra Gerken '57, West Hempstead, Long Island; and Fay Weston '57 from Burlington. Congratulations! Following the initiation ceremonies, a banquet was held at the Olde Board.

Gail Henion and Ann Harman received the Carnation Girl award for November for their splendid work on Alpha Chi's winning Homecoming poster.

Last Wednesday night the Alpha Chi's had an exchange dinner with SAE.

ALPHA EPSILON PHI

Saturday night November 19, the AEPhis turned the calendar back about thirty years to set the scene for a gay "Roaring Twenties" party. The house was transformed to produce the atmosphere of the Flapper Era with a Speakeasy, Dance Hall, and guys and gals adorned in short skirts and knickers. The entertainment of the evening included an authentic Black Bottom and a skit contrasting the social plights of today's coeds and those of the bygone twenties. Chaperones for the evening were Dr. and Mrs. Schein, Mr. and Mrs. Simon, Mr. and Mrs. Potash, and AEPhi's housemother, Mrs. Robinson.

Wednesday, November 16, the AEPhis had an exchange dinner with the AEPis.

Other dinner guests last week were Mr. and Mrs. H. Kahn and Father Mulligan.

ALPHA EPSILON PI

AEPi's Social Chairman, George Friedman has announced that on Saturday evening, Nov. 19, a "New Year's Eve" party was held, complete with decorations, costumes and all the rest. It was a great night.

On Wednesday evening, Nov. 2, Fred Kupperman and Joe Richter became pledges at a brief ceremony held at the house.

ALPHA TAU OMEGA

On November 15 Dean Coutts was guest of honor at a banquet at the ATO house on Williams Street. Other faculty members present were Mr. Daggett and Mr. Parker of the French department. This occasion gave the members of the UVM chapter a chance to become formally acquainted with one of their "Brothers" from the west. Brother Coutts was an ATO at Oregon State, his alma mater.

GAMMA PHI BETA

Beta Nu Chapter of Gamma Phi Beta pledged Beverly Barker '57, Post Mills, Vermont, on Tuesday, November 8, in a short afternoon ceremony. Dinner followed pledging.

Gamma Phi Beta celebrated Founders Day on Monday, November 7, with an informal get together of alums and actives. Coffee and cake were served and Mrs. Christine Frost, housemother, poured. A short ceremony in commemoration of the four founders followed. Gamma Phi was founded on November 11, 1874.

KAPPA SIGMA

Last Tuesday night, the K-Sigs held a farewell party in honor of a friend of the fraternity and a friend and servant of the university, Mr. Robert Searles. Members of the fraternity, athletic department, and old friends gathered to reminisce and wish Bob the best of luck in his new assignment. A small token of appreciation was presented to Bob for the many favors he rendered the fraternity.

At ceremonies held Monday night the following were admitted into the fraternity of Kappa Sigma; Arthur "Skep" Burkhardt, of Rutherford, New Jersey, Bud Dacey of St. Albans, Harry Holland of East Corinth, Dick White of Watertown, Mass., and William Trabold of Brooklyn, U.S.A..

Jack Lafave and Peter Allendorf are making plans for the coming Christmas Party for the under privileged children. Other coming events which are keeping the Kappa Sigs busy are the Governor's tea, at which Governor Johnson will be the honored guest, the Christmas formal, and the much warranted testimonial to our good friend, Shorty Cote.

Daniel DeWolfe has been elected as treasurer succeeding the retiring Paul Dunham.

LAMBDA IOTA

The Owls recently held their annual "Garbage Collectors' Cotillion" which featured skits and other entertainment, climaxed by the coronation of the "Sweetheart of the Garbage Collectors." The Owl house was transformed into a veritable garbageman's paradise, complete with ashcan covers and sundry potpurri symbolic of the profession.

Social Chairman Ed Crane was in charge of the recent Exchange Dinner with Alpha Delta Pi sorority. Walt Knorr, Yonkers, New York, is the chairman of the Lambda Iota Christmas Formal weekend committee. John Geisler '57, Plainfield, New Jersey, is leader. of the Orphan's Party Committee. Dave Depatie '56, Enosburg Falls, was elected member of the Board of Governors.

PHI SIGMA DELTA

This past weekend Phi Sig held an informal party which was ably chaperoned by Mr. Romey and Mr. and Mrs. Steele. The hit of the evening was a comedy skit presented by the Phi Sigma Delta players under the direction of Don Greenhouse, '57.

Recently pledged was Bruce Brodsky class of 1958 from New Haven, Conn.

PI BETA PHI

Pi Beta Phi held their annual Settlement School Sale last Tuesday November 15. Home made food and clothing was sold and there was a white elephant sale. The money goes to the Pi Phi settlement school in Gatlinburg Tenn.

SIGMA PHI EPSILON

The "Sig Eps" are holding their Christmas formal at their house, December 9. Mr. and Mrs. J. Trevithick and Mr. and Mrs. G. Goss are guests for the evening. A cocktail party and a lobster dinner will preceed the formal. Everyone is acting mysterious about the favor for the evening. It will be a surprise to all the girls.

A Christmas tree will set off the motif for the party and Art Mason's Band will provide music from nine to ten o'clock.

Plans are being made for a party Saturday night, December 10.

TAU EPSILON PHI

At brothering up ceremony recently, nine brothers were admitted into the portals of Tau Epsilon Phi. The new brothers are: Martin Danoff, Peter Rubinton, Art Tauber, Bob Corshen, Dick Shatten, Steve Ifshin, Peter Lallos, Ray Reisberg, and Jim Posner.

During the intermission of the TEP Twin Party, a skit entitled, "Animalism versus Intellectualism was presented. Those taking part in the skit were Mike Princer, Bill Ackerman, Ted Zeitlin, Paul Vogel, Bob Levine, Dick Rosen, Wally Seigel, Jay Julius, Stan Sakowitz, Mark Bernstein and Jerry Kobre. A skit in rhyme written by Bunny Grossman and Jeanette Rubenstein was also presented during the intermission.

THETA CHI

Guy Holt and Herm Cumming are new brothers, following the recent initiation.

Some of the seniors on campus will remember Bob Barker '53 who, after serving two years in the army as a second lieutenant, has returned to UVM to take the courses which will admit him to dental school. Bob and his wife, the former Jean Spear, a Pi Phi, are living in the UVM trailer camp.

A buffet supper is scheduled to preceed the Christmas Formal on December 9. The highlight of the weekend will be the informal Christmas party on Saturday evening.

Cloud Seven

Whoever said, "In the spring a young man's fancy turns to thoughts of love" would certainly be wrong on the UVM campus! No matter what the season, Cupid is busy around the green.

Our congratulations to Phi Sig Charlie Feder '57, of Jersey City, New Jersey, and Darlene De Sedle '58, of Manhattan, on their recent pinning. Also in line for congratulations are Guy Holt, a Theta Chi, and Dottie Herlinger '57 Tri Delt.

Our belated congratulations to Lorelei Palmer, Gamma Phi '58 and Donald Kjelleren, Norwich '53 on their pinning. Don is a Sigma Nu alum.

Irving Morton '56 Lambda Iota, pinned Anna Massey '59. One of Irv's fraternity brothers went one step further - - Dick Young '58, from Burlington, was recently married to Joan Rulison '55, of Miami, Florida.

Lesly Asnis, an AEPhi, '58 from Union, New Jersey was pinned by Max Rothman, a TEP, '57 from Burlington, Vermont.

Engaged is Pi Phi Joyce McQuilkin, '58, to Jim Dawson of Montreal, Quebec.

Acacia men have been following tradition in the courtship department and since last June, they have done quite well.

In the wedding department, Helen Minier of West Orange, N. J., was married to T. Wayne Clark '56, of East Montpelier, on August 6 in Sparta, N. J.

Later in August, on the 20th, Mal Humter '56 from Millerton, N. Y. and Jean Mills, of Paterson, N. J. were married at Ridgewood, N. J. They're living in town and back at the scholastic grind.

Frank Carr '56 of Kew Gardens, L. I. gave an engagement ring to Marlene Goodenough, East Hartford, Conn. on October 30.

Sandy Phippen, '58, a Gamma Phi from Wenham, Mass. is wearing an Acacia pin belonging to Don Klein, '57 from Stratford, Conn.

Serena Sexauer '57, from Mamaroneck, N. Y. is pinned to Roger Wakefield, '56, an SAE from Burlington.

Vaughn Soule, '56, from West Hartford, Conn is pinned to Dave Olivet, '57, a Theta Chi from Poughkeepsie, N. Y.

The Lambda Iotas extend their heartiest congratulations to brother Jim Thompson and his wife Mary, who are the proud parents of a daughter, Beth.

Wally Seigel '57 T.E. Phi pinned Judy Arnstein '58

Letter

(continued from page four)

sity a statement to the effect that one of the prerequisites for receipt was intercollegiate athletic prowess.

It might have been a tough pill to swallow for the Alumni Council committee which delegated the recipients, but there it was in black and white, plain and clear for everyone to see.

All through last year the wording remained in the Bulletin. But take a look at this year's announcement. It's right back where we started two years ago. In print, UVM is in the clear. Not a scholarship can be found which might be construed as an athletic scholarship. But down someplace in the muck which surrounds the meetings of "a committee of the Alumni Council" UVM's virginity is torn to pieces.

Let's either admit that the Alumni Memorial Scholarships are athletic grants (I use the word "grants" intentionally, for in its long history "scholarship" seems to have lost its true meaning, or let's do something more drastic--like making the Alumni Memorial Scholarships available to all who are qualified under its stated description, i.e.-all male students.

But forget about your claims at "purity." No doubt other Yankee Conference schools are subsidizing on a larger scale than Vermont, but that does not make UVM less guilty.

I'll be anxiously awaiting the next edition of the University Bulletin. It has never ceased to cause me to wonder at the fantastic game of politics played on the first floor of Waterman Building.

I. Bradley Gordon, '55

Confucius

(continued from page four)

Young Freshmen, you will not all (unfortunately?) become members of an organized group after inter-semester impressing. Worry not, fret not, and do not transfer because of not being accepted by the rulers of our campus. Although some of the finest people at UVM are encompassed by Greek, you will find equally as fine in Gamma Delta Iota (independents). Confucius has asked the controlling ones "to help in some way to unify UVM..."It is, perhaps, the fraternal organizations at UVM which prevent the campus, and the class bodies of the University from becoming a single spirit. I therefore, challenge you, to make an attempt to gather the class organizations present in our pre-rushing days, into the same group with which we started our years. Yet, you will not try to attempt this, for it will mean subordination of fraternal power.

Don Hardy, thank you. Professors, perhaps, you could call on the pep committee to rejuvinate your lectures. Mud swallowers..Strike! Drivers of blue, blue-stickered cars, live and let live.

Defense

(continued from page four)

the careless reader, but one must learn to keep an open mind. In the final concluding masterpiece, Roach delightfully paraphrases Kipling's stirring cry,

"You're a better dog than I am, Rin Tin Tin."

This demonstrates beyond a doubt the influence from Kipling, Doctor Cathartic and old war movies.

The poem was used practically verbatim in a popular song, and though Roach received no royalties, he is recognized as having copied it.

In a second poem, written in ink on a piece of bathtub, we cannot help but notice the increasing deftness.

I LOVE YOU TOO
Antony and Cleo on the Nile.
Cleo said, "You row a while.
Blast you, Tony. Pick up an oar!
My cotton pickin' hands are sore."

The poet has shown here the true spirit of love. By his choice of subjects, he indicates the subtle influence of the great dramatist, William Marlow Bacon. It was this poem that nominated Roach for the title of "The Greatest.."

The last two poems show him at his height, his art fully realized. They are undoubtedly the greatest written reflections of the American scene.

THAR SHE BLOWS
Little Bo Peep, don't blow the horn.
The wold is at Grandma's. I could have sworn
He raced and beat the Three Little Pigs
While you carelessly, casually, counted Migs.

"A gem," says Kingsley.

OOPS
Mary, Mary, don't be contrary.
Come with me for a drive.
"The guys aren't back who tried that, Jack.
And some aren't even alive!"

Admittedly, J. Croachard Roach is the greatest living.

Round-up

(continued from page four)

activities are just as worthwhile as those at RPI, but we have not been as generous with our tightly held money. Sheltered ones, get out and give next time! (P.S. Who won the bean counting contest in the WUS fund raising campaign and how many beans were in the jar?)

....And in the Connecticut Daily Campus, WANTED: Date for Homecoming - must be attractive. Call "Starchie" 436. WANTED: 3 good looking women for Saturday night date by three good looking young men. Call Room 416....Weekend wallflowers, here is your big chance...

.....In many college papers the beverage problem is seen splashed proudly across different pages. In a letter to the editor, "Recreation is an important part of the student life at Hunter. And so we find convenient facilities for those who indulge in smoking, card playing and coeds 'socializing.' There are those whose enjoyment lies in other diversions. Not only pleasure, but intelectual stimulation, may be found in sweetly tinkling glasses of certain exotic beverages, other than tea or coffee. Will anyone second the motion for a cocktail lounge? (Other than a certain lovable professor downtown.)" -- Whew!! Even Joseph Aldrich was given space for his philosophy of alcohol.

"If all be true that I do think,
There are five reasons why we should drink:
Good friends, good wine, or being dry,
Or lest we should be, by and by.....
Or any other reason why."

....Fellow students, do you think a system of honor possible here? Providence, R.I. "The faculty of Brown University recently concurred in a vote to institute a student administered Honor Code. This system will especially include unproctored examinations..." Could we at the University of Vermont be trusted under a system of honor? Probably not! I repeat, probably we could not!

....Somewhere on the campus of Blackburn College there must be a misogynous chem. major, as noted in this analysis of the average female: Each gal contains enough chlorine to sanatize five swimming pools, oxygen enough to fill 1400 cubic feet; 30 teaspoons of salt, enough to season 25 chickens; ten gallons of water; five pounds of lime, enough to whitewash a chicken coop; 31 pounds of carbon, enough to detonize a heavy Navy shell; enough glutin to make five pounds of glue; magnesium enough for ten flashlight photos; fat enough for ten bars of soap; iron for a six-penny nail; and enough sulphur to rid a dog of fleas.

Mural Mirror

(continued from page eight)

in the game, Harasimowicz, Russ Henrichs who scored 10 points, and Fred True who scored 9, dominated both backboards through out the game. Phi Delt virtually sewed up the contest in the first half, as they led 21-6.

On Wed. in one of the most exciting games so far, Tau Epsilon Phi eeked out a win over Alpha Tau Omega 31-29. It was an up hill climb all the way for ATO, and only time kept them from surging ahead and winning. At the half they were behind 21-7, but sparked by Dick Smith with 10, Reilly, and Hempel with 6, ATO rallied to out score TEP in the second 22-10, only to fall short by 2 points. Dick Schatten with 9 points was high scorer for TEP.

In a real thriller except for the last few minutes of the second half, Phi Sigma Delta beat Sigma Phi 32-20. It was a nip and tuck all the way, until Ron Grossman put on a one man show, and scored 12 points. Six of them in a row. The unusual thing about his performance was that these 12 points were scored in the second half only. Dave Klein chipped in with 10, while Howard and Shannon scored 8, and 6 for the losers.

Following the Phi Sig game, Sig Phi Ep took on Theta Chi. Sig Ep won 41-28. The first half was a close affair with Sig Ep only leading by 3 points 24-21. However in the second half Sig Ep with Knapp leading the way out scored Theta Chi 17-7, and won 41-28. Hugh Bemis with 8 points, and Joe Tatro with 7 were high scorers along with Knapp. Henry Scriever was high man for Theta Chi with 14.

If the first week of play is any indication as to how the rest of the games will go, this league promises to be a good one. As it looks now almost any team can come up with the win. This reporter would not be surprised to see the first round winners in each league lose one or two games.

Appellate Court Overrules Decision Of Student Court

The Joint Appellate Court, composed of members of the University Council and the Student Court, recently unanimously reversed a decision of the Student Court by finding a male Freshman student guilty of a breach of academic honesty.

The case concerned the use of various materials in an English term paper which had been copied from an encyclopedia article and used without due authorization. The student, in spite of repeated warnings and instructions to the class by the teacher, allegedly used proper footnotes but did not place quotation marks around the verbatim material. He was sentenced by the University Council to receive a zero for the term paper and write another one, for which credit will be given.

The University Council, in reversing the not guilty finding of the Student Court, implicitly broadened the former narrow definition of plagiarism as contained in Article One, Section Five, paragraph three of the Student Regulations. Henceforth the Student Court will be empowered to differentiate between cases involving mere improper procedure and those involving more serious breaches of the clause on academic honesty.

Richard Hooker serves as Chief Justice of the Student Court. Associate Justices include Shirley Campbell, Edward Howard, Gordon Gilman, Richard Martin, Virginia Rossi, Margaret Rotanelli, Martin Siegeo, Constance Suhr, and John Trowbridge. The Court recorder is Rita Wincukiewicz. David O'Brien is prosecuting attorney, and Charles Wilkie assistant prosecuting attorney, while Lawrence Klein and John Burgess serve as defense and assistant defense attorneys, respectively.

News Of Faculty And Staff
Prepared By The Public Relations Office

NEW STATUE IN FLEMING MUSEUM

The Fleming Museum recently acquired by purchase a 20-inch high statue of St. James of Compostela, a Flemish carving in oak which dates from the 15th century. last year the Museum acquired a Spanish Romanesque Nativity relief in polychromed wood, and three lead plaques in the early Gothic style. The new purchase makes it possible for students to see good examples of all three major medieval styles.

In addition, a T'ang mirror, a Han mirror of the "TLV" type, and a Chou dagger have been added to the Museum's collection to improve its representation of early Chinese culture. All these new aquisitions are currently on view in the Marble Court.

• • • • • • • • • • •

MODERN DANCE CLASS

A class in modern dancing made its debut last Thursday morning at the Fleming Museum. Under the direction of Mrs. Morrison Haviland, this dance group will deal only with the fundamentals of modern dancing, and will not include interpretive or creative work. At the first session, the eight persons attending learned a folk dance, and other forms of the dance will be taken up in succeeding weeks.

"If anyone wants to learn the Samba, Mombo, Rhumba or other dances of this type, I will be glad to give instruction," Mrs. Haviland explained.

The group will meet each Thursday morning at 10:15 at the Fleming Museum, and classes will run for one hour. The classes are open to all and there is no fee charged for attending.

"We are building a fund so that we can bring a modern dance group to Burlington for a recital," Mrs. Haviland continued, "so those who wish may donate fifty cents to our fund. Our classes are very informal and no special costumes are necessary - just comfortable clothes that a person doesn't care too much

FACULTY BASKETBALL

A series of basketball games has been organized for members of the faculty and staff, to take place on Tuesday evenings at 7:30 in the Southwick Auditorium.

In commenting on the program, Don Hardy remarked that "we organized the basketball games to give the faculty a chance for some exercise, or simply a get-together with other members. You don't have to be an expert to play in our league."

Members of faculty and staff who are interested in joining the group may show up at Southwick on Tuesdays, or if further information on the program is desired, it may be obtained from Mr. Hardy, COSA's Office, Extension 346.

Faculty Notes

Eight members of the College of Medicine presented papers at the Clinical Sessions of the American Medical Association, which were held in Boston last week.

Dr. Donald Miller and Dr. Robert J. McKay, Jr., presented a study on "Empyema in Infants and Children," an exhibit which had prominence at the American College of Surgeons meetings in Chicago a month ago. Dr. A. Bradley Soule, Jr., and Dr. Joseph C. Foley read a paper which dealt with "Kerosene Poisoning in children." Dr. Eugene Lepeschkin, in collaboration with Dr. Borys Surawicz and Miss Yvonne Starczewska, displayed an "Exhibit on the U Wave of Electrocardiography."

If holders of season tickets to the George Bishop Lane Artists Series find that their tickets will not be used for a particular attraction, it would be appreciated if they would notify Don Hardy at the COSA's Office, Extension 346.

In the same token, if anyone is in need of a ticket to a specific concert, Mr. Hardy will try to secure one.

At the recent annual meeting of the New England Speech Association in Boston, Eleanor M. Luse served as chairman of a panel discussion "Providing Speech and Hearing Services," and Robert Huber lead a discussion on "Coaching and Judging Non-Debate Forensic Activities."

Other members of the Speech Department who attended the meeting were William J. Lewis, Greg Falls, Jack Parker, Ralph Vanderslice and Richard Oppfelt.

• • • • • • • • • • •

Clinton C. Cook has received a grant of $16,200 from the National Science Foundation for research of hindered phenols which are compounds used to keep fats and oils from oxidation and are found in certain brands of "stabilized" lard in today's market. Assisting him in this research are Edwin C. English, John Eberwein and two undergraduates, Bruce Norcross and John Lounsbury.

• • • • • • • • • • •

Albert D. Crowell spoke on "The Physics of Very Low Temperature" last week at a meeting of Sigma Xi in the Home Economics Auditorium.

• • • • • • • • • • •

Dr. E.A.H. Sims read a paper on "Renal Function Throughout Pregnancy in the Normal Woman." In compiling the data for this paper, Dr. Sims worked with Dr. Kermit Krantz, who is now assistant professor of obstetrics and gynecology at the University of Arkansas Medical School.

• • • • • • • • • • •

Dorothy Brownfield recently gave a talk at a meeting of University House Mothers in Southwick Hall. Speaking before about thirty UVM Resident House Mothers, Mrs. Brownfield discussed "The Needs of the Young College Age Adult."

• • • • • • • • • • •

Alan Gowans is the author of an article, "The Baroque Revival in Quebec," which appears in the last issue of the Journal of the Society of Architectural Historians. The study deals with the conception of St. James Cathedral in Montreal and its influence on church-building in Quebec from 1850 to 1890.

Dean George A. Wolf, Jr., addressed the UVM College of Medicine Alumni at a reunion dinner in Boston last Thursday.

Did You Know?

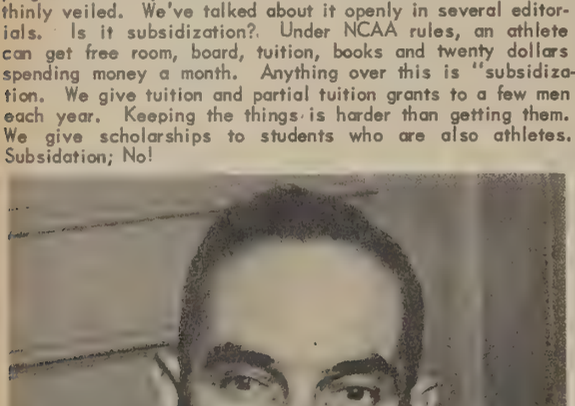
. . . .That President James Marsh in the 1840's voted in Faculty meeting not to let UVM boys stay at public houses except with the president's permission, and with no tavern keeper unless he would promise not to sell them wine or spirits?

Shorty Cote To Be Honored Wed. Night

As I See It

BY Ed Willard

We've all seen the little guy that runs out on the field during the time outs to administer a vigorous dripping sponge to the face of a tired out athlete. Those of us who have submitted to the ordeals of Physical Education in our first two years here also know him as the shrill voice yelling "Pick up your towels, boys." Few of us know much more about him except that pictured being held up by the seat of his pants by large Paul Harasimowicz, he looks like an awful little person.



BUT; BIG THINGS COME IN SMALL PACKAGES!

They sure do! Here is a guy with the biggest heart in the world. He's an institution here at Vermont. We wonder how many days since he has worked here he's done as few as eight hours of work. How many times has he put in much more than that number, doing the work that in most schools is done by several men. He's a trainer! You bet. He's taken courses in treating physical injuries which make him a skillful treater of athletic injuries. We'll bet he tapes 20 ankles a day during the football season. He's in charge of the school's athletic equipment too. There's a lot of it to keep track of, have cleaned, and in good shape. We could go on with this stuff all day but we won't. These aren't his biggest values.

This guy is a perfect picture of that intangible called school spirit! Remember the Rhode Island game when this 140 pound charge of energy tried to take on a 220 pound Rhode Island lineman who was trying to rough up one of "his boys." If you haven't seen him you've undoubtedly heard him at any UVM athletic event you've ever attended. On basketball road trips where there very often aren't many UVM adherents to keep up our team's spirits, this guy is a whole cheering section.

He gives all he has. Anyone who has ever had much contact with him respects and admires him. Our Varsity Club is sponsoring a night for him. LYMAN "SHORTY" COTE is a great UVM institution. How about everyone wearing a tag for "SHORTY COTE NIGHT."

Ex Cynic Editor Brad Gordon has graced us with a letter blasting the Memorial Scholarship program. With customary "Gordonian Gusto" he has damned the Memorial Scholarship program a thinly veiled subsidation of athletics. It's not thinly veiled. We've talked about it openly in several editorials. Is it subsidization?. Under NCAA rules, an athlete can get free room, board, tuition, books and twenty dollars spending money a month. Anything over this is "subsidization. We give tuition and partial tuition grants to a few men each year. Keeping the things is harder than getting them. We give scholarships to students who are also athletes. Subsidation; No!

Cats Drop Opener To Maine, 54 - 53

The Maine Bears took the measure of the Vermont Catamounts here in the Memorial Auditorium Saturday night with a well earned 54-53 win in the closing seconds of play.

The Yankee Conference tilt action was pushed into the final four minutes that found the Vermont club of Coach John (Fuzzy) Evans ahead by a point.

Maine kept pecking away and with but 59 seconds left on the clock they had managed to eke out a single point lead, 54-53.

Vermont put the ball in play from this point but the players failed to get a decent shot and time ran out with Maine protecting the lead.

The first half was a see-saw affair with the Bears putting on a desperate three minute scoring parade to take over a 24-23 halftime lead.

Thanks to Skippy Burkhardt Vermont was staying with the visitors, for his evening's work Burkhardt dunked 23 points, but his teammates weren't finding the hoop as consistently.

The lead moved back and forth throughout the second half until the Bears moved to a 47-42 lead with 5:11 left in the game. From here the Evansmen roared back with eight straight points while Maine could score but one hoop.

In what may be called a defensive error, Dick Dennis allowed Folsom of the visitors to steal the ball from him and score the final Maine points.

Vermont had a chance to tie the game as Burkhardt was fouled with 11 seconds remaining He dropped in the first with UVM taking the second out of bounds at the mid-court line. Three shots at the hoop failed and the whistle sounded ending the game.

Offensively the Cats were led by Burkhardt while Bob Lovejoy did his usual good job of ballhawking and board work

For the winners it was Thurlow Cooper leading the scoring with 14 and being helped by the steady play of Folsom in the back court of Maine.

Basketballers: King, McLam

The captain of this year's basketball squad is a well rounded guy by the name of Bill King. Bill, a 6' 4" senior from Laconia, New Hampshire, is extremely well liked around campus. He not only captains the basketball team, but also holds the same position on the golf team.

In addition to captaining two teams, Bill also finds the time to study engineering here at UVM. He considers sports in general as his hobby, but if pinned down, would call golf his number one pastime. Last year Bill averaged around 78 for eighteen holes for Coach Ed Donnelly.

Bill, the tallest member of this year's basketball squad, emphasized the fact that we will again be handicapped by the lack of the real big man, and against teams like Maine, Dartmouth, St. Mike's, Rhode Island and Williams our lack of height will hurt us a great deal. Bill feels that if we are to win, almost everyone will have to contribute. "Teamwork will win more games for us than anything else," said Bill.

Captain King, who scored 117 points in twenty-one contests last season, and rebounded quite well, will again be expected to carry a good chunk of the rebounding burden. Thus far practice has consisted mainly of setting up a general offense pattern and working with various defenses including a zone.

"All in all," said Bill, "we should be at least as good as last year, and possibly, better with some good team play and a few breaks."

AL MCLAM

A senior from East Corinth, Vermont, Al or "Mac", as many of his friends call him, is considered by many as one of UVM's top athletes. This being the basketball season, Al has gained a position on the first-five. His deadly set shots will make their presence felt during the long schedule, and Coach Evans has in him a good weapon that should break most zone defenses that the Cats will encounter. "Mac", who went to Bradford Academy and Spaulding High before coming here, lays his great claim to his magnificent football achievements. As part of UVM's famous "touchdown-twins", Al played the halfback spot for three years and was All-State in '54. Not many fans will forget his catch in the '55 Middlebury game that set-up the winning T.D.. To top off his versatility, Al is Captain of this year's baseball team which he has played on ever since his sophomore year. Come spring, he'll be covering the all important keystone sack!

Outside of athletics, our 5' 10", 175 lb. senior, is majoring in Social Science and plans to enter the teaching-coaching field as soon as his tour with the army is up. Al is Advanced Army ROTC. Another extra-curricula activity of his has been taking two firsts (in '54,'55) in Kake Walking for Kappa Sigma Fraternity.

'Mural Mirror

On Tuesday, November 29, the 1955,56 intramural basketball league got underway, with Phi Delta Theta opposing Lamda Iota. With Paul Harasimowicz, the big 240 lbs. tackle who sparkled last fall on the right side of the UVM line, leading the way with 20 points, Phi Delta Theta ran roughshod over Lamda Iota beating them 49-13. The Owls were never

(continued on page six)

Varsity Club To Honor Him At Clarkson Game

by Henrichs

Seventeen years ago Lyman (Shorty) Cote was passing through Burlington the place of his birth, on his way to Florida, the promised land of young athletic trainers. That was back in 1939. He liked UVM and his native town so much that he decided to stay here as Vermont's athletic trainer.

For the last 17 years UVM fans have been watching him scamper on and off the football field with his water bucket, or running to patch up some injured player.

You may have noticed that Shorty runs rather fast. This is no illusion. Not too many years ago, he was running rampant for St. Joseph's High School in Pittsfield, Mass. He made quite a reputation for himself in the Berkshire Hill Country. Standing only 5' 1" and weighing 118 lbs., he was a three letter man; playing third base for the baseball team, forward for the basketball team, and twice winning honorable mention for the Massachusetts All Star football team.

After he left high school he tried a variety of jobs always keeping his interest in athletics, while on the side he was playing the drums and tapping the trap for some of Massachusett's jazziest bands. When he came to Vermont his athletic career was far from over.

He tried his hand at boxing, and in 1942 he became the Golden Gloves bantam weight champion of Vermont.

When World War 11 broke out, Shorty was given a leave of absence by the university, so that he could work in Walter Reed Hospital in Washington D. C. While in the service he studied physiotheraphy under Dr. Bellock of Bellevue N. Y., and Dr. Billock of Columbia University.

In 1946 the affable little man with the pleasant disposition came back to Burlington to settle down. And if you have noticed more of a twinkle than usual in Shorty's eye of late, it might be explained by the arrival of his fourth son less than a month ago.

Anna Russell To Be Feature Of Series Thurs.

Anna Russell

The George Bishop Lane Program Series will present Anna Russell, international concert comedienne, on Thursday, Jan. 5, at Memorial Auditorium.

Whenever she has appeared, and Miss Russell has captivated audiences in London, New York, Boston, Los Angeles, New Orleans and Chicago, she has received critical raves that might make even Beatrice Lillie or Gracie Fields envious.

The New York Journal-American once stated that Miss Russell " has investigated every type of vocal utterance and mastered them all up to a point. It is the point that is most hilarious... For all students of singing she is a must, for the initiated musically, she is a riot, and for the public at large she is a wonderful entertainment."

George Jean Nathan, who is always over-generous in his praise, declared, " Few performers are at once interesting and amusing---one of them is Anna Russell. This Russell, a British import, not only has a measure of the Beatrice Lillie comic virtuosity, but, in addition, a chip of intellectual and satirically critical equipment which peppers her various numbers."

As for Anna Russell's Columbia Records (Anna Russell Sings?, and Anna Russell Sings? Again!), both of which have led the list of best-selling discs for many months, Robert Coleman advised his New York Daily Mirror readers to buy them adding, " She really does more than sing, she brings just enough truth to her clinical dissections to make them devastating as well as immensely funny."

Xmas Formals Pack Weekend With Activities

The second weekend of Christmas formals saw thirteen of the fourteen fraternities holding their buffets, dances, and parties. Most of the houses had a full weekend of planned activities beginning on Friday night and continuing through until Sunday afternoon.

Sigma Phi Epsilon started their weekend with a steak and lobster banquet served to 70 people at the house Friday night. Art Mason with his five piece band supplied the music for the formal following the dinner. Saturday afternoon they had an Orphan's Party held in conjunction with Alpha Delta Pi. The children from St. Joseph's and Brookhaven Orphanages all received presents from Santa Claus. Cartoons were shown and refreshments served. That night the Sig Eps had an informal "after the theater party " which started after the basketball game.

The big event of the Friday night's formal at Phi Delta Theta was the annual crowning of the "Sweetheart of Phi Delta Theta." This year the Queen was Lorie Buehler of Tri Delt who is pinned to Bill Farwell, a Phi Delt. Group of the Catamounts played for the dance. The favor given out to all the dates, was a striped woolen scarf in the fraternity colors of blue and white. On Saturday afternoon they also had an orphan's party for 20 children from St. Joseph's. Each was presented with a gift from Santa Claus, in addition to a check being sent to the home.

Phi Sigma Delta started their busy weekend with a formal buffet from six to eight in their ballroom. Jack Durette's band played for the formal from nine to one o'clock. During the evening the Phi Sigma Delta players presented the skit "Death Stalks the Ballroom" written and directed by Don Karp. Saturday afternoon they had a jazz concert at the house with the music being supplied by Jack Durette. The traditional New Year's Eve party was held Saturday night and was highlighted by the serving of Pizza to all present. Their weekend continued on Sunday *(continued on page five)*

Poster Contest Is In Swing Submit Entries

Entries for the annual poster contest are now being accepted at the Kake Walk office, Room 201, Waterman.

The deadline date for posters to be submitted is Friday, January 13. Any poster submitted later than noon of this date will be considered ineligible for competition.

1. Those entries considered eligible for competition must convey some idea pertaining to one of the outstanding phases of Kake Walk.

2. The posters should be made on suitable material about 22'' high and 14'' wide.

3. They *must* be lettered and colored.

4. The contest is open to all U.V.M. students. Each group or individual may submit as many entries as desired.

5. The poster must contain the following lettering:

59TH ANNUAL UNIVERSITY OF VERMONT KAKE WALK

This may be worked into the poster in any way the individual wishes to do it. However, there must be room allowed somewhere on the poster for lettering - telling the band, the jazz concert, the time, the date and the place. This lettering will be put on by the printer and should not be bothered with by the contestant.

Entries will be judged on originality, proficiency of drawing, and advertising qualities. The prize for winning will be a cake and a trophy awarded at Kake Walk.

Anyone wishing more information should call or visit the Kake Walk office, 201 Waterman. Don't forget the deadline, Friday, January 13, at noon.

Fraternties Must Take Positive Stand On State Liquor Laws

Presence Of Bar Is Prima Facie Evidence Of Negative

By DAVID A. SPECTOR

The fourteen UVM fraternities were told Monday evening that they must obey the drinking laws of the state, and the Administration intended to see these laws carried out on the University level. President Carl W. Borgmann told the fraternities through the interfraternity Council that " the fraternities must be prepared bor policing and penalties by others if they fail to enforce the regulations by themselves."

Borgmann requested a 'yes' or 'no' answer from two thirds of the membership from each campus fraternity on the question: "Are the fraternities at UVM willing and able to take immediate steps to see that university regulations are observed?" The University can take only one position he said. The state law borbids serving of liquor to a minor, and most students are under 21, the legal age. The presence of a bar is considered prima-facie evidence that the fraternity has taken a negative attitude towards the University regulations and the state law.

ACCEPTABLE FUNCTIONS

"Social affairs, while encouraged by the University, must be conducted within the framework of socially acceptable behavior. The University encourages those social functions which provide this sort of experience; conversely, it cannot look approvingly upon social functions which do not meet its standards."

The president outlined the steps a fraternity could take if it wished to hold acceptable social affairs: Eliminate the bar; eliminate the purchase of liquor by the house or group; refrain from serving and providing liquor at any time; limit parties to members and guests who agree to follow such regulations; discipline non-cooperative members; limit the size of parties; center party activities on the first floor; plan activities for guests; serve food and non-alcoholic beverages.

He noted that all fraternities could bring about these changes quickly. Other sources noted that fraternities often had a considerable sum tied up in expensive bars.

President Borgmann pointed out that two years ago an agreement was drawn up with the fraternities which left the policing to them. Presumably this has not worked, and President Borgmann stated that many possible chaperones have been unwilling to sit in at parties because they could not morally wink at violations of University and state regulations.

He added, "A negative answer to the question I asked indicates that the responsibility must be placed outside the fraternity system, in which case the fraternities must be prepared for policing and the assignment of penalties by others."

HEBB'S STATEMENT

Edwin Hebb, IFC president, stated "our first alle- *(continued on page five)*

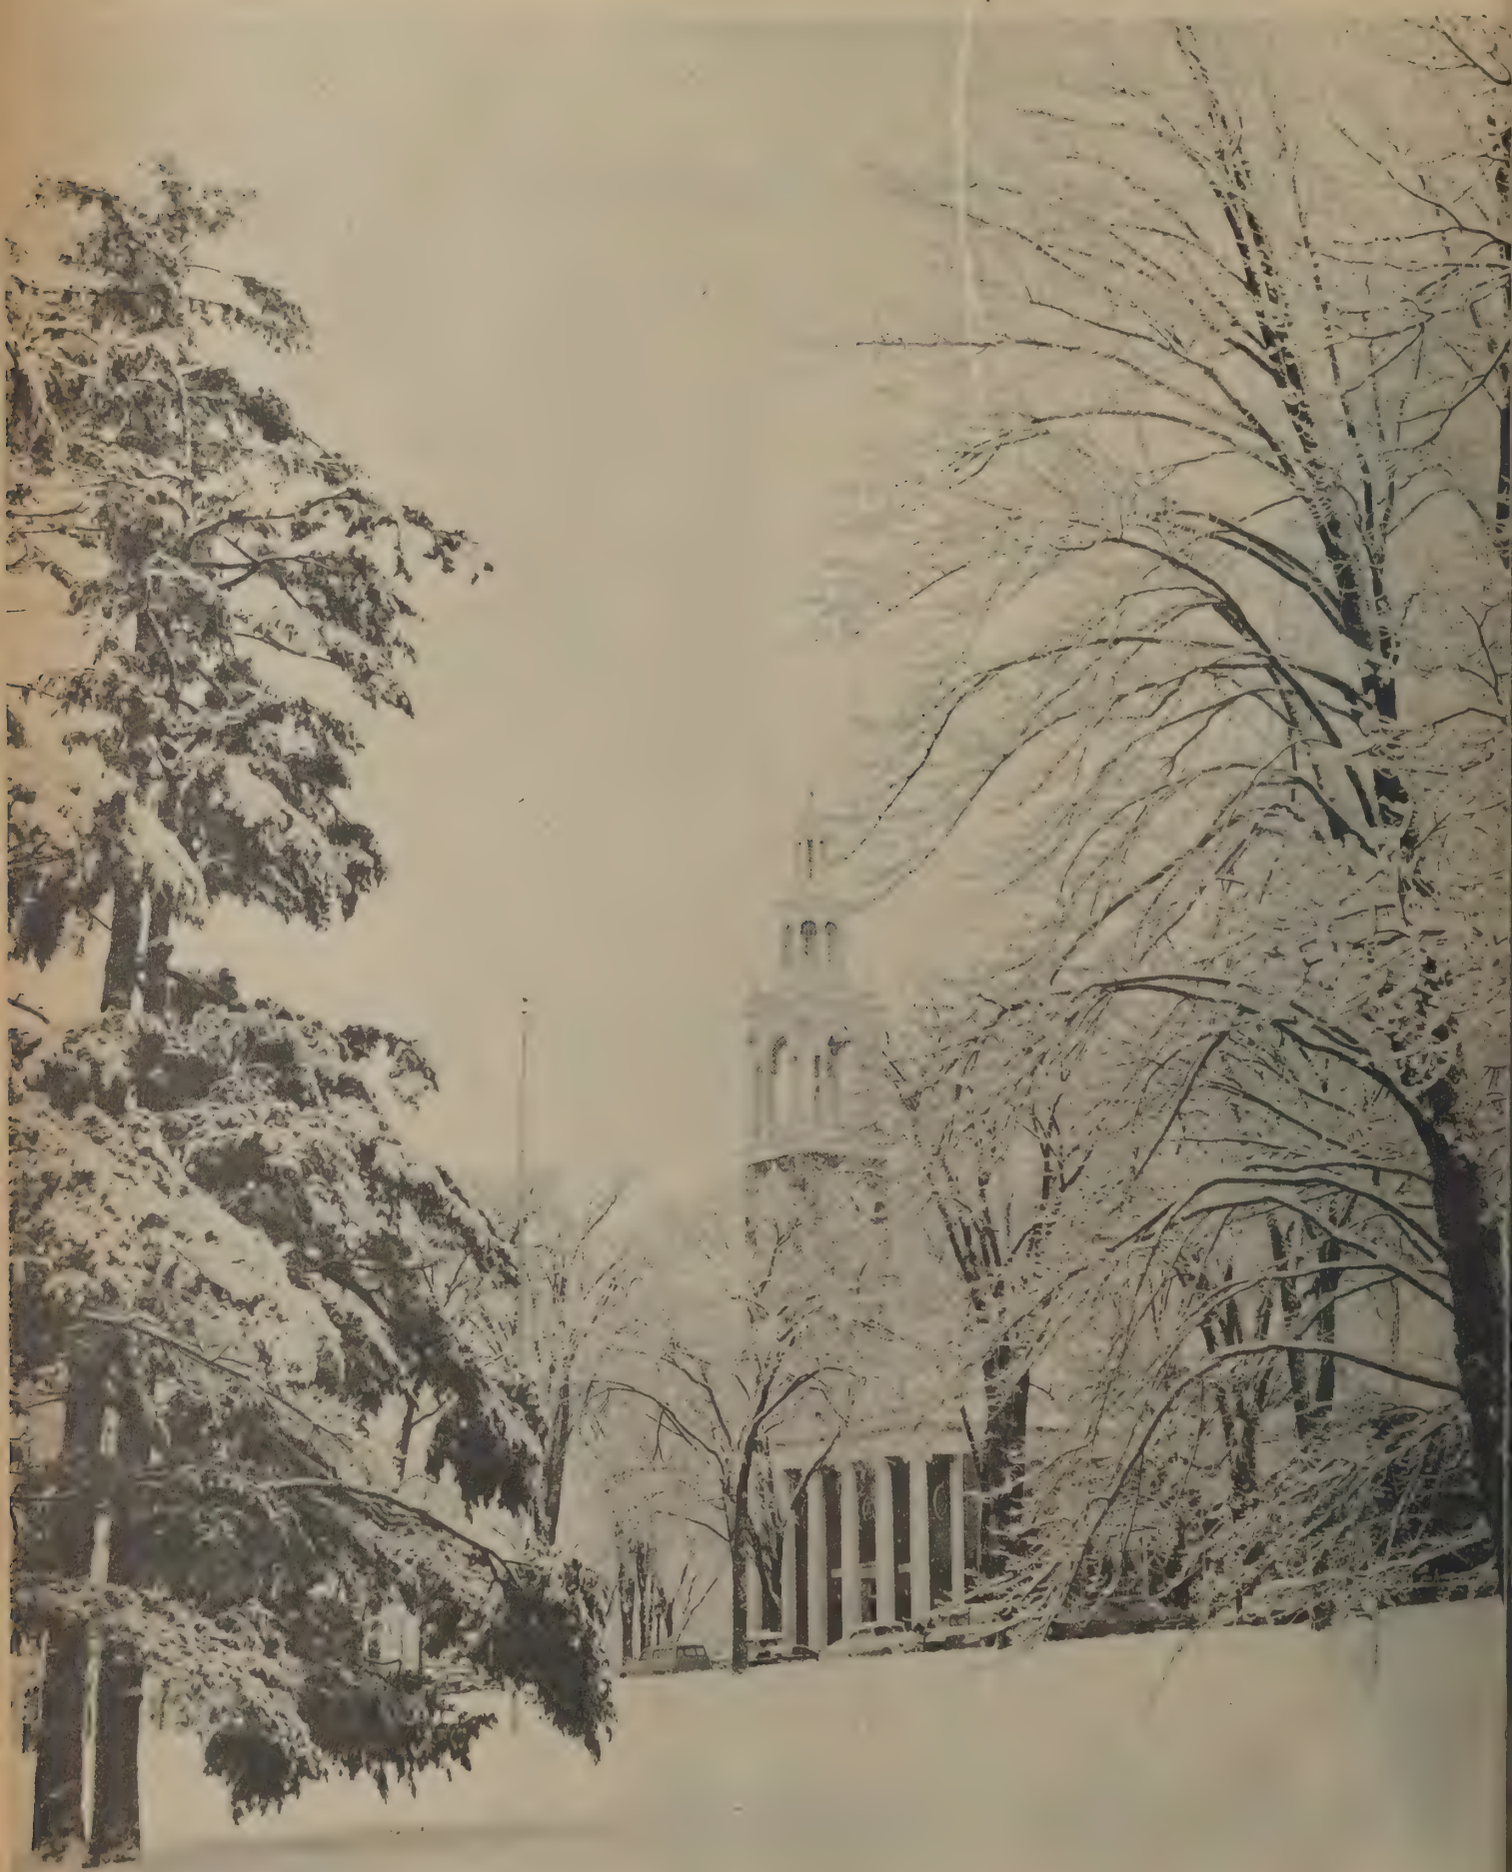
Students Voice Their Reaction To New Ruling

President Borgmann's announcement regarding the enforcement of liquor laws at fraternities has set off a storm of reaction which has not been seen on this campus in many months. In spite of what one might think there was surprisingly little agreement among the students.

When the news first came out, it was received with a shock by many of the students. The first reaction was "You can't do that to us." A second thought made even the staunchest fraternity members realize that fraternities are University dormitories, and that the University may enforce any rules on its own property.

Effects on Campus

Students then turned their thoughts to the chances of effective enforcement, and what the effect on the social structure would be. Fraternity men seemed to rate the possible effects as more serious than those not in the organizations. However there was a general opinion of those both in and out of them that the new policy would lead, at least temporarily, to more drinking out of bounds.



What They Thought

A sorority girl in her junior year said that she felt the policy would make no difference because it wouldn't be enforced. She said that many sorority girls were in favor of the new policy. A freshman who was planning to join a fraternity was asked if this would make any difference to him. He answered that it wouldn't, and that none of his friends who had planned to rush were changing their minds. A freshman girl felt that it would have the same effect prohibition had on the U. S.

The CYNIC Wishes You A Merry Xmas

And A Happy New Year!

Finds Delightful "La Malade Imaginaire" By U. Players

By David A. Spector

Last Thursday, Friday and Saturday the student body had an opportunity to see the University Players' delightful version of Moliere's fine Neo-Classical comedy-farce, The Happy Hypochondriac.

Near capacity audiences for all three evenings pointed out the popularity of the play, and were in part attributed to the excellent posters designed by the Home Economics Department.

The play was well adapted to the University Players' "theatre in the round," in which the audience completely surrounds the players. Scenery was kept to a minimum, but was most effective.

Marlene Posner turned in a spectacular performance as Toinette, the disobedient maid and David Montague did very well as the lead, Dysorgan. Others in the cast included Marie Savery as Angelica; Adelle Mitchell as Belinda; John Kenney as Stickloyal; Larry Tudhope as Claude; Gary

Wright as Dr. Bonebinder; George Friedman as a very funny and droll Thomas Bonebinder; Sally Weinstock as Beralda; Dic Brown as the foppish pharmacist, bottle-stopper; and Ralph Vanderslice stepping in for Roger Wakefield as Dr. Cathartic.

The last scene was particularly amusing, for it depicted the solemn initiation ceremony of Dysorgan as a new doctor. It was all chanted in a very diluted Latin verse. The scene was most effective as it was illuminated solely by candlelight.

The new translation was prepared by George R. Kernodle of the University of Arkansas. The direction was by Ralph L. Vanderslice of the UVM Speech Department. He demonstrated his acting ability as Dr. Cathartic in which his ranting and raving about disloyal patients was impressive. What was equally impressive were his ebullient curtain calls. A very amusing and entertaining evening was had by all.

Social Calendar

FALL SEMESTER 1956

September 14, Friday	Preliminary days program begins
September 18, Tuesday	Enrollment for all new students
September 19, Wednesday	Enrollment for all other students
September 20, Thursday	Classes begin; Opening Convocation, 10:00 a.m.
November 10, Saturday	Midterm reports due in Deans' Offices
November 21, Wednesday	Thanksgiving recess begins at 11 a.m.
December 3, Monday	Classes resume
December 19, Wednesday	Christmas recess begins; no classes
January 3, Thursday	Classes resume
January 21, Monday	Midyear examinations begin
January 31, Thursday	Intersemester recess begins

SPRING SEMESTER 1957

February 5, Tuesday	Second semester enrollment
February 6, Wednesday	Second semester enrollment
February 7, Thursday	Classes begin
February 22, Friday	Kake Walk Holiday
February 23, Saturday	Kake Walk Holiday
March 23, Saturday	Midterm reports due in Deans' Offices
April 13, Saturday	Spring recess begins; no classes
April 23, Tuesday	Classes resume
May 1, Wednesday	Founders Day Convocation, 10 a.m.
May 30, Thursday	Memorial Day holiday; pre-examination day
May 31, Friday	Final examinations begin
June 16, Sunday	Commencement

Capacity Crowd Flocks To Round Table Open House

Over 650 people flocked to the Round Table Open House last Sunday in the Waterman to enjoy the turkey and ham supper, and to listen to the Christmas program. The Waterman building was decorated with greens, and the cafeteria decorations, had a gold and white motif with turquoise trimming.

Almost everyone who came agreed that the Open House this year was successful in its mission of bringing something of the Christmas spirit to UVM. Dean of Administration Robert H. Kroepsch and Stanley Sakowitz were co-chairmen for the event.

Sakowitz said after the event, "I wish to thank all the committee members for their wonderful cooperation. Everyone really gave us their cooperation, and it was this help that made the Open House the success it was."

Entertainment was provided by numerous groups. As guests walked across the campus, they were welcomed by the sounds of a brass band playing from the Waterman entrance. The University choir sang a few selections after the dinner. During the meal, faculty children went among the tables singing Christmas carols. Mrs. F.A. Weinrich sang a solo.

The program was arranged by a committee of Donald Hardy and Carol and Carolyn Brumbaugh. Miss Helen Brown was responsible for the purchasing and preparing of all food. Mrs. Johns, Pat May and Dot Ward solicited the hundred and some odd cookies which were eaten. Mrs. Bickford was chairman of the waitress committee which was responsible for the arrangement of the food on trays and platters and for transporting the food from the work areas to the serving tables.

Steve Plumb was in charge of the bus boy committee whose members carried the trays and dishes for the waitresses, and removed soiled dishes. John Burgess, Student Association treasurer, was chairman of the finance committee, and was responsible for preparing all vouchers, expediting the payment of bills, and making up a final financial report.

The ticket committee saw to it that the tickets were available at all the distributing points as long as the supply lasted. Bill Hurlburt was the committee chairman. All the facilities which had to be borrowed for the event such as trays, bowls, tablecloths and candleholders were the responsibility of Anne Blodgett, who was chairman of the facilities committee.

Mrs. Coutts and Ann King shared the task of making the Waterman Building look as though it reflected the spirit of Christmas. They were the co-chairmen of the general decorating committee. Their committee decorated the entrance, the cafeteria and the lounge. Mrs. H. Riggs, as chairman of the table decorations committee, planned and saw to the execution of the decorations and food arrangements on the four serving tables, the coffee tables and the desert tables. The decorations committees were aided in their tasks by Miss Paulsen, and Gwen Lockwood who were in charge of the decoration procurement committee.

Members of the men's honorary societies, Key and Serpent and Gold Key set up the chairs and tables and took them down again. Rudy Keimowitz was in charge of this work committee.

Publicity was handled by Max Ansbacher and Larry Van Benthuysen. Marilyn Falby drew all the posters which appeared on campus before hand announcing the Open House.

The work of all the committees was coordinated and directed by the two co-chairman Stan Sakowitz and Dean Kroepsch. The general overall plans were formulated by a general planning committee. The members of this committee are as follows: Ann Blodgett, John Burgess, Donald Evans, Mr. Hardy, Mr. Kroepsch, Patricia May, Stan Sakowitz, Dorothy Ward and Miss Wing.

SCA Institutes Group To Study Worthy Topics

This year a new program has been instituted by SCA - a religious study group whose main topic of discussion is "Revolution and Reconciliation," heading the discussion is Father Beattie, of St. Paul's Episcopal Church.

The discussion group was started in preparation for the Ecumenical Student Conference on the Christian World Mission to be held at Ohio University in Athens, Ohio, from December 27, 1955 to January 1, 1956; the topic for the conference also being "Revolution and Reconciliation." However, other students are cordially invited to participate.

Sue Irons is the chairman of the committee that has arranged this meeting. The group meets every Thursday night in the Religious Life Office downstairs in Waterman. Members of each class take part in the discussion.

Each week certain assignments are made from the three pamphlets which are used -

McGoughran Serves As Able K W Secretary

In the over-all process of planning for any large-scale event, such as Kake Walk, there are often very important people who are never given the full measure of praise that they deserve. Such has been the case concerning Kake Walk secretaries over the past years. We hope that this year when Kake Walk rolls around, the people attending will be aware of the great helping-hand that is given the Kake Walk Directors by this person.

This year's Kake Walk secretary is Nancy McGoughran, a Senior from West Orange, N.J., and a member of Delta Delta Delta Sorority. Nancy was picked for the job last spring by this year's directors and has the responsible task of handling all out-going Kake Walk correspondence as well as taking the minutes of all Wednesday meetings and taking care of Kake Walk records.

By tradition there are many details of the production of Kake Walk that are kept from the student body until appropriate times just before the weekend itself, in order to enhance the effectiveness of the whole affair. Here is a girl who has the "inside track" on most of these doings and actually takes an active part in the general planning for Kake Walk. The position calls for a person who is thoroughly familiar with past Kake Walks as well as a general knowledge of secretarial duties. The Kake Walk directors, themselves, have more than once expressed their appreciation for the pleasant and cheerful manner in which Nancy goes about her job in the Kake Walk office.

Besides her work on behalf

Liquor

The news burst upon a silent campus in a most unexpected moment. No more drinking at fraternity parties was the substance of President Carl W. Borgmann's announcement. After the first few hectic hours, people ask us what stand the CYNIC will take. Well, what stand CAN the CYNIC take? Dr. Borgmann is, of course, completely within his legal rights. The University of Vermont is an "instrumentality of the State," and as such would be in a very difficult position if it does not follow state laws and regulations.

What else can he do morally? He has nothing against fraternities, but he recoils against adopting a double standard of behavior. After all, it is a state law.

We might find more to argue about in the manner in which it will be carried out. All admit it was a very surprising way to introduce such a radical innovation. Some complain that the timing does not prevent fraternities from taking effective action. In a day or two it will be vacation time. But that raises the question of what action the fraternities, or the Inter-fraternity Council can take? It was the president of the university who made the ruling. Presumably the trustees of the school, as well as the majority of the administration, are in accord with him.

On the other hand, look at the implications for the fraternities and their members. In many cases the fraternity bar is the most expensive single item of furniture in the house, and entails quite a financial investment. This will be lost if the bars must be removed. Then again, the students over 21 are permitted to drink in town, and will resent not drinking in their fraternity house at party time. Many claim it will drive students to Montreal or New York to obtain liquor. It is pointed out that a bad accident at Middlebury a few years ago resulted in the local option being dropped.

These must have been all taken into consideration, but the president was swayed by the increasing reluctance of chaperones to attend functions of this sort.

It is our opinion that because the fraternities, through the IFC, did not police themselves, the school feels it must do the job for them. We now wonder if it is the school's job to enforce the regulations of the state. Why not let the state enforce its own laws? Dr. Borgmann does not attempt to enforce state speeding regulations. Still, if the administration decided it is the function of the school to take over the state's duty in this respect, we are in a poor position to say it is not.

We would have been happier if the administration released results of the two-year self-enforcement policy in such a way that student fraternity leaders could see how they were progressing, or if criticism was growing. By the same token it would be foolhardy to say that the fraternities were not aware of a growing feeling of despair.

The CYNIC, like other student groups, was completely taken by surprise and we don't know exactly what the results will be, or what program has been formulated for putting the decree into effect. This we will find out about later. Today there will be several student meetings to try to obtain a somewhat clearer picture. All we can advise is for all action on this affair to freeze until after the Christmas vacation; only then will we have had time to think clearly and draw-up logical plans of action.

Unity

For the past several weeks we have been watching the proposed constitution of the proposed Vermont Independent's Association being kicked around from one part of the Student Association Council to the other. Quite possibly the same will happen again tonight.

Some may clamor that the true reason is the fraternity and sorority dominated council would like to pigeon-hole the problem until it dies of inertia or boredom. Others may feel that the council would like to stall the question until it is too late for the group to participate in Kake Walk activities. We believe that the latest IFC rules state an organization must be on campus for at least a year before it may participate in walking, and in many respects this is a good rule, particularly in that it bars "fly by night" walkers who might well gum up the precision works of our well oiled walking program. This would not bar men's dorms from entering teams however. In any case there is much bewilderment and confusion surrounding the problem.

This is the very reason, we believe, that the SA is moving so slowly and carefully.

There is no reason why the 60% or more of the students who are unaffiliated with a social group should not be permitted to form their own group. After all they do constitute the majority of students on campus, and should not have their social life ruled by even a large minority. There is a clear need for an organization to represent these people, and they should have the best system possible.

That, precisely, is why SA should be careful and adopt the best overall scheme. It must decide what is the most feasible plan, and must see how it can be most effectively adapted to this school and its particular problems.

And for that reason we hope that SA will not jump to a hasty, ill-considered decision. But by the same token we hope they will not take forever in their quest, for some satisfactory solution must soon be resolved.

Letter to the editor

To The Editor:

The IFC has asked me to communicate to you our official stand as regards information concerning our activities, dispensation of news to your organization, and the like.

We wish to stress most emphatically that no news is withheld from your reporters, nor is it the desire of IFC to do so. The Council has passed a motion making the secretary or the president of our organization the official spokesmen for the IFC. This means, if you desire to get the IFC view, you can contact either of the two. The secretary, before giving you the news, would clear it with the president, in order that there would be no facts left out, or discrepancies, as we must note, there have been in the immediate past.

All discussion at the IFC meetings is news, and we understand that. Further, there is no motion in IFC which prevents a reporter from attendance at our meetings. This is with the possible exception of our executive sessions, held about once every semester.

All we ask is that if you are sincerely desirous of accurate news from IFC, just check with the source, which is standard newspaper procedure. The official IFC view is expounded by the president, as set down by IFC vote.

Our minutes are not censored, nor is any news which emanates from our office. I might point out that IFC is fully within its bounds to hold closed meetings, but, in order to avoid just the insinuations enclosed in your editorial, we withhold only that material which is necessary according to our constitution, which is on file with the administration.

Hoping that this has placed our feeling on the matter of news clearly before you, and that you will see fit to print this letter, I am

Yours very truly,
Dave O'Brien, Sec'y

(As long as we may have a reporter present, except at closed meetings, we are satisfied. - Editor)

NOTICE

Before you decide whether or not to join a sorority, the University of Vermont's Pan-Hellenic Council suggests that you test yourself on the following points:

1. Is your scholastic average high enough to justify your participation in the extra-curricular activities of a sorority?

2. Do you enjoy the close friendship and companionship of more than just a few girls?

3. Does the thought of meeting people and entertaining them appeal to you?

4. If a sorority enters an activity such as Homecoming poster competition, orphan's party, or snow sculpturing, will you want to participate enough to plan your time accordingly?

5. If you are given a job to do, can you be depended upon to do it, and do it well?

6. Are you willing to help support the national philanthropy of a sorority?

7. Can you accept the fact that once you have become a member of a sorority, you represent not only yourself, but your sorority as a whole, and are, therefore, willing to uphold its ideals?

No one can tell you whether or not you should join a sorority. It must be your own decision. The Pan-Hellenic Council offers this test only as a suggestion of the points you should consider in making that decision.

Sincerely,
Pan-Hellenic Council

Now there is a good looking girl!

Confucius Says

Mr. Borgmann: Your message on the Waterman blackboard was read by many, but comprehended by few. On the night that your appeal first appeared, one red, two-door, Chevy Convertible, year about '51, skidded around the corner of College and William Streets. Will the idiot who sped around that corner try not to impress the public... Take it easy for human life is irreplacable.

Guessing ones, you are sadly mistaken. Confucius has no alias Bill O. Perhaps, he has not approved of your paper, but Mr. O' does not appreciate tea. To set the misguided ones back on the right track he is shorter, heavier than I, and his course is different.

Why should the doors of Waterman be kept open during changing classes? Confucius realizes that the UVM coed is not able to open the heavy outer doors, but why leave the lighter inner doors open for ten minutes every hour? If you must assist the females (and some men) into Waterman, why not let the gentleman who opens the doors during the break, then closes them after the building is thoroughly chilled, act as a doorman? He stands by the doors during the ten minutes with nothing else to do.

And to the gripe of the week; Could a source of the freshman's heavy flunking be their home? Confucius lived on one of the quieter floors during his first year. The dorm was quiet if no firecrackers were exploding in the hall, radios blaring next door, wrestling matches upstairs, or ashcans dumped down the stairs. One cannot be expected to study, or concentrate very well with h--- being raised above, below and around him. Floor proctors, it is your job to quiet down those who are here to waste time, and to quell the rioting!

Confucius says: Intellectual's world, one which can not be attained, for one who tries to attain it is pseudo-intellectual. I have spoken from a definition of the pseudo-intellectual by A.K., and thus the words pour into the above thought.

It is about time professors started giving exams which were scaled above the students, ones which require some thought, exams which take an hour to complete. It is good to see that some professors are trying to raise the level of a college education. It is time we had an all University spirit trying not to lower work to the students, but making the students conform to higher standards.

Professors, yours is the job to educate the students, let the goof-offs fall by the wayside. Many of you are dropping your course to suit the non-working student..... Don't!!!

Amherst Twins Bewilder Debate Tourney

By Artie and Bob Krauser

At the recent Vermont Invitational Debate Tournament we experienced the strange coincidence of debating twins. It was very surprising to walk into our debate room and see two very similar faces greeting us. They were Dan and Bob Parker, identical twins from Amherst. The CYNIC asked us to put some of our emotional experience on paper. Too overwhelmed to write prose we decided to transpose our feelings into the magical realm of " poetry."

Double Double Toil and Trouble

Twin versus twin versus twin versus twin,
Ladies and gentleman, which one will win?
Will it be a twin, will it be twins?
I don't know, wait 'till it begins.
It's Krauser and Krauser versus Parker and Parker
Vermont shines forth but Amherst's no darker.
The debate has commenced and Krauser is speaking
But which Krauser is it, what about score keeping?
Do you want a description--is he big or a tyke?
Who gives a darn, they all look alike.
Now Krauser is seated, Parker is standing
Words are just flying, arguments landing
They're switched again for Parker is thru
What are they debating?--the G.A.W.
It's Krauser once more and boy he is excited,
Flailing at their case with flaws he has sighted.
But Parker's no slouch and is back in the fight.
Showing just where they're wrong and just why he's right.
We've had forty minutes of talk, now a three minute rest,
Gives the judge time to consider, who is the best.
But they're at it anew, in the final speeches;
Each clinging to his issue, as tightly as leeches.
It's Parker then Krauser and Parker and Krauser is last.
They've all said their piece and their piece is the past.
The debate is now over and the judge has the floor
I hope this is short, he's usually a bore.
He says this is this and such is such.
The decision - up to you - this . . is two much.

They're Off! U V Mites Pursue Christmas Rush

By Don Karp

The clock strikes, the bell rings, the sound of clamoring feet is heard. Out of the ivy covered halls they pour, in steady streams, valises intact as they saunter into waiting automobiles, their motors belching carbon into the winter air, and THEY'RE OFF! Yes, the Christmas Rush is on, and daring drivers are seen streaking down provincial dieways intent on clipping precious seconds off the records of their previous trips to freedom.

What a valiant flock they are, braving narrow pavements, their vision decreased by darkness, gambling at every turn that there is no icy layer below to send their vehicle hurtling into the nearest obstacle. But why be alarmed, this is known as living dangerously; and it is generally recognized that America's youth has need to vent its emotion. Indeed this generation has been raised in troubled times, and their actions are only a result of their environment. Of course, it is only natural for them to seek escape from inward frustration through the most convenient media, driving.

And so they begin on their voyage home. Occasionally the traffic slows to a halt while the wreckage in the road ahead is cleared; but the trip continues. On the premise that carelessness is the only cause of accidents, the gas pedal sinks. Why fear, this is all so routine. Most of the flock will have a Merry Christmas.

Nancy is also serving her class as a Senior representative on the Student Association Council.

Intercollegiate Round-up

By Steve Kanor

. . . A clever college student writing for the Auborn College paper gives a wonderful recipe for saving gas. The car owner installed a special carburetor that was guaranteed to save twenty percent on fuel. Then he installed special spark plugs that saved twenty percent, an intake superheater that also saved twenty percent, along with a special rear axle and high pressure " cords " . . all saving twenty percent. Now, with a fuel economy of 120 percent, he has to stop every hundred miles and bail fuel out of the gas tank to keep it from running over.

. . . And from an editorial from Louisiana State, a warning to students not to forget the world exterior of the halls of learning. Students after they've been in college for two or three years have a tendency to forget the raging world and its problems. Oh, it occurs to us at odd moments, and we may even become aware of it, briefly, during vacation, but for the most part college is life as far as we are concerned. We seem to lack a definite perspective. The world outside, no matter how far away it may seem at the moment, is real. What's more, it is the world we are going to have to deal with for the rest of our lives.

. . . After reading papers from Eastern colleges, one notices a predominance of the words frequently, too frequently used at UVM. One is intellectual, the second apathy. Many schools have at least an editorial with this word included, others bury intellectualism beneath a letter to the editor sign. Few papers are without apathetic students. We may be both apathetic and non-intellectual, but remember, we are not unique.

Drinking

(continued from page one)

glance, of course, is to the University, and we will consider that before making our decision." Other fraternity sources indicated concern about the loss of the bar in the basement, pointing out that much currency and trouble and time had been put into their installation. Dr. Borgmann's statement meant that the bars must be removed ~~unless they could be used for serving soft drinks only~~.

He admitted that for all practical purposes all drinking would be prohibited at fraternity functions, or otherwise, regardless of the students age. If the fraternities took a positive vote, that would be fine, and they would be expected to carry out their decision; but if the vote was negative, definite steps would be taken.

At press time there were no comments on how Kake Walk activities would be affected by these new regulations.

A general feeling arose that the administration was only handicapping itself for there would almost certainly be an increase in off-campus parties. But others point out that the University would no longer be permitting a double standard, and that they would be now living up to the state law.

"As an institution of the state we can take no other course," Dr. Borgmann concluded.

Formals

(continued from page one)

afternoon with a party for the children from the Burlington Orphanage on Shelburne Rd. The house was carefully decorated to perfection," said Larry Schlager, social chairman. "Only candlelight was used in the house and the four fireplaces were all working. The living room was converted to a cocktail lounge with red checkered tablecloths and candles covering the tables."

A buffet dinner began the festivities at Lambda Iota last Friday. The feature of the formal following was the crowning of the Queen of the Formal, Mrs. Joan Rulison Young '55. "Everyone enjoyed this formal and thought the house decorated beautifully, especially the library in which the green boughs formed an evergreen ceiling." Saturday afternoon was the traditional orphan's party held together with Pi Beta Phi. On Saturday evening the annual "Beach Party " was given with the downstairs decorated in that theme. A skit was also presented during the evening.

NEW UVM TV SHOW MAKES DEBUT

The first of a regularly scheduled series of television programs was telecast last Friday evening over WCAX-TV, becoming the second regular program produced by the University. Entitled "Living and Learning," the new series will portray the wide range of University activities and the part it plays in the community and social life of the state.

This first program featured Isabel Mills, who, with the assistance of three UVM seniors, demonstrated the art of finger painting and presented a portion of the art education program for elementary school teacher candidates offered by the University.

William J. Lewis is handling the show for the University, assisted by Betsy Brazil of the student Radio-TV Workshop. Charles Lewis will produce the program for WCAX-TV, and Stuart Hall will direct it for the station.

The next program in the series is scheduled for December 30, and at that time it will become a regular bi-weekly presentation of WCAX-TV and the University.

Future programs of this quarter-hour feature will include shows dealing with UVM's rare book collection, the Speech Clinic and the College of Medicine.

READING CLINIC HAS NEW PROGRAM

Lois Otterman has just inaugurated a new program of the Reading Clinic to aid Freshman students in surmounting any reading problems which might interfere with their college careers.

The course is open to those students whose grades in the regular reading test fell in the lowest quarter of the group, and attendance is on a voluntary basis. One-hundred students have accepted the invitation to partake in the new course, which is given in the late afternoon to permit as many students as possible to take advantage of the extra help.

Three test classes have been organized: one will concentrate on the study of phonetics as related to spelling, and all will have exercises designed to help students develop vocabularies, organize information and select the main points of what they read.

Organized primarily for UVM students, the six-week course will accept elementary and high school students upon referral of their teachers.

SECRETARIAL COURSE IS REORGANIZED

Sally B. Maybury has announced a reorganization of the secretarial studies courses which will permit students to enter typing and shorthand courses at a level consistant with their experience and skill. Depending on a student's previous training and the vocational objective, placement will be made on the elementary, intermediate or advanced level.

The courses offered under this new plan include shorthand, typing, transcription, alphabetic shorthand, office management, executive secretarial procedure, business communications and a seminar course.

In the past, students were required to begin with courses in elementary shorthand and typing and work their way through the intermediate and advanced levels. This new approach, however, will make it possible for students to be placed in the group best fitted to their capabilities and needs, and also will permit students majoring in other fields to add shorthand and typing to their regular curriculum.

Faculty Notes

Col. Allen F. Herzberg has received Aeronautical Orders from Air University Command awarding him the advanced aeronautical rating of Command Pilot. Requirements for this rating are 15 years as a military pilot, 3,000 hours or more of pilot flying, possession of a currently effective green "Instrument Certificate," and to be currently on flying status. Col. Herzberg graduated from the United States Military Academy in 1939 and completed his flying training in 1940.

OBITUARY

Word has just been received that Miss Nell Jefferson, former Director of Dormitories at UVM, died recently at Austin, Texas. Miss Jefferson came to the University in 1945, to fill the newly designated position of Director of Dormitories, which position she held until her retirement in 1953. A native of Texas, she attended the University of Texas where she received the Bachelor of Science degree. She was given the degree of Master of Science at Massachusetts Institute of Technology in 1921.

Before joining the UVM staff, Miss Jefferson held a similar position at the Ohio State University Hospital in Columbus, Ohio. During her eight years as a member of our University, Miss Jefferson administered all dormitories and their dining halls, and took charge of their maintenance and personnel. Following her retirement, she was active with the Vermont Arts and Crafts Association.

Funeral services were held last Tuesday at Corsicana, Texas.

ALPHA DELTA PI

The Alpha Delts have been busy entertaining as dinner guests alumni who wear the diamond of Alpha Delta Pi sorority. On Monday, November 7, Mrs. Virginia Trotter, the new head of the Home Economics department, came to dinner and Wednesday, November 9, Mr. and Mrs. Warren Austin Jr., and Mr. and Mrs. Elliot Cox dined.

On Thursday, November 19, an exchange dinner was held with Lambda Iota fraternity.

On Saturday afternoon, December 10, the Alpha Delts and the Sig Eps were co-sponsors of an orphan's party at the Sig Ep house. Cartoons were shown and candy and gifts were given to the children.

A very successful tree trimming party was held at the Alpha Delt house on Sunday, December 11. Admission was one tree decoration. Ann Barton of Brant Lake, New York was Chairman. Mr. and Mrs. Leonidas Jones were the chaperones.

PHI DELTA THETA

Gene Mowry, Ron Peaker, and Don Sherman form the committee whose purpose it is to obtain after dinner speakers throughout the year. On Nov. 9 the first speaker in the series, Professor Babcock of the Political Science department, spoke on the relation of the University to the state, discussing with the members the recent legislation making UVM into a state university. It was a most interesting discussion and it is the hope of the Phi Delts that these lectures will be a regular occurance.

ALPHA CHI OMEGA

At Alpha Chi Omega's Cultural meeting Mr. McGowan from the Fleming Museum gave a talk and showed films on history's use of cartoons for political and economic events. An all-sorority dinner preceeded the event.

Congratulations go to Alpha Chi Omega's Donna Newhall who was recently initiated as a member of Omicron Nu.

DELTA DELTA DELTA

On Wednesday evening, November 16, from 7-8 the members of the sorority entertained members of the UVM faculty at the sorority's annual "Apple Polishing Party."

On Monday evening, November 21, the members of the sorority and the alumnae together celebrated "Founder's Day."

On Tuesday, November 29 1955, the Tri-Delts entertained for dinner, Miss Helen Brown, who is the Faculty Advisor to the sorority. Mr. and Mrs. Don Hardy were guests for dinner

On Monday, December 5, Dr. Alan Gowans, who is the Director of the Fleming Museum, spoke to the sorority

PHI SIGMA DELTA

The weekend was topped off on Sunday when Fern Hill held its annual Orphan's Christmas Party. The guests were the boys and girls from the Children's Home on Shelburne Road. Steve Soloman '58, of Great Neck and Ted Ginsberg '58 from Flushing were in charge of the party. Chuck Hirsch '58 of New York City was Santa Claus.

On Saturday, December 3 the Phi Sigs manned the Christmas kettles down town and collected $200. for the Salvation Army.

KAPPA ALPHA THETA

The Theta's serenaded a special alum recently. She is Miss Sarah Brownell of Burlington who celebrated her one hundredth birthday. Miss Brownell was a member of a group which later became Kappa Alpha Theta here at the University.

Monday night, December 5, the Theta's entertained their Burlington Alumnae Chapter. A formal meeting was held first and a dessert-get-together followed.

TAU EPSILON PHI

On Sunday the 11th the Teps had a Christmas party for a group of orphans. Presents, refreshments, and games all made the affair a truly festive one for the children.

PI BETA PHI

Dr. John Boardman, Burlington specialist in obstetrics and gynacology, spoke at the Pi Phi house last week. After his talk, Dr. Boardman and the Pi Phis had an informal discussion.

On Tuesday, December 6, the Pi Phis and the Sigma Nus had an exchange dinner.

At a Pi Phi meeting Dean Harris was a guest speaker. She spoke to the members on the subject of Pan-Hell. The meeting was followed by a short ceremony for those pledges who were unable to make their marks last semester.

SIGMA ALPHA EPSILON

The halls of SAE were echoing to the music of the Jazz-Masters in the Pre-Thanksgiving festivities on Saturday the 19 of November. Social Chairman Joe Heald and Joe Valenta estimated a crowd of over two hundred and fifty attending the jazz party which was hailed as one of the most successful parties of the year.

THETA CHI

Harry M. Rudio '58, Elizabeth, New Jersey, a veteran of two years in the navy, was pledged on Nov. 29. Harry transferred to UVM after two years of undergraduate work at Notre Dame.

Charlie Perkins, '54, returned for a short visit after completing basic training at Fort Dix. He plans to enter a clerical and typing school.

ALPHA EPSILON PI

AEPi welcomed two new pledges into the fold in the past week. They are Ed Feldman, of Passaic, N. J., and Art Pollock of Belle Harbor, L. I.

The "New Year's Eve' party held at the "Ape" house on Nov. 19 was ably chaperoned by Mr. and Mrs. Page and Mr. and Mrs. Bromfield. Decorations consisted of streamers, noisemakers, balloons, and everything else that makes a New Years Eve party what they are.

Mark Gold, social chairman, was in charge of plans for the Winter Formal, held the weekend of December 2.

Cloud Seven

"Love is a Many Splendored Thing" seems to be the theme on the UVM campus. There have been a number of pinnings and engagements in the past few weeks. From Theta Chi we hear that Dave Oliver '58, pinned Vanshan Soule '58, from Hartford Connecticut. Congratulations to two Phi Delts who pinned two Tri Delts. They are: Bill Farwell '57, of Rutland to Lorrie Buehler '56, of West Orange, New Jersey and Bill Husk '57, of Westfield, New Jersey to Judy Ramsden '57, of Burlington.

On Thanksgiving Day, Jane Reynolds '56, from Glen Ridge, New Jersey became engaged to Lt. Bob Simmons. Jane is a member of Kappa Alpha Theta. Her fiance is a graduate of the University of Virginia and is now in the U. S. Army.

Pi Phi Greta Isbrantsen '56 is engaged to George Plender, Theta Chi. Greta is from Bay Shore, New York and George is from Tenafly, New York.

SAE announces the engagements of Ted Davis '56, from Englewood, New Jersey to Kay Searles, of the Mary Fletcher School of Nursing and Jim Kendall '57, Newport, Vermont to Joan Pickel '59, Orleans, Vermont. SAE Morril Soshnic '56, from New York City pinned Barbara Goodman, '58, of Brooklyn. Sandy Paul, '58, from Rutland, a tri delt, received George Parry's SAE pin over Thanksgiving vacation. George is a member of the class of '58 and is from Great Neck, Long Island.

Jan Kerin, a tri Delt, became engaged to Jim Stackpole, a graduate of Bowdoin College who is now attending the UVM Medical School. Best wishes to Dotty Herlinger, a junior from White Plains, New York and Guy Holt, a junior from New Hyde Park, New York on their recent pinning. Dotty is a Tri Delt and Guy is a member of Theta Chi.

Congratulations to Tri Delt Ann Fraser, a senior from Rye, New York, and Peter Krusch from Hackensack, New Jersey. Ann and Peter became engaged recently.

Don Edmunds '57, of Glenna Falls, New York and Nancy Byington of Shelburne, a senior nursing student, became engaged on August 21. a belated congratulations and best wishes to you both.

Peggy Lenord '56, a Pi Phi from Brandon, Vermont is engaged to Charlie Maxon '56, a Phi Delt from Westerly, Rhode Island.

On November 24 Gerald Baril '56, Delta Psi, and Mary Gaudette of Manchester, Vermont were married. John O'Connor served as best man, and James Towle and Maurice Chevalier ushered. Mr. and Mrs. Baril will live in Burlington until he graduates. Mrs. Baril is a nurse at the Mary Fletcher Hospital.

Congratulations to Mr. and Mrs. T. C. Thomas on the birth of an eight pound baby boy.

Last week Carol Coen, '56, from Clifton, New Jersey, became engaged to Lewis Dann from Brooklyn, New York. Carol is a member of Tri Delt. Lew graduated from UVM last year and was a Phi Sig. He is now a freshman in the UVM Medical School.

DOES YOUR SKIING COST TOO MUCH?

Unlimited chair lift rides* at Mad River Glen at $4.50 per day (week-ends) or $4 per day (week days.) Same rides would cost $6 to $8 at single ride rate! And don't forget Mad River's big 9-DAY SKI VACATION bargain ticket — only $29.50 for 9 days of unlimited rides — less than $3.30 per day — and on the finest of chair lifts, too. You'll get MORE SKIING — less waiting for MRG's high-capacity lift! Write for folder.

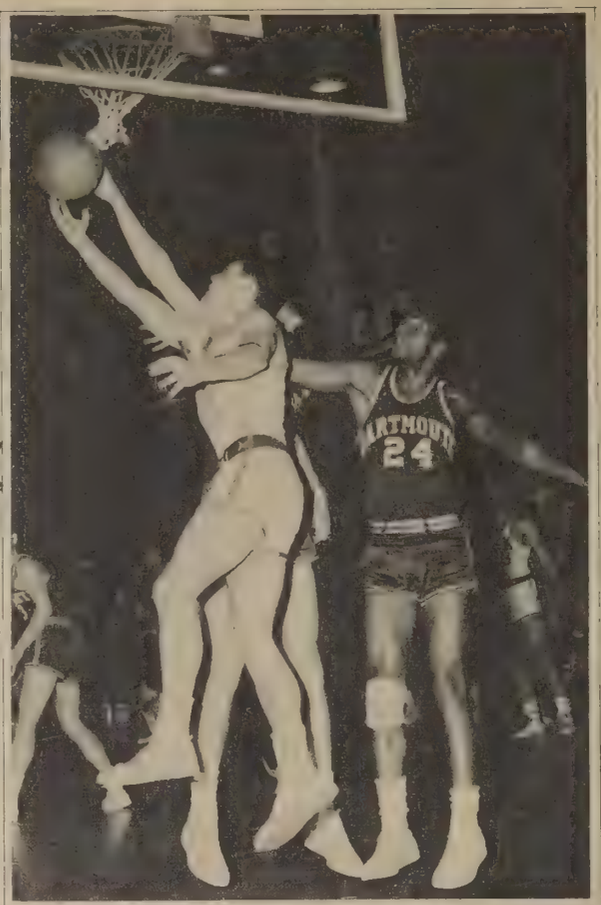
UVM Remains in Yankon

As I See It

BY Ed Willard



We're glad they did it. We think the University of Vermont made a wise decision in remaining in the Yankee Conference athletic picture. It was a move which will go a long way in promoting a greater regional harmony among the New England State Universities. It was a forward looking decision on the part of a new state university anxious to maintain pace with its New England brothers.

Those responsible for the decision also recognized the extent to which Vermont could compete with Yankon schools by not committing UVM to complete participation in Yankee Conference football. This is obviously impossible at the present time. It did however leave the door open for Vermont to compete in the future.

Some people will not be happy about this forward step Vermont has made in athletics. It seems evident however, that we do belong in the Yankee Conference. We all face the same problems educationally as well as athletically. Our goals are of a similar nature for the future. Vermont has never lagged behind in any forward move. This is no time to start.

We hope that all UVM fans understand the predicament of of the basketball team this fall. Fuzzy Evans faces a not unusual problem; a lack of height. It's not new to Fuzz. He's been here for fourteen years. During that time, he's had one--one basketball player towering to the 6:4 mark. He has never seen a season when his opponents do not consistently have a height advantage over him. Over the years, Fuzzy's teams have still managed to come up with the enviable record for 145 wins against 84 losses. This is a great record in sports where you do well to win 50% of your contests. Doggie Julian of Dartmouth, who should know says that every year, Evan's Vermont teams show him the greatest use made of the talent available.

We won't win many this year, but, they'll all be exciting ball games in the Vermont tradition. The boys are scrapping. They want to win. We hope they keep up their present attitude in the face of great odds.

Lovejoy drops in a tough two-pointer in the Dartmouth game.

Dr. Carl W. Borgmann, the President of the University of Vermont has announced that UVM will compete actively in the Yankee Conference in all intercollegiate athletics with the exception of football.

The statement came as the result of last weekend's Yankee Conference meeting where the problem of future Vermont competition in Yankon was discussed.

Dr. Borgmann stated, "We intend to compete wholeheartedly in all Yankee Conference sports but football. We do not anticipate playing for the Conference championship in football."

This statement does not necessarily mean that Vermont will drop all its Yankon foes in football. It is taken to mean that Vermont will maintain its present football relations with Yankee Conference schools but will not play all the Yankon teams. Last year, the Catamounts played Maine, Rhode Island and Massachusetts of the Yankee Conference but did not compete against the Universities of Connecticut and New Hampshire.

Full competition in other sports will mean that Vermont will have to play at least eight games in basketball and probably the same amount in baseball. This season the Catamounts play five Yankee conference games in basketball, meeting New Hampshire twice, Maine, Massachusetts and Rhode Island once. Vermont does not meet the University of Connecticut in basketball this year.

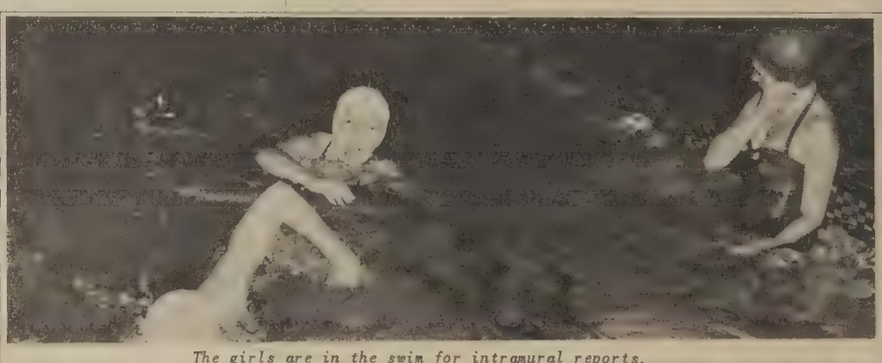
President Borgmann stated that other announcements concerning the latest Vermont move would be forthcoming.

SUPPORT THE TEAM

Frosh Win

The promise that better basketball days are ahead, if all remain eligible scholastically, was shown as the UVM Freshmen overwhelmed Lyndon Teachers, 87-63, Saturday night.

The first local introduction of Coach Ralph Lapointe's Kittens saw the team put on a tremendous second half scoring display, pouring 53 points through the strings. All 17 of the Kittens (there's 18 on the squad but one was missing) took part in the second half slaughter, with 10 of them getting into the scoring column.



Leading the parade of scorers after the Kits held but a 34-29 halftime advantage and early in the period fell one point behind was Clyde Lord.

A 6-1 operator from Brooklyn, the forward displayed a keen shooting eye and tremendous speed. He poked home 30 points in a fine shooting display, and along with Bob Gallagher, Bob Kuchar, Arnie Branch and Charlie Isles, provided the Kits with a fast-moving first five.

The Kittens, off an earlier sweep over Lyndon a week ago, seemed to have a bit of an over-confidence attack in the first half. Once out of it after intermission, they pulled away with ease from the visitors.

Lyndon shows signs of developing into a good club. With plenty of height and the ball handling and back court work of Wes Doyle, former southern Vermont star, there could be a good season ahead for the Teachers.

Green and McKinney had 14 points each and Bruce, a 6-6 operator, dropped 12. Kuchar with 16 and Gallagher with 11 followed Lord in the Frosh's scoring.

The girls are in the swim for intramural reports.

Cats Lose Third Game

St. Lawrence Tops 77-70

In a sloppily played basketball game last Saturday night, the UVM Catamounts went down to their third defeat in as many outings by dropping a frustrating 77-70 verdict to a sharpshooting St. Lawrence. The Cats had trouble hitting from the inside all night and were kept in the game by virtue of Skip Burkhardt's 18 points, all scored in the first half. The Cats, playing a long passing game, just couldn't score from the inside as long shots constituted most of the Vermont scoring. Poor rebounding also marred the night against a relatively short Larrie team.

Vermont was ahead by a point, 56-55, in a ding-dong game that saw 10 minutes left to play. Four minutes later the Cats were out of it all as far as chances of victory remained.

Fast-breaking, the Larries pumped home 12 points in four minutes. Vermont's offensive went to pieces against the zone and hurried shots that were missing their mark. With six minutes to go the Larries had it in the bag, 67-56.

Sparking this four-minute scoring spree was a sophomore reserve forward, Dave Marcotte, a lad said to have a Winooski background.

He ended the evening with 21 points, but in the 12-point drive he poured four baskets in with a tantalizing jump shot from just outside the key. When he was jumping the shots, small veteran forward, Don Saunders, was faking and slipped around the Catamount defenders, dropping layup shots all by his lonesome.

The score changed hands often until St. Lawrence, finishing its trip into the Green Mountain State with a 1-1 mark, took its 11-point lead. The UVM reserves took over with five minutes to go and roughened up the play as St. Lawrence wound up with a raft of converted free throws.

Both Marcotte and Saundwrs had 21 points for the Larries. Bill King, Vermont's captain was hitting from outside, but Skip Burkhardt bore the brunt of the scoring — bandaged hand and all. The forward tossed in 18 points, while King had 14.

Skippy Burkhardt up on the jump against St. Lawrence.

FINALS NEXT WEEK .. GOOD LUCK !!

VOL. 73 **The Vermont Cynic** NO. 24

UNIVERSITY OF VERMONT AND STATE AGRICULTURAL COLLEGE

BURLINGTON, VERMONT JANUARY 12, 1956

Anna Russell Presents Gay Show For Lane Artist Series

Anna Russell, the musical comedienne, presented a program last week as part of the George Bishop Lane Series. Her opening numbers were illustrations of the three levels of man, English and French songs. She also made fun of some different styles which pianists assume, did a take-off on a woman club president's introduction and explained in language for laymen, the intricate plot of a Wagnerian opera.

"A splendid comedienne with face as flexible as a collapsible camp chair;" "one of the world's greatest entertainers;" and "a musical satirist of the highest order" so say the critics about Anna Russell who performed on the stage of the Memorial Auditorium last Thursday evening.

Miss Russell was born in London where she got her start in show business. After taking part in successful European tours during and after World War II, she came to this country where she has been a tremendous success. She has made appearances at Town Hall in New York and in other major American cities.

Although Miss Russell is best known for her satire of operatic prima donnas, she herself has had experience with well-known opera companies; for example, she played the role of the Witch from "Hansel and Gretel" with the New York City Opera Company. Despite her agility in satirizing operatic prima donnas, Miss Russell does take-offs on everyone from folk singers and jazz enthusiasts to portly choir singers.

In her spare time, Miss Russell has written a book, "How to Get On In Show Business," and has recorded in America on the Columbia label.

At the present time she has the following long-play records as best sellers: "Anna Russell Sings," "Anna Russell Sings Again," "Guide to Concert Audiences," and "Square Talk on Popular Music."

Best known for her concert performances, she is also becoming well known for her television performances. As many people probably know, she appeared on the Ford Foundation program OMNIBUS and gained wide acclamations.

Seniors Must Make Appointments For Job Interviews

Seniors should make appointments now for interviews with the first of more than 30 companies whose representatives will visit the campus during February and March to interview both men and women for employment following graduation. Since the first interviews are scheduled for February 6, appointments must be made prior to final examinations in order that schedules must be prepared. The products of these companies represent a wide variety of goods and services and consequently there will be a large diversity of job opportunities. As usual there will be a heavy demand for engineering and technical graduates. On the other hand, opportunities for men and women in non-technical areas should be as good if not better than usual.

Rushing Period After Finals

By Lenore Weinstein

Sorority rushing will be held this year after final exams during intersemester recess. Rushing will begin on Thursday, Jan. 27, with an informal guided tour of the eight houses. Anyone wishing to rush must go on this tour of the sorority houses. It will start at 10:30 in the morning with each group spending a half an hour at each house and continue through to 8:30 in the evening. There will be a two hour break for lunch and dinner. This tour enables the girls to become acquainted with all the sorority houses on campus.

On Friday the rushees will sign up for the four houses they would like to revisit. These open houses will be held from 1-2:00; 2:10-3:10; 3:20-4:20; and 7:30-8:30. The following day the sororities will send out invitations for the first invited informal parties to be held from 1-2:30 and 2:45-4:15 that afternoon. A rushee will be able to attend any two to which she is invited. At these parties the groups will present a skit, and refreshments will be served. For the final party on Sunday the rushees will sign up for the two houses they'd like to visit again. The two open houses that afternoon will be from 1:00-2:30 and 2:45-4:15. Games will be played at these open houses.

Dessert Hours

Beginning on Monday evening and continuing through until Thursday evening two sororities each night will hold their invited dressy dessert hours from 7:00-8:30 and 8:45-10:15. This will be the last time for the girls to meet each other during rushing. For the dessert hour each sorority will have a specific theme which will probably be carried out through its decorations, favors and skit. The girls will serve, as the name implies, some sort of fancy dessert and beverage. A rushee may go to as many of these dessert hours as she is invited.

After the last dessert hour on Thursday there will be a silence period during which there will be no communication between rushees and sorority members. On Friday the rushees will sign the preferential ballots to indicate which houses they would like to join in order of their choice. Signing of the ballots will will start at 7:00 a.m. and continue until 10:30 p.m.

Bids

Saturday afternoon the bids from the sororities will come out. That night all those who will have received bids and wish to pledge the sorority will go to the house for the pledge service. Usually that night is spent by the pledges at the sorority house.

Damon In Olympics

Word has finally been received that Larry Damon, former UVM'er and last year's NCAA Cross-Country ski champion has been selected as a member of the United States Olympic Cross-Country ski team.

Larry has won his place after intensive training since November in Colorado and Walla Walla, Washington. Damon placed third in the final trial for the selection of the squad but will probably be second man as the first finisher is having trouble securing his U.S. citizenship in time for the winter games at Cortina, Italy.

Damon was a three sport star here at Vermont, captaining the ski team in his junior and senior years. He was also an outstanding track man, holding the Vermont records in the Mile and 2-Mile runs. Larry was also an outstanding Cross-Country runner. Larry is a native of Burlington.

Professor's Group Asks UVM For More Aid In Research

By Max G. Ansbacher

The UVM chapter of the American Association of University Professors has stated recently in a memorandum that, "The University has not taken a forthright attitude of encouraging research in all its colleges." The memorandum continued by saying that the inspiring teacher is almost always the one tho is grappling with the unknown.

The memorandum concluded by saying, "It would be well for the University to resolve in formal terms that the furtherance of research...is explicitly part of its purpose as a community of scholars and scientist."

The report asserted that "The failure of our University to achieve an atmosphere of intellectual inquiry" was shown by the fact that places such as the Municipal College of Wichita and Alfred University produce more graduate students in the arts and sciences than does UVM.

Report Urges Improvement

The report urged the University to improve research opportunities at Vermont by 1) offering financial assistance towards the cost of having an article typed and published. 2) cooperating with other agencies in the state. 3) reducing the teaching load for professors doing research, 4) "taking a more constructive attitude in securing scientific equipment needed for research, 5) and by providing financial aid for necessary travel through additional research grants.

The College of Medicine was held up as an example of what can be done to encourage research. In 1935 the American Medical Association found the school to be sterile insofar as research was concerned, and it threatened to withdraw accreditation unless a research program was instituted. Under the leadership of Dean Brown the college was transformed. Now research is encouraged, and the Deans and department heads are actively concerned with securing grants for research.

Medical College Helps Professors

Professors doing research in the Medical College are given publication subsidies and travel allowances. The College provides secretarial assistance. The college pays adequate salaries. Classes are not so large as to overwhelm the professor, and his working hours are not such as to leave him "too exhausted to undertake original research." The medical researcher now has adequate library and staff assistants.

The memorandum concludes its comments on the Medical College by stating that it has "created a research environment for its members.

Brotherhood Week

Observances of National Brotherhood week at UVM will include talks by Dr. Amiya Chakravarty, who has been an associate of Dr. Albert Schweitzer. The program is sponsored by the religious activities committee which has planned a supper for Sunday, February 5, at 6:00 in the Ohavi Zedek Temple.

A luncheon is also scheduled at which Dr. Amiya Chakravarty will talk, and the well-known scholar will also visit classes. Other plans for the week are being developed.

Dr. Chakravarty was born in Serampor, West Bengal, India. He has taught at many American Universities. He has contributed articles on religion, literary and international themes to the New York Times, Atlantic Monthly, Manchester Guardian, and many other journals. He has been with Mahatma Ghandi and joined him in his 'peace-marches' in Indian villages during communal disturbances in 1936-38.

The Air Science Department at the University of Vermont instituted a new program of flying faculty members to better acquaint them with cadet orientation flying and the work of the Air Force ROTC program. The first group to fly included (left to right) Donald Hardy, Coordinator of Student Affairs; Dean Kidder of the Arts and Sciences College; Colonel Herzberg, Professor of Air Science at U.V.M.; Dean Coutts, Dean of Men; and Cadet Lt. Colonel John O'Connor, Cadet Wing Commander. These flights are taken in a C-45 aircraft and each passenger takes a turn at piloting the aircraft. Before the actual flight they toured Ethan Allen Air Force Base and flight line and are shown inspecting jet fighters on the line.

Chaplin Attacked By Cal. Tech For Ideas On Utopian College

The following is a reprint of a story which appeared in the California Tech., student newspaper of Cal. Tech.--editor.

by Alphonso Tangora

Are you disappointed with college life? Do you feel that you are missing out on the kind of education you really wanted? Have you decided that American colleges are characterized by an atmosphere full of superficiality and false values?

If so, you would like to meet Professor James P. Chaplin, chairman of the Department of Psychology at the University of Vermont. To quote Professor Chaplin: "I would abolish all fraternities, sororities, spectator sports, and most student extracurricular activities, in a Utopian college."

If you will permit me to be so bold, I have a somewhat different idea of a Utopian college. (On a farfetched guess, I would hate to be enrolled in a two-or three-unit course under this guy.)

I don't mean to quote Prof. Chaplin out of context. The quotation above (which appeared in an Intercollegiate Press bulletin early this year) was taken from an address entitled "The Values of Education." He went on to assert that most present-day college graduates are essentially failures, because they are ignorant in many areas, "have poor attitudes," and generally let their education drop upon graduation. He pointed out that fraternities are usually of benefit only to those college men that least needed the kind of social improvement they provide and extended this idea to the whole field of non-academic activities.

Prof. Chaplin's solution to the problem is a complete revamping of our educational system, arranged in such a manner that nobody will damn well ever go to college who doesn't plan to study hard and study long and not diddle away his spare time with athletics, politics and such recreations.

The person who does not have the type of mind adapted to such a reflective life would leave school at about the present junior-college level, and the colleges would be populated exclusively by serious scholars.

My tendency is to be a little afraid of the type of college graduate who would be a product of this system. Equipped with a splendid formal education, unable to pull himself off the ground with both arms, aware of all the political forces of modern America and kind of noisy with a soup spoon, he would be the upper crust of a new society.

If that is Utopia I'll settle for Caltech.

Many Activities Are Being Planned For Foreign Students

There are at the University now twenty foreign students. Their homes are scattered, including China, Belgium, Sweden and Rumania. Many of them are enrolled in the College of Technology, also in the Liberal Arts College, Agriculture and a few in the Medical School. Some are graduate students, and a group of about fifteen are medical interns and residents.

In the past the students have been shown various places of interest in the state. However, this year through the Coordinator's office it is hoped that the students will become more acquainted with student functions here at UVM. It has been planned for them to visit each student group at least once during the course of the year.

The Coordinator's office is familiar with immigration laws and makes special arrangements for them to visit places of interest in Canada. Arrangements are also made for the students to stay in private homes during vacations. They speak to many outside organizations and church groups. Many of the students have become interested and involved in community life.

Most of the students are here for nearly four years, although some come for a single year.

The college has no specific scholarships for foreign students, and therefore most financial problems are handled by the parents, or national governments, of the students.

Outing Club Plans Winter Hike Jan. 26 To New Hampshire

Winter fun to be had-cheap.

If you want adventure, an old fashioned good time plus exercise there is an event you should know about. It is called the Intersemester Outing Club Hike.

Thursday, January 26, at 10 a.m. a maximum of 30 hikers, skiers, snowshoe enthusiasts and snow bunnies will gather in front of Waterman to begin the trip to Campton Hollow, New Hampshire where the festivities are to be centralized.

The club's bus will be used for transportation to Tuft's Lodge in the Hollow. Other means of transportation are to be provided if, as expected, the signup sheet in lower Waterman overflows.

All that is necessary for the frolic is a sleeping bag or an assortment of blankets and $1.50 for each of the five days. Optional equipment are skis, snowshoes, vocal cords and the love of the out-of-doors. Meals and room are included in the $1.50 per person per day.

Tuft's lodge held in the valley pocket of Mt. Prospect and Mt. Isreal is situated close to Franconia Notch and Waterville winter facilities. The natural beauty of the spot is only surpassed by the fun that can be had there.

Gerard Shrewsbury, president of the club, will be your host and hike master. Wally Kessler, assistant hike master will also be there to help and advise.

Tryouts

Greg Falls announces tryouts for the hit production Picnic, which will be the University Players Spring production.

The tryouts will be held in Pomeroy Hall on Monday, Feb. 6, from 4-5:30, and on Tuesday, Feb. 7, from 7:30-9:30 p.m.

Mr. Falls emphasized that these tryouts are open to the entire student body; membership in the University Players is not necessary.

Did You Know?

. . .That in 1841 the president of UVM, Rev. John Wheeler, reprimanded four students for playing cards on the east side of the college building, remarking that their conduct was censurable "in playing cards at all, and especially in their manifesting their disregard to all propriety and decency in doing it in such an open and public manner."

Francis Weinrich

UVM CARILLON GREETS NEW YEAR

"Auld Lang Syne" was heard reverberating in the midnight air as 1956 came to Burlington. The strains came from UVM's memorial carillon in the third annual New Year's Eve recital which Francis Weinrich has played, and which has become a traditional part of the community festivities.

The recitals are short - consisting of the "old long since" and a few other appropriate airs, but the response from Burlington residents has been very favorable, particularly from the older people and shut-ins who were unable to leave home to welcome the new year.

This year Mr. Weinrich played to a much larger audience than before, since WCAX-TV had made a recording of the recital in advance. It went out on the air at midnight, together with a special New Year's message from Gov. Johnson.

MOVING BEAM X-RAY AIDS CANCER VICTIMS

Now in its third year of development, a new method of treating cancer by X-ray is being perfected by Dr. Oscar S. Peterson, Jr., in collaboration with Dr. Edward H. Brazell and Dr. Richard Adams.

Certain features of this treatment, which is referred to as Moving Beam X-ray Therapy, were developed in the United States by Dr. Peterson, and at a time when similar experiments were being conducted in England and Germany. It was Dr. Peterson's contention that greater benefits and efficiency would be obtained by making the X-ray tube mobile with the patient stationary; the European plan was the reverse of this. Dr. Peterson's method, in which the X-ray tube is rotated at varying speeds and with changing intensity around the patient, results in the delivery of greater radiation into the cancer or diseased area with less injury to the surrounding, normal tissue. Another original development not incorporated in any other like machine was a feature by which the X-ray tube could be guided in an irregular pathway rather than through a true orbit. By means of the Moving Beam, the patient no longer must sit up or stand erect, lashed to a supporting framework - a practice not only unpleasant for the patient, but often a frightening experience as well.

It was in order to develop these ideas of X-ray therapy that Dr. Peterson received a federal grant of about $50,000 three years ago from the National Cancer Institute.

One of the problems that the three doctors are currently wrestling with is the calculation of exact X-ray dosages to be given as the tube follows its irregular path. The "guinea pig" used in the experiments is a model made of wax and cornmeal, and stuffed with ordinary rice - a combination, from the X-ray's point of view, which most resembles the characteristics of the human body.

WCAX-TV TO SHOW "CAMERA THREE"

WCAX-TV will begin carrying the Peabody Award winning educational television show, Camera Three, on Sunday, January 22, at 11:30 a.m. This show, produced by CBS-TV in New York City, and by the New York State Department of Education, will be carried on WCAX-TV each Sunday at this time, according to Mr. Charles S. Lewis, public affairs director for WCAX-TV, who asked that announcement of the program be called to the attention of our faculty.

Congratulations And Obligations

Congratulations to the new Vermont Independents' Association, or the Independents as they are better known. They have finally been approved by the Student Association. They are therefore ready to perform a service to those students on this campus who are, for one reason or another, not interested in fraternity or sorority life. Recognizing that these unaffiliated people are often at a disadvantage when social activities or functions occur, the new group will strive to offer them social outlets.

But the new club has an even greater range of possibilities in that it can become an agency to mirror student desires to the attention of the SA to act upon.

Its need has long been felt. In any university where the majority of the people are not in fraternities or sororities, there is a feeling of unbalance. This has been corrected through the carefully considered and carefully enacted motions of the Student Association. They discussed the problem in an earnest and fair manner, and came up with the solution which will bring the maximum benefit and minimum discomfort to the entire student body.

By the same token the VIA must now live up to the high aims it professes, and must not sink to the level of an "anti-fraternity device" designed only to benefit a chosen few. If it becomes a mere fraternity without Greek symbols, it will have defeated its purpose and its *raison d'etre*. Should it live up to its goals it will develop into a most worthwhile organization which will bring credit to the entire student body. But the choice is up to it .... don't let us down!

Drinking And The Law

President Carl W. Borgmann gave as the reason for his new program of drinking regulations at UVM, the statement that the University could not condone infraction of any rules by its students. In effect he said that because there is a law about drinking, the University must see to it that the infraction of this law is not permitted. The assumption underlying this reasoning is that all laws are to be enforced.

While it is true that by far the great majority of laws are enforced, there are some which by common consent are not. If the President really wishes to enforce all State Laws, he does not need to go even as far off campus as the fraternity houses. Within yards of his office, right in the Waterman building itself, a state law is being violated daily with the full knowledge and consent of the University. We are referring to the sale of cigarettes to minors. Printed in red letters on every campus cigarette vending machine is the statement, "Minors prohibited from operating this machine." Yet the University makes no effort to see that this law is obeyed.

We do not, of course, advocate enforcing this law, but mention it as one example of our contention that not all laws are enforced, or even expected to be enforced.

Therefore, when the President said that drinking by those under age should be prohibited because it was contrary to a law, he meant that in his judgement this was a law which ought to be enforced.

What were the President's reasons then for feeling that this law should be enforced?

The answer to this question lies in the fact that some people of Vermont have a puritanical attitude towards drinking. This is evidenced by the refusal of the state's leading newspaper to accept any liquor advertising, by the severe limitations imposed upon Sunday drinking, and by the many towns which annually elect to have prohibition.

It is the representatives of the people of Vermont who now control a significant part of the University's financing, and no one understands this better than President Borgmann.

These representatives would naturally look with disfavor upon giving money to an institution which condoned drinking by minors. President Borgmann must realize this, and we feel it is probably for the purpose of maintaining good UVM-Montpelier relations that the President thought this law should be enforced.

Students must seek to understand the President's motives before they can justly decide upon the merits of his proposals. The motives which prompted President Borgmann to create his new program should also be of great interest to students because it is these same objectives which in the long run will determine for many years to come both the policy and the enforcement of drinking regulations at the University of Vermont. -M.G.A. In Defense Of Derangement

PART 1

Vermont is not a Sometimes Thing

By Gary Wright

When Samuel De Champlain paddled slowly into the Northeast Territory in search of an overland route to Plattsburg, he was somewhat chagrined to find a lake bearing his name. To cover his surprise he leaned nonchalantly over the rail of the ferry and, looking in an easterly direction, said, "Vert Mont."

This profound observation was a milestone in originality paving the way for such outstanding examples of local creativity as the Green Mountain Boys, Green Mountain Light and Power, and The Green Mountain Bar and Grill. It also provides an answer to those who maintain Champlain was color blind.

One should consider at this point what the results could have been had Champlain made his tour at any season other than summer. Vermont could very well have been "The Red Mountain State," or "The White Mountain State" (confusing New Hampshire no end), or, had Champlain been in a sour mood, simply "Nuts!"

(continued on page five)

Letter to the editor

TO THE EDITOR OF THE VERMONT CYNIC:

I feel that I am in no position to deny that the University has the right to enforce the State laws and University rules regarding the consumption of alchoholic beverages in houses and buildings under the control of the University. From a practical stand point of view, they do have this right, and no one can rightfully deny their authority, regardless of how they feel about the fairness of the action taken.

However, it is my contention that a structure that appears to be a bar, is not prima facie evidence that it is used for serving alchoholic beverages. Such a structure is often used for storage of dishes, aid in serving meals, and other uses to which the common counter is often put. In one particular Fraternity on this campus, I know that this is its sole use. Why should a useful storage compartment and working area be disposed of because it is labeled a "bar?" Is there anything wrong with a wooden structure as such?

Therefore, I feel that any action to dispose of a bar structure is unnecessary to to achieve the goals set forth by President Borgmann. The reason behind this requirement is that a bar is a symbol of drinking. By the same token should every Fraternity man throw away his beer mug with his name and Fraternity crest inscribed on it, or should all empty beer bottles in use as candle holders be thrown out? We might as well say that all farmers in the United States must throw away all their hammers and sickels because hanging on their barn walls they have a symbol of the Communist party!

Jack Noe '56

To the Editor of the CYNIC:

In a recent letter to the CYNIC, I criticized the University for misrepresenting the true purpose of the Alumni Memorial Scholarships.

It has since been made quite clear to me that my argument was based on a completely false premise. The University Bulletin does contain the statement that these scholarships are awarded for "indicated athletic promise." It also is so indicated in the "Scholarship, Loan, and Employment Information" mailed to out-of-state applicants.

Since my previous letter had indicated that this was not the case, I must offer my sincere apologies to those individuals concerned with the awarding of these scholarships and to the Administrative Officers of the University.

Perhaps I should have taken Professor Jack Trevithick's advice of last June, when he said, "Cut the Green and Gold umbilical cord lean," upon leaving UVM. Being a medical student, I should have realized the truth in his words.

At any rate, I still stand my ground on the charge that "scholarship" is the wrong name for these grants, and humbly suggest that either a change be made in name, or that UVM redefine the word. After all, the Russians have rewritten history. We can certainly twist one word.

Again, my apologies.

Very truly yours,

I. Bradley Gordon, '55

P.S. Moral of the story: "Look before you leap."

SPECIAL

It is now, my proud pleasure to offer this article as a service to the entire university and especially to the student body, I am now, and will continue to do so in the future, presenting valuable information to UVM students. Here, for the first time, is an advanced publication of six FINAL EXAMINATIONS!

PHILOSOPHY 9-Write an essay on the following subject, using the full time alloted.

"Why?"

Now, to this question, I can only answer, "Why not?"

ENGLISH 21-Check the answer that most correctly answers the question. Use the full two hours.

1) Shakespeare was ...
   a) a poet
   b) a writer
   c) insane
   d) all of the above
2) Finish this title. Confessions of ...
   a) St. Thomas
   b) St. Augustine
   c) St. Michael's
   d) St. Cyr
3) Gulliver's Travels was written by ...
   a) Gulliver
   b) Travels
   c) Rand-McNally
   d) J. Swift
   e) Swift & Co.
4) T.S. Eliot is ...
   a) a writer
   b) a poet
   c) insane
   d) none of the above
5) A user of the couplet ...
   a) Alexander Pope
   b) Prof. W.B. Pope
   c) Pope Pius
   d) Pepe Pope
6) Write an essay, two hundred (200) words on the semi-colon (;) and its part played in modern literature.
7) Summarize in 25 (twenty-five) words, Milton's Paradise Lost.
8) Summarize "Paradise."
9) Summarize "Summarize."
10) True or False--English is necessary to English speaking Peruvian tribesmen.

CHEMISTRY 13-Explain the following in as few words as possible. Use diagrams where necessary and:

THINK**THINK**THINK**THINK**
THINK**THINK**THINK**THINK**

1) H_2O
2) O_2
3) CO
4) H_2SO_4
5) H_2O_2

PSYCHOLOGY 183-Fill in the correct answers. Analyze each question.

1) Conditioning is ...
   a) getting in shape
   b) salivating
   c) hearing bells
   d) all of the above
   e) none of the above
2) Pavlov's dogs salivated when ...
   a) a bell rang
   b) given "Red Heart"
   c) Pavlov appraoched
   d) Mrs. Pavlov approached
3) The simple reflex arc is ...
   a) sensory
   b) motor
   c) not so simple
   d) a and c
   e) b and c
   f) just plain c
   g) just plain Bill
4) The ear is an organ for ...
   a) hearing
   b) collecting dirt
   c) all of the above
   d) none of the above
5) The eye is an organ for ...
   a) hearing
   b) collecting dirt
   c) all of the above
   d) none of the above

Write an essay, as complet as possible, on the causes effects, and results of gettin sea-sick if you were a duck.

ROTC -Answer the following
1) A good ROTC studen is ...

continued on page five

Around the Green

by Rhoda Rosenberg

CONGRATULATIONS to Phi Sigma Delta, Tau Epsilon Phi, Sigma Nu, and Delta Psi for the acceptance of their Kake Walk skits in the 1956 competition. The Phi Sig skit was written by Bob Wolfe '57 from New Haven, Connecticut and Don Greenhouse '57 from Mount Vernon, New York with the aid of Dave Klein '58 from Springfield, Massachusetts; Herb Brown '57 from Long Beach, Long Island; and Barry Stone '56 from Hewlitt, Long Island. TEP's skit was written by Jerry Cobre '56 from Brooklyn, Bob Levine '56 from Brooklyn, Dick Rosen '57 from Brockton, Massachusetts, and Richard Alper '56 from Brooklyn. Sigma Nu's skit was written by Gil Dedrick '56 from Statten Island and Allen Mackay '57 from Burlington. The skit from Delta Psi was written by William Balfrey '56 from Detroit. James Cleary '56 from Marblehead, Mass., Bruce Ferguson '56 from Lancaster, New Hampshire, Donald Bicknell '57 from Richford, Vermont, and John Webster '58 from Orleans, Vermont.

ALPHA EPSILON PHI

AO chapter of AEPhi recently had the privilege of entertaining their National President, Mrs. Joanne Cohen. At a tea held in her honor, Mrs. Cohen was able to meet members of the faculty, other sororities, and alumna.

Thursday evening, December 16, Phi Delta Theta and AEPhi had an exchange dinner. Good food and good company added up to a very pleasurable evening.

Gayla Schildhause was initiated this past Thursday, and the AEPhi's are all very proud to be able to add Gayla to their list of sorors.

Mrs. Elizabeth Robinson, housemother, was the guest of honor at a tea Sunday afternoon, January 8.

DELTA DELTA DELTA

On Wednesday evening preceding Christmas vacation the Mothers Club of Tri-Delt held a party for the actives at the sorority house. The girls were presented with a beautiful radio and two lamps for the living room.

DELTA PSI

Delt Scott Gilman '58 of Richford has left school to take a partnership in a Stowe resort. Good luck Scott.

During the Christmas formal weekend, the Delts held an open house on Sunday, December 11. This was the first one held at the Summit Street house, and judging from the response, the affair was a great success.

KAPPA SIGMA

New officers elected on January 3 were: President - Dan DeWolfe, Vice President - Jack Lafave, Grand Master of Ceremonies - Pete Allendorf, Treasurer - Dick White, Secretary- Skip Burkhardt, Housemanager - Harry Holland, Guards- Bill Trabold and Don Carrigan, Pledge Masters - Ed Beck and Bud Dacey.

LAMBDA IOTA

Recently John Cardwell from Proctorsville, Vermont, Richard Dowhan from Burlington, and Lou Kieffer from Simsbury, Connecticut were brothered up.

PHI SIGMA DELTA

Dick Seigel '57 from Woodmere, Long Island has been appointed Rushing Chairman. Pal Barofsky '56 from Brattleboro is the coach of the bowling team. Congratulations to Don Karp '58 from Newark, New Jersey and Bill Infeld '57 from New York City upon being elected President and Vice President respectively, of the Young Democratic Club.

SIGMA NU

The house enjoyed its biggest event of the fall of '55 in its Christmas Formal. The house was decorated to the theme of "Twas The Night Before Christmas." Dancing was the high spot of Friday evening with the annual Orphans party highlighting Saturday afternoon.

One of the members, Peter Netson, was elected to Alpha Zeta.

GOOD LUCK

ON YOUR

EXAMS!!

CLOUD 7

Old Saint Nick really carried a bundle of surprises in his Xmas sack. Along with Christmas bells there were wedding bells, engagements and oodles of pinnings.

Wedding bells rang for Phil Dondero '58 of Detroit and Barbara Black of Detroit. Phil is a member of Delta Psi. The couple will reside in Burlington until they graduate UVM. Delt Psi Bob Collins '58 of Burlington and Mary Lew Cassano plan a June wedding. Bob and Mary Lew were recently engaged.

Joyce Morchower '56 of Morristown, New Jersey was pinned to Joe Prussack of Phi Alpha from the University of Richmond. Joyce is a member of Alpha Epsilon Phi. At present Joe is a member of Phi Lambda Kappa, medical fraternity at the University of Virginia. Belated congratulations to Kathy Oram, Tri Delt, a junior from Benson, Vermont and Skip Burkhardt, also a junior and a member of Kappa Sigma fraternity. Kathy and Skip were pinned about a month ago. Best wishes to Tri Delts Gail Dick, Anne Ward, and Nancy McGoughran. Nancy McGoughran '56 became pinned to Jack Meeth, a senior at Yale and a member of Phi Gamma Delta fraternity. Anne Ward became engaged to Hank Allen '54, an alum of Sigma Phi. Gail Dick became engaged to Don Reed, a graduate of Union College who is now an ensign in the Navy.

Phi Delt Pete Andresen pinned Betsy Torreson, an Alpha Chi at Marietta College, Marietta Ohio. Gerry Goldman '56, master frater of Phi Sigma Delta, and Cherie Boyarsky were engaged over the vacation. Gerry and Cherie are both from Passaic, New Jersey. Phi Sig Le Roy Williams '57 from Montclair, New Jersey pinned Joyce Austin also of Montclair.

Charles Wilkie '57 from Bellerose, New York gave his Sigma Nu pin to Connie Bridges from Hofstra. Sig Nu John Harrell '56 from Plattsburgh and Carolyn Brumbaugh '56 from Claysburg, Pa. are engaged. Hope Keeler, a UVM graduate, and Sig Nu Mike Morse '56 from Waterford, Connecticut are also engaged.

Kappa Sig Ed Burke was married to Miss Juanita Gidcomuzzi in Barre on Dec. 17.

The Alpha Chis announce the engagement of Jean Goodwin '56 from Maywood, New Jersey to Bob Gorman '56, a Phi Delt from Great Neck. Alpha Chi Carol Sunderland '56 from St. Albans was pinned by Dave Gaylord, an alum of Sig Ep.

Our very best to Mickey Rotanelli '57 from Pelham, New York and Paul Doronco who were engaged New Years Eve. Paul is now in the army. Toni Cook, an ADPi from Rochester, New York, was pinned by Hugh Bemis '57 from Clyde, New York. Hugh is a Sig Ep.

Theta Mary Davidson '56 from Larchmone, New York and Joe Hanlon from Colgate are engaged. Theta Liz Beck '58 from Westfield, New Jersey and Sid Russek, a Sig Nu alum, were also engaged. Sid is now in the army.

Derangement

(continued from page four)

Depending on one's point of view, the surface of Vermont is generally upland or downland. This is due to being rammed in between New York and New Hampshire with hardly room to spare. For the most part, the surfact is rocky, stony, and treey with very little area being housy (or housey). The uplands are known as rises, hills, small hills, and 'thet there peak'. Contrariwise (wow), the downlands are called hollows, dips, and bottoms. Several of these downland features are filled with water and are known by all sorts of colorful names such as Silver Lake, Silver Lake, Big Silver Lake, and Tickle-naked Pond. The mountains are named after whoever got there first except Camel's Hump which was named by someone who had never seen a camel.

In addition to being rocky, stony, and treey, the surface is also cattley. Although the large game animals, such as the Tyrannosaurus Rex, have disappeared, much sport is provided by the cattle as they double for deer in hunting season. Most residents consider hunting in season too dangerous and confine their activities to panther-watching, road racing, and dog collecting. In nearly all streams are found fish, cars, stones, and water. Vermont is largely unspoiled by modern progress.

The state has a very cool climate with daily temperatures subject to abrupt change during any season. Precipitation usually occurs. Snow is found to remain on the ground throughout the winter, excepting that which stays in trees, on roofs, and down necks. Winters require a special thermometer with an extension on the bottom enclosed in a heater. There are very few days with no weather at all.

At the last census, the population of Vermont was predominately men and women. Vermont is largely unspoiled by modern progress.

Postscript

(continued from page four)

a) brave
b) insane
c) Gung Ho
d) b and c

2) A --- (fill in) is long and heavy, made of metal, has a trigger, and goes bang-bang.

3) The command HALT is given when ...
a) right hand is forward
b) left hand is forward
c) at AT EASE
d) while marching

4) Who is Commander-in-Chief? ...
a) Mamie
b) Ike
c) Carl Borgmann
d) Gov. Griffin
e) Alfie Poinig

5) Write an essay 100 (one hundred) words or less on:
Why I liked summer camp? or,
Why I am looking forward to summer camp?

AFROTC -Same as the above five (5) questions except No. 2 (number two). This should read: An --- ----- (fill in two words) is long and heavy made of metal, has wings, and goes zoom-zoom.

Remember, this has been once-in-a-life-time publication service. With these questions and my blessings, half of you should be back in Febraury.

DOES YOUR SKIING COST TOO MUCH?

Unlimited chair lift rides* at Mad River Glen at $4.50 per day (week-ends) or $4 per day (week days.) Same rides would cost $6 to $8 at single ride rate! And don't forget Mad River's big 9-DAY SKI VACATION bargain ticket — only $29.50 for 9 days of unlimited rides — less than $3.30 per day — and on the finest of chair lifts, too. You'll get MORE SKIING — less waiting for MRG's high-capacity lift! Write for folder.

*These rates apply after Jan. 3, 1956

Cats Lose To St. Mikes: Top Union

As I See It

BY Ed Willard

We haven't said much about the basketball situation yet, but here comes! The attendance and support that one of Vermont's best teams ever has received this year has been poor. "Best teams ever?" you ask. We'll have to qualify this one but we think we can make the statement stand up. This year's edition of the Catamounts has drawn more applause than some of our great teams of the past. Not from UVM students; not many of you have been at games to do so; but from such unlikely people as St. Michaels students who watched the Catamounts play a great game against a top-heavy favorite St. Mikes team only to lose in the last two minutes and from the local citizens who brave the elements to see our boys in action. The reason behind this support of a Vermont team by all except university students is easy to see.

This club is a crowd pleaser. They have a great defense for such a bunch of little guys. They pull off some offensive plays that make you stand up and applaud. More than all that; these boys hustle. They didn't seem to realize that St. Michaels was supposed to bowl them over or that they were supposed to lose to New Hampshire either. We spoke to one team member before the St. Mikes game and asked him how we'd do. He looked at me with wonder. "We're gonna' beat 'em of course!" He was dead serious. Our Captain, Bill King spent last Wednesday in the infirmary but had enough "go" to play a great game on Wednesday night.

This is the hustlingest Vermont team we've ever seen. You'd agree if you attended the games. They're free you know!

. . . . . .

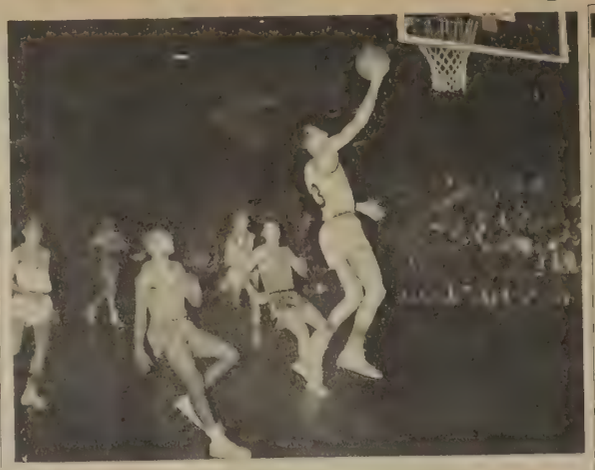
Thanks, Dave O'Brien, for a pat on the back well spent last Sunday.

. . . . . .

Cynic sports set-up was a bit botched up just before Christmas and we hope our readers, both of you, stayed with us. We hope now to return to our normal mediocrity so stick it out.

That doesn't mean to say that we don't have a few problems. We've got lots of them! First; basketball coverage. Most of the Cats' basketball contests are played on a Wednesday night. The Cynic copy goes to the printer on Tuesday. This means that basketball games played on a Wednesday get to you on the following Thursday, eight days later. Even the Friday and Saturday games are at least five or six days late. And that isn't all. As you've probably already noticed, our photographs, when they haven't actually been non-existent, haven't been of the best quality. This is not intended as a swipe at the Student Photography Staff but the fact remains, you the readers haven't received the good photographs that you deserve of your own teams in action.

So, you see, things could be better. We're not just griping to hear ourselves gripe. You can help. Any suggestion to make us a bit more timely and help us with our photography problem will be warmly appreciated. If you like sports and have an interest in photography, see me or contact the Student Photography Staff.



P.S. The "Crying Towel" will not be incorporated as a regular feature of this sports page!

Because of pressures from Deadweek and Final Exams, this will be the last issue of the CYNIC until February 10. The deadline for articles and announcements for that issue will be February 3.

The CYNIC wishes best of luck to you for the finals.

BRAINS ? ? - BRAWN ? ?

The New York Knickerbockers used to have a player named Braynes. One night the Madison Square Garden crowd was astounded, when as he entered the game to give Carl Braun a rest, the announcer said, "and now Braynes is replacing Braun in the New York line-up.

UVM basketballers Skip Burkhardt (3) and Dick Dennis (5) look on in dismay as St. Michael's ace Bill Kuchar (3) drives in for a lay-up in last week's hotly contested game. Others in the picture are John Wegryzinski (15) and Tom Lemanowicz (10) of St. Mike's with Billy Mann of Vermont in the background.
Photo, Courtesy WCAX-TV

Skiers Busy Four Meets

The University of Vermont Ski Team faces a busy schedule in the next two weeks as they prepare for the major part of their schedule coming up in the months of February and early March.

This weekend, Saturday and Sunday, the Skiing Catamounts are entered at the Hanover Relays and Jump at Hanover, New Hampshire. The first relay team will be composed of Frank Wall, Al Duval, Nelson Slack and Hugh Sinclair while Jerry Baril, George Silver, Frank Brown and one unannounced man will make up the second group. Wall, Sinclair, Baril, Brown, along with Bill White, Bart Larrow and Roger Piper will compose the jumping team.

On Sunday, the Cat skiers will enter the Giant Slalom at Mad River Glen. Norm Letart, Al Ratte, Bob Turner, Bob Edney and Martin Fors will represent the University as well as White, Larrow, Sinclair and Piper if inclement weather cancels the Hanover Meet.

On the following weekend, the busy Cats will enter the Vic Constant Memorial Race at Stowe. Down Hill races will be held Saturday with the Slalom being held Sunday. Frank Evans, Charlie Gee and Ken Eaton will represent UVM here as well as others to be announced.

In three meets so far this year, the Cat skiers have earned several places. At the Franconcia Cross Country, Frank Wall placed fifth as Dave Michael placed second in the Jump. The team placed fourth at the Lyndon Invitational meet the next week.

In two meets last week, the Cats also fared well. Captain Frank Evans placed eighth at the Orvis Trophy race at Bromley in competition with the best in the east as Frank Wall and Al Duval placed fourth and sixth respectively at the Jackson Cross Country meet in New Hampshire.

'Mural Mirror

A red hot Sig Ep team stands as the only unbeaten team in the race for the interfraternity championship as the regular season nears its end. The Sig Eps are narrowly ahead of the Delts and Phi Sigs with 3-1 and 3-2 records respectively.

Wills Hall, both parts of it seem to have the Dorm league all wrapped up as Wills 1-2 has three wins and no losses while the boys upstairs, Wills 3-4 have two wins against no defeats.

THE STANDINGS

Team	Won Lost
Sig Phi Ep	4-0
Phi Delta Theta	4-1
Kappa Sig	2-1
Lambda Iota	1-1
Tau Ep Pi	1-2
ATO	0-3
Theta Chi	0-3
League B	
Sigma Nu	4-1
Delta Psi	3-1
Phi Sigma Delta	3-2
Sigma Alpha Ep	2-1
Alpha Ep Pi	2-2
Sigma Phi	0-3
Acacia	0-4
Dorms League	
Wills 1&2	3-0
Wills 3&4	2-0
Buck. 3&4	1-1
Buck. 1&2	1-1
Chitt. 3&4	0-1
Chitt. 1&2	0-3

King, Burkhardt Pace Scorers

Coach George "Doc" Jacobs had to pull a couple of rabbits out of his hat in the persons of Drew Denmead and Dan O'Sullivan to fight off a determined UVM club in the last half as the determined Cats played the Knights "even Stephen" for all but the last two minutes of play before dropping an 81-64 decision in a hotly contested ball-game last Wednesday night at Memorial Auditorium. The Cats, who didn't seem to realize they were supposed to be trounced by the taller Knights played a whale of a ball-game until they finally ran out of gas with about two minutes to go in the game.

The Catamounts, up for this one as always, played the Knights off their feet in the first half, leading most of the way. St. Mikes left the floor in the first half with a slender 32-31 lead made possible by two baskets in the waning seconds of the half by John "Pickles" Wegryzinski.

The Cats couldn't connect in the opening minutes of the second half but came to life again as Captain Bill King scored a majority of his 17 points. The lead, which was never relinquished by the Knights wavered between six and ten points as the Cats tried to cool off St. Michaels who had received a shot of adrenilin in the persons of the aforementioned Denmead and O'Sullivan. Vermont just couldn't keep up the pace in the last two minutes of the ball-game, however, as Coach Fuzzy Evans substituted freely. The Knight's starters went on a rampage here to ice the final lead at 17 points.

Bill King led the scoring for Vermont with 17 points. He was followed by Skip Burkhardt and Dick Dennis with 13 and 11 points respectively. Dennis, playing a majority of the game in a reserve role, did a great job on the boards as well as scoring in double figures. Bill Kuchar with 21 points and Wegryzinski with 20 led the scoring for the Purple Knights.

After dropping their first post-vacation game to St. Michaels College, the UVM basketball team returned to the victory trail over the Garnet of Union College by taking an early lead and maintaining it to ice a 73-67 verdict in Union's brand new field house last Friday night.

Ahead by only two points, 62-60, with five minutes remaining, the Catamounts forged out as Skip Burkhardt and Al McLam contributed points. Burkhardt led the scoring with 23 points, while McLam and Bill King had 12 each. Baum was high for Union with 21.

BURLINGTON, VERMONT JANUARY 19, 1956

Elliot Lawrence Chosen K-W Band

Dartmouth Indian Chiefs, Coleman Hawkins Are The Featured Jazz Artists

The Dartmouth Indian Chiefs will get together with Coleman Hawkins to provide continuous music for the Kake Walk Jazz Concert this year. Hawkins has been called the world's greatest tenor sax player, and he is noted for his swinging instrumentals, and his extraordinary sense of movement.

The Indian Chiefs, according to the *New York Times* review "College Jazz Goes to Carnegie Hall," " brought to the program a variety and freshness that was missing in the work of the other college bands. And in Larry Elliott, their leader, the Chiefs have a trombonist of marked talent and imagination." The Chiefs have enjoyed engagements at Cornell, Williams, R.P.I., Jimmy Ryans in New York, College Week in Bermuda at The Elbow Beach Surf Club, and have appeared on Steve Allen's nationwide television show, "Tonight."

The " Hawk " is regarded by experts as one of the all-time greats. He has played all around the world during the long years of success that he has enjoyed since his rise to the top. Some of the men who have recorded with him are Gene Krupa, Glenn Miller, J.J. Johnson, Dizzy Gillespie, Pee Wee Russell and many others

The Kake Walk Directors decided that this year they would give the audience at the Jazz concert continuous performances. The jazz concert is to be held in Memorial Auditorium from 1 to 4:30 on February 17.

In announcing the jazz bands the Kake Walk Directors said that they " were more than pleased to be able to sign such a combination of versatile jazz music as these two bands will provide." They also said that " Jazz lovers are familiar with the Hawk's abilities and can only speak with the highest of praise when they mention this artist's skill. Hawkins offers Kake Walk the very best in jazz music."

Coleman Hawkins

Elliot Lawrence

Elliot Lawrence, star of many network radio shows, has been chosen to be the feature band at this year's Kake Walk Ball. Lawrence has been playing since 1931, when he suffered a polio attack and started working on music seriously.

He has accomplished what no band in history except his own has ever been able to do: He opened at the Cafe Rouge of the Statler Hotel in New York without any previous " big name" bookings. During his nine weeks engagement he appeared on some 20 radio shows, and and directly afterwards went to Frank Dailey's Meadowbrook. While at Meadowbrook he was selected for the "Daily News" Harvest Moon Ball which was presented at Madison Square Garden before 20,000 people.

In 1947 Elliot took his group to the famed Palladium of Hollywood where he was toasted as the " newest and brightest star on the horizon." As in 1946 he won the annual Campus Poll conducted by " Billboard Magazine." The group later triumphed in the Billboard Disc Jockey Poll and duplicated both accomplishments again in 1948. Other outstanding awards were made by " Orchestra World Magazine " and many independent college polls.

College Awards

While in college he won many musical and academic awards, composed school songs and captured the Thornton Oakley Gould Medal, the highest award given by the University of Pennsylvania

Even as a child in grade and high school he showed prodigious talents in music. He conducted his own orchestras and was recognized as an extraordinary composer for his age. His orchestra was called the " Band Busters " and was featured on WCAU every Sunday. Even as a sophomore he was engaged to play for proms at small colleges. The Pennsylvania State Music Association sponsored a contest for young pianists that he entered and won. With his regular high school studies he engaged in a music course consisting of theory, harmony, counterpoint, arrangement and orchestration. He completed that four-year series in two years and graduated Berwyn High at the age of fifteen

Wrote Alma Mater

During the Commencement ceremonies Elliot presented the faculty with a fully arranged composition of a song he wrote for the school.

Lawrence has a large amount of music experience from the business end as well as the playing end. After college he was named Musical Director of WCAU, a CBS network affiliate in Philadelphia, and one of the largest stations in the world. Today Lawrence serves as Musical Director for King Records, for whom he also records with his band.

Vienna Philharmonic Signs Contract With George Bishop Lane Artists Series As First Attraction For Coming Season

The Vienna Philharmonic, which will make the first American tour in its history under the sponsorship of the Austrian government next year, is the first attraction to be signed for 1956 by the George Bishop Lane Artists Series.

The Vienna will present 26-28 concerts during their 33-day tour in this country, with New York, Chicago, Boston and Washington getting two dates each. Their only other New England appearance will be before Boston University's Celebrity Series.

In announcing the orchestra's booking for December 1, 1956, Prof. Jack Trevithick, Executive Secretary of the Lane Series, disclosed that while no other presentations have been signed as yet, the Series will definitely book a play and is also interested in a pianist and a choral group as attractions for next year.

Trevithick is attending a convention of the National Association of Concert Managers in New York City this week, representing the UVM Series.

Signing an orchestra like the Vienna Philharmonic is not as easy as it may seem, points out Trevithick. "On a limited tour like theirs and being sought after by nearly every major concert series in the country, we were only able to get one booking date for them," Trevithick explains, "and that almost had to be cancelled because of a date with UVM's Thanksgiving recess."

"After checking with Vermont's Secretary of Civil and Military Affairs, Neil Houston, however, we found that Thanksgiving falls a week earlier than our booking date and so our contract stood as was."

"I'm very happy that the Lane Series was able to book this attraction because I believe it to be in keeping with the intentions of the Lane bequest," Trevithick said. "I am sure that the Vienna will come up to the standards set by the three attractions which have already appeared here this year."

Trevithick expressed pleasure at the reputation which the University-sponsored series has achieved in national concert circles in its first year under the Lane bequest. "This year's program, with such attractions as the London Philharmonia Orchestra and violinist Zino Francescatti, brought us into the concert limelight nationally," he said.

"It is fair to say, that the Lane Artists Series program is on a par with that offered by the top concert series in the United States," Trevithick continued, "such as programs given in New York City, Philadelphia and Washington."

Arrangements for the Vienna Philharmonic's tour next year are being made by the Austrian government, which is laying out about $60,000 for passage to the U.S. and back. The National Concert and Artists Corporation, which is in charge of bookings for the orchestra, has set a budget of $175,000 for the 33-day tour in order to "break even."

With capacity audiences, the tour could gross $250,000, a spokesman said.

Conducting the Vienna on tour will be Erich Kleiber and Andre Cluytens. Kleiber, who will conduct 15 of the concerts, recently quit as director of the opera in East Berlin in a fight with the Communist government there over control and policy. Cluytens, who is director of the Paris Opera-Comique, will conduct ten concerts.

The Vienna Philharmonic was founded in 1842, 11 days before the New York Philharmonic, and is considered one of Europe's finest orchestras.

Delt Psi, Phi Sig, Sig Nu, and TEP Have Skits Chosen For Kake Walk

Delta Psi, Phi Sigma Delta Sigma Nu and Tau Epsilon Phi had their skits accepted last week by the Kake Walk Committee for the 1956 competition. The twelve minute plays are regarded as one of the most interesting features of Kake Walk and representatives from the above fraternities all were confident of success

The Phi Sig skit was written by Bob Wolfe, '57, from New Haven, Connecticut, and Don Greenhouse, '57, from Mount Vernon, New York, with the aid of Dave Klein, '58, from Springfield, Massachusetts; Herb Brown, '57, from Long Beach, Long Island; and Barry Stone, '56, from Hewlitt, Long Island. TEP's skit was written by Jerry Cobre, '56, from Brooklyn, Bob Levine, '56, from Brooklyn, Dick Rosen, '57, from Brockton, Massachusetts, and Richard Alper, '56 from Brooklyn. Sigma Nu's skit was written by Gil Dedrick, '56, from Statten Island and Allen Mackay, '57, from Burlington. The skit from Delta Psi was written by William Balfrey, '56, from Detroit James Cleary, '56, from Marblehead, Mass., Bruce Ferguson, '56, from Lancaster, New Hampshire, Donald Bicknell, '57, from Richford, Vermont, and John Webster, '58, from Orleans, Vermont

EDITORIAL

Discrimination

The UVM Bookstore has just stocked an interesting publication entitled "Fraternities without Brotherhood," a campus report on racial and religious prejudice, by Alfred McClung Lee of Brooklyn College.

Neither the book nor the CYNIC disapprove of fraternities as such; we both feel that they perform useful functions on college campuses across the country. However, both the book and the CYNIC disapprove of certain aspects of fraternity life which both publications are pleased to note are quickly vanishing at UVM.

This is the question of barring a person from membership on racial or religious grounds.

The CYNIC is aware that a few campus fraternities have discriminatory clauses written into their constitutions, but we are equally aware that those clauses are not supported or believed in by our students, but have been imposed on the national level. The administration has set a deadline for those clauses to be removed, and already one campus group has been able to have its constitution revised. The others concerned are making considerable progress in this field, though their southern chapters are apathetic or antagonistic towards this change.

The book says of us "At the University of Vermont, the student union (S.A.) in February 1955, conducted a ballot to determine the extent of support for an end to fraternity restrictions within seven years. Five out of six students voted: 86 per cent answered "yes." The faculty and trustees immediately took action."

Such a favorable comment as this, and others scattered about us in the publication, will be seen and studied by faculty and student leaders in other colleges. It is much to our credit that we can boast of a record like that, and much of the credit belongs to the IFC and to the member fraternities. Their intelligent attitude in dealing with this problem has placed our university in a most favorable light indeed.

Library Situation

There has always been much talk that the library is totally inadequate for the needs of our student body, and we have always been a strong supporter of a larger building. But we recognize that a severe financial problem is entailed, and certainly we would have our new library if it were possible.

However, the handicap of our present one makes it all the more important that it be used correctly. Books are being mishandled by users. Shortly after a book is placed on reserve by an instructor it is usually dog-eared, underlined, and starred by the readers. This pointing out of the salient passages must be stopped; one person's idea of the highpoint may not be the others. Common courtesy should prohibit one from writing comments in page margins.

Many volumes are being taken without being checked out. Not only is this stealing, but it breaks down our efficient cataloging system. The library is seriously concerned with this problem, and there has been some talk of switching to a "closed shelf" system, where the student is unable to select his own book from the shelf, but must decide what volume he wants from the index system, and then must request an attendant to retrieve the book. This is a time wasting, and inefficient system. But more important, it highlights a disgraceful situation if college students are unable to use a library maintained for their own benefit and requirements. A very sad situation indeed.

One other aspect bothers us: this is the section where pocket-book publications are left on a "free" shelf and need not be checked out. The Library asks only that they be returned, and that students, if they so desire, place their own old books on the shelf.

The result: When school started in September, there were over one-hundred books on the shelf, not there are just three.

Letter to the editor

Editor - THE CYNIC

We are of the opinion that somebody goofed.

Throughout the year we have been reading in the CYNIC that there is no interest in the athletic teams of UVM. When we do get a team which is good and has a large following it is not possible to get to see it play.

we are referring to the SMC - UVM freshman game last Friday night. At least 100 interested fans were turned away from the gymnasium in the period of 6:40 to 6:55. This seems to us to be very poor planning on somebody's part. The gathering at the Middlebury-UVM freshman game should have indicated the present interest in the team.

There is a sizeable number of students whose school spirit and athletic interest was not raised by being sent home in the snowstorm last Friday night.

Let's not hear any more about lack of interest in sports here until such situations as this are cleared up.

Three Disgusted Sports-Minded Students

VOL. 73 THE UNIVERSITY OF VERMONT AND STATE AGRICULTURAL COLLEGE NO. 26

BURLINGTON, VERMONT FEBRUARY 9, 1956

Present Five KW King, Queen Candidates

Players To Present 'Awake And Sing' At Fleming

" Awake and Sing!" a play by Clifford Odets will be presented as a Reader's Theatre performance in the Fleming Museum Sunday, February 12 at 7:30. The cast is composed of both faculty and students. Admission is free.

This play is a third in a series of earlier American plays being presented annually by the University Players. " Awake and Sing!" was first presented by the Group Theatre in 1935 and was the first full-length play of Clifford Odets' to get a Broadway production. Odets has since written " The Country Girl," " The Big Knife," and " Golden Boy," all of which have been favorably received first on Broadway and second as movies.

" Awake and Sing!" as considered by many to be the best American play written about the social and political unrest of the Depression. It depicts a New York Jewish family's reactions to the pressures of the Depression, and it is noteworthy for its humor and its sensitive understanding of the family.

A panel of three faculty members will conduct an informal open discussion about those aspects of the Great Depression developed in this play. Members of the panel have not been announced.

The cast includes; Dean Alan Coutts, Professors Eleanor Luse, Sam Bogorad and Ralph Vanderplice, Mr. Don Hardy, Gretchen Devendorf, Gary Wright, Richard Harrison and John Kenney. Production will be supervised by Professor Greg Falls.

Refreshments will be served in the Fleming Lounge after the performance and for the panel-discussion.

Announce New Rating For Term End Average

At a recent meeting of the University Council it was decided that grades received by students in Physical Education and Hygiene are to be included, at the rate of one semester hour each, with the grades in other subjects in computing each student's average for the semester and for the academic year. This new policy will go into effect beginning with the second semester of the current year.

The semester averages are used primarily to determine eligibility for fraternity initiation. The year averages are used to fix, for men students only, the respective rank for each student among the men in his class. This information is furnished on request to the various local Selective Service Boards for their use in granting or withholding classification as a student, and for the draft.

Since Physical Education is required of all students, and Hygiene of all Women students, unless exempted for some reason, it is important that these courses be taken seriously and the present excessive number of failures through neglect be reduced.

Lorrie Buehler

Lorrie

Lorrie is a senior Home Ecite hailing from West Orange, New Jersey. Her activities at UVM have included feature and sorority editorships on the *Ariel* and she has started with the UVM Band

Bill

Bill is a senior in the College of Technology majoring in business administration. Rutland claims him as well as Sigma Alpha of which he is president.

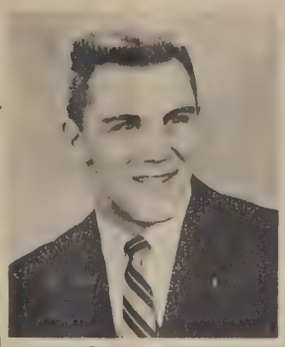
Maddy

Maddy, an Alpha Delta Pi, is from Burlington and is studying to be one of our future elementwry teachers. She devotes much time and effort to such student organizations as the *Ariel*

Bob

Bob emanates from Montclair, New Jersey and is a sophomore majoring in Geology. He plays center on our football team and is a member of the Varsity Club.

Betty



Betty is a senior from Randolph and her major is Business Education. She was voted a Junior Beauty last year and is Social and Publicity Chairman of Alpha Chi Omega.

Bill Grace

Maddy Fournier

Bob Holenstein

Betty Slayton

Introductions Are Main Event Of Pops Night

Five candidates were presented here tonight for the regal positions of King and Queen of the UVM Kake Walk Festival.

Each candidate was introduced through the medium of a skit presented by his or her respective fraternity or sorority. Delta Delta Delta sorority presented Lorrie Buehler as their Queen hopeful. Alpha Chi Omega's choice is Betty Slayton. Alpha Delta Pi is sponsoring Maddy Fournier.

Fraternity aspirants for the throne are Pi Delta Theta Bob Holenstein, and Sigma Alpha Epsilon's Bill Grace.

KW NOTE!

Any woman student who would like free admission to the walking for both nights can have her wish fulfilled by being an usherette. Those interested should sign up at the COSA office as soon as possible.

Active Campaigning Begins Tomorrow In UVM Cage

Pops night, tonight is the beginning of the campaigning by the fraternities and sororities for the King and Queen Kakewalk candidates. Unlike last year, the skits and Penny Carnival are being held in the cage of the boy's gym instead of Memorial Auditorium.

Penny Carnival, sponsored by the Women's Recreation Association, preceded the skits. It consists of different booths of games set yp by the Freshmen gym classes of the Women's Physical Education department. A small amount is charged for playing them from which the proceeds go into a building fund for a lodge for overnight trips.

CANDIDATES PRESENTED BY SKITS

The fraternity and sorority skits presenting the King and Queen candidates followed immediately after Penny Carnival. Each fraternity and sorority running a person presented a short skit, introducing their candidate. There was a definite time limit to avoid having the evening run very late.

The bulk of the campaigning will be done Saturday. The different houses with candidates may present skits in the afternoon from 1-4 and from 7-9 in the evening in the cage. These skits will be similar to those the houses presented in the Waterman Coffee Shop in previous years. All campaigning in the Coffee Shop has been eliminated this year. Each group will be allowed to present one skit in the afternoon and one in the evening. In between the skits and fraternities and sororities may be able to circulate and distribute leaflets, tags, posters and give aways publicizing their candidates.

POSTERS ONE DAY ONLY

Posters may be put up on campus Friday night and must come down the following evening. Campaigners and candidates will be able to circulate through all the dormitories and houses during Saturday only.

On Sunday afternoon there will be a Kakewalk Royalty Reception from 2-4:30 at Southwick. This will replace the Open Houses held in the past by the houses which won the King and Queen contests in the preceding year.

VOTE

Monday

Pan-Hell & IFC Reveal Rushing Period Results

The University of Vermont's 14 fraternities pledged 232 men recently, following an eight-day rushing period conducted by the Interfraternity Council.

Phi Sigma Delta and Delta Psi led the list with 40 and 30 pledges respectively. Other fraternity pledgings showed Phi Delta Theta and Sigma Nu 22 each, Tau Epsilon Phi 18, Sigma Phi Epsilon 16, Kappa Sigma and Sigma Alpha Epsilon 15 each, Theta Chi 13, Sigma Phi 12, Alpha Epsilon Pi and Alpha Tau Omega 11 each, Acacia 4, and Lambda Iota 3.

The Pan-Hellenic Council of the University of Vermont recently announced that 132 coeds have been pledged to the eight sororities on campus.

Delta Delta Delta led the sororities with 25 pledges.

(continued on page two)

New Trophies To Award Top Teams "Walkin Fo 'De Cake"

This year, new Kake-walking trophies will be awarded to the top three teams on Friday and Saturday evening of Kake Walk. These trophies will have a Kake walker in the traditional pose on the top of each trophy. Another new feature is the awarding of individual trophies of a Kake walker to each of the walkers inscribed with the Fraternity name.

Those who will be "Walkin ' Fo de Kake' this year are: Acacia, George Hanson and Al Tyler; Kappa Sigma, John Glascione and Frank Caruso; Sigma Alpha Epsilon, Bill Mead and Bob Longhi; Alpha Epsilon Pi, Fred Kupperman and Paul Goldstein; Tau Epsilon Phi, Charlie Pitman and Larry Birnbaum; Sigma Phi, Glenn Dewey and Stan Shannon; Sigma Phi Epsilon, Gary Richardson and Hugh Bemis; Phi Delta Theta, Bill Farwell and Jack Stetson; Sigma Nu, Dave Henderson and Dave Ireland; Alpha Tau Omega, Ray Polley and Walter Blake; Theta Chi Dave Hoelterling and Bob Peterson; Lamb Iota, Bob Benoit and Louis Kiefer; Delta Psi, Bob Collins and Joe Barry; Phi Sigma Delta, Stan Reiter and Mike Abramson.

Prior to the actual Kake Walk festivities, the Penny Carnival will have the spotlight. Booths will be set up in the cage to test your skill in various games. Prizes will be awarded to those victorious ones. However, the main feature of Penny Carnival will be the introduction of the King and Queen candidates. Each Fraternity and Sorority who will sponsor a candidate will introduce their choice by means of an original skit.

Kake Walk will be officially ushered in February 16 at the Kake Walk Ball. Music will be provided from 9:00 - 1:00 by Elliot Lawrence and his orchestra. The King and Queen will be announced at the dance and the couple will be crowned by Elliot Lawrence.

Friday afternoon at Memo-

(continued on page two)

Dance Workshop Plans Schedule This Semester

Dance Workshop has planned a full schedule of dance activities for this second semester. This is in preparation for the Fine Arts Festival which will be given on April 28 and 29. This Festival is designed to show the creative works of UVM students interested in the fields of the dance, music, drama, and art.

Regular dance workshop meetings will be held every Tuesday night beginning Feb. 6 at Southwick from 7:00 P.M. to 9:00 P.M. All are invited to come, both men and women, to the weekly meeting. The first half will consist of warm ups and the second half of individual and group choreagraphing of new dances for the Festival Program. No previous training in dance is necessary. Interest and participation are the only requisites.

Dance Workshop, although only fairly new organization, under the direction of Martha Howe of the Physical Education department has had busy fall and winter season. The "Fable for Football" part of the Vermont Varieties over Home - coming week-end was danced by members of the Workshop. Several of the performers danced excerpts of the whole number on the T.V. station in Plattsburg. Also in the fall, members of the group gave an informal dance demonstration to the Newcomers Club.

Forty - Nine Army ROTC Cadet Officer Positions Are Named

Appointments of forty-nine senior Army ROTC students at The University of Vermont to cadet officer positions were announced last night following a banquet in the Green Room of the Hotel Vermont.

Top position of regimental commander, with cadet rank of Colonel, went to William B. Nichols of Manhasset, N.Y. Miss Barbara Leggett of Weymouth, Mass., Military Ball Queen and Honorary Colonel of the Cadet Corps, pinned on Col. Nichols' new rank insignia.

Cadel lieutenant colonels are George H. Hansen, Rutland, Regimental Executive officer, and two battalion commanders, Robert G. Gorman of Great Neck, N.Y. and Edward J. McCabe, Jr., Larchmont, N.Y.

Appointed cadet majors were Kenneth L. Wadley, II, Great Neck, N.Y., regimental adjutant; David S. Thorpe, South Burlington, regimental operations officer, and as battalion operations officers, Lawrence M. Klein, Brooklyn, N.Y. and Bruce E. Hausser, Farmingdale, N.Y.

Company commanders, cadet captains, are Edwin Beck, Jr., Waltham, Mass., Jan D. Curran, Burlington, Murray J. Guy, St. Johnsbury, Theodore D. Lyman, Jr., Swanton, Thomas J. Marx, Shelburne, and Morrill H. Soshnick of New York, N.Y.

Other cadet captains are John M. Quinn, Burlington, assistant operations officer, David S. O'Dwyer, Larchmont, and Arthur E. Solomon, East Barre, battalion adjutants.

Announcements, all in the form of cadet promotions, were made at the conclusion of a dinner sponsored by the Ethan Allen Rifles, Military Honorary, by Lt. Col. William E. Cox, Professor of Military Science and Tactics.

Promoted to the rank of cadet first lieutenants were Myron B. Brown, Robert J. Lovejoy, Harvey Shlaferman, and John J. Whalen of Burlington; Donald Aikman, Mark Gold, James W. Smith, Jr., and Donald M. Zarou of Brooklyn, N.Y.; Joseph T. Aidala, Bayside, N.Y., Robert E. Benoit, Enosburg Falls, Samuel Berger, Mt. Vernon, N.Y., and William E. Blakeman, Bethel.

Also Norman A. Coe, Schenectady, N.Y., Theodore S. Davis, Englewood, N.J., Gilman T. Dedrick, Staten Island, N.Y., Jason M. Dropkin, Boston, Mass., Gerald Goldman, Passaic, N.J., Myron J. Goodstein, Fitchburg, Mass., Donald E. Grady, Passumpsic, J. Lawrie Hibbard, Jr., Montpelier and Sidney Izenberg, Rutland.

Also Kenneth A. Kurjiaka, West Pawlet, Clyde E. Lewis, Jr., Brattleboro, Daniel R. Milloy, Manhasset, N.Y. Terrance J. O'Donnell, Holyoke, Mass., Bert N. Smith Hardwick, Lawrence Soldovier, Staten Island, N.Y., Fred A. Solo-Verona, N.J., Barry N. Stone, Hewlett, N.Y., Charles P. Szendrey, Garfield, N.J., Ralph S. Winer, Peabody, Mass., and John H. Willey, Essex Junction.

Banquet guests included Miss Anna Rankin Harris, dean of women, Alan Coutts, dean of men, Robert H. Kroepsch, dean of administration, Joseph E. Carrigan, George V. Kidder, Edd R. McKee, Thomas C. King, Deans of the colleges of Agriculture, Arts and Sciences, Technology, and Education and Nursing, respectively, Col. Allen F. Herzberg, Professor of Air Science, J. Edward Donnelly, Director of Athletics, and Col William B. Moore, Vermont Military District.

New Trophies

(continued from page one)

rial Auditorium, the Jazz Concert will be held. Coleman Hawking and the Dartmouth Chiefs will provide the entertainment. Admission will be $1.00 per person. Friday evening at Memorial will be the Skits and Kake Walking. The Four houses presenting skits will be Tau Epsilon Phi, "Rebel With a Cause," Sigma Nu "Southward Ho!", Phi Sigma Delta, "The New Look" and Delta Psi, "The First Degree."

The judging of snow sculptures will take place Saturday morning, followed in the afternoon by a basketball game with St. Anselms. Saturday evening, the skits and kake walking will be presented again.

Rushing

(continued from page one)

while Alpha Delta Pi pledged 21 and Pi Beta Phi 20.

Completing the list are Gamma Phi Beta 19, Kappa Alpha Theta 18, Alpha Chi Omega 13, Alpha Epsilon Phi 13, and Sigma Gamma 2.

THE SKI SHOP

extends best wishes for a happy Kake Walk. Please feel free to make the SKI SHOP your ski headquarters for this or any other weekend.

Owned and operated by college students FOR college students, we have a COMPLETE line of the finest in all types of ski equipment and accessories. You may select from the best in Skies, Bindings, Poles, Boots and clothing in our pleasant shop. Our experience and friendly advice on any skiing problem are yours for the asking. We realize that WALLET - sizes, like ski proficiency differ from one person to another. We have service and equipment for all budgets and levels of ski ability.

Our repair shop offers fast reasonably-priced repair service of the best quality.

And do call us if you would like a complete rental outfit for the weekend for you or for your date. We will be glad to reserve one for you.

Stop out and say hello or "brouse" won't you?

We are just beyond Radio Station WJOY and the UVM far.

COLOR TRAVEL FILMS

Going To Europe

You are invited to attend a free showing of color travel films and hear Lawrence Fox discuss student travel abroad.

Mr. Fox, has led touring groups of students in Europe on five occasions. One group worked with Europeans rebuilding war damaged Youth Hostels. A former radio announcer, Mr. Fox conducted a series of interview programs for the BBC. He broadcast from such places as Paris, Copenhagen, Oslo, Stockholm and London.

On his tour of Scandinavia his group cycled 1700 miles. Five girls were included in this tour. Contrary to popular opinion, states Mr. Fox, the girls were not unusual.

Dr. Amiya Chakravarty Highlights Observance Of Brotherhood Week

Dr. Amiya Chakravarty, Indian scholar and professor, highlighted observances of Brotherhood Week here. Speaking at a dinner in the Jewish Center last Sunday, he said that all men have a common father and that it is to the advantage of every culture to mix with other cultures.

He pointed to the method by which India dealt with the English as an example of persuasion by moral means rather than by force. Even during the worst part of the revolutionary times when thousands of Indians were dying of starvation in the streets while the English had their fancy balls in the splendor of their hotels there was no physical retaliation on their property.

Dr. Chakravarty praised the British and said that they did not need his praise in order to stand as just people. However, he continued, "They were completely incapable of ruling India." Because of the peaceful method of separation, trade between England and India is now better than it has been for 150 years.

"Reappraise Your Policies"

The Democracies were warned that they should make a reappraisal of their policies in a speech delivered by Dr. Chakravarty on Sunday morning in the University Chapel. He warned against making alliances with others who did not believe in democracy. He said that the theory "The enemies of my enemies are my friends" was a false doctrine. "If the democracies continue to make alliances with dictators" he said, "They will lose the faith of the oppressed people in those countries."

"The democracies must realize that they have no monopoly on atomic bombs, military power, or any other material possession." Dr. Chakravarty said that every time the democracies stoop to the level of their opponents by engaging in a contest of strength through military power, they are weakening their cause.

"The strength of democracies is in their basic principles, and the democracies should take their message to the people of the world. . .No barrier can stop the message of the heart. This is the hour of call!" Dr. Chakravarty said.

Rev. Hall and Marv Nierenberg welcome Dr. Chakravarty to the campus. (Photo by S.P.S.)

Dr. Chakravarty has been associated with some of the great figures of our era, including Mahatma Gandi, Prime Minister Nehru, Rabindranath Tagore and Dr. Albert Schweitzer. On Monday he spoke about Dr. Schweitzer at a dinner which was open to the public.

The weekend was sponscored by the UVM Religious Activities Committee, which is a Tri faith group. Marvin Nierenberg and Suzanne Irons were in charge of the week's activities.

Dr. Chakravarty's speech on Sunday evening was entitled "The Unity of Man" and stressed the fact that man develops best when he is in contact with other groups that have different cultures and ideas. "We are all children of a common God" he said, "and we can all have loyalties to many groups." He urged men to seek a larger group for their loyalty. For example some of the smaller European countries were afraid that if there is a United Europe they would lose their cultural differences. Dr. Chakravarty said that the individuality which the States in the U. S. maintain is evidence that this would not be the case.

Dr. Chakravarty urged nations to consult their "deeper reservoir of conciousness" before acting. He seemed to feel that democracies often acted out of purely material or strategic reasons, without thinking out the deep moral implications. As an illustration of this he mentioned the Indian attitude towards the racial problem in Africa. He believed that it was his duty to bring to light the facts in Africa. Yet many of the other democracies had said to the Indian delegation in the U. N. "Why do you make trouble with South Africa? You could do a wonderful trade with that country?" Dr. Chakravarty said that there were more important values in the world than material goods.

A FIELD FOR DEVELOPMENT

Registration last week again demonstrated that our present system of assigning advisors to students needs a drastic revision. In theory a faculty advisor is a person who is supposed to guide a student through four years of college, and his guidance should come to the fore when pre-registration rolls around and the pupil is making up his new program.

In reality many students have no ideas who their advisor is, and the advisor has not the desire or time to track down his advisees. So the student is left to flounder by himself and generally asks any available teacher to sign his pre-enrollment card.

This leaves many openings for error. To cite one example, a A&S economics major might select a course which is offered in the College of Technology, but which does not carry credit in the College of Arts and Science. Then, again, a student may not be taking enough courses to round out his particular major, and this might impede or prevent his graduation for lack of proper credits.

A definite problem does exist, and the Administration should give serious attention to correcting it. We would suggest that each student be given a definitely assigned professor in the same field as his major subject. Each professor would be assigned a limited number of people so individual attention could be granted. The advisor would keep a file on the student under him, and would add to it as the person progressed through college, thereby giving the advisor a clear picture of just where his protege was headed. Sure this would take time, but if it is not going to be done correctly, why put up with it at all, as embodies in a sham system? Now it is doing no good, and is just a waste of time.

Many college modify this plan with a new approach. Honor student-upperclassmen are assigned freshmen, and these juniors and seniors who are assigned the role of " big brother " are responsible for setting their charges on the right track. This would apply not only in academic fields, but also to advise on extra-curricular and social activities.

Freshmen at schools where this system is in operation show a willingness to place trust in their fellow-student mentor, where they might not go along with the feelings and beliefs of a faculty member.

This system could be instituted through the present framework of the men's and women's honoraries, and could later be expanded to fit the situation. This has not been tried here before, and it might take awhile to develop, but it is a novel approach, and one which, we feel, has definite possibilities, and we should like to see it tried. Of course, the faculty advisors would need to be retained at first, for there cannot be a sharp break, but rather a gradual transition.

The important thing is to get some plan under study, so that we may offer to the incoming freshmen something better than what we have gone through.

In Defense Of Derangement

Vermont is not a Sometimes Thing
By Gary Wright

Much of Vermont's farm land is just that; farm land. Although it is extremely rocky, stony, and treey, the majority of the people seem to earn a living from it. (this has been the subject of a rather heated debate in the past) Dairying, the state's chief agricultural industry, is no doubt stimulated by the number of cows. What stimulated the cows is not known at the present. As far as dairying being profitable, one can say that the cows seem to be doing nicely.

In addition to shipping milk clear and hell and gone to Boston, Vermont also produces 40 percent of the Nation's maple syrup and sugar. This is accomplished by undercover import from 40 percent of the Nation's maple-product producing states.

Vermont also has important industries in antiques, tombstones, rustic anecdotes, mining, and lumbering.

It's a case of doing with what you've got, as the feller says.

Very little can be said for Vermont roads, the state being largely unspoiled by modern progress. For that fact, little progress of any sort.

Within the last few years, Vermont has been the leading vacation spot of New England. (that's what it says in my encyclopedia) Visitors enjoy black flies, billboards, and high prices in the summer, and blizzards, snowbound roads, and high prices in the winter. Skiing is a popular winter sport and Vermont provides several resort areas and hospitals. The supplying of tourists with garage and towing services is a very profitable business, Vermont being largely unspoiled, and unplowed. One driver reported going halfway up a ski trail at Mansfield before he realized his mistake. The Highway Department does its best, however, to keep the roads open and the State Police do their best to close them, so whatever happens, the tourist can be assured of being in good hands.

Vermont has a number of historical points of interest, but no one seems to know the number or the places.

Letter to the editor

Dear Editor:

On Sunday morning I raced down to Waterman to stand in line for my Kake Walk tickets. Far ahead of me stood students who were buying tickets and later selling them at profit for as much as ten dollars. I'd buy from them if I could afford eight or ten dollar seats, rather than stand in line.

Around me stood girls, members of campus sororities, buying their tickets, so that they, too, might have a chance to see the walking and the skits. Their dates aren't Fraternity members, so they can't be assured of seats in Memorial Auditorium.

Kake Walk is run by the by the fraternities you may say. But is that one hundred percent true? Sororities enter the competition for Queen, Penny Carnival is not fraternity sponsored, snow sculptor is carried out by the dormitories, and the poster contest is open to any student on campus.

Therefore, why should the fraternity members take preference over the majority of students on this campus? Why can't everyone have an equal opportunity to purtickets? Why can't some of this black marketing of seats be done away with?

Let's put the sale of tickets on the same basis for everyone. (And let's sell them at a decent time - not Sunday morning at eight o'clock!) Let's make Kake Walk an enjoyable experience for everyone - not a chosen few!

Jessica Fischer

EORGE LITTLE TO SPEND YEAR IN FORMOSA

George T. Little is now on he island of Formosa, where e will spend the next twelve onths as a professor Western iplomatic history at the Naional Political University nd professor in United States istory at the National Taiwan niversity. He received a year's eave of absence from UVM to ccept a grant from the governent in a program conducted by he State Department which ermits international exchange f persons for teaching and tudy.

Before he left on January 1, he said that " while my ork will be essentially that f teaching, the grant brings e to a key area in interational affairs. The problems f the Chinese people are ymptomatic of the politmcal roblems of the world, and I m pleased to have the chance o become a first-hand oberver."

Mr. Little travelled by air o Formosa, accompanied by his ife and their three children. e expects to be back at UVM n time for the second semester ext year.

His address while on the ther side of the earth will : c/o The American Embassy, aipei, Taiwan (Formosa).

RECENT SHOWS ON " LIVING AND LEARNING "

Two recent programs of the ' Living and Learning " TV now have dealt with analysis roblems connected with human lood. On January 13, Paul A. oody showed the television ddience how a blood test was ade and demonstrated the use f a testing instrument, the hotronreflectometer. During he program, Dr. Moody related indings in the research he as been conducting to deterine the relationship of rabits to rats and of the musk to the goat.

On the January 27 program, rs. John Maeck and Richard unders cleared up many of he questions the public has egarding the Rh factor in lood. The two physicians exlained to an expectant mother the causes of enemia in a newborn child, based on antibodies being built up as a result of a difference in the Rh factors of the parents' blood.

The next program in the " Living and Learning " series will be telecast over WCAX-TV at 7:45 P.M. on Friday, February 10.

MRS. MAYBURY ADDRESSES BUSINESS WRITING ASS'N.

Sally B. Maybury recently gave the main address before the American Business Writing Association in Detroit. She served as National President of the organization in 1955 and will take charge of arrangements for the Eastern Regional Meeting, scheduled for next May at the Corning Glass Center in Corning, N.Y. She is also continuing on the Association's Board of Directors for the current year.

The American Business Writing Association is an organization of American professors and business people with over 500 members in the country.

RESEARCH CLUB MEETS TUESDAY

Three faculty members who received grants-in-aid last summer will give informal talks at the University Research Club meeting on Tuesday, February 14 in Room 108 of the Home Economics Building.

They are Bennet Murdock, " The Role of Feedback in Learning;" Florence Woodard, " Population Change 1940 - 1950, A Neglected Element;" and Greg Falls, " Summer and Shakespeare." Refreshments will be served after the program to members of the Club and their guests.

MRS. ADAMS, GUEST OF HONOR ON TV SHOW

Mrs. Nelle A. Adams was questioned for a half hour on the television program " You Can Quote Me."

The panel consisted of three Vermont newspaper editors - all women - who questioned Mrs. Adams on her role as chairman of the Vermont Follow-Up Committee on the White House Education Conference. This was the first all-newspaperwoman panel ever to appear over WCAX-TV and perhaps the first in the history of television.

NOTICE

From time to time, the Public Relations Office will publish changes of address on this page. If your name, address, or telephone number is incorrectly listed in the University Directory, kindly notify the Public Relations Office, Ext. 342.

Faculty Notes

On Sunday, January 15, Winfield Durrell entertained the Youth Fellowship group of the Methodist Church in Shelburne with a visit to the Animal Pathology Department in the Hills Building. Various aspects of the work that is done in the department were demonstrated, and the uses of the equipment were explained.

THE SIDE-LINE CAT

by

ED WALKER

All readers I hope took a second glance today and saw that the column and the name had changed from the last issue. The initials are the same, but the editorial itself will be different in that I expect to bring some issues that have been hidden from view into the spotlight. For example, whatever happened to UVM's hockey team, and should the sport be re-established once more? This "S-L Cat" would appreciate any comments or suggestions that you have concerning the column be sent to him in care of the CYNIC.

Just the facts. . .Have you noticed that Coach "Fuzzy" Evans' basketball team has dwindled to ten men? . . .Freshmen basketballers have lost two of their starting five by the injury route. They are Clyde Lord (broken wrist) and Bob Gallagher (fractured ankle). The undefeated Kittens are going to have plenty of trouble with Dartmouth's "Big-Green" frosh in about a week . . .Baseball Coach Ralph Lapointe will really feel the loss of his captain Al McLam who was forced to leave school for a semester due to family illness. Al had been one of the big factors that helped UVM go undefeated in state competition the past two seasons . . . By the way, track Coach Archie Post asked me to announce that if anyone has ever run a 4-minute mile please contact him immediately. A match race against Australia's John Landy will be planned. . . The Green Mountain State is also happy to announce that the University is holding their annual singles and doubles handball tournament. It's not too late, - so sign up . . . Have you noticed that approximately half the Kake Walker's are members of a school team? . . . Larry Damon, UVM's representative at the Winter Olympics at Cortina, finished 51'st in his cross-country ski run, and what may not seem that a good performance to most of us, has to be looked at in the light that there were 200 performers in the event. Well done, Larry . . . This "Side-Line Cat" would just like to end this week's column by congratulating all those lucky individuals who passed this semester's Cozen's Test. . .

INTRODUCING: "SKIPPY" BURKHARDT

A 6'2", 185 lb. junior from Rutherford, N. J., Arthur "Skippy" Burkhardt promises to be one of the high scorers of this year's five. Last year he averaged about 13.2 points per game at his forward position. "Skippy" graduated from Blair Academy where he played on an All-State Champ Team and participated in the Eastern Championships. He is in the College of Technology and is majoring in Industrial Management, and also is a member of Kappa Sigma Fraternity, the Newman Club, and, by winning his letter last year, the Varsity Club.

Skip scored 23 points in Vermont's first cage tilt of 1955.

" Rollie " is really watching that ball as a St. Mike's player does the cha-cha.

Bill Treene on the jump.

support your team

Lose To Colby

A tall Colby team defeated the University of Vermont, Feb. 2, at Memorial Auditorium. It was the red-hot shooting of the visitor's Bob Bruns that had the crowd amazed. Bruns scored 37 points which broke his own college record by 4 and enabled Colby to come out ahead, 88-62.

Vermont wasn't having an average night as it threw away passes, dribbled out of bounds, and committed unnecessary fouls. The height advantage that the visitors had was too much for the Cats as captain Bill King was unable to get the rebounds that he usually grabs. The bright spot for Vermont was Bob Lovejoy who kept the Cats in the game until he fouled out, after scoring 22 points on 14 straight foul shots.

The slow first half was a foul shooting contest between Bruns and Lovejoy, and at halftime the Colby mules were in front, 40-33. Play picked up in the second half and after Colby moved to a ten point lead, Billy Mann started to hit tying the score at 49-all in the third quarter. This was the last Vermont say of the hard charging mules.

Mann, King, Pace Scorers

St. Michael's College assured itself of a tie for the state collegiate basketball title last Friday with an 81-63 victory over the University of Vermont Catamounts.

For ten minutes of the first half last night, Vermont made a terrific game of it. The Cats were stealing the Knight's thunder by quick breaking, ball stealing, popping one-handers from all over, and slipping through for layups. But with the score 23-22, Vermont, the Cats fell apart. The Knights then hit the point road and it went to 32-23 before the Catamounts got a conversion. At the half it was 46-28, St. Michael's.

A pair of one-handed push shot artists named Drew Denmead and Bill Kuchar took charge with a great display of shooting accuracy. Denmead threw in 24 points while Kuchar hit for 22 and Lemarowicz had 17. Down 22 points in the final period, the Vermont reserves cut the lead to 13 points but Coach Evan's shock troops ran out of steam and the Knights again opened the gap. Billy Mann was high scorer for Vermont with 15 and Bill King had 11.

UVM Senate Considers Plan For Compulsive Arts Courses

Compulsive courses in mathematics, the history of Western Civilization, "scientific heritage and perspective" and the fine arts are now under study by committees of the University Senate. These committees were set up as the first step in following recommendations made by the Senate Curriculum Committee, and if the committees report favorably the courses may be tried out on a group of test students.

The theory behind the proposed change in curriculum is that UVM's purpose should be to train "in the fundamental and applied arts and sciences, to the end that all her students shall go forth as citizens capable of playing an intelligent and responsible role in our society."

The Senate is considering recommendations also made by the curriculum committee to abolish the advisery system as it now exists, and to establish in its place, a formal orientation program for freshmen, with every faculty member acting as adviser to any student who would like his advice.

Five Required Subjects

In order to accomplish this the Senate felt that it would be necessary to institute a program so that specialized training would develop out of certain courses which were required of all students. These general required courses would aim at giving the student 1) use of communication, 2) understanding of mathematics, 3) knowledge of our historical heritage, 4) knowledge of the scientific method and its contributions and 5) a knowledge of the fine arts.

In making the recommendation to change the present adviser system, the curriculum committee said that it felt " most students do not appreciate the value of a liberal education as we have defined it." There is too much emphasis placed upon getting courses " out of the way " and too much antipathy towards " difficult " course. and too much reliance upon the " widespread underground advisory system among the students."

Frosh Orientation Course

To replace these factors the proposed orientation course would " demonstrate the value and necessity of a broad liberal education as well as vocation education." The student would be shown " how the required basic curriculum helps introduce other fields " and would be " helped to make the transitition from the general education of the secondary schools."

Committees are already being set up to plan in detail what will be taught in the courses under the new curriculum. The basic aims of the individual courses are as follows:

Communication: Continuation of the present required English course with more emphasis upon correct usage being given by professors in other courses.

Mathematics; Minimum objectives of the course would be to have the student gain " an appreciation of the origin and evolution of mathematical thought, an appreciation of mathematics as a unified and exact system of reasoning," and a realization that many of that many of the fundamental ideas of the physical sciences may be expressed through mathematics.

Historical Heritage: Every instructor should relate his subject with its historical background, and the history department would conduct a course in the history of Western Civilization for all freshmen.

Scientific Method: In order to appreciate our present culture one must understand the sciences. This course might be organized so that each science would present a few lectures outlining some basic concepts, while the " development and use of the scientific method ... would provide an underlying continuity. The course would include a laboratory.

Fine arts: A course in one of the fine arts according to the student's preferance.

Members of the curriculum and committee of the University Senate are Professors James P. Chaplin, chairman; Fred W. Dunihue; George T. Little; Howard J. Smith and Thomas Sproston, Jr.

Round Table Discusses Problems Facing Colleges Of Large Enrollment Increases

Many methods for dealing with the expected increase in enrollment of American colleges and universities were presented last week at the Round Table meeting. The meeting had one of the largest attendances of the year.

The discussion was led by a panel of Dean of the College of Arts and Sciences George V. Kidder, Dean of Administration Robert H. Kroepsch, Professor James W. Marvin and Professor Lyman S. Rowell.

The problem was discussed more in terms of using the available number of teachers rather than in terms of facilities. Some of the solutions presented included using larger lecture classes, expecting more independent work on the part of the student based upon the theory that the student must do his own learning, encouraging more people to go into education through a merit system of pay raises, using greater selection of incoming classes, and assigning fewer class hours to each hour of homework.

MORE AND MORE STUDENTS

Dean Kidder began the discussion by setting up some figures by which to judge the size of the problem. He pointed out that while the birth rate in Vermont had gone up 48% in the last twenty years the per cent of people of college has also gone up to a national average of 30% and is increasing at the rate of 1% a year.

He also said that because the capital cources of private colleges were limited, the greater part of the increase in college enrollment in the future would have to come from the public colleges. Dean Kidder predicted that the increase of students in public educational institutions would rise from the approximately 1.5 million students that is is now, to about 3.5 million in ten years.

TOO FEW TRAINED PEOPLE

Professor Marvin limited his remarks to the problem of obtaining teachers for increasing number of students. At present UVM has a faculty - student ration of about 1 to 14. If this ratio is to be maintained many more professionally trained people will be needed However at the present, Professor Marvin said, we are not even producing enough well trained people in many fields to fill the vacancies caused by death. As examples he said that at present the United States is training about 4,000 less engineers than die out. One answer to the problem might to increase teaching salaries.

MORE VERMONTERS AT UVM

Dean Kroepsch said that in one respect the University of Vermont was in an enviable position in relation to some other state universities. This is because the ratio of in-state to out-state students is about even. Because of this it will be possible to accept more Vermonters in the next few years by diminishing the the number of out of state students without having to increase capital expenditures. This gives the University a chance to catch up facilities for a student body of its present size.

In spite of the large number of Americans going to college, Professor Rowell pointed out that only 40% of the top fourth America's high school graduates go on to college. Professor Rowell said, "The answer is that while on the one hand we are trying to keep back the tidal wave of students, we must still intensify our recruiting."

MORE BAD EDUCATION?

Professor Rowell read statements by many college presidents, and those who were the heads of private institutions were generally more incline not to increase their facilities or the enrollment out of the fear that such a step would only mean "more worse education." Those responsible for the public institutions generally said that they would try to expand along with the demand.

The first step in deciding upon a course seemed to depend upon whether a particular institution wanted to give intensive or extensive education.

Economics Honor Society Holds Dinner Meeting

Last week the new Commerce and Economics Honorary Society held its first semi-annual dinner meeting at the Olde Board Restaurant. Honorary members were introduced, and include David Howe, publisher of *The Burlington Free Press*; William Lockwood, president of the Howard National Bank; The Honorable Warren R. Austin; and Hy Abraham, owner of Abraham's Drug Store. Mr. Howe was the guest speaker and surveyed world economic conditions.

The Commerce and Economics faculty were invited as guests and the following were present: Professors Lohman, Briggs, Greif, LeSourd, Lovejoy, Maybury, Nyquist, Sacks, Pratt, Severance and Woodward.

The Society plans similar meetings in the future with guest speakers throughout the state.

Pops Night And Penny Carnival Officially Initiate Kake Walk

By Lenore Weinstein

Kake Walk officially began last Friday night with Penny Carnival and Pops night held in the Cage and the Boys' gym. All the campaigning for the King and Queen candidates started then.

From 7-9 O'Clock in the Cage the freshmen women's classes had various carnival games set up to test the skill of the UVM students. and faculty. Prizes were awarded those who participated and won in such games as shaving the balloon, fishing for discs of Kake Walkers and blowing out the candles with water pistols.

The different sororities and fraternities at nine o'clock began performing their skits in which they presented their candidates for King and Queen. The skits, 15-minutes in length, were based on a central theme which the groups used throughout their campaigns. Maddy Fournier, ADPi's choice, was presented as "Queen of any Land." Alpha Chi's Betty Slayton was "Angel of Paradise." Tri Delt's slogan and the basis for their skit and candidate Lorrie Buehler, "Pretty as a Picture." An advertising agency was the background for SAE's presentation of their candidate Bill Grace and Phi Delt's used the story of "Snow White and the Seven Dwarfs" for their choice of King Bob Hollenstein.

The campaign posters greeted all UVM'ers early Saturday morning all over campus. In the afternoon from 1-4:40 p.m. in the cage the houses each presented two more skits. Posters, handbills, tags and throwaways representing their candidates were distributed by the sororities and fraternities ADPi's gave away toy banks of the world and model airplanes to support their theme of "Queen of Any Land." Tri Delts art theme was carried off with the handing out ofpaint brushes. The Alpha Chi's gave out small paper angels and marshmallows for their "Angel of Paradise." The Phi Delts in the afternoon presented carnations to the girls in the audience and the SAE's in the evening gave a carnation to every girl living on campus in a sorority or dormitory with her name individually written out on each plastic bag.

That evening after supper the groups visited the dormitories, sororities and fraternities with their candidates singing and wishing all best wishes for A Happy Kake Walk Weekend. At seven on Saturday evening the houses presented skits for the last time in the gym which ran to nine o'clock.

The campaigning finished up Sunday afternoon with a Royalty Reception held at Southwick from 3-5 by last year's winner of the Queen campaign Pi Beta Phi. The candidates were introduced and it was the last opportunity for most of the 400 people there to meet them before the voting on Monday. Refreshments were served and the candidates and the guests socialized throughout the afternoon.

Penny Carnival featured "gambling at its best." (Photo by SPS)

Everyone was dressed up for the annual event which is the chief forerunner of the Kake Walk season. The profits of the evening went to the Women's Recreation Association to build a lodge for overnight trips.

Marilyn Rosenberg Paints Winning Kake Walk Poster

This year's winning poster for Kake Walk as announced by the Kake Walk directors was created by Marilyn Rosenberg, a senior at UVM and native of Burlington. The annual poster award which will be presented along with the walking and skit awards

consists this year of both a cake and cup, and they will be awarded to Marilyn both Friday and Saturday nights in recognition of her contribution.

Art, though slightly more than just a hobby for Marilyn, has won for her other honors such as first prize in the Unior Week Poster Contest. She is well adept at painting in that many of her university courses center around the arts, and she has been in recent months instructing art in a private art class. Aside from these endeavors, Marilyn has also ventured into the field of commercial art and has been rewarded with considerable success for her undertakings.

Upon graduation, the future holds a career of teaching in store for Marilyn; but while she will devote the major portion of her effort to that profession, it is her desire to engage in continued free lance endeavors.

Lounge To Be Scene Of Annual KW Open House

By Gordon Smith

Friday, February 17, the Student Lounge will again be the scene of the annual Kake Walk Open House. This year the Open House will be presented by the newly formed Vermont Independents Association and sponsored by the Student Association. The Kake Walk Open House is an all-campus activity and welcomes the entire student body.

This year the Student Lounge will resemble a night club. An orchestra has been engaged and will provide continual music for dancing and relaxation from nine until one-thirty. Free refreshments will be served throughout the evening, and candle-lighted tables will complete the night club motif.

Committees have been hard at work with preparations. Gwen Lockwood is the committee chairman, and the subcommittee chairmen are: Ed Boadway, decorations; Ann Blodgett, refreshments; Gordon Smith, publicity.

JSAB Sets Holiday Rules And Regulations

The big Kake Walk weekend is almost upon the campus of the University of Vermont and already the campus is a beehive of activity. In fact long before Christmas vacation the fraternities were practicing their "walkers" for the big event and formulating their program of events to fit into the University regulations.

The Joint Social Activities Board has drawn up a schedule of social regulations governing the campus functions over the "Holiday."

These regulations limit Fraternities to a maximum of four social events consisting of buffets Thursday, Friday, or Saturday evening from 5 P.M. to 9 P.M. Open Houses may be scheduled Thursday from 11 P.M. to 1:30 A.M. and on Friday and Saturday from 9 P.M. to 1:30 A.M.

Each fraternity has been requested by JSAB to familiarize its members and guests with these regulations in accordance with other university regulations set up to curb fraternity "parties".

With a full course of attractions already on the agenda, fraternities are limiting their program to

(continued on page nine)

Putting out a candle with a water pistol is not as easy as it might seem. (Photo by SPS)

"Sleepy" Hill tries his luck at the art game during the successful Penny Carnival festivities.

Observe World Student Prayer Day Sun. In Chapel

On Sunday evening, February 19th, the University of Vermont will join with other students throughout the world in observance of the World Student Day of Prayer. In a service held in Ira Allen Chapel at 7:30, we will unite with an international fellowship in prayer that our scholastic efforts may be directed to worthy goals. We hope that this service will be a meaningful event and a successful conclusion to the excitement of Kake Walk weekend.

Well here you have it.... some of the events which add to the glory of the Kakewalk weekend. The directors promise that this-our fifty ninth-will be the best ever.

George Hall Heads Independents Association

George Hall, '56, was chosen president of the Vermont Independents Association, February 7, in the first election of that group. Alan Young and Lilla Ross, both sophomores, were picked for the offices of vice-president and secretary, respectively, and Ben Woll, '59, was elected treasurer.

The Independents were only recently recognized as an organization by the Student Association, and thus are just beginning to function as a group. This is the first year that they will have been eligible to participate in Kake Walk. They plan to have a snow sculpture and are holding an open house Friday night of Kake Walk week-end, from 9:00 to 1:30 p.m. in the student lounge.

The Vermont Independents Association is open to any student who is not a member of a fraternity or sorority. Dues are fifty cents per semester.

lunch for a real treat

EDITORIAL

IS HONOR FEASIBLE?

One perenial question asked by thinking students and faculty is - " Why can't UVM have an honor system?" The CYNIC recently spent some effort trying to find an answer, and the almost universal response is, there is total apathy about adopting one. The Administration is NOT opposed to giving it a trial, but will not go out of its way to get the ball rolling. The faculty would accept it, but only a few are willing to attempt it in their classes without a mandate from the authorities. As for the students - well, they are also apathetic.

A few which have taken the trouble to at least look at the situation, know it is divided into two parts. The first is personal honesty, and the second is the reporting of those who violate the code.

Naturally it would be ideal if the first did not require the second, but we are too realistic to hope for that Utopian approach. The thinking few regard the second requirement as the introduction of a " police state," but remember, it is a self-imposed situation. We will be policing ourselves, and let us hope that the majority of us would abide by the system, so the policing would only affect the recalcitrant minority. But it would be farcical to hope such a system would work unless it had almost universal student support. For its enforcement is up to the student body, and not solely up to the Administration, or better, the Student Court.

Unfortunately it is felt by many on this campus that the worse offense a student is capable of is to " squeal " on a fellow student. This is a mores which most students are unwilling to violate for fear of incurring the social disapproval of their fellows. This feeling would naturally have to be overcome before an honor system could be instituted. Note, I did not say " imposed," for it must arise from the students. Our school has been operating for many years, and such a violent departure from the established custom cannot be forced on students, but must be applied with their full understanding and approval.

The students are not the only group which must be convinced. Many of the faculty, while not openly opposed , are at least suspicious of this new move. Many point out last Spring's unfortunate wave of cheating, and state that our student body just is not mature enough to enforce a workable honor system. To this we would like to reply " nonsense, our students are just like any others; same backgrounds, opportunities, customs, etc." Then we could elaborate by enumerating other universities where such a plan has worked for many years. I repeat that we would LIKE to hold this position. But we have received so little support for it.

So let's think about the question in our bull sessions and fraternity and club meetings. Let's have organized debate, and at least discuss the topic. Then when we have sufficient opinion willing to back the move, we can sensibly appeal, for at least on a trial basis, the establishment of the system. The Administration would be willing to go along with us, but the action, we feel, must come from our own group, not from above.

If we don't at least examine the problem, then much more than our honor is at stake.

Published weekly, every Thursday, during the college year, by the students of the University of Vermont and State Agricultural College. Editorial and business offices in Waterman Building, Burlington, Vermont. Telephone 4-4511, Ext. 344. Deadline for notices is Thursday, one week prior to date of publication.

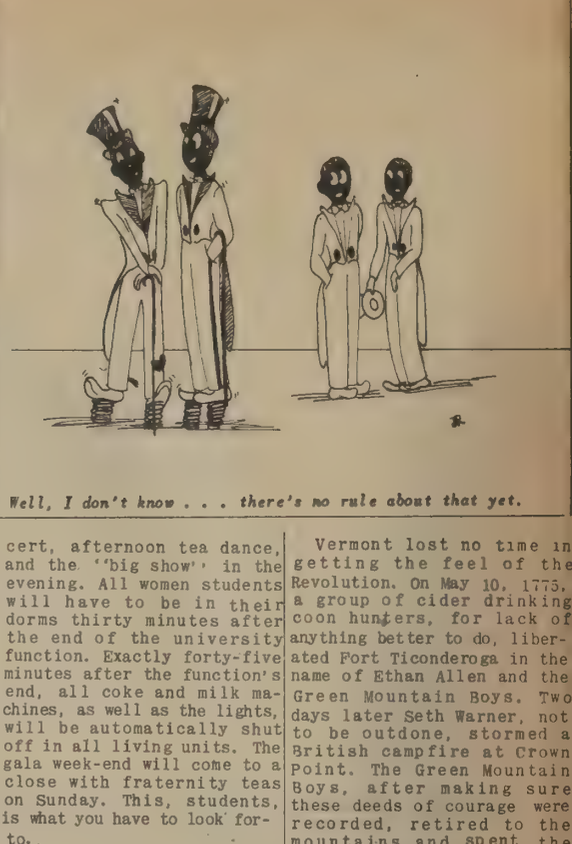
Founded in 1883. Subscription rate, $3.00 per year; single copy, ten cents. Acceptance for mailing at points outside Burlington at special rate provided for in Section 405 P. L. and R. of March 3, 1879, authorized October 14, 1926.

Poinig's Postscripts

by WOLFE

Shades of E. Scrooge and Jake Marley and one or two "Bah humbugs!" I am the Spirit of Kake Walk Past, Present, and Future. At the moment, I am the only spirit of any sort left in this great UVM week-end. Come with me as we travel through time and space and observe this social event as it was, is, and will be.

I am the Spirit of Kake Walk Past. Many disparaging comments concerning the wildness and wickedness of of my doings have been reported. For all intents and purposes, this is both a gross exaggeration and a mal-formed lie! Most students at UVM, especially the upperclass fraternity men, found my carrying-ons too fame for them. Now, we must face the facts; the "Walk" and skits are just a mere formality of the week-end. As far as my capacity is concerned (five quarts), the house parties are what make these events perfect. Nothing is quite as fabulous as a real good old fraternity brawl.



One feature of "my" Kake Walk is the King and Queen campaign as it should be. The best display of fraternity and sorority competition is shown with the week-long demonstrations for their favorite. The whole student body looked forward to the skits in the Coffee Shop and and the taxi services. Now, that is just fading into obscurity and being boarded up with the other symbols of hedonism.

Come gather around all ye discriminating, righteous, and pure minors. I am the Spirit of Kake Walk Present. It is I who will prevail for three nights and four days. As hard and impossible as it may appear, you must learn to follow the " new deal," No more will Bacchus warp your little perverted minds and bodies, especially the underclassmen. Fraternity houses will once more be homes of gentlemen, law abiding gentlemen. Their lodges will be the setting for civilized and adult tete-a-tetes with the coeds. No longer will the wine be placed on the table; no longer will the Coffee Shop be disrupted by those horrible campaigns; no longer will Redstone women be treated to bus service. UVM will continue to further its academic aims and propriety. Remember, you are students and adults; you must act like like the adults you represent, not the boors you once were. The change can not be gradual, but abrupt. The Kake Walk of the present has been established as a modern Utopia for colleges everywhere. You the students must not destroy this little dream.

Welcome all you soppers of knowledge to your first K.W. in the future. Me? I'm the Spirit (extra dry) of Kake Walk Future. Many changes have been seen in the past few years, but you are the chosen few to observe and look ahead to the expected and awaited unforeseen. With the school's new mammoth auditorium, all persons can now attend the "Walk" in one evening. This being coupled with an afternoon tea dance has eliminated two whole nights. Pop's night (God knows why called Pop's) is held on Friday night of the weekend. The King and Queen are elected by electric applause meters at that time. This completely rids the campus of all campaigning. The following day witnesses a mid-morning (after classes of course) jazz, concert, afternoon tea dance, and the "big show" in the evening. All women students will have to be in their dorms thirty minutes after the end of the university function. Exactly forty-five minutes after the function's end, all coke and milk machines, as well as the lights, will be automatically shut off in all living units. The gala week-end will come to a close with fraternity teas on Sunday. This, students, is what you have to look forto.

Well, dear reader, this is it, my survey of Kake Walk. all but the frosh have experienced the Spirit of the Past and the Spirit of the Present is upon us. Shortly, the Spirit of the Future will evolve and then...

At this point in the story Tiny Tim should hobble in and shout his bldssings and everyone will live happily everafter. This story is our story and all the students are T. T. who must civilly show Scrooge the best way to the hapoy ending. This is the 59TH "Walk" and far from the last, if we hobble on our crutches

Well, I don't know . . . there's no rule about that yet.

in defense of derangement

By Gary Wright

Vermont is governed under its original constitution adopted in 1793. Numerous amendments have since been added, but nothing outstanding. Vermont is kept largely unspoiled. Once every 163 years amendments may be proposed by a nine-tenths vote of the Senate and an overwhelming cheer in the House. Any citizen over 50 may vote or drink according to how he feels, provided he has established residence of six years.

The first white man to enter the region was Samuel de Champlain, the famous French bootlegger. In 1609, he encouraged the Algonquin Indians against the Iriquois. Old Sam liked nothing better than a good fight.

The period between 1666 and 1759 was filled with numerous persons trying to establish the first settlement. Most of these were burned to the ground, people who were left voted "dry" and went back home.

By 1775 the territory was realized to be a choice bit of land with New York, New Hampshire, and Massachusetts all fighting for possession. Several times since then Vermont has been offered as Grand Prize in Nation-wide contest and has had no takers

Vermont lost no time in getting the feel of the Revolution. On May 10, 1775, a group of cider drinking coon hunters, for lack of anything better to do, liberated Fort Ticonderoga in the name of Ethan Allen and the Green Mountain Boys. Two days later Seth Warner, not to be outdone, stormed a British campfire at Crown Point. The Green Mountain Boys, after making sure these deeds of courage were recorded, retired to the mountains and spent the rest of the war throwing Indians into lakes.

From 1777 to 1891 Vermont was an independent republic. It coined its own money and brewed its own brew. For 14 years Vermont threatened to join Canada, while the rest of the Union said "go ahead." Finally New York settled its land claim for $30,000, drew across the lake in glee, and Vermont became the 14th state.

In the War of 1812 Vermont turned to boat building, but soon gave it up when the British began sinking the boats. Vermonters decided this was unsportmanlike.

In the Civil War, Vermonters were badly confused. A band of Confederates, also confused, somehow managed to raid St. Albans and escape into Canada. Vermont, for the moment not knowing which way was south, sent three units of cavalry across the border at full charge. The rest of the Union was amazed at this action, and talk spread that Vermont was taking on Canada just to keep in training.

In 1933, Vermont went Republican.

The Cover

The pic ture was taken in Decembe by two members of the Stu dent Photography Staff, Irwin Eisner and Phil Levine Using three spotlights and Anscocolor film in a 3 x Speed Graphic they not only took the picture but develop ed it themselves.

The cake was made b Gelineau's Bake Shop o Burlington, which is the firm that makes all the cakes for this event. Gelineau's also designed and made the figures which are dancing on the top of the cake.

We hope that the full color picture will prompt someone to say "It looks good enough to eat!" No matter how good the cake looks, we are sure it wouldn't have actually tasted very good, because instead of being made of sugar and spice and all things nice, the model for the cover was made of pure plaster of paris.

AROUND THE GREEN *By Rhoda Rosenberg*

Welcome to Kake Walk you all Important Imports! Our big weekend has finally arrived and the Green is filled with new members of our University Family. We hope you will join together with all the UVMers in the fun and excitement of this, our fifty-ninth Annual Kake Walk.

UVM Clippings

News Of Faculty And Staff

Prepared By The Public Relations Office

BARRE FARM SHOW FEBRUARY 14-17

Many members of the College of Agriculture and Home Economics faculty are taking part in the 22nd Barre Farm Show, which is being held at the Barre Auditorium this week, February 14 through 17. Sponsored by the Vermont Department of Agriculture, the show consists of numerous exhibits, conferences, discussions and association meetings. The University plays an active role in the educational side of the 4-day program, with Dean Carrigan one of the officials of the annual show.

Donald Henderson is the moderator of a panel discussion dealing with poultry, " Management Practices That Work For Me." Warren Dodge and and Andrew Tessmann are also moderators for panel discussions. Dwight Eddy and Henry Atherton are panel members in the dairy program. Winston Way and Kenneth Varney are judges of roughage. George MacCollom is the principal speaker at the Vermont Beekeepers Association meeting, where he is speaking on " Bird's-Foot Trefoil, Present and Future - What It Means to Vermont Beekeeping."

Willard Bickford is operating a booth at the show for the Dairy Extension, Lyman Calahan, George MacCollom, Richard Hopp, and Charles Blasberg are all taking part in a discussion of strawberry growing. Robert Fitzsimmons and Ralph McWilliams are both speaking at separate meetings of dairy associations.

* * * *

DANCE CLASS FOR ADULTS

Mrs. Morrison Haviland is teaching ball-room dancing in a class for adults which will be held each Thursday evening at 8:00 p.m. in the Southwick gymnasium.

As far as its being a " class " is concerned, Mrs. Haviland hastens to point out that the group has come there to have fun, and there are no seminars, examinations, or homework.

The adult session follows the student dance course which is held from 7 to 8 p.m. and the participating students have been invited to stay on if they wish for the adult gathering. " There are always extra men," Mrs. Haviland observed.

Among the various dances which will be demonstrated and taught are the Fox Trot, Waltz, Tango, Rhumba, Samba, Mombo, Meringue and others - round, square and folk.

A cordial invitation is extended to all who wish to attend.

* * * *

MORE FULBRIGHTS ANNOUNCED

Announcement is made of fifteen supplementary Lectureships in India under the Fulbright Act for next year. Two awards will be made in the field of American literature, history or government; three in secondary education; two in psychology; two in sociology; and one in physical education. Five awards are open to all fields. Applications must be date prior to February 20. Further information is available at 107 Waterman Building.

* * * *

NEW MESSENGER SERVICE STARTED

Two daily deliveries of mail will be made by the UVM Messenger Service to the various buildings of the University and to the Mary Fletcher and Bishop DeGoesbriand Hospitals. The service will function Mondays through Fridays, and members of the faculty and staff are invited to make full use of the new service.

Anyone wishing to send a communication to another building should mark the envelope with the name, department and building of the addressee, and drop the letter in the box provided for the purpose. There is a box in each building. Mail will be picked up on one trip, sorted and delivered on the next trip. The first daily trip starts from the Waterman at 7:00 A.M. The second starts at the Central Stockroom in the Chapel basement at 1:00 P.M. Times of arrival at the different University buildings will vary with conditions.

It is pointed out that no U.S. mail should be put in the Messenger Service box and no mail for the service should be placed in the U.S. Postal box.

Books from the University libraries may be obtained and and returned via the Messenger Service. Faculty and staff members are encouraged to use the increased service. Requests for books may be made by telephone and books may be returned by the Messenger Service. They should be wrapped to prevent damage in transit. Library telephone numbers are: Billings Ext. 307,213 or 214 (307 after 5:00 p.m. and on Saturdays and Sundays); Medical Library - Ext. 255; Wilbur - Ext. 227; Williams Science Hall Library - Ext. 323.

* * * *

NOTICE

The meeting of the University Club has been postponed from February 24 to March 2, due to the fact that Dan Kiley, the speaker for the evening, has been requested by the secretary of Defense to be at a meeting in Denver at the former time to discuss the new Air Force Academy.

* * *

Faculty Notes

Jean Davison, Frank Pickel and John Kent represented the University at the annual meetings of the American Philological Association and Archaeological Institute of America held in Chicago, December 28-30.

* * * *

Dr. Charles Okey attended a meeting of the Medical Education for National Defense on February 14-16 at the Great Lakes Naval Training Station. This conference of medical educators and the armed forces was sponsored by the Army, Navy and Air Force. The principal discussion was on research of infectious diseases among personnel of the armed forces.

* * * *

Dr. Wilhelm Raab will speak at a conference sponsored by the New York Academy of Sciences in New York City on March 8-9. The subject of his address will be " The Neuro-Hormonal Factors in the Origin and Treatment of Angina Pectoris."

Introduction To The Activities Of The Student Court

UVM Student Court Now Operating Effectively On Cases Of Dishonesty

Chief Justice Richard Hooker surrounded by the Associate Justices, the Prosecution and Defense attorneys of the Student Court. (Ariel photo)

By Max G. Ansbacher

The University Student Court has now been in operation for two years since its reorganization, and a quick survey reveals general satisfaction with its recent activities. According to the Student Court faculty adviser, Bennet B. Murdock, Jr., of the psychology department, " the court, has done a good job on the cases it has handled. "

Professor Murdock continued, " The members of the court attempt quite seriously and conscientiously to maintain an intermediary position between the students, and the faculty and administration."

The court has original jurisdiction in cases of student violation of University regulations and of the rules of the UVM Student Association, except as jurisdiction has been given to some other body such as a men's dorm council. However, Professor Murdock pointed out that generally its function has been restricted to cases of academic honesty.

University Council Approves

The court can not actually given out any penalties, but recommends that the University Council (the deans of the colleges) impose the penalties which they have decided to be appropriate. Dean of Administration Robert H. Kroespch said, " On almost every case the University Council has substantially gone along with the decision of the Student Court. The Council did not always agree with the court, but it felt that such differences of opinion were natural and generally did not try to impose its will over that of the students."

When he was asked to comment upon the action of the Student Court this year, Student Association Council President George Hansen said, " They have done very well. I think that they are a fine body of students, and have done an excellent job this year in handling their cases."

Court Acts On Panty Raid

One of the Courts more unusual cases involved a small panty raid which took place at Converse and East Halls early last fall. After some preliminary investigation, the University Council felt that the Student Court should handle the proceedings, and it was given original jurisdiction and the power of the president to seek information from students. Although the raid involved 100 students, the court prosecuted only two.

Plagerism Case

Another case which the court undertook this year was that of boy who was accused of plagerism. He had not given due credit to quoted material in a term paper. Under the strict definition of plagerism in the Student Regulations the court found the defendant not guilty. When the decision was appealed to a Joint Appellate Court (made up of students and deans) the decision was reversed because a broader definition of plagerism was used. The new decision enabled the court to differentiate between academic honesty and minor cases of improper procedure of giving credit.

Chief Justice Richard M. Hooker, Jr., has called the relations of the court with the student body good. He stated, " Students have felt that since the school is based primarily on the honor system, they need a Student Court to discipline themselves directly in cases of infractions. " He added that the Student Court is viewed as a stabilizator in student affairs.

" Few Cases "

Professor Murdock mentioned that there were actually rather few cases of academic honesty brought up before the court. He said that this showed " either that there is very little dishonesty here, or else that faculty members are loathe to bring cases before the court." He did say that there was an increase in the number of cases compared to three years ago, but that this year there didn't seem to be as many cases as there were towards the end of last year.

UVM Is Liberal

Universities and colleges today vary greatly in the methods of dealing with student infractions. Dean Kroepsch reported that some colleges have the full power invested in a single dean, while at other schools the student body has almost the final say. Dean Kroepsch said that such a system was possible only at a small school where students knew each other personally. He said that " Vermont is certainly on the more liberal side in this respect."

Members of the court are elected at the end of their sophomore year for a term of two years. Each college has at least one member on the court and additional court members are allowed on the basis of the number of students in each college. The prosecutors and attornyes are elected by the court for terms of one year. The chief justice is also elected by the court for a one year period.

Larry Klein is chief defense lawyer this year, and David O'Brien is chief prosecutor. Assistant lawyer is John Burgess and Charles Wilkie is assistant prosecutor.

"Walkin' Fo De Kake" Headlines UVM's Tasty Winter Carnival

By Robert Krauser

An electric tension grips the crowd. Finally a white hankerchief is dropped, the auditorium lights are replaced by spot lights and your eyes and ears thrill to the spectacle before them. Amid the cheering of the crowd the band plays the melody of "Cotton Babes," and two men clad in tails and ties (of a slightly irregular nature) bound forward in perfect and graceful coordination. These men as you realize are "Walkin' Fo De Kake."

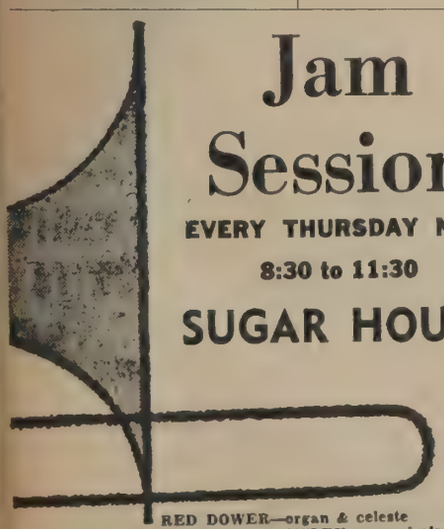
"Walkin' fo de Kake" originated down south during the last century. Due to its spectacular rhythm and excitement it was brought north and came to Vermont where it was developed into something of an art. Kake Walking seems to be ever popular at Vermont and it has been and probably will continue to be the theme of the Winter Carnival for many years.

As the theme of the carnival "Walkin' fo de Kake" serves as a competition between fraternities who enter a two man walking team to vie for trophies and kakes.

The training for Kake Walking begins early in the fall. The walker starts off by doing plenty of calisthemics and running in order to loosen his muscles and build up his wind. The next phase is to learn the basic dance steps and to coordinate them with a partner. The following phase is to perfect the routine and concentrate on partner coordination.

The dance begins with a striding step in which the dancers leap forward with high bounding steps. They then stop and commence what is called the rest step. Here they remain stationary and kick in unison. The patterns in the rest step while general in principal are individually unique to each house. In fact, one year a fraternity had a Mutt and Jeff pair of dancers, (one tall and one small). An individual step of theirs was for Mutt to kick his foot in a circular arc over the head of Jeff. Another individual part of the rest step which was done by a fraternity was for one of the dancers to literally throw his partner over his shoulder.

An additional step which is practiced by some, but not all, of the houses is called the separation step. In this the dancers stride off in opposite directions. They then do the rest step for awhile, turn around and stride back together again.



One of the techniques employed besides practice to accomplish partner coordination is for each dancer to count numbers while dancing. By synchronizing these numbers the dancers know when to kick, stride, start, stop or turn. This technique is especially useful in the separation step. An additional aid used in the stride step is for the dancers to clasp the pinkies or thumbs of their adjacent hands together. In this way they insure that their bodies are exactly in line.

As a reward for their hard work and generally excellent performances the Kake Walkers gain a sense of accomplishment and they receive individual trophies with a little Kake Walker on the top. The two best teams of walkers each night receive trophies and Kakes for their high degree of excellence.

"Walkin' fo de Kake" is a stimulating and thrilling activity both to the participants and the audience.

Cotton Babes Is Again Theme Of KW Weekend

Written over seventy-five years ago by Percy Winrich, and played at U.V.M. Kake Walk weekend for the past fifty-two years; COTTON BABES has firmly established itself as a traditional and, I would venture to say, necessary part of the gala Kake Walk affair.

How COTTON BABES has stood the test of time is something that has puzzled many a collegian. It's evergrowing popularity makes the answer a relatively simple one, for not only is the melody an inspiring one, but it's rhythm is perfect for Kake-walking--and what, after all, would Kake Walk be without the Kakewalk?

But it was only through the interestand ableness of Dr. Jospeh F. Lechnyr, U.V.M. Band Master for the past thirty-three years, that COTTON BABES was able to maintain it's standing as ''song of the week-end''. Over twenty years ago a disasterous fire swept the Band Library, and with it went the only existing copy of the song. Shortly thereafter, Dr. Lechnyr sat down with paper and pen and wrote out the new arrangement of the music for each of the instruments in ''his'' band. It is this arrangement that has since found it's way to the stands of the musicians during Kake Walk.

The traditi mal song dominates the scene both Friday and Saturday evenings, at which time it is played a total of twenty-eight times for the Walking, once each night for each of the fourteen houses. Four times at Peerade, an endless number of general rehearsals, plus two complete dress rehearsals, bring the total number of playingsto well over one hundred for the weekend and the weeks preceeding it. Yet Dr. Lechnyr still gets a thrill out of directing it!

This year, in addition, the U.V.M. Band under Dr. Lechnyr's baton has made a recording of COTTON BABES for R.C.A. Victor Record Company. The other side of this 78 R.P.M. disk will feature ''Hail Green and Gold'', and ''Vermont Victorious'', and will be on sale during Kake Walk--proof that the fame of U.V.M. Kake Walk and COTTON BABES has spread far beyond the college campus.

The UVM Band, dressed for business, in the Cage last Friday night for the Penny Carnival.

New Trophies For Winners

Newly styled Kake Walk trophies will be adorning the mantles of this year's winning fraternities.

For the first time, the trophies awarded for excellence in Kake Walkin' will feature scale model Walkers, fashioned by the L. G. Balfour Co., in the traditional pose. These figures, standing approximately eight inches high, were the idea of this year's Kake Walk Directors, Ed Hebb, Bruce Chafee, and Ken Wadley, who sought to distinguish the walking awards from cups given to Carnival participants, snow sculpture winners, etc. These six cups, three for each night, are awarded for permanent possession to the fraternities on the basis of dancing with precision, coordination, trick steps, height of kicks, and general appearance. All the work of preparation for the Walkin' will not be in vain for those dancers not winning first places, for this year the newly styled figures will be mounted on small bases and awarded to all twenty eight walkers.

In addition to these new Walking awards, the regular rotating and permanent cups are again Up for grabs this year. Rotating trophies include the Preston Cup for Kake Walking, the Simpson Cup for women's snow sculptor, and the Jennings Memorial Cup for men's snow sculptor.

Permanent cups will go to the winning or placing fraternities in the walking and skits and to the houses of the King and Queen. Individual trophies will be given to the royal couple, Kake Walkers.

Hawkins, Chiefs To Play Cool Sounds Friday

Continuous jazz music for three and a half hours, played by Coleman Hawkins and his group alternating with the Dartmouth Chiefs, will be in store for all those who attend the Kake Walk Jazz Concert at Memorial Auditorium, Friday, February 17.

Coleman Hawkins has been called the greatest tenor sax player in the world and one who has put the tenor sax in the field of jazz music. He is especially noted for his swinging instrumentals, and his extraordinary sense of movement. Coleman Hawkins, who is often referred to as " the Hawk, " has played all over the world and has made recordings with such people as Gene Krupa, Glenn Miller, Dizzy Gillespie, Pee Wee Russell and many others. According to most jazz publications, " the Hawk" seems to be one of the best artists in the top jazz circles.

The Dartmouth Chiefs have also had a widespread popularity. They have appeared in Bermuda, Carnegie Hall, Boston, New York, on many college campuses, and on Steve Allen's coast to coast television show, " Tonight." Their leader, Larry Elliot has been described as a " trombonist of marked talent and imagination," according to a *New York Times* review.

In speaking to Bruce Chaffee, Kake Walk Director, he stated the aim in choosing these two jazz band was to " mix a Dixieland band like the Dartmouth Chiefs with a more sophisticated type of jazz like Coleman Hawkins." They also wished to combine a " top flight professional jazz group with a to. flight college group."

Meet Bernie Rome; Wins Success With Coupon Book

Initiative and perseverance are the most applicable reasons we can find for the success of one Bernie Rome, senior and originator of the ''College Coupon Book.''

Bernie who hails from Rutland, Vermont and is a member of Phi Sigma Delta Fraternity developed the conception of the ''College Coupon Book'' as a means of promoting business in the Burlington area while at the same time extending considerable savings to UVM students. Secure in the knowledge that his idea was ideally suitable to attain this end, Bernie began to solicit for subscribers; and his efforts were met with immediate and enthusiastic approval, n ct only from University officials but by the Burlington Chamber of Commerce as well. In its final form, the discounts contained were fifty-one in number; and the sale of the book on campus was an overwhelming success.

Bernie's philosophy that, ''any idea, provided it fulfills a human need, will be successful if properly presented and effectively promoted,'' certainly has proved to be effective and beneficial in the case of this endeavor as well as in others to be mentioned such as the establishment of Creative Enterprises Co. which he originated in his junior year at 7??. This undertaking was the result of scientific analyses which Bernie had made in chemistry lab. The result---''Melt'', a liquid which protects windshields from ice and other condensation. Another product of enterprise is the ''University Blotter'' which is distributed to university students of many different institutions with advertising sponsored by local merchants. The ''University Blotter'' has established Bernie's name throughout the college campuses of the East.

(continued from page three)

informal social gatherings and ''Walker Welcome'' parties. The ''houses'' are holding ''light'' buffets, Thursday evening with an after Ball attraction.

The light array of fraternity parties mixed with the order of the day; ice sculptures; jazz concert; sports events; the customary ''walking'' and ''ball'', give to the campus escort more than ample attractions to show off his ''lucky'' date.

Vermont Skiers Triumph At Norwich Meet

Mural Mirror

(continued from page eleven

In a battle which saw the little man reign supreme, Kappa Sig topped Sig Nu 38-31. Kappa Sig was led by Eddie Beck with 16, while Sig Nu's leader was Steve Millard with 12. The half time score was 24-10 in favor of Kappa Sig. Sig Nu tried desperately to cut this lead, but could only reduce it by 7.

In Phi Delt's second encounter they romped off with an easy 31-15 victory over Sig Phi Ep. Phi Delt lead 13-8 at the half. In the second half they broke it wide open, and outscored Sig Ep. 19-7.

Last Tuesday Delt Psi went down to defeat for the second straight time, bowing to SAE 30-23. Their first loss was a 29-23 defeat by Phi Delt. SAE led 15-3 at half time, and breezed through the second half. Lovet and Newell with 10, and 8 respectively were high men for SAE. Ryhowski dunked in 10, in a losing cause.

Sig Nu evened up their record by downing Phi Delta Theta 32-19. Sig Nu led by Harral's 14 points, was never in danger. They led 14-8 at the half.

In the biggest rout of the playoff to date, Kappa Sig slaughtered SAE 61-25. Kappa Sig scored 36 points in the first half. This was the greatest total of points scored by any team in one half this season. Beck and Galascione led the scoring for Kappa Sig with 12 points apiece.

Kittens Nip St. Mikes, BY 90-89

by BENNETT WOLL

Last Saturday over 1500 fans gladly donated to the March of Dimes at Memorial Auditorium to see an excellent, close game, as the UVM Frosh hoopsters nosed out the St. Mikes yearlings 90-89. The show was undoubtedly the best put on by either team this year.

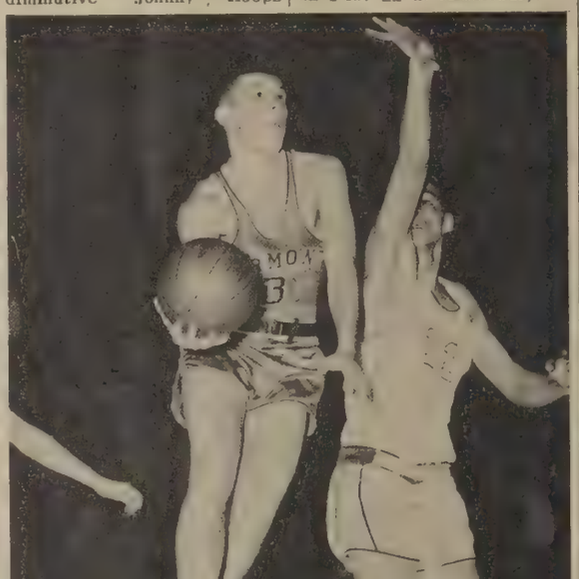
Green and Gold heroes were Arnie Branch, Clyde Lord, Bob Kuchar, and Charlie Isles; Kuchar was hitting from the outside and the other three were tops in Layups and rebound columns. Tony Nicodemo and Ralph Turri were the leaders for the Michaelmen.

The half saw the score at 42-40, Vermont. Minutes later, the Squires took the lead but Coach Lapointe's Kittens took over, attaining a twelve point lead at one spot. The Squires fought hard and with 42 seconds left, closed the gap to one point, 86-85.

Isles sunk two from the foul line and Branch scored from under the hoop, making it look like the end for the Purple and White. Turri made a fine layup, and as Vermont brought the ball up against St. Michael's all-court press, they threw it out of bounds. The Squires tried to draw a foul but were unable to, and as Turri made another layup, the game ended.

High scorers for the Green and Gold were Arnie Branch with 22; followed by Isles, 20; Gallagher, 17; Kuchar, 16; and Lord, 11.

Hoopsters Bow To Middlebury, 70-55



Johnny Hoops broke a close game wide open in the last ten minutes last Saturday night, as the Middlebury Panthers scored a 70-55 victory over Vermont Catamounts on their home court before a capacity house of 1400 spectators.

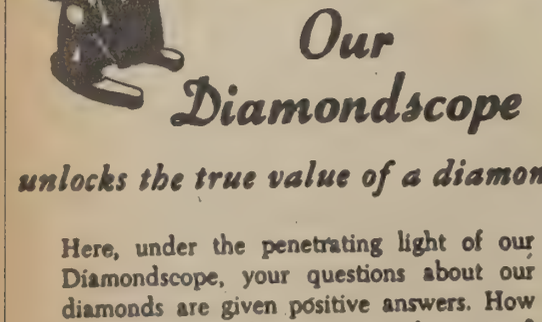
Hoops hit for 12 of his 16 point total in the final 20 minutes to join center Tom Hart in leading the Panthers to their second straight victory over Vermont in the series. Though the score spread was 15 points at the conclusion of the game, up until the time Hoops got hot, the Cats were in the thick of the game.

The score at the half-way mark was 32-26, with Tony Lupien's crew in front. But in the final half the Vermonters of Coach Fuzzy Evans tied the score four times, the last time at 42-all before diminutive Johnny Hoops put the voodoo blessings on his own basket and proceeded to drop the ball in.

A surprise starter in the Vermont Line-up was Ron Bouchard, who teamed with Bob Lovejoy at the guard positions. Bouchard drew the praise of spectators at the tussle, as the former Cathedral High star hit 12 markers, with a big boost of six free throws dunked in. But the big unstoppable Hart was the menace of the evening with his tapins and close in shots which carried him to a game high of 20 points, on 8 baskets and 4 free throws.

Five players hit double figures for both teams. Besides Hart, Hoops, and Bouchard, captain Bill King of the Cats scored 16 points and Skippy Burkhardt hit 10. Middlebury's victory set the stage for the state championship clash with St. Michael's on Feb. 22 at Middlebury.

UVM ace Skip Burkhardt scores on a driving lay-up.



Duval, Larrow, Wall, Shine

The University of Vermont skiers led four other colleges at the conclusion of Norwich University's winter carnival last weekend to win their first meet. The Cats held the Cadets off barely by winning the final jumping event, 382.3 to 382.0. This was due mostly to Bart Larrow, Jerry Baril, and Frank Wall who finished third, fifth and eighth respectively for Coach Charlie Traverse's Cats in the jump. Norwich, led by Redmond Wilcox and Jack Dempsey, finished 1-2 in jumping.

When the staticians added the two paper events, the Alpine and the Nordic combined classifications, host Norwich dropped further in the standings to give the following figures: Vermont 574.7, Norwich 570.4, Dartmouth B 553.8, St. Lawrence 553.6, and St. Michael's 303.6.

The Catamounts on Friday had won the 9-mile cross-country test. Al Duval finished first for the Cats with a time of 1 hour, 1 minute and 15 seconds and was followed by Frank Wall who finished fifth and Hugh Sinclair eighth, giving Vermont three performers in the top five. Wall amazingly enough finished third while breaking two ski's in the event. In the downhill Bill White and Charlie Gee ripped off the fifth and sixth spots, while Bart Larrow and captain Frank Evans were right behind with 8'th and 9'th place finishings. The Cats also did well in the big Slalom as Larrow led the other Vermont entrants with a 2'nd, followed by Gee 8'th and White 9'th.

Everything went great for the Cats this past weekend and Coach Traverse expects a good showing at the Eastern Intercollegiate Championships to be held at the Middlebury Carnival this weekend providing that Frank Wall doesn't bust any more skis.

Cats Beat Norwich For First State Win

THE SIDE-LINE CAT

by

ED WALKER

Should Hockey at UVM be re-established? All winter sports enthusiasts probably wonder why we don't have a team, and what kind of teams and facilities we had in the past. This "S-L Cat" has dipped into the record books, chatted with a few individuals around campus who recall hockey here at UVM, and brought the problem up to date so you the reader can decide what steps should be taken, if any.

UVM's first hockey team was organized back in 1926 and during that time all home games were played down at Centennial Field where a rink was constructed by setting up boards to form a playing area, and "keeping your fingers crossed" in order that it might freeze. Approximately four games were played that year and the pucksters won only one, but on the other hand showed exceptional promise. The team had many problems the next couple of seasons, but the melting rink hampered the Cats the most. In 1929 hockey was disbanded due to lack of funds and equipment, as Coach Hank Dresser put it.

In 1946-47 season, the sport once again returned. This time it was held in back of the cage. More interest was created being nearer to campus than in the past, and in the '48-'49 period, Coach Don Maynard's "Flying Six" had a 4-6 record. Wins over Champlain, and Norwich highlighted a comparatively good season. The records show we played Army then, and such Green and Gold stars Dick Hungerford, Bud Stearns, and Dick Colella gave an all out performance in a, 10-0 loss. We were definitely out-classed, but the ARIEL that year described hockey on the whole "as one of thrills and excitement that afforded the UVM rooters proof that hockey is a sport worth maintaining at UVM." Hopes were high before the '49-'50 season, but Coach Mike Kasap had tough luck with the weather man and injuries, and had to settle with a 2-6 record. Two of UVM's best hockey players performed that season in Arnold "Buck" Piche as goalie, and left-winger Jim Feloney. This was the last year for hockey. Weather, injuries, and the expense were just too great.

Plans for the new gymnasium and other athletic facilities do not include hockey since the cost of building an indoor rink would be rather high. In order to have the sport, artificial ice would be needed, and the only solution at this time is to call for the addition of plans for an ice hockey rink in the new gymnasium construction project. The facts, that we are in a locale where winter sports are proportionately longer, that we do have many men enrolled that played hockey in high school, and most important of all, the assurance that it will be popular in the eyes of the student from past experience at the University and other colleges, all lead up to a definitely positive answer to my original question.

Charlie Isles throws into two, as Frosh roll over Middlebury, 76-64.

Baseball Prospects Good As Practice Begins In The Cage

by DICK SCHATTEN

The 1956 baseball season does not get under way for several weeks, but some of the boys have already started to work out in the cage, so we thought we would get the scoop for the coming season from coach Ralph Lapointe.

One need speak to Ralph Lapointe for a short while only, in order to discover that his mind is on baseball twelve months a year. It is also rather obvious that he takes great pride in the baseball teams he turns out here at UVM. The following is a short synopsis of what Ralph had to say concerning this year's squad.

Southern Trip

The season will begin during the latter part of March with the annual trip to lands south of here. The southern trip will include games with Williams and Mary, (possibly two) the University of Virginia, George Washington University, Villanova and Columbia, among others. Coach Lapointe seems to think this is the toughest trip the team will have made since he has been here, for we are going farther south than ever before. The farther south the team goes, the tougher the going, for the warmer weather down there permits early outdoor practice, whereas Vermont weather will not allow the team out of the cage for quite a while yet. For this reason coach Lapointe feels that the going will be rough all the way home. After the trip south all our opponents are all from the New England area or thereabouts.

It is generally accepted that good pitching is more important than all other phases of the game combined. This is especially so in college baseball. These are the boys who will carry the pitching load for Vermont this year.

Back from last year's squad are Lew Deitsch, a fastballing righthander who should show very well this year; Hugh Bemis, a junior with a good fast ball and fine breaking stuff; seniors Lefty MacAlister and Bob Gorman, and another junior, Russ Wagner. Up from last year's freshman squad will come three excellent prospects: Dave Klein with a wicked fast one and sinker pitch; Russ Henrichs, a fine control pitcher, and Jack LaMabe, who was plagued with a sore arm during most of last season. If Jack's arm comes around, opposing batters will be seeing a great deal of his sweeping curve ball. In any case, he will probably be in there, for he is an excellent hitter. All in all, Lapointe seems to think think that if his hurlers can control their pitches, especially their breaking stuff, they will be winners.

At the moment, the infield presents the biggest problem of all to Lapointe. The only first line infielder back from last year's team is first-baseman Joe Wark. Bobby Shuttle, Art Solomon and Pete Maynard were all members of last year's squad, but none of them played in all games. Solomon and Shuttle alternated at third base after Maynard became ill, and all three will be considered carefully along with sophomore Tom Tierney for infield positions. Pete Greenwald, transfer student who was ineligible last season, also shows promise.

The sudden loss of shortstop Al McLam because of his dad will no doubt hurt the team greatly. "Mac" was captain-elect of the team and a real sparkplug. Al had a great sophomore year, slumped a bit last year, but was expected to spark the team this year both at bat and in the field. We are sure that most everyone will agree that the University of Vermont lost a great credit to any athletic team when Alan McLam was forced to leave school at the end of this past semester.

Patrolling the outfield we find Eddie Beck back for his third year of varsity baseball competition. Ed played left field last year. The other two outfield positions are question marks. Good prospects are sophs Marty Johnson and Charlie Murphy.

Behind the plate, donning the tools of ignorance we find Johnny Galascione, a junior and probably the best hitter on the team. He handles his pitchers well and could very easily become one of the best all around performers in the Yankee Conference.

All in all, we have lost five top flight players from last year's squad: right fielder Howie Hammer, center fielder George Gilbert, second baseman Vern Currier, McLam and pitcher George Plender, one of the best pitchers in UVM history. We are a young, hustling team that shows a great deal of promise for the coming season.

Lovejoy Leads Scorers With 18

by PAUL HULL

Pressing hard from the opening tap, the UVM Catamounts combined superior shooting and an airtight defense to defeat an aggressive but thoroughly outclassed Norwich quintet, 81-60, and gain their first intrastate win in four attempts.

Playing one of their best games this season, the starting five piled up a 23-10 advantage at the end of the first period and turned the game into a complete rout, spearheaded by the deadly accuracy of Skip Burkhardt, who scored eleven of his fourteen points in the first quarter, and also by the sensational Bob Lovejoy, who not only hooped 18 points, but was as well a power under the boards.

Norwich, obviously shaken from the tremendous first quarter onslaught, began cracking under the pressure, time after time throwing passes out of bounds or into Catamount hands.

In the second quarter, Coach Evans, in what seemed to be an obvious attempt at keeping the score respectable, removed most of the first string and inserted four substitutes. However, the Cadets had on their hands as aggressive, if perhaps not as proficient five, and were outscored in the second quarter, 18-12.

Despite the better than average display of marksmanship exhibited by the Cats, there can be no doubt that it was the tremendous defense engineered by Fuzzy that completely baffled the opposition. It was only in the fourth quarter that Norwich finally managed to outscore the Cats, 24-17, but by this time the outcome was no longer in doubt.

'Mural Mirror

Last week the final playoff round of the 1955-56 intramural basketball league got under way, and at the midpoint of the tournament we find Kappa Sigma at the head of the field with a 2-0 record, followed by Sigma Alpha Epsilon with 2 wins and 1 defeat. The rest of the league is in this order. Phi Delta Theta 2-2, Sig Nu 1-1, Delt Psi 1-2, and Sig Phi Ep. 0-2. These six teams qualified for the playoff because they placed either one, two or three in their respective leagues.

In the first game Phi Delt beat Delt Psi 29-23. It was a tight affair, which saw Phi Delt lead at half time 15-11. With the combined shooting and rebounding of Paul Harasimowicz who scored 8, and Henrichs who tossed in 10, Phi Delt outscored Delt Psi 14-12 in the second half, and won 29-23. Carpenter, and Barry were high men for the losers with 7 points apiece.

(continued on page ten)

CONGRATULATIONS

University Announces Cafeteria Ticket Plan

UVM freshmen living in ormitories and controlled nits will be provided with eals under a Food Contract lan to be inaugurated next all.

Serving approximately 500 reshman students, the new lan will provide meals for 0 days each semester from he first day of classes hrough the examination eriod. Students living lose to the main campus, xcept those in co-op ouses, will eat at the aterman Cafeteria under eal tickets which will be onored on any day of the eek, including weekends. omen students on the Red-tone Campus will continue o eat at Robinson Hall.

Requiring freshmen to eat he equivalent of 160 days' worth of food at the Cafe-eria during the year, the lan leaves weekend meals p to the individual stu-ents, although arrangements an be made to provide eals seven days a week at he special lowered rates.

Under the plan, each in-oming freshman will be illed at registration time or 80 semester days of eals, which at present afeteria prices will be he equivalent of $1.90 per ay. By paying the semester's ood bill of $152, students ill save approximately 20, or about 11.6 percent f what they would normally ave to pay for meals.

Working under the present afeteria system, students ill be free to select the ood items they desire, and an use the meal tickets ithin the semester at what-ever rate they desire. Thus, the students will be able to decide which meals they ill eat in Waterman and which meals they will eat lsewhere.

It is estimated that lightly more than 200 women nd slightly less than 400 en will be eating at the afeteria under the Food Contract Plan for freshmen, hile provisions are also ade for other students on an optional basis.

Freshman men pledging into fraternities for the second semester will be allowed, if they choose, to eat their evening meal at their fraternity provided it maintains a table on a regular basis. Such pledges will be allowed to take food contracts in the Waterman Cafeteria for one half the total amount during the second semester upon certification by their fraternity that they have been pledged upon certification that the house serves dinner daily, Monday through Friday.

The meal tickets involved in the Food Contract Plan will be non-transferrable, although a student may use his ticket to pay for the food eaten by his guest. Tickets may also be used in place of money in the Coffee Shop.

Pearl Lang Next Attraction For Artist Series

Pearl Lang, former pupil of Martha Graham, will appear in Burlington on March 1, 1956 under the auspices of the George Bishop Lane Artists Series as its fifth attraction of the season.

Miss Lang is not only well known for her outstanding dance choreography but also for her own dancing performances in the modern dance field. John Martin, dance critic for the New York Times, has said the following about her dancing and her choreography: "Miss Lang is here to stay as an important figure in modern dance. The evidence is incontrovertible that in Miss Lang we have a choreographer of major stature. Miss Lang herself is a superb dancer. She is so good, in fact, that it is beside the point to speak of such matters as

Acacia Sweeps Walking Phi Sig, TEP Win Skits

George Hansen and Al Tyler are delighted to accept the Kake for their walking achievements. In center is Dean Kidder.

The huge undertaking, cleverly executed, won Delta Psi the first place fraternity competition. (Photo by SPS)

Pi Beta Phi took the first place in the Sorority entry with this one. (Photo by SPS)

Here is the Vermont Independent Association's first offering and it took first place in the men's dorm competition! (Photo by SPS)

The Kake Walkers of Acacia took top honors both nights. Their arched backs and high kicks brought them three cups and two cakes in reward. George Hansen and Al Tyler who won in 1953 and 1954 were the winning duo once again this year. In their red and white striped suits, the Lambda Iota walkers, Lou Kiefer and Bob Benoit placed second both nights. Phi Sigma Delta and Tau Epsilon Phi split the first for skits, with Delta Psi and Pi Beta Phi winning the snow sculptures.

Dave Ireland and Dave Henderson of the representatives of Sigma Nu took third place Friday night, while the Phi Delta Theta walkers Bill Farwell and Jack Stetson followed them in fourth place. Saturday night these two houses reversed positions. The only incident to mar the walking was the absence of Sigma Phi Epsilon's walkers, who were injured.

Skits were presented by Sigma Nu, Tau Epsilon Phi, Delta Psi, and Phi Sigma Delta. Once again the fraternities made full use of the basement of Memorial Auditorium to construct and store their props, now that the Immigration Service has moved out.

TEP'S MILK BEER

Tau Epsilon Phi's entry "Rebel With A Cause" told the story of a milk company which produced milk that tasted like beer for the benefit of University students. It placed second on Friday night and first on Saturday night. In addition to the honors received by their Kake Walkers, Sigma Nu was awarded second place Saturday night for their skit "Southward Ho!" which took the audience on a trip to Brazil to explore the possibilities of moving the fraternities down there, after an amazing discovery of oil on fraternity property.

PHI SIG'S GLASS DORM

Phi Sigma Delta's saga of the down and out contractors who built the women's new dorm was judged first on Friday night but did not place Saturday. Delta Psi told the story of some Damon Runyon Characters who try to muscle in on College ball for gambling purposes.

The Snow Sculpture awards went to Delta Psi, Phi Delta Theta, and Theta Chi for the first, second, and third places respectively, in the fraternity division. Pi Beta Phi was awarded the first prize in the sorority division, with Gamma Phi Beta and Delta Delta Delta placing second and third in that order. Claggett House was given the prize for the best women's dorm sculpture, and the Vermont Independent's Association took first place in the men's dormitory division.

An interesting note Saturday night was the presentation of a cup by the Kake Walk directors, to Dr. Sidney B. Smith former director of the UVM libraries, for his many years of service as Kake Walk advisor.

Dan Kiley To Give Talk At Univ. Club

Dan Kiley, a world famous landscape architect, will present an illustrated talk to the University Club on February 24 at 8:15 in the Faculty Lounge. The date has been changed from March 2, as was previously announced.

Mr. Kiley has entitled his talk, "Contemporary Concepts in Planning and Design." Since he is a member of the advisory board to the planners of the Air Force Academy in Colorado, he will show slides of the plans for the academy.

Samuel N. Bogorad, associate professor of English, is in charge of the meeting. Mr. Kiley first gained international recognition as a collaborator on the winning design for a St. Louis memorial. The city held an international competition to choose the designl A Vermonter by choice, Kiley lives in Charlotte, a town a few miles south of Burlington. He is an expert skier. The University Club is open to all members of the faculty and administration.

"The club brings members of the faculty closer together so that they will know each other as people," said Dean Robert Kroepsch, vice-president of the club. Their active program includes primarily social events. The first meeting of the year was a box social with corn husking, cow milking and square dancing. That old Vermonter of Vermont Varieties fame, Francis Colbourn, headed the winning milking team. A treasurerhunt in the Museum was the main event of the next meeting.

A Do-It Yourself exhibition was presented by members of the club. Faculty members demonstrated their techniques in their favorite hobbies, booths displayed handwork, colored films and slides were shown, and faculty women modeled their hand-sewn clothes. The last meeting was a Cabaret Nite. The members enjoyed games, dancing, and entertainment.

Future meetings include a play reading by members, an open house at the Medical College, and a novelty party. The club sponsors the Newcomer's Group and the Square Dance Club.

The residents of Buckham Hall would like their two sports trophies returned. They are not interested in the names of the people who walked off with them, but in the return of the trophies to their rightful location.

TO GREENLAND!

WOODSTOCK, VERMONT

Pres. Borgmann Announces New Grants- In- Aid

The University of Vermont has increased the number of Faculty Summer Research Grants-in-Aid from five to seven for 1956, it was announced recently by President Carl W. Borgmann following a meeting of the Board of Trustees.

In addition, special research grants were awarded to John H. Kent, Dean of the department of elementary and secondary education.

Receiving fuol $600 summer research grants were Herbert C. McArthur of the English department, Rolf N. Haugen of the political science department, Leonidas M. Jones of the English department, Florence M. Woodard of the department of commerce and econimics, Lewis S. Feuer of the philosophy department. Arthur K. Davis of the philosophy department, and Betty Bandel of the English department

Prof. McArthur's grant will allow him to catalogue and study certain type-specimen books printed at the Chiswick Press, now the property of the Billings Library.

Prof. Haugen's study will deal with the organization and administration of the State Highway Department.

Prof. Jones will continue and investigation of the life and writings of John Hamilton Reynolds, an early 19th century poet and critic, with his grant.

Prof. Woodard will carry on further research on the topic "The People of Vermont: Quantitative and and Qualitative Changes in the State of Vermont: Population During the Decade 1940-1950."

The title of Prof. Heusr's project will be "The Sociology of Philosophic Ideas," while Prof. Davis will attempt to clarify and background premises, and current tendencies of the "theory of social origin" in American sociological science.

Prof. Bandel will investigate the development of the myth of Ethan Allen as distinguished from the history of Ethan.

The special grant to Dean Kent will go toward preparing for publication more Inscriptions of Corinth, which were found by the American School archelogist between 1925 and 1950. Dean Kent worked on this subject under Fulbright grant in 1949 and 1950.

Prof. Huden's special grant will go toward a study of "Indian and French Influences on Vermont History Prior to 1791."

K-W PICTURES

Here is how royalty looked at the festivities.

The Phi Sigma Delta skit won first place the first night. (Photos by SPS)

This high-kicking pair is the unbeatable Acacia entry. George Hansen and Al Tyler.

Selective Service

College students interested in taking the Selective Service College Qualification Test have until midnight, Monday, March 5, 1956, to submit application, it was announced boday by Mr. Michael A. Cann, test supervisor. The test center in this area is The University of Vermont.

The purpose of the testing program is to provide evidence for local Selective Service boards so they may consider student deferments for military registrants.

To be eligible to apply for the test, scheduled to be given April 19 to college students in 375 test centers throughout the United States, Alaska, the Canal Zone, Hawaii, and Puerto Rico, a student must intend to request deferment as a student, be satisfactorily pursuing a full-time course of instruction, and must not have previously taken the test.

The test was developed by Science Research Associates of Chicago, one of the nation's leading publishers of educational testing, reading-improvement, and guidance materials.

Students interested in taking the test to qualify for possible draft deferment in order to continue their college education are urged to have their completed application postmarked no later than midnight, March 5.

Pearl Lang

(continued from page one)

her extraordinary extensions for they are merely part of the activity of a body that moves as a whole. It is a delight to watch such a conception of dancing in action."

Pearl Lang was born in Chicago, Illinois where she received her early dance training with Francis Allis; she received further training in New York with Martha Graham with whose company she was featured soloist from 1941-1953 and guest soloist in 1954 and also training with Louis Horst. She has had dance leads on Broadway in "Finian's Rainbow", "Touch and Go", and she was featured dancer in "Carousel"; and also took the dance leads in these shows on their road tours. Miss Lang has been on the dance faculty of the following schools: Juillard School of Music, Neighborhood Playhouse School of the Theatre, School of Fine Arts, Drama Department Yale University, Martha Graham School of Contemporary Dance, 1945-1952, and was a guest teacher at Barnard, Sarah Lawrence, Brooklyn College, and Connecticut College. She began professional choreographing in 1949. In the summer of 1954, she was director of Jacob's Pillow School and Theatre of Dance

ALPHA CHI OMEGA

Recently, Gail Henion and Betty Slayton gave a baby shower for Anne Copeland's great expectation. Anne received some very lovely gifts. After the shower, refreshments were served.

ALPHA EPSILON PHI

AE Phi is proud to announce that over two thirds of her sisters attained an 80 average or above last semester. Tops in this group are Marcia Fink, Myrna Feldman, Lesly Asnis, Audrey Rubin, Lenny Weinstein, Rhoda Rosenberg, and Peggy Richter, and Leone Bernstein who made honor roll.

The girls of AE Phi are glad to welcome into their midst thirteen new pledges. They are: Barbara Cohen, Manhattan, N.Y.; Bryna Frank, Burlington, Vt.; Lois Frisch, Jamaica, N. Y.; Barbara Goodman, Brooklyn, N. Y.; Joan Hahn, Forest Hills, N. Y.; Sheila Kropsky, Lyndonville, Vt.; Alice Prince, Jackson Heights, N. Y.; Judith Rosenblum, Mamaroneck, N. Y.; Barbara Rothman, Butlington, Vt.; Elaine Schneider, Bronx, N. Y.; Mona Stocknoff, Mt. Vernon, N. Y.; Deare Weiss, Long Beach, L. I.

DELTA DELTA DELTA

Recently initiated into Tri-Delta sorority were Rita Ferrele, a sophomore from Asbury Park, New Jersey, and Laura Walsh, a junior from Bellows Falls, Vermont, both of whom received open bids earlier this fall.

During the rushing period this year the Tri-Delts were happy to have as their guest and advisor, Mrs. McConnell who is the District President for the sorority. Mrs. McConnell arrived Friday during the open houses and remained until the following Tuesday.

The Tri-Delts are proud of each and every one of their 26 new pledges and are looking forward to a year full of fun and work together. Those girls who were recently pledged to Delta Delta Delta are: Nancy Agosta, '59, Barre; Elizabeth T. Arnold, '59, Bay Shore, N. Y.; Barbara Bennett, '58, Springfield, Mass.; Betsy Cale, '59, Checy Chase, My.; Ruth Carlson, '59 Trumbull, Conn.; Penny Church, '59 Glen Ridge, N. J.; Barbara Dunn, '59, Brattleboro, Vt.; Linda Farrell, '59, Schenectady, N. Y.; Patricia Funkhouser, '59, Hanover, N. H.; Sue Graf, '59, Eggertsville, N. Y.; Joanne Henderson, '59, Nashua, N. H.; Marilyn Howell, '58, Bay Shore, N. Y.; Patricia Jay, '59, Burlington; Ann Keithline, '59, Tariffville, Conn.; Ann Kimball, '59, Boonton, N. J.; Ann Maher, '59, No. Tonawanda, N. Y.; Betty McDonald, '59, Shelburne; Gail McLean, '59, Trumbull, Conn.; Doreene McNanee, '59, Brattleboro; Louise McSweeney, '59 Burlington; Joan Myers, '59, Schenectady, N. Y.; Linda Nitschke, '59, Burlington; Kay Reed, '59, Shelburne; Voughan Soule, '59, West Hartford, Conn.; Gulielma Stiles, '59, Carterville, Ga.; Carol Webber, '59, Montclair, N. J..

DELTA PSI FRATERNITY

The following slate of officers were elected by the Brothers of Delta Psi for the Spring Semester: President—Arthur Bylow, '56, Barre, Vt.; Vice Pres.—Bruce Fergueson, '56, Lancaster, Vt.; Critic—Russ Wagner, '57, Dunellen, N. J.; Corresponding Sec.—Larry Scofield, '58, Stamford, Conn.; Recording Sec.—Mike Turianski, '58, Rochester, N. Y.; Public Relations Officer Frank Cotrupi, '58, Rutland, Vt.; Librarian—Dick Tifft, '58, Bennington, Vt.; Social Chairman—Bill Treene, '58, Montclaire, N. J.; Steward—Maurice Chevalier, '57, St. Albans, Vt.; House Manager—Pete Manning, '57, Bethel, Vt.; Treasurer—John Webster, '58, Orleans, Vt.; Grounds Keeper—Joe Pollander, '57, Richford, Vt..

The Delts are proud of the fine performance being shown by their intermural bowling team. Pacing this years team are Captain Russ Wagner, "Red" Towle, Maurice Chevalier, Joe Cosentino, Don Bicknel, and other able substitutes. The team is currently fighting for the leagues leading position.

Among those graduating after the first semester will be Brothers Bill Balfry and Bill Frappier. Both will receive their R.O.T.C. commissions in January and report for active duty next Fall.

LAMBDA IOTA

Dick Severens, '56, Saxtons River, was elected president in the recent election. Other officers elected were Chuck LeClair '58, Brattleboro, treasurer; Dennie deMintigny, '58, St. Albans, secretary; Ed Ash, '57, New York, N. Y., social chairman; Dick Turrone, '58, Bergenfield, N. J., corresponding secretary; Jerry Rice, '57, Windsor, pledgemaster, and Lou Kiefer, '58, Simsbury, Ct., publicity chairman. Walt Kneer, '58, Yonkers, N. Y., was elected chairman of the snow sculpture committee, Ray Kent is the scholastic chairman, and Pete Colcord, '58, Weston, Mass., is the athletic coordinator. The owls also extended social privileges to Vern Sawyer, '57, of Winooski.

PHI SIGMA DELTA

Professor Stalle of the political science department was the principal speaker at the annual pledge banquet held at the Olde Board.

At the banquet Gerry Goldman, '56, received the Max Shubert Memorial Award which is presented to that Frater who most reflected his love for Phi Sigma Delta by his acts and demeanor.

The Board of Governors Award found co-recipients in Ronald Grossman '57, and Stanley Borofsky, '56. This cup is awarded to the Frater who reflects his love and loyalty to the Fraternity through his attitude and acts of ever-willing service.

Harold Horton '57 who was in training for the Sitzmark competition broke his leg at Mt. Mansfield and will therefore be unable to compete. However, Hal's leg is coming along nicely.

Sam Berger, '56, and Bernard Rome, '56, have been appointed pledgmasters. Bill Infeld, '57, is the new Steward.

Phi Sig took in a pledge class of forty-one boys.

PI BETA PHI

The Pi Phis started the year by electing the new slate of officers to serve for the year 1956. They are as follows: President-Jane Gregory, Vice President-Sue Connelly, Corresponding Secretary-Marilyn Jensen, Recording Secretary-Marilyn Falby, Treasurer-Sandra Waugh, Assistant Treasurer-Elizabeth Milner, Pledge Supervisor-Carolyn Hunt, Rush Captain-Jane Stickney, Assistant Rush Captain-Jean McMahon, Historian-Ellen Anderson, Censors-Rosemarie Eurich, Eva Wehtje, Panhellenic Delegate-Nancy Bush, Assistant Panhellenic Delegate-Judy Clark, Scholarship Chairman-Anne Lee Knopf, Program Chairman-Pat Cheney, Activities Chairman-Nancy Becher, Music Chairman-Betsy Brazil, Social Chairman-Linda McKerley, Magazine Chairman-Janice Bailey, Settlement School-Jane Bohlinger, Scrap Book-Joan Ferguson, Chaplin-Joan Bugbee, Calendar-Lois Marvin, Publicity-Nancy Chapin.

After a very successful rushing season, the Pi Phis are pleased to welcome into the house twenty new pledges: Linda Ball, Linda Brown, Roberta Clauss, Pat Harrison, Judith Hauck, Pat Hughes, Sally Humphrey, Kathleen Jessup, Mary Jo Judd, Alberta Kauzmann, Joanne Kelty, Donna McAlister, Katherine Moore, Mary Lee Morrill, Diane Morse, Shirley Nichols, Galen Norton, Molly Olson, Abigail Russell, and Carol Stickney.

Three future home economic teachers have left campus for their six weeks of practice teaching. Mary Alice Leete is in Middlebury, Peggy Leonard has gone to St. Albans, and Connie Rawson is at Spalding High School in Barre.

The Pi Phis were very honored to be the hostesses for the Kake Walk Royalty Reception.

We had our first exchange dinner of the semester with SAE on Wednesday night - good food and lots of fun.

SIGMA PHI EPSILON

Congratulations to the new brothers in Sigma Phi Epsilon. They are Albert Bassett, Woodstock, Vt.; Dave Dunbar, Stratford, Conn.; Oliver Le Blanc, Williamstown, Vt.; Kenneth Orne, Brattleboro, Vt.; Gordon Gilman, Ludlow, Vt.; and John Richwagon of Burlington.

Sigma Phi Epsilon also pledged two new members: John K. Wu, Newton, Mass., and Mark Plotnick, Stamford, Conn.

TAU EPSILON PHI

Pvt. Donald Goldman, class '55, is United States attache at Juarez, Mexico. Serving across the Rio Grande is Lt. Paul Vogel, class '55, at Fort Bliss, Texas. Lt. Vogel is in close contact with Fraternity Brother Goldman due to his frequent visits to Juarez. Also in the Lone Star State is Lt. Keith Pampolis and Lt. Bernard Levy, U.S.A.F., class of '55, stationed at Keyly Air Force Base, San Antonio.

Cloud Seven

They are making a special batch of arrows for Cupid from now on with green and gold arrowheads cause UVMers are number one on his list!

Our congratulations to Jean Goodwin on her engagement to Bob Gorman. The happy event took place at a formal cocktail party at Jean's home in Maywood, New Jersey. Best wishes go to Liz Curtis '57 of Winchester, Mass. on her pinning to Bob Wolf '56 Dartmouth. Carol Sunderland, '56 of St. Albans to David Gaylord from Northfield. Dave is a graduate of UVM and was a member of Sigma Phi Epsilon. Arnold Blackstone, '58, Sig Phi Ep, of Brattleboro, Vt., pinned Janet Demsky, Gamma Phi Beta, '58, of Burlington. Hugh Bemis, another Sig Ep, '57, of Clyde, N. Y., pinned Tony Cook, '58, an Alpha Delt. It looks like those green and gold arrowheads made their mark at the Sig Ep house but the brother who topped them all is Vic Kendall, '57, of Springfield, Vt., on his engagement to Joan Whitcomb, also of Springfield. Joan attends Baypath Junior College in Longmeadow, Mass. Marilyn Royal, '57, of Lansdowne, Pa. is engaged to Stanley Rossier, '55 of Essex Jct. Even though Xmas vacation seems like ages ago it was an especially happy one for three Pi Phis who announced their engagements. Lois Marvin to George Brophy of Tuck Business School, Dartmouth; Nancy Bush to Jerry Ocorr of Middlebury, and Anne Duncan to Dick Nelson of the University of Connecticut. Xmas also brought wedding bells to Delta Psi pledge Phil Donderro, '58, and Barbara Black, '57. They were married on December 28, 1955 and are currently making their home here in Burlington.

The Concept Of The Individual

Kake Walk means many things to many people, and it often serves to illustrate points. One obvious point is that it is based on group action. There are no individual snow sculptures or skits. It is self evident that there can be no individual parties or walking competitions. In other words that whole thing is based on group action.

And groups require conformity. This conformity is at the expense of the individual.

But it is not only in social events that the group is stressed. In normal classroom activities it is reflected by the teaching methods of the instructors. There is, by necessity, little individual attention; our school follows the mass production method.

In a way, the individual is out of place in and out of the classroom. With very few exceptions all the students mix into a mass blend. He is then, at best, regarded as a member of Group A or Fraternity B, rather than as Tom or Joan. His scholastic achievements are relegated to a simple "that will help pull up the fraternity average," and extra-curricular activities, likewise, are looked at against the backdrop of his particular totem.

So the individual, or non-conformist, is not really left to himself. Campus pressures wrap and limit him. One peculiar development is the Vermont Independents' Association which in effect negatee the role of the individual by organizing him into a group of " independents." Yet this paradox can easily be explained by the student structure of the campus.

In actuality, what do we have? We find a pattern which strictly limits the person as a self-contained entity. His actions, and more important, his ideas are more or less strictly bounded. He must limit his beliefs. He must supress "radical" or unorthodox thoughts. He must follow the group party line with little opportunity for individual deeds and responses. In short, he must channel his concepts. He must conform! And in a University that is more than unfortunate. It is tragic!

Letter to the editor

Dear Editor:

For the past two weeks I have been watching with increasing concern the development of the traditional excitement and anticipation accompanying the approach of Kakewalk. The reason for my concern is that, unless I have been singularly unobservant, this atmosphere of joyful expectation has been subdued to the point of non-existance.

What has happened to Kakewalk? Where is the spirit, the laughter, the excitement, the gaiety? It is gone--gone with the posters, gone with the taxi rides, the favors, the impromptu skits in the coffee shop, gone with the banners, gone with the rush and color which, until this year were synonomous with the idea of Kakewalk.

Why has this been lost to us? Why, for one week out of 52, can we no longer live, and laugh, and enjoy ourselves? Why, with no warning, have the spontaneous activities of Kakewalk been reduced, not merely in extent and nature, but in location as well? Is it so disrupting to classwork to have banners, posters, and campaign favors being displayed or distributed within 50 feet of the Waterman building? Perhaps it is hoped that a lack of extra-curricular activity will induce increased attention to academic pursuits. This may be true in theory; however, I have always understood that one's attendance at classes at the University of Vermont was, in contrast to the practice of many other colleges, a matter of concern to no one but the student himself. Apparently this is no longer true

Again, it may be felt that the students, particularly those personally involved in the activities, are endangering their health. If thhis is the case, why do Kakewalk tickets continue to be sold at a time which forces those wishing to obtain them to stand in line in near zero temperatures for, in many cases, as long as three or four hours? Why has fraternity rushing been condensed and accelerated to such an extent that fraternity and sorority members must literally stay up all night, not just one, but several nights, in order to complete the necessary preparations?

I can only hope that new traditions will spring up to take the place of the old, and that Kakewalk may again hold the happy associations for us that it has in the past.

Teresa Jacob

NOTICE

Students and faculty members who would like to sing in the performance of Handel's oratorio "Samson' which will be presented by the University Choir and the University Orchestra on Sunday afternoon March 13th, should call the music building, 70 Williams St., telephone extension 217. Most of choruses will be sung by the University Choir alone but assisting choirs and additional singers will be used for the three chief choruses. Rehearsals will be held on Thursday evenings.

File Thirteen Revisited.....

So the title sounds familiar? It's a far cry from the old days, but a freshman reader might speak to any junior or senior and find the oisters all have soft spots in their hearts for a column entitled FILE 13, which once adorned and added much relish to the pages of the Cynic. This column is dedicated to the past, and to the memories of those of you who have lasted through the past few years on campus.

Prize package number one: We once had a junior magazine at UVM. It was a privately run publication in which students aired their views on multifarious items, did their own art work, added a little fiction and poetry, and were in no way liable to University censorship. When the time arrived for the editors to "break the green and gold umbilical cord," its editor-in-chief offered to sell the ALLEYCAT rights to SA for two hundred dollars, and wanted to add a fresh new editor-in-chief oozing with talent into the deal. But the rulers of our student body declined the honor and the talent and the magazine rights. Alas, part of our past was buried. Likewise, several downtown firms had to bury unpaid bills (a few of which pop up at awkward times), and a few red faced members of our large happy family were able to forget curt and critical feature stories of themselves.

Prize package number two:

There's a party in the town
Called the Bowery Brawl.
There'll be whiskey and beer
For one and all!

Many were the times UVM co-eds and their dates crawled under the porch, down a coal shute, through a maze in the cellar, and arose triumphantly, dirty but thirsty, into a damp and sawdust-strewn room of one of the finer night spots on the campus. 'Twas a closed party, and a privilege indeed to receive an invitation to what was loosly termed the social event of the ages. Downtown establishments generously donated store signs, road signs, and motel signs as decorations for the gala affair. But treasure is often buried in the hopes of preserving international sanity, and so the Bowery Brawl ended with a whimper.

Prize package number three: The room was dimly lit; cigarette smoke almost hid several figures seated at one of the round tables by the fireplace. The Juke-box on the side drowned out their low pitched voices. Julie cut her way into the back room with a tray of tall ones. Suddenly one member of the quintet shouted "Eureka," Then the five heads came close together in conference. During the following days, walets opened and closed mysteriously while the word SKEPTIC was timely ripped from the mouths of solicitors. A new publication was born and lasted one short month. Whether or not one was personally involved in the CYNIC-SKEPTIC feud, he was certainly aware of the tension. To misquote a misquote, one could hear more noise from both faculty and student body than normally issued from the "mooing of the cows" and "clicking of amateur surgeon knives."

Many prize packages will have to remain unopened to our latecomers, but there will always be those who remember. Stories sounding more like fancy than fact will become legendary tales to be related over the card tables and tea cups of a Saturday evening tete-a-tete at your favorite frat house. We cannot but deny times have changed. When I was first here, the good old days were defined as the time when the veterans ran the school. Freshman men were debonaire gentry usually way past their twenty-first birthdays. Classes were filled with those who knew how to spend the right kind of effort on their work, boys who had fought in war for their college education. The boys also spent big time weekends without effort.

When the Korean war came along, those lucky enough to remain in college didn't seem to care very much about their education. No one worried about finding a job upon completion of four years up in Burlington, Vermont. The favorite uncle wearing his frat colors of red, white and blue had a secure position all lined up for those whom he had allowed to graduate. The boys worked hard at spending a pleasant and easy four years, because who knew what the future might bring.

We , in 1956, haven't been at a loss for entertainment, however. The Mill is still here, Thursday night is jazz concert night at the Sugar House, and a restaurant over on Colchester Avenue has started making pizza. Sad eyes gaze upon the destruction of the Majestic theatre, (a garage will take its place), and lots of us still recall the foreign films which used to give us a decent excuse not to study. If you happened to be in the Museum one night two weeks ago, you might have had a truly pleasureful evening watching an excellent film on Renoir preceded by a lecture on impressionism and and the beginnings of modern painting given by the very capable Dr. Gowans. (The lecture and film were the first in a series of four, in case you haven't discovered this find).

Weekends show well traveled roads between the Queen City and Stowe. You may find yourself side by side with your favorite professor, shussing down the Toll Road or the National. A familiar big green car from the English department is often seen parked at The Lodge, and even President Borgmann can be seen sporting a bright red parka over on Spruce Peak.

Kake Walk wasn't half as bad as we expected. Of course the local gens-d'armes were kept a little busy collecting warrants to visit various apartments rather than frat houses, but we had to expect a few rebels unaccustomed to prohibition ways. The skits weren't rough like they used to be; instead, we had terrific productions that our mothers could be truly proud of. Point of interest - many boys who, in the last few years, devoted much of their time to skit writing now find themselves working in TV and radio spots.

May the memories I have uncovered be pleasant ones, and hope to talk with you in the future. If not, "skol" for the old days, and for now, and for what's to come.

UVM Clippings

News Of Faculty And Staff
Prepared By The Public Relations Office

" Living and Learning "

On Friday, February 24, Eleanor Luse and G. Richard Oppfelt will face the camera on the University's television program, " Living and Learning." In demonstrating the role played by the Speech Clinic, they will show the TV audience examples of assistance given to UVM students and to children of the State who have deficiencies in speech and hearing, and will outline the work done by students training for careers in Speech correction and remedial education. They will be assisted in these demonstrations by individuals who are receiving aid from the Clinic and by students in the speech Department.

The " Living and Learning " program has been moved to a new time-spot and is now telecast over WCAX-TV every other Friday evening at seven o'clock instead of 7:45 as in the past.

Richard G. Inskeep was featured on the February 10 program in which he explained some of the research he is conducting on molecules and showed the principles of molecular structure and attraction.

ALAN GOWANS TO LEAVE UVM

Alan Gowans, director of the Fleming Museum and assistant professor in the Art Department, will leave the University on June 30 to become chairman of the Art Department at the University of Delaware and an associate of the Winterthru Program of Studies in Early American Culture.

Before joining our faculty in July 1954, Mr. Gowans taught at Rutgers University and at Middlebury College. He is a graduate of the University of Toronto, having received the bachelor's and master's degree from that institution. He also holds the M.F.A. and Ph.D. from Princeton University.

While a member of the University faculty, he planned and supervised a program of improvement and development of the museum collections, renovating the Primitive Room, redecorating the Fleming Room to make an informal meeting and study place for students, and rearranging the Oriental Room for more effective exhibition of the collections. He also served as host on the television program " Video

Mr. Gowans will take over his new duties at the University of Delaware next September, after teaching " History and Significance of the Popular Arts " at the University of Michigan Summer Session.

PLAYERS PRESENT " AWAKE AND SING "

The UVM Players presented a " readers " theatre production of " Awake and Sing " on February 12 in the Fleming Auditorium. The play, which dealt with a New York family during the depression, was by Clifford Odets, author of " Country Girl, " " The Big Knife," and " Golden Boy."

Faculty and staff members who took part in the performance were Dean Alan Coutts, Ralph Vanderslice and Don Hardy. Greg Falls supervised the production.

RECENT GIFTS TO FLEMING MUSEUM

Copeland Marks, Class of '42, has presented three objects from the Gupta period to the Fleming Museum. Mr. Marks is currently on leave from service with the American Consulate of Calcutta, India. His gifts consist of a seal representing a bull or ox and having Sanskrit letters, a four-inch shrine containing ten Buddhas, and a two-inch head of a goddess.

NOTICES

The University Club meeting will be on Friday, February 24, as originally planned. Mr. Dan Kiley, noted architect, will be the speaker of the evening and will show pictures of the plans for our country's new Air Force Academy. Time: 8:15 P.M. Place: Faculty Lounge on third floor of the Waterman.

The Public Relations Office has a limited number of the Kake Walk issue of The CYNIC. Faculty and staff members who have not received copies of the issue may pick them up in the PR Office, 111 Waterman, on a first-come first-served basis.

Faculty Notes

George Male was a member of the 13th annual Goddard College Conference on Educational Issues, held on February 4-5. The conference was under the direction of H. Harry Giles, executive director of the Center for Human Relations Studies, New York University.

* * * *

Dr. Eugene Lepeschkin attended a conference on the Electrophysics of the Heart on February 16, sponsored by the New York Academy of Sciences in New York City. He acted as moderator of a panel concerning the U Wave and the after potential of the heart and spoke on cardiac exitation in a panel discussion. On February 24, he will be a panel member in a discussion of Electrocardiographic Theory and Practice. Dr. Lepeschkin has also had an article accepted by the Bulletin of The Medical Library Association entitled " A Detailed Subject Classification for Cardiovascular Reprint Libraries, Based on the Standard Nomenclature of Disease."

* * * *

Jack Spaven attended the executive board meeting of the American Association of Agriculture College Editors in Chicago from February 19 to 22.

* * * *

Andrew Tessmann and Edwin Schneider have just completed the revision of a booklet on Dairy Barn Ventilation, which is being published for Vermont farmers.

* * * *

Dr. Raymond M. Donaghy has received a $ 1,200 grant from the Vermont Heart Association, under which he is conducting research in the treatment of cranial aneurysms, or bulges in the weakened walls of blood vessels in the head.

Vote For Hoopster MVP Tomorrow

THE SIDE-LINE CAT

by

ED WALKER

Just the facts . . . The University's Athletic Department recently released next year's football and basketball schedules. The gridiron slate finds no changes from this past season's in the Cats opponents, but once again the forces of Coach Donnelly will be facing a tough homecoming foe when they meet the Bears of Maine. An eighth game with Colby College was tried for but to no avail since they insisted on playing it up there. The opener in '56 will be away but the finale with the Middlebury Panthers will be at Centennial Field. With Maine, Rhode Island, and Massachusetts still on the schedule, the Cats still have a chance to bring home the Yankee Conference title since three is the minimum number of games that a team is allowed to play in order to be eligible for the crown. Looking at the '56-'57 basketball season, we find that three teams have been added and only one dropped, bringing the total number of games to 20. Replacing St. Anselms are A.I.C., Clark, and the Coast Guard Academy, all of which promise to be tough games. In case you're wondering who next year's KW opposition is, it's the Rhode Island Rams . . .

This "S-L Cat" would like to congratulate the women's ski team on their victory this past weekend at the Middlebury College Winter Carnival where they outskied four other teams in practically all events. This broke the Pantherettes 11-year hold on their ski meet as Helen Wichowsky, Jan Bailey, and Mary Cox led the UVM women skiers to a 285.90 to Middlebury's 264.32 victory. Miss Wichowsky won the combined rating in the downhill and the slalom . . . The men didn't fare so well, finishing fourth in the final team standings. Frank Wall made the best showing by finishing second in the individual nordic combined, which is your individual score after the X-country and jumping events. Captain Frank Evans returned to form by finishing fourth in the slalom and Ed Sinclair placed ninth in the jump . . .

The annual Kake Walk game produced no surprises with captain Bill King and forward Skippy Burkhardt once again leading the scorers in a losing cause. The Cats only made 41% of their foul shots and 32% of their field goals. The St. Anselm's Hawks, while not doing much better on the foul line, threw in 43% of their shots from the floor. This was due mostly to their effective fast break . . . The UVM football team will face a new Rhode Island coach next season as its former ace Harold W. Kopp resigned to take another position . . . Connecticut recently beat R. I. in overtime to capture a place in the N.C.A.A. basketball tourney. The winner of the Y-Conference gets an automatic spot, so why not schedule a game with Connecticut during the season instead of hoping for a playoff game? "We are" going to emphasize Yankee Conference basketball in the future, "aren't we?" . . . The freshman team seeks revenge at Dartmouth today where they meet their only conquerors . . .

"Flying" Dick Dennis scores two against St. Anselms. (Photo by Eisner S.P.S.)

Trophy To Be Given, Feb. 29

Tomorrow, voting for the most valuable player on the basketball team will take place from 8 A.M. to 4:30 P.M. in front of the information office inside Waterman building. This annual award will be presented to the MVP by CYNIC Sport's Editor, Ed Walker at half-time of the UVM-New Hampshire game, Wednesday, Feb. 29.

The award was started back in March, 1954 when Gerry Samuels was awarded the trophy, and last year guard Earl Steinman captured the prize. The trophy is sponsored by Wood's Sporting Goods Store and the voting ballot which each student and faculty member will receive includes all members of the present varsity team. In the past, two outstanding seniors were the recipients but the voting on this year's squad promises to be a lot closer since no one player has been in the spotlight the whole season.

For those who do not know what the MVP consists of, let it be said that it is awarded to that player who through his basketball skills, sportsmanship, and general popularity wins the valued title.

Don't forget to vote tomorrow and be sure to BRING YOUR BLUE I.D.'s along.

Green Freshmen End Kittens' Victory Streak

The Dartmouth College Freshmen came from six points behind in the last half at the UVM gym yesterday afternoon to knock the Vermont Freshmen from the unbeaten ranks with a 69-61 victory.

Using height and ball control the little Big Green scored 35 points in the final 20 minutes. It held the slow-moving Kittens to 21.

Lanky (6-8) Rudy LaRusso was the difference with 23 points, 14 in the last half. Tiny Bob Kuchar gave the UVM rooters plenty to cheer about in the first half with 19 points.

Jack Procino held the set-shooting artist, Kuchar, to five points in the last half. With this went Vermont's hopes of winning.

Vermont, playing without its tallest pair, high scoring Clyde Lord and Bob Gallagher, didn't have the height to compete with Dartmouth. The Green had been beaten by the St. Michael's Freshmen last week. Lord and Gallagher are out for the season with broken bones.

Kuchar led the Lapointemen to a 40-34 halftime lead, hitting from all over the floor.

Vermont Gives Rhody Battle, Loses, 88-78

KINGSTON, R.I., Feb. 16 —Vermont's Catamounts gave the powerful Rhode Island Rams a terrific battle before succumbing to superior height, 88-78, here tonight.

A 30-point underdog, the Catamounts played the same type of running game employed by the Rhodies and the farthest they fell behind was 12 points. At the half Rhode Island led by 42-36.

A pair of Rhody players were in the 20s in this Yankee Conference conflict. Marozzi led with 22 and Van Weyhe had 21.

Skip Burkhardt led the Catamounts with 22 points while Bill King added 19.

UMass Defeats Vermont, 78-58

The University of Massachusetts tonight used its outside shooting to good advantage to defeat the University of Vermont, 78-58.

The small, speedy Redmen couldn't match the 29 - point production of Vermont's center, Bill King, who played an outstanding game. He controlled both boards throughout the play.

CAT-NIPS:

Vermont Skier Charlie Gee recently thrilled the crowd at the Dartmouth Winter Carnival by finishing second in the slalom event. Way to show those Ivy-Leaguers, Chuck!

Two Saturdays ago, Vermont was without the services of starter Dick Dennis, who was attending the wedding of his brother, Sonny Dennis, the former Middlebury great. Best comment of the night was from Fuzzy Evans: "That Sonny Dennis is still beating Vermont."

Cats Drop KW Game To St. Anselm's, 79-65

Superior height, artistry from the floor, coupled with failure of the home club to connect from the foul line, gave the St. Anselm's Hawks a going-away 79-65 verdict over the University of Vermont Cats last Saturday in the annual Kake Walk game.

With a slim crowd sitting in, the Hawks started slow, and picked up momentum with each passing moment. The Cats played a good game but were not up to the fast breaking Hawks. Vermont's Bill King and Skip Burkhardt carried the burden for the UVMers with 21 and 15 points respectively, as Bob Lovejoy was completely shut out and left the game midway through the last half on personals.

The lead shifted 14 times in the first half before the Hawks took over for food with about seven minutes till intermission. At this point they led, 27-24, and sent this to a 39-28 halftime score. Vermont cut the margin to seven points at the outset of the final half, but the Hawks countered to go ahead by 13 points and proceeded to coast the rest of the way home.

After this spurt gave them a secure lead, the Hawks continued the pace never going more than 20 points ahead, nor 13 points behind. It was a series of fast breaking plays, and failure of the UVM club to rebound that sent the Hawks out front for keeps.

THE UNIVERSITY OF VERMONT AND STATE AGRICULTURAL COLLEGE

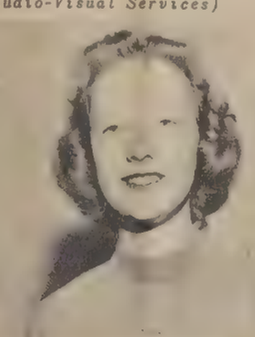
VOL. 73 BURLINGTON, VERMONT MARCH 1, 1956 NO. 29

UVM Will Engage Architects To Plan New Medical Bldg.

The Board of Trustees of The University of Vermont recently took another step forward in their plans for the University's Development Program when they approved a recommendation by President Carl W. Borgmann that the University engage architects to prepare preliminary plans for a new Medical Building.

President Borgmann said that the University would seek advice from a firm specializing in medical building architecture, but said that the University had not yet engaged such a firm. "It is anticipated that a combination of national and local firms working together will be sought," he said.

"We will want to have professional help not only in the design of our new medical building, but also in helping to locate its site." Noting that the Board has such "advisory materials" as the Hamilton Associates Report and the report of Dr. George A. Wolf, Jr., dean of the UVM College of Medicine, Dr. Borgmann said "the next logical step is to bring architects into the picture to make preliminary plans available to us."



Janice Fayen And Judy Lamson Vie For President

Janice Fayen and Judy Lamson (above) and Gail Angotti and Marion Fassett (below). The latter two are contesting for the position of Chief Justice.
(Photo by Eldred-Audio-Visual Services)

WSGA Election To Be Held Next Wednesday

Janice Fayen and Judy Lamson have been nominated for President of the Women's Student Government Association. The election will be held next Wednesday evening at a mass meeting of all women students in the chapel. Other offices of WSGA will also be voted upon then.

Janice Fayen is a junior in the College of Commerce and Economics. She is vice president of Kappa Alpha Theta and has been active in the Junior Week Committee. Judy Lamson is a home economics major in the Junior class. She is the Pan Hellenic delegate from Alpha Chi Omega and is assistant house chairman of WSGA as well as being a member of Staff and Sandal.

Roberta Baker and Sandra Waugh have been nominated for Second Vice President. Gail Angotti and Marion Fassett will oppose each other for Chief Justice, and Florence Alexander is running against Patricia Horvath for House Chairman. Jane Stickney, president of WSGA has stressed that any person may petition to be a candidate by filling out one of the forms which are available.

CANDIDATES' QUALIFICATIONS

Gail Angotti is president of Kappa Alpha Theta, member of WSGA, judiciary member of WSGA and has been a member of Sophomore Aides. Marion Fassett is in secondary education, a member of Sigma Gamma and House Fellow at Sanders House. Florence Alexander is house president at the Old Mill, member of Staff and Sandal and was co-chairman of Freshman orientation. Patricia Horvath is majoring in Junior High School Education, last year she was ouse fellow at Allen House, and this year is president of Phelps.

Other offices to be voted upon on Wednesday are Scholarship Chairman, for which Francis Russell and Phyllis Bracey have been nominated. Valerie Gluskin and Lynn Eger are the candidates for Social chairman.

Beverly Jones will oppose Mary Bohmer for Secretary, while Janice Bailey and Marilyn Bolton will seek the office of treasurer. Pamela Crooks and Janis Erald are the choice for town representatives, and assistant house chairman will be contested by Barbara Kellerup and Edith Lawson.

Carolyn Hunt and Ruth Seeler are the candidates for Assistant Scholarship Chairman. Judy Clark and Irmagard Downie are vying for the office of assistant Social Chairman.

Deadline Past Today For Frat. Drinking Answer

By 5:00 this afternoon every fraternity on campus will have submitted a proposal for self-enforcement of the University's liquor program to President Carl W. Borgmann.

According to Edwin G. Hebb, president of the Interfraternity Council, " The plans indicate to a large extent that the fraternities wish to handle the enforcement situation completely within their individual houses. However, it seems at this time that the methods will vary greatly with each fraternity."

He continued by pointing out that the recent dismissal of the chaperone evaluation system indicates that the responsibility of seeing that the regulations are enforced now rests entirely with the fraternities.

A Step In Borgmann's Plan

Today's submitting of plans for self-enforcement of drinking rules marks the third step in the program outlined by President Borgmann late last semester. The first step was a vote of all the fraternities which would have to indicate that two-thirds of the members were in favor of the President's program in order to be acceptable.

The second step took place in February when all the bars had either to be removed or made unusable. The plans for self-enforcement is the third step, and presumably the fourth step will come when President Borgmann approves the plans and the actual systems which they propose are put into effect.

Annual Dean Hill's Sugar Party To Be Held March 10

Dean Hills' annual sugar party will be given on Saturday, March 10, at the Proctor Maple Research Farm on Mt. Mansfield. Maple sugar on snow, dill pickles, doughnuts and coffee will be the order of the day when members of the University family continue an 18-year old tradition.

Two new features being incorporated in this year's party are a demonstration of the sugaring operation for anyone interested, and a hay ride from the main road to the sugar house, doing away with the long climb necessary in the past.

The party was started as a tribute to Dean Emeritus Joseph Hills of the Agriculture College and for 11 years it was held in the gym. It was poved in 1949 to Mt. Mansfield where a sugaring atmosphere is combined with a view of Lake Champlain and the Adirondack Mountains.

Valuable Information

The Research Farm, sugar house and equipment were given to the University for research in the field of maple sugar production, and this work is being carried on under the direction of Dr. James Marvin of the UVM Botany Department. Much valuable information has been obtained from this research, which has assisted the maple sugar producers of the state in understanding and operating their sugar bushes more efficiently.

New Dorm Named For First Women Grads Of UVM

UVM will honor its first two women graduates by naming units of the new women's dormitory now under construction on Redstone Campus after Lida Mason and Nelly Hamilton, both of the class of 1875.

The two women entered The University of Vermont in 1871, the first women to be admitted by a New England college as regular students. They also shared the honor of being the first women to be admitted to Phi Beta Kappa when the chapter at Vermont became the first chapter to admit women.

The University's Board of Trustees recently took the action honoring them. Each will have one unit of the new women's dormitory named after her.

Phi Sigma Delta Retires Trophy For Best Skits

Phi Sigma Delta retired the Briggs Cup on this Kake Walk by winning first place for its skit the first night, it was announced last week by the directors. The win on Friday night saw the fourth straight first place for Phi Sig in the Kake Walk skit competition.

Retirement of the cup was not announced at the Walking cause the directors were not decided as to whether a group should win the cup for both nights three years in a row in order to retire it, or whether one first for three years would suffice. The decision finally was that one first place for three consecutive years would enable a fraternity to retire the cup.

Trustees Announce Totals Of Gifts And Scholarships

The University of Vermont has received gifts totaling $6,750.42 and scholarship grants to individual students amounting to $2,078.32, it was announced recently following a meeting of the University's Board of Trustees.

The largest single gift accepted by the Trustees, $3,505.42 from the estate of William A. Scott, will be used for library purposes in memory of her father, William Scott. Born in Edinborough, Scotland, Mr. Scott lived and worked in Burlington for 45 years as a book binder.

Other gifts included an $800 medical scholarship from the Jones and Lamson Foundation, $750 from the Charles H. Hood Foundation for agricultural scholarships, $750 given by Helen C. Carter to eetablish the Robert M. Carter Loan Fund for agricultural students, a $360 addition to scholarship aid for a student from Jordan from Dr. Wadi Sawabini, and an anonymous gift of $250 to go toward the University Loan Fund.

In addition, gifts were received for the Medical Student Loan Fund and for a post-graduate course for General Practitioners, and additions were made to the Henry Seamons Fund and the Barbara Grow Grim Fund.

Twenty-one scholarship grants to individual University students were accepted by the Trustees from Vermont firms and civic and church groups, totaling $2,078.32.

Round Table Discussion To Be Conducted Mar. 10

" Man's Outlook in Modern Society " will be the topic for discussion at the next meeting of the Round Table on Saturday evening, March 10th. Professor Betty Bandel of the English department and two other professors will be the faculty discussion leaders.

All members of the University family are welcome. The meeting will be held at the Klifa Club at 342 Pearl Street and will be proceded by a supper at 6:00. Those who are not members of the club should put a note to the effect that they plan to attend, in the Round Table box in the Waterman information office. There is a charge of one dollar for supper. $1.25 for non-members.

Two Fold Purpose

The Round Table is the only student - faculty organization on the campus, which has as its purpose the discussion of topics of current interest. In addition to learning about the question under discussion, students have a chance to become better acquainted with faculty members as they are out of the class room.

Earlier this year the Round Table has discussed the role of fraternities on a university campus, and methods for preparing colleges for the anticipated increase in enrollment.

107 Students Make Arts Dean's List

One hundred and seven University of Vermont students have been named to the semester dean's list in the College of Arts and Sciences, it was announced by Dean George V. Kidder. Fifty-two of the students named are Vermonters.

Recording top honors, with a 95-100 average, was Edward A. Kupic, Burlington, while five students had averages of 93-95. They were Joel S. Berke, Brooklyn, N. Y.; Leone Bernstein, New Britain, Conn.; Bruce E. Norcross, Island Pond; Ruth A. Seeler, Ardsley, N.Y.; Ronald W. James, Rutland.

Students with averages of 90-92 were Jack B. Cowie Jr., Wallingford Hills; Gerald H. Jacobs, Wilmington; Patricia A. Kolk, Eggertsville, N. Y.; Ray L. Merrihew, Burlington; Marvin A. Nierenberg, Jamaica, N.Y.; Shirley A. O'Neill, Rutland; Mary S. Rothenberg, New York. N. Y.; Merritt E. Spear, Plattsburgh, N. Y.; Lawrence M. Birnbaum, Brooklyn, N.Y.; Henrietta L. Donnally, West Newbury; John C. Mesch, East Orange, N.J.; Jules M. Perley, Brooklyn, N.Y; Stanley A. Scheiner, Bronx, N. Y.; Frederick R. Hyland, Rutland; Lewis M. Slater, Flushing, N. Y.; Helen M. Atwood, Storrs, Conn.; Robert Ehrlich, New Rochelle, N.Y.; Martha M. Page, Hyde Park.

85-89 Averages

Students with averages between 85 and 89 were John L. Barr, Burlington; Charles P. Barrows, Barton; Salomon Bensimhon, Burlington; Roderick C. Billups, Winooski; Martin E. Bloomfield, Springfield; Marilyn G. Boardman, St. Johnsbury; Nancy A. Clarke, Ho-Ho-Kus, N.J.; James E. Cleary, Marblehead, Mass.; Catherine Dwyer, East Barre; Elaine D. Goldstein, New York, N.Y.; Lawrence M. Klein, Brooklyn, N.Y.; Jerome Kobre, Brooklyn, N.Y.; Eugene M. Levin, New York, N.Y.; Nancy E. McGoughran, West Orange, N.J.

Also Alice G. Millis, Cleveland, Ohio; Harold R. Moore, Delmar, N.Y.; Patricia M. Orvis, Bristol; John Quinn, Burlington; Frances T. Raphael, Hewlett, N.Y.; Neil T. Rich, Bronx, N.Y.; Perry Siegel, New York, N.Y.; Judith H. Silon, Teaneck, N.J.; Herbert W. Simons, Brooklyn, N.Y.; Bert N. Smith, Hardwick; Ruth E. Soybel, Burlington; David A. Spector, New York, N.Y.; John W. Stetson, Rutland; Melvin H. Wolk, Waterbury, Conn.

And Max G. Ansbacher, Burlington; Janice C. Bailey, Hanover, N. H.; Roberta L. Baker, Flushing, N.Y.; Edwin L. Bevins, Burlington; Mary T. Cronin, Morrisville; Lorna W. Dean, Burlington; William H. Doolittle, Burlington; Catherine M. Evanson, Swanton; Marcia Fink, Pittsfield, Mass.; Joan Gruenor, Essex Junction; Louise T. Hooker, Burlington; William S. Infeld, New York, N.Y.; Suzanne Irons, Burlington; Eugene W. Johnson, Burlington; Rudolph M. Keimowitz, Middletown, N.Y.; John B. Lounsbury, Vergennes; John M. MacAulay, Graniteville.

Reasons Why UVM Frosh Leave School

By Artie Krauser

A semester has ended, a new one commenced. The axe has fallen, and lo, the Class of '59 has diminished. It is a perennial occurrence; not all the freshmen enrolled at UVM in the fall are here when the snow melts in the spring. As a frosh last year and a dorm counsellor for this one I have been noticing the frosh that leave school, examining the various causes for this minor exodus. In most cases the key word is miss. There are those who leave because they miss their families; some freshmen depart because their families miss them; the lovers of the class drop out because they miss their girls, the few who exit because their girls miss them, those who miss the city, those who miss the farm, those co-eds who are still Miss and are worried, and of course, the ones invited to leave because they miss classes.

10 Ways To Get Through College Without Trying

The following appeared in the Tennessee Tech Oracle; and now as a public service, the Vermont CYNIC in the interest of a better student faculty relationship presents "10 Ways to Get Through College Without Even Trying."

1. Bring the professor newspaper clippings dealing with his subject, bring in clippings at random. He thinks everything deals with his subject.

2. Look alert. Take notes eagerly. If you look at your watch, don't stare at it unbelievingly and shake it.

3. Nod frequently and murmur "How true." To you, this seems exaggerated. To him, it's quite objective.

4. Sit in front, near him. (Applies only if you intend to stay awake).

5. Laugh at his jokes. You can tell, if he looks up from his notes and smiles expectantly, he has told a joke.

6. Ask for outside reading. just ask for it.

7. If you must sleep, arrange to be called at the end of the hour. It creates an unfavorable impression if the rest of the class has left and you sit there alone, dozing.

8. Be sure the book you read during t helecture looks like a book from the course. If you do math in psychology class, match the books for size and color.

9. Ask any questions you think he can answer. Conversely, avoid announcing that you have found the answer to a question he couldn't answer, and in your younger brother's reader at that.

10. Call attention to his writing. Produces an exquisitely pleasant experience connected with you. If you know he's written a book or an article, ask in class if he wrote it.

Prof. Little Leaves For Formosa

Professor George T. Little of The University of Vermont department of political science has received a government grant to accept a visiting professorship in Western diplomatic history at the National Political University, and a professorship in United States history at the National Taiwan University, both on Formosa.

Prof. Little's grant is for one year, and comes under the Smith Mundt Act for the international exchange of persons in a program conducted by the United States Department of State. He has received a leave of absence from The University of Vermont to accept the grant, it was announced today by UVM.

Prof. Little, who has served as executive director of the Vermont Council on World Affairs, stated that the grant is particularly welcome because "while my work will be essentially that of teaching, the grant brings me to a key area in international affairs. The problems of the Chinese people are symptomatic of the political problems of the world, and I am pleased to have the chance to become a first-hand oserver."

The UVM professor also noted that the grant offered him the opportunity to participate in the aspect of our foreign policy which involves "individuals rather than materials," which he described as one of the more fruitful approaches of twentieth century diplomacy.

"Also," he said, "I shall look forward to the opportunity to travel as a private citizen without the same restrictions which often hamper official representatives who, because of protocol, cannot freely meet people at all levels."

Prof. Little will make the trip to Formosa with his wife and their three children, "hoping to arrive by the first of February." His appointment is for a year beginning when he arrives, and he indicated that he expects to be back at UVM for the second semester next year.

Prof. Little, who this year has served as consultant to the Vermont Council on World Affairs, has previously served overseas in Europe with the American Friends Service Committee.

Students Asked To Submit T&C Exhibits

All student organizations are invited to set up an exhibition of their activities and accomplishments for display at UVM's Town and Country Days. This annual event, an open house to the whole Vermont community, is being held on April 20 and 21. Interested groups should contact Don Harday in the COSA office.

Already nineteen exhibitions have been planned by the academic departments of the university. They will be set up in rooms 210 and 211 and along the second floor corridor.

One of the exhibits will be a display of business machines from dealers all over the state. The Home Economics department will display student-made children's clothing and exhibit methods of food planning. The Electrical Engineering department will show a collection of electronics machinery.

Town and Country Days are held in conjunction with High School Day. Over a thousand visitors come to the UVM campus for these events. Participants in Town and Country Days attend lecturers, visit exhibitions, and exchange information. High School Day is designed to acquaint high school Seniors with the opportunities that a college education offers to them. They attend sample classes, tour departments, and talk with experts in their fields of special interest. About 700 students attended High School Day last year.

Senior class meeting very important--election of Senior Week Producer.

Date: Tues. March 6
Place: Rm. 239 Waterman
Time: 7:30 P.M.

At your next meeting, which will soon be announced, it is necessary to have at least 2/3rds of the class present, as we shall try to retify our constitution and thereby become an official university organization. Your cooperation is needed. Be prepared to bring up any other business that you think important.

Cinema Art Club Program Announced For Next Week

The next meeting of the Cinema Art Club will take place on Saturday and Sunday evenings, March 3 and 4, at 8 P.M. at 75 Bilodeau Court. The program is open to everyone. A contribution of 50 cents per person toward rental expenses will be expected. The following films will be shown:

1. " A Play of Spirals " (15 min.) A visual composition of some unusual sea-shells, with a specially written musical accompaniment.

2. " Death in the Arena " (12 min.) A film on the famous bullfighter Manoiete, including the fight at which he was killed.

3. " Lament " (20 min.) A dramatic interpretation through Modern Dance of Garcia Lorca's poem on the death of a bullfighter. With Jose Limon, Letitia Ide and Ellen Love, choreographed by Doris Humphreys and photographed by Walter Strate, with music by Norman Lloyd.

Intermission

4. " Little Works of Great Masters " (20 min., German) Some of the lesser known paintings from German museums.

5. " Waltz in a Major " by Johannes Brahms (6 min.) Played by a symphony orchestra under Hans Lange. Visual interpretation by Malvina Hoffmann, danced by Desha.

Special Showing - Wednesday, March 7 - 8 P.M.

This will also be an open showing, with a charge of 50 cents per person.

1. " In a Monastery Garden " (6 min.)Scenes from the Mission of San Luis Obispo, accompanied by the piece. Sung by a male choir.

2. " Air for the G String " by J.S. Bach, played by a symphony orchestra under H. Burdon and danced by Doris Humphreys and group. (8 min.)

3. " The Pythoness " (5 min.) A poem by Kathleen Raine, illustrated by drawings of Henry Moore.

4. " Lamentation " (12 min.) After an introduction by John Martin, exerpts from Martha Graham's solo dance, filmed by the Architects Moselsi in Bennington, Vermont, are shown. The musical score by Kodaly is played by Louis Horst.

Intermission

5. " The Face on the Barroom Floor " (18 min., silent) Charlie Chaplin as an unfortunate artist.

After the showing, there will be a preview showing of the film " Toulouse-Lautrec", which will be shown the following night at the Fleming Museum. This film integrates actual Paris scenes with Toulouse's painting. It received First Prize at the Cleveland Art Film Festival. (22 min., color).

Rudolph Serkin Second Attraction For Lane Series

Rudolph Serkin, internationally famous concert pianist, is the second attraction to be signed for next season by the George Bishop Lane Artists Series, it was announced recently by Patricia Kolk, student chairman of the Lane Series Committee.

Serkin will appear under the auspices of the UVM series on March 1, 1957. Earlier this year, the Committee announced the booking of the Vienna Philarmonic Orchestra for a Dec. 1, 1956 Burlington appearance.

A native of Czechoslovakia, Serkin studied music as a boy in Vienna and made his debut with the Vienna Symphony at the age of twelve. Since that time he has been hailed by critics throughout the world as one of the great pianists of his generation.

Serkin's first visit to the United States was to play for a special invited audience at the Coolidge Festival in Washington. His public debut took place in 1936 when Toscanini invited him to be his soloist with the New York Philharmonic-Symphony.

Since then, in his yearly tours, the pianist has assumed a unique place on the American concert stage. In the summers he teaches at the Marlboro School of Music near his Vermont farm home, and frequently, since 1950, he has made the the summer trek to the French Pyrenees to join the great cellist Pablo Casals, for the yearly Casals festivals.

A truly international figure, Serkin frequently appeared in sonata recitals with the late, famous violinist Adolf Busch. Settling in Switzerland in 1927, the Serkin family came to America at the outbreak of World War II. with his wife and five children, the pianist now makes his home on a farm in Vermont.

Since the time of his American debut through to the present day, Rudolf Serkin has received enthusiastic critical acclaim. LIFE magazine noted that Serkin "looks like a scholar and plays like an angel," while Jerome B. Bohm of the New York HERALD TRIBUNE called him "the greatest living pianist, equalled by no other pianist and no other interpretive musician except Arturo Toscanini."

Taking up permanent residence high in the hills near Brattleboro, Vermont, Serkin owns a 125-acre farm complete with cows, sheep and tractor, where he lives "the simple country life I like best. Between concert tours and farm life, Serkin has recorded many of the major works of his recital and orchestral repertoire for Columbia Masterworks Records.

Campus Structures Found To Have Varied Histories

Many Freshman Students at one time or another may have asked an upperclassman the history behind certain buildings on campus, and if the upperclassman was a typical UVM'er, he or she would reply, "that they didn't know and that they didn't care." This is definitely the wrong attitude!

Do you realize that at one time Robinson was a carriage house and stable on the 66-acre Buell estate, purchased by the University in 1921. Of course, Robinson is no longer a stable, but has most satisfactorily been remodeled into a dormitory and dining hall, "Robinson Hall."

I'll bet most students aren't aware of the fact that Converse Hall is constructed in the Collegiate-Gothic style of Oxford University and is of Rutland marble. In going through school files, I was astonished to discover that Converse Hall was located in accordance with a plan, devised over 50 years ago, but since discarded.

Now I come to a building that is dear to all our hearts, especially pre-meds, Williams Science Hall. This building is named after a Dr. Edward H. Williams who originally intended to donate an Art building, but was induced by President Buckham to change his plans. In this building we have the Pringle Herbarium, which is rated one of the largest collections in America.

In 1804 Captain Thaddeus Tuttle, a merchant and real estate dealer, built Grassmount, UVM's first dormitory for women. Grassmount gets its name from the Count de Grasse, a friend of Lafayette. It was given this name by Herman Allen, nephew of Ira who had occupied it from 1329 to 1339.

I also came across an interesting fact about our Gymnasium. I'll bet most people don't realize that we have the oldest Gym in use in New England. It is completely inadequate to serve the needs of the University, since both the Department of Physical Education and the Department of Military Science are both within this building.

I'm sure many of you have heard of the proposed Student Union. But how many of you realize that this building was first proposed in 1919. A fund raising campaign got under way with undergraduate subscriptions totalling over $40,000 within the first year. However, the attitude of the students being what it was caused an eventual collapse of the idea. The money was used in connection with the construction of Southwick Memorial in 1936.

Another building of great interest is the Old Mill. The building was erected early in the 1800's and destroyed by fire on May 27, 1824. This calamity is said to have driven President Haskell temporarily insane, so that "desolation and widowhood came upon Alma Mater in one day."

Feuer Arrainges Murrow Film Interview

Professor Lewis Feuer, President of the University of Vermont Chapter of the American Associationof University Professors, has arranged for the film presentation of an interview between J. Robert Oppenheimer and Edward R. Murrow to be shown to the University Family at 3:00 P.M., Tuesday Evening, March 6, 1956 at the Auditorium of Fleming Museum. Professor Feuer points out that "this film, with its honest and profound discussion of the problems of the scholar and scientist in the contemporary world, has made an immense impression on all those who have seen it. The Bulletin of the A.A.U.P. for Winter, 1955, spoke of it as the creation of a work of art. It took the subject of freedom of inquiry and transformed it from dull legalism" into a beautiful and potentially challenging subject." It is one of the most remarkable film documents of our generation and its problems."

Newman Club Honored Founder Last Sunday

A large group of Newman Club members gathered in the Chapel at the Bishop DeGoesbriand Hospital in honor of its founder, John Henry Cardinal Newman, on Sunday evening, February 26.

Benediction was celebrated by Father Mulligan assisted by Gerry O'Halloran. After giving a brief sketch of Cardinal Newman's life, Father Mulligan officially conferred title upon the newly installed officers by the giving of medals. Gerry O'Halloran, former president, introduced the new officers: Maurice Chevalier, President; Robert Holenstein, Vice-president; Richard White, Treasurer; Ann Lee Knopf, Recording Secretary; and Judy Rossiter, Corresponding Secretary.

Following this ceremony an informal tea was enjoyed in the Auditorium. Servers were Ann Lee Knopf, Patricia Canfield, and Berta Pi-Sunyer. The following guests were present: Professor and Mrs. Raymond Tremblay, Mr. Richard Hooley, Miss Catherine Nulty, Miss Grace Morrisey, and Dean and Mrs. Joseph Carrigan.

EDITORIAL

Last week the CYNIC presented an interesting set of figures of fraternity, sorority and class averages. A closer examination of these figures discloses varied information.

True the sorority averages are impressively high, and it is not for us to take credit away where it has been deserved. But still look at the difference in size of sororities as compared to fraternities, and look at the relative difficulties of the subjects pursued by men and women. Consider again how much easier it is to study in a sorority house where the noise level is more closely controlled, and where there are so many less distractions.

As for the fraternities, the figures are quite revealing. Both Tau Epsilon Phi and Lambda Iota received averages of over 76.80. Yet TEP has exactly twice the membership, so the feat must have been that much more difficult to attain.

Five fraternities have LESS THAN THE AVERAGE REQUIRED TO GRADUATE, and remember, this list is made up only of sophomore, junior and senior class fraternity men. Because of delayed rushing the freshmen averages were not included. And the freshmen men averaged three points lower than the sophomore men, so by including the freshmen with their fraternity brothers, there would have been several other fraternities pulled below the school average requirements for graduation.

The lowest sorority, also leaving out the freshman women, had a 79.37 average which is still quite commendable. It is almost exactly the total senior class average, and the senior class topped the junior class by four points, which demostrates that progress comes with maturity.

The final figure which I will cite is the most interesting of all. THE TOTAL UNIVERSITY AVERAGE is a very poor 73.87%. Even granting that most of the people who pulled it down have since flunked out of school, we are still faced with a very disagreeable situation. Our rating as a University is bound to suffer. We want intelligent high school seniors to come to UVM for they are our future life blood. But what can we offer them? A 73.87% is a very poor inducement to the field of higher education.

What steps can be undertaken to raise this mark? We believe the action must come from the Administration for it is out of the scope and realm of the individual student. We have often felt the freshman class average would rise if cars were denied to them. We would increase that to anyone under the University graduation requirement of 72%. Not only would this clear the way for higher marks, but it would ease the parking problem.

The main step, which we are unwilling to face, because of our status as a State University would be to increase entrance requirements. Schools which are very select in whom they admit are not plagued with an unrealistic flunk-out rate. Besides not hurting the morale of the students, it permits certain economies. The size of the freshman classes could be cut, and not so many professors need be assigned to them. What are these men supposed to do the second semester when almost one-third of their charges are no longer enrolled at school?

We would be a much better school if the University decided to stabilize at a certain enrollment, and then tried to secure only the better students, in-state and out-of-stater alike. The Legislature feels that each Vermonter should be given a chance at higher education, and indeed they have made that concept the *raison d'etre* of our school. But consideration should be taken of the consequences which ensue, particularly in terms of the individual who has not made the grade, and who has failed in school. He could have been spared by a thorough weeding out process in the first place. And the school would have been spared, also.

Let's not forget the 73.87%!

Published weekly, every Thursday, during the college year, by the students of the University of Vermont and State Agricultural College. Editorial and business offices in Waterman Building, Burlington, Vermont. Telephone 4-4511, Ext. 344. Deadline for notices is Thursday, one week prior to date of publication.

Founded in 1883. Subscription rate, $3.00 per year; single copy, ten cents. Acceptance for mailing to points outside Burlington at special rate provided for in Section 406 P. L. and R. of March 3, 1879, authorized October 14, 1926.

File Thirteen Regained

by MARSHA PEARL

I walked into a Student Association meeting last Thursday evening. (They are open to the public in case any of you have some time to kill.) The secretary, Joan Armstrong was absent, so President Hansen was hunting around for a substitute. He suggested Marilyn Cooper, a friend of his, and then insisted any newly appointed secretary ought to sit by his left side, but somehow the deal went haywire, and Steve Plumb was appointed minute-taker.

The meeting came to order, and while absentees were being recorded, Judy Clark entertained all by humming "I was born on a farm out in Iowa." Each member had before them the minutes of the preceeding meeting, and a copy of the CYNIC. After commenting on the basketball team's standing, President Hansen left the room to take a phone call. Dave O'Brien took charge and asked for committee reports. Pep Committee: Art Adamo resigned. "Freshman Orientation Committee?" no comment! "Religious Activities Committee?" no comment! "Social Committee?" no comment! Brother O'Brien: "My, we've got a lot of people here tonight."

More committee reports continued, or rather were asked for, and President Hansen walked back into the room. Discussion ensued. President Hansen walked out of the room. Discussion continued, President Hansen walked into the room.

The discussion turned to the Student Photography Staff. COSA, Don Hardy, mentioned they had elected officers that afternoon, and the new president, ". . .Sherwin Iverson is now in the darkroom. . ." The hotly debated problem was whether to appoint a coordinator for SPS or to tell them to appoint one for themselves.

Next report: Facilities Committee. Judy Clark resigned. President Hansen: "We appreciate all the work you've done Judy." Sister Clark: "Getting new ashtrays?"

Next report: Clean-up Committee. Brother O'Brien: "After lots of pressure from upstairs and lots of dirty clothes, I see we have to get new washing machines." There is a washing machine committee set up for the purpose of replacing or repairing the bad machines on campus. Voice: "How about dryers?" Brother O'Brien "Mrs. Johns feels washing machines are the crying need right now." Steve Plumb: "Since I feel there is no crying need for these machines, I would like to table the motion (to buy washing machines) until our treasurer is back." (John Burgess happened to be absent.) Brother O'Brien: "There is a crying need: Mrs. Johns is crying."

The council voted to give Mrs. Johns her washing machines and business continued until President Hansen remembered his earlier phone call. He announced it was from ". . .our illustrious secretary, Joan Armstrong," who had telephoned from within the warm walls of Wasson Infirmary, where she was taking a brief holiday. She had phoned George to give her love to the council.

Because of vacancies in various committees, President Hansen requested replacements. For Sister Clark's empty seat on the Facilities Committee to buy ashtrays, President Hansen told Ruth Mutchler she was now co-chairman. Voice: "Appointment and promotion already?" Sister Mutchler: "But I don't know anything about it." President Hansen: ". . .don't worry about it."

Discussion continued. President Hansen: "You know, I think we ought to create one more committee, an investigation committee." The purpose of the newly formed group, of which Mr. Hansen is sole member, is to investigate the CYNIC. Discussion of CYNIC evils preceded.

President Hansen: " Here's one I tossed out a few weeks ago - Elections Committee, you've done a good job." After closing congratulatory remarks, the meeting ended.

Republican Wanted !!

If there is anyone who would dare to uphold the policies of the Republican Party in a weekly column to appear in the CYNIC until the time of election, would that individual kindly contact Don Karp, Feature Editor immediately.

Letter to the editor

To the Editor of the Cynic:

After reading this week's issue of the CYNIC, my only emotion is one of heartfelt sorrow for next year's freshman class.

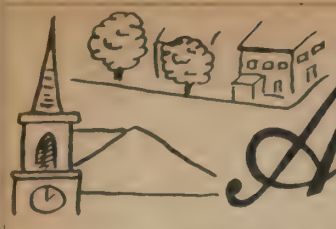
I have eaten in the Waterman cafeteria when my class schedule has been such that it was not feasible to take my meals elsewhere. . . . . period!

Prior to my arrival at UVM, I was under the impression that four years experience in Navy chow halls had conditioned me against any revulsion which food, or its preparation, could instill in me. I was very much mistaken.

Prices in the cafeteria are completely out of line. I have heard rumors to the effect that the entire Waterman building is supported by profits from the cafeteria. It is difficult for one to discount this heresay when he compares the evening menu, and its prices, with the quantity of luke-warm food doled out. One meal, in particular, stands out in my mind. Corned beef and cabbage, the sign read. The cost of this exotic dish was forty-five cents. Apparently, those in charge of the cafeteria's operation think college students are completely unaware of the cost of food. In my mind, anyone who spends this amount of money for two microscopic pieces of cabbage which concealed the even smaller portion of corned beef, is economically unsound. After the diner has added potatoes, bread, milk, and perhaps dessert to his meal, there is little change left from a dollar, and even less satisfaction for his appetite.

Food in the service was better, there was much more of it and the cost, even on a per diem basis, was less than 1.25 for three meals.

If a person has the time, he can eat in Burlington for less money, and enjoy more food and better meals. In addition to this, he has a greater variety from which to choose, and has service with his meal. However time is a rather limited element here, and we are sometimes forced to take our meals in the cafeteria, or not eat at all. I for one, am leaning toward the latter choice.



Yes, I pity the freshmen of '56. Apparently, it will be compulsory for some of them to take advantage of what is loosely termed the cafeteria's "services." Does the crux of the trouble lie in the fact that a insufficient number of students eat there now? Perhaps if those who are responsible for the condition eliminate the obvious causes of low patronage, i.e. poor food and high prices, it would be necessary to force new students to take out meal tickets.

It seems unlikely that the food situation will improve. Now that those in charge of the cafeteria realize that the almighty dollar will be coming in regardless of the number of people eating there, I expect an even greater drop in the quality of food served in the cafeteria, that is possible.

I suggest that next Wednesday's chapel services be dedicated to the students of the class of 1960. They will certainly need prayers by the time they have completed two semesters, eating in the Waterman Cafeteria.

Let 'em eat cornflakes - edit

Around the Green

by Rhoda Rosenberg

ALPHA EPSILON PHI

Newly elected officers from the pledge class are Bobbi Cohen, president; Deedee Weiss, vice-president; Barbara Rothman, secretary; Lois Friesch, historian; Bobbe Goodman, parliamentarian; Elaine Grossman, sargent at arms.

Open bids were extended on Feb. 22 to Maxine Oppenheim from Jackson Heights and Rona Bayer from Burlington.

PI BETA PHI

At their second meeting, the pledges elected the officers of their pledge class: President, Abagail Russell; Vice President, Mary Jo Judd; Secretary, Sally Humphrey; Social Chairman, Diane Morse; Censors, Roberta Clauss and Molly Olson.

Sue Connelly, Shirley Nichols and Molly Olson went down to the Williams Winter Carnival. From all accounts, a good time was had by all.

The Pi Phis had their usual open house the Sunday of Kake Walk weekend.

The Pi Phi Alums gave a dessert hour for the pledges and the actives living in the house. This was a wonderful opportunity for the Alums to meet and get acquainted with the new pledge class.

CLOUD SEVEN

Our wonderful Kake Walk weekend is over but the memory lingers on. It is an especially happy memory for Pal Barofsky '56 Phi Sigma Delta and Donna Davidson '57 A. E. Phi who announced their engagement. The happy couple hail from Brattleboro, Vt. Dick Ahrens '57 T. E. Phi pinned Iris Hacker '59 A. E. Phi pledge. Bill King '56 Delta Psi pinned Joan Armstrong '57. Gene Mowry '56 Phi Delt pinned Mickey McGrath '57 Tri Delt. Anne Buxbaum '57 A. E. Phi was pinned to Kenneth Spole from Brooklyn, N. Y.. Recently, Martin Klotz '56 T. E. Phi pinned Anne King '57. Dave Curwen '57 Acacia, assistant Kake Walk director, pinned Shiela Robertson '58 Gamma Phi Beta.

RUSHING

The University of Vermont's 14 fraternities pledged 132 men recently, following an eight-day rushing period conducted by the Interfraternity Council.

The Pan-Hellenic Council of The University of Vermont recently announced that 132 coeds have been pledged to the eight sororities on campus.

Alpha Chi Omega - Elizabeth Arnold, Westfield, N.J.; Margaret Balch, Scarsdale, N.Y.; Virginia Boch, Wayne, Pa.; Phyllis Bromberg, Bay Shore, N.Y.; Barbara Crocker, No. Adams, Mass.; Mary Davison, Morrisville; Patricia Deacon, Oradell, N.J.; Mari-Ho Decker, Long Valley, N.J.; Susan Gilbert, Needham, Mass.; Doris Graff, White Plains, N.Y.; Ann Lewis, Washington, Conn.; Mary Noonan, Glens Falls, N.Y.; Jean Robbins, Medina, N.Y.

Alpha Delta Pi - Gail Atchinson, Burlington; Bonita Buckley, Bellows Falls; Margaret Carpenter, Barre; Sally Carr, West Haven, Conn.; Cynthia Collins, Montpelier; Marilyn Davison, St. Johnsbury; Nancy Des Laurier, So. Burlington; Rose Esposito, Flushing, N.Y.; Mary Free, Ogdensburg, N.J.; Sarah Godfrey, Bennington; Mary Hadley, Athol, Mass.; Bonnie Hazen Midland Park, N.J.; Marcellete Johnson, West Rutland; Marian Lau, New York, N.Y.; Anne Plaisted, Meredith, N.H.; Naomi Smith, West Hartford, Conn.; Sondra Wakefield, Burlington; Susan Walker, Montpelier; Linda Wansker, Newtonville, Mass.; Caryanne Whitmore, Winchester, Mass.; Joey Bellman, Bronxville, N.Y.

Alpha Epsilon Phi - Barbara Cohen, Brooklyn, N.Y.; Bryna Frank, Burlington; Lois Frisch, Flushing, N.Y.; Barbara Goodman, Brooklyn, N.Y.; Iris Hacker, Brooklyn, N.Y.; Joan Hahn, Rego Park, N.Y.; Sheila Kropsky, Lyndonville; Alice Prince, Jackson Hts., N.Y.; Judith Rosenblum, Mamaroneck, N.Y.; Barbara Rothman, Burlington; Elaine Schneider, Bronx, N.Y.; Mona Stocknoff, Mt. Vernon, N.Y.; Diane Weiss, Long Beach, N.Y.

Kappa Alpha Theta - Sue Williams, Burlington; Peggy Lynn Williams, New Rochelle, N.Y.; Emily Williams, Upper Montclair, N.J.; Drusilla Weiland, Waterbury, Judith Rossiter, St. James, N.Y.; Nancy Reimers, Manhesset, N.Y.; Mary Pendergast, Wayne, Pa.; Ann Nevin, Shoreham; Louise Nelson, West Hartford, Conn.; Carolyn Morin, Middlebury; Linda Hartwell, Burlington; Linda Doughton, Merrick, N.Y.; Jane Donelon, Baldwin, N.Y.; Vilma Carmardella, New Rochelle, N.Y.; Mary Bell, Clifton, N.J.; Barbara Batelle, Arlington; Judith Baker, Burlington; Ann Bachmann, Ashburham, Mass.

Delta Delta Delta - Carol Webber, Montclair, N.J.; Gulie Stiles, Cartersville, Ga.; Vaughn Soule, West Hartford, Conn.; Kay Reed, Burlington; Linda Nitschke, Burlington; Joan Myers, Schenectady, N.Y.; Ann Maher, No. Tonawanda, N.Y.; Louise McSweeney, Burlington; Doreen McNamee, Brattleboro; Gail McLean, Trumbull, Conn.; Betty McDonald, Shelburne; Ann Kimball, Booton, N.J.; Ann Keithline, Tariffville, Conn.; Patsy Jay, Burlington; Marilyn Howell, Bay Shore, N.Y.; Joanne Henderson, Nashua, N.H.; Sue Graf, Eggertsville, N.Y.; Patricia Funkhouser, Hanover, N.H.; Linda Farrell, Schenectady, N.Y.; Barbara Dunn, Brattleboro; Penelope Church, Glen Ridge, N.J.; Ruth Carlson, Trumbull, Conn.; Betty Cale, Chevy Chase, Md.; Barbara Bennett, Springfield, Mass.; Betty Arnold, Bay Shore, N.Y.; Nancy Agosta, Barre.

Gamma Phi Beta - Donna Willis, So. Burlington; Judy Watson, Glens Falls, N.Y.; Nancy Valentine, Sea Cliff, N.Y.; Mary Lou Tyer, Bridgeport, Conn.; Virginia Stegmuller, Short Hills, N.J.; Ruth Seeler, Ardsley, N.Y.; Barbara Scaland, Forest Hills Gardens, N.Y.; Jane Rowan, Schenectady, N.Y.; Carol Moyer Lansdale, Pa.; Doreen Mekkelsen, Barre; Barbara Loweth, New Rochelle, N.Y.; Jane Kelly, Middlebury; Tomma Keith, Peru, N.Y.; Carol Holmes, Brandon; Eleanor Fullarton, Queens Village, N.Y.; Raylene Dowhan, Burlington; Constance Crayk Bellows Falls; Sally Carter, Woodstock; Mary Arnold, Jacksonville.

Pi Beta Phi - Carol Stickney, Essex Jct.; Abigail Russell, Woodstock, Molly Olson, Birmingham, Mich.; Galen Norton, Vergennes; Shirley Nichols, White Plains, N.Y.; Diane Morse, Burlington; Mary Lee Morrill, Morrisville; Katherine Moore, Winooski; Donna MacAlister, Ridgewood, N.J.; Joanne Kelty, Winooski; Alberta Kauzmann, Maplewood, N.J.; Mary Jo Judd, Burlington; Kathleen Jessup, Swarthmore, Pa.; Sarah Humphrey, Mt. Carmel, Conn.; Conn.; Patricia Hughes, Montclair, N.J.; Judith Hauck, Burlington; Pauline Harrison, Glen Ridge, N.J.; Roberta Clauss, Poughkeepsie, N.Y.; Linda Brown, Brandon; Linda Ball, Saugerties, N.Y.

Sigma Gamma Norma Shapiro, Valley Stream, N.Y.; Phyllis Hammond, Westfield, N.J.

Acacia - John Brunt, Bristol, Conn.; Marcus Butterfield, Jacksonville; Harry Chapman, So. Wallingford; William Hurlburt, Schenectady, N.Y.

Tau Epsilon Phi - Stuart Carr, Brooklyn, N.Y.; Jerome Feig, Brooklyn, N.Y.; Robert Ginsburg, Brooklyn, N.Y.; Fred Jungmann, White Plains, N.Y.; Jay Karetnick, Hillside, N.J.; Robert Koones, Brooklyn, N.Y.; Ned Kopald, Highland Falls, N.Y.; Steve Levy, New York, N.Y.; Richard Marron, Albany, N.Y. Michael Meltzer, Brooklyn, N.Y.; Kenneth Millen, Weymouth, Mass.; Ronald Nadel, Brookline, Mass.; Donald Neitlich, Brookline, Mass.; Martin Rotter, Jackson Hts., N.Y.; Jerome Seiler, Brooklyn, N.Y.; Martin Spar, Yonkers, N.Y.; Richard Stein, Brooklyn, N.Y.; and Joel Ullman, Jackson Hts., N.Y.

Alpha Epsilon Pi - Ken Dannett, Scarsdale, N.Y.; Robert Denner, Bronx, N.Y.; David Dworken, Brooklyn, N.Y.; Stephen Gould, Barre; Kenneth Klein, New Rochelle, N.Y.; Froman Mehl, Rutland; Lawrence Ostraw, New York, N.Y.; Ivan Prager, Bronx, N.Y.; Martin Rosenblatt, Everett, Mass.; Ronald Rothschild, New Rochelle, N.Y.; Ira Shapiro, Bronx, N.Y.

Alpha Tau Omega - John Aines, Brandon; John Allard, Proctor; Austin Barrow, Jr., Brandon; John Brewster, Peoria, Ill.; Chester Burton, Ballston Lake, N.Y.; David Gale, Richmond; Jack Healey, Irasburg; William Hoyt, Greensboro, Bend; Frank Reickert, Poughkeepsie, N.Y.; Robert Wood, Georgia; Allen Yost, West Hartford, Conn.

Delta Psi - Sidney Baker, No. Ferrisburg; Frank Bolles, Bellows Falls; John Booth, Jr., Essex Falls; Steward Bucher, Rochelle Park, N.J.; Carl Carlson, Clifton, N.J.; Bob Carty, Hydeville; Anthony Covrado, Lynbrook, N.Y.; Jason Cotton, Rutland; Wesley Dacey, Danvers, Mass.; Patrick Daly, Stowe; Charles Dart, White Plains, N.Y.; Paul Donahue, Rutland, Michael Farina, Teaneck, N.Y.; Ray Fitzgerald, West Hartford, Conn.; Steven Hardy, Orleans; William Hartigan, Rutland; Don Hunt, Rochester; Donald Latona; Hasbrouck Hts., N.J.; Ted Mellin, Glen Rock, N.J.; Durwood Montgomery, Richford; Robert Morril, Teaneck, N.J.; Denny Morse, Burlington; Don Obreiter, Utica, N.Y.; Edward Rockett, Marblehead, Mass.; William Rowell, Hardwick; Paul Rutkowski, Malone, N.Y.; Larry Seymours, Rochester, N.Y.; William Simonds, Saxtons River; Harold Staples, Hamden, Conn.; Howard Walker, Barre.

Kappa Sigma - David Bell, St. Albans; John Chadwick, Darien, Conn.; Richard Comi, Montpelier; Robert Davison, Jr., Essex Jct.; Robert Gallagher, Lyndhurst, N.J.; William Geissel, Union, N.J.; James McAuliffe, Port Washington, N.Y.; Charles Murphy, Plattsburg, N.Y.; Laurence O'Toole, Bronx, N.Y.; Richard Pecor, Burlington; David Rugg, St. Albans; Donald Santa Croce, Staten Island, N.Y.; Thomas Sweeney, Waterbury, Conn.; Harlan Sylvester, St. Albans.

Lambda Iota - Michael Case, Burlington; Rodger Edmonds, St. Albans; Edward Robinson, Roslindale, Mass.

Phi Delta Theta - Nicholas Andreson, Worcester, Mass.; John Coffey, Fitchburg, Mass.; Peter Colli, Bergenfield, N.J.; William Dann, Lawrence, Kansas; Philip Goddard, Morrisville; Kenneth Goodwill, Plainville, Conn.; Lester Johnson, West Rutland; Theodore LaMotta, Manhasset, N.Y.; Richard Laoti, Montpelier; Donald MacDonald, Detroit, Mich.; William Marsland, Northfield; Morgan Mitchell, Wallingford, Conn.; Richard Norton, Rutland; Alan Overton, Manchester; Vincent Parran, Hyde Park, N.Y.; Louis Petronaci, Montclair, N.J.; David Porta, Delmar, N.Y.; Stuart St. Peter, Rutland; Wendell Stewart, Waterbury; William Trentini, Milford, N.H.; Albert Wagda, Morristown, N.J.; and James Whitney, Stamford.

Phi Sigma Delta - James Baum, Mt. Vernon, N.Y.; Charles Benwith, Mt. Vernon, N.Y.; Jon Berger, Glens Falls, N.Y.; Arthur L. Blumberg, West Hartford, Conn.; Arnold Branch, Brooklyn, N.Y.; Elliot Brown, Glens Falls, N.Y.; Edward Cohen, Mt. Vernon, N.Y.; Ira Effron, Poughkeepsie, N.Y.; Robert Ehrlich, New Rochelle, N.Y.; Edward Ellis, Brookline, Mass.; Art J. Farovitch, New Rochelle, N.Y.; Robert Fienberg, Philadelphia, Pa.; Larry Freedman, Worcester, Mass.; Stanley Ginsburg, New York, N.Y.; Edward Goldberg, Laurelton, N.Y.; Donald Glazer, Brookline, Mass.; John Grotta, New Rochelle, N.Y.; Jerome Heller, New York, N.Y.l Carl Hirschhorn, Brooklyn, N.Y.; Charles Isles, New York, N.Y.; Stanley Israel, Berlin, N.H.; Robert Keiser, Mt. Vernon, N.Y.; Alan Hessler, Little Neck, N.Y.

Also Stuart Kolbert, Scarsdale, N.Y.; Stanley Lefkowitz, Brooklyn, N.Y.; Clyde Lord, Brooklyn, N.Y.; Lawrence Lublin, Great Neck, N.Y.; Lawrence Markell, Revere, Mass.; Joel Musler, Mt. Vernon, N.Y.; Stanley Rosenthal, Burlington; Richard Rubin, Brookline, Mass.; Gerald Sanders, Larchmont, N.Y.; Phillip Schreiher, Springfield, Mass.; Paul Silver, Rego Park, N.Y.; Ted Smolker, Chelsea, Mass.; Benson Snaider, New Haven, Conn.; Lloyd Tamarin, Staten Island, N.Y.; Edward Weissman, Barre; David Werblow, So. Shaftsbury; David Winer, Nashua, N.H.

Sigma Alpha Epsilon - Paul Anderson, Swanton; Frank A. Duncan, Jr., Wilmington; John Fischer, Burlington; Jerome Hall, Wallingford, Conn.; Lester Hodgdon, Burlington; Bernard Leach, Burlington; Eugene Lizotte, Pittsford; James McBride, Panton, Stephen Moore, East, Peacham; Brad Moreau, So. Hadley, Mass.; Lawrence Pouttu, Paxton, Mass.; Anthony Socinski, West Rutland; Thomas B. Tetreault, Newport; Ed Tomassetti, Meriden, Conn.; Andre Turenne, Fayville, Mass.

Sigma Phi - Arthur Cannon, Rouses Pt., N.Y.; David Chamberlain, Ithaca, N.Y.; Frederick Demme, Baldwin, N.Y.; Karl Fisher, Burlington; David Hagberg, No. Wilbraham, Mass.; Thomas Judge, Gloversville, N.Y.; Clement Pease, Princeton, N.J.; Howard Petith, Livingston, N.J.; Charles Clark Reid, Greenwich, N.Y.; Robert Smith, Stockbridge, Mass.; Peter Snow, Windsor; Paul Sundstorm, Jr., Holden, Mass.

Sigma Phi Epsilon - Anders Borgeson, Little Silver, N.J.; Paul Briston, Vergennes; John Burgess, Brattleboro; Donald Capra, Barre; Victor Ciufo, Ludlow; George Cook, Putney; Bradford Haines, Bellows Falls; Leigh Harlow, So. Woodstock; Hugh Hunter, Millerton, N.Y.; Earl McDonald, Jr., Burlington; William Mitchell, Springfield; Robert Mosca, Danbury, Conn.; Raymond Rogers, Ridgewood, N.J.; William Sofokles, N.Y.; Craig Tillinghast, Danielson, Conn.; David York, Springfield.

Sigma Nu - John Bacon, Springfield; Robert Cole, Saddle River, N.J.; Anthony Crovo, West Newton, Mass.; Richard Diefenback, Tenafly, N.J.; Kenneth Eaton, East Granby, Conn.; Richard Echtenkamp, Buffalo, N.Y.; Edward Eggert, Medina, N.Y.; Frank Hammett, Albany, N.Y.; Robert Hohman, Newton, Mass.; Carlton, Houghton, Essex Jct.; Donald Keller, Scarsdale, N.Y.; Ruben Lamarque, Brooklyn, N.Y.; William Layden, Rutland; Douglas MacDonald, Harrison, N.Y.; William Potter, New Bedford, Mass.; John Power, Stamford, Conn.; Frederick Rollenhagen, Summit, N.J.; Henry Shaw, Rochester, N.Y.; William Thayer, Hingham, Mass.; Edward Whitcomb, Essex Jct.; Francis Willette, Northfield; and Jon Windle, Sutton, Mass.

Theta Chi - John Ballou, North Hartland; Paul Danyou Shelburne; Peter Dietrich, Gillette, N.J.; Robert M. Dole, Jr., Georgetown, Mass.; Wayne Ganson, Vergennes; Walter Hill, Jr., West Rutland; Andrew Jause, Granville, N.Y.; James Meyer, Great Neck, N.Y.; Donald Minshall, Brattleboro; Ronald Minshall, Brattleboro; Edward Nofer, Manhasset, N.Y.; John Pasciutti, Plainfield; Albert Wilson, Indian Lake, N.Y.

News Of Faculty And Staff
Prepared By The Public Relations Office

1956 FACULTY SUMMER RESEARCH GRANTS-IN-AID

The number of grants-in-aid for faculty research this coming summer has been increased from five to seven. Faculty members who will receive full $600 grants are Herbert C. McArthur, who will catalogue and study type-specimen books printed by Chiswick Press; Rolf N. Haugen, who will study the organization and administration of the State Highway Department; Leonidas M. Jones, who will continue his study of the life and works of the 19th century poet, John Hamilton Reynolds. Florence M. Woodard will conduct further research on "The People of Vermont: Quantitative and Qualitative Changes in the State of Vermont's Population During the Decade 1940-1950"; Lewis S. Feuer's project will be " The Sociology of Philosophic Ideas"; Arthur K.Davis will do research in the background and current tendencies of the theory of social origin in American sociological science; and Betty Bandel will study the development of the myth of Ethan Allen as distinguished from his history.

In addition, special research grants have been awarded to Dean John H. Kent, for preparing for publication The Inscriptions of Corinth, work which he did under a Fulbright grant in 1949 and 1950, and to John C. Huden, for a study of " Indian and French Influences on Vermont History Prior to 1791."

TWO NEW FACULTY APPOINTMENTS

Two new appointments to the faculty were announced recently; they are Raul Hilberg, assistant professor in the Political Science Department, succeeding George T. Little; and J. Robert Loy, named assistant professor of romance languages.

Mr. Hilberg is a graduate of Brooklyn College and received his M.A. and Ph.D. from Columbia. During the past year he has been a lecturer in political sciences at the University of Puerto Rico. Mr. Loy is a graduate of Columbia, receiving his M.A. from Princeton and Ph.D. from Columbia. Since 1950 he has been an instructor in romance languages at the University of California.

DEAN HILLS' SUGAR PARTY TO BE HELD MARCH 10

The sugar-on-snow party, started eighteen years ago in honor of Dean Emeritus Joseph Hills, will be held this year on March 10 at the Proctor Maple Research Farm on Mt. Mansfield. As in the past, there will be plenty of sugar and snow, dill pickles to counter-balance, doughnuts and coffee. Attendance this year will not be limited to the hardy, since participants may ride in a hay-sleigh from the main road to the sugar house. Another new feature will be a demonstration of the sugaring operation for those interested.

COUNTY AGENTS ATTEND REFRESHER COURSE

The College of Agriculture and Home Economics played host to the County Agents at a Forage Refresher Course, held in the Hills' Building on Tuesday and Wednesday, February 28 and 29. Among the faculty members taking part in the two-day course were A.R. Midgley, Winston Way, J.R. Gingrich, Kenneth Varney, Glen Wood, Ted Flanagan, Robert Wetherbee, Monty Howard, George MacCollom and Andrew Tessmann. In addition to attending the meetings on forage, the visiting County Agents also observed the work being conducted at the seed and soil testing laboratories.

EXCHANGE TUITION PROGRAM BROADENED

An extension of the tuition exchange benefits was recently announced by the Board of Trustees. Under the new policy, children of University employees who are eligible for full tuition scholarships at UVM will be able to secure the same scholarships at member institutions of the Exchange Tuition Program. Some 200 colleges and universities are participating in this plan.

At the present time, three faculty sons and daughters are attending Amherst, Springfield and Wittenberg. Children of faculty members at Dartmouth, Colgate, Amherst and Park College are currently enrolled at UVM. Vermont colleges which are participating in the exchange tuition plan include UVM, Bennington, Middlebury and Norwich.

Faculty Notes

J. Alvin Newlander attended a two-day conference on February 21 and 22 at the National Research Center, Beltsville, Maryland, on methods of ensiling hay crops. Representatives of twenty state experiment stations from the eastern part of the country attended the conference. The polled research findings from these stations was covered in establishing the best procedures to follow in making top quality grass silage and recommending new research procedures.

John C. Huden has been appointed director of the Testing Service beginning July 1, replacing Michael Cann. He will be responsible for the administration, scoring and reporting of tests given new students during orientation week, in addition to conducting tests for Vermont high schools and other institutions. Dr. Huden's appointment will enable the University to provide testing services during Summer Session, previously not possible as testing personnel had been appointed for the academic year.

Shepardson Named Acting Treasurer

An outgoing member of the Board of Trustees of UVM, Frederick W. Shepardson, has been named acting treasurer of the University in the absence of Levi R. Kelley who has been on sick leave since Feb. 1.

Mr. Kelley was named UVM treasurer in September, 1949, when he resigned his post as State Treasurer to accept the University position. Shepardson will serve as acting treasurer for the duration of Kelley's leave, Carl W. Borgmann, University president, said.

Shepardson, a graduate of The University of Vermont in 1912, is one of three Alumni members of the Board of Trustees who closed out six year terms as Board members at a recent meeting.

The Fairfax, Vt., native was, until his retirement in 1953, associated with the Maltex Company in Burlington, an associated begun in 1920 when he and his father, Frederick H. Shepardson, purchased the firm which was then the Malted Cereals Company.

Shepardson has been active in community business and civic affairs, serving as a member of the Burlington Board of Aldermen, as president of the State Chamber of Commerce, as a member of the board of directors of the Central Vermont Railway, and as president of the board of directors of the Mary Fletcher Hospital.

He has also been active in aviation, holding an active pilot's license with single and multi-engine ratings. Appointed member of a special six-man aviation committee by the executive committee of the New England Council in 1940, he served during the early 1940's as wing commander in Civil Air Patrol, and was active in the early development of the Burlington Airport.

Kappa Sig Wins Intramural Hoopster Crown

rounce Wills In inal, 60-20

In a game marred by frequent ghts Kappa Sigma trounced lls 1 & 2 by the count of 60-20, d won the campus intramural sketball title.

Both teams were undefeated their respective leagues, d both seemed confident at e outset. By the end of the st half, however, Kappa Sig's noother ball handling and consistent scoring left no doubt as the outcome of the encounter, d the freshman's confidence d disappeared.

At the start both teams missed od opportunities to score. nally after two and a half nutes Artis of Wills dropped in side set. Kappa Sig's Rex me back with a two pointer to the score at 2-2. Wills went t ahead for the last time as b Feinberg converted two ee throws. After these fouls ck dropped in a long set for s first two points. At this ne the first skirmish of the ternoon occurred, but was ickly quieted by the referees. e quarter ended shortly after ck LaMabe made it 6-4, Kappa g.

At the beginning of the second arter fists flew, tempers rose, d a technical foul was called ainst Kappa Sig. With the ore 16-7 in favor of Kappa Sig, die Beck went on a personal oring spree, as he dropped in ree long sets of twenty feet more, and two foul shots. is broke Wills' zone defense d also broke the game wide en. From this point on it was ly a question of how much ppa Sig would score. Beeen Beck's eight points, urston scored two baskets r Wills, and the half time ore was 24-11.

As the second half started, ppa Sig controlled the tap, d inside of ten seconds had ored two quick baskets one LaMabe, and the other by m Tierney, who was high scor- for the afternoon with 14. his made the score 28-11. ppa Sig went on to score ten ore in a row, before Thurston's ul shot broke the famine for lls. Tierney then came back ith a two pointer for Kappa g, and Fienberg hit two for lls. The third quarter ended White hit on a set for KS, mak- g the score, 44-14.

The fourth quarter proved to a free for all. Frequent elows went flying and many fouls ere called. Even with four of e Kappa Sig starting lineup on e bench Wills could not get lling. They frequently threw asses away, and committed unxcusable violations. With 9 econds to go, the score 60-20, empers high and the outcome early in sight, Norm Stasburg tervened and called the con- st.

Tom Tierney with 14 points d Eddie Beck with 12 were gh men for Kappa Sig, and Art was high man for Wills with 6.

Sports From Southwick

by Joan Armstrong

The Vermont Kittenettes dominated the intercollegiate sports scene this past weekend by scoring wins over neighboring schools and colleges.

At their invitational meet at Stowe, the Women's Ski Team gave a repeat performance of the Middlebury Carnival. Led by Jan Bailey and without the services of Helen Wichowsky, who was participating in a memorial race in Canada, the Kittenettes came through as the victors.

Jan led the field with first place in the slalom and second in the downhill event. She was followed in the slalom by Mary Cox and Martha Scott who took third and fourth places respectively. In the final scoring Vermont was followed by Middlebury, the University of New Hampshire and McGill University.

The Vermont Basketball Team traveled to Middlebury last Saturday to compete in a Sports Day along with Green Mountain College. Vermont beat Middlebury 17-16 in an evenly matched game and defeated Green Mountain 16-8 in the finals. Both Middlebury and Green Mt. will have a chance to avenge their defeats at the hands of a highly skilled Vermont team this Saturday, when UVM plays host at the Southwick gymnasium.

In the intramural program, East Hall came through as the victors in the Yellow League and the Independent A Team in the Green League. In the Yellow League, East Hall had a record of 3-1, Coolige was 2-2, Independent B 1-3, and Alpha Chi 0-4. In the Green League the Independents held a record of 4-0, Theta was second with 3-1, followed by Alpha Delta Pi with 2-2, and Pi Phi 0-4.

In the final playoffs between the champions of both leagues the Independents squeezed out East Hall 39-36. Jean Robinson was high scorer for the Independents and Anna Massey led the field of East Hall forwards.

In the class tournaments, the Freshmen showed their ability by beating the Junior Class, 19-16. With the score 8-1 at the half in favor of the Freshmen, the Juniors tied the score once in the second half but couldn't compete with the accurate foul shooting of the Freshmen forwards. The Senior class meets the Sophomores Thursday.

Men's Doubles Bowling Tournament Sat. 2-10

Evansmen Beat Norwich, 79-60, Bow To Williams 86-68

By Don Glazer

The University of Vermont played one of their best games of the season Saturday, when they defeated Norwich University 79-60. They had little trouble winning their fifth game of the season. At the end of the first half the Cats led only 40-36, but in the second half they pulled away from the Horsemen with a torrid surge and maintained complete command on the court. Norwich watched a great show as five cats hit double figures. Led by Skip Burkhardt, who scored 19 points, the Vermonters were unbeatable. Three other teammates scoring double figures were Dick Dennis with 10, Bob Lovejoy 12, Bill King 10.

In the opening half, Vermont out shot Norwich from the floor by six baskets, but Norwich kept the game close as the Cats gave them 16 foul shots. The second half was an entirely different story. Burkhardt, King, Mann, Lovejoy, and Dick Dennis sent Vermont on to an easy win with their great shooting. Starring for Norwich was Chuck Aimi with 20 and Sparrell with 19, but their efforts fell short against Vermont's superior shooting. Vermont's seasons record now stands at only 5 wins and 12 losses. But they have had impressive victories over Clarkson, Norwich twice, Union, and the University of New Hampshire. In intrastate contests, the Cats have lost to St. Michaels and Middlebury in hotly contested games. The Evansmen close the season against New Hampshire.

by DICK SCHATTEN

Coach Alex Shaw's Williams College Ephmen invaded the Queen City last week and proceded to trounce the UVM Catamounts by an 86-68 score. The home team was never really in the ball game. Williams led 11-6 at the 3:48 mark, increased its lead to 24-12 a few moments later, and went on to pile up a 57-22 advantage at half-time.

Led by co-captains Wally Jensen and Bob Buss, the men from Williamstown fast broke the Cats to death. Jensen scored twenty-one points, Buss collected nineteen, and 6-8 Walt Shipley poured seventeen points through the hoop. Vermont played good ball and out-scored Williams in the second half, 46-29, but by that time the damage had already been done.

The home club's scoring was very well distributed. Bill Mann and Bill King each scored twelve points, Bob Lovejoy got ten and "Skip" Burkhardt, Bill Treene and Rollie Massimino each collected eight markers. Massimino played his best game of the year.

The story of the game was told under the backboards, where Williams' superior height showed to great advantage in the first half.

The 1955-56 season came to a close last Wednesday at the Auditorium as the Cats played host to UNH. UVM beat New Hampshire 88-73 last time out on December 16 at Durham.

Halftime: Williams 57, Vermont 22.

Kappa Sig, winner of the Intramural Basketball Crown, (from left to right) Top row: Dick White, Jack Lamabe, Al Stevens, Fred Rex, Tom Tierney, Coach Bud Dacey. Bottom row: Bing Gilbert, Ed Beck, John Galascione, Dick Pecor.

In the second period which most resembled a basketball game, Kappa Sig with well practiced and superbly executed plays showed why they were intramural champs.

With the conclusion of this game, the basketball season ended. On March 1 the first Volly Ball game will be played. Last year's winner and the team to beat this year's Delt Psi, the runner up was Phi Sig.

Final Standings of Leagues

Kappa Sigma	5-0
Sig Nu	4-1
SAE	2-3
Phi Delta Theta	2-3
Delta Psi	1-4
Sig Phi Ep.	0-5
Wills 1 & 2	3-0
Buck 1 & 2	1-2
Wills 1 & 2	0-3
Chitt. 3 & 4	0-3

Wood's Trophy Awarded To MVP Bill King

THE SIDE-LINE CAT

by

ED WALKER

"Where are the fans?" These four words were whispered throughout the stands last Wednesday night when the Cats faced the Purple of Williams. "You can count all the people here" was another unanimous remark that this "S-L Cat" overheard during the game, and even more important was the disgusting feeling of sitting in the deserted stands able to catch every word that was said by the ten hoopsters on the court.

One might answer this confronting problem by stating that the team is having a bad year. Does this answer justify the lack of attendance at basketball games? It most certainly does not! So what if a team has a bad year, you can't expect a good ball club every season. A little support from the fans might encourage the team, but since Williams is considered one of the better New England basketball teams, everyone gave up before the contest started-the fans and the players.

On the season as a whole, the Evansmen really gave it "the old-college try." The Williams game was practically a complete reversal of form, with everyone playing for himself and not the team. One might then say the "lapse" was due to a non-existent crowd, who will answer in return, that they refuse to put up with the hard wooden seats at Memorial which "Dr. Kronkite" states will cause a curvature of the spine. Discounting the facilities at the auditorium, which this "S-L Cat" will discuss at another time, you the fan might try to catch a few encounters next season; and just for the record, Williams had the same club which went to the NCAA basketball tournament last year. They were worth watching, as their first string tallied 57 points in the first half. For the basketball addict, or the "good-fan," all that can be said is thanks for your support. We wish there was more of it.

To add one more interesting point of information, this "S-L Cat" found that 25% of the students voted in the Most Valuable Player election. This proves, along with the estimated attendance figures, that 75% of the students at UVM do not attend basketball games regularly. It's not just a deduction that if you had seen enough games you would have voted. A fact is a fact, and it's staring three fourths of us right in the face! For those who do not understand how the game is played, and do not attend the games, please contact the UVM Athletic Office, who will give a free set of basketball rules and regulations to each student showing an I.D. card.

Kittens Lose In 4 Overtimes, 91-90

by LARRY FREEDMAN

The Kittens of UVM ventured into Indian country last Thursday night and dropped a hard fought decision to the Dartmouth frosh in four overtime periods, 91-90. Although this game was the team's second loss, both at the hands of the big Green, Coach Ralph Lapointe's fighting frosh put up a good courageous fight throughout the whole game. Two of the starting five Bob Gallagher and Clyde Lord, were still out with injuries and the general consensus was that with them it wouldn't have been a contest.

Handicapped by the height of their opponents which averaged about 6' 3", the frosh stayed in the game all the way as Bob Kuchar threw in practically everything "except the kitchen sink" in scoring 37 points. This was one of the highest scoring efforts on the part of a freshman basketballer in the last decade. Even with Kuchar's efforts, Darthmouth had moved into a twelve point lead at halftime.

In the second half Vermont fought back to gain the lead, but Coach Al McQuire's Indians, led by lanky Rudy Larusso who scored 24 points, roared back to tie the score. The Kittens hopes dropped with five minutes left as Charlie Isles fouled out, but Arnie Branch's swishing jump shots and Kuchar's sets got the frosh into the first overtime. Denny Morse sparked the team in the extra periods and had a real good night by tossing in 15 markers. The Kittens fell behind in all of the overtimes and Dartmouth finally sneaked into the winner's circle, 91-90. UVM's John Lambert turned in a good rebounding game plus 11 points and Isles had 9.

BEAT CADETS, 97-62

Last Saturday night the Kittens traveled to Norwich, and in a very uneventful contest downed them, 97-62. Only 35-40 fans saw the game, which led to the dullness of the encounter. Both the second string and the starting five saw an equal amount of action and leading the scorers was Kuchar with 24, followed by Sylvester 15, Branch 14, Isles 13, and Bourassa 12. The team wound up the season with a 9-2 record, both losses being to Dartmouth, and this slate is the best since 1950-51 when the frosh had a 13-2 mark. "Congrats" to the Kittens and Coach Ralph Lapointe for a fine season.

Fans Select Popular Capt.

Last night, the annual Wood's Trophy was presented to Captain Bill King, who was voted the 1956 Most Valuable Basketball Player by the student and faculty body in an election held last Friday. The award was made for the third time and as in past years a senior captured the prize sponsored by Wood's Sporting Goods Store.

Looking back at Bill's three year tenure on the varsity, you can see the tremendous improvement that he has made. Up until this season he didn't score in any sort of a consistent pattern, but the 1955-56 campaign brought out his true scoring ability. Most of the time he would be in double figures, and his highest point producing game was against Massachusetts in which he threw in 29 points. As far as Bill's point per game average goes, unofficially he's first or second.

Besides bearing a tough assignment in keeping up the team morale and spirit, Bill had the distinction of guarding the opposition's tallest man, and in this capacity he excelled. In almost every game he pulled down the most rebounds of both the offensive and defensive backboards. Bill is 6'4" and hails from Laconia, N. H. where he played for Laconia High. While in high school he was elected to the New Hampshire All-State team and, besides being captain of the UVM basketball team, he is also captain of the golf team.

The MVP award was started back in 1954 by Sports Editor Gerry Goldman who conceived of this idea. Gerry Samuels and Earl Steinman were the recipients before Bill.

Baseball Team "In The Swing"

by Gerry Sanders

The UVM baseball team is really coming along, and now that Kake Walk is over the boys are getting down to work, so says Ralph Lapointe, coach of the team. Ralph is very optimistic about his team and hopes to capture the Vermont State Championship this year. The Catamounts, besides being in the Vermont State Conference, are in the Yankee Conference and play Ivy League teams as well.

Although we lost four valuable men, Al McLam, who had to leave school, Hammer, Gilbert, and Hugh Bemis, who pulled leg ligaments during Kake Walk, Ralph is very happy with his squad.

Lew Deitsch, Bob Gorman, Dave Klein, Russ Henrichs, all right handers and Bruce MacAlister and Russ Wagner, southpaws, should provide the team with some superb hurling. Lew Deitsch's blazing fast ball will help the team tremendously.

Second base is a big problem of Coach Lapointe's. Shuttle, Murphy, Higgins, and Pete Greenwald are the chief prospects at the keystone sack.

Bob Tierney looks best at short, while Maynard, Riley, and Schofield show promise at the hot corner. Rounding out the infield, Joe Wark and Johnny Galascione have first base and catcher's positions under control.

Getting into the outfield we find veteran Ed Beck in left, backed up by outfield prospects, Kitteridge, Bill Jay, Joe Martin, and possibly pitcher Bob Gorman.

Holding the managerial reins is former freshman team manager, Bob Litsky from Derby Connecticut.

Around The Slopes

by Jerry Heller

This past weekend the UVM skiers competed in the Eastern Cross-Country Jumping Championship at Laconia, New Hampshire. The team was represented by Frank Wall, Jerry Baril, Ed Sinclair, Frank Brown, Bart Larrow, and Bill White. Frank Wall made the best showing by coming in sixth in the difficult event over a six mile course. The weather conditions, consisting of fog and rain, hindered the skiers but they didn't seem to bother Dick Osgood of the University of New Hampshire who placed first over the rugged competition. Bart Larrow and Bill White both finished in the top ten in division "B" jumping for the Cats and Jerry Baril took a third in division "B" nordic combined. This weekend the team will compete in the N.H. State Jumping, Cross-Country, and Nordic Combined Championships. The Laconia meet was not a regularly scheduled event but an added event on an open weekend.

Coach Charlie Traverse recently received a letter from an Olympic observer concerning ex-UVMer Larry Damon and his recent showing in the 1956 Olympic games. It was reported that Larry did very well considering the tough competition from various countries. He was six minutes out of tenth place in his specialty, cross-country, and this was the closest the United States has ever been to the top ten places in this event. While only twenty-one, in his first Olympic appearance, he is expected to make a much better showing in the 1960 Olympics and should probably reach his peak at that time.

Last year, the skiers took part in the National Skiing Championships at Norwich. This year they are being held in Colorado. It is still uncertain whether or not we will be represented at this meet. Let's hope we are!

The Vermont Cynic

THE UNIVERSITY OF VERMONT AND STATE AGRICULTURAL COLLEGE

VOL. 73 BURLINGTON, VERMONT MARCH 8, 1956 NO. 30

Students To Suggest Improving CYNIC

A petition has been submitted to the CYNIC charging it with failure to live up to its purposes as set forth in its Statement of Policy. The CYNIC gladly accepted the chance to receive suggestions for improvement from students, and a meeting has been scheduled for 8:00 tonight to discuss the matter. Below is the text of the petition.

The following is a part of the stated policy and aims of the UVM CYNIC which were approved by the University Council on April 21, 1952.

1. "to present an accurate, complete and objective picture of the news, insofar as it concerns the students of the University of Vermont and State Agricultural College. All news which originates internally at the University, or external news concerning the students of the University shall be considered to come under this topic."

3. "to present intelligent and considered editorial opinion in the form of signed or unsigned editorials of individual "columns" for the purpose of stimulating thought and discussion among the student body on these topics which are of a timely and important nature."

We, the undersigned, do not believe that the UVM CYNIC has lived up to these statements of policy regarding the aims of our student newspaper. We feel that as any regularly published newspaper, the UVM CYNIC should be aware of all the activities in which its readers participate. We further feel that the UVM CYNIC should serve as an organization for gathering and diseminating news, to and about the entire University Family.

Therefore, We, the undersigned, petition the UVM Student Association to make arrangements for an open meeting of all interested persons to consider methods for improving the CYNIC as a student newspaper. It is hoped that this meeting will produce concrete suggestions which will make the CYNIC a much better student newspaper.

This evening at 8 P.M. in the Waterman Student Lounge The CYNIC will be pleased to meet with any and all groups and individuals.

If there is any concrete justification to these charges The CYNIC will be pleased to improve or rectify the situation, but the charges, as presented in the petition, are meaningless, vague and undefinable.

We are proud of our record of progress:

1. For the first time in several years we are making a financial profit.
   The S.A. Treasurer terms this " completely satisfactory."
2. We have received a Second Class Honor rating from the University of Minnesota School of Journalism, on a national competition basis.
3. We have often served the student body by putting special issue for special occasions. The High School Day issue is but one example. This has increased our usefulness to the administration and school.

In short, as students in a student organization, we have done our best to justify the school's confidence in us, but we remain open to all suggestions to still improve our service functions.

The Sugar-On-Snow party this Saturday at the Proctor Farm in Underhill promises a good time for all, as shown by these happy students of a former year. Transportation will leave the Dairy Building at 1:00.

Plans Ready For April 20-21 Town & Country Days

Coming up in the not too distance future is the fifth annual Town and Country Day program. This two day session will be held on April 20 and 21. As is already known, High School days are going on simultaneously and the two programs are closely intergrated.

The first Town and Country program was set up for the purpose of informing the adult population of Vermont about the facilities and activities at the University. Now, with both programs, this event serves to inform high school students of vocational opportunities as well.

This year, there will be the usual exhibits on the second floor of Waterman building which are set up by the various departments participating, and as of now, there is no information as to the specific content of these exhibits.

There will be the usual films, classes, discussions, tours and talks. One unique item will be an actual demonstration of how to build a ople type building. Another contribution from the Department of Agriculture will be the presentation by Charles D. Bennett, an eminent public relations authority and special consultant for the Foundation for American Agriculture. He sill speak on the misunderstanding between farm and city peopld and will also outline a program for meeting this emergency.

Other subjects to be discussed will be "A child and His Family", "Who Wrote Shakespeares Plays?", "What is Electricity?", "Photography", and many others which are equally interesting and varied.

Aside from the subject presentations, there will be a carillon recital presented on both days by Francis A. Weinrich; and concert by the U.V.M. band; the Town and Country Days tea sponsored by the Home Economics Department; and on Friday night there will be the opportunity for all to participate in the Fun Fair at the gymnasium.

The faculty groups which organizes this program is appointed by President Borgmann. The Chairman is Robert Davison, Associate Director of the Extension Service; members of the committee are as follows: Dean Kroepsch, Administration; Dean Miller, Agriculture; Dr. W. Stolts, Medicine; Mr. E. Keach, Education and Nursing; Mr. B. Williams, Home Economics; Mr. S. Knight, Engineering; Mr. R. Torch, Arts and Science; Dr. Gowans, Museum; Mr. H. Collins, Director of Admissions; Mr. L. Van Benthuysen, Public Relations; Mr. J. Spaven, Extension Editor.

The outcome of this annual event depends not only on the work of the afore mentioned committee, but also on every other member of the faculty and student body at the University.

Religion And Life Program Comm. Announces Theme

Buzz sessions on Religion will be a main feature of this year's Religion and Life week sponsored by the Religion Activities Committee. Dormitories, fraternities and sororities will have the leaders and other clergy as dinner guests during the three days-Tuesday, Wednesday, Thursday, March 13-15. After dinner, there will be discussions on religion.

Each faith group has invited a leader. Hillel has Rabbi Cohn of Utica as guest speaker. Rabbi Cohn received his A.B. degree from the University of California and his Master of Hebrew Letters from the Hebrew Union College-Jewish Institute of Religion. At the present time, he is the spiritual leader of Temple Beth Emanual in Utica, New York. Rabbi Cohn is active in local civic affairs. He lectures under the auspices of the Jewish Chautauqua Societyl Newman Club has Professor Henry G. Fairbanks of St. Michael's College as its leader. Dr. Fairbanks is the chairman of the Humanities Division at St. Michael's College as well as an associate professor of English. Dr. Fairbanks earned his bachelor's degree at Boston College; his master of arts degree at Boston University; and his Doctor of Philosophy degree in English from Notre Dame University. He is widely known for his interest in drame. The Student Christian Association has invited Dr. John Paul Jones, pastor of Union Church of Bay Ridge, Brooklyn, New York. Dr. Jones has been active in many civic activities as well as Church activities; noteworthy among these was his role as consultant to the United States Delegation at the San Francisco Charter meeting in 2945. Dr. Jones' special interests have been in international relations, civil liberties, and race relations. His seminar topics will be as follows:-Tuesday:- "Religion and Race", Wednesday:- "Civil Liberties and National Security", Thursday:- Christianity and Communism."

The general subject for the week is "Religion and a World Revolution"; this theme will be discussed by the three leaders at the final meeting Thursday evening in teh Student Lounge, Waterman. At 4:00 P.M. each afternoon each leader will conduct a seminar in Waterman on a subject of his own choice related to the main theme. These seminars are open to any who wish to attend; they are not limited to those of the leader's faith.

Players To Present "Picnic" Mar. 16,17 With Hicks, Moore

William Hicks as Hal Carter will star opposite Kay Lou Moore in the coming University Player's production of " Picnic." *(Photo by Eisner, SPS)*

by STAN SAKOWITZ

Broadway comes to Vermont when the University Players produce PICNIC, a play described by the NEW YORK TIMES as "a dramatic achievement of the first rank." This play also has the distinction of winning the Pulitzer Prize and the N.Y. Critic's Award in 1953. Professor Gregg Falls, the same person who directed OKLAHOMA, will undertake the direction in the production this year.

The play centers around the emotional reaction that one man produces in different women who are leading a stagnant life in a small Kansas city. Madge Owen, the girl in the town possessing all the characteristics of feminity, reacts to Hal in an extremely emotional manner. Millie Owen, Madge's intellectual teenage sister, competes with her sister's prettiness; and eventually realizes that she is a woman too. Mrs. Owen, who left her husband because of his bad traits, regrets this mistake and compensates for it through her daughters. She dislikes Hal for he possesses the same characteristics as her husband. Mrs. Potts, a neighbor who is responsible for bringing Hal into the play, takes care of her invalid mother, the same person who ruined her own romance. Sosemary Sidney, a middle-aged school teacher, realizes through Hal that life and romance are passing her by. As a result, she forces Howard, her reluctant lover, to marry her. These women's reactions to Hal, the handsome muscular bragging drifter, are the substance of the play.

Brooks Atkinson, critic, states, "The characters are people with strength and vigor after Mr. Inge has finished."

Those having roles in the play are William Hicks as Hal Carter, Kay Lou Moore,

(continued on page two)

Around the Green

KAPPA ALPHA THETA

New Theta officers for 1956 are: President, Gail Angotti, South Orange, N. J.; Vice-president, Janice Fayen, Granville, New York; Corresponding Secretary, Beverly Jones, New Rochelle, New York; Treasurer, Irmie Downie, Hamilton, New York; Pan Hellenic Representative and Rushing Chairman, Joan Kienast, Riveredge, New Jersey; Social Chairman, Judy Corcoran, Rutland, Vermont; Recording Secretary, Lois Hogue, New Rochelle, New York; Scholarship Chairman, Lorna Dean, Burlington; Public Relations, Julie Brown, Alexandria, Virginia; Marshall, Carol Harris, Garden City, Long Island; Archivist and Historian, Nancy Moul, Buffalo, New York; House Manager, Nancy Hawkins, New Rochelle, New York; Alum Relations, Ruth Mutchler, Kensington, Maryland; Art Chairman, Libby Kidder, Burlington; Chaplin, Connie Suhr, Wilmington, Deleware; Assistant Marshalls, Janet Kendall, New Rochelle, New York and Gail Dunkerton, Short Hills, New Jersey; Assistant Social Chairman, Judy Egbert, Monticello, New York; Assistant Pan Hellenic Representative, Sue Thomas, Ridgewood, New Jersey; Songleader, Kay Fernald, Verona, New Jersey; Fraternity Education, Nancy Soistman, Woodstown, New Jersey; Assistant Treasurer, Joanne Ewing, Long Meadow, Massachusetts; Activities Chairmen, Judy Doe, Pawling, New York and Liz Beck, Westfield, New Jersey.

PI BETA PHI

The Pi Phis held an exchange dinner with the Phi Delts on Wednesday, Feb. 29. This was a good opportunity to discuss plans for the Phi Delt-PI Phi party coming up Saturday night.

DELTA PSI

On the night of Feb. 28, 1956, the following men were initiated into the Brotherhood of Delta Psi: Alfred Duval '56, Windsor, Vt.; James Towle '57 Franklin, Vt.; Jared Larrow '58 Middlebury, Vt.; Phil Dondero '58 Huntington Woods, Mich.; William Bozzone '58 Albany, N. Y.; Robert Collins '58 Burlington; Bart Larrow '58 Middlebury, Vt.; Phil Dawson '58 Essex Jct., Vt.

Don Carpenter '58 recently took a runner-up position in the annual New England Intercollegiate Badminton Tourney held at Tufts College, in Boston. Don held the Junior-singles Championship of New Jersey from 1952-1954 and was runner-up in Junior Nationals of those same years.

ALPHA EPSILON PHI

Tuesday, February 28 AE Phi had an exchange dinner with Alpha Delta Pi.

PHI SIGMA DELTA

The Phi Sigma Delta pledge class recently held elections. The officers are: President, Ed Ellis '59 Brookline, Mass.; Vice president, Clyde Lord '59, Brooklyn, N. Y.; Secretary, Elliot Brown '59, Glens Falls, N. Y.; Treasurer, Paul Silver, '59, Rego Park, N. Y.; Housemaster, Bob Ehrlich '59, New Rochelle, N. Y.

Three Phi Sigs have recently returned to campus. They are: Marv Levy '57 Rosilyn, N. Y., from studying in Paris; Marv Rosenberg '57 Poughkipsee. N. Y. from the army; Bill Mintzer '57, Burlington, from the army.

Herb Brown '57 has been appointed volleyball coach. Larry Shlaeger '56 has been appointed head waiter.

Hal Horton '57 has been accepted at Tufts Dental School after only three years at UVM.

ALPHA CHI OMEGA

An initiation was held recently for Anne Harman, '57, from White Plains, New York. Alpha Chi National Rushing Chairman, Mrs. Peersol, was on campus during the rushing period.

The new officers for 1956 are: President, Frances Russell; Vice president, Beverly Sorenson; Second Vice president, Edith Lawson; Treasurer, Ellie Morrissette; Assistant Corresponding Secretary, Audrey Spooner; Recording Secretary, Judy Newton; Chaplin, Ellen Stone; Song Leader, Carol Sunderland; Assistant Song leader, Liz Curtis; Senior Pan Hellenic Representative, Judy Lamson; Junior Pan Hellenic representative, Janis Earla; Rushing Chairman, Judy Lamson; Assistant Rush Chairman, Janis Earla; Social Chairman, Teddy Stokes; "Lyre" Editor, Sue Goldstein; Historian, Sandra Gerkin; Warden, Helen Merlino; Assistant Warden, Ellen Stone; Activities Chairman, Anne Harman; Publicity Chairman, Gail Henion; Scholarship Chairman, Coleen Coxon.

Last week Alpha Chi and ATO had an exchange dinner. A singing marathon was held following the dinner.

ALPHA EPSILON PI

The IFC Bowling Championship was won by AEPi with a win over the Owls.

On Saturday evening, March 3, the AEPi and AEPhi pledge classes had a "Guys and Dolls" party at the AEPi house. A skit was presented by the girls. AEPi Social Chairman of the pledge class, Art Pollack, and AEPi Pledge President, Bobbe Cohen, made the arrangements.

CLOUD SEVEN

Two Alpha Chis were pinned over Kake Walk. Frances Russell, '57, from Windsor, Vermont was pinned by Bob Sprouse of Williams College and Joanne May, a senior from Bellows Falls, by Tom Leonard of Sigma Alpha Epsilon.

Kake Walk weekend saw AEPI's first pinning since coming on campus. Brother Joe Long gave his pin to Judy Kagen of Englewood, New Jersey. Joe is from Passaic, New Jersey. The following Wednesday evening all the brothers and pledges serenaded Judy and Joe on the lawn in front of Phelp's House.

Congratulations to Pi Phi Pat Cheney and Theta Chi Frank Trepanier on their recent pinning.

Bill Shoenfield '57 Phi Sigma Delta from Lakewood, N. J. pinned Pat Markel '57 from Great Neck, N. Y.

What Do You Think About The KW Campaign?

by BENSON SNAIDER

" Do you think the cutting-down of the King and Queen campaigning has damaged the campaign and the Kakewalk spirit as a whole?

EDWARD WEISMANN '59

"Cutting-down of campaigning doesn't create an atmosphere that inspires enough individuals to vote. The candidates don't have a chance to get out and meet a majority of the student body; nor does it give the students a chance to meet the candidates. The reduction of the campaign stunts and policies reduces the spirit and doesn't establish a sound basis for making a proper selection".

DONNA DAVIDSON '57

"I'm against the reduction of campaigning because I feel the old full scale campaign didn't detract from studies, but brought a refreshing spirit that previewed Kakewalk. If cutting of Kakewalk activities continues in this fashion, it will lower the prestige of a college weekend that is one of the best in the East."

BILLY SCHOENFELD '57

"Yes and no, there isn't as much fun connected with the campaign this year. Another thing that was missing was the feeling that the campaign was the prelude to the Kakewalk festivities".

"All in all, I'd say it was for the better because the new toned down campaign saves a lot of money enabling any fraternity or sorority to run a candidate. There is also more time to work on the skits and snow sculptures".

MIKE ROSCO '56

"I think there was definetely something lacking in this years campaign. The guarding of the poster trees was something I had heard about before I came to this school, and it seems to me that it was a tradition. The skits in the Coffee Shop held something that can't be replaced by skits in the Cage".

NOTICE

There will be a meeting of the Young Democratic Club on Tuesday Evening, March 13, at 8:30 P.M. The meeting will take place in the Cynic Office, and all who may be interested are invited to attend. D. Karp--Pres.

Billings Library Extends Sunday Hours Until 10 P.M.

The Billings Library is extending its Sunday hours on a trial basis for the remainder of the spring semester, it was recently announced by Morrison C. Haviland, director.

The Library is currently open from 7:45 a.m. to 10 p.m. Monday through Friday, from 7:45 a.m. to 5 p.m. on Saturday, and from 1 to 5 p.m. on Sundays. Effective Sunday, March 11, the Library will be open an additional five hours each Sunday, from 1 to 10 p.m.

The extension of Sunday hours is "in response to a numberof requests", Haviland indicated, adding that the Library staff is pleased to make the additional hours available as long as the service seems warranted.

One professional and one student librarian will be on duty throughout the additional period each Sunday.

Picnic

(continued from page one)

Madge Owens; Joyce Slade, Helen Potts; Linda Goodwin as Millie Owen; Bomber, Art Pollack; Nancy Clarke, Flo Owens; Carol Cope, Rosemary Sidney; Richard Harris as Alan Seymour; Marcia Fink as Irma Kronkite; Lee Barker as Christine Schowenwalder ; and Sy Winner as Howard Berans.

The crews working backstage and in other areas include: Greg Falls, Director; Ralph Vanderslice, Technical Director; Roy Kelley, Stage Manager; Sally Weinstock, Business Manager; Scenery, Holly Kerkhoff; Pat Lovell, Lights; Rick Wyckoff, Special Effects; John Kenney, Props; Lee Barker, House and Program; and Dave Safford, Publicity.

Tickets will go on sale March 12 in the book store and will continue up to the performance days, March 15 and 17. They will cost 75¢ per person.

The NEW YORK TIMES hailed PICNIC as "the best new play on Broadway. It is original, honest and forceful."

The CYNIC now has openings on its production staff for a few students who would enjoy helping to produce this paper. Anyone interested should see Dru Weiland, Production Manager.

" Um-m-m Good!" says this youngster at the annual Dean Hills' Maple Sugar Party.

DEAN HILLS' SUGAR PARTY THIS SATURDAY

The 23rd annual sugar party will be held this Saturday, March 10, at the Maple Research Farm in Underhill. In addition to the snow, hot syrup, pickles, coffee and doughnuts, the assembly will be given a demonstration of the maple operation from tree-tapping through packaging of the finished syrup.

Free transportation is furnished, leaving the Dairy building at 1:00 P.M. and returning from the bush at 4:00. Those wishing to drive out, take Route 15 to Underhill and then follow the signs. A lift in from the main road will be provided by horse-drawn sleigh.

Tickets are 75¢ each and may be purchased at the Waterman Building or at the party. Proceeds from the event will go to the Dean Hills Scholarship Fund.

A word of caution: it's still more than a little cold out on the mountain, so dress warmly. The snow is deep, so wear the galoshes. Spike heels will be regretted by the wearer.

RELIGION AND LIFE WEEK

The Religious Activities Committee is presenting its Religion and Life program on campus next Tuesday, Wednesday and Thursday, March 13-15. Three visiting leaders have been invited to take part in the program - Rabbi Bernhard N. Cohn of Temple Emau-El, Utica, N.Y.: Professor Henry Fairbanks of St. Michael's College; and Dr. John Paul Jones, minister of the Union Church of Bay Ridge, Brooklyn, N.Y.

The theme for the week is " Religion and a World in Revolution, " and each leader will conduct a seminar each afternoon at 4:00 P.M. in Waterman on a subject relating to the main theme. The final meeting will be on Thursday evening in the Student Lounge in Waterman when the three leaders will have a tri-faith panel on the principal theme.

Raymond A. Hall is advisor to the Religious Activities Committee which is sponsoring the three-day program.

Everyone is welcome to attend the afternoon seminars and the Thursday evening panel.

UNIVERSITY PLAYERS TO PRESENT " PICNIC "

The University Players will offer their production of " Picnic " on March 16 and 17 at the Southwick Auditorium, curtain time 8:30 P.M. The recent play by William Inge, which received both the Pulitzer Prize and the N.Y. Critics Award in 1953, deals with the shattering effects upon the lives of the inhabitants of a sleepy town in Kansas caused by the arrival of a handsome stranger.

" Picnic " is by the author of " Come Back, Little Sheba" and received top acclaim in the New York papers, the N.Y. Times writing: " ' Picnic ' is the best new play on Broadway. It is original, honest and forceful."

Tickets for the production are 75¢ for either Friday or Saturday night and may be obtained at the University Store or at the door.

The play will have an all-student cast and is under the direction of Greg Falls.

Faculty Notes

Dean of Women, Anna Rankin Harris, will attend the annual meeting of the National Association of Deans of Women in Cincinnati, Ohio, March 22 through 25. Miss Harris will serve as one of the group discussion leaders at the convention.

* * * *

Miss Margaret M. Wing, Assistant Dean of Women, will attend the annual meeting of the American Guidance and Personnel Association from March 25 to 29 in Washington, D.C.

* * * *

Philipp H. Lohman has had an article published in the February issue of the " Burroughs Clearing House, " in which he dealt with the economic outlook of the country. The title of the article is " No Bust, No Big Jolts - Only a Hidden Price Tag."

* * * *

Malcolm S. Parker of the Department of Romance Languages will speak at the next meeting of the University Research Club, Tuesday, March 13, at 8:00 P.M. in the Home Economics building. His topic will be "The Dreyfus Case and the Young Intellectuals of France."

* * * *

Robert S. Babcock took part in the Woodrow Wilson Centennial Conference on " The Political Executive in the National Government, " which was held at Princeton University last Friday through Sunday. After fifty representatives of business, government, education and the press participated in the conference.

* * * *

Raul Hilberg of the Department of Political Science has been named the winner of a 1955 Clarke Fisher Ansley Dissertation Award from Columbia University. Established in 1951 by the Columbia University Press in cooperation with the Graduate Faculties, the awards make possible the publication, in book form, of three outstanding dissertations submitted for the degree of Doctor of Philosophy at Columbia each year.

Dr. Hilberg's dissertation, which is entitoed " Prologue to Annihilation: A Study of the Identification, Impoverishment and Isolation of the Jewish Victims of Nazi Policy," was adjudged the winner over seventy-six entries for the award in Columbia's Faculty of Political Science.

* * * *

NOTICES

The Home Arts group will meet on Monday, March 12, at 7:45 P.M. in Room 108, Home Economics building. Martha Caldwell will talk on Pattern Design.

* * * *

The 49th Annual Conference of the Schools of Vermont will be held in the Burlington High School Auditorium with The University of Vermont and the Champlain Valley Teachers Association on Friday, March 16. Dr. Arthur R. Upgren, Dean and Director of Research at the Amos Tuck School of Business Administration at Dartmouth College will be the featured speaker and will address the gathering on " Inflation - High, Wide, and Handsome or Not So Fast."

* * * *

The Research Club will meet at 8:00 P.M. on Tuesday, March 13, in the Home Economics building.

VERMONT CONFERENCE -

It is with regret we note the end of a worthwhile and stimulating venture - the annual Vermont Conference. This program brought leading national figures to our campus to discuss questions of true import, and theoetically should have received high attention from all members of the university family. But for some reason interest lagged, and last year's conference was so poorly attended that the Student Association decided to sponsor this attempt on an experimental basis, and not to sponsor any others if this did not work out. They never got the opportunity to test reaction for this year not one speaker of all those contacted had accepted. The Conference Committee reported this to the Student Association, and reluctantly the project was cancelled for good.

WATERMAN FOOD -

Two weeks ago the Administration announced a cafeteria ticket plan which would make it compulsory for freshmen to eat at least one meal a day at Waterman cafeteria. Continuing student interest and resentment causes us to comment on this project. After considerable consideration of the matter, we don't approve of this step. Speaking from personal experience and opinion, the cafeteria has deteriorated in four years. We can understand why the food is so insipid. An egg, no matter how well cooked, loses something if it sits on a steam table for twenty minutes. We find it more difficult to understand the choice of menus. The emphasis is too much on creamy foods and casseroles of one type or another. If the prices are high, let us at least get a good choice. Which brings us to the prices. A leading downtown restaurant serves a full course dinner, with student discount, for 90 cents. To get the same meal, including bread and butter, at Waterman you need invest approximately $1.25, and the food is tasteless and it is self-service.

In our opinion the portions are too small. Two small, fatty slices of meat cost 50¢ plus another nickel for a very hard mashed potato.

We can offer no suggestions as to how all this can be improved. It does seem that food purchased in wholesale lots should be cheaper, and after all there is the University Farm! It is argued that if cafeteria eating were compulsory, the food service would know how much food to order. It would seem logical that after so many years of operation, they could guess how much food would be required for each meal.

In any case under the present conditions we hate to see the freshmen used as guinea pigs in such an experiment.

THE END OF THE ROAD

With this issue the present editorial board of the CYNIC steps down. We cannot mention everyone who has helped us perform out duty, but our special thanks go to our advisors, Professors Betty Bandel and George Dykhuizen, who have always given their support and guidance.

And I want to register my personal thanks to my fellow editors and staff members who made it all possible.

File Thirteen Regained

by MARSHA PEARL

SOMETHING OLD: Vermonters.

I was reading a little book called BURLINGTON the other day. It was written by Mrs. Wadsworth Ramsay Smith and published in 1948 by the Lane Press. In chapter X, Mrs. Smith explains why her Southern husband did not appreciate the character of Vermonters. "His friendly greetings were met with courtesy, but were they returned with gaity? By no means. They were formal and no effort on his part seemed to break the barrier." But she concludes that Vermonters come through in times of need; She illustrates her point with specific examples. This reminded me of a certain Dean's secretary who never seems to smile. But I'm sure, behind the facade, there is warmth and understanding. For example, if you or I were to flunk out of school, she might possibly send a letter of sympathy.

SOMETHING NEW: Mimi's

Along the lines of feminine finery, a new shop has opened across from the Above Par on South Winooski Avenue. The store, Mimi's, is a pleasure to walk into, even if one isn't in the market for clothes or accessories-wall to wall carpeting, a full candy dish by the window, matching cashmere sweater and skirt sets, Ivy League slacks.

SOMETHING BORROWED: Dylan Thomas.

Back when Dylan Thomas visited Vermont, WINDFALL, which our magazine CENTAUR was once dubbed, wanted very much to do an issue concerned with the noted poet. The WINDFALL staff has long since departed, but Joe Jamele, editor-in-chief CENTAUR, has remembered the scheme which has lain dormant for four years. It is rumored that one of the two remaining issues of our literary magazine will be devoted to various aspects of the poet, recalling several hot portions of his visit on campus. Any scandals uncovered, Joe? It will be interesting to see what kind of a cover "Rexanne" can create for this ambitious enterprize. Miss Anne King, if you are ever famous, "Rexanne" will make a charming title.

We are glad to see literary endeavor coming from the old green and golders. The past two issues have been more popular than many in past years, not too varied but well received. Students have even been asking for more (the number of copies printed does not enable each student and faculty member to possess his own.) The biggest shock in the last issue was to find an Agriculture student trying his hand with the pen. Contratulations, Frank Barker, Ag major of UVM; your title, "Purgatory" may not have been too exciting, but the content of your story was good news. Do come again.

SOMETHING BLUE: Jack Trevithick with problems.

Everyone in school has problems, but very few individuals in our big happy family are as open and free-spoken about them as Professor Jack Trevithick of our noted English department. "Terrific" Trevithick, as his students fondly refer to him, collects an odd assortment of individuals together every Tuesday evening from 7:00 to 9:00 in the Student Lounge, and presents his problems. (As if we all didn't have enough of our own.) His auditors range from a distinguished body of students who receive three academic credits for their patronage, to a dozen or so townspeople - some spry and anxious, others grey-haired and complacent.

Professor Trevithick's problem is a large one refered to by the title of WORLD PROBLEMS, and this semester's worry - "Freedom and Authority". Here is where the Jack-pot pays off: each meeting offers a different speaker (not because Professor Trevithick is too lazy to prepare his own lectures). The lecturers, professors and deans from various departments, are extremely well prepared to attack "Freedom and Authority" from the point of view of their particular brand of specialization.

Students, if you are interested, there is always more room in the bleachers. If one of your professors is speaking, and you would like to impress him by your attendance, he will know that you aren't coming because you have to. Regularly enrolled students can be differentiated from the downtowners or roving culture seakers by their choice front row seats in which they avidly scribble notes on the text of the speech or play tic-tac-toe with their neighbors. Faculty, you too are welcome.

For better or for worse, you have already missed Kidder, Dykhuizen, Skapski, Moody - who servedenvelopes of Phenylthiocarbamide (PTC) for refreshments, and one lecture by Babcock. Tear out this schedule of those remaining, place on your bathroom mirror, and take one per week, Tuesday evenings,

March 13...Political Ideologies: Fascism, Communism, and Democracy-II.....Babcock
March 21...Three Mobios: Galloping Communism, Creeping Socialism and Jumping Capitalism.....Nadworny
April 3....Freedom and Determinism in Human Nature. .....Chaplin
April 10....All Gods Fail .....Feuer
April 17...The Crooked Rib .....Bandel
April 24...John Milton and the Book Burners.....Bogorad
May 1.....How free is Modern Art?.....Colburn
(Lecture will be held in the Fleming Museum Auditorium)
May 8.....Form in Music (Lecture will be held in the Music Bldg.).....Pappoutsakis
May 15....Who's the Boss in the Halls of Ivy?.....Droepsch
May 22.....Are American Teachers Free?.....Male

Letter to the editor

To The Editor of The Cynic

I have just read with interest your editorial in this week's issue of the Cynic concerning the University average. You state that because of our status as a State University we are unable to increase entrance requirements. I hasten to add that our entrance requirements are our own and the Vermont Legislature has imposed no restrictions on our admission policies. We are not obligated to enroll all Vermont high school graduates who apply for admission and do not do so. It is often stated that several mid-western state universities are required by law to do this. This practice would be the exception rather than the rule in eastern, and particularly New England, state universities.

In 1954, 373 Vermonters entered the University and 29 were denied admission. In 1955, 444 Vermonters entered and 70 were denied admission.

I am also concerned with the statement to the effect that one-third of the freshman class is not present for the second semester. We enrolled a freshman class of 874 students last fall. We enrolled 800 in the freshman class this semester. This represents a drop of 74 students, or 8.5%.

While academic failure is an important reason for students to leave college, I am sure everyone realizes there are many other reasons and I will not take up space to enumerate them.

Incidentally, the undergraduate student body dropped from 2550 the first semester to 2395 the second semester, or 6.8%. Many completed requirements for degrees during the first semester and are no longer with us for that reason.

I can assure you that this office is as concerned as you are about raising the University average. Students, faculty, and administration felt that by having fraternity and sosority rushing occur after the first semester freshmen could get off to a better start. It is interesting to note that the freshman average for the first semester this year is 70.01. For the first semester last year the average for the freshman class was 69.65.

Harold C. Collins
Director of Admissions

To the Editor of the CYNIC:

This letter is in regard to the statement that Robert J. Perfetti made in the March 1 issue of the CYNIC.

I agree with Mr. Perfetti to a certain extent concerning the "poor food and high prices" at Waterman Cafeteria. I have eaten there at times. The point I want to make, though, is that food eaten in cafeterias, restaurants and the like can not always taste like "Mom's cooking". The dieticians have to plan for large crowds of people, not just a few.

As for prices, food is expensive, and the help must be paid. I doubt if Waterman Cafeteria makes enough profit to support the entire Waterman Building.

In regard to the servings, I grant you, they are not very big, and the carbohydrates are high. But . . . I have eaten in restaurants which were supposed to be the very best, and afterwards I have come out of the eating place grousing about the same things as you, Mr. Perfetti, have been grousing about.

I have heard that in some branches of the Armed Services, the food has not been very good either. I have heard servicemen complain about the "chow". I have heard some praise it. This is true of Waterman Cafeteria. I believe, Mr. Perfetti, that it all depends on the individual's taste.

In conclusion, I want to say that the things in this world are not all perfect and to everyone's liking. Waterman Cafeteria can't satisfy everyone!

S.J.C.---'5

Cats Beat New Hampshire In Finale, 87-70

'Mural Mirror

These are the boys who comprise the 1955-56 Intramural basketball All Star teams.

FIRST TEAM

Fred Rex, Kappa Sig; John Harrell, Sigma Nu; Bill Mead, Sigma Alpha Ep; Ed Newell, Sigma Alpha Ep; Ron Grossman, Phi Sigma Delta.

SECOND TEAM

Steve Millard, Sigma Nu; Phil Knapp, Sigma Phi Ep; Paul Harasimowicz, Phi Delta Theta; Ed Beck, Kappa Sigma; John Galascione, Kappa Sigma.

Now that the Intra mural basketball season has ended, the time has come to go back to the records, and see who were the outstanding participants. This year the sports writers of the Cynic have picked their intramural basketball All Star Team.

The boys were picked on their scoring ability, rebound strength, and all around play. To be eligible they had to partake in at least four ball games.

Kappa Sigma, the champions, placed three men on All Star teams. Fred Rex with a 10.1 average was on the first team, John Galascione and Eddie Beck with 8 and 7.6 averages respectively made the second team. These last two boys came to life in the playoffs. Ed Beck's fine set shot, broke open many a game for KS. John Galascione's all around court play, and ball stealing set up many baskets for Kappa Sig. Big Fred Rex was a terror under both boards, even though there is no account taken of rebounds, no one could be surprised if Fred was the leader.

SAE and Sig Nu each placed two candidates on all star teams. SAE's Ed Newell and Bill Mead made the first team. Sig Nu's John Harrell also made the number on five. Steve Millard Sig Nu's little man, who stands only about 5'6". made the second team. Ed Newell with a 10.6 and Bill Mead with a 9.8 average were leading scorers and rebounders for SAE. Their consistent scoring contributed much to SAE's third place standing in the league.

John Harrell, who dropped in 12.5 points a game, was second only to Phi Sig's Ron Grossman with a 15.5 average. In all fairness to John it might be stated that John's average of 12.5 was registered in 10 games, while Ron's was only in five.

Harrell along with Millard, who dunked 8 points a game, led Sig Nu to second place with a 4-1 record. Their only defeat being to Kappa Sig. Phi Delta Theta's only candidate was big Paul Harasimowicz with a 7.5 average. Paul and Fred Rex of Kappa Sig were leading rebounders in the league with their fine scoring averages.

Track Men Get Set

by GERRY SANDERS

With the coming of March, the UVM track team has started working out. This should be an exceptional year for the Catamounts with ten returning lettermen. They are: Bob Corshen, John Fitzpatrick, Murray Guy, Don Grady, Paul Harasimowicz, Ronnie Hill, Pete Perkins, Stan Talbot, Ken Wadley, and Fred Solomon. Aside from the lettermen, coach Archie Post expects great help from Joel Barry and Neil Hall.

On April 28 the team goes to Middlebury for a quadrangular meet with Colby, Bates, and Middlebury. This is the eighth meet of this quadrangular series. On May 2, the team travels to Schenectady, New York, for a dual meet with Union. May 8 we have another dual meet with Norwich at Northfield. The Yankee Conference Meet is on May 12 at Orono, Maine. The Catamounts travel to Hartford, Connecticut, on May 19 for a dual meet with Trinity. The Vermont State Meet, our only home meet, will be held on May 23.

Members of the team and their events include: Pete Adams, discus and broad jump; Joel Barry, pole vault, high jump, and high hurdles; Walt Blank, 440 and 220; Bob Corshen, 100, 220, high jump, broad jump; Peter Colli, 100 and 220; John Fitzpatrick, mile and 2 mile; Murray Guy, high jump and high hurdles; Don Grady, mile and 880; Neil Hall, pole vault, high hurdles, javelin; Paul Harasimowicz, shot put, discus, and hammer throw; Don Howland, mile or 2 mile; Ronnie Hill, shot put, discus, and hammer; Bob Longhi, broad jump and high jump; Bill Mead, 880 and mile; Joel Meader, low hurdles, 220, 100; Peter Perkins, pole vault, discus; Stan Reiter, 880; Nelson Slack, mile or 2 mile; Stan Talbot, hammer throw and discus; Fred Solomon, 100 and 220; and Ken Wadley, captain, 440 and 220. Tom Dolan is manager.

Captain Bill King receives the Most Valuable Player Award from CYNIC Sport's Editor, Ed Walker, as Coach Fuzzy Evans looks on.

Frank Wall Leads Skiers In N.H. Meet

by DON GLAZER

The University of Vermont skiers took part last weekend in the New Hampshire State Jumping, Cross-Country Combined Ski Championships. Featured was the cross-country Class "A" competition which saw UVM's Frank Wall finish 2nd to Tauno Pulkkinen of the Finland Ski Club who is one of the finest foreign skiers performing in the United States. Tauno's time was 1:23:29 for the tricky 11 mile course and Wall finished with a 1:27:28 timing. Dick Osgood of the University of New Hampshire finished third, 20 seconds in back of Wall. This was the first time this season that Frank had beaten Dick. Both of these men are considered the number one and two collegiate cross-country skiers in the U.S. today.

Three UVM men placed in the Class "B" cross-country. They were Ed Sinclair 8th, Gerry Baril 15th, and Frank Brown 19th. In the jumping all the contestants were hampered by a very icy slope and some of the best jumpers in the country took spills. Bart Larrow and Gerry Baril placed in Class "B". In the Nordic Combined, which is the total score for jumping and cross-country, Gerry Baril and Frank Brown took 4th and 5th, respectively, in Class "B".

FROSH SNOW BIS

In a recent meet held between the UVM frosh skiers, and Burlington High, Frank Brown put on a one man show, as he took first place in the cross-country, jumping, and the slalom. In the cross-country, Edwey and Turner took 3rd and 4th respectively for the Kittens. The slalom competition saw Brown, Letarte, and Eaton take the first three places for UVM. Coach Charlie Traverse's Kittens wound up the day by placing one, two in the jump and finished with an over-all score of 285.66 to 280.70 for BHS.

Winners of the Men's Doubles Bowling Tournament Bert Goodman (on left) and Bob Shapiro (on right) receive their trophies from Mr. Hardy who ran the tourney. Goodman bowled the high game in last weekend's event, 139.
(Photo by Sherwin Iverson)

In spite of the fact that Sig Phi Ep did not win a ballgame in the playoff round, they did place Phil Knapp on the second team. Phil averaged 9.8 a game. His fine play kept Sig Ep in contention in many games.

End Season On Good Note, As Lovejoy, Mann, Pace Scorers

Last Wednesday night, the University of Vermont Catamounts wound up the basketball season with a decisive 87-70 victory over the Wildcats of New Hampshire. This was the second time that the Cats had been victorious over a Yankee Conference foe and both times N. H. was the victim. The game marked the last appearances of captain Bill King, Bob Lovejoy, and Rollie Massimino, who all showed well in their finale.

The first quarter was a blistering one as both teams scored from in close. Skip Burkhardt threw in the first two points for the Cats and after Armstrong traveled with the ball, Bob Lovejoy tallied a three pointer as he was fouled on his successful field goal. New Hampshire fought back to a 10-7 advantage and this was the last time Coach Bob Kerr's boys were out in front. King made two foul shots after Bill Mann's left handed lay-up to tie the score. Both teams exchanged foul shots for a few minutes and then Lovejoy and Mann of Vermont, and Dave Lloyd of N. H. had a personal scoring battle which took the Evansmen to a 29-23 lead. From here on in the Cats didn't have any trouble as King, and Massimino hit on a jump and drive to stretch the lead to ten points. With approximately four minutes left in the first half, Ericson and Ferguson scored two quick baskets for the hungry wildcats, but Lovejoy's set stopped the rally with time running out in the half. A beautiful full court pass from Burkhardt to King for two drew a big hand from the small crowd, and baskets by Lovejoy and King ended the half with the home team on top, 45-33.

In the second half, the Cats broke the contest wide open as the first string hit consistently to pile up a 15 point spread, 62-47. New Hampshire, who was without the services of their top players Fran McLaughlin and Bob Gordon, rallied to a 10 point deficit on shots by Swanson and Armstrong. A 30 foot set shot by Lloyd closed the gap to eight points, but once again the Wildcat threat was halted on two quick baskets by Mann and Burkhardt. Dick Dennis and Joe Lovell accounted for the last 8 of 10 Vermont points. Lovell made four foul shots, and Dennis made two field goals including the last basket of the night.

The Cats had a real good night and the win was number six as against twelve losses on the overall season record. Many thought Lovejoy's performance was his best, this campaign and his 23 points tends to help the argument. Bill Mann played a good game scoring 20, Burkhardt had 15, and King had 14. High man for N. H. was Lloyd with 20 points which included 10 out of 13 field goal attempts.

Mann hits for two as Lovejoy looks on. (Photo by Eisner.)

"Skippy" Burkhardt To Captain '56-'57 Five

THE SIDE-LINE CAT

by

ED WALKER

This week's editorial deals with a certain problem revolving around two words, "training-table." For those who do not know what t & t means, let it be said that they consist of a delicious, full course dinner for a varsity football player at one of Burlington's restaurants, free of charge, that is "for the player." In other words, a man who plays vassity football gets a free meal every night during the season while your basketball and baseball players get a late supper, "at their own expense," and a good pat on the shoulder for the "old-college-try."

For the benefit of all you gridiron men and fans, this "S-L Cat" is in favor of the "training-table" for all three sports, and at the same time not trying to show any preference for one sport over another. Also, I'm not forgetting you skiers and trackmen who in the future should jump on the wagon and get t & t - but first comes your three "major" sports.

The football team's "training-table" is the most important since a player's weight must be kept in order for him to perform to the best of his ability. If an end, for example, dropped from 195 pounds to 175, he could not possibly make his blocks and tackles. This applies to every man on the team and t & t helps him keep his playing weight.

Jumping to basketball and baseball, you have a case of late evening practices that tend to stop the ball player from eating a cheap, economic fraternity meal. Most of the time he will be forced to eat down town where his meals will be higher priced. These sports are also tremendous weight losing propositions and let it be said once again, that an athlete must be at his physical peak to spark the team to victory.

After next year, the University is dropping out of Yankee Conference football but will continue in basketball and baseball. The two sports in which we stand a chance of playing in a post-season N.C.A.A. tournament do not have "training-tables." Should we take away our football team's t & t because they are drifting away from Yankee Conference? NO! (If you do think yes, try to picture a team averaging 160 pounds) As far as basketball and baseball is concerned, definitely YES, based on my previous reasons plus the fact that they have 20 and 25 game schedules, respectively.

Since the University has a policy of not giving many scholarships, the least they can do in this "S-L Cat's" eyes is give all three "primary" sports a "training-table" program plus other sports such as track and skiing, who also need this helping-hand to make UVM's athletic program function properly. This aid or assistance will acknowledge the wonderful effort put forth by the players.

* * * * * * * * *

Just the facts . . . Vermont's win over New Hampshire was the 151st victory for Coach Fuzzy Evans. . . . The freshman team in a recent election chose Clyde Lord as the honorary frosh captain. . . Bill King, Bob Lovejoy, and Rollie Massimino all performed admirably in their last game. . . For all sports enthusiasts, a contest is building up a big storm around town. All that a contestant is required to do is pick the name of a horse, and if you win, you get the horse, $1,000, and a free trip to the Kentucky Derby. The CYNIC's policy is not to cover sports on the national scene, but if one of you "lucky" individuals should win, see me, since we do need a reporter for the baseball team's southern trip. . .

Sports From Southwick

by JOAN ARMSTRONG

The Vermont Women's basketball team succeeded in obtaining a 1-1-1 record at their own sports day last weekend. The teams included in the tournament were from McGill University, Green Mountain Junior College and Middlebury College.

The Vermont Kittenettes squeezed out Green Mt. 18-15, tied Middlebury 8-8 and were sucumbed by McGill 12-10. McGill, using their own three-court rules were able to hold their lead over Middlebury in the second half using American rules to win 14-11. However, they were the victims of Green Mt. 16-3. Green Mt. also trounced Middlebury 21-14.

In the final scoring McGill's record was 2-1, Middlebury 0-2-1 and Green Mt. also won two and lost one. The sports day proved to be entertaining for all who participated and for the spectators. All four teams were quite evenly matched in this rival intercollegiate contest. All four teams will try to improve their status next weekend at Skidmore's sports day. The Vermont Women's Swimming team will also participate. The Kittenettes now have a seasonal record of 3 wins, one loss and one tie in the intercollegiate basketball tournament.

Helen Wichowsky, a senior, and one of the mainstays on the UVM Women's Ski team helped to pace the United States to victory last weekend in the Ladies International Ski Meet held at Val David in the Laurentians. When held in the United States, the meet is called the Kate Smith Trophy Race.

Defending the Morgan Trophy crown which it won last year, the United States took the first four places in the Giant Slalom and four out of the first five in the combined.

Helen made a commendable showing by placing third in the Combined Slalom, fourth in the Giant Slalom, and sixth in the Slalom to help the United States pile up 365.12 points over the 154.76 points for the Canadian girls.

Last weekend University of Vermont ski star Janice Bailey, won the USEASA Eastern Women's Downhill and Slalom Combined Championships on Bromley's East Meadow course.

Jan who placed second in the downhill Saturday, sped through the 30 gates in two minutes, 16 and four-tenths seconds on two runs to win the slalom. Mary Cox, another ace woman skier, was second in the slalom with a 2:28.4 time and also finished second in the combined.

Basketball Statistics

by DICK SCHATTEN

The 1955-56 basketball season came to an end last week as UVM downed New Hampshire 87-70. The victory gave Vermont a 6 won, 12 lost season record. The Cats defeated New Hampshire twice, Norwich twice, Union and Clarkson.

Scoring records show that Captain Bill King, who won the MVP award, topped the scorers with 275 points in eighteen games for a very respectable 15.3 points per game average. "Skip" Burkhardt, who missed one game because of an injured hand, scored 264 points in seventeen games for the club's top per game average of 15.5, one of the highest single season per game averages ever compiled here at UVM.

Bill Mann dropped in 68 field goals and 52 of 68 foul attempts in eighteen contests for 188 markers and a 10.5 average. Bob Lovejoy averaged an even 10 per game by chalking up 180 points while playing in every encounter. Al McLam, who was forced to leave school after the fall semester because of the illness of his father, scored 44 points in eight games for a 5.5 average. Dickie Dennis collected 28 two-pointers and canned 18 of 28 free throws in seventeen games for 74 points, giving him an average of 4.4 points per ball game. Jack Lafave got 47 points in seventeen games for 2.7 points a game, and Ronnie Bouchard rounded out the top eight scorers with 45 points in sixteen contests for a 2.8 average.

The freshman scoring went this way: Clyde Lord played in five games and scored 103 points for a 20.5 average. Clyde broke his wrist in mid-season. Bob Kuchar, the team's top scorer played in all eleven games and collected 208 points for a 19.0 per game tally. Charlie Isles scored 135 points in eleven contests for 12.2. Arnie Branch had 10.1 in eleven encounters by accounting for 114 points. Bob Gallagher, who broke his ankle in the same game that Lord injured his wrist, played in the first five games and scored 64 points for a 12.4 average. Denny Morse played in all but one game, scored 74 points and had a 6.7 average. Joe Bourassa scored 51 points in nine games for 5.6. John Lambert played in the same number of games and tallied 50 points for a 5.5 average, and Harlan Sylvester hit for 40 points in eleven games for 5.0.

High Scoring Star Choosen

The University of Vermont Athletic Council recently announced that Arthur "Skippy" Burkhardt has been elected captain of the 1956-57 basketball team. Elections for captaincy were held after the last game and he was chosen to spearhead next year's team to victory. Skip, who hails from Rutherford, New Jersey, also had the honor of Captaining Vermont's freshman team on which he starred.

While playing forward this year, Skippy had an average of 15.5 points per game. He played in every game except the Dartmouth encounter, in which he was out with a sprained hand. Even though the Cats had a losing season, the Skipper gave it the old-college-try in every game, and in the last New Hampshire game, Skip even showed up with a pair of spectacles that he hoped would help his shooting eye. They did!

Skippy graduated from Blair Academy where he played on an All-State Champ Team and participated in the Eastern Championships. He is in the College of Technology here, and is majoring in industrial management. The 6'2", 185 pound junior, is a member of Kappa Sigma fraternity and competes in most intramural athletics.

A Pitcher, Who Hits?

LEW DEITSCH

Lew Deitsch, class of 195 is a baseball team's top pitche An industrial management majo Lew would like to play profe sional baseball or go into bus ness with his father next yea

This is his fourth season baseball—one of freshman ar three of varsity. With th blazing fastball that Lew noted for he had a fine 5-1 r cord last season.

Lew thinks we have a goo team this year and have a ve good chance of going to t NCAA tournament. "Pitche Dave Klein, Wagner, and Rus Henrichs will help our chanc immensely."

At Montclair Academy in Mon clair, New Jersey, Lew play varsity basketball and baseba Here at UVM he plays intram al sports for Phi Sigma Del fraternity.
